

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Requests for energy-saving tips or recommendations
Inquiry Sub-Category	Behavioral changes
Description	Customers want tips on changing their habits and lifestyles to be more energy-conscious, such as turning off lights when not in use or utilizing natural daylight.
Data Size	8,324 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Can ____ save ____ ____ off lights when not ____ ____?
____ ____ able to switch off ____ ____?
Light deactivation might ____ ____ ____ use.
____ off lights that ____ ____ been ____.
____ ____ less energy ____ not using ____?
____ use less power by ____ ____ lights?
____ ____ what about ____ lights off?
Can ____ off unused ____ reduce ____ ____?
____ it ____ to ____ off unused light ____ ____ efficient ____?
Reducing lamp usage could ____ ____ ____ on ____ resource ____.
____ the lights ____ ____ in use ____ ____ be turned ____?
____ lights ____ ____ off during ____?
Should light ____ be ____ off ____ ____?
____ would like ____ switch ____ unused ____ ____ for ____ efficient usage.
Does ____ off ____ ____ needed save ____?
____ save ____ by ____ the ____ off?
Will ____ ____ to save ____ by cutting ____ on ____ lights?
____ saving ____ power ____ ____ switch off of lights?
I ____ if shutting ____ ____ conserves ____.
____ lights be switched off ____ ____?
Save energy ____ ____?
____ ____ unnecessary ____ can lower ____ energy bill.
____ I switch off ____ ____?
____ want to know if ____ ____ ____ of ____ lights ____ conserve energy.
Is ____ possible to ____ ____ save ____?
____ ____ save ____ with lights off?
Is it ____ to ____ ____ on ____ power ____ ____ light switch-off?
Would ____ ____ turned off ____ downtime?
____ it possible to ____ light use when ____ ____ ____?

_____ energy _____ if _____ lights _____ off?

_____ I _____ less energy by _____ off the _____ ?

Can _____ off unneeded _____?

_____ I switch off _____ lights, will _____ ?

_____ down _____ lighting ok?

_____ off _____ save money?

_____ turning _____ lights conserve _____?

Is it _____ to _____ down _____ save _____?

_____ lights _____ off _____ conserve energy?

Is _____ possible to save _____ I switch _____ unused _____?

_____ I stop _____ unused _____?

_____ off lights _____ to _____ me _____?

_____ down _____ unused lights?

_____ possible _____ electricity by shutting down the bulbs _____ ?

Will _____ rooms save power?

Reducing _____ usage can help _____ cut _____ on _____.

_____ reduce _____ usage if I don't use _____?

_____ off to save energy?

_____ off _____ I conserve _____?

_____ take off the _____?

Turn _____ when _____ in use

_____ cutting _____ on unnecessary _____ energy bill?

When _____ is _____ could deactivating _____ lead _____ power _____?

_____ energy, _____ off _____ used.

_____ illuminations _____ reduce _____ power _____.

_____ turning off _____ lights saves energy?

_____ lights save _____ energy?

By _____ unused _____ save power?

_____ illuminations _____ to less power use.

_____ unnecessary lighting help reduce _____?

_____ it _____ that _____ lights conserves energy?

_____ the lights help _____ energy?

You can turn _____.

I _____ I _____ waste _____ turning off unneeded lights.

_____ I save power _____ off some _____?

_____ off unused lights _____.

_____ off _____ save you?

Is it _____ shut _____ lights?

_____ I _____ on _____ electricity _____ turning _____ the lights?

How _____ power will I _____ by turning _____ ?

_____ off lights decrease _____?

_____ it _____ save _____ by not lighting _____ up?

_____ it possible _____ cut Light _____?

Is _____ lights saves on electricity?

_____ about _____ the lights _____?

_____ lights _____ lower consumption?

I _____ if _____ an _____ saver.

_____ turning lights off.

_____ it save energy _____ turn _____ ?

_____ an energy saver to _____?

_____ possible _____ power down _____ in _____ rooms and save _____?

_____ be used _____ electricity usage.

_____ unneeded lights _____ reduce _____ usage?

_____ when not in use.

_____ lights _____ off lower consumption?

Are I able _____ save power _____ lights?

_____ lights are switched _____ does _____ consume _____?

Should I _____ light sources to use _____?

_____ the switch _____ of _____ save _____?

Will _____ less energy _____ up?

Is _____ off _____ lights _____.

_____ I _____ lights when I _____ not use _____?

Should _____ use _____ switch-off _____ cut my _____ bill?

Can _____ stop _____ to save _____?

_____ know _____ turning _____ lights will save energy.

_____ will _____ save energy _____ off unused _____?

_____ would help me _____ back on _____.

When _____ should lights _____?

Can I _____ power if _____ off _____?

Is _____ possible _____ save _____ from _____ lights?

Is _____ lights _____ energy?

Is _____ possible to save me _____ by turning _____?

_____ save power by turning _____?

Is it _____ to _____ use by not lighting _____?

_____ turning off lights _____?

_____ lights make me conserve _____?

Is energy saving possible _____ lights _____?

_____ turning _____ off _____ consumption?

Is _____ to turn _____ lights _____ energy?

Can cutting _____ on unneeded _____ energy _____?

_____ decrease electricity usage?

I _____ turn _____ unneeded lights.

Turn _____ the lights _____ in _____.

Is _____ that _____ illuminations can lead _____ overall power _____?

Can _____ lamps _____ electricity?

_____ I be able to cut _____ power _____ a _____?

_____ off _____ save energy?

Is it possible _____ will _____ me some _____?

Reduce _____ turning _____ lights _____.

_____ can _____ decrease electricity usage.

_____ we turn _____ off?

Is it possible _____ down _____?

Is _____ smarter to turn _____?

Will bulbs in _____ rooms _____ down _____ energy?

_____ down on _____ lighting possible to _____ bill?

Reducing lamp usage can _____ on _____.

Is _____ idea _____ turn off _____ they aren't used?

_____ wonder _____ turning _____ unused _____ saves _____.

_____ offlights use less _____?

_____ switch off _____ when they aren't _____ needed?

____ a ____ cut down on the ____ ?
 Does ____ down ____ lights ____ energy?
 Can I ____ lights ____ not ____ used?
 ____ to ____ power from ____ off of lights?
 ____ when they ____ not in ____.
 ____ it more ____ switch off ____ ?
 Is it ____ to ____ lights ____ aren't needed?
 Can ____ be ____ off ____ conserve ____ ?
 ____ turning ____ off save ____ ?
 ____ out?
 ____ wasting electricity: ____ lights?
 Will ____ lights help ____ consumption?
 ____ it ____ to save ____ not lighting ____ ?
 ____ costs ____ switch-off unnecessary ____ .
 ____ the ____ toggling lights lower my ____ ?
 Will ____ save ____ off unused ____ ?
 ____ it ____ turn off ____ ?
 Can ____ light to cut ____ power ____ ?
 Save ____ by ____ lights when not ____ ?
 ____ would ____ to switch ____ light ____ for more efficient ____ of ____ .
 I ____ switch ____ unused ____ for more efficient ____ usage.
 Is ____ feasible ____ cut ____ that is ____ ?
 Is energy ____ lights are ____ ?
 ____ off lights that ____ ?
 Do I ____ ability ____ down on ____ lighting?
 Is it ____ to ____ lights ____ energy?
 Can I ____ consumption ____ lights?
 Light ____ might ____ able ____ usage.
 ____ the lights ____ energy-saving?
 ____ lights down saving ____ ?
 ____ possible ____ cut light use ____ it's ____ ?
 Will ____ off lights ____ electricity ____ ?
 ____ shutting off ____ save money on ____ ?
 Is it ____ I switch ____ unused lights?
 ____ help me use ____ resources.
 ____ turned ____ to save energy when ____ used?
 Reducing usage ____ turning ____ ?
 ____ lights possible to save ____ ?
 Will ____ lights help ____ usage?
 ____ to save ____ when ____ switch off ____ lights?
 Is ____ a ____ to switch ____ lights?
 Should I switch ____ my ____ ?
 ____ deactivation ____ used ____ decrease ____ use.
 Electricity usage ____ cut down by ____ .
 Light ____ my power ____ .
 Can I dim ____ lights ____ lower ____ ?
 Saving ____ lights.
 Can ____ lights off to ____ ?
 Can turning ____ an impact ____ ?
 ____ it ____ off ____ save energy?

I ____ to ____ the ____ when ____ in use.
 Is it possible ____ lights?
 Does ____ off ____ decrease ____ use?
 ____ to ____ off idle lights?
 ____ to conserve electricity by ____ the ____ off?
 ____ I ____ on ____ electricity bill if ____ off my ____?
 Is it ____ save ____ lights.
 Light ____ can cut down ____.
 ____ I ____ when ____ switch off unneeded ____?
 When not ____ should ____ turn ____ lights?
 Will ____ down ____ me money on my ____?
 ____ possible ____ turn ____ off.
 Will ____ turned off ____ energy?
 ____ off lights ____ power?
 Is ____ possible to switch ____ electricity usage?
 ____ am wondering ____ possible to ____ by turning off unneeded ____.
 Is ____ possible to ____ with light ____ off?
 Will changing off unused ____?
 Can ____ save power?
 ____ lights be switched off ____?
 ____ lead to less ____ use?
 Should I ____ lights ____ electricity?
 ____ off the lights ____?
 ____ off ____ save energy?
 Does it ____ energy ____ lights?
 ____ power ____ turning lights off?
 ____ it ____ for me ____ power when I switch ____?
 ____ less if ____ are briefly turned ____?
 ____ the ____ are off, ____ it ____?
 It ____ be ____ to ____ light ____ unnecessary.
 Is it possible to ____ energy ____ off ____?
 Is turning ____ lights ____ decrease energy ____?
 Can ____ deactivating ____ lead to ____ power ____?
 ____ use, ____ lights off?
 Is it ____ that deactivating illuminations ____ power use?
 Do ____ turning off ____ lights ____ save ____?
 ____ wonder if ____ save power ____ turning ____ unused ____.
 Is it ____ conserve electricity ____ shutting ____?
 Is ____ off the lights to ____ electricity?
 ____ deactivating illuminations cause less ____?
 switch ____?
 Is ____ off ____ way to ____?
 ____ save ____ if I cut back ____?
 deactivating ____ could ____ less overall ____
 ____ electric ____ with off ____?
 Does ____ switch off lights?
 How will I ____ power ____ switch off ____?
 ____ it ____ to ____ off ____.
 When ____ used, can the ____ be ____?
 Could ____ cause less ____?

Will _____ off unused lights _____ use?
 _____ lamp usage _____ save _____.
 _____ lights be _____ me money on _____ bill?
 Is it possible _____ reduce _____ use?
 _____ down on power usage _____ not lighting up.
 Can _____ if I don't _____ lights?
 _____ unneeded lighting _____ for energy _____?
 _____ there _____ way _____ reduce _____ by turning off _____.
 _____ it _____ to shut _____
 _____ turning Lamps _____ Electricity?
 _____ shutting off _____ power?
 Can _____ power _____ not lighting _____?
 Can _____ be _____ in use?
 Should the _____ be _____ when not _____?
 _____ it _____ save electricity by _____ the bulbs _____ rooms.
 Will turning off _____ light _____?
 _____ turning off _____ consume _____ energy?
 Can _____ lights _____ energy?
 _____ shutting _____ save electricity?
 Can I turn off _____?
 Is _____ possible _____ power _____ lighting up?
 _____ off lights _____ not _____ them _____ energy?
 _____ shutting down _____ help save _____?
 Reducing _____ may _____ cut _____ on consumption.
 I _____ if lights _____ be switched _____ conserve _____.
 Stop wasting electricity: _____?
 _____ be _____ to shut off lights to _____?
 Will _____ use less power _____ turning _____?
 _____ turning _____ the lights _____?
 Can _____ when not _____?
 Does turning lamps _____?
 Can shutting _____ save _____?
 How can _____ by eliminating _____?
 _____ the bulbs be switched _____ rooms to _____?
 _____ power _____ bulbs in _____ result in reduced _____?
 _____ turning _____ using them save energy?
 Does it _____ it's _____ off?
 _____ not _____ about _____ off?
 _____ off energy _____?
 Can shutting down _____?
 Cut _____ shutting _____ unnecessary _____
 _____ disabling _____ lead _____ power use?
 _____ you _____ energy, lights off _____?
 Saving _____ can _____ by switching _____.
 _____ it _____ off lights when _____ necessary to _____ energy?
 Is it advisable _____ off _____?
 _____ shutting off _____ reduce _____?
 _____ consumption can help me _____.
 _____ lamps off saving _____?
 Light _____ off _____ energy?

Can _____ reduce _____ by _____ on unnecessary light?
_____ down unneeded _____ fuel?
_____ possible for me _____ if I switch off _____?
_____ changing off unused _____ power?

Can _____ my _____ without _____ lights?
_____ reduce overall _____ use.
_____ I _____ able to _____ not lighting up?

Does switching _____ lights _____?
Deactivating illuminations might lead _____ overall power _____.
_____ it possible _____ when switched _____?
_____ lights _____ turned _____ if _____ aren't in _____?
_____ off _____ lights _____ energy
_____ I _____ off _____ not in _____?

Reducing _____ help me _____ on resources.

Saving energy can be _____.

Can _____ use by _____ lights?

Does _____ off _____ save _____?

Will _____ lights _____ power?

How _____ turning _____ the _____ saving _____?

_____ conserve electricity by _____ lights?

I'm _____ I should _____ unused light _____.

_____ switch _____ unused _____ sources.

_____ the lights _____ me power.

Can cutting down on _____ decrease _____?

I _____ deactivating illuminations could _____ power use.

Turn the _____ not _____.

_____ the lights _____ turned off _____ power?

_____ cut _____ on light _____?

_____ I switch off _____ save _____?

Will _____ to cut down on _____ use by turning _____?

_____ turning off _____ going _____ save _____?

Does shutting _____ lights _____.

_____ possible _____ down on power _____ when _____ using lights?

Will _____ be _____ to _____ less _____ by _____ off _____ lights?

Does it _____ by turning _____?

_____ shutting _____ the lights _____ power?

_____ lights when _____ are not _____.

During _____ the lights _____ off?

_____ usage _____ help _____ my _____ use.

Will shutting _____ lighting _____?

_____ it _____ to cut _____ on _____ usage _____ not _____ lights?

You _____ turn _____ when not _____.

Light _____ offs _____ save _____.

_____ the _____ are off, is _____?

Is it _____ some _____ if _____ turn _____ lights?

_____ it _____ cut _____ on _____ usage with _____ lights?

_____ want _____ if turning off _____ energy.

Is it possible _____ energy by _____ when not _____?

Should I _____ switch-off to cut _____ on my _____?

Can I _____ lighting _____ save _____?

Will _____ lights save _____ electricity _____?

Is _____ lights _____ power?

_____ lamps _____ switched _____ to conserve _____?

_____ idea to switch off _____ for efficient energy use?

Can I save power _____?

_____ down _____ me some power?

_____ lights, is it possible _____ save _____?

_____ I _____ off the lights when they _____?

_____ turning _____ save _____ power.

_____ turning _____ save me _____ power?

Can _____ save _____ lights off?

_____ shutting _____ good _____ energy?

_____ illuminations _____ result in _____ power _____.

Can I _____ lighting up?

_____ the _____ toggling lights _____ my _____?

_____ reduce _____ power usage by _____ lights?

_____ be energy-saving _____ off _____ lights.

_____ shutting _____ off energy _____?

_____ I _____ off _____ lights _____ off?

Reducing lamp _____ cut resources.

_____ turn _____ lights to _____ power?

_____ turning off _____ necessary _____ energy?

_____ turn off lights _____ energy.

_____ off _____ that are no _____.

Does it _____ energy if _____ lights _____?

_____ consumption can _____ off _____?

_____ off _____ lights helping _____ energy?

_____ possible _____ lights conserves energy?

_____ could lead to less overall _____ use _____.

Reducing _____ lights _____ save power.

Is closing _____ to reduce energy _____?

Light _____ can cut _____.

If I switch _____ unneeded lights _____?

Should _____ stop using _____ for _____ saving?

Does _____ off _____ lights _____?

_____ lights off lower consumption _____?

_____ be _____ to save energy?

_____ it _____ to turn lights off _____?

Can I _____ power _____ turn off the _____?

I don't _____ off the _____ not in use.

_____ be _____ turn lights _____ during downtime?

_____ turn off the _____ when _____ not _____?

How _____ saving energy?

I _____ I _____ cut _____ by not _____ lights.

Might _____ off _____ electricity?

Turn _____ that are out _____.

_____ illuminations _____ lead _____ less power _____.

_____ it possible _____ switch _____ lights _____ not _____ to save _____?

_____ turn _____ when they aren't _____?

Is _____ to cut _____ less lights?

Will shutting down _____ lighting _____ ?
 _____ usage _____ help _____ on the _____ of resources.
 Does it conserve energy _____ ?
 Will _____ down _____ lighting result _____ in _____ usage?
 Will _____ save _____ switch _____ the lights?
 _____ light switch-off _____ cut down _____ .
 Is turning off _____ some power?
 _____ off lights save _____ some _____ ?
 _____ it _____ good idea to _____ unused light _____ efficient energy _____ ?
 Is _____ save _____ by turning off lights _____ don't _____ them?
 When not used _____ lights _____ ?
 _____ turning off _____ lights _____ ?
 _____ it _____ to turn off _____ in _____ to _____ ?
 _____ turning _____ lights help reduce _____ .
 _____ down unneeded lighting _____ reduce _____ ?
 _____ switched off _____ save energy?
 Can I reduce the _____ using _____ switch-off?
 Does turning _____ save _____
 Reducing _____ can _____ using _____ deactivation.
 Can I _____ light switch-off to cut down _____ .
 I want to _____ power if _____ switch _____ .
 Light off when _____ ?
 Can I _____ power bill _____ switch-off?
 _____ it _____ to _____ power _____ I _____ off the lights?
 _____ are _____ does it _____ less?
 Does _____ lights conserve _____ .
 How _____ we save _____ we _____ off _____ ?
 Reduction of _____ usage _____ me _____ back on _____ .
 Will I _____ able _____ conserve electricity _____ off?
 _____ wonder _____ turning off _____ energy.
 _____ lights does _____ energy?
 _____ turn off _____ lights _____ in use?
 Is _____ to _____ power _____ without using lights?
 Can _____ bill by eliminating _____ lighting?
 Is _____ down _____ ?
 _____ off _____ help me save _____ ?
 _____ off _____ reduce energy _____ ?
 _____ turning _____ unused _____ electricity use?
 _____ not used, _____ about the _____ ?
 Is _____ using _____ to switch _____ ?
 _____ lights off _____ energy _____ ?
 _____ wonder if turning off _____ will _____ conserve _____ .
 Can _____ save _____ power _____ off the lights?
 Can I reduce _____ reducing _____ lighting?
 _____ lights _____ less _____ switched _____ ?
 _____ not used, _____ lights be _____ ?
 I am _____ it is _____ to _____ by _____ off _____ .
 Can _____ power _____ not lighting _____ ?
 _____ it _____ turning off lights?
 How about turning _____ off when _____ ?

Should we ____ off ____ costs?

Can ____ down lights ____?

____ with turning off ____?

Is it an ____ to ____?

____ power be ____ off lights?

Is ____ efficient ____ switch ____ lights?

Is it possible ____ on ____ without lights.

____ during downtime could lead ____ use

____ can I turn off ____?

Can I ____ off lights ____ don't ____.

____ I switch off lights ____ to ____?

____ turning off ____ lights possible ____?

Will ____ off ____ save ____?

I ____ if I ____ switch ____ unused ____ sources ____ energy usage.

Do you ____ unused ____ saves ____?

____ it ____ save energy with shutting ____?

____ shutting down ____ energy usage?

____ usage can help ____ save ____.

Can ____ use light ____ on my ____ bill?

Can ____ turn off the ____?

____ it possible ____ me ____ save ____ I switch off ____?

____ it possible ____ save ____ by taking the ____?

Will ____ be able ____ save ____ not ____ anymore?

Does ____ sense ____ switch off unused ____ sources ____ efficient ____?

Will shutting ____ off ____?

____ I ____ off the unused ____ I can ____.

If the ____ are ____ in ____ should ____ turn ____?

____ in empty ____ help save electricity?

Can ____ turn ____ lights ____ electricity?

____ power use ____ a result ____ illuminations.

Is it ____ to ____ lamps ____ electricity?

____ it ____ cheaper ____ off lights during ____?

____ lights ____ lower consumption ____ downtime?

Do shutting ____ save ____?

If ____ off, ____ it ____ energy?

Can ____ lights ____ not using them?

Can I use ____ power ____ off ____ lights?

If lights are ____ consume less?

____ shutting off ____ lights help ____?

____ turning ____ lights decrease ____?

____ I switch ____ lights ____ power.

____ that are not ____.

____ some power ____ turning ____ the lights?

____ possible ____ lights are not on?

Energy saving ____ off ____.

____ possible ____ light ____ when not required?

When not ____ can ____ saved ____?

____ lighting be cut down ____ energy ____?

____ cutting lights?

____ I save power ____ up?

When not ____ used, will ____ ____ ____?

Cut ____ disabling unnecessary ____?

Can ____ by ____ lighting up?

Switch ____ lights ____?

____ it ____ switch ____ lights to ____ power?

____ off unused ____ energy?

Can turn off ____?

____ it ____ off the lights?

Is it ____ power ____ light switch off?

Can ____ turned ____ not being used?

____ deactivating illuminations ____ to ____ use?

Is ____ lights ____ way to save ____?

____ lights ____ save me some ____?

I would ____ energy with ____ switches ____.

Does turning ____ lights ____?

____ are not being ____ be turned off?

Is ____ possible to save ____ bill ____ turning ____ lights?

deactivation ____ unneeded ____ is an ____?

____ the energy saved ____ lights are ____?

____ be ____ not using lights.

Is ____ possible ____ save ____ by ____ off ____.

____ - ____ them off?

____ i switch ____ my ____?

____ the ____ of the bulbs ____ save electricity?

Is it possible ____ turn off ____ and ____?

____ save ____ by ____ out ____ lights?

It may ____ energy by ____ off lights.

Does shutting ____?

____ off lights save ____?

Is ____ to ____ power by ____ lights?

____ light use ____ be ____ efficient.

By turning off ____ costs?

____ it ____ when lights are ____?

____ it possible ____ save ____ by ____ lights

____ the switching ____ lights save ____?

Can I turn ____ lights ____ I'm not ____?

____ I ____ down my ____ usage if ____ use ____?

____ lamp ____ help cut back ____.

____ efficient habits ____ are not ____?

____ switched ____ lights save me money ____ electricity ____?

____ off ____ don't use ____?

____ wonder ____ I can ____ energy ____ off ____ lights.

____ shutting ____ unused ____ help ____ use?

____ lights ____ save power?

____ it possible ____ save ____ turning ____ lights off?

Can ____ by not using ____?

Reducing energy use by ____ off ____?

turn ____ unused ____

Will ____ lights help ____ energy ____?

Can ____ lights ____ off ____ are not in ____?

Is shutting _____ saving _____?

Turn off _____ in _____?

_____ not _____ should lights _____?

Is _____ to switch _____ lights?

_____ off the lights _____?

Is _____ possible _____ light use _____ it's _____?

_____ down _____ in empty rooms _____?

Can I _____ my power _____ I switch _____ light?

_____ about _____ off _____ lights?

Is _____ to _____ down power bill by using _____?

Is turning _____ save _____?

_____ turning _____ in saving energy?

_____ can _____ costs _____ changing unnecessary _____?

Will _____ energy _____ not lighting _____?

_____ shutting _____ lights _____ money on _____?

I wonder if _____ unneeded _____.

Will turning _____ unused _____ to _____ use?

_____ about _____ lights _____?

_____ turning _____ unused lights _____?

_____ down unneeded _____ energy?

_____ I _____ lights _____ are unneeded?

_____ electric _____ offlights?

Reducing _____ usage _____ me _____ back _____ resource use...

_____ lights that aren't _____.

Is it possible to _____ power if _____?

Will I _____ less _____ turning _____ unused _____?

_____ off, energy _____?

_____ consumption _____ me switch _____ lights.

Turn _____ not needed.

_____ I turn off _____ energy?

I want to _____

If _____ switch _____ can _____ still _____ power?

Light deactivation could _____ usage.

When not _____ use, _____ be _____?

Use _____ by turning _____ off.

Should _____ off _____ save energy?

Can I _____ use _____ lights?

_____ unused lights, can I _____ power?

_____ lights be turned off?

_____ wonder _____ turning off _____ lights _____ energy consumption.

Lights _____ and _____?

_____ lights are not being used, _____ off?

_____ shutting down _____ be a _____ in _____ usage?

_____ want to _____ if I can _____ unused _____.

Light _____ can be _____ electricity usage.

_____ it possible _____ turn _____ off _____ downtime?

Can _____ be used _____ decrease _____?

_____ an economical way _____ switch _____?

_____ off the lights _____ saving?

Is _____ switch _____ lights when not necessary?

Is _____ possible _____ save energy _____ shutting off _____?

Turn _____ lights _____ not _____ them.

Can I _____ use _____ I _____ use lights?

Could _____ off _____ make _____?

Can I _____ save energy?

Is _____ save electricity by running down _____ in _____?

When the lights _____ should they _____ turned _____?

_____ be _____ to conserve electricity by turning _____?

_____ I _____ off the lights _____ aren't being _____?

_____ deactivation _____ used to decrease _____.

Will the _____ lights _____ on _____ bill?

_____ it possible to _____ off idling lights _____?

_____ may _____ turned _____ to _____ energy.

_____ unneeded lights to _____.

When _____ will the _____ be _____?

_____ I _____ off _____?

_____ I lower my energy bill by _____?

lights off _____?

_____ like _____ know _____ cutting _____ on _____ lighting can lower _____ energy _____.

Reducing lamp usage _____ cut back _____ use.

Is it possible to _____?

_____ electricity _____ I _____ off the lights?

I _____ I can reduce _____ by turning _____.

If _____ switch off _____ I _____ on _____?

_____ I save on _____ not lighting up?

_____ to conserve energy?

_____ shutting lights off _____ on _____?

_____ it _____ to turn _____ lights when they're _____?

_____ can I save _____ lights?

Is it _____ to cut _____ to save _____?

_____ shutting _____ lighting decrease _____ use?

_____ off unused _____ I save energy?

Can _____ power _____ a light switch-off?

Can I _____ electricity by _____?

_____ deactivation can be used to _____ the _____.

_____ shutting _____ efficient?

Is _____ reduce _____ by switch lights?

_____ lights be _____ off _____ not _____?

Is energy saving _____ aren't _____?

Will I save power _____ lights?

_____ off unused _____ energy?

Is _____ possible _____ light _____ superfluous?

When not _____ can _____ switched _____.

Will _____ off _____ on energy usage?

_____ I reduce _____ usage by _____ lights?

_____ it possible that _____ result in less _____ use?

Is it possible to cut _____ shutting _____?

Stop _____ power: _____ off?

_____ I _____ lights off _____ save _____?

Is _____ possible that turning off _____?

Reducing lamp _____ would help _____ cut _____ consumption.

_____ possible to _____ energy by _____ lights?

Can _____ the lights when _____ in _____ to _____ energy?

Can _____ off when _____ use?

_____ that shutting _____ lights save _____?

Would _____ off _____ downtime?

_____ I _____ power when _____ off _____?

_____ off lights to conserve electricity.

_____ be turned _____ me power?

Is it possible to _____ when _____ needed.

_____ shutting off lights able _____?

Reducing lamp _____ help _____ back _____ resources

Can _____ off _____ lights _____?

Is _____ possible _____ lights and save _____?

_____ to _____ by disabling unneeded _____?

Are _____ for _____ lighting?

Is _____ good _____ during downtime?

Does _____ save energy by _____ lights?

_____ down _____ the use _____ lights?

_____ it _____ to _____ waste by turning off _____.

Reducing costs _____ turning _____?

Would _____ be _____ to turn _____ the _____ downtime?

_____ it _____ to _____ off _____ lights?

Is _____ saves electricity?

_____ off _____ when _____ in use.

How do _____ conserve _____ off?

Will switch off lights _____ my electrical _____?

_____ off _____ save you energy?

I _____ like to know _____ I _____ the lights _____.

Can I reduce my power _____ turning _____?

_____ possible to _____ down on power _____ by _____ less _____?

Can I turn _____ lights _____?

_____ turn off the _____ conserve _____?

Reducing _____ can help _____ resources...

Is _____ to conserve electricity _____ down _____ lights?

Is _____ necessary _____ off _____ sources for efficient _____ usage?

_____ unused _____ be switched off?

Is dimming lights _____ lower _____ electricity _____?

_____ a _____ to switch _____ unused light _____ to save _____?

_____ save electricity by _____ down bulbs in empty _____?

_____ be _____ to decrease _____ usage.

_____ shutting off lights make _____ electricity _____?

Reducing _____ by _____ lights?

Reduce _____ turning _____ off?

Offlights _____?

Does turning off unused _____?

_____ I _____ electricity by _____ up?

_____ shutting _____ lights _____ Energy?

To ____ waste, ____ I ____ ____ unneeded ____?
 Can ____ ____ turned off?
 ____ possible to lower ____ through ____ deactivation?
 ____ lights ____ switched ____ can ____ ____ less?
 Is ____ good idea to ____ idle ____ conserving?
 Does ____ ____ on electricity use?
 ____ lamp ____ can ____ ____ reduce ____ use.
 Will ____ unused ____ me ____ energy?
 ____ down unneeded lighting ____ reduce energy ____?
 ____ feasible to ____ lights ____ not necessary?
 Save energy ____ off ____?
 ____ energy by turning off the ____?
 Does ____ lights help ____ energy?
 I ____ I can ____ with ____ switches off.
 ____ the lights are not on?
 ____ turning off lights ____?
 Can I save ____ I ____ the ____ off?
 Cut ____ off unneeded ____?
 Deactivating illuminations ____ might lead ____ power ____.
 Will ____ by cutting off unused ____?
 When ____ are ____ used, ____ I ____ the lights?
 Can ____ me some power if I ____?
 ____ it ____ lights off to save ____?
 Will ____ off unused ____ energy ____?
 Will I save ____ unused lights?
 Will ____ down unneeded ____ down ____ energy ____?
 ____ I save money on ____ bill ____ the ____ off?
 ____ down unneeded lighting ____?
 ____ possible to light ____ save ____.
 Reducing ____ when unnecessary might ____.
 Saving ____ be achieved by ____.
 I wonder ____ down ____ lighting can ____ my ____.
 Will turning ____ unused ____ energy ____?
 Should I turn off ____ used?
 Reducing ____ usage could help ____ resources...
 Does ____ off ____ electricity ____?
 Can ____ be ____ to save energy when ____?
 Can lights ____ to conserve ____?
 deactivating illuminations during ____ may ____ power use.
 ____ by lights ____?
 ____ don't know ____ switch off ____ light sources.
 Can ____ power usage by ____?
 What ____ lights ____ to conserve ____?
 ____ to save power from lights being ____?
 ____ can be used ____ decrease ____
 When ____ lights are switched ____ consume ____?
 Will ____ power by going ____?
 Is it ____ to ____ lights?
 I wonder ____ is possible ____ by ____ off lights.
 Reducing lamp ____ can ____ resource ____.

Is it possible _____ lights would _____ off _____?

Does _____ off lights _____ less _____?

Will _____ off _____ when _____ used _____?

Will _____ off unused lights _____?

_____ turning _____ unused lights _____ conserve _____?

During _____ could _____ illuminations _____ to _____ power _____?

_____ off _____ save power?

Should I _____ unused _____?

_____ it energy-saving to _____ lights?

_____ when _____ use?

Is _____ possible _____ turn _____ lights _____ are _____?

Does _____ energy to _____ lights _____ not required?

Should I _____ practice of extinguishing _____ for _____ energy?

_____ I _____ the lights when _____ needed?

_____ it possible _____ switch off unneeded lights?

Should i switch _____?

Is _____ possible for _____ when switched off?

Is turning _____ going to _____.

_____ lower consumption _____ lights were _____ during downtime?

Is _____ to cut _____ use _____ not worth _____?

_____ it possible _____ off _____ energy?

_____ it wise to _____ unused _____ sources for _____?

Can dimming lights _____?

I wonder if _____ turn _____ when not in _____.

Will _____ off unused _____?

_____ to dim _____ to _____ energy?

_____ shutting _____ to reduce energy usage?

_____ turning off _____ conserve _____?

Can _____ switch _____ lights _____ electricity?

Will lights use _____?

_____ it _____ energy _____ are switched off _____ needed?

Is _____ savings _____ electricity?

Does _____ lights _____ costs?

_____ I _____ off to conserve _____?

Will _____ off lights _____ money on the _____?

Will turning off _____?

Can _____ electricity by _____ off _____?
