

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Blower motor failure
Description	Customers report that the heater fan is not working at all, resulting in no hot air being blown into the car cabin. This could be caused by a faulty blower motor that needs to be replaced.
Data Size	7,164 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Is _____ have _____ maintenance checks done on _____ Heating Systems _____ components _____ as Blown _____?
_____ think _____ important for car _____ to have regular _____?
_____ we have car _____ blower _____?
_____ sense to conduct _____ a _____ heater and blowers?
_____ have _____ maintenance on _____ and blower motors?
_____ there a requirement _____ car heating _____?
Is it _____ good idea _____ have _____ car furnaces _____.
_____ regular _____ car heating _____ needed?
Do we have _____ at _____ heating _____ regularly?
_____ it _____ to do _____ checks _____ car _____ systems?
Is it _____ car heating _____ and _____ parts often?
Is _____ for _____ heater _____ be inspected frequently, especially _____?
