

[Demo] NLP Dataset for Customer Service Automation

Company Type	Wealth Management Firms
Inquiry Category	Market updates and economic outlooks
Inquiry Sub-Category	Long-term trends
Description	Customers seek information on long-term trends such as demographic changes, technological advancements, and sustainability. They want to understand how these trends may present investment opportunities or threats.
Data Size	11,198 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Wealth Management Firm" customer inquiry. (Purchased data will not be masked.)

_____ increasing _____ energy _____ the profitability of traditional _____ sources _____ time?
 The increased emphasis _____ may affect _____ of conventional _____.
 Will the _____ energy affect earnings _____ regular _____?
 _____ much can _____ attention _____ sustainable _____ diminish _____ returns _____ long-established _____ sectors?
 What _____ attention to sustainable power _____ on _____ returns _____ sectors?
 Will the emphasis on _____?
 How _____ the _____ renewable _____ earnings?
 How can _____ on _____ affect _____?
 Is the _____ traditional energy _____ a shift towards _____?
 Is it _____ shifting _____ renewables affects _____ of _____ fuels?
 _____ increased _____ on renewable _____ impact _____ energy's _____?
 _____ profitability _____ be impacted _____ investments _____ alternative resources.
 Is the _____ on _____ to _____?
 Is _____ increasing shift _____ renewable energy _____ of traditional _____ over _____?
 Will _____ towards sustainable power affect _____ fuel _____?
 Will a _____ focus on clean _____ profits _____?
 What _____ a _____ do _____ profitability?
 _____ an _____ renewable energy _____ cause traditional energy to be _____?
 Increasing _____ green options _____ the _____ potential of conventional _____.
 _____ it affect the _____ sources?
 Will _____ affect traditional _____?
 Will _____ focus _____ power _____ profits in the _____?
 The profitability of _____ of _____ may _____ increased _____ to clean _____ sustainable electricity _____.
 _____ profitability of traditional _____ be _____ by renewable _____.
 _____ emphasizing renewable _____ profits _____ by non-renewables?
 _____ concentration _____ green power will _____ profit _____.
 _____ the _____ to sustainable power _____ financial _____ the fuel sectors?
 _____ renewable _____ affect traditional _____?

Will _____ older _____ of energy _____ affected by the growing _____ to _____ and _____ electricity _____?

Does _____ bigger _____ renewable energy _____ traditional energy _____?

_____ of _____ sources affected _____ renewable energy emphasis?

_____ conventional _____ will _____ influenced by _____ focus on renewables.

_____ renewable energy's _____ on _____ profits _____?

_____ of _____ will _____ the profit potential.

_____ the profitability _____ conventional energy going to be impacted _____?

_____ profit _____ of conventional fuel forms be _____ by _____ reliance _____?

A _____ to renewable _____ affect traditional _____ source _____.

_____ renewable _____ the _____ traditional energy companies?

_____ increased focus _____ energy's profitability?

_____ might _____ clean power affect _____?

Does _____ focus _____ affect profitability?

Will an _____ sources hurt profits for _____?

_____ will a _____ renewable energy _____?

_____ an increasing shift _____ energy _____ financial prospects of _____?

_____ on renewable _____ influences the _____ of _____ sources.

Can an _____ renewable _____ cause traditional energy to _____ money _____?

How _____ to _____ fuels affect payouts _____ fuel?

Will _____ energy _____ the profits from _____ sources?

How will emphasizing _____ the profits earned _____?

How does _____ growth of _____ affect _____ earnings?

Traditional _____ be _____ by _____ shift towards renewable _____.

Will relying _____ green _____ diminish the _____ potential of _____?

_____ growth of renewable _____ the _____ conventional energies?

Will increased _____ to _____ and _____ electricity _____ the _____ forms of energy?

_____ profit _____ of conventional fuel forms _____ diminished?

Will the focus _____ clean _____ the _____ regular _____ sources?

_____ the shift to _____ affect _____?

What _____ does _____ eco-friendly alternatives have _____ profits?

Does rising _____ profits _____ legacy fuel sources?

How _____ shift to renewable _____?

Is the focus _____ renewable energy _____ affect _____ of _____?

_____ energy going to affect fuel industry _____?

Will investment _____ energy hurt the _____ of _____?

_____ shall _____ increased _____ towards sustainable fuels _____?

Increased _____ on _____ may _____ the financial returns _____ customary _____.

_____ emphasis on _____ affect the profitability _____ energy sources.

Financial _____ from long-established fuel _____ hurt by _____ sustainable power.

_____ will _____ energy change _____ profitability of _____ time?

_____ the _____ focus _____ clean power erode the _____ methods?

_____ the profitability of energy _____ affected _____ renewable energy?

_____ usage _____ renewable _____ affect profits?

_____ the emphasis on _____ affect _____ fuel industry?

_____ increasing emphasis on renewable _____ profitability?

How will the _____ on renewables _____ the _____ energy?

_____ renewable _____ attention, what can _____ to affect _____ energy _____ profitability?

_____ emphasis on renewables hurt _____?

Can _____ renewed focus on _____?

The earnings _____ energy _____ be _____ by _____ renewable sources.

____ emphasis ____ affect profitability?
 ____ emphasizing renewable sources ____ non-renewables ____?
 There is an ____ between ____ renewable energy and ____ viability ____ fuels.
 ____ renewable energy ____ yields?
 Does the ____ of ____ resources ____ traditional sources?
 ____ clean and sustainable electricity ____ an ____ on ____ profitability ____ forms of ____?
 Will ____ emphasis on ____ resources ____ profits?
 Will ____ on ____ energy eventually ____ the ____ produced ____ forms ____ power production?
 Is ____ shift ____ renewables affecting ____ financial ____ traditional ____ sources?
 Legacy ____ will be ____ by ____ on ____ energy sources.
 ____ there ____ between increased ____ and decreased ____ viability of conventional ____?
 Is ____ emphasis ____ fuel industry ____?
 Will the ____ of traditional ____ be affected by the ____ focus ____?
 Will the rise of renewable energy ____?
 The profits generated ____ of ____ production over time ____ be affected by a ____.
 ____ increasing usage ____ energy affect ____?
 How ____ a ____ towards ____ affect ____ profits?
 ____ will ____ focus ____ renewable energy ____?
 How will ____ sources ____ non-renewable profits ____ the ____?
 Is ____ that ____ can ____ financial ____ from long-established ____ sectors?
 How will increased ____ affect ____ of old ____ fuel?
 What is ____ relationship between the rising ____ in ____ sectors?
 Will the profit ____ of ____ forms diminish as a ____ options?
 Does increased ____ eventually ____ returns to go down?
 Is traditional energy's ____ by ____ to renewable ____?
 ____ towards sustainable ____ affect profits from legacy ____?
 Will ____ on clean ____ the ____ from ____ methods in the ____ run?
 ____ between ____ emphasis on ____ and decreased financial viability of ____ fuels?
 ____ the ____ of renewables affect ____ conventional ____?
 Can increasing the ____ of renewable ____ of ____?
 Concentration of ____ power ____ profit potential from ____.
 ____ increased utilization ____ energy ____ non-renewables ____?
 ____ an ____ on ____ traditional energy to be less ____?
 Does ____ focus ____ renewables ____ traditional energy ____?
 ____ more ____ on clean ____ affect ____ regular ____ sources?
 ____ an increase in the ____ affect traditional energies ____?
 Can ____ on renewables ____ energy's profitability?
 Does ____ focus ____ affect ____ energy's ____?
 Will the ____ sustainable ____ from legacy fuel sources?
 ____ renewables cause traditional ____ to be less profitable ____ long run?
 ____ increasing the ____ of ____ energy affect ____ profit ____?
 ____ there ____ a ____ increased ____ renewables and ____ financial ____ of conventional fuels?
 ____ can renewable ____ on traditional ____ profitability?
 How will ____ energy affect ____?
 Is ____ emphasis on renewable ____ financial viability of conventional fuels?
 ____ moving ____ renewable ____ affect profitability for ____?
 ____ focusing more on clean ____ long run?
 Will ____ of ____ fuel ____ diminished by ____ increasing reliance on green ____?
 ____ the focus on ____ of traditional energy sources?
 ____ renewables ____ the profitability of conventional ____?

Will clean energy _____ from the _____ sources?

Will the _____ renewable _____ change _____ profitability?

_____ energy's _____ affect traditional _____ eventually?

_____ emphasis on renewable energy _____ profitability of conventional _____?

_____ an increasing shift towards _____ financial _____ of _____ energy?

_____ shift to _____ affecting _____?

_____ the _____ attention to clean _____ electricity generation _____ the _____ of _____ energy?

_____ on renewables may _____ energy less profitable _____.

Does a _____ emphasis _____ traditional energy's bottom _____?

Does _____ renewable _____ affect _____ profits _____ traditional sources?

_____ rise of _____ harm profits of _____ sources?

What impact will renewable _____ have _____ are?

_____ the _____ of eco-friendly alternatives _____ on profits _____ conventional means?

_____ of renewable energy _____ affect the profit _____.

_____ fossil _____ will be _____ eventually by investments _____ resources.

Is the increasing _____ renewable energy _____ sources' profitability?

Will _____ renewed _____ on _____ from conventional methods?

_____ will the _____ affect profitability?

_____ the _____ energy affected _____ a shift?

Does _____ shift _____ renewable energy _____ traditional _____ industry?

_____ profitability of _____ energy affected by _____ renewables?

The increasing _____ renewable energy might _____ an impact _____ the _____ conventional _____.

Is the increased reliance _____ hurt financial _____?

_____ power will affect _____ fossil _____

_____ a _____ to renewable sources _____?

Will _____ focus on _____ affect profits _____ methods in the _____?

_____ will _____ affect profitability?

Clean power might _____ obtained via _____ generation _____

Does a _____ focus on _____?

_____ arise when _____ energy _____ alter profit potentials associated _____ plays?

Will _____ energy affect traditional _____?

_____ attention _____ energy _____ affect _____ earnings.

_____ the growth _____ renewable _____ profits?

_____ clean _____ may affect earnings _____ via _____ methods.

_____ shifting _____ affect conventional _____ profitability?

_____ traditional forms of _____ production be _____ a growing _____ on _____ energy _____?

Does shifting _____ affect _____?

_____ on renewable energy _____ traditional energy _____ profitability?

_____ a focus _____ renewable _____ affect the profits of _____?

Will _____ sustainable power affect _____ profits _____ legacy _____ sources?

Can _____ in _____ affect _____ profitability?

_____ more _____ green _____ affect _____ potential?

_____ impact will the focus _____ on _____?

_____ power undermine _____ from conventional _____ in _____ long _____?

A greater _____ renewable _____ impact on _____ profits of _____ energy sources.

_____ a _____ to renewable _____ affect _____?

_____ will _____ on _____ energy _____ profitability of traditional _____ sources _____ time?

_____ focus _____ renewable energy _____ affect _____ of conventional _____ sources.

Will _____ profit potential _____ conventional fuel _____ on _____ options increases?

_____ growing use of _____ resources _____ energy sources?

____ renewable energy ____ traditional ____ profitability?
 How ____ affect traditional energy ____?
 ____ clean ____ profits from conventional ____?
 Will ____ in ____ to ____ earnings from traditional sources?
 ____ alternatives have on ____ by more conventional means?
 ____ options grow, ____ the ____ on ____ profit margins of ____ power ____?
 ____ renewable energy ____ more ____ what ____ the ____ energy ____ have ____ their profitability?
 How ____ towards sustainable ____ payouts for ____ fuel?
 ____ shifting to ____ bad for profits ____?
 How ____ energy affect the ____ of conventional energy?
 ____ focus on ____ energy will ____ of ____ sources ____ time.
 ____ profitability ____ older ____ of ____ be influenced ____ increasing attention ____ sustainable electricity generation?
 The ____ renewables ____ affect ____ companies.
 Can an increased focus ____ energy's ____?
 ____ will increased attention ____ affect earnings ____ traditional ____?
 Will ____ concentration ____ power ____ potential?
 ____ to sustainable ____ will affect ____ legacy fuel ____.
 ____ concentration ____ power will reduce profit ____ sources.
 ____ can ____ increased ____ to renewable resources ____ to ____ source earnings in ____?
 ____ a shift ____ renewable ____ traditional energy profits?
 As ____ energy gets more attention, what ____ they ____ traditional ____?
 ____ an ____ hurt profits for traditional ____ sources?
 ____ can a shift ____ renewables ____?
 ____ the ____ potential ____ be ____ by increased utilization ____ renewableenergy?
 Can ____ energy make ____ less profitable over time?
 Will ____ focus on clean energy ____ regular ____?
 ____ focus ____ renewable energy ____ profitability?
 ____ focusing ____ green ____ profits?
 Will the ____ profits ____ by conventional energy?
 The ____ potential of non-renewables ____ increased utilization of ____.
 ____ focus ____ renewable energy ____ the economics ____ energy?
 Is ____ energy ____ to affect ____ profitability ____?
 Profitability ____ by a ____ renewables.
 Should ____ increased focus ____ renewable energy ____ profitable?
 Will ____ clean ____ affect ____ earnings ____ regular sources?
 ____ on renewable energy ____ profits ____ by traditional power producers over ____?
 ____ growth of ____ energy affect profit ____ conventional ____?
 ____ changing ____ fuels affect ____ fuel ____?
 Is ____ of ____ by increasing utilization of renewable ____?
 ____ renewable ____ gets ____ what ____ can ____ anticipate on ____ sources' profitability?
 Will ____ an effect on traditional ____?
 ____ traditional energy's ____ emphasis on renewable energy?
 Will investing in renewable sources ____ the ____?
 Will ____ energy affect the earnings ____ the regular ____?
 Will the ____ production be affected ____ a growing ____ energy?
 The earnings ____ can be ____ by ____ focus on renewable ____.
 Will ____ growing focus on ____ affect ____ traditional ____ of power ____?
 How will attention ____ affect payouts for ____?
 What ways will the attention ____ impact ____ of ____?
 ____ the ____ of sustainable ____ diminish the profits ____ legacy ____?

How _____ to sustainable fuels affect _____ of _____ fuel?

Concentration on _____ power _____ affect _____ profitability _____ conventional _____.

_____ will _____ sustainable _____ of old _____ fuel for _____ long time?

Will _____ clean and sustainable _____ generation _____ profitability of older forms _____?

Will increased focus on clean _____ profits?

What _____ profits generated by _____ means in the sector?

Is the focus _____ profitability of _____ energy sources?

Is the financial _____ affected _____ an increasing _____ towards renewables _____?

How _____ the _____ focus _____ energy affect _____ traditional sources?

How can an _____ to _____ earnings from _____ sources?

_____ on _____ will _____ profit potential.

_____ can _____ power affect the _____ established _____ methods?

When _____ grow, _____ the profits _____ conventional power suppliers.

What _____ will an _____ attention to _____ earnings _____ sources?

_____ reliance _____ options will _____ the _____ potential of _____ fuels.

The _____ conventional _____ sources may _____ by _____ emphasis on _____ energy.

Is _____ renewed _____ on _____ to affect profits?

Will renewable _____ affect traditional _____?

Will more attention _____ affect _____?

_____ focus _____ energy _____ may impact legacy fuels' _____.

Can the _____ potential of non-renewables be _____ rising _____?

How _____ on renewable energy affect _____ of conventional _____?

The _____ renewable energy will _____ from _____ sources.

_____ increasing _____ on renewable _____ impact _____ of _____ sources?

_____ it true _____ on green solutions eventually _____ returns?

_____ focus on clean _____ affect _____ fuels' profitability.

_____ focus on clean power _____ be earned in the _____?

_____ a _____ emphasis on renewable energy _____ traditional _____?

Will _____ of renewable _____ profits?

Is there _____ correlation _____ the increased _____ and _____ reduced _____ of conventional fuels?

Is the _____ of _____ resources bad for _____ sources?

Will _____ growing _____ affect the profits of traditional power _____ the _____?

Will investment in _____ sources affect _____ of _____?

_____ focusing more _____ power impact _____ of conventional _____ long run?

Is it possible _____ rising _____ sustainable power _____ financial returns _____?

_____ concentration of _____ power _____ the profits of _____?

_____ increased _____ on _____ affect legacy fuels profitability?

How _____ renewable _____ sources' profitability _____ time?

_____ an increase _____ the _____ renewable energy affect _____ prospects _____ traditional _____ over _____?

Will the _____ of _____ affect _____?

Will _____ shift _____ energy _____ traditional _____ profits?

_____ on renewable energy _____ the profitability _____ conventional _____.

_____ derived from traditional energy sources may be _____ by _____.

_____ energy _____ impacted by _____ energy.

Does more _____ renewable _____ traditional energy's _____?

Can _____ emphasis on _____ the profitability _____ traditional energy _____?

The _____ on _____ affect _____ for traditional energies.

Is the _____ potential _____ by increasing use _____ renewable _____?

_____ obtained via energy _____ methods might _____ affected by _____.

Can renewable _____ industry yields?

____ the interest ____ sustainable ____ affect profits ____ ____ sources?
 ____ profitability of ____ will be jeopardized by investment ____ ____ .
 How ____ ____ sources ____ profits earned by ____ ?
 Is ____ of renewable ____ ____ revenue from traditional ____ ____ ?
 ____ shifting ____ ____ fuels ____ profitability?
 ____ returns from ____ fuel sectors ____ be ____ ____ rising ____ to ____ power.
 ____ ____ expect eco-friendly ____ to have an ____ ____ conventional supplies' ____ ____ ?
 Will a ____ on ____ energy affect ____ profits generated ____ traditional ____ ____ power ____ ____ ?
 ____ ____ change to ____ affect profitability?
 ____ ____ on ____ ____ destroy profits from conventional methods?
 ____ the profit ____ ____ power suppliers ____ ____ ____ options grow?
 Will the growth ____ ____ affect ____ ____ conventional energies?
 What will ____ ____ of ____ sources be impacted ____ ____ ?
 ____ ____ of ____ alternatives ____ profits generated ____ more conventional means?
 ____ focus ____ renewables ____ ____ energy's profits.
 Is ____ focus ____ on ____ ____ impact ____ ?
 ____ ____ on ____ ____ affect earnings at ____ power sources?
 ____ does ____ ____ mean ____ traditional energy ____ ?
 ____ increased attention to ____ ____ ____ energy's profitability?
 Is ____ a correlation ____ ____ emphasis ____ ____ and diminished financial viability ____ ____ fuels?
 How ____ ____ ____ affect traditional energy ____ ?
 ____ the profit ____ of ____ ____ forms ____ as a ____ ____ reliance ____ green options?
 ____ ____ in ____ sources impact ____ profitability?
 Will ____ energy change earnings ____ ____ power ____ ____ ?
 ____ might the increasing emphasis ____ renewable ____ affect ____ ____ of conventional ____ ____ ?
 What extent ____ ____ ____ sustainable power affect ____ returns from long-established ____ ____ ?
 ____ does ____ energy affect ____ sources' ____ over ____ ?
 ____ an increasing shift ____ renewable ____ ____ the financial ____ ____ energy sources?
 ____ there a correlation ____ increased emphasis ____ ____ ____ decreasing financial ____ of conventional ____ ?
 ____ a ____ ____ renewable energy ____ profitability?
 ____ returns ____ long-established ____ sectors ____ ____ lessened by ____ ____ to sustainable power.
 ____ do ____ ____ influence earnings ____ ____ energy?
 Increased ____ to renewable energy ____ ____ an ____ ____ traditional sources ____ ____ .
 ____ will ____ to traditional ____ sources' profitability ____ ____ ____ gets more ____ ?
 Does ____ ____ renewable ____ affect ____ ?
 ____ reliance on green solutions ____ ____ eventually ____ ____ ____ .
 How would the increasing ____ ____ ____ ____ affect ____ profitability of ____ ____ sources?
 Can the ____ of ____ ____ be ____ ____ ____ shift toward ____ energy?
 Is the emphasis ____ ____ energy changing ____ ____ of ____ ____ sources?
 What impact do you ____ focusing on ____ ____ ____ ____ ?
 I ____ ____ if ____ ____ on renewable energy will ____ ____ profits of conventional ____ ____ .
 ____ ____ of renewable energy may ____ ____ ____ .
 How ____ the increasing ____ ____ ____ energy ____ profitability?
 Will clean ____ ____ affect ____ for regular ____ ____ ?
 A ____ ____ ____ energy ____ affect ____ profits of ____ energy sources.
 ____ the profit of ____ ____ of ____ be affected ____ ____ increasing ____ to clean ____ ____ electricity generation?
 Does ____ ____ shift towards ____ ____ affect the financial ____ ____ ____ energy?
 Will attention ____ ____ ____ sustainable electricity generation change ____ profitability ____ ____ ____ energy?
 ____ can ____ ____ ____ affect traditional ____ profitability?
 Increased ____ ____ renewable energy ____ ____ traditional energy less profitable ____ ____ ____ .

_____ from traditional energy _____ are _____ undermined _____ growing adoption _____ resources.

Do _____ alternatives have an _____ on the _____ more _____?

How will _____ attention _____ sustainable fuels _____ fuel?

_____ correlation between _____ emphasis on renewables and _____ viability of _____?

_____ on _____ energy will _____ profitability.

How will _____ energies _____ economic _____?

Is _____ emphasis on _____ going to hurt _____?

Is _____ energy's _____ eventually _____ to _____ fuel _____ yields?

_____ clean energy _____ affect _____ from _____ power sources _____?

_____ renewable _____ change energy _____?

Can increasing the use _____ energy _____ the profit _____?

Increased _____ to renewable _____ impact earnings _____ sources

_____ the increase _____ reliance on _____ financial returns?

Is _____ profitability _____ conventional energies going to _____ eroded _____ sources?

_____ impact _____ the _____ have on _____ of conventional energy sources?

_____ the focus on clean energy _____ regular _____?

_____ will _____ increase _____ to renewable energy impact _____ sources?

Are _____ energy _____ affected _____ a shift _____ renewable _____?

_____ focus on clean power affect _____ conventional _____?

_____ the emphasis on green _____?

_____ focus on _____ profitability of energy.

Increasing reliance on _____ options will _____ potential _____ forms.

Does the _____ renewable _____ the profitability _____ traditional _____ sources?

Does _____ on _____ energy _____ traditional energy's profit?

_____ emphasis _____ energy affect profits _____ the _____ sources?

_____ emphasis on renewable _____ will _____ traditional _____

Increased _____ on _____ solutions could _____ by traditional means.

Will a _____ on clean power _____ profits _____ methods in _____?

How _____ renewable _____ energy _____?

Financial returns from _____ sectors _____ diminished _____ attention _____ sustainable power.

Is _____ possible _____ emphasizing renewable sources _____ profits?

Does the increased _____ energy _____ fuels' profitability?

Concentration on _____ power _____ profit _____ conventional sources.

What _____ an increased commitment _____ energy source earnings eventually?

_____ a _____ focus on _____ power erode _____ the _____ methods?

Investments in alternative _____ fossil fuels' _____.

_____ the _____ potential of _____ forms _____ as a result _____ green options?

_____ profits _____ traditional _____ be _____ by _____ emphasis on _____ energy?

_____ dependence _____ green options reduce the _____ potential _____ forms?

Will _____ shift _____ traditional profits?

Is it possible that _____ focus _____ renewable _____ profitable over time?

Will renewable energy's _____ traditional _____?

_____ on _____ energy _____ the profits of conventional energy _____ in _____ future?

_____ on renewable _____ impact _____ profitability of _____ energy _____ in the _____ run?

Financial _____ can be affected by _____ attention to _____

_____ sources, there will be _____ for _____ generated using previous _____.

How _____ power _____ for established _____ generation methods?

Will _____ increased _____ renewable energy _____ energy's profits?

How may _____ emphasis _____ profitability of conventional energy _____?

The focus _____ energy _____ affect the _____ sources.

____ the ____ of ____ eventually ____ impacted by ____ in alternative ____?
 Will ____ profitability ____ conventional energies ____ by investment ____ renewable ____?
 ____ can an ____ to renewable ____ traditional energy source ____?
 Does increasing emphasis on renewable ____ of ____?
 ____ will the shift ____ power ____?
 How ____ the ____ on ____ energy affect ____ of the ____ sources?
 The financial ____ of traditional energies may ____ shift ____ renewables.
 Increased focus ____ clean energy ____ legacy fuels' ____
 Will ____ focus ____ earnings ____?
 Will ____ focus of ____ traditional sources' ____?
 What ____ to ____ margins ____ power ____ when renewable ____?
 Will the profit ____ of conventional fuel ____ a ____ on ____ options?
 Increased focus ____ clean energy sources ____ fuels' ____.
 Will ____ greater focus ____ renewable energy affect ____ conventional ____ sources ____ run?
 Can the increasing ____ on renewable ____ energy ____?
 How ____ the ____ on renewable energy ____ the ____ of ____?
 ____ of renewables ____ profit opportunities?
 ____ attention ____ fuels affect payouts ____ old-fashioned ____ a long time?
 Will ____ rise ____ renewable ____ traditional ____?
 Will ____ renewed focus on clean power cause ____ from ____?
 ____ of traditional ____ may be impacted ____ the emphasis on ____.
 Will ____ attention towards sustainable ____ profits ____ fuel ____?
 ____ the ____ of ____ affect the ____ potential?
 How ____ sustainable fuels affect payouts ____ old- ____ fuel?
 ____ increasing shift towards ____ sources affect ____ financial ____ traditional ____?
 ____ the emphasis on renewable sources ____ earned ____?
 Increasing ____ to ____ sustainable electricity ____ can affect the ____ older ____ of ____.
 ____ energy ____ difference in ____ of regular power sources?
 Does ____ reliance ____ green solutions ____ the ____ traditional means?
 When ____ options ____ what ____ to the ____ of Conventional ____ suppliers?
 How will ____ profitability ____ traditional ____ be impacted ____?
 How will ____ focus ____ affect ____ energy?
 Will the ____ of ____ energy be ____ the ____?
 Will ____ growth of ____ energy ____ the ____?
 ____ growing focus affect traditional ____?
 The ____ from ____ forms ____ production may ____ a growing focus ____ renewable energy.
 ____ in renewable energy affect traditional ____?
 Can increasing ____ energy impact ____ energy's ____?
 ____ profit potential ____ conventional ____ forms ____ with ____ reliance on green options?
 ____ the attention ____ sustainable power ____ profits ____ sources?
 Will ____ clean ____ affect profits?
 Does the ____ green ____ profitability?
 Will an ____ on renewable ____ impact traditional ____?
 ____ an ____ on renewable ____ affect traditional ____ profitability?
 ____ emphasizing renewable ____ profits?
 When ____ options grow, ____ does ____ power suppliers change?
 How ____ focus ____ resources ____ profitability?
 ____ will focusing ____ renewable ____ affect ____ over ____?
 Will the profitability of ____ affected by ____ to ____ sustainable ____ generation?
 Is ____ reliance ____ solutions ____ erode ____ financial returns?

How ____ a ____ energy ____ profits?

____ to renewables affect profitability for ____?

____ focus ____ affect profits ____ legacy fuel sources?

Will ____ renewable energy ____ the ____?

____ focus on renewables ____ energy's ____?

Will ____ of energy be affected by ____ to clean ____ sustainable electricity ____?

____ impact could ____ renewable energy have ____ profits ____ conventional ____ sources?

Should traditional energy ____ renewable ____?

____ renewable ____ more ____ what ____ anticipated on traditional energy sources' ____?

Can renewable energy's emphasis ____ affect ____?

Will ____ toward ____ power ____ profits from legacy ____?

____ commitment to ____ traditional energy source earnings in ____

____ a ____ on ____ affect traditional energy's profit?

____ shifting to ____ fuels affect the ____ fuels?

Increased ____ on ____ energy ____ traditional ____ less profitable in ____.

____ shifting ____ affect ____ for ____ fuels?

Is ____ correlation ____ increased emphasis ____ energy and reduced ____ viability for ____?

____ on ____ energy ____ affect traditional energy's ____.

What is ____ between renewable energy ____ profits ____ sectors?

The ____ of ____ energy ____ may be affected by ____ renewable ____.

Will the ____ profits from legacy ____ sources?

____ will the ____ renewable ____ affect ____ sources' profitability ____ time?

Will the increase ____ attention ____ and ____ generation ____ of ____ forms of energy?

Will the ____ of ____ energy affect profits ____?

How ____ emphasis ____ energy impact the ____ energy sources?

____ focus ____ energy ____ earnings from regular ____ sources?

Will ____ towards sustainable power affect ____ from ____?

Growing ____ renewable sources might affect ____ earnings ____.

Is the ____ on renewables going ____ of ____?

____ increasing ____ energy ____ the ____ of traditional energy sources?

Can increased emphasis on ____?

____ are questions about the ____ of ____ traditional ____ profits.

____ profits of conventional ____ impacted by a greater focus ____.

How ____ to ____ affect profits?

Will the focus on ____ energy ____ income ____ sources?

Can ____ in focus on ____ cause ____ energy to ____ profitable?

Will increasing ____ green options ____ the ____ potential of ____?

____ will the attention to ____ to earnings ____ sources?

____ might ____ focus ____ renewable ____ profits ____ conventional ____ sources over time?

Can ____ profitability ____ energy ____ affected ____ the ____ to renewable ____?

____ green ____ the ____ potential of conventional fuel forms?

Will ____ emphasis ____ renewable resources ____?

____ of ____ forms of ____ affected ____ to clean ____ sustainable electricity generation?

____ sources ____ affect ____ profits earned by ____.

____ will the emphasis ____ affect ____ the future?

Concentration on ____ power ____ potential for ____ sources.

Can increased focus on ____ energy ____ traditional ____ less ____ time?

Does ____ renewable energy affect ____ energy's earnings?

Will ____ energy be affected ____ to renewable energy?

____ there ____ effects on traditional energy ____ renewable ____?

Is the _____ towards sustainable power going _____ fuel _____?

_____ clean energy sources will _____ fuels' profitability.

_____ profitability _____ conventional energy will _____ jeopardized _____ investment in _____.

_____ renewable _____ affect traditional _____ yields?

The _____ energy will _____ the _____.

_____ shifting _____ renewable _____ affect _____ fuel _____?

_____ happens to _____ margins of _____ suppliers _____ options grow?

What _____ growing focus _____ sources _____ on _____ earnings?

_____ the emphasis _____ affect _____ profitability?

_____ towards _____ energy affect _____ traditional energy industry?

_____ increasing shift _____ renewable sources _____ the _____ prospects of _____?

Are _____ profitability _____ renewable _____ increasing focus?

_____ does focusing on renewable sources affect _____ traditional _____?

Does _____ increased _____ energy impact _____?

Is _____ renewable energy _____ the _____ energy sources?

_____ you _____ me how _____ on _____ impacts profits?

Will the profitability _____ old forms of energy _____ by _____ clean and _____?

_____ the _____ to _____ profitability?

A shift towards _____ affect _____.

Increasing _____ on _____ power will _____ the _____ potential of _____.

The emphasis _____ renewable energy _____ of money.

Will a focus _____ energy _____ the _____ of _____ power _____ over _____?

_____ the emphasis _____ profits for traditional energy _____?

Will _____ focus _____ energy _____ impact legacy fuels' _____?

Can increasing _____ renewable energy _____?

_____ more emphasis _____ traditional energy's _____?

As _____ more _____ what _____ the _____ be on _____ energy sources' _____?

Should _____ profitability of traditional _____ by _____ to _____ energy?

_____ renewable energy _____ to affect _____ of _____?

Will clean _____ impact profits _____ on _____ long run?

Will _____ concentration affect _____ potential _____ conventional _____?

_____ might _____ of _____ energy sources be _____ by a greater _____ on _____?

How much _____ attention _____ affect fuel _____ returns?

_____ on renewable energy going _____ conventional energy profitability?

_____ focusing _____ green energy _____?

Will _____ emphasis _____ energy hurt _____?

Increased _____ renewable _____ may affect _____ profit _____ of _____.

Emphasizing renewable _____ will _____ earned _____.

Will renewable _____ increased _____ affect _____ traditional sources?

Will _____ on clean power _____ profits _____ conventional energies _____ future?

Is the _____ of traditional energy _____ by _____ to _____?

Will a growing emphasis on _____ affect _____ generated _____ traditional forms _____ production _____?

The _____ of _____ energy sources _____ impacted _____ focus on renewable _____.

_____ profitability of traditional energy _____ by _____ to renewable _____?

How will the _____ on _____ profitability of conventional _____?

_____ increased reliance on _____ solutions going to _____?

_____ resources may _____ revenue streams derived _____ traditional energy _____.

How do _____ sources affect _____ energy?

Can _____ focus _____ make traditional _____ less profitable _____ time?

_____ focusing more on _____ power _____ the long-run?

Will focusing _____ on _____ power impact _____ earned _____ the future?

Is _____ a correlation _____ emphasis _____ diminished financial _____ conventional fuels?

As renewable energy _____ attention, what can _____ to _____ profitability?

Is _____ emphasis _____ renewable energies _____ hurt _____?

Will a _____ on renewable energy affect the _____ traditional _____ over _____?

_____ attention towards sustainable power _____ profits _____ fuel sources?

_____ would _____ focus on renewable energy affect _____ of _____?

_____ an emphasis _____ affect _____ energy _____?

Will _____ profits of _____ sources?

_____ growing _____ energy _____ affect _____ profitability _____ conventional energy sources.

_____ we _____ eco-friendly energies to impact _____ supplies' _____?

Will _____ renewed _____ on _____ from conventional methods?

The _____ of energy could be affected by _____ attention _____ clean _____ sustainable _____.

_____ will _____ effect _____ energy sources' profitability?

When _____ options grow, what happens _____ for conventional _____?

Will _____ focus _____ energy sources _____ the _____ of legacy _____?

The _____ potential _____ non-renewables _____ be _____ increased _____ of renewable _____.

rising _____ power diminish _____ returns from long-established _____

_____ have negative effects on _____ profits?

_____ on _____ energy affecting traditional energy _____?

_____ impact _____ renewable sources _____ non-renewables' profits?

Revenues _____ energy sources may _____ undermined _____ adoption _____ renewable _____.

Will _____ affect _____ profitability _____ energy?

_____ profits of _____ sources might be _____ by _____ on renewable _____.

_____ the _____ on renewable _____ hurt _____ sources _____ income?

_____ the _____ prospects _____ energies _____ increasing shift to renewable sources?

_____ growing focus _____ will _____ energy profitability.

_____ of renewables _____ profits?

Increasing attention _____ sustainable _____ will affect _____ old-fashioned _____.

Increasing utilization _____ may affect _____ profit potential _____.

Does _____ greater emphasis _____ affect _____ energy's _____?

Is the emphasis _____ going to _____?

_____ on _____ sources, _____ traditional energy sources _____ money?

_____ renewable _____ going _____ affect profits earned _____ non-renewables?

Does _____ increase _____ the _____ renewable energy affect _____ prospects of _____?

How _____ power affect _____?

_____ options _____ happens _____ profit margins in conventional _____ suppliers?

How will the _____ renewable energy change _____ energy?

Will _____ energy _____ traditional energy's profitability?

Growing _____ sources _____ of conventional energies.

Will _____ energy profits?

Investment in _____ sources may _____ the _____ conventional _____.

Will more focus _____ clean _____ regular power _____?

The profitability _____ energy sources will _____ affected _____ focus _____ renewable _____.

Is the _____ on _____ energy going _____ affect traditional _____ time?

_____ renewable sources _____ profitability for conventional _____?

Will _____ emphasis _____ affect _____ profits of traditional _____?

_____ much can _____ power _____ financial _____ from long established fuel _____?

Will the profitability of older forms _____ by more attention _____ sustainable _____?

_____ the profit potential _____ conventional _____ as a _____ of _____ reliance _____ greener _____?

____ focus on ____ affect ____ of ____ energy.
 ____ on ____ will affect ____ of conventional sources.
 ____ long ____ a renewed focus on clean ____ affect ____?
 ____ focus ____ renewable energy ____ profitability ____ conventional energy.
 ____ a ____ to renewables ____ to affect ____ energy ____?
 Is ____ energy going ____ hamper the profits of ____?
 How will increased attention ____ sustainable ____ for ____?
 Will ____ renewable energy affect ____?
 Will the ____ energy ____ the ____ of traditional ____?
 How ____ a bigger focus ____ energy impact ____ profits ____ sources?
 Is ____ shift towards ____ to ____ traditional ____ profits?
 ____ more ____ clean ____ the ____ of regular power sources?
 ____ an increased focus ____ eventually ____ energy less ____?
 Will ____ energy's emphasis eventually ____ fuel ____?
 ____ energy ____ affect the profit ____ traditional sources.
 ____ we ____ energy ____ alter profit ____ which ____ occur?
 Will ____ profits of power ____ growing ____ on renewable energy ____ time?
 Revenues derived from traditional ____ may ____ adoption ____ renewable resources.
 ____ increased ____ energy can ____ traditional energy less ____.
 ____ can ____ attention to sustainable ____ the ____ returns ____ fuel sectors?
 ____ on conventional supplies' economic ____ have ____ impact.
 When renewable ____ grow, ____ is ____ profit margins ____ power ____?
 Will ____ reliance on ____ returns?
 ____ increasing utilization ____ renewable ____ the ____ potential ____ non-renewables?
 Will a ____ on ____ energy ____ of conventional ____ sources?
 ____ emphasis ____ renewables may ____ financial ____ of conventional ____.
 ____ the profits ____ by power ____ affected by a ____ focus ____ energy?
 ____ the ____ potential of non-renewables ____ by ____ use ____ energy?
 ____ will the effects ____ renewable ____ on traditional ____?
 ____ the ____ of clean energy sources ____ profitability ____ fuels?
 ____ might ____ power affect ____ energy generation methods?
 ____ renewable ____ affect ____ earned ____ non-renewables?
 ____ on renewable ____ may ____ an impact on the ____ of ____ sources.
 ____ the emphasis on ____ energy ____ profits of ____?
 ____ concentration affect profits from ____?
 Will focusing ____ clean power impact ____ profits ____ energy?
 Does growing use ____ sources?
 ____ on ____ hurt profits in ____ long run?
 Will ____ concentration reduce ____ profit potential ____ conventional ____?
 ____ reliance on ____ will affect ____ of ____ fuel forms gradually.
 When ____ grow, how does ____ margins of ____ power ____?
 ____ renewable energy ____ energy ____?
 ____ a ____ renewable energy affect the ____ forms of power production?
 ____ to ____ will ____ the earnings from ____ sources.
 ____ focus on ____ undermine profits?
 ____ green ____ will eventually ____ the profit ____ of conventional fuel ____.
 ____ to renewable ____ affect the profitability ____ conventional ____?
 How could ____ increased ____ to renewable ____ traditional ____ later?
 Will ____ energy's growth hurt ____ profit ____ of ____?
 How does ____ on renewables ____?

_____ rising focus _____ and profits in _____ raises _____ question.

Do _____ have _____ profits _____ by more conventional _____?

_____ on renewable _____ might affect the profits _____ sources.

How _____ the _____ renewable energy _____ profitability _____ energy sources _____ the future?

_____ focus _____ renewable energy make _____ energy unprofitable _____ the _____?

Does _____ emphasis on renewable _____ sources' _____?

What _____ emphasizing clean power _____ to _____ generation methods?

_____ focus on renewable energy affect _____ profitability _____ conventional _____?

_____ of renewable _____ going to _____ profits of _____ sources?

_____ are _____ renewable energy on _____ profits?

_____ growing _____ on renewable sources have _____ the _____ of conventional _____?

_____ emphasis _____ renewable energy _____ of _____ energy sources in the _____ run?

Will _____ to power _____ from _____ fuel sources?

_____ the increased _____ on _____ solutions affect _____ returns _____?

_____ emphasis on _____ may affect _____ profitability _____ conventional energy _____.

_____ ways _____ commitment to renewable _____ influence _____ energy _____ earnings?

_____ on clean _____ impact profits earned _____ conventional energy?

_____ investment in _____ sources affect _____ profitability of _____?

Will an _____ attention _____ renewable _____ earnings?

Will the rise _____ profits _____ sources?

_____ on _____ sources may affect _____ profitability.

_____ increased _____ on _____ energy affect traditional energy's _____?

_____ the _____ on renewable _____ going to _____ sources?

_____ a shift _____ renewables _____ profits?

_____ the _____ on _____ energies going _____ hurt _____?

_____ the _____ on renewable sources _____ conventional _____ earnings?

_____ correlation _____ emphasis on renewables _____ reduced _____ viability of conventional fuels?

Can _____ focus on _____ energy make _____ profitable?

_____ increasing _____ on _____ may impact _____ conventional energy _____ in _____ long run.

_____ conventional _____ could be _____ by _____ greater focus on _____ energy.

_____ on clean energy affect profits _____ power _____?

_____ emphasis on clean _____ affect _____ from _____ methods?

How will investment in _____ the _____ conventional _____?

_____ the focus _____ renewable _____ going _____ the profits of traditional _____?

Increased _____ on _____ energy can _____ traditional energy _____ be _____ profitable _____.

_____ renewable energy _____ of _____ sources?

Should the profitability _____ traditional energy be _____ the _____?

What _____ it _____ traditional energy sources' profitability _____ more attention?

How _____ in attention _____ affect traditional earnings?

Will _____ on renewable energy hurt _____?

_____ the _____ be on _____ profitability?

Will an _____ on renewables _____ energy _____?

Increasing focus _____ renewable _____ profitability _____ traditional energy _____.

_____ shifting to renewable _____ affect _____ conventional _____?

The _____ generated by traditional forms _____ power production _____ by _____ focus _____ renewable energy.

_____ attention to _____ energy affect _____ of income?

_____ will the _____ traditional energy _____?

_____ renewable _____ the _____ conventional energies?

Will _____ growth of _____ profit potential _____ energies?

What _____ to _____ profit _____ of conventional power suppliers _____?

____ the attention ____ sustainable power decrease ____ ____ sources?
 Is ____ focus on ____ energy ____ to ____ profits ____ time?
 Are ____ of ____ sources going to be ____ by ____?
 Is ____ sources ____ affect profitability?
 ____ of ____ will be ____ by ____ on renewable energy.
 ____ a ____ on renewable energy ____ profits?
 ____ the profitability of energy ____ affected ____ the shift ____?
 ____ increased focus on renewables ____ be less profitable?
 Is it possible that a ____ focus ____ energy ____ the ____ sources?
 ____ increased ____ of green power ____ profit ____ sources?
 ____ on ____ going to ____ traditional energy profits?
 Will ____ of ____ profit potential?
 Will an increase in ____ on ____ energy ____?
 ____ increased ____ sustainable ____ affect payouts?
 Can renewable ____ emphasis ____ traditional ____?
 Will the ____ energy ____ due to investment ____ sources?
 How might the emphasis ____ renewable energy ____ energy ____?
 ____ shift to ____ for conventional fuels?
 ____ sustainable power affect profits ____ legacy fuel ____?
 ____ emphasizing ____ sources affect ____?
 What ____ relationship between ____ in ____ and focus ____ renewable ____?
 Is the shift towards renewable energy related ____?
 Will renewable ____ from traditional ____?
 Financial ____ long-established fuel sectors may ____ by rising ____ sustainable ____.
 ____ relationship between ____ on renewable energy and profits ____ traditional ____?
 How may the ____ on renewable energy ____ of ____?
 Will focusing ____ clean power ____ conventional energy in ____?
 What ____ a greater ____ on ____ have on the ____ conventional ____ sources?
 Will ____ growth of renewable ____ hurt ____ conventional energies?
 Will the ____ renewable energy hurt the profit ____?
 Will profits ____ of power ____ affected by the ____ renewable energy?
 ____ time ____ an ____ energy make traditional energy ____ profitable?
 Will ____ shift ____ traditional ____ profits?
 ____ the ____ on ____ hurt profits?
 ____ from long-established fuel sectors can ____ by increasing ____ to ____.
 ____ options grow, ____ happens to ____ of ____ suppliers?
 ____ renewed focus on ____ power ____ profits from conventional methods ____?
 Financial ____ from long-established ____ sectors can ____ increased attention ____ sustainable ____.
 What ____ eco-friendly ____ generated by more conventional means?
 ____ rising ____ sustainable power affect ____ from ____ fuel sectors?
 ____ of renewable energy ____ traditional ____ yields?
 ____ emphasizing renewable sources ____ profits?
 The ____ might affect the ____ from ____ sources.
 When ____ what ____ of the ____ margins ____ conventional ____ suppliers?
 Does ____ to ____ fuels affect ____ of conventional ____?
 Will ____ on ____ power ____ in the long ____?
 Is the emphasis ____ going ____ affect traditional ____?
 ____ of ____ sources ____ be impacted ____ a ____ focus on renewable energy.
 ____ focus on clean ____ have ____ effect ____ profits?
 ____ a ____ renewable ____ affect profitability?

How ____ renewable ____ energy profits?

____ streams ____ might be ____ the growing adoption ____ renewable resources.

Will an ____ focus ____ eventually ____ traditional energy ____ time?

Will the ____ of ____ profits of traditional ____?

Will the effects ____ renewable ____ energy ____?

____ a ____ renewable ____ affect the profits of ____ energy ____?

Is renewable ____ emphasis ____ fuel industry yields?

____ energy ____ the profits ____ sources?

Does ____ impact non-renewable ____?

____ power could affect earnings ____ via ____ generation ____.

Can ____ us ____ focusing ____ green energy ____ affect ____?

Can the profitability of ____ energy ____ affected ____?

Does ____ focus ____ renewable ____ traditional energy's profit?

Will the growth ____ affect ____ profit potential ____ conventional ____?

Does ____ shift towards ____ affect ____ financial prospects ____ energy ____?

____ on green power ____ profit ____ from conventional ____.

____ attention towards sustainable ____ affect ____ for ____ fashioned fuel?

Will ____ attention to sustainable ____ profits ____ legacy ____ sources?

____ the ____ focus ____ renewable ____ impact ____ energy's profitability?

How would ____ on ____ affect the ____ conventional energy sources?

Will ____ power impact ____ earned by conventional energies?

What does ____ energy sources' ____?

Can the growing emphasis on ____?

Is ____ of ____ fuel ____ as a result ____ increasing reliance ____ green ____?

How can ____ to ____ fuels ____ of old-fashioned ____?

____ be ____ by ____ shift towards renewable energy.

As renewable ____ gains more ____ what effects ____ traditional ____ their ____?

____ a renewed ____ on clean power ____ in ____ long ____?

Is ____ a ____ the ____ on renewable ____ and ____ profits ____ sectors?

____ a ____ focus on ____ power affect ____ from ____ methods?

____ renewable ____ impact ____ earned by non-renewables ____ the ____?

____ adoption of renewable resources ____ from ____ sources?

____ growing ____ of ____ hurt revenue ____ energy sources?

____ the emphasis ____ energy ____ profits?

____ renewable energy effect ____ profits?

____ an emphasis on ____ energy hurt ____ energy?

____ on ____ energy affect profitability?

Will more ____ on ____ energy ____ from ____ sources?

Is it ____ that ____ on renewables will impact ____?

____ focus ____ sources ____ an ____ conventional energy earnings.

____ an ____ emphasis ____ affect traditional ____?

____ an ____ renewables affect the financial prospects ____ energies?

____ fuels' ____ will ____ impacted ____ increased focus ____ energy sources.

Will ____ investment ____ affect the profitability ____ conventional ____?

____ more ____ on clean power impact ____ made by ____?

Will the ____ of ____ energy ____ the profits ____ the ____?

How would increased attention ____ payouts for ____?

____ focus ____ renewable ____ conventional ____ earnings.

____ a ____ towards ____ traditional energy profits?

Is ____ profitability ____ forms ____ energy ____ by ____ to clean ____ sustainable electricity ____?

Increasing reliance _____ the profit _____ of _____ fuel forms.

Is there _____ correlation _____ emphasis _____ reduced financial _____ conventional fuels?

Will the growth of _____ conventional energy?

_____ on renewables impact _____ profitability?

Can an _____ on renewables _____ traditional _____?

_____ the _____ attention towards _____ power _____ profits from legacy _____?

Will increasing _____ renewable energy _____ the _____ energy sources?

_____ an _____ shift towards _____ impact the financial prospects _____?

Increased emphasis _____ renewable fuels _____ the _____ fuels.

Investment in _____ sources _____ the _____ of _____ energies.

Will the _____ affect the _____ traditional sources?

_____ focusing more on _____ profits earned _____ fossil _____ in the _____?

_____ of _____ fuels _____ eventually be impacted _____ investments _____ alternatives.

_____ increasing use of _____ energy impact _____ profitability _____?

Is _____ focus on renewables _____ to affect _____?

Will _____ sources _____ profits made _____?

_____ in _____ affect the _____ of _____ energy sources.

_____ focus _____ renewable _____ affect the earnings _____ conventional sources?

How _____ to _____ affect _____ energy source earnings?

Is _____ financial prospects of _____ by the _____ towards _____?

_____ impact energy profits?

Will more focus _____ clean _____ earnings _____?

Will _____ focus on _____ profits from fuel _____?

_____ renewable options grow, what _____ profit margins of _____?

_____ will a _____ towards renewables have on _____?

_____ an increase _____ commitment _____ resources _____ traditional _____ source earnings?

_____ returns _____ long-established _____ be _____ by rising _____ to sustainable power

Will _____ affect traditional _____ profits?

How do the _____ margins _____ change _____ renewable _____ grow?

Emphasizing _____ may _____ earnings obtained _____ established _____ methods.

Is an _____ on _____ going _____ energy profits?

Will renewable energy _____ traditional _____?

_____ will _____ energy _____ sources' _____ over time?

How _____ increasing _____ use of _____ affect _____?

_____ on green power could _____ potential _____ conventional _____.

What can _____ renewable energy do for _____ profits of _____?

Increasing _____ power may affect the profit _____ conventional _____.

_____ growing _____ renewable _____ impact _____ sources?

Is it possible _____ reliance _____ erode _____ returns?

_____ emphasis on _____ the profitability of conventional _____?

How might an _____ renewable resources _____ traditional energy _____?

_____ renewable _____ affect traditional _____?

Increasing _____ greener options will affect _____ potential _____ conventional _____.

Will _____ of _____ fuel forms be diminished _____ reliance _____ green options?

_____ the emphasis on _____ energy affect _____ traditional _____?

_____ older _____ of energy be affected by the _____ given _____ clean and sustainable _____?

_____ on renewable _____ traditional profits.

Will the emphasis _____ renewable _____ traditional _____?

_____ renewed focus on _____ profits from conventional methods?

_____ potential of _____ fuel _____ diminish due _____ increased reliance _____ options?

_____ emphasizing _____ sources affect _____ ?

Is there _____ emphasis on renewables and _____ viability _____ fuel?

Can the _____ affect _____ profitability of _____ sources?

Will _____ concentration of _____ affect the _____ of _____ sources?

_____ traditional fuel _____ by renewable energy's _____?

_____ the _____ renewable _____ affect the _____ of old _____?

_____ renewable _____ make traditional _____ profitable?

_____ sources _____ non-renewable profits?

Is the _____ renewable _____ going _____ affect their _____?

_____ can the _____ renewable _____ conventional energy sources in the long _____?

Will environmentalism _____ fuel sources?

Increasing _____ on green _____ profitability.

What _____ could renewable _____ change _____ earnings?

_____ a _____ emphasis _____ renewable _____ affecting _____ energy profitability?

Will profits be _____ renewables?

_____ will _____ energy affect the _____ of _____ traditional energy sources?

Will _____ traditional sources' profitability _____ the _____?

_____ attention towards sustainable _____ profits from _____?

_____ increased _____ on renewable energy _____ traditional energy _____?

As _____ energy _____ attention, _____ energy _____ have on profitability?

_____ eventually affect the fuel _____ yields?

How _____ the increasing _____ affect profitability _____ time?

_____ increased _____ green solutions _____ returns?

How will the _____ energy _____ sources' profitability?

_____ clean _____ sustainable _____ generation will impact the _____ older _____ of energy

Will _____ emphasis _____ energy affect profits from _____ forms _____ power _____ time?

Will investments _____ renewable energy affect _____ energy?

How will _____ focus _____ energy affect the _____ of _____ over _____?

_____ increased _____ on _____ energy _____ reduce the profitability of _____?

A renewed focus on _____ power _____ from _____.

_____ alternative resources will _____ the _____ fossil _____ eventually.

_____ shift _____ renewable energy _____ to the _____ of _____ energies?

_____ growing focus on renewable _____ profits from traditional forms _____ power _____?

What _____ will _____ energy _____ on traditional _____?

_____ has _____ focus on _____ the earnings of conventional _____?

_____ investment _____ renewable _____ hurt the profit _____ conventional _____?

_____ earnings _____ conventional energy are influenced by the _____.

When _____ prioritize _____ returns _____ using previous _____ be impacted

_____ growing adoption of _____ affect _____ from _____ energy sources?

Will an increased _____ traditional energy's _____?

The _____ forms _____ energy will _____ by the increasing attention to _____ sustainable electricity _____.

_____ an affect on _____ profits?

Revenue streams _____ energy sources may be _____ growing adoption _____ resources.

What effects _____ renewable _____ on _____ profitability of _____ energy sources?

_____ attention towards sustainable _____ affect profits _____ legacy _____?

When we _____ sources, _____ do _____ impact _____ using _____ methods?

Is a shift _____ energy going _____ profits?

_____ an increasing _____ renewable energy affect _____ energy _____?

Will _____ from _____ forms _____ power _____ be affected _____ growing _____ on renewable _____?

_____ the shift towards _____ impact _____ financial _____ traditional energy?

_____ profits from _____ be _____ by a _____ focus _____ clean _____?
 Should _____ renewable energy _____ from traditional sources?
 Does _____ shift _____ renewable fuels _____?
 _____ will _____ renewable _____ affect profits _____ non-renewables?
 Can the _____ energy affect the profitability _____?
 Will _____ be _____ on clean _____ impact profits, _____ the _____?
 _____ green _____ may affect traditional financial _____.
 _____ renewable sources affect the _____ earned _____?
 Does _____ of renewable resources _____ revenue _____ traditional energy _____?
 _____ growth of _____ energy cause profit _____ be _____?
 _____ energy affect _____ profitability of traditional _____?
 Will profits _____ traditional sources be _____?
 The profitability _____ will eventually _____ influenced _____ investments _____ resources.
 _____ solutions may affect the financial _____ produced.
 _____ shift _____ renewable _____ affect profitability?
 _____ increased emphasis on _____ profit?
 Is _____ profitability _____ affected by renewable _____?
 Will _____ energy affect _____?
 Is _____ possible _____ an increased _____ on renewables _____ traditional energy _____?
 _____ hamper profits _____ traditional _____?
 Will _____ focus _____ clean energy _____ fuels' profitability?
 _____ the attention to _____ impact _____ sources _____ income?
 _____ of renewables _____ the _____ potential of _____ energies?
 _____ focus on _____ energy affect conventional energy _____?
 How _____ increased attention to _____ fuels _____ payouts _____?
 _____ profits _____ by traditional _____ power production will _____ be _____ by _____ growing focus _____ energy.
 _____ will _____ affected by _____ shift _____ sources.
 Is it possible _____ green _____ diminish the _____ potential of _____?
 _____ emphasis on _____ going _____ hurt profits?
 _____ a _____ to _____ energy affect _____?
 _____ sources can affect earnings.
 Is it possible _____ to clean _____ sustainable electricity _____ will _____ the _____ of energy?
 How _____ emphasis _____ energy _____ the _____ of _____ energy sources?
 _____ possible _____ shifting _____ renewable fuels affect _____?
 _____ the emphasis _____ affect _____ profitability?
 _____ earned by non-renewables _____ be impacted _____ emphasizing _____.
 _____ will _____ sustainable _____ affect _____ of old-fashioned fuel?
 _____ an _____ focus on _____ change _____ of energy?
 _____ on _____ energy will _____ an _____ on profitability.
 _____ profits _____ conventional _____ could be impacted by _____ greater _____ energy.
 Increasing focus on _____ sources _____ the earnings _____.
 _____ an emphasis on _____ fuels hurt profits _____?
 Will _____ on clean _____ the profits from regular _____?
 _____ will emphasizing _____ sources _____ profits earned _____ non-renewables?
 _____ on green power _____ affect _____ potential _____ conventional _____
 _____ the emphasis on _____ impact _____?
 Will _____ focus on _____ energy _____ the _____ traditional _____?
 _____ on clean energy sources _____?
 Can _____ focus _____ renewable _____ cause traditional _____ to _____ profitable?
 How _____ increased commitment to renewable _____ affect _____ source _____?

How ____ increased attention ____ affect payouts ____ time?

____ will the increased ____ to renewable energy ____ earnings ____?

____ options grow, ____ margins ____ power suppliers be affected?

Will the ____ of renewable ____ profit ____ of conventional ____?

____ a ____ to ____ fuels ____ energy profits?

Is it ____ that attention to ____ power ____ financial ____ sectors?

____ prioritize renewable ____ potentials associated with non-renewable plays, which ____?

Growing ____ on renewable ____ influences earnings ____.

____ the growing focus on ____ energy ____?

____ profitability ____ energy may ____ affected ____ in renewable sources.

____ power ____ affect profits.

____ to renewable energy ____ traditional ____ of income?

Will ____ increased emphasis on renewable energy ____?

The ____ onrenewable ____ affect profits from ____.

____ energy ____ earnings from ____ sources?

Is there ____ between emphasis on ____ sources ____ viability ____ conventional ____?

Does ____ emphasis on ____ energy ____ the ____ of ____?

____ possible that ____ renewable energy ____ make traditional energy ____ profitable?

____ focus ____ sources ____ traditional energy's profitability?

____ will the ____ of ____ suppliers ____ renewable options grow?

How will ____ attention to sustainable fuels affect ____?

____ emphasis ____ renewable sources affect ____ energy's profitability?

How ____ concentrating ____ renewable ____ the ____ of ____ energy?

____ does eco-friendly energies mean ____ performance?

____ influences ____ eco-friendly ____ on ____ profits ____ by more conventional ____?

____ will ____ energies have ____ the economic performance ____ supplies?

____ sources affect the ____ conventional energy sources?

What ____ alternatives have ____ profits ____ more conventional means?

How will a ____ affect ____?

When ____ happens to the ____ margins of ____ power ____.

____ the profits from ____ power ____ eventually ____ affected by ____ focus ____ renewable energy?

Is ____ profit ____ of ____ by ____ of ____ energy?

____ on ____ will ____ the profitability ____ traditional energy ____ over time

____ will renewable energy ____ traditional sources' ____?

Growing focus ____ influences earnings ____ energies.

____ green ____ concentration will affect profit ____ sources.

Will the profitability ____ be affected ____ the shift ____?

____ the profit potential ____ fuel forms ____ increasing reliance on greener options?

Is ____ profitability of traditional energy ____ to ____?

____ energy ____ more attention, what effects can it have ____?

Will the ____ of conventional ____ forms diminish ____ reliance ____ options ____?

Does the ____ conventional fuel profitability?

The shift ____ sources ____ affect ____.

____ the growing focus ____ affect ____ of energy?

How do ____ alternatives ____ profits generated by ____ within the ____?

____ focus on ____ may ____ of conventional energy.

____ a ____ focus ____ clean power ____?

Will ____ clean ____ impact ____ in the future?

____ might the focus on ____ affect ____ profitability of conventional ____ future?

How will ____ towardsrenewables ____ energy ____?

How _____ sources _____ profits?

Does _____ increasing shift _____ energy _____ financial prospects _____ traditional _____?

Can the _____ energy _____ affected by _____ to renewables?

Does a greater _____ on _____ impact _____ energy's _____?

_____ of _____ energy will impact the _____ traditional _____.

The profitability _____ energy sources may _____ as a _____ emphasis _____ renewable _____.

Is _____ green _____ affecting profitability?

Will the rise _____ renewable _____ profits of _____?

_____ on _____ energy _____ impact _____ energy's profitability.

Does _____ of renewable _____ revenue _____ from _____ sources?

How _____ emphasizing renewable _____ profits?

_____ an increasing shift towards _____ the _____ of _____ sources?

_____ more emphasis _____ placed on _____ impact _____ in the _____?

_____ will _____ focus on sustainable _____ payouts _____ old-fashioned _____?

Will _____ focus on clean _____ impact legacy _____?

How _____ a shift _____ renewable _____ affect _____?

_____ connection _____ traditional sectors _____ focus on renewable energy?

Will the _____ clean _____ profits be _____ the long _____?

_____ options grow, what happens to _____ of conventional _____?

_____ could an increase in _____ to _____ do to _____ source _____?

_____ concentration _____ green power _____ affect _____ potential _____ conventional _____.

_____ utilization _____ renewable energy _____ affect the _____ of _____.
