

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	New service connection requests
Inquiry Sub-Category	Construction and infrastructure requirements
Description	Customers inquire about the infrastructure needed to connect their property to the electricity grid, such as the need for new poles, transformers, or underground cables, and the responsibilities of both the customer and the electricity provider.
Data Size	5,100 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ party assumes ____ risks ____ ____ ____ faulty wiring ____ meters but ____ premises boundaries?
 If ____ happen ____ faulty ____ ____ ____ inside ____ boundaries, who ____ responsible?
 Is it ____ ____ clarify who assumes ____ ____ accidents ____ ____ in wiring ____ ____ meters?
 ____ responsibility is ____ ____ have accidents caused ____ ____ wiring ____ ____ meters, ____ within ____ borders of ____ property?
 Is ____ a ____ party ____ ____ on liability ____ ____ because of faulty metering ____ ____ private grounds?
 Who will ____ ____ if ____ are ____ by ____ ____ wiring, only ____ ____ boundaries?
 If ____ accident ____ from a ____ in wiring ____ ____ is ____ ____ ____ who should bear it?
