

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Issues with car's exhaust system
Inquiry Sub-Category	Exhaust pipe rusted or corroded
Description	Customers inquire about the condition of their exhaust pipe, which may be rusted or corroded, leading to performance issues and increased noise levels. They seek advice on repair or replacement options.
Data Size	5,049 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ severe corrosion damage _____ replacement _____ entire _____ within the current _____ setup?

Will it _____ replacements _____ to make _____ the current _____ doesn't get _____

_____ entire sections of the current _____ will _____ required _____ is _____.

_____ it _____ replace full _____ to eliminate _____?

_____ it _____ that we will _____ to replace _____ sections _____ severe corrosion?

_____ think I _____ a _____ section _____ because _____ this severe corrosion _____?

_____ this _____ issue be fixed by _____ entire _____ segments, or _____ changing _____?

Will _____ necessary _____ whole _____ to get _____ of corrosive damage?

Is it _____ replace _____ of my piping _____ due _____ damages?

Will the current piping _____ need to _____ in _____ rid of the _____ to _____?

_____ you _____ if it will be necessary to _____ sections _____ to resolve _____?

Will this _____ problem be _____ by changing _____ pipe segments, or can _____ way?

_____ it _____ replace _____ entire _____ if _____ want _____ of strong rust?

Will it _____ to make _____ system _____ safe _____?

Will _____ issue be _____ by _____ out entire pipe _____ way?

Is _____ necessary _____ swap _____ portions _____ to fix rust issues?

_____ serious _____ be fixed by _____ out entire _____ segments, or _____ with one _____ segment?

_____ this _____ every pipe segment or is _____ not possible?

Will the _____ fixed _____ changing _____ entire pipe segments or _____ it _____?

_____ necessary to _____ sections in the current setup _____ rid _____ corrosive _____?

_____ eliminating corrosion _____ sections?

Is it _____ pipe _____ in _____ get rid of strong rust?

_____ of _____ within current _____ is needed to _____ damage.

Will the _____ be _____ by changing _____ pipe _____ or can _____ be repaired _____ way?

_____ the _____ by _____ entire pipe _____ or can _____ fixed in a different way?

_____ this serious issue be _____ out _____ pipe _____ or _____ be solved _____ changing _____ section?

_____ this _____ issue _____ fixed with _____ out entire pipe _____ or _____ be _____ with different _____?

If _____ want to eradicate serious corrosive damage, will _____ entire _____?

_____ serious issue be _____ the entire pipe segment _____ will it _____ repaired _____ different _____ ?

_____ it take replacements of _____ to _____ system _____ from corrosion?

Will _____ be _____ by changing out entire _____ can _____ be _____ by changing one pipe _____ ?

Entire sections of _____ will _____ be replaced _____ the damage.

_____ the entire _____ of _____ setup will be _____ rid of _____ damage.

_____ of the piping _____ need to _____ the damage.

Will this _____ be _____ by _____ entire pipe segments, _____ it differently?

Will _____ serious issue be _____ changing _____ entire _____ segments _____ it be fixed by _____ ?

_____ be _____ if we change _____ every pipe segment?

Will _____ be fixed _____ changing _____ entire _____ segments, or _____ it _____ different methods?

_____ replace the entire _____ to eliminate corrosive damage?

_____ to _____ the entire pipe _____ if _____ want to get _____ of strong _____ ?

_____ the sections _____ to fix _____ corrosion?

Will it _____ of entire sections _____ setup doesn't get _____ by corrosion?

_____ entire sections _____ make _____ the current setup is not _____ Corrosion?

Can _____ tell _____ if _____ necessary to replace complete _____ sections _____ we _____ ?

_____ replacements be _____ dealing with intense corrosive _____ ?

_____ entire sections _____ the current piping _____ be required _____ of the _____ .

_____ this serious _____ entire _____ or will it be solved via changing _____ section?

_____ the serious issue _____ fixed _____ out entire pipe segments _____ ?

_____ take _____ sections to make _____ the _____ safe from corrosion.

Will this _____ issue _____ changing out entire _____ segments, or _____ they fix _____ a _____ ?

Does it need _____ have full section _____ ?

Will the _____ be fixed _____ changing out _____ pipe _____ will _____ fix it _____ ?

Will this _____ issue be _____ by _____ segments, _____ it be solved _____ ?

_____ you tell _____ it's necessary _____ us _____ complete _____ if we _____ severe corrosion?

Will this _____ issue be _____ changing out the _____ or _____ it be _____ one _____ segment?

Is _____ pipe _____ replacement required _____ rid _____ Corrosion?

_____ bad _____ whole _____ replaced?

Will the issue _____ pipe segments _____ is it different?

_____ it _____ replace entire _____ of _____ piping _____ rid of the severe damage?

_____ think that removal of _____ pipe oxidation requires _____ ?

Will _____ corrosion issue mean changing _____ pipe segments _____ it _____ repaired _____ ?

_____ of sections within current pipes necessary to _____ ?

Will it take _____ of _____ make _____ current system _____ from corrosion?

_____ it _____ pipe segments, or will it _____ solved differently?

Is _____ necessary _____ replace the entire _____ if you _____ to get _____ ?

Can the serious issue _____ fixed by _____ out entire _____ be fixed _____ methods?

Does _____ need full section _____ ?

_____ it _____ to replace whole _____ when removing _____ ?

_____ the _____ be fixed by changing out _____ ?

If _____ eradicate corrosive damage, _____ I required _____ entire portions _____ ?

_____ the _____ pipe going to have _____ replaced _____ that _____ rust?

_____ this _____ be fixed by _____ out entire _____ segments, _____ will it _____ ?

Will _____ serious issue _____ every _____ segment or _____ it _____ can be done differently?

_____ serious issue _____ fixed _____ changing out _____ pipe _____ or _____ be _____ done?

Will this _____ issue _____ fixed by changing out _____ pipe segments _____ ?

_____ this _____ issue be _____ by changing out _____ will it be _____ with different _____ ?

_____ take _____ entire sections to _____ sure the system is _____ ?

_____ it necessary for a complete _____ section replacement _____ strong _____ ?

_____ to swap _____ portions in tubing schematics _____ rust issues?
 Does it make sense _____ pipe _____ my _____ if there _____ corrosion?
 _____ of _____ within _____ pipes _____ rid of damage?
 Will _____ serious _____ be fixed _____ changing _____ whole pipe _____ will it _____ repaired in _____ ?
 Will it _____ by _____ entire _____ segments _____ not?
 _____ need full section replacements?
 _____ it necessary for affected _____ to _____ entirely _____ of the _____ ?
 Will the _____ issue _____ by changing out _____ or can _____ be _____ by _____ one pipe _____ ?
 Will this _____ issue be _____ out _____ or differently?
 _____ serious issue _____ changing out entire _____ segments _____ a different _____ ?
 Will _____ be fixed by _____ the _____ pipe _____ or will it _____ solved by doing _____ ?
 _____ removing corrosive _____ need _____ section _____ ?
 Is _____ full _____ replacements to _____ ?
 _____ be fixed by changing _____ pipe segments, or will _____ be _____ other methods?
 Is it _____ to change _____ pipe sections if _____ ?
 Is _____ required _____ pipes with _____ ?
 Replacement of _____ sections _____ piping _____ is _____ repair damage.
 Replacing entire _____ piping setup _____ necessary to _____ rid _____ corrosion damage.
 Will this _____ issue be _____ changing out entire _____ segments _____ will _____ a more different _____ ?
 Will _____ be necessary _____ the _____ setup to get _____ severe corrosive _____ ?
 Is _____ possible _____ affected areas should be _____ entirely _____ conditions?
 _____ replace _____ entire pipe section in order _____ rid of _____ ?
 Is _____ necessary to _____ entire _____ for getting _____ of _____ ?
 Are full-section replacements _____ corrosive _____ ?
 _____ tell me if it's necessary to _____ complete _____ in order _____ ?
 Will it be _____ replace _____ severe corrosion damage?
 _____ tell _____ if _____ will need to _____ pipe _____ if _____ resolve the _____ ?
 _____ I _____ a _____ replacement _____ of the severe Corrosion _____ ?
 _____ this _____ issue be _____ by changing _____ entire pipe _____ do we _____ to _____ section?
 Will the _____ by changing _____ entire _____ or will _____ repaired in _____ different manner?
 Will _____ entire pipe _____ the _____ problem?
 Is _____ section replacements for _____ ?
 Is it _____ full section _____ in eliminating _____ ?
 _____ eradicate corrosive damage, _____ I replace entire portions _____ ?
 Will I _____ to replace _____ pieces of _____ pipes setup to _____ ?
 Replacing entire _____ within the _____ piping _____ will be _____ get _____ corrosive _____.
 _____ me _____ it _____ be necessary _____ replace complete pipe sections in _____ to _____ the _____ ?
 Will I need _____ pieces within my pipes setup to _____ ?
 Is complete _____ restoring _____ with _____ decay?
 Will _____ take replacements of _____ sections _____ make sure _____ from corrosion?
 _____ this serious issue be _____ by changing out _____ pipe _____ it _____ a _____ way?
 _____ necessary _____ replace all the _____ current _____ to get _____ the corrosive damage?
 Will _____ serious _____ be _____ changing _____ every _____ it be fixed differently?
 Full-section _____ required _____ dealing _____ corrosive harm.
 _____ it _____ that _____ piping sections will _____ to _____ ?
 Will it be _____ in the _____ setup _____ get rid of _____ ?
 _____ of _____ setup will _____ to be replaced to _____.
 Will _____ be fixed _____ changing out _____ pipe _____ or a _____ ?
 _____ it be necessary to _____ whole sections _____ the current _____ setup _____ ?
 Will this serious _____ by _____ entire pipe segments, _____ will _____ be _____.

Will it be necessary ____ replace ____ of ____ to ____ rid of ____ corrosive ____?

Do parts ____ piping ____ to be ____ because of ____ corrosive ____?

Will I need ____ replace whole pieces ____ get rid of ____?

Can ____ serious ____ fixed by changing every ____?

____ you think you ____ sections to ____ bad ____?

____ necessary to replace entire ____ of piping ____ I ____ corrosive ____?

____ this serious issue ____ fixed ____ pipe segments, or will it ____ different manner.

Will ____ issue ____ fixed ____ entire ____ segments or can it be ____?

Will this ____ issue be ____ by changing ____ entire pipe segments, ____ can ____ be ____?

Will ____ serious issue be ____ changing out whole ____ or ____ fix ____?

Will ____ serious ____ be ____ out ____ entire pipe ____ or ____ they ____ it differently?

Will ____ serious issue be fixed ____ every ____ or ____ it have ____?

____ the serious issue ____ changing ____ entire ____ segments, or ____ something different?

____ take replacements of ____ make ____ the piping setup ____ damaged anymore?

Do ____ think you should replace ____ fix ____?

____ necessary ____ severely corroded ____ in my ____ setup?

Can you tell ____ we'll need ____ complete pipe ____ we ____ the ____?

____ this ____ be fixed by ____ out ____ or will they ____ differently?

Will ____ need ____ my pipes ____ to ____ rid of harsh oxidation?

____ entire ____ piping setup will be necessary ____ to get ____ severe damage.

Will the ____ issue be ____ by ____ segments or ____ be solved by ____ one pipe ____?

Is replacing ____ within ____ to get rid ____ severe ____?

____ this serious issue be fixed ____ out ____ or ____ be done ____?

Will ____ issue be fixed by ____ the ____ pipe ____?

Will this serious issue ____ fixed by changing out ____ pipe segments, ____ pipe segment?

Will this serious ____ be fixed by changing ____ not possible?

Will it be ____ to ____ of the ____ get ____ of the corrosive ____?

____ dealing with corrosive ____ required?

____ necessary to swap out ____ portions in ____ to ____?

____ serious ____ by changing out entire pipe segments or ____ be ____ changing one ____

Will the ____ by ____ the ____ pipe segments or will ____ different?

____ the piping setup, will I need to replace it?

Will ____ be fixed by changing ____ segments, or ____ it differently.

____ it necessary to ____ entire pipes ____?

Will this serious ____ out ____ pipe ____ it be repaired through different methods?

Replacing the ____ sections ____ piping setup will be ____ severe corrosion damage.

Is ____ pipe ____ need ____ be replaced because ____ corrosive nature?

____ may ____ needed when dealing ____ corrosive ____.

____ entire sections ____ the ____ piping ____ to ____ rid ____ the severe damage.

Is ____ required ____ with corrosive harms?

____ it ____ a total ____ pipes with heavy ____?

Will this serious ____ be fixed ____ changing ____ segments, ____ it be ____ with other ____?

____ it ____ necessary ____ replace entire ____ of the ____ in order to get ____ corrosion damage?

____ serious issue be ____ out entire pipe ____ or by ____ way?

____ bad corrosion: do ____ have to be ____?

Is ____ to replace ____ section ____ getting rid of strong ____?

Can ____ serious issue ____ by ____ entire ____ can it ____ solved ____ doing something different?

____ replace ____ entire sections of the current ____ setup to ____ rid of ____ damage?

Will the ____ issue be ____ by ____ pipe segments or ____ it ____ solved by changing ____?

____ serious ____ fixed ____ out entire ____ segments or differently?

Is ____ necessary ____ a total pipe ____ replacement ____ ____ get ____ strong corrosion?

Can ____ me if we ____ to ____ complete ____ sections in ____ to ____ corrosion?

____ serious ____ changing ____ all the pipe segments ____ will it be ____ differently?

Would ____ of ____ oxidation require a complete ____ instead ____ alone?

Is ____ to ____ out whole ____ in ____ schematics ____ address ____ issues?

____ to replace ____ if ____ want rid of strong Corrosion?

____ be fixed by ____ pipe segments, or ____ need different methods?

Is it ____ to ____ portions of ____ want to eradicate serious ____?

Will it ____ to ____ out ____ in ____ to fix ____ issue?

____ necessary for full-section ____ when dealing with ____?

Will the serious ____ be ____ by ____ out the entire ____ or ____ it ____ methods?

Will it be necessary ____ sections of the ____ of the ____ damage?

Replacing ____ sections ____ the ____ setup ____ be ____ to get rid ____ severe corrosion ____.

Is Replacement ____ pipes needed to ____ of damage?

____ fixed by ____ out ____ pipe segments, ____ will it be solved ____?

Will the serious issue ____ by changing ____ will it ____ repaired with ____ methods?

Will the serious ____ be ____ out entire ____ segments, ____ doing ____ different?

Is ____ possible ____ issue ____ be ____ changing out every ____ segment?

____ pipe ____ to ____ replaced because of ____ nasty corrosiveness?

replacement ____ severely ____?

____ it necessary ____ replace entire ____ of ____ piping setup ____ get ____ of ____?

Do ____ large sections ____ my piping ____ because ____ the corrosive ____?

Can you tell ____ will ____ to replace complete ____ we resolve the ____?

____ that affected areas must be replaced entirely ____ elements?

If ____ to ____ serious corrosive damage, ____ I ____ to ____ piping?

Will this serious ____ be ____ changing out ____ pipe ____ or the ____?

Fix ____ corroding: whole ____?

____ the entire section of ____ current ____ to get rid ____ damage.

____ it ____ to replace the ____ of ____ current piping ____ of corrosive damage?

Will ____ be ____ entire ____ order to get rid ____ corrosive ____?

If I want to eradicate ____ to replace ____ entire ____?

Should ____ be used when ____ with ____ harm?

____ total pipe section ____ necessary to ____ rid ____?

____ the ____ be fixed ____ out ____ segment or can it be ____?

Is ____ entire ____ going ____ need to ____ replaced ____ that nasty ____?

Can ____ if we ____ to replace complete pipe ____ order to resolve ____?

Is it ____ entire pipe ____ in order to ____ of strong ____.

Will ____ serious issue ____ fixed by changing out ____ solved differently?

Is full ____ replacements ____ with corrosive ____?

Will replacing ____ pieces within ____ pipes ____ be required ____ harsh oxidation?

____ to replace the whole section of the piping setup to ____ corrosive ____?

Will ____ fixed ____ changing out ____ pipe segments, or will ____ it ____?

____ this serious ____ be ____ changing out entire ____ will ____ be ____ with a ____ method?

Replacing ____ sections ____ current piping setup ____ required ____ to get ____ of severe ____ damage.

Will it ____ necessary to ____ the entire ____ get ____ of ____ damage?

Are ____ replacements ____ extensive ____ needed?

____ the issue ____ changing out entire ____ or ____ it be ____ using ____ methods?

Will it ____ to replace ____ sections of the ____ piping ____ order to get ____ corrosive ____?

Can the ____ issue ____ changing out ____ pipe ____ can it be ____?

____ full-section replacements ____ for ____ with intense ____ harm?

____ I ____ to ____ corrosive damage, ____ I have ____ entire ____ of the ____?
 ____ it take replacements of ____ sections ____ that the current ____ from corrosion.
 ____ my piping system have ____ replaced due ____ corrosive ____?
 Will ____ fixed ____ changing out every pipe ____ not?
 Will ____ serious ____ be ____ by changing ____ entire pipe segments ____ by ____?
 ____ to the ____ damage to ____ the ____ setup, will I ____ replace ____?
 Is it ____ to replace ____ section ____ of strong corrosion?
 Will ____ issue be ____ by changing ____ every ____ segment, ____ else?
 Is it necessary to ____ sections in the ____ setup ____ damage?
 Is ____ for ____ to ____ replaced in ____ to remove ____ Corrosion?
 ____ it ____ to ____ out ____ portions ____ tubing schematics to resolve ____?
 Is replacing ____ within ____ required to get ____ damage?
 Do ____ of ____ be replaced due to the ____ damage?
 Does ____ elements ____ full section ____?
 Can ____ tell us if we'll ____ complete ____ resolve the problem?
 Is ____ whole pipe ____ be ____ due to the nasty ____?
 ____ fixed by ____ out every pipe ____?
 Will this serious issue be ____ changing ____ entire pipes or ____ it ____ section?
 ____ the serious issue be fixed ____ out ____ pipe ____ not possible?
 Is ____ fixed ____ out entire ____ or ____ it ____ with different methods?
 ____ it be necessary to ____ entire section ____ to get ____ of the ____ damage?
 Is ____ pipe going to need to ____ because ____ corrosiveness?
 Will ____ be necessary to ____ within the current ____ to get ____ of corrosive ____?
 Will ____ necessary to ____ sections ____ the ____ piping ____ order to ____ rid ____ severe corrosive damage?
 Will this ____ be ____ changing out the ____ pipe ____ something different?
 ____ be fixed by changing ____ entire ____ or will ____ be different?
 ____ dealing ____ corrosive ____ are full-sections ____?
 Will this ____ by changing out whole ____ a different ____?
 ____ it ____ replacements ____ entire sections to make sure that ____ by ____?
 ____ this serious issue be ____ by changing ____ segments, or by ____?
 ____ severe damage ____ parts of the current ____ they ____ to be ____?
 ____ full-section ____ when dealing ____ corrosive ____?
 The ____ piping setup ____ need ____ be replaced in ____ to ____.
 Is ____ possible to ____ the ____ out ____ pipe segments?
 ____ this serious issue be ____ changing out the ____ pipe ____ it ____ differently?
 Will ____ be ____ by ____ out ____ entire pipe ____ will ____ repaired in ____ different way?
 ____ of ____ setup will have to ____ fix the ____.
 ____ this serious issue ____ changing ____ segments or can they fix ____?
 ____ removal of ____ oxidation ____ complete ____ rather than small-section ____ alone?
 ____ full-section ____ for dealing ____ harm?
 Do I have ____ of ____ piping ____ to corrosive damages?
 ____ want to ____ serious corrosive damage, do ____ to replace ____ of ____?
 ____ the serious issue be fixed by ____ out ____ pipe ____ or ____ it ____?
 Will I ____ to ____ the ____ to ____ severe ____?
 Would ____ extreme ____ a complete overhaul ____ of small-section ____?
 Is ____ serious ____ by changing out ____ segment?
 Fix ____ do the whole ____ to be ____?
 Due to ____ parts ____ the current ____ setup, ____ I ____ replace them.
 ____ you ____ me ____ replace ____ pipe sections ____ we resolve severe corrosion?
 Will the ____ issue be fixed ____ out entire pipe ____ be ____ one pipe segment

Replacing the _____ section of _____ piping _____ required _____ get _____ severe damage.

Do I _____ replace _____ sections of _____ to the _____ damages?

_____ to eradicate _____ corrosive damage, _____ have to replace _____ piping?

_____ I _____ parts of _____ current _____ setup because _____ the severe _____?

_____ entire sections _____ piping _____ will _____ needed to get rid _____ damage.

Will _____ serious issue be fixed _____ segments _____ doing something different?

_____ it _____ necessary _____ whole parts _____ order _____ remove severe corrosion _____?

Will this _____ issue _____ out _____ pipe _____ should it be _____ in _____ different way?

Will _____ solved by changing _____ entire pipe _____ not?

_____ I _____ the entire _____ if I _____ to stop the _____?

Do _____ need _____ the piping _____ that are corrosive?

corroded _____ in _____ current pipes _____ to _____

_____ replacements _____ dealing with _____ harm?

replacement _____ sections within current _____ get _____ severe damage

Will _____ serious _____ fixed _____ changing _____ entire pipe _____ or can _____ done _____?

Is _____ possible to _____ this issue by _____ entire _____?

Is _____ a pipe _____ to _____ to get _____ of strong _____?

Is _____ complete replacement _____ for _____ decay?

_____ I want to _____ damage, is it necessary to _____ portions _____?

Do you think _____ extreme pipe oxidation _____?

_____ necessary to replace _____ portions _____ piping _____ want _____ corrosive damage?

_____ be _____ by changing _____ the _____ segment or will _____ be _____ with different methods?

_____ piping system need _____ replaced _____ to their corrosive damages?

_____ with _____ harm should _____ replacements _____ used?

Will this _____ issue _____ fixed by _____ out entire _____ segments _____ one _____?

_____ I _____ of my piping system due to the _____?

_____ it _____ to changing _____ pipe _____ you _____ corrosion?

_____ it be necessary _____ a _____ to remove _____ oxidation?

_____ you think _____ sections _____ be replaced _____ fix _____?

_____ of the current piping _____ will _____ if _____ damage _____ to be _____.

Will _____ necessary to _____ sections within the _____ piping setup _____ get _____ of _____ corrosive _____?

Can _____ replacements _____ required for _____ corrosive _____?

Will the _____ issue be fixed by changing out _____ pipe _____ it _____ solved _____ just _____?

_____ it true that _____ entire pipe lengths?

_____ fixed by changing _____ entire pipe _____ or can it _____ a different manor?

Will _____ fixed by _____ out _____ pipe segments, or will _____?

_____ this _____ fixed by _____ out entire _____ or _____ fixing it in a different _____?

If I _____ eradicate _____ damage, _____ I need _____ the entire _____?

Is _____ for me to _____ serious _____ by _____ entire _____ of _____?

Is _____ to have full _____ when eliminating _____?

Will _____ problem be fixed with changing _____ entire _____?

Do large _____ system have _____ replaced due _____ the _____ damages?

Can _____ issue be _____ by _____ out _____ pipe _____?

Is _____ possible _____ serious corrosive _____ entire portions _____ piping?

Are you able to _____ if _____ will _____ replace _____ pipe sections _____ we _____ severe _____?

Will _____ fixed by changing _____ pipe segments, or will _____ differently?

Is the _____ to _____ replaced because of _____ nasty corrosive _____?

_____ replacement necessary to _____ with _____ decay?

Is total replacement needed _____?

_____ take _____ the _____ sections to _____ sure _____ setup isn't damaged _____ Corrosion?

Is replacing sections within _____ needed to _____ serious _____?
 Is the whole pipe going _____ be _____ because _____ that _____?
 Will the serious _____ fixed _____ changing _____ entire pipe _____ or will _____ be solved _____?
 _____ of entire sections to make _____ system _____ from corrosion?
 _____ necessary _____ section if you want to _____ rid of _____?
 _____ I want to _____ serious _____ damage, will I _____ of piping?
 Will _____ be _____ replace whole _____ of the current _____ get rid _____ corrosive _____?
 _____ necessary _____ swap _____ tubing schematics to _____ severe rust issues?
 Replacement of sections _____ the _____ pipes _____ get _____ of severe _____.
 Do I _____ replace _____ sections _____ my piping _____ to _____ damages?
 _____ it _____ replace _____ sections of the piping _____ get rid _____ corrosive _____?
 _____ to _____ sections of my _____ system _____ of the corrosive _____?
 Will this _____ problem _____ by _____ out _____ pipe segments _____ different method?
 _____ it necessary to replace sections _____ piping _____ to _____ corrosive _____?
 Due _____ serious _____ piping _____ will I have _____ replace them?
 Replacement _____ current _____ needed to _____ rid of _____ damage.
 Is a full-section _____ corrosive harm?
 Do big sections _____ piping system _____ be replaced because _____?
 _____ it necessary _____ replace _____ sections _____ to corrosive _____?
 Will _____ changing every pipe segment or _____ be done differently?
 Is _____ serious _____ by changing out _____ pipe segments, _____ it _____?
 _____ the serious problem _____ by changing _____ entire _____ will it _____ by doing something _____?
 Is _____ replacements _____ dealing _____ corrosive harm?
 Is _____ whole _____ tubing _____ necessary to solve _____ issues?
 Is _____ possible _____ entire _____ if _____ eliminate corrosive elements?
 _____ this _____ by changing out every _____ segment or _____ it _____?
 Will this _____ be _____ by changing _____ pipe segments _____ will _____ be by _____ one _____?
 _____ necessary _____ a _____ section replacement to _____ rid of _____?
 Is _____ pipe going to have _____ replaced _____ nasty corrosion?
 Is _____ possible to eradicate corrosive _____ I replace _____ of _____?
 Will _____ serious problem _____ by _____ out entire _____ segments, or _____ be _____ in a _____?
 Does _____ sections _____ of corrosion?
 _____ I _____ whole pieces within my _____ in order to get rid _____?
 Will _____ problem _____ fixed _____ out every _____ segment?
 Is _____ entire pipe gonna _____ to _____ because of _____?
 Does _____ corrosive _____ mean changing _____?
 _____ this serious _____ be fixed by changing _____ all _____ the _____ or will _____ be _____?
 _____ possible _____ areas must be _____ completely because _____ corrosion?
 Will the _____ issue be _____ changing out entire _____ can _____ in _____ more different way?
 Will _____ by changing out entire pipe segments or _____?
 _____ the whole pipe _____ to _____ be _____ that nasty corrosion?
 _____ of the _____ need _____ be replaced to fix the _____.
 Should _____ corroded areas _____ the _____?
 _____ issue _____ by _____ all _____ pipe segments or can it be done _____?
 Would _____ pipe oxidation require _____ overhaul, _____ than _____ modifications _____?
 _____ pipe going to _____ replaced because _____ that nasty problem?
 Is it _____ large sections of my _____ to _____ damages?
 _____ I want _____ corrosive _____ will _____ to replace entire _____ piping?
 _____ sections of _____ piping _____ is _____ to fix the _____.
 _____ this serious issue _____ out entire _____ will it be _____ using different methods?

Replacing sections _____ necessary to _____ rid of _____ damage.

Is _____ necessary to _____ pipes _____ heavy _____?

_____ replace _____ sections _____ the _____ piping setup in _____ get rid of corrosive damage?

Will _____ be _____ replace entire _____ of _____ current _____ to _____ corrosive damage?

Will _____ serious issue _____ out entire pipe segments, _____ will it be solved _____ changing _____ _____?
_____ for full section _____ eliminate Corrosion?

Replacing entire sections _____ the _____ piping _____ will _____ get rid _____ damage.

If _____ damage, _____ it necessary _____ replace entire portions _____ piping?

Is it _____ for _____ eliminate corrosive particles?

_____ full _____ replacements _____ for _____ with _____ harm?

Will fixing _____ issue require _____ pipe segments or will _____?

Is _____ necessary _____ pipe _____ get rid of strong corrosion?

_____ extensive damage to parts _____ piping setup, will _____ to _____ it?

Will this serious _____ be _____ out entire _____ segments _____ will it _____ to _____ differently?
_____ be _____ to _____ badcorrosion?

Will _____ the issue by _____ pipe _____ will _____ fix it differently?

Can you _____ it is necessary _____ replace _____ sections in _____ resolve the problem?

_____ fixed _____ out _____ pipe segments, _____ will it be solved differently?

_____ issue be _____ by _____ out _____ segments, or _____ it be solved _____ something different?

_____ replacing _____ pipes necessary to get _____ damage?

Will _____ serious issue _____ by _____ the entire pipe segments _____ be solved by doing _____?

Will the problem _____ changing out _____ segments, or _____ repaired with _____ methods?

_____ it _____ to _____ entire pipe section if _____ to get rid _____ tendencies?

Is _____ necessary _____ complete _____ segments in order _____ bad _____?

replacement _____ sections within _____ pipes _____ rid _____ severe damage

Will _____ issue mean changing out _____ segments or _____ differently?

_____ it possible _____ change _____ entire _____ if _____ eliminatecorrosion?

Do you _____ sections _____ be replaced to _____?

When _____ caustic _____ are _____ indispensable?

Is _____ necessary to _____ whole _____ tubing schematic to _____ rust _____?

When _____ corrosive harm, _____ may be _____.

Replacing _____ of _____ current _____ setup _____ be _____ rid of severe damage to _____.

_____ out whole portions in tubing schematic _____ resolve _____ issues?

Are there _____ that _____ be replaced _____ bad _____?

Is _____ required _____ dealing _____ harm?

_____ want to _____ damage, _____ I have _____ entire portions _____ piping?

_____ replacement of _____ within pipes needed to _____ of _____?

Can _____ me _____ we will _____ sections if we resolve _____ problem?

_____ this _____ out entire pipe segments, or _____ they _____ in a different way?

_____ I need to replace _____ system if there _____ corrosion?

Would _____ of extreme pipe oxidation _____ a _____ rather _____ alone?

_____ be _____ by changing _____ entire pipe _____ or _____ it be solved _____ doing _____ different

Is _____ necessary _____ replace whole _____ the current _____ rid _____ the _____ damage?

_____ say that the corroded areas _____ entire _____ lengths?

Will _____ be necessary to replace _____ of _____ setup _____ rid of _____?

Will _____ take replacements _____ entire sections _____ system is _____ fromcorrosion?

If I _____ to eradicate corrosive damage, _____ I need _____ portions _____?

Will _____ serious problem be _____ out entire _____ segments or will _____ be _____ by _____ segment?

_____ it necessary _____ out _____ portions in _____ schematics to _____ issues?

_____ to _____ if _____ corroded areas _____ entire pipe lengths.

Does it _____ replacements to _____?

For _____ decay is total _____ necessary?

_____ there _____ way to get rid _____ the _____ in _____ without Replacing _____?

_____ of _____ current pipes is needed to _____ of _____.

_____ serious issue _____ fixed by changing _____ pipe _____ or _____?

_____ this _____ be _____ changing out entire _____ will it _____ different?

Is it necessary _____ replace _____ piping _____ I want _____ eradicate _____?

Will replacing _____ sections of _____ piping _____ in _____ get _____ of severe damage?

Is it _____ to _____ portions of _____ to solve _____?

_____ sections of _____ piping _____ have _____ be _____ because _____ corrosive?

_____ it necessary _____ us _____ complete _____ sections within _____ present _____ if _____ resolve _____ corrosion?

_____ it necessary _____ replace _____ piping _____ to _____ the corrosive damage?

_____ total pipe _____ replacement _____ want to _____ rid of _____ corrosion?

_____ the serious _____ fixed by changing out entire _____ segments _____ repaired with a _____?

_____ to _____ serious _____ to _____ the piping setup, will I _____ it?

Will _____ be fixed _____ changing _____ entire _____ or can it _____ repaired with _____ different _____?

Will _____ issue be _____ by _____ out _____ pipe segments or _____ solved by changing only _____?

_____ it necessary _____ change entire _____ eliminate corrosion?

Will _____ for _____ entire system to _____ safe _____?

_____ it _____ for _____ complete overhaul _____ removal _____ extreme _____ oxidation?

Will _____ take _____ make _____ current setup isn't damaged by Corrosion?

_____ section replacement needed _____ corrodyizng?

_____ to _____ damage, will _____ have to replace _____ of _____ piping?

Will _____ issue _____ fixed _____ out entire _____ segments or will _____ solved _____?

_____ a _____ overhaul _____ for the removal _____ pipe oxidation.

Due _____ the severe damage _____ the _____ I _____ to _____ them?

_____ need full section _____ to _____?

Will _____ take _____ of _____ to make the _____ safe _____?

Will it _____ possible _____ out entire pipe _____ in _____ problem?

_____ the serious _____ fixed by changing out entire _____ segments _____ is it better to _____?

Will _____ out the entire pipe segment, _____ can it be repaired with _____?

Will this _____ be _____ by changing _____ pipe segments _____ will _____ be _____ methods?

_____ this serious _____ solved by changing _____ entire pipe _____ or _____ be solved by _____ segment?

_____ total replacement _____ pipes with _____ decay?

_____ this _____ be _____ by _____ out _____ segments, or will it be by _____ segment?

Is it _____ pipe segments _____ system that has _____ corrosion?

_____ mean to _____ the entire pipe _____ you _____ to get _____ of _____?

_____ I have _____ replace large _____ my piping system because _____?

Will the _____ issue be _____ changing out _____ or _____ method?

_____ take replacements _____ entire sections _____ sure _____ setup _____ get damaged by Corrosion?

Will _____ out _____ pipe segment _____ the _____?

_____ full-section replacements _____ with _____ harm?

Is _____ to _____ the entire pipe _____ to _____ of _____ corrosion?

_____ issue _____ by _____ out entire _____ segments, or will _____ be repair _____ a different _____?

Can this _____ be fixed by changing out _____ segments or can _____ a _____?

Will this serious issue _____ by _____ every _____ pipe?

_____ dealing _____ intense corrosive harm, _____ replacements _____?

_____ sections _____ the current _____ setup would _____ necessary _____ rid of _____ severe _____ to it.

_____ entire sections _____ the _____ piping setup will be _____ to _____ of _____.

Will _____ serious issue _____ by _____ out whole _____ segments _____ it _____ differently?

_____ fixed by changing _____ entire _____ segments or by _____ something differently?

_____ I want _____ eradicate _____ damage, _____ I _____ to _____ whole _____?

_____ dealing with _____ harm _____ required?

Is it necessary _____ entire pipe _____ to be _____ strong Corrosion?

_____ the _____ be fixed _____ changing out the _____ segments, or _____ fix _____ in _____ different _____?

Replacing corroded areas in _____.

_____ dealing with corrosive _____ full-section _____.

_____ it _____ for total _____ to _____ heavy decay?

_____ complete _____ replacements _____ for _____ corrodyizng?

_____ be necessary _____ whole parts _____ severe corrosion damage?

Due _____ the significant _____ to _____ the current _____ will _____ have to _____?

_____ serious issue be _____ by changing out _____ just changing one _____?

_____ this serious _____ be _____ by changing _____ entire pipe _____ be different?

Does _____ involve _____ section _____?

_____ it possible _____ if I _____ entire piping?

_____ be necessary to replace _____ to get _____ of _____ corrosive _____?

_____ the serious issue _____ changing out entire _____ or will it _____ a _____ manner?

_____ this issue be _____ by _____ entire _____ segments or _____ method?

_____ replacement _____ entire sections to make sure that the _____?

Will this _____ fixed by _____ out _____ segments _____ it be _____ differently.

_____ I _____ replace _____ my piping _____ because of the damage?

_____ serious issue _____ fixed by changing out _____ pipe _____ or _____ be repaired _____ methods?

Will this _____ be _____ by _____ every _____ segment, _____ it _____ fixed differently?

_____ the problem _____ by changing out entire _____ will _____ be _____ differently?

_____ replace complete pipe _____ system if I _____ to _____ corrosion?

Is it _____ replace the entire _____ to remove strong _____?

Will it be _____ to replace _____ of _____ get rid _____ the _____ damage?

Will _____ issue _____ fixed _____ changing out _____ pipe segments _____ it be _____?

When _____ with _____ is full-section _____?

Is _____ needed for exitytensive _____?

Will _____ serious problem be fixed by _____ entire _____ do _____ differently?

_____ be fixed _____ changing _____ entire pipe segments?

_____ it _____ necessary _____ the entire _____ to get rid _____ damage?

_____ it _____ eradicate corrosive _____ I replace _____ portions _____ piping?

Is this serious _____ fixed _____ changing out _____ or _____?

Parts _____ piping _____ will have to _____ replaced _____ repair _____.

_____ be _____ by _____ pipe _____ or can it be repaired using different _____?

_____ necessary _____ full-section replacements when dealing with _____?

Will _____ fixed by changing _____ entire _____ or will _____ do _____ differently?

_____ this _____ issue be fixed _____ changing out _____ pipe _____ will _____ be _____ different methods?

_____ of _____ piping setup _____ be _____ to repair the _____.

_____ full-section _____ necessary _____ deal _____ intense _____ harm?

_____ this serious issue _____ fixed _____ out entire pipe segments or _____ it be _____?

_____ this _____ issue be _____ changing out entire _____ or _____ a _____ of _____ one pipe segment?

Is _____ necessary _____ replace the entire _____ if you _____ get _____ of _____ particles?

Replacement _____ entire _____ setup will _____ to fix the damage.

_____ me if _____ is _____ us to replace _____ pipe sections if _____ resolve severe _____?

_____ that the corroded _____ the _____ out entire pipe _____?

_____ this serious _____ with _____ out _____ pipe _____ or _____ fix it differently?

Is _____ to replace _____ parts in _____ configuration?

Will it _____ replace _____ of _____ the _____ piping setup _____ get rid _____ the corrosive damage?
 _____ the current piping _____ be _____ to get rid of corrosive _____.

Is there _____ way _____ severe corrosion _____ pipes without _____ entire _____?
 _____ sections _____ current pipes necessary _____ get _____ of _____ damage?
 _____ it _____ replace large sections of _____ system _____ of _____ damages?

Is it _____ replace _____ entire _____ setup _____ order _____ of corrosive damage?
 Will this _____ fixed by changing _____ entire _____ or _____ they _____ it in a _____.
 _____ fixing _____ mean changing _____ pipe segments or _____ it _____ different?

Will the problem be _____ by _____ out _____ pipe _____ be _____?
 _____ replacing entire sections _____ the current piping _____ required to _____ of _____?

Will _____ serious issue be fixed _____ out entire _____ segments, _____ a _____?
 Will _____ take _____ of _____ to ensure the _____ piping setup _____ anymore?
 _____ it _____ to swap out whole _____ in tubing _____ issues?

Will _____ take _____ of _____ sections to _____ sure that _____ system _____ free _____?
 Will this serious _____ fixed by _____ out entire _____ segments _____?
 _____ out entire pipe _____ is _____ the serious corrosion issue.

Will _____ serious _____ be _____ changing _____ or is it fixed _____?
 Is it _____ out whole portions _____ schematics _____ order _____ fix rust _____?
 Is _____ going _____ to be _____ because of _____ nasty Corrosion?
 _____ have to have _____ section _____?

Will this _____ issue _____ by _____ out _____ pipe _____ different approach?
 Is it _____ entire pipe _____ when you get _____ of _____?
 _____ sections to be _____ to corrosive damage?
 _____ the _____ going _____ to be _____ because of the _____ Corrosion?
 _____ within _____ pipes necessary _____ get _____ of _____ severe damage?
 _____ necessary to _____ complete _____ for _____ because of bad corrosion?

Will _____ be _____ by _____ entire _____ segments or will it _____ differently?
 _____ the _____ issue be _____ by changing _____ the _____ segment _____ it be solved _____ doing _____ different?

Is there _____ section replacements for _____ corrosion?
 _____ it necessary _____ complete pipe _____ the _____ if _____ is _____ corrosion?
 _____ I have _____ of my _____ because _____ are corrosive?

Will it be _____ to replace all _____ setup to _____ rid of _____?
 Is there _____ where the current _____ setup _____ be replaced _____?
 Is _____ to eradicate _____ damage _____ I _____ entire portions _____ piping?

How about _____ pieces within _____ pipes _____ get _____ of harsh _____?
 Will _____ serious _____ fixed by _____ out _____ pipe _____ will it be fixed _____ a _____?
 Will _____ serious issue be _____ by _____ entire _____ or _____ fix _____ differently?

Is it necessary _____ when _____ corrosive harm?
 _____ it necessary to _____ of the _____ setup to get rid _____ severe _____?
 Is _____ necessary _____ have _____ replacements when removing _____?

Will _____ entire _____ segments is _____ best way _____ fix the _____?
 Will it be _____ replace _____ sections of _____ current setup _____ rid _____?
 Will the _____ fixed by _____ out whole _____ segments _____ it _____ different?

Should _____ all _____ the _____ I want to rid _____ corrosive _____?
 When dealing with _____ harm _____ to _____ used?
 _____ this _____ be fixed _____ pipe segments _____ will _____ solved by changing one pipe segment?
 _____ have _____ of the sections that are affected _____?

Will _____ issue _____ solved by changing out _____ or will _____ it _____ a different _____?
 _____ take replacements of _____ sections to _____ that the current piping _____ doesn't _____.

Will this _____ out entire pipe _____ or _____ it in a different manner?

_____ the serious issue _____ by changing out _____ pipe _____?

Does _____ corrosive _____ require _____ replacements?

_____ need _____ pipe _____ my system in order _____ remove badcorrosion?

_____ needed _____ restoring _____ with _____ decay?

_____ necessary to _____ of _____ if _____ want _____ eradicate corrosive damage?

_____ badcorrosion: _____ whole _____ replaced?

If I want to _____ serious _____ damage, _____ have _____ replace _____?

_____ take _____ of _____ to make _____ the current _____ doesn't get damaged _____.

Will it _____ to replace the _____ section _____ get _____ the _____ damage?

_____ I _____ to replace _____ segments _____ system to remove bad _____?

_____ within current pipes _____ be _____ get _____ severe damage.

_____ serious _____ be fixed by _____ out whole pipe _____ be _____ a different way?

_____ serious issue be fixed by _____ pipe segments, _____ fix it with a _____?

_____ entire _____ of the _____ piping setup will _____ to _____ rid _____ damage.

_____ do the _____ sectors need _____ be replaced?

_____ it require full _____ replacements _____ get _____ of _____?

_____ by _____ out entire pipe segments, _____ will they do _____ in _____ different way?

_____ it be necessary to replace parts _____ current _____ to _____ damage?

_____ required to deal with _____?

_____ of _____ pipe oxidation require _____ overhauling?

_____ serious _____ be solved by changing _____ entire pipe _____ will _____ in a different _____?

Will _____ necessary to _____ whole _____ in the _____ piping _____ get _____ severe corrosive damage?

Will this _____ issue _____ every _____ segment or is it _____?

Will _____ serious _____ out all _____ the pipe segments or _____ doing _____ different?

_____ this _____ issue be fixed by _____ entire pipe _____ or will _____ be _____ using _____?

Are you telling me _____ the _____ ripping out _____ lengths?

Will _____ serious issue be _____ changing _____ entire _____ segments, or _____ it _____ solved with _____?

_____ this _____ be fixed by changing out every _____ or _____ differently?

_____ entire sections _____ setup will be needed _____ get _____ severe corrosion damage.

Will _____ problem _____ fixed by changing _____ segments _____ will it be _____?

_____ complete _____ replacements _____ for exitytensive _____?

Will _____ entire _____ fix this _____?

Is _____ to _____ whole pipe _____ order to get rid of _____?

Is _____ pipe _____ to eliminating _____?

Is it _____ all the pipe _____ if _____ want _____ rid of _____?

Is _____ whole _____ tubing _____ required to _____ rust _____?

If _____ want to eradicate serious _____ will I have _____ of _____?

Is theReplacement of _____ pipes _____ of severe damage?

_____ that affected areas be replaced _____ because _____ serious _____?

_____ serious _____ be fixed by changing _____ entire pipe _____ or _____ repaired differently?

Will this _____ fixed by changing _____ entire _____ will they _____ different?

_____ be necessary to _____ sections of _____ current piping _____ order to _____ rid of severe _____?

Would removal of _____ pipe _____ overhaul, instead of small-section _____?

_____ entire sections _____ current _____ setup _____ be necessary _____ get rid _____ damage _____ it.

_____ sections of the _____ is needed to _____ damage.

Will _____ serious issue be fixed _____ pipe _____ it be _____ by changing _____ pipe segment?

Fix _____ do _____ have to be _____?

Will _____ be fixed by _____ entire _____ segments, _____ should they fix _____?

Will it _____ replace _____ within the current _____ rid _____ the _____ damage?

Will this _____ changing _____ pipe _____ or by a different method?

Is ____ necessary ____ section replacements for elimination ____?

____ I need to ____ sections ____ system ____ their corrosive damages?

Is it ____ to ____ serious ____ damage ____ I replace ____ piping?

Do ____ to ____ to ____ the bad Corrosion?

Will ____ serious issue be fixed ____ out entire ____ solved by doing something ____?

Is it necessary ____ full ____ remove ____?

____ think it's ____ to ____ corroded areas ____ the ____?

Will ____ issue ____ fixed by changing ____ all ____ segments, or ____ solved differently?

Is ____ a ____ replace ____ corroded ____?

Will ____ be ____ the ____ setup ____ get ____ of corrosive damage?

____ you tell us if ____ to ____ complete pipe sections ____ corrosion?

Are they telling ____ that the ____ necessitate ripping ____?

____ need to replace ____ the ____ I want ____ eliminate corrosive ____?

____ you ____ me ____ have ____ replace ____ sections if ____ resolve severe corrosion?

____ the issue ____ fixed by ____ out entire pipe segments, ____ be repaired ____ different ____?

When dealing with ____ full-section replacements ____ used?

____ to eradicate corrosive damage if ____ replace ____ of ____?

If I ____ to ____ corrosive damage, do ____ the ____ piping?

____ issue be ____ by changing out ____ pipe segments, ____ will ____ be ____ different method?

____ this serious issue ____ changing ____ pipe segments, ____ is ____ differently?

____ it take ____ of ____ sections to ____ current piping setup ____ anymore?

Is ____ corroded areas in ____?

____ need ____ some sections ____ piping ____ due ____ the corrosive damages?

Is ____ required for ____ replacements ____ eliminate ____?

____ serious issue be ____ changing out ____ pipe segments, ____ be repaired in ____ different fashion?

____ serious issue ____ fixed by ____ out ____ segments, or ____ they ____ a ____ method?

____ this issue ____ by ____ out entire pipe segments or ____?

____ you think ____ should ____ replaced to ____ corrosion?

Will ____ be ____ by changing out entire ____ or by ____ something ____?

Wouldn't ____ removal of ____ a complete overhaul?

Will ____ issue ____ fixed by ____ out entire pipe ____ or ____ it be ____ more ____ way?

____ this serious ____ changing out entire pipe segments, ____ do ____ need ____ something different?

____ pipe segments fix the ____ issue?

____ to replace ____ sections ____ my piping system due to ____?

____ it possible that ____ oxidation ____ require a ____ overhaul?

Is there a way ____ this ____ by changing out ____?

Does ____ pipe section replacement need to be ____ want ____ of ____?

____ the ____ pipe gonna have ____ be replaced because ____?

____ the severe damage ____ some of ____ setup, ____ need to replace ____?

Is it ____ for ____ replacements ____ eliminate ____?

____ it necessary to replace ____ for my ____ there is ____?

Is ____ pipe ____ to ____ to ____ replaced because ____ that ____ corrosion?

Is ____ to ____ the pipes?

Will ____ take ____ of ____ to ____ sure ____ current ____ doesn't get ____ by Corrosion?

____ fixed by changing out ____ segments or ____ be solved by ____ one pipe segment?

____ whole ____ my ____ setup be necessary for ____ rid ____ harsh ____?

Do ____ know why ____ corroded areas necessitate ____ out ____?

Will ____ issue be ____ by ____ out entire ____ segments, ____ it be fixed ____ more ____ manner?

Is ____ necessary ____ the current ____ setup ____ remove corrosive damage?

____ it ____ replacement for pipes that ____ heavy ____?

Is it necessary to rip _____ entire _____ those _____?

_____ this serious _____ be _____ changing out _____ pipe _____ or will _____ be _____?

Will _____ be _____ to replace _____ sections within _____ piping setup _____ corrosive _____?

Will it _____ out entire pipe segments _____ method?

Is it _____ to replace complete pipe _____ is badcorrosion?

_____ it take _____ the entire sections _____ the current _____ doesn't get damaged _____?

_____ be _____ of harsh _____ by replacing whole pieces of _____ pipes _____?

_____ it _____ to replace sections _____ my piping _____ their corrosive _____?

Will _____ be _____ dealing with corrosive _____?

_____ I _____ to _____ section because of the _____ damage?

_____ the _____ fixed _____ out _____ pipe segments _____ something different?

_____ necessary _____ entire pipe section _____ want to _____ rid of strongcorrosion?

_____ it _____ necessary _____ replace _____ sections of the _____ setup _____ order to _____ corrosive damage?

Will this _____ issue be fixed by _____ segments, _____ different methods?

Is the _____ issue _____ changing out _____ segment or _____?

Is the _____ pipe going _____ replaced _____ of that _____ problem?

Is it necessary _____ entire pipe _____ if _____ want _____ of strongcorrosiveness?

_____ to _____ pipe segments for my system _____ badcorrosion?

_____ it _____ section _____ eliminate Corrosion?

Do _____ need to _____ sections _____ piping _____ are corrosive?

Will the problem _____ by changing _____ pipe segments, _____ be different?

_____ the pipe going to need to _____ that nasty _____?

Is it possible _____ seriousness of _____ changing out _____ pipe _____?

Will _____ serious issue be _____ by changing out _____ entire pipe _____ solved _____?

Is _____ to _____ entire sections _____ in _____ eradicate corrosive damage?

Will _____ to replace _____ to remove severe Corrosion _____?

Will _____ fixed _____ out _____ pipe segments or _____ it _____ repaired differently?

_____ this _____ fixed _____ changing out entire _____ segments or _____?

_____ the serious issue be fixed _____ changing out _____ or _____ it be repaired _____?

_____ to _____ whole _____ within the current piping _____ get rid of _____ damage?

Will this _____ be fixed by _____ out _____ segments or will _____?

_____ be _____ to _____ in the piping setup _____ get _____ of _____ damage?

_____ it possible to replace _____ of _____ that _____ corrosive?

Is replacing _____ current pipes _____ get _____ the damage?

_____ it _____ necessary to replace _____ current piping _____ to get _____ corrosive _____?

_____ be fixed by changing _____ entire pipe segments _____ it _____ in _____ different manor?

Will _____ problem be fixed by changing _____ else?

Will this _____ be fixed by changing _____ entire _____ will _____ be solved by doing _____?

Will this _____ changing out _____ pipe _____ or _____ it _____ fixed in a different _____?

_____ you tell me if _____ will _____ to _____ complete _____ we _____ severe corrosion?

_____ need _____ replace sections _____ piping system because _____ their _____ damages?

_____ serious issue be fixed _____ changing out entire pipe _____ will it _____?

_____ whole pipe _____ to be _____ because of _____ nasty _____?

Replacement _____ entire _____ setup _____ be required to _____ the _____.

_____ it _____ to change entire pipe _____ eliminate _____?

Changing _____ pipe segments is one _____ to _____.

_____ full section _____ with corrosive harm?

Is _____ necessary _____ replace entire _____ been _____ corrosive elements?

Will _____ be fixed _____ changing _____ segments or will it be _____ by _____ methods?

Will this serious _____ be _____ by changing _____ pipe _____ or _____ it _____ solved _____?

Replacement of _____ needs _____ get _____ of severe damage.

_____ this _____ be fixed by _____ segments _____ something else?

Will the _____ fixed _____ pipe _____ will it be different?

_____ they fix _____ serious _____ changing out _____ pipe segments _____ they?

Will _____ issue _____ fixed by changing out _____ pipe segments, or by _____ in _____?

Is it _____ replace _____ piping _____ I _____ eradicate corrosive _____?

_____ serious _____ be _____ by changing out entire _____ segments _____ fixed differently?

Will _____ be _____ replace whole _____ the piping _____ to get _____ the corrosive _____?

_____ changing entire pipe _____ of eliminating _____?

_____ it _____ to replace _____ pipe segments _____ are bad corrosive elements?

Would removal of _____ oxidation _____ a _____ redesign _____ small _____ modifications _____?

Is full-section _____ to deal _____ harm?

_____ issue fixed _____ changing out entire _____ or is _____ repaired _____ methods?

Will _____ serious _____ be fixed _____ changing _____ entire _____ does _____ to be done differently?

Will changing out entire _____ or will _____ be repaired _____?

_____ entire portions of _____ if I want _____ serious corrosive _____?

Is it possible that _____ corrosion _____ complete _____ sections within _____ setup?

Is _____ out _____ in _____ schematic _____ solve rust issues?

_____ it required _____ have _____ section _____ to eliminate _____?

Will this serious _____ be fixed _____ changing _____ entire _____ segments _____?

_____ serious issue be _____ out entire pipe _____ or _____ it be _____ changing _____ single section?

_____ full-section _____ be necessary when dealing _____ corrosive _____?

_____ pipe gonna _____ to _____ replaced because _____ nasty corrosion?

_____ be fixed by _____ out entire _____ segments, or will it be repaired _____ way?

Should full-section _____ when _____ corrosive damage?

_____ this _____ issue _____ by changing out _____ segments, _____ be _____ by changing one section

Will this _____ fixed by changing _____ entire _____ will they _____ it in _____ different _____?

Will _____ necessary to replace _____ in _____ piping _____ to _____ rid of _____?

_____ serious issue _____ fixed by _____ pipe segments, or _____ it be _____?

_____ be _____ to _____ entire sections _____ the _____ piping _____ in order _____ rid of severe corrosion _____?

_____ needed when dealing with intense _____ harm?

Is it _____ to _____ the _____ corrosion issue _____ out _____ pipe _____?

_____ removal of _____ require a complete overhauled?

Is _____ pipe going _____ need _____ replaced _____ of _____ nasty _____?

Should full-section _____ required _____ dealing with _____?

_____ it be _____ out _____ pipe segments or will it _____?

Will they _____ the _____ issue by _____ entire pipe segments, or _____?

_____ it be necessary _____ replace _____ the sections _____ setup to get _____ of _____?

Will _____ replacements of _____ sections _____ make sure _____ system is _____?

Is _____ necessary to _____ out whole _____ the tubing _____ to _____ issues?

_____ will _____ replacements of the _____ system _____ make _____ is safe _____.

If _____ want to eradicate serious corrosive damage, _____ I _____ piping?

Is it _____ swap _____ the tubing _____ to solve _____ issues?

Will it _____ of _____ order to _____ sure _____ current system _____ from corrosion?

Will the _____ issue _____ fixed _____ changing _____ pipe _____ or _____?

If _____ want _____ corrosive _____ I should replace _____ piping.

Is _____ possible _____ affected _____ must be replaced _____ of serious _____?

Is total replacement _____ pipes _____?

Does eliminating _____ replacement _____?

Is _____ possible that the removal of _____ need _____ complete _____?

Will this serious _____ by _____ pipe _____ or something else?

Does _____ section replacements _____ eliminate corrosion?

_____ I need to _____ pieces _____ pipes setup for getting rid _____?

_____ be necessary _____ replace _____ sections of _____ setup to _____ corrosive damage?

_____ it take replacements _____ entire _____ to make sure _____ current _____ is _____ by _____?

Will _____ take _____ make _____ that _____ system is _____ from corrosion?

Can _____ tell _____ it's necessary to _____ order _____ resolve severe corrosion?

_____ full section _____ necessary _____ corrosive _____?

Is _____ in dealing _____ corrosive _____?

_____ to change _____ pipe sections if you _____?

_____ the severe damage _____ parts of _____ piping _____ will _____ have _____ replace _____?

Will the serious _____ be fixed by _____ out _____ segments or _____ it _____ methods?

_____ serious issue _____ fixed by _____ out _____ pipe _____ differently?

_____ to _____ all of the piping if _____ it of corrosive _____?

_____ the _____ pipe going to _____ that nasty corrosion?

_____ it take _____ make the _____ from corrosion?

Should _____ areas _____ pipes _____ replaced?

_____ it necessary for pipe section _____ strong corrosion?

_____ it be fixed by changing _____ segment _____?

Is _____ necessary _____ me _____ portions of piping in order to _____?

Will this _____ fixed by changing _____ segment?

Is it necessary _____ entire _____ to _____ rid of _____?

Will _____ serious corrosion issue mean _____ entire _____?

Is _____ a way _____ the _____ by _____ out every pipe _____?

_____ I need to _____ in my pipes setup _____ to _____ of _____ oxidation?

Will _____ by _____ out entire pipe _____ or _____ better to _____ it _____ a different way?

Is _____ possible that affected areas _____ be _____ due to _____?

_____ I need _____ replace _____ portions _____ piping to _____ damage?

_____ you think I need _____ replacement because _____ the _____ Corrosion _____?

_____ replace entire _____ piping _____ want to eradicate _____ damage?

_____ tell _____ if total _____ is required _____ get _____ of strong corrosion?

Can _____ be _____ changing _____ entire _____ segments, or can it be _____?

_____ of _____ sections _____ the piping setup is needed _____.

Will it _____ to _____ current setup _____ order _____ get rid of corrosive _____?

Is _____ replace _____ within the current _____ to get _____ corrosive damage?

Will _____ problem be _____ by changing _____ entire _____ segments, or _____ be _____?

Will this _____ by changing out all _____ pipe _____ or will _____ it _____?

Is _____ replacements necessary for dealing _____?

Will the _____ changing out whole pipe _____ or _____ it _____ differently?

Is it true that the _____ that _____ corroded _____ out _____?

_____ it _____ a _____ replacement to eliminate corrosion?

Is _____ replace _____ because of the severe damage?

_____ of _____ within current pipes _____ to _____ of severe _____.

Will this _____ be fixed by _____ pipe segments, _____ it be _____ by _____ single _____ segment?

_____ I have _____ replace severely _____ parts within _____?

Will this serious _____ be fixed by changing _____ entire _____ segments, _____ repaired _____ own?

_____ issue be fixed _____ changing _____ entire _____ segments, or are they going _____ it _____ different _____?

_____ it necessary to _____ out _____ in _____ schematic to _____ rust _____?

_____ this _____ be fixed by changing out _____ segments or _____ it be _____ by changing _____?

Is _____ by _____ out entire pipe segments, _____ by _____ it _____?

Is it _____ replace the _____ section _____ order to _____ of _____ coring?

Do _____ my _____ setup have _____ be replaced _____ severe _____?

_____ full-section replacements _____ be used _____ corrosive harm?

Will _____ issue be _____ changing _____ entire pipe segments, _____ by doing _____?

_____ the serious issue be _____ by _____ out _____ or _____ repaired in a _____ way?

Will this serious _____ be _____ by changing _____ all _____ pipe _____ or _____ different methods?

Can you tell _____ if we _____ have to _____ complete _____ sections in _____?

_____ serious issue be fixed by _____ the _____ by doing _____ different?

_____ to _____ severity of the damage _____ of the current _____ have _____ replace it?

Does replacing _____ pipes need to _____ rid _____ damage?

If I _____ to eradicate _____ damage, _____ replace _____ the piping?

_____ it possible _____ change _____ entire _____ if _____ eliminate corrosion?

Is replacing sections within current pipes _____ severe _____?

Will this serious issue _____ fixed _____ changing _____ entire _____ will _____ solved?

_____ need _____ section _____ because of _____ severe corrosion damage?

_____ the whole pipe _____ to _____ replacing because _____ nasty _____?

_____ the serious _____ to _____ of the _____ piping setup, _____ need _____ replace _____?

_____ serious _____ be fixed _____ out the entire pipe _____ will it _____ different methods?

Is it _____ pipe sections if _____ eliminate Corrosion?

_____ issue _____ by _____ out the _____ or will it be repaired differently?

_____ severe damage _____ current piping setup will _____ have _____ replace _____?

Will _____ fixed by changing _____ pipe segments, _____ will _____ be _____ using other methods?

Is _____ necessary _____ whole pipe section _____ rid of strong _____?

_____ serious _____ be _____ by _____ out _____ pipe segments, or _____ solved differently?

_____ bad _____ whole sectors need to _____ replaced?

Will _____ the issue by _____ out _____ pipe _____ or _____?

Does it take _____ to _____?

Does _____ a _____ section _____ to get rid _____ corrosion?

_____ this _____ issue _____ fixed by changing _____ or not?

Is it necessary _____ replace _____ entire pipe _____ if you _____ of _____?

Can full-section _____ be _____ deal _____ harm?

_____ sections of _____ setup _____ to repair the damage.

_____ possible that we will _____ to replace complete _____ if _____ resolve severe _____?

_____ be fixed _____ changing _____ entire _____ or will it _____ fixed differently?

_____ this _____ problem be _____ changing out _____ segments or _____ using _____ methods?

_____ it take _____ of _____ to _____ the current _____ is _____ from corrosion?

Will _____ be _____ whole _____ in the _____ setup to _____ rid of _____ damage?

_____ I have _____ sections of _____ piping system because _____ the _____?

_____ to fix the bad _____?

Will this serious _____ be _____ by _____ out _____ segments, _____ will _____ solved _____ changing one _____ segment

_____ it _____ areas to be replaced _____ because _____ corrosion?

Do _____ need to replace entire _____ of _____ corrosive damage?

Should _____ entire piping _____ want to _____ damage?

_____ extreme pipe oxidation require a _____ overhaul instead _____ alone?

Will _____ fixed _____ out entire pipe _____ or by other _____?

Will this _____ be _____ changing out entire _____ a _____ method?

Will the _____ be _____ out the _____ segments, _____ they fix it _____ a different way?

When _____ with intense corrosive _____ be required?

Will _____ issue be _____ by _____ every pipe _____ will _____ done differently?

Replacing entire _____ within the current piping setup _____ be _____ to _____ of _____.

_____ this _____ issue be _____ by changing out entire _____ is _____ ?
_____ out entire pipe segments is _____ fix _____ problem?
_____ this serious issue _____ each pipe _____ can _____ be done differently?
Is there _____ to _____ changing out every _____ segment?
If I want to eradicate _____ damage I _____ replace _____ .
_____ you _____ it's necessary _____ corroded pipes?
_____ replacements _____ entire sections to _____ the current piping _____ from _____ damaged _____ ?
Does it _____ portions in tubing schematics _____ solve severe rust _____ ?
Is _____ necessary to _____ section _____ get _____ of strong corrosive _____ ?
Is it _____ pipe section _____ is strong corrosion?
_____ for a _____ section replacement _____ get _____ of strong coring?
_____ that _____ must be _____ replaced _____ of corrosive elements?
Will the serious _____ be _____ pipe segments, or _____ it _____ repaired _____ different methods?
Will _____ be _____ to _____ entire _____ setup in _____ rid _____ the severe corrosive damage?
