

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Expansion project planning assistance
Inquiry Sub-Category	Network capacity assessment
Description	Customers seek guidance on assessing the capacity of their existing electrical infrastructure and understanding the upgrades required to accommodate their expansion, ensuring a seamless integration of new electrical loads.
Data Size	6,871 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

How _____ determine _____ my _____ the capacity _____ support our expansion _____?

Can _____ wiring meet the expansion needs _____?

_____ we _____ to determine _____ sufficiency after _____ expansion?

Can _____ know _____ not our grids meet _____?

_____ able _____ handle the planned _____?

_____ our electrical infrastructure _____ growth _____?

_____ our _____ infrastructure support _____?

Is our electrical infrastructure _____?

Will _____ grid _____ in the _____?

We have _____ expansions?

_____ my electrical _____ be ready _____?

_____ can we _____ if _____ system can handle _____?

_____ the electrical infrastructure _____ for expansion.

Is our _____ meeting our expansion _____?

_____ wiring able to _____ expansion?

How _____ you determine electricalsufficiency _____?

Can _____ electrical infrastructure _____ the capacity to _____ expansion?

Should _____ current _____ setup _____ handle the growth _____?

_____ grid _____ used to _____ the future?

_____ want _____ know if the _____ power capacity covers _____.

_____ my _____ system _____ our expansion _____?

_____ do I _____ if _____ electric power for _____?

_____ there be enough _____ capacity _____ expansion?

How can _____ that our _____ handle future expansion?

_____ you _____ that _____ setup can _____ growth?

_____ want to _____ if the _____ for expansion.

Is the _____ good enough _____?

_____ ready for expansion?

Can we _____ our electrical grids _____?

Does _____ setup _____ our expansion _____?

I'm _____ if _____ have _____ power _____.

Can you _____ me if the _____ expansion _____?

Is _____ to advise _____ evaluating _____ capacity for _____ expansions?

Can _____ if _____ enough _____ for expansions?

_____ our _____ system _____ our plans?

Does our power _____ future _____?

Will it _____ possible _____ our electrical _____ expansion objectives?

Is _____ infrastructure _____ an expansion?

Is my _____ system _____ plans?

_____ to support expansions?

Can I check _____ system can _____ growth?

Do _____ a solution _____ if current _____ capacity _____ what's required _____?

Might _____ have _____ for _____?

_____ our power _____ the _____ growth?

Can _____ if our _____ growth?

Is _____ wiring able to _____?

Do we _____ expand?

_____ possible _____ my electrical system _____ our expansion _____?

Are _____ power setup _____ with _____?

_____ we assess _____ grids meet _____?

_____ supply _____ enough to handle _____?

Is our power _____?

_____ electric setup _____ expansion plans?

_____ it _____ we _____ sufficient _____ expansions?

_____ my current electrical setup _____ handling the _____?

Do _____ could _____ electric ability for expansions?

Does _____ make sense _____ know if _____ meet expansion _____?

_____ to know if my electrical infrastructure _____ the capacity _____.

_____ network _____ to support planned _____?

What _____ do to _____ electrical capacity _____ support _____ business _____?

Do _____ I _____ decide electric capability for _____?

_____ the power _____ future _____?

I want _____ know if _____ setup _____ growth.

Do _____ grids meet _____?

_____ anyone _____ a _____ evaluate our electrical _____ future _____ expansions?

Will there _____ enough _____ to _____?

I _____ whether we _____ enough _____.

Can _____ wiring meet _____?

Is the electric set _____?

Can we _____ the _____ the expansion _____?

_____ tell if _____ setup supports _____?

Are _____ power _____ enough for _____?

Is _____ electrical system capable _____?

_____ our _____ capacity _____ enough _____ the upcoming _____?

_____ my electrical system _____ able _____ plans?

_____ wondering if _____ system _____ growth.

How _____ we verify if _____ supports _____?

_____ able to _____ planned expansion?

_____ you _____ if the _____ the growth?
 Can we _____ our _____ handles _____ expansion?
 _____ can _____ make sure that energy _____ can _____?
 Can we determine _____ not the _____ meet _____?
 Can _____ electrical _____ handle _____ expansion _____?
 _____ electric _____ to expand?
 Can you _____ if my current _____ the growth?
 _____ infrastructure support our growing _____?
 _____ there a solution to _____ if current _____ capacity _____ what _____?
 Is _____ electrical _____ ready _____?
 How _____ I find out _____ electric power to _____?
 _____ the electrical _____ be able to _____ goals?
 Will _____ my future _____?
 _____ sufficient _____ capacity to _____ our expansion?
 Will the electrical _____ enough _____ the _____?
 Are we able _____ fuel our _____?
 We _____ power _____ handles future expansion.
 _____ our _____ to _____ the growth?
 _____ accommodate the future?
 Is _____ infrastructure _____ for expanding _____?
 _____ I _____ at the electrical _____?
 Is _____ network _____ expansion?
 Is _____ electrical _____ sufficient for _____?
 _____ able _____ use enough electricity capacity _____ fuel _____?
 _____ determine if there is _____ electric _____ support _____?
 _____ it _____ to _____ our _____ for future business _____?
 How _____ we know _____ we _____ enough _____ to _____ expansion?
 Does _____ capacity to expand?
 _____ tell if _____ setup supports _____ growth?
 Does the _____ capacity _____ future _____?
 _____ to know _____ we _____ enough _____ for expansions.
 _____ system _____ expansion plans?
 _____ grid can _____ future expansion.
 _____ sufficient to accommodate _____ plans?
 _____ it feasible to _____ for _____ business expansions?
 _____ electrical infrastructure adequate _____.
 Will _____ wiring meet _____ facilities?
 Does our _____ grid _____ our _____?
 Is _____ good _____ handle expanded operations?
 _____ power framework be _____ expansions?
 _____ our _____ to grow?
 _____ have _____ to fuel expansion?
 _____ determine _____ electrical grids meet _____ needs?
 We need to know _____ electrical _____ capable _____ our _____ goals.
 _____ our _____ system _____ enough for _____?
 _____ our _____ framework _____ with _____ expansions?
 _____ my _____ future expansion?
 _____ you _____ if the _____ infrastructure can _____ goals?
 Is the _____ infrastructure _____ expansion?
 How do I determine _____ have enough _____?

Does our _____ infrastructure _____ ?

Can _____ tell _____ our power setup _____ growth?

I would _____ to _____ if _____ electrical system can _____ .

I'm not _____ if _____ power for _____ .

_____ would _____ electrical sufficiency if _____ was an _____ ?

_____ anyone know _____ meet expansion _____ ?

Will my _____ be _____ to _____ expanded _____ ?

Is my _____ faithful _____ ?

Is _____ way to _____ current _____ covers what's needed for _____ ?

Evaluate _____ electrical _____ for _____ business _____ .

_____ I _____ on _____ for expansion?

We don't _____ if our _____ future expansion.

Do you know _____ capable of _____ expansion goals?

Can you tell _____ if my _____ growth?

Can my _____ grow?

_____ power _____ able _____ handle _____ vessels?

_____ framework accommodate _____ in _____ future?

_____ our power infrastructure _____ ?

_____ we find out _____ power system _____ expansion?

Is it possible _____ the _____ system's _____ for the _____ ?

_____ power equipment _____ growth?

Does our current electrical _____ ?

_____ our power framework _____ ?

Is there _____ see if my _____ setup _____ ?

_____ electrical _____ work with _____ plans?

_____ our _____ be able to _____ expansion?

_____ to determine _____ my electrical _____ supports _____ plans?

Does the electricity _____ grow?

_____ I know _____ my electrical infrastructure _____ support our expansion _____ ?

_____ we have _____ electricity _____ expansion?

Do _____ know how I _____ determine electric _____ ?

_____ can we _____ if _____ power _____ expansion?

Are we _____ to _____ our electrical capacity _____ business _____ ?

Is it _____ idea _____ electric capacity _____ grow?

_____ my _____ network _____ to _____ ?

Can _____ confirm that my _____ can _____ the _____ ?

_____ me _____ my electrical _____ can handle the growth _____ ?

How _____ I figure out _____ electrical _____ can _____ our _____ ?

Is the _____ suitable _____ plans

Is _____ infrastructure sufficient for _____ ?

Is there _____ determine _____ electrical system supports _____ expansion _____ ?

Is _____ enough power _____ ?

_____ power _____ be _____ handle the bigger ambitions?

I need _____ figure out _____ .

Should _____ handle our _____ plans?

Will the _____ bigger ambitions?

_____ it _____ assess _____ electrical capacity for _____ business expansions?

_____ assess _____ feasibility of _____ with _____ .

Does _____ power _____ support _____ ?

Is _____ electrical _____ up to _____ growth agenda?

____ my network have ____ ____ expansion?
 Is ____ electric setup ____ for ____?
 Can my grid ____ up ____ ____?
 ____ the electric ____ ____ the expansion ____?
 ____ ____ framework ____ compatible ____ future expansion?
 ____ we ____ ____ our power supply's ____ of ____?
 ____ ____ system meet the ____?
 Is ____ electrical ____ ____ enough to ____?
 How ____ we know ____ our ____ ____ copes ____ future ____?
 ____ ____ electrical grids ____ ____ needs?
 ____ ____ electrical infrastructure adequate ____ ____?
 I don't know ____ ____ system can handle ____ ____.
 How ____ I know ____ my electrical ____ ____ support ____ ____?
 There is ____ way to ____ if ____ ____ ____ growth.
 Does ____ ____ how to evaluate our electrical ____ ____ support ____ ____ ____?
 ____ ____ ____ to ____ if the electrical system ____ ____ objectives?
 ____ want to ____ if my ____ infrastructure ____ the capacity ____ ____ ____ expansion ____.
 ____ ____ electrical ____ ____ with ____ expansion plans?
 ____ ____ possible ____ determine if our electrical ____ ____ ____ expansion goals?
 ____ ____ electrical system ____ of ____ ____ operations?
 ____ ____ any ____ on evaluating electrical ____ for supporting ____ ____ expansions?
 Can I tell if ____ ____ ____ handle the ____?
 How ____ I ____ if my electrical ____ can support ____ ____ ____?
 ____ ____ like ____ know ____ ____ electrical system supports the expansion ____.
 ____ ____ grid ____ in the future ____?
 ____ my ____ ____ with future expansions?
 Does ____ power ____ ____ our growth ____?
 ____ we ____ at our ____ ____ to ____ ____ business expansions?
 ____ there a ____ ____ evaluate if current ____ ____ covers what's ____ for ____?
 ____ our power supply ____ ____?
 ____ my electricity ____ ____ enough capacity ____ future ____?
 ____ ____ ____ know if the proposed ____ objectives are ____ ____ the ____ system?
 ____ ____ wiring meet the needs ____ ____ ____?
 Can anyone help ____ ____ ____ ____ for future expansions?
 ____ we able to ____ ____ ____ capacity ____ grow?
 ____ you check ____ ____ if the electrical ____ ____ ____ ____ expansion goals?
 ____ ____ power supply ____ enough ____ ____ enlargement?
 Can ____ determine if ____ ____ grids ____ expansion ____?
 ____ ____ ____ ____ power supply handles expansion?
 ____ ____ operations ____ my electrical system ____?
 ____ ____ electrical ____ ____ our expansion plans?
 fer company's next step ____ ____ ____ ____ ample ____ and voltage ____?
 ____ the electrical ____ ____ ____ handle expansion ____?
 ____ ____ possible to tell if ____ ____ system supports ____ expansion ____?
 Is ____ electrical ____ adequate ____ upcoming ____?
 ____ our power ____ strong enough ____ ____ ____ growth?
 Is ____ ____ infrastructure ____ ____ support expansion?
 ____ ____ ____ our electrical capacity ____ future business ____?
 What ____ you think ____ measuring ____ ____ capacity to ____?
 How ____ ____ determine if we ____ ____ electrical power to ____ ____?

We _____ know if _____ have enough _____ expansion.
 _____ can we assure that _____ can _____ growth?
 Are _____ power _____ with the _____?
 _____ electrical _____ up to _____ of growth?
 Is _____ to support the _____?
 _____ our _____ infrastructure _____ support _____ expansion?
 _____ the electrical _____ handle _____ plans?
 I want _____ know whether we _____ electric _____.
 Will _____ electrical capacity _____ to handle the _____?
 Will Upgrading _____ allow _____ to expand?
 _____ our power infrastructure support _____?
 Do you _____ if my _____ setup _____ the _____?
 I _____ have enough power to _____.
 Is _____ network _____ for expansion?
 _____ good _____ to evaluate our _____ capacity for supporting _____ expansion?
 _____ check _____ electrical infrastructure for _____?
 _____ electrical network _____ increase?
 _____ our _____ capacity permit _____?
 Is our _____ infrastructure _____ to _____ plans?
 Can _____ our _____ setup supports _____?
 Ensuring _____ capability _____ boost _____?
 _____ our electrical _____ enough _____ expanding?
 Where can _____ out _____ our _____ future expansion?
 _____ that the power _____ supports _____ growth?
 _____ the _____ setup supported _____?
 _____ I see whether our _____ adequate for _____?
 Is my _____ system _____ our _____?
 _____ can _____ energy infrastructure be _____ growth?
 How can _____ determine if my _____ infrastructure _____ plan?
 Will _____ capacity be _____ the upcoming _____?
 _____ capacity allow for _____ projects?
 _____ available to _____ that our energy _____ support growth?
 _____ possible _____ evaluate _____ electrical _____ for business expansions?
 _____ how to evaluate _____ electrical _____ for supporting future business _____.
 Do we have _____ expansion?
 Can anyone _____ me _____ evaluating our electrical _____ expansions?
 How _____ whether _____ have _____ electric power _____ support expansion?
 _____ infrastructure _____ handling our expansion goals?
 _____ you _____ how I _____ electric _____ for expansions?
 _____ we _____ enough power _____?
 _____ grid _____ larger ambitions?
 _____ grid support expansion in _____?
 Is _____ capable of handling _____?
 Can _____ check _____ electrical _____ to see _____ handle the _____ goals?
 Is _____ electrical _____ compatible with the _____?
 _____ the power _____ our _____ intentions?
 _____ for an expansion?
 _____ you know if _____ power setup _____?
 _____ the _____ setup _____ for _____ plans?
 _____ there any _____ to verify _____ energy _____ can _____ growth?

_____ or _____ have enough power _____?

Are we _____ of _____ expansions?

_____ my grid _____ expansions?

_____ existing _____ the expanding _____ of our _____?

_____ my _____ to cut it _____ growth agenda?

_____ you check _____ our _____ to _____ it can _____ expansion goals?

Is _____ to determine _____ the electrical _____ supports _____ proposed _____?

Does our _____ our growing _____?

Do we _____ sure our _____ supply _____ expansion?

I _____ know _____ electrical _____ is _____ of handling our expansion _____.

Are _____ growth _____ the power _____?

_____ if the grids meet _____?

How _____ I know _____ electrical _____ support our _____?

Will _____ power framework _____?

Is _____ wiring _____ to _____ expansion _____?

_____ infrastructure sufficient for _____?

Can anyone _____ me how _____ evaluate our _____ to _____ expansions?

How can _____ if _____ infrastructure _____ the expansion plans?

We _____ sufficient _____ for _____?

_____ my electrical system _____ up _____?

Are we able to _____ electricity capacity?

_____ you check _____ the electrical _____ handling our _____ goals?

Did _____ know _____ our power _____ growth?

Does _____ wiring meet _____ expanding _____?

Is _____ setup compatible _____ expansion _____.

Is our electrical _____ projects?

_____ electrical capacity _____ plans?

_____ our power _____ be _____ handle _____?

_____ system _____ with our expansion _____?

_____ can _____ out if our system handles _____?

Does _____ system _____ the proposed _____?

_____ electrical grids meet _____?

Is there _____ handle expansion?

_____ know _____ my electrical infrastructure has _____ capacity _____ support _____ expansion _____.

How _____ determine _____ we _____ enough electric power _____ expansion?

_____ the power grid going to _____?

_____ if _____ have enough electricity capacity _____ expansion.

How can we learn _____ our _____ future _____?

_____ at to see if it covers _____ for growth?

_____ my _____ system _____ expansion?

_____ capacity to support expansion?

_____ able to evaluate our _____ for _____ expansions?

Can _____ grids _____ expansion _____?

Is _____ infrastructure large enough _____?

_____ my _____ setup _____ to handle growth _____?

_____ electrical infrastructure capable of _____ expansion _____?

How can _____ if _____ can _____ the expansion plans?

Are my _____ setup able to _____?

Is the _____ electrical _____ for _____?

Will my _____ be _____ these bigger _____?

Does _____ setup _____ growth?
 _____ sufficient for the expansion?
 Do _____ sufficient _____ expansion?
 _____ possible _____ have enough _____ to expand?
 _____ it _____ we have enough power _____?
 _____ it possible _____ infrastructure _____ expand?
 _____ my _____ system cope _____ our _____?
 Can _____ tell _____ about _____ electrical _____ business expansions?
 _____ my _____ cuts it for growth.
 Is it possible _____ if our electrical _____ expansion _____?
 _____ electrical _____ adequate _____ upcoming projects?
 Is my _____ capable of _____?
 Is _____ system _____ to handle expanded _____?
 Is _____ power _____ us _____ expand?
 Will _____ current _____ capacity accommodate _____?
 Can we _____ out whether _____ meet _____?
 _____ current _____ capable of handling the _____?
 Does my _____ jive _____ our _____?
 Will _____ allow _____ to expand in _____?
 Is our _____ capable _____ growth?
 _____ know if the _____ is sufficient for _____?
 _____ we confirm _____ infrastructure can support growth?
 Is _____ system _____ to _____ our _____ plans?
 Is _____ strong _____ to support _____?
 Do you know _____ I _____ determine _____ capability _____?
 _____ do _____ determine _____ sufficiency _____ an _____?
 How _____ find out if _____ power _____ handles _____?
 Are _____ use sufficient electricity capacity _____?
 I _____ to _____ if _____ enough electric _____ to support _____.
 _____ our electricity _____ growth?
 Should our electrical _____ for _____ projects?
 Will we be _____ determine _____ expansion needs?
 Does our _____ handle _____ expansion _____?
 _____ setup right for _____ plans?
 _____ to gauge the quality _____ our electrical infrastructure _____?
 _____ we prove that _____ energy _____ can _____ growth?
 _____ do you _____ if our energy infrastructure _____?
 Is the _____ of _____ the _____ expansion objectives?
 _____ electrical _____ deal with _____ plans?
 Can you _____ power setup supports _____ growth?
 _____ current _____ good enough _____ my growth plans?
 Can we _____ if our _____ handle _____?
 _____ is _____ way to _____ setup supports growth plans.
 Is _____ electrical _____ enough to handle _____?
 Can anyone _____ evaluate _____ electrical capacity for _____?
 Can _____ electrical _____ work with _____?
 _____ know how I _____ determine _____ electric capability _____ expansions.
 How _____ we _____ our _____ system _____ expansion?
 _____ my _____ system capable of _____ business _____?
 _____ we _____ that our energy _____ can _____ growth?

_____ suggest how to _____ our _____ to support _____ expansions?

_____ safe to expand _____ electrical _____?

_____ system good _____ to _____ growth?

_____ can we know _____ system _____ future expansion?

_____ my _____ network _____ of more _____?

_____ our _____ capacity permit future _____?

_____ energy _____ support _____?

How _____ our energy _____ can _____ our growth?

Is _____ electrical _____ enough _____ handle growth?

_____ capacity _____ to grow?

_____ wonder if the _____ will _____.

_____ if my electrical infrastructure can support _____ plans?

_____ my _____ support _____ future _____?

_____ existing _____ meet _____ expansion?

I am _____ if my _____ system _____ plans.

_____ our _____ going to _____ growth?

_____ don't know _____ our power _____ future expansion.

Does our _____ support _____?

_____ my _____ do our expansion _____?

Do _____ need to check _____ expansion?

Will we _____ able _____ whether _____ not _____ grids _____ needs?

Ready _____ an expansion? _____ infrastructure _____?

Does the _____ infrastructure help _____?

_____ electric _____ grow?

_____ can _____ determine _____ my _____ infrastructure is able to _____ our _____?

_____ can _____ our energy infrastructure _____?

_____ have _____ and voltage for company's next _____?

_____ current electrical _____ for future _____?

_____ can my _____ system handle _____?

_____ the _____ capable of handling _____?

_____ you understand _____ determine the _____ capability for _____?

_____ it _____ determine _____ our grids meet expansion needs?

Is _____ capacity _____ for _____ projects?

_____ should _____ decide if _____ have enough electric _____ to _____?

_____ you show _____ if _____ is capable of _____ expansion goals?

_____ there _____ to _____ if _____ setup supports growth?

_____ can I know _____ electrical _____ supports _____?

_____ grid _____ expansion needs?

_____ we _____ enough electrical capacity _____ the _____?

How _____ if the power system handles _____?

_____ to evaluate our electrical capacity _____ supporting future _____ expansions?

How _____ we _____ the _____ system _____ in the future?

How _____ I determine if we have _____ to _____?

_____ are _____ steps to _____ after planning _____ expansion?

_____ we _____ enough juice _____ voltage setup _____ the _____?

_____ my _____ system help us _____ plans?

Is _____ if my electrical _____ supports my growth _____?

I am _____ how I _____ for expansions.

Do we _____ power to _____?

_____ electricity _____ enough _____ for future growth?

Is ____ power ____ capable ____ growth?

Does ____ power ____ our ____?

____ power ____ the growth?

____ enough ____ to fuel the ____?

____ the electrical ____ enough to ____ our ____ goals?

____ know ____ can determine electric ____ in expansions?

____ able to fuel ____ with adequate electricity ____?

____ it possible to ____ for ____ future expansions?

Is ____ existing ____ to meet ____ needs?

Can ____ determine if the ____ system ____?

Does ____ setup support ____?

Does ____ cover what's ____ for ____?

Is existing ____ able ____ needs?

____ need to ____ the ____ adequate for expansion.

____ network ____ to expand?

____ our ____ infrastructure ____ us to ____?

____ ready ____ handle our expansion goals?

____ electric network ____ to ____?

I ____ like ____ know if ____ power ____ covers ____ for growth.

I would like ____ if ____ infrastructure ____ handle our ____.

____ can I find out ____ my electrical ____ handle ____?

____ there ____ to make ____ electrical setup ____ growth?

Can ____ electrical grids ____ expansion needs?

Does our ____ in with ____ plans?

____ we ____ if our ____ system handles ____ expansion?

Are ____ enough electric ____ to ____?

I ____ my ____ setup ____ growth.

How ____ the ____ infrastructure can support growth?

I ____ if ____ electrical setup can ____ my growth ____.

How ____ you ____ about ____ our electric ____ to ____?

____ know if our power ____ can ____ future ____?

Is it ____ good ____ to evaluate our electrical ____ future ____?

____ our electric ____ what do ____ think?

Is ____ supply ____ to ____ the ____ in size?

Is ____ possible ____ determine ____ grids meet ____ needs?

____ to ____ taken to determine electrical sufficiency after ____?

Will our ____ changes?

If the ____ supports ____ growth, ____ tell?

____ idea to evaluate our electrical capacity ____ business ____?

____ electricity network have ____ capacity ____ handle ____?

____ can ____ make sure ____ our ____ infrastructure can ____?

____ system handle ____ business operations?

____ that our ____ is able to handle our ____?

Is ____ electricity ____ projects?

____ you ____ if ____ power setup ____ support the ____?

____ need to ____ whether ____ enough electric ____ to support ____.

____ you determine electrical ____ since you ____ an ____?

____ we have ____ power ____?

____ we ____ our ____ meet expansion needs?

Do ____ know ____ I ____ determine electric ____ for ____?

_____ do _____ our energy infrastructure can _____ growth?
_____ our _____ framework accommodate _____?
Is our _____ sufficient _____?
_____ our _____ good _____ for expanding?
_____ my electric network _____?
Can anyone _____ our electrical _____ to _____ future business _____?
Is _____ possible to _____ capacity for future _____ expansions?
Do we need _____ evaluate _____ power _____ handles _____?
_____ curious _____ my _____ can handle _____ growth plans.
Does _____ capacity allow _____?
I want to know _____ capacity _____ what I _____.
Is _____ grid _____ support _____ expansion?
Will my _____ our _____?
_____ our _____ enough for growing?
_____ expansion _____ electric setup appropriate?
_____ our power _____?
Can you confirm _____ our _____ capable of _____ expansion _____?
Do _____ have _____ if our power supply _____?
_____ power for expansions?
_____ electrical capacity _____ for upcoming _____?
How _____ infrastructure can support our expansion plans?
Is _____ electrical system _____ of _____ expanded _____.
_____ to know if current power _____ covers _____ growth.
Is _____ power framework _____ expansion?
_____ our electrical _____ expand?
_____ if we have enough electricity capacity to _____.
I want to know _____ needs.
_____ we determine _____ we have _____ to support _____?
_____ need to _____ our _____ capacity _____ business expansions.
_____ the _____ we _____ fuel _____ expansion?
_____ the _____ meet _____ needs?
Can _____ determine _____ the _____ needs?
How _____ find _____ if our _____ can support _____?
_____ our _____ infrastructure _____ enough to _____ expansion goals?
What do _____ think _____ our electric _____ for _____?
Is my _____ network able _____ planned _____?
Are _____ infrastructures _____ of handling our _____?
_____ power setup _____ the _____?
I _____ know _____ we _____ enough _____ power to _____ expansion.
Do _____ need _____ make _____ power supply _____ expansion?
_____ my electrical _____ more _____ operations?
_____ that the _____ infrastructure _____ handle our expansion _____?
Should _____ be ready _____ expand?
_____ the _____ meet _____ needs?
_____ capacity strong enough _____ upcoming _____?
Is _____ power infrastructure _____?
_____ a _____ if current _____ capacity covers _____ required for growth.
_____ enough _____ capacity _____ our expansion?
Is it possible _____ gauge _____ electrical _____ for expansion?
_____ electrical _____ to handle expansion plans?

Do _____ what I _____ say about _____ for _____?
 _____ methods _____ verify if our energy _____ can _____ growth?
 Can you test _____ infrastructure _____ it can handle our _____?
 How should _____ out _____ we _____ enough _____ power for _____?
 _____ the _____ setup _____ support _____ growth?
 _____ our electrical capacity _____ project?
 _____ we _____ power _____ expansions?
 _____ can we know _____ our power _____ more _____?
 Is my current _____ to handle growth _____?
 Is _____ electrical _____ enough _____ upcoming projects?
 _____ can I know _____ electrical infrastructure _____ strong enough _____ expansion _____?
 _____ able _____ support _____ expansion _____ enough electric power?
 _____ need _____ assess if the power _____ expansion?
 Does _____ electrical _____ I _____ cut it _____ the growth _____?
 _____ electric setup good _____ expansion _____?
 Will we _____ sufficient _____?
 Can _____ grid _____ expansion?
 Will _____ handle future _____?
 How can _____ discover _____ our _____ can _____ expansion?
 _____ I _____ if our electric power is _____ to _____?
 Does _____ setup work _____ our _____?
 Can _____ expansion plans?
 Does our _____ allow us _____?
 _____ our _____ infrastructure allow _____ growth?
 Is _____ setup _____ for _____ plans?
 _____ you _____ if our _____ infrastructure _____ capable _____ handling _____ goals?
 I am wondering if _____ current electrical _____ growth _____.
 _____ electrical infrastructure capable _____ expanded?
 _____ the _____ our expansion plans?
 Is our _____ infrastructure _____ of _____ intentions?
 _____ it feasible _____ the _____ system supports _____ expansion objectives?
 Are my _____ electrical _____ growth?
 How _____ if we _____ power to support _____?
 Is existing _____ suitable _____?
 Are _____ infrastructure _____ expansion?
 I _____ know if the electrical _____ the _____.
 How do _____ if our _____ infrastructure _____ support _____?
 Can _____ check if _____ electrical _____ handle _____ goals?
 Is it _____ to _____ the _____ supports growth?
 I _____ our _____ capacity _____ support _____ business expansions.
 Does the _____ capacity allow _____?
 _____ expansion _____ can _____ system handle it?
 _____ find out if _____ power _____ handles _____ expansion?
 Is _____ system able _____ support _____?
 _____ my current _____ setup _____ enough _____ handle _____ growth _____?
 _____ my electrical setup cuts it for _____.
 Can _____ tell _____ if _____ electrical _____ can _____ goals?
 _____ my _____ capable _____ supporting future _____?
 Is _____ electric network _____ to _____?
 _____ don't _____ our grids _____ expansion _____.

Can _____ find _____ electrical system _____ handle growth?

_____ I determine if my _____ capacity to support _____ expansion _____?

_____ we _____ electricity _____ to _____ our expansion needs?

Does _____ support _____ growth?

Can _____ us _____ our _____ for _____ business expansion?

Will _____ electrical setup _____?

Are _____ able _____ get _____ to _____ our expansion?

_____ a _____ to _____ my _____ supports my growth plan?

Does _____ electrical setup _____ agenda?

Will _____ current _____ allow _____ plans?

Can the _____ handle _____ plans?

Is _____ capacity _____ for the _____?

_____ should I decide if _____ to support expansion?

I _____ like to _____ if _____ power capacity _____ what's required _____.

_____ the strength of our electrical _____ expansion?

_____ wonder _____ my _____ can handle the _____.

_____ power _____ live _____ to these bigger _____?

_____ the electric _____ for _____?

_____ grid _____ me _____ in the future?

Can _____ is capable of handling our expansion goals?

_____ you think _____ can _____ our electric _____ to _____?

_____ assess _____ my electrical _____ supports my _____ plans?

Is _____ electrical setup _____ to _____ growth _____?

_____ wondering if _____ will handle growth.

_____ our _____ suitable _____ future plans?

Is _____ enough to _____?

Is my _____ grid _____ to endure _____?

There is _____ to _____ if _____ electrical _____ supports _____ plans.

Are _____ infrastructure _____ support _____ expansion?

Is _____ electrical infrastructure enough _____?

_____ power _____ enough for _____ expansion?

_____ electric network _____ to expand?

_____ me how I _____ determine electric _____ expansions?

_____ my electrical system _____ our expansion _____?

_____ it _____ to _____ electrical capacity for supporting future _____?

Is my _____ system able _____ our _____.

_____ be _____ to meet these _____ ambitions?

Is _____ sufficient _____ capacity to _____?

_____ my grid be _____ to fulfill _____?

How do you _____ electrical _____ when _____ expansion?

_____ the power setup supportive _____?

_____ power framework _____ increases?

_____ enough power _____ expansions?

_____ steps _____ take _____ electrical sufficiency when planning an _____?

Is _____ power for _____?

Can _____ wiring meet _____ of the expanded _____?

_____ wondering if our _____ system could _____.

How should _____ whether _____ have _____ power _____ expansion?

_____ our _____ hold up _____ future _____?

Can my _____ system _____ expansion _____?

How ____ we know ____ system handles future ____?
 ____ infrastructure be ____ expand successfully?

How can ____ sure ____ my electrical ____ our ____ plans?
 ____ want ____ know ____ we have ____ power for ____.
 ____ power ____ the growth we ____?

How should I decide ____ electricity ____ expansion?
 Is ____ possible ____ we have ____ electricity capacity ____?
 We ____ to evaluate our ____ to ____ future ____.

Is ____ electrical capacity good ____ upcoming ____?
 ____ I ____ electrical infrastructure for ____?
 Is ____ my ____ can ____ future expansion?
 ____ electrical system suited ____ business ____?

How can ____ know ____ my ____ infrastructure ____ support ____ expansion plans?
 Will ____ electrical ____ be ____ support our ____?
 ____ I ____ if ____ have enough ____ expansions?
 Can ____ our ____ with ____ electricity ____?
 ____ we find out if our ____ future expansion?
 ____ the ____ be ____ handle future expansion?

Is our ____ enough to ____?
 ____ know how I could ____ determination about ____ capability ____?
 Does ____ current power capacity ____ what's ____?
 ____ find out ____ power system handles future ____?
 ____ possible to ____ the ____ are supported by ____ electrical system?

Is ____ electric setup ____ expansion ____?
 I would like ____ know ____ system ____ growth.
 ____ much power ____ we have ____?
 ____ current electrical setup ____ enough for ____ growth ____?
 ____ can ____ out ____ our power ____ future expansion?
 ____ our current ____ capacity meet ____?
 ____ electrical infrastructure ____ enough for ____?
 ____ existing ____ to meet expanded ____?
 ____ know ____ I could figure ____ the ____ capability for ____?

Is ____ grid enough ____?
 ____ you ____ me if ____ setup is ____ the ____?
 ____ want ____ my current electrical ____ can ____ the ____ plans.

Does ____ infrastructure support ____?
 ____ framework ____ further expansions?
 How ____ find out if ____ electric power ____ expansion?
 To evaluate if current power ____ covers ____.

Does ____ electrical setup ____ us ____?
 Will ____ framework be compatible ____?
 Is our ____ infrastructure ____ to handle ____ expansion ____?
 ____ we ____ if our power ____ the ____?
 ____ there ____ way ____ know ____ the electrical ____ my growth ____?
 ____ existing wiring ____ our ____ needs?
 ____ existing ____ meet ____ needs?
 ____ our ____ infrastructure ____ to handle ____?

Can I ____ the ____ expansion?
 Is ____ electrical ____ strong ____ deal ____ growth?
 Can ____ know ____ our grids ____ the ____?

Is _____ advise on evaluating our electrical _____ support _____ business _____?
 _____ our power _____ able to _____ future _____?
 _____ enough electrical _____ for upcoming _____?
 How _____ I make _____ my electrical infrastructure is _____ plans?
 Can we _____ if _____ demands?
 _____ power framework _____ with future _____?
 _____ verify if _____ energy infrastructure can _____ growth.
 We want _____ know if _____ meet _____.
 Do _____ enough _____ the expansions?
 _____ you see _____ our _____ setup _____ the _____?
 How should I _____ we have enough _____ the _____?
 Does _____ itself to future _____?
 Is the power _____?
 Is _____ network big _____ for _____?
 _____ my _____ setup _____ for expansion _____?
 _____ the _____ capacity _____ for _____ projects?
 Is _____ up _____ the _____ handling our expansion goals?
 _____ our _____ allow for future _____?
 How can _____ be _____ that _____ infrastructure _____ growth?
 Is _____ expansion of facilities?
 Are _____ capacities _____ for _____ projects?
 _____ need _____ know _____ can handle the growth.
 Can _____ up with our _____?
 _____ my _____ system capable of handling _____?
 Is _____ a _____ to see _____ setup _____ growth plans?
 Do _____ have enough _____ voltage _____ for _____ next step _____?
 I don't _____ if my _____ supports _____.
 Is _____ assess _____ electrical system's _____ expansion objectives?
 Can the _____ setup _____?
 How _____ I _____ we _____ power for expansion?
 _____ my _____ live up _____ ambitions?
 _____ we know _____ our _____ system _____ future expansion?
 I want to _____ the _____ deal with _____.
 _____ I _____ if _____ electrical _____ capable of supporting our _____ plans?
 _____ electrical systems _____ of _____ our _____ plans?
 _____ we supposed to _____ if _____ supply handles _____?
 _____ electrical setup ready to _____ growth plans?
 Assessing _____ growth _____ feasible.
 _____ our _____ infrastructure strong _____ successful expansion?
 Does _____ infrastructure _____ our _____?
 _____ possible for existing wiring _____ needs?
 _____ is your _____ on evaluating _____ electric _____ grow?
 Will _____ cater _____ future expansion?
 Will _____ electrical _____ us to _____?
 Does the _____ support our _____?
 Is _____ grid _____ expand?
 _____ tell me _____ the electrical infrastructure _____ handle expansion _____?
 Is _____ wiring able _____ the needs _____?
 Can my _____ growth?
 Does our _____ infrastructure _____?

Does our ____ capacity support ____ ____ ?
____ the electric setup ____ expansion ____ ?
Is ____ electrical capacity ____ projects?
I ____ if ____ electrical ____ could handle ____ growth ____ .
Should current ____ evaluated to ____ if it ____ for growth?
____ electrical ____ can ____ expansion goals?
____ do we know ____ power ____ will handle ____ ?
Can existing ____ meet ____ ?
Is ____ high ____ for ____ projects?
Can ____ electrical system ____ plans?
____ our ____ the upcoming growth?
Can my ____ ambitions?
Can we find out ____ our ____ needs?
____ there enough ____ to fuel ____ ?
Can ____ measure ____ or not ____ meet ____ needs?
How ____ I find ____ infrastructure is able to ____ ?
How ____ see if ____ infrastructure ____ support growth?
____ our electrical infrastructure ____ enough ____ ?
Is our ____ for ____ ?
Is the ____ enough ____ expanding?
____ can ____ be ____ power system handles future ____ ?
____ power infrastructure accommodate ____ plans?
Can ____ wiring ____ the ____ our expanded facilities?
Is our ____ future expansion?
____ electrical ____ fit ____ future plans?
____ want ____ know ____ our power system ____ expansion.
Can ____ grid back ____ ?
How do we ____ the ____ expansion?
Can you tell ____ if our ____ able ____ handle ____ goals?
Is the ____ setup ____ expansion ____ ?
____ you verify if the ____ our ____ goals?
____ the existing wiring ____ the expansion needs ____ ?
Will we be ____ future ____ expansions with ____ capacity?
I wonder ____ my electrical system ____ .
We ____ system handles future expansion.
Can ____ tell ____ power is ____ the ____ ?
____ the ____ for expansion?
____ my electrical ____ able ____ carry out ____ ?
Is the ____ able ____ endure ____ bigger ____ ?
____ there ____ enough electricity capacity ____ ?
Is ____ system ____ for ____ business operations?
____ there a ____ to ____ electrical capacity ____ future business ____ ?
____ infrastructure support continued ____ ?
Can ____ keep up ____ our ____ ?
____ detect if the electrical system ____ the expansion ____ ?
____ possible to see ____ are supported by our electrical ____ ?
____ electric capability for expansion?
Can ____ electrical system ____ my ____ ?
Is our electric ____ projects?
Can my ____ support ____ ?

Can _____ wiring _____ the _____ of _____ ?
 _____ future _____ be _____ in the _____ ?
 _____ to _____ whether or not our grids _____ expansion _____ ?
 _____ our _____ framework _____ future _____ ?
 Are my _____ network _____ ?
 Is _____ enough _____ n _____ company's next step?
 _____ to _____ whether _____ have enough electric _____ to _____ expansion.
 _____ our _____ meet the expansion needs?
 Is it _____ to evaluate _____ capacity _____ business expansions?
 Can _____ grid _____ expansion?
 _____ I tell if our _____ growth?
 Can we _____ if _____ grids _____ ?
 Is my _____ grid able _____ the _____ ?
 Can _____ tell me _____ electrical _____ growth plans?
 Is it possible _____ if _____ electrical _____ supports _____ ?
 _____ assess _____ supply handles enlargement?
 _____ want _____ if _____ electrical system supports _____ expansion _____ .
 Is _____ for expansion?
 Is my _____ system _____ to _____ ?
 Can my electrical _____ ?
 Is _____ infrastructure big _____ for _____ ?
 _____ can _____ know _____ infrastructure _____ to support our expansion plans?
 Are _____ setup _____ expansion plans?
 Are you sure _____ determine electric _____ for _____ ?
 _____ electrical _____ support our plans?
 _____ our power supply _____ ?
 I was wondering _____ my _____ could handle _____ .
 Can _____ meet expansion need?
 _____ would _____ to know _____ to _____ capability for _____ .
 Does _____ if there _____ power for _____ ?
 _____ electrical _____ for expansion?
 _____ anyone _____ if we _____ enough _____ for _____ ?
 _____ tell _____ how _____ evaluate _____ capacity to _____ future expansion?
 _____ you _____ if _____ electrical infrastructure _____ our _____ goals?
 _____ the _____ setup _____ for expansion _____ ?
 I _____ if _____ electrical system _____ .
 Do you know how _____ electric capability _____ ?
 _____ electricity _____ our expansion?
 _____ the _____ adequate to accommodate _____ ?
 _____ we _____ for expansion?
 Do we know _____ power _____ expansion?
 _____ the _____ possible _____ expansion?
 _____ our _____ infrastructure _____ to _____ expansion?
 Ready _____ expansion? _____ our _____ good enough?
 Are _____ infrastructure capable of _____ goals?
 We want _____ evaluate our _____ capacity _____ business _____ .
 _____ able to _____ power infrastructure?
 _____ have enough electric _____ support _____ should _____ determined.
 Will _____ survive _____ ambitions?
 Is my _____ network _____ more _____ ?

Do our _____ capacity _____ future _____?
 _____ grid make _____ for the _____?
 _____ our _____ infrastructure _____ our _____ plans?
 _____ the _____ network _____ to _____?
 Is _____ to evaluate _____ for _____ future expansions?
 Do we _____ to _____ expansion?
 Are _____ infrastructure _____ for _____ expansion?
 We would like to _____ our _____ expansion.
 _____ we _____ if _____ power _____ handles future expansion?
 How _____ we evaluate _____ capacity _____ business expansions?
 Will _____ future plans?
 Does our _____ upcoming _____?
 _____ our power _____ expansion?
 _____ if _____ power _____ handles _____ expansion?
 _____ the _____ network capable _____?
 Does _____ handle _____ growth?
 Did _____ know _____ electric capability for expansion?
 _____ my _____ support _____ plans?
 _____ network ready to _____?
 Do _____ juice and voltage _____ for company's _____ up?
 _____ my electrical _____ the plans?
 Can my electrical system _____?
 Is _____ capacity _____ the _____ work?
 _____ can we _____ infrastructure can _____ growth?
 _____ much _____ capacity will _____ have to _____ expansion?
 How _____ I _____ if _____ infrastructure supports _____ plans?
 _____ it possible _____ if our electrical _____ supports _____ objectives?
 _____ check if _____ electrical system _____ the proposed _____ objectives?
 Is _____ wiring able _____ meet the _____ expanded _____?
 Is _____ possible to determine if _____ electrical _____ expansion _____?
 _____ think our electrical infrastructure _____ expansion goals?
 _____ grid survive _____ bigger ambitions?
 _____ I determine _____ my electrical infrastructure supports _____?
 I would _____ to _____ if _____ enough electric _____ expansion.
 _____ infrastructure can support _____ expansion _____ can I tell?
 _____ you tell _____ power setup is supporting _____?
 I want _____ whether or not we _____ for _____.
 _____ setup _____ for expansion plans?
 _____ an adequate electrical infrastructure _____?
 _____ power infrastructure _____ enough to _____ expansion?
 _____ adequate for future _____?
 How can I _____ if _____ electrical _____ support _____ plans?
 The power supply _____ to _____ assessed if _____.
 _____ tell _____ if _____ evaluate _____ electrical capacity for _____ expansions?
 _____ to know _____ our electrical _____ good enough _____ expansion.
 _____ am wondering if _____ enough power _____.
 Does _____ electric _____ room to _____?
 _____ my _____ my expansion?
 Can you _____ power setup _____ growth?
 _____ my _____ to _____ future expansion?

____ my electrical ____ match ____ growth ____?
 Can ____ whether or not ____ expansion needs?
 ____ can I ____ the ____ infrastructure can support ____ plans?
 ____ I check if ____ electrical ____ handle the ____?
 Is ____ framework compatible with ____?
 ____ it a good ____ evaluate ____ capacity ____ future business expansions?
 ____ our electrical ____ be ____ to ____ plans?
 Is it ____ if the ____ system supports ____ expansion ____?
 Is ____ system ____ of ____ my ____?
 I ____ to ____ if ____ system ____ handle growth.
 ____ we make sure ____ power ____ handles ____ expansion?
 What ____ to find ____ if our ____ system ____ expansion?
 ____ my ____ support future ____?
 ____ our ____ proposed expansion objectives?
 Is ____ capacity ____ support ____ plans?
 Can ____ electrical ____ support ____?
 ____ our ____ capacity enough ____ the ____?
 Is ____ to know if ____ electrical ____ expansion ____?
 ____ can ____ sure ____ our ____ system ____ future expansion?
 ____ existing ____ growth needs?
 I wonder ____ electrical ____ can handle ____.
 ____ we know ____ power ____ supports ____?
 ____ my ____ system ____ go ____ our plans?
 ____ the ____ adequate for ____?
 ____ my ____ future expansion?
 ____ enough electrical capacity to ____ plans?
 Can ____ or ____ our grids meet ____ needs?
 How ____ if we ____ enough ____ power ____ expand?
 Is ____ capacity ____ for our ____?
 How ____ decide whether ____ have enough power ____?
 ____ electricity network able ____ expansion?
 ____ we discover ____ our power system ____?
 ____ our electrical ____ capable of ____ the ____?
 Is ____ that ____ will back ____ expansion?
 ____ electric setup be ____ plans?
 Can ____ me ____ the ____ can ____ our goals?
 ____ you have any ____ how ____ can determine electric ____?
 ____ the electricity network ____ for future ____?
 Is our ____ enough ____ handle ____ work?
 ____ if ____ electrical system ____ handle growing ____ operations.
 ____ to determine ____ our grids meet ____ needs.
 How should we ____ electric power ____ support expansion?
 Do ____ know ____ the ____ infrastructure is ____ of ____ goals?
 ____ the power supply ____?
 Is ____ network ____ expand?
 ____ wiring able to meet ____ needs of ____?
 ____ if ____ electrical setup can handle ____ growth ____?
 I ____ if my ____ network ____ expand?
 ____ our ____ infrastructure be able to handle ____?
 ____ our ____ capacity able ____ upcoming ____?

Are our ____ goals ____ my ____?

Are we able ____ capacity ____ fuel ____ expansion?

____ to gauge if ____ electrical ____ can ____ growth.

____ I determine ____ there is ____ power for ____?

Will ____ power ____ future ____?

____ the ____ grid be ____ to ____ bigger ambitions?

____ my current electrical setup ready ____?

____ electric ____ ready to ____ expanded?

Does ____ correspond to ____ agenda?

____ you ____ of how ____ could ____ capability ____ expansions?

____ electrical system have ____ capacity ____ growth?

____ our grid ____ our ____?

____ there ____ capacity to ____ expansions?

____ you tell me ____ my current ____ handle ____ growth?

Do ____ enough ____ expansions?

____ can we ____ if ____ is supporting growth?

Can ____ grid ____ future ____?

____ our current ____ accommodate ____ plans?

____ we say ____ we have ____ expansions?

I need ____ current electrical ____ handle growth.

Is ____ infrastructure supporting ____?

____ my ____ system reliable ____ operations?

Is ____ setup ____ expansion plans?

____ I measure ____ the ____ can ____ growth?

Did my ____ cut it for ____?

How ____ out ____ energy infrastructure can ____ growth?

Is the ____ setup ____ in ____?

____ able ____ meet ____ facilities needs?

Is the ____ network ready ____?

____ the ____ supports ____ growth can you ____?

____ our power infrastructure ____?

Do ____ if ____ system can handle ____?

____ possible to evaluate our electrical ____ support ____ expansions.

Is ____ enough ____ support ____ growth?

If my ____ setup ____ growth ____ a way to ____ it?

____ setup support growth?

Can ____ if our electrical infrastructure can ____?

____ my current ____ setup ____ the ____ of ____ the ____ plans?

____ my ____ setup ____ our ____ goals?

How ____ find out ____ the power system ____ expansion?

____ the electric ____ expansion?

____ my ____ survive bigger ____?

Is it possible ____ I ____ for expansions?

____ capacities ____ future plans?

____ there enough electricity ____ support ____?

____ like to ____ we have sufficient ____ for ____.

____ I see ____ my electrical ____ my ____ plans?

How can we figure out ____ can ____ expansion?

Does ____ with our ____ plans?

____ we find out ____ system can handle ____ expansion?

Will _____ system _____ towards _____ plans?
_____ my electricity network _____ future _____?
_____ there a way _____ sure _____ electrical setup supports _____ _____?
Is there _____ electricity _____ _____ growth?
Since planning an _____ the _____ determine electrical _____?
Does _____ fulfill _____ growth intentions?
_____ power grid _____ these _____ ambitions?
_____ our electrical _____ sufficient _____?
Is _____ helpful to _____ goals?
_____ sufficient power for _____?
_____ my _____ system handle _____ expansion _____?
_____ we _____ able _____ determine whether _____ meet expansion _____?
_____ the electrical _____ expand successfully?
Do _____ have _____ if _____ supply handles expansion?
_____ it _____ to _____ the _____ infrastructure?
_____ think I _____ figure _____ electric capability _____ expansions?
Did our _____ infrastructure support _____ _____?
_____ the power grid _____ up _____ bigger _____?
Can _____ electrical _____ our plans?
_____ electric setup _____ for _____?
Is _____ capacity _____ support upcoming _____?
Can the existing wiring meet _____ needs _____ _____?
