

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network outages and service disruptions
Inquiry Sub-Category	Limited service availability
Description	Customers may be in areas where only certain services, such as voice calls, are available, while others, like internet access, are not.
Data Size	14,938 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Is ____ estimated time ____ operations to return to affected regions with ____ telecommunication ____ ?

Is there any ____ be ____ to ____ comprehensive ____ operations as ____ previously?

____ you ____ me how ____ the ____ take to return?

I'd ____ to know when you'll ____ the ____ telecommunication services ____ areas.

____ have ____ date for restoring telecom ____ regions?

Is ____ frame ____ when ____ regions will regain their ____ connectivity?

When ____ affected regions ____ restoration?

____ you tell ____ how ____ will take to ____ telecommunication ____ these ____ ?

____ it ____ to bring the network back to ____ it ____ ?

Do ____ think a restoration of ____ coverage ____ ?

Any estimate on ____ function ____ ?

Can you ____ when ____ will ____ be restored?

Is ____ normal network operations to return?

Do ____ have an ____ network ____ will return to ____ the ____ areas?

____ long will ____ some ____ to ____ restore telecommunications?

How long ____ it ____ to ____ the mess ____ make ____ functional ____ ?

____ anyone know how ____ will take ____ everything back ____ ?

____ long will ____ this mess ____ bring ____ a functional network?

____ until ____ are ____ were before?

Is ____ a ____ duration ____ networks ____ back ____ ?

____ wondering when you'll ____ features ____ telecommunication ____ the ____ areas.

____ have ____ estimated time ____ restoring communication networks?

____ will it take ____ to bring ____ a ____ network ____ we ____ once ____ to?

How ____ networks be ____ running again?

____ soon ____ network operations ____ resumed in the ____ ?

When ____ you bring back ____ ?

____ long ____ it be until you ____ network?

How long ____ take us ____ network in ____ areas?

There ____ an estimate on ____ comprehensive ____ operation ____ .

Is _____ a timetable for _____ resume?

_____ it _____ to _____ services in the areas _____ been affected?

_____ long _____ take for _____ network operations to _____ regions with _____ facilities?

_____ frame will affected _____ have fully _____?

Is _____ time _____ the _____ areas _____ once _____ have access _____ reliable telecom networks?

_____ deadline for fully functional telecom _____ to _____ back?

_____ is _____ of _____ long it will _____ to _____ everything _____ online?

_____ estimation on _____ normal network operations _____ be _____ in _____ areas?

When _____ you _____ our regular phone _____ after _____?

How long will _____ take to _____ telecommunications _____ affected _____?

Can _____ when the affected regions _____ to _____?

Can _____ me when the full _____ service _____?

When are _____ going _____ fix _____ disaster _____ back our _____ phone _____?

_____ give _____ timetable for network operations to _____?

What _____ will _____ regions _____ functional network _____?

What _____ you hope _____ systems up and _____ again?

How _____ it take _____ people _____ a flawless _____ experience?

How _____ will _____ for _____ telecommunication services _____ return?

Do you know if _____ will restart _____ or _____?

Will _____ network operations eventually _____ pre-incident _____?

How _____ it take for affected _____ previous levels of telecommunications _____ quality?

There _____ no idea when _____ will resume _____.

_____ it _____ all _____ systems functioning adequately again _____ time?

_____ comprehensive _____ return to pre-incident _____?

_____ us when _____ network will be restored _____ those _____?

_____ comprehensive network _____ return to _____ soon?

When will _____ to anticipate _____ complete restoration of _____?

_____ you _____ timeline for _____ operations to return?

Is _____ a time when networks _____ back _____?

Do you _____ an _____ restoration time _____ for _____ facilities?

_____ a _____ frame for normal _____ to _____ to the regions?

_____ it _____ will _____ recover _____ a reasonable period of time?

Can _____ network to _____ a reasonable _____ of time?

_____ it take for _____ telecommunication _____ be restored?

Can _____ give _____ frame _____ which we _____ expect regular network _____ to work smoothly _____ locations?

Can you tell me _____ areas _____ recover?

I _____ to _____ the _____ bringing back comprehensive _____ facilities.

What is _____ networking will _____ operational again?

It is not _____ it _____ to restore all _____.

_____ long until _____ return _____ before?

When will the _____?

_____ estimated time limit _____?

When _____ the restoration _____ coverage _____?

_____ expected timeline for network _____ to return?

_____ is the _____ for _____ telecom services?

_____ will _____ for the _____ regions to get their _____ back?

Can we expect _____ specific _____?

_____ would like to know _____ operations should _____.

Do _____ estimate on the restoration _____ frame for _____?

Is there _____ when the network _____ be back _____?

Is ____ possible ____ estimate ____ normal network ____ be restored ____ affected ____?
____ an ____ on ____ normal networking will ____?
____ will we see ____ service ____?

When will comprehensive telecommunication facilities in ____ areas ____?

When will the ____ be ____ we ____ get full ____?
____ soon can ____ expect fully ____ for the ____ regions?
____ long ____ expect the ____ recover?

How long ____ for ____ to ____ their former telecommunications infrastructure?

Is ____ an ____ period for ____ services to come back?
____ you ____ us when network function will be ____ across ____ experiencing ____?
Can you ____ a ____ for ____ return?

Is ____ frame for restoring ____ services?

Do network ____ their ____ state ____?
____ soon will network ____ after ____?

When ____ areas can ____ to ____ telecom networks, is ____ a ____ time ____?

Is ____ timetable ____ network operations in ____ regions?

I would ____ to know ____ will be able to return ____ operations ____.
____ there ____ projected time frame for ____ communication ____ in affected ____?
____ long ____ networks are ____ running like they used ____?

Can ____ tell me ____ communication ____ in impacted ____?

How long ____ telecommunications ____ be fully ____ affected areas?

When are you ____ to ____ problem and ____ our ____ back?

Does ____ have an ____ on when ____ work ____?

Do you know ____ will ____ the affected regions?

How long will ____ take ____ regain their prior level ____ infrastructure ____ quality?
____ there ____ frame available ____ the affected areas will regain ____?

How long will ____ full telecommunication services ____?
____ a specific ____ for ____ telecom ____ in impacted regions?

Do ____ a specific time to restore ____ regions?
____ if the services will restart within ____ frame?

What is the estimate ____ when ____ be restored ____ affected ____?

Is ____ possible ____ the restoration ____ telecommunication facilities?
____ times for ____ restoration of telecom services?

Are ____ estimated ____ for network recovery the ____?

Any ____ normal networking will get ____ normal?

Do you know when ____ of telecommunication services ____ the ____?

How ____ take for all ____ work again?

____ long until the ____ is ____ the ____ up ____?

____ give me an ____ the restoration time ____ telecommunication ____?

____ you ____ comprehensive telecommunication facilities ____ in impacted areas?
____ the network will ____ back to normal.

Can ____ tell ____ the comprehensive network ____?
____ can we ____ a ____ of ____?

____ we can ____ the full telecommunication services ____?
____ long before ____ are ____?

Is ____ tell us ____ operations should be restored ____?

____ areas ____ once ____ access reliable ____ networks, is there a ____ time ____?
____ long ____ be for telecom ____ to ____ operations?

Is ____ an ____ for ____ complete telecom services?

Do you have ____ long it will ____ restore ____ bring back ____ telecommunication facilities?

_____ you _____ the regular phone _____ ?
 _____ you tell _____ when _____ connection _____ resume _____ the _____ regions?
 I _____ an estimated _____ frame for _____ in the _____ area.
 _____ long will _____ telecommunication services _____ affected _____ to be restored?
 _____ much time _____ networking take _____ work _____?
 _____ you tell _____ when _____ will _____ again?
 Will _____ network operations _____ their previous _____?
 _____ affected regions _____ their _____ restored?
 Is _____ a _____ for _____ can once again have _____ telecom _____?
 _____ the telecommunication _____ come _____ as _____?
 Is it _____ to _____ a projected _____ restoration _____ regular communication _____?
 _____ until _____ are the _____ as _____ used to _____?
 _____ going to bring the _____ phone _____ back?
 Is _____ the restoration _____ communication facilities in _____ areas?
 How long will _____ affected _____ have _____?
 I _____ to know _____ network operations should _____.
 _____ an estimated _____ to _____ complete telecom _____?
 Is _____ possible to _____ normal _____ the affected _____?
 How long _____ normal _____ services _____ be _____ in affected regions?
 How long _____ take for our _____ to _____ their former _____?
 When _____ affected _____ access to _____ telecom networks, is there _____ projected period of _____?
 Do you know when the _____ normal _____ affected _____?
 When _____ you _____ comprehensive telecommunication _____ will _____ impacted _____?
 _____ can the _____ regions _____ a _____ network?
 _____ affected _____ can once again _____ access _____ is _____ a projected timeframe?
 How _____ before full _____ come _____?
 When _____ it appropriate _____ to _____ full telecom _____?
 As _____ what _____ the _____ timeframe for _____?
 Can you tell us _____ restart _____ or _____?
 Can you _____ us when regular _____ operations _____?
 _____ soon can _____ expect _____ restoration?
 _____ when normal _____ will resume?
 Would _____ let us _____ when the _____ should _____?
 _____ will _____ facilities be restored _____ the _____ areas?
 _____ know _____ long _____ will take for _____ to be restored.
 Can you _____ services will _____ within _____ certain _____ frame?
 Is it _____ that affected regions _____ facilities?
 How long _____ all _____ telecommunications _____?
 _____ know _____ normal communication _____ resume _____ the impacted _____?
 How _____ can we expect _____ restoration _____ in affected _____?
 _____ is a _____ frame _____ restoration _____ regular communication facilities?
 _____ you give _____ estimate _____ telecommunication _____ will be restored?
 How _____ will _____ take for _____ impacted _____ to _____ previous _____ services?
 _____ tell us when _____ be restored _____ the areas that are _____?
 How _____ will it take _____ in these _____?
 When do you believe _____ comprehensive _____ facilities will _____?
 _____ service will return _____ being _____?
 _____ there _____ timetable _____ normal _____ operations?
 How long will _____ take _____ to regain _____ previous _____ infrastructure?
 When the network will _____ areas?

Can _____ services _____ as _____?

Do we _____ good _____ it will take to _____ everything _____ again?

_____ I will get to _____ telecommence operations as they were _____?

Is it _____ back _____ functional telecom _____ once _____?

Do _____ an _____ a time frame _____ the coverage?

Does _____ when _____ network _____ will return _____ a _____?

When _____ services _____ fully restored _____ areas?

Do _____ it will _____ restore _____ networks and bring back _____?

Will comprehensive _____ operations _____ pre-incident _____?

When _____ affected _____ regain full function _____ their network _____?

The impact _____ will _____ previous _____ of telecommunications infrastructure _____ service _____.

Can _____ tell _____ when _____ will _____?

_____ can _____ expect _____ restoration?

_____ estimated time _____ network _____?

_____ will it take _____ network _____ in these messed _____?

Do you know _____ it will take _____ affected _____ telecommunications infrastructure?

_____ the affected regions _____ return to _____ function?

_____ will _____ of _____ telecommunication _____ happen?

When _____ a _____ restoration _____ network operations?

_____ it possible _____ resume _____ operations _____ a certain _____?

_____ comprehensive Network operations _____ to _____ state _____?

Is _____ an estimated time _____ telecom services _____?

_____ an estimate _____ comprehensive network operation returns?

How long _____ it _____ for _____ areas to _____ their _____ level _____ telecommunications _____ service quality?

Do _____ have _____ comprehensive network operation returns?

When _____ telecom _____?

How much time _____ it take _____ restore normal _____?

_____ is _____ anticipated _____ for bringing _____ telecommunication facilities?

How _____ will it _____ reestablish _____ flawless network _____?

_____ period will _____ to see _____ return to _____ telecommunication _____?

When will affected _____ their _____?

When _____ you _____ telecommunication coverage?

_____ an estimated _____ for _____ services _____ return.

Can anyone _____ a _____ standard _____ capabilities?

Can you give _____ timescale _____ restoration of _____ telecommunication _____?

Can _____ tell us how _____ regular network services _____ be functioning _____ all _____ locations?

How long will it _____ for _____ operations _____ to _____ to _____?

Will comprehensive network _____ come back _____ their _____?

_____ long would it _____ for standard _____ be _____ throughout _____ affected _____?

Is there _____ on _____ network operations in _____ affected _____ return _____?

_____ can get the network back to _____?

How long _____ take _____ restoration in these _____?

Can _____ the _____ to _____ soon?

Is _____ estimate on _____ network operations in _____ be restored?

Will _____ facilities again _____?

Can anyone give _____ for _____ standard telecommunications _____?

What _____ it _____ for comprehensive network _____?

How much _____ will _____ to _____ comprehensive telecommunication _____?

_____ estimated _____ network recovery?

_____ long _____ to _____ you to resurrect a _____ for us?

The poor _____ are wondering _____ life will return _____ it was _____.
 Can you _____ a time _____ for when _____ can _____ network services _____ be _____ across _____ previously _____?
 How long _____ take _____ to be _____ in affected _____?
 _____ network operations be _____ in the _____ areas?
 When _____ we expect _____ full capabilities _____ their network operations?
 How long will it _____ get the _____ services _____?
 _____ we _____ network to recover _____ a reasonable _____.
 Do _____ know how _____ will _____ restore communication _____ and _____ back comprehensive _____?
 Will there _____ estimates on _____ comprehensive _____ operation will _____?
 I want _____ know how long _____ will _____ for _____ telecommunication capabilities _____ be _____ the _____.
 How long will _____ affected _____ previous levels _____ telecommunications _____ service _____?
 _____ until all _____ are _____ the area?
 _____ you _____ us if _____ services _____ restart _____ the _____ future?
 How _____ it _____ services _____ back?
 _____ there _____ idea _____ the network _____ back _____ normal?
 _____ know when _____ operations _____ be restored?
 _____ know when _____ network will _____ restored _____ regions?
 Is _____ limit _____ reestablishing normal network _____?
 Can _____ me _____ network operation _____ return?
 _____ there an estimated _____ telecommunication _____ in affected areas?
 Is normal services _____ restart _____ a _____ or not?
 How long will it _____ you _____ and _____ back _____ functional _____?
 _____ you provide _____ expected _____ for network _____ to _____?
 When _____ the _____ have fully _____ services?
 Is _____ back _____ telecom services just like before?
 Can you _____ an update on _____ back _____ normal?
 Is it _____ to _____ normal network _____ to _____ an estimated _____?
 How _____ will it take _____ operations _____ return to the _____?
 _____ networks get _____ up, is _____ specific duration _____?
 How soon will _____ be _____ affected areas?
 Do _____ estimate on how _____ communication networks to be restored?
 I'm wondering _____ you'll restore _____ the _____ services _____ these _____?
 _____ any estimate _____ what is _____ anticipated _____ for _____ back _____ telecommunication _____?
 _____ there an _____ full network _____ will _____ back?
 Is _____ a _____ bring _____ functional telecom _____?
 _____ comprehensive telecommunication _____ in impacted _____ to normal?
 _____ it take _____ regain their _____ level of infrastructure and _____?
 _____ don't know _____ affected _____ will have _____ network _____.
 _____ are back up, _____ there a _____?
 When can _____ regions to _____ use of their _____?
 Are you able _____ an _____ frame for _____ communication _____ and bringing _____?
 When _____ sure that _____ telecommunication facilities _____ return _____ normal _____?
 _____ will _____ telecommunication facilities _____?
 How long _____?
 _____ long _____ you take to _____ this mess _____ bring _____ a _____?
 _____ time do _____ hope _____ all _____ back to normal?
 Is _____ an _____ time _____ operations?
 Do _____ how _____ will take to _____ everything _____ again?
 _____ don't _____ how _____ regions will _____ functional network services.
 _____ long until _____ flawless network _____ again?

When ____ the ____ get ____?

What are ____ expected ____ for ____ services ____ return to ____?

Do you ____ the ____ will ____ back to ____ affected ____?

____ long ____ take ____ bring back ____ telecommunication facilities the ____ ____ before?

How ____ it take you ____ resurrect ____ network experience?

Is there a ____ to return comprehensive ____ operations as ____ previously?

Do you ____ estimate ____ when ____ operations will ____ in affected ____?

____ want ____ know when ____ telecommunication ____ restored in these areas.

How long is ____?

Can you provide ____ approximate deadline ____ the ____ affected?

There ____ an ____ frame ____ restoring normal telecommunication ____ affected ____.

How ____ time ____ it ____ for ____ be restored ____ affected regions?

How long do ____ it ____ to ____ mess ____ back the network?

____ you have ____ idea on how ____ it ____ take for the affected ____ infrastructure?

____ you know ____ the ____ be restored across ____ regions?

Can anyone ____ when the network ____ normal?

How ____ like to ____ all communication systems ____?

How long ____ telecommunication ____?

____ is ____ estimated time ____ for normal ____ operations to ____ to ____ telecommunication ____.

____ a time ____ for ____ network ____ to ____ to ____ regions?

____ the expected time ____ services to ____ back ____ normal?

Can ____ give ____ approximate ____ the ____ areas recover?

____ you like ____ comprehensive telecommunication ____?

____ will ____ see our ____ phone ____ come ____?

How ____ services come ____?

____ regions get ____ telecom ____ restored?

____ do ____ take for things to be fully ____ again?

____ will ____ services come ____ normal?

____ when will ____ facilities be ____?

Do you ____ the ____ operations should be ____?

We don't know ____ network ____ restored in ____ affected ____.

____ please tell ____ when ____ network will be ____ those ____?

Do ____ communication systems will ____ to normal by ____?

How ____ until ____ come ____ as ____?

____ can we expect ____ affected regions ____ functional network ____?

____ you ____ know ____ things ____ get up ____ running again?

How ____ to what they were before?

____ long ____ for our ____ services to ____ to where they ____?

____ is ____ to take for normal network operations to ____ to ____?

____ timetable on ____ the affected regions will ____ connected?

How ____ it ____ for ____ restoration ____ comprehensive telecommunication services in ____?

____ will it take ____ affected ____ fully ____ network services?

____ give ____ a ____ which ____ us ____ regular ____ services functioning in all previously affected locations?

____ estimates do you have ____ restoration of ____?

Can ____ tell us ____ will ____ back to ____?

____ affected areas ____ restored?

____ long ____ it ____ for ____ regions to ____ their previous ____ of ____?

What time do ____ systems ____ be ____ again?

How ____ be restored in affected areas?

____ revival, what is ____ expected ____ frame?

____ long ____ it take for the affected regions to ____ their ____ ____ ____ ____ ____ ?
 ____ you know when ____ ____ to ____ all ____ the telecommunication ____ ____ those areas?
 ____ ____ return to ____ pre-incident condition ____ ?
 ____ ____ do you think ____ ____ be ____ to normal?
 ____ much ____ ____ this mess and ____ network back to normal?
 ____ you have ____ the ____ coverage will ____ fixed?
 ____ there ____ timelines for ____ operations in ____ region?
 ____ ____ have our regular ____ service ____ ?
 How long does it ____ for ____ be ____ ?
 Can you ____ an ____ of complete telecom services?
 Can ____ give ____ a time ____ which we can ____ to work smoothly across ____ that ____ been ____ ?
 How long ____ it will take ____ a ____ experience ____ us?
 ____ you ____ an estimate of ____ time ____ to restore ____ telecommunication ____ ?
 How long will it ____ services ____ return ____ ?
 Can you ____ us ____ services will ____ specific ____ ?
 ____ ____ take for ____ telecommunication facilities to come ____ ?
 ____ networks ____ is there ____ specific length anticipated?
 ____ regions ____ telecom restoration?
 ____ want to ____ when ____ will ____ features of ____ services in ____ .
 ____ anyone tell ____ long it ____ take for ____ services ____ return to their ____ ?
 ____ it possible to restore ____ networks ____ bring ____ comprehensive ____ were ____ ?
 ____ long ____ think it will take ____ comprehensive telecommunication ____ as they ____ ?
 ____ will it ____ for network ____ restart?
 ____ network going to return ____ in ____ areas?
 How ____ normal ____ operations ____ resumed ____ the region?
 Can ____ me ____ network ____ return?
 So ____ you fix ____ disaster ____ bring ____ phone ____ back?
 ____ ____ take for ____ affected areas to regain ____ previous telecommunications ____ ?
 ____ will ____ takeAffected areas ____ restore telecommunications?
 When ____ believe ____ of comprehensive telecommunication ____ will ____ ?
 What ____ the ____ time period ____ a ____ ?
 I am not ____ will take for ____ services to ____ former glory.
 Do you ____ you'll ____ features ____ telecommunication services ____ affected areas?
 How ____ does it ____ telecommunication services to ____ ?
 ____ idea of ____ take to restore ____ telecommunication services.
 ____ should ____ take to restore operations?
 ____ give an estimate ____ it will take ____ telecom ____ to come ____ ?
 Can you ____ an ____ of ____ telecom ____ will ____ ?
 Can ____ predict ____ regions will be ____ to ____ ?
 ____ return to ____ pre-incident state ____ ?
 ____ you have an estimated time ____ restoring ____ ?
 ____ be fully recovered ____ a reasonable ____ ?
 Can ____ time frame ____ when we ____ services to be functioning in ____ previously ____ ?
 ____ think that ____ telecommunication facilities in the impacted ____ ____ ?
 Is a ____ deadline ____ telecom services the ____ as before?
 Is there ____ on ____ networking will be ____ ?
 ____ before the services come ____ ?
 Is ____ a time frame ____ standard ____ capabilities ____ area?
 Can you ____ a ____ when ____ return to ____ ?
 How ____ will ____ take ____ areas ____ get ____ telecommunications infrastructure back?

_____ we have full telecommunication services _____ incident?

If _____ exists, what _____ it take _____ comprehensive telecommunication facilities?

How _____ a return to pre-incident telecommunication _____?

_____ to fix this mess and get _____ network back?

Is _____ possible to get _____ restored _____ the _____ areas?

Is there _____ will _____ up and running again?

_____ like to know if you _____ a _____ period in _____ anticipate _____ services functioning in _____ affected locations.

How _____ longer _____ for _____ to _____ mess and bring _____ a _____ network?

Can _____ when _____ network is expected _____ back _____ normal?

When _____ the _____ be normal _____?

_____ affected regions to have full _____ operations?

How _____ until _____ affected _____ have fully _____ networks?

How _____ will our _____ be _____ to _____?

_____ does it _____ come back to normal?

_____ have an _____ when you can restore communication _____ bring _____ telecommunication _____?

Can anyone _____ an estimated _____ line _____ telecommunication _____?

Is _____ idea of when _____ network _____ be _____?

_____ you _____ idea of how _____ it will _____ to _____ coverage?

_____ communication facilities be _____ in impacted areas?

When can the affected _____?

_____ you _____ an approximate _____ frame for _____ comprehensive telecommunication _____ in _____ areas?

_____ services fully be _____?

_____ we expect _____ network _____ in affected areas?

How long _____ take to _____ normal _____ operations in _____?

_____ need an _____ restoring standard _____ capabilities in _____ affected _____.

_____ is _____ frame for normal _____ operations _____ return to _____ affected _____?

_____ long _____ it _____ to take to _____ everything _____?

Is _____ an estimate of how _____ it _____ take _____ the _____ their previous telecommunications _____?

_____ long _____ it _____ for _____ regions to _____ their previous telecommunications _____ operation?

How much longer until _____ the _____ bring _____ a _____?

When _____ the _____ be fully _____?

How long is it _____ that impacted regions _____ regain _____?

Can _____ provide _____ for the _____ areas?

How _____ the _____ telecommunication services in affected areas _____?

Can we predict when _____ regions will regain _____ operations?

_____ time _____ operations take to return as _____?

Do you have _____ timetable _____ normalization _____ crisis?

_____ an expected _____ frame _____ network operations to _____?

Do _____ have an _____ of _____ long _____ take _____ back online?

_____ you provide _____ of how long _____ services _____ take _____?

_____ there any _____ network _____ in the regions?

_____ to know _____ affected _____ will regain _____ function in _____ network _____.

_____ the _____ get back to _____?

Do _____ an estimation _____ long it _____ restore _____ networks and bring _____ telecommunication facilities?

How _____ longer until you fix _____ it back _____?

How _____ recovery expected _____ take?

_____ we _____ the _____ to be _____ normal?

_____ there a deadline _____ functional _____ again?

What period _____ anticipate _____ to _____ facilities and _____?

_____ have a _____ long it will take to _____ back online?

When ____ we get regular ____ ____?

When will ____ get ____ facilities?

____ you ____ estimate of how ____ it will take to ____ and ____ telecommunication facilities?

____ soon ____ expect completely ____ network services in the ____?

____ there ____ time frame for normal ____ to return ____ regions?

____ regions get ____ restored ____ facilities?

____ will ____ bring ____ phone ____ back?

There can ____ to pre-incident ____.

____ will ____ be ____ to normal?

____ the predicted ____ normalization after this crisis?

____ a ____ duration before ____ are ____ up?

When ____ comprehensive telecommunication facilities ____ normal operations ____ the ____?

Willfully ____ will be brought ____ just like ____?

____ can ____ to return to full function?

Is ____ anticipated ____ networks ____ back ____?

There are ____ full ____ service will ____.

Is ____ for ____ functional ____ services the same as ____?

Are normal services going ____ within ____ or not?

There is ____ turnaround for ____ services.

What ____ will you ____ have all ____ working ____?

When will ____ network ____ fixed ____ can have ____ again?

____ us a timetable ____ when ____ will ____ to normal?

____ like ____ know ____ you'll restore ____ of ____ in the affected areas.

____ services ____ affected area will ____.

____ services will be restored ____.

How long will it ____ for our ____?

____ will ____ take for ____ to ____ full network ____?

____ networks ____ up ____ a ____ duration anticipated?

____ the ____ time frame for ____ network ____ return ____ affected ____ the ____ as ____?

____ a ____ for the restoration of ____ facilities?

Is ____ frame for normal ____ operations to return to ____?

Is there ____ estimate for ____ operations ____ to normal in ____?

____ will ____ be until you fix ____ mess ____ a functional ____?

Can ____ give an ____ of ____ long ____ for ____ affected ____ to ____ their ____ telecommunications infrastructure?

____ of ____ long it would take ____ telecommunication services.

____ an ____ for ____ normal ____ services.

____ you ____ an estimate on ____ network ____ restored ____ the affected ____?

Before networks ____ back ____ a specific ____ anticipated?

How long will the impacted ____ get ____ to ____ previous ____?

____ it be before everything is ____?

____ network operations back ____ their ____ state ____?

Can ____ an estimate ____ when ____ be operational again?

____ a time frame for when the ____ regions will ____?

____ it take for network operations ____ resume ____ regions?

How ____ will ____ take for ____ full network ____?

Can ____ let us know ____ network ____ restored completely?

____ it possible that normal ____ resume in ____?

____ us a time period ____ we can ____ network services to ____ all previously ____?

Do you ____ a ____ period for ____ of ____ facilities?

Do ____ any ____ for ____ telecom facilities?

How long will it ____ for ____ comprehensive ____ facilities ____ regions?

How ____ we ____ a full network ____?

____ give a projected ____ for ____ regular communication facilities?

____ time ____ back to normal?

When normal networking ____ normal?

____ much ____ until ____ fix this mess ____ a ____ network?

Can you ____ me ____ how ____ will take to ____ of ____ services in these areas?

____ how ____ it will take to fix ____ coverage?

How ____ take for the ____ of regular ____ in ____ areas?

____ what the anticipated ____ is for bringing back ____?

What's the ____ for ____ revival ____ the ____?

____ long ____ it ____ before ____ network ____ happens?

Is there ____ expected time ____ for ____?

____ there ____ of the affected regions ____ be connected?

When ____ you think comprehensive ____ will ____ back ____?

____ long until ____ services ____?

____ soon ____ regions have full functional network ____?

Are normal services going ____ restart ____ time ____ not?

Is ____ expect ____ network ____ recover within a ____ period ____ time?

____ it possible ____ time period in which ____ anticipate ____ network ____ functioning in all previously affected ____?

____ the comprehensive network ____ back ____ their pre-incident ____?

____ you ____ let ____ when network operations should ____ restored?

Can ____ tell ____ when you will ____ all ____ features of ____ in ____?

Does ____ have ____ estimate on ____ comprehensive ____ comes ____?

Can ____ give ____ long the services ____ take ____ return?

We ____ know when the network will ____ regions ____ been experiencing ____.

____ estimate a ____ restoring standard telecommunication ____ in the ____ area?

When ____ returns is ____ estimate?

____ in affected areas ____ restored.

Can ____ tell me when full ____ after a ____?

____ you ____ a ____ time ____ restoration of comprehensive telecom ____?

How long ____ to ____ the ____ in these areas?

When ____ restoration of ____ coverage in ____ regions ____?

How ____ our telecommunication ____ are ____?

____ me how ____ will take for our ____ services to ____ to ____ glory?

How ____ will it take the ____ return ____ their ____?

How long does ____ for telecommunication ____ to ____?

____ before we ____ services back?

____ recover within ____ reasonable period of time?

____ you ____ us ____ when ____ will likely be ____?

____ how ____ might take for telecommunication services to be ____.

Is ____ an ____ frame ____ restoring ____ capabilities ____ the affected area?

____ soon ____ you ____ our regular phone ____?

Can we ____ network to ____ in ____ reasonable ____?

When ____ get ____ so ____ get full service ____?

____ there a time ____ for ____ to start ____?

We want ____ know ____ can provide a ____ in ____ can anticipate ____ network ____ in ____ previously ____ locations.

Can you ____ us ____ time limit on ____ back to ____?

There are ____ for ____ the ____ come back.

_____ you want _____ restore comprehensive telecommunication _____ impacted _____?
 We _____ to know _____ long _____ would take for network services _____ across _____ locations.
 When are you _____ restore comprehensive _____ in _____?
 _____ to _____ if there is _____ tentative deadline _____ bringing _____ functional telecom _____.
 How _____ it _____ to take _____ to get full _____?
 _____ you _____ back _____ phone service?
 Let us _____ long _____ the affected regions to regain their previous _____ smooth _____.
 Can _____ give _____ a time frame _____ things will _____ functional?
 Can anyone _____ an _____ to restore standard telecommunication capabilities?
 I _____ when comprehensive _____ operation will _____.
 _____ long will _____ regions _____ their previous level _____ telecommunications infrastructure?
 _____ long will _____ able _____ restore _____ network in these _____?
 _____ time will it take _____ get _____ online?
 _____ the _____ have _____ functional network services?
 _____ the _____ recover within _____ reasonable _____?
 When _____ you think _____ telecommunication _____ will _____ to _____?
 _____ telecommunication _____ come back?
 What is the _____ time for _____ telecom _____ return _____?
 How long _____ full telecommunication _____ up and _____?
 How _____ will take _____ affected areas to _____ restore _____ telecommunications?
 _____ comprehensive network operations _____ their pre-incident _____ again _____?
 _____ any estimate _____ what is the _____ back _____ as they were before?
 _____ is the _____ going _____ be fixed _____ can _____ service _____?
 When can _____ expect _____ restoration?
 _____ there a timescale _____ the affected _____ once again _____ networks?
 How _____ all the telecommunications _____?
 I'm _____ be able _____ features of telecommunication services in _____ areas.
 Do you have _____ idea _____ it will _____ to _____ coverage?
 _____ us _____ network operations should be restored?
 _____ it _____ networks are up _____ running again?
 What _____ are _____ hoping to _____ communication systems _____?
 _____ it take to restore _____ in the messed _____?
 _____ services _____ be _____ affected regions.
 Is _____ any idea _____ will _____?
 _____ comprehensive _____ return to _____ former _____ soon?
 What _____ normal network operations to return to _____ regions?
 Can _____ expect _____ specific _____ for _____?
 _____ envision _____ of comprehensive _____ coverage in impacted _____?
 _____ expect _____ affected regions to _____ their _____ function?
 Can _____ network operations _____ return?
 _____ are back up Is _____ specific _____?
 _____ on when _____ network will _____ to normal?
 What _____ affected areas _____ restore _____?
 _____ do _____ will be restored in _____ regions?
 _____ give us an update _____ things _____ up and running _____?
 _____ you _____ timetable _____ when things will return _____ normal?
 When the affected _____ will _____ fully _____?
 Is _____ for _____ normal network operations _____ region?
 Do we _____ long it _____ to _____ to normal?
 Are you _____ an estimate for _____ of _____ services?

It is not _____ get _____ restored telecom facilities.

_____ a time when _____ operations _____ restored?

When will comprehensive telecommunication _____ restored _____ the _____ were _____?

_____ long do _____ think _____ take _____ have _____ communication systems _____ again?

Can _____ tell _____ long it will take to _____?

When _____ we _____ affected _____ regain _____ functioning of _____ network operations?

Can anyone give _____ projected _____ the restoration of _____?

Is _____ a specific _____ period for _____ facilities _____ regions?

_____ us know _____ operations _____ to normal.

How much _____ do _____ will take to fix _____ a functional _____?

_____ you have a _____ restoring _____ facilities in _____ regions?

_____ long until _____ telecommunications _____ been _____?

_____ tell us when _____ network will _____ in _____ areas that _____ disrupted?

When can _____ full _____?

_____ network be _____ so we get _____ service _____?

_____ deadline _____ the restart _____ network operations?

How _____ estimate for complete telecom _____ to _____?

_____ affected areas have _____ to _____ telecom networks again, _____ a _____ time _____?

_____ estimates for _____ the network service _____ back.

Do you _____ of comprehensive _____ coverage in _____?

_____ long _____ it take _____ areas to _____ restore _____?

_____ the _____ time frame _____ network _____?

Do _____ for how long it will _____ restore _____ and _____ back _____ telecommunication facilities?

Do _____ a time _____ facilities in affected areas?

Can you give us _____ of _____ it will _____ for _____ affected _____ previous _____ and smooth operation?

We _____ like _____ know _____ you have a _____ which _____ can anticipate regular _____ services _____ previously _____ locations.

_____ know when _____ will return?

_____ long _____ it take _____ restore _____ and bring _____ comprehensive telecommunications _____?

_____ of when comprehensive _____ operation will _____.

There _____ an estimated _____ restoring _____.

Will _____ network operations _____ to _____ soon?

_____ there an expected _____ network _____ return?

_____ do you think _____ to fully restore _____ in affected _____?

_____ is the expected _____ for the _____ the _____.

When _____ you _____ able _____ comprehensive telecom _____ in impacted _____?

_____ an _____ on when telecom _____ be back?

How _____ do _____ think it _____ take _____ communication _____ work again?

_____ time _____ have all _____ systems running again?

_____ can _____ expect _____ operations _____ to _____ in affected regions?

_____ we _____ the regions' _____ to _____ to normal?

_____ network _____ in _____ reasonable period?

_____ will you hope to _____ all _____ running again?

_____ the expected _____ for _____ to return _____ normal?

_____ estimated _____ for network recovery the same _____?

How _____ will _____ take _____ the _____ to their former glory?

What time frame _____ for _____ regain _____ previous level of telecommunications infrastructure _____ quality?

_____ for _____ to _____ robust networks like before.

Is _____ a timetable for _____.

_____ deadline for full functional _____?

_____ before the _____ in the affected areas?

What is the anticipated _____ comprehensive telecommunication facilities as _____?

_____ you _____ an _____ return _____ for the network _____?

_____ we _____ telecommunication _____ soon?

_____ estimated period for the _____ of _____ services?

_____ time _____ expect a return _____ telecommunication facilities and _____?

Normal _____ in affected regions _____.

_____ have any _____ of how long _____ will take _____ fix _____?

What time _____ take _____ telecommunication services _____ to their former _____?

Can _____ expect full _____ restoration in _____ messed _____?

Did _____ when _____ network will _____ be restored across those _____ are _____?

_____ a _____ for _____ normal _____ operations in the _____?

_____ long _____ it take _____ telecommunication _____ return to their _____ glory?

_____ will _____ take _____ telecommunication _____ to return to their _____ glory.

Do _____ have an _____ when _____ to _____ back comprehensive telecommunication _____?

Are _____ services _____ to restart within _____ period?

_____ the estimated _____ network recovery?

_____ will affected _____ expect _____ telecom _____?

Can you provide an estimated _____ for _____?

Does anyone have _____ when _____ network operation _____?

_____ it _____ full _____ service _____ return after a _____?

Do _____ long it will take to _____ all communication _____ and _____ facilities?

_____ you _____ us _____ approximate _____ until _____ affected _____ recover?

What _____ the _____ taken _____ telecom _____?

When _____ expect _____ telecommunication _____ to _____ restored _____ impacted areas?

Does _____ have _____ normal networking will start _____?

_____ restoration of _____ telecom services is _____ take _____.

Should we _____ able _____ network _____ in _____ region?

_____ expected time for a _____ the network?

What _____ should comprehensive _____ take?

When will we _____ phone service?

_____ will _____ complete telecom services _____ return _____ normal operations?

Can _____ tell _____ if normal _____ in _____ certain time _____?

_____ time _____ complete _____ services _____ operations _____ unknown.

Is _____ give a _____ time _____ the restoration _____ communication facilities?

_____ the network will return _____ normal _____ affected _____.

Will _____ let us know _____ things _____ running again?

There is _____ estimate _____ to when normal _____ operations will _____ in _____.

Is it possible to _____ the _____ full functioning?

_____ to return _____ operations to _____ regions in _____ reasonable time _____?

Do you know _____ able to restore _____ features of _____ these _____?

When _____ you plan _____ comprehensive telecommunication _____ impacted _____?

_____ see regular _____ service _____ back?

Will _____ operations _____ to _____ state?

_____ long until _____ get _____ network _____ in those _____?

Is there _____ idea of _____ network _____ return?

_____ idea of _____ will return to normal?

How _____ restore operations?

_____ don't _____ how _____ will _____ for _____ to return to _____ former glory.

_____ an _____ time frame for _____ of comprehensive telecommunication _____ the affected _____?

How _____ it take _____ our telecommunication services _____ come _____ former _____?

When ____ the network ____ fixed ____ we can get ____ ____ ?
____ you provide ____ an ____ on ____ things ____ ____ to normal?

When ____ you think ____ ____ the impacted ____ be restored?
Are ____ going to ____ a specific time ____ not?
Is ____ estimate on ____ it ____ take for ____ to be restored?
When ____ the comprehensive telecommunication ____ returned to ____ ?
What time ____ the network ____ back to ____ ?
____ affected regions expect ____ get full ____ ?
When are we going ____ have our ____ ?
Can you ____ us an ____ of ____ long ____ take ____ affected regions ____ regain their ____ telecommunications ____ ?
____ network recover in a ____ of ____ ?
Is there ____ estimated ____ period ____ operations to ____ to affected ____ ?
How ____ will ____ take for our ____ telecommunication ____ come ____ to ____ former ____ ?
Can ____ me when things will ____ up ____ ?
____ can ____ expect affected regions ____ regain ____ full ____ ?
How long ____ it ____ for things to ____ to ____ perfectly ____ ?
____ can ____ anticipate full ____ operations for the ____ ?
Exactly how ____ as before?
____ will it take for ____ to be ____ regions?
____ comprehensive network operations be ____ to ____ state ____ ?
Could you tell ____ when the ____ likely ____ ?
____ services ____ restart in a specific period?
I want to ____ projected ____ the restoration of ____ .
____ soon ____ the affected regions ____ able to ____ services?
____ can we ____ the network ____ be ____ normal?
____ in ____ areas will ____ fully restored ____ .
Can you ____ as to how ____ it will take ____ to regain their ____ infrastructure?
Is there ____ for when ____ regions will ____ full ____ ?
____ it ____ telecom services to return to normal ____ ?
How ____ it ____ the ____ regions to restore their ____ infrastructure?
____ anticipate that comprehensive ____ facilities will ____ the ____ areas?
Were ____ tell us when ____ likely be restored?
____ it ____ the ____ to recover ____ a reasonable time?
____ you have ____ idea ____ the coverage will ____ ?
When will ____ back ____ perfectly operational ____ ?
____ a ____ operations in the affected areas?
When ____ facilities ____ affected regions ____ restored?
How long ____ it ____ telecommunication capabilities to ____ ?
When ____ service ____ after a ____ ?
How long ____ back to ____ ?
____ you ____ us ____ things will return ____ fully operational ____ ?
____ operations ____ back to normal ____ ?
____ will ____ be ____ the areas that ____ been hit?
I want ____ know if there ____ bringing back ____ functional telecom ____ .
How long will ____ to ____ level ____ telecommunications infrastructure ____ service quality?
Will ____ get ____ telecommunication facilities ____ ?
The schedule ____ ?
____ time will it take ____ impacted regions to regain ____ of ____ service ____ ?

Will ____ network ____ normal ____ the storm?

How ____ will ____ take for ____ to ____ telecommunications infrastructure ____ smooth operation?

Is ____ any ____ on ____ network ____ will return?

____ disruption, ____ network service return?

____ an estimated ____ frame ____ normal network ____ to return ____ regions?

How ____ until ____ back ____ normal?

____ you ____ target ____ to fix ____ coverage?

____ you ____ an ____ on ____ things will ____ back to ____?

How ____ will ____ for impacted ____ to ____ their ____ of ____ service quality?

How long will ____ affected ____ restore ____ communications?

____ a ____ restart ____ network operations?

____ are ____ regions going ____ telecom restoration?

We would ____ a ____ period ____ which ____ anticipate ____ services functioning ____ all previously affected locations.

____ long will ____ network ____ in these ____ up ____?

Give us an idea ____ how ____ it will ____ the ____ to ____ their previous ____.

Can anyone ____ for ____ time it ____ to restore ____ capabilities?

____ time frame ____ we ____ return ____ pre-incident ____ facilities?

____ long ____ telecommunication ____ back to ____?

____ until networks ____ to normal?

How ____ we ____ restore ____ network?

Do ____ know ____ long it ____ for ____ to ____ communication ____ and bring back ____ facilities?

Can ____ estimated time ____ the ____ comprehensive telecommunication ____ in affected ____?

We ____ like ____ know ____ time frame in which ____ can ____ all previously affected locations.

How ____ it ____ take to ____ communication ____ functioning again?

How ____ it take to restore ____ areas?

____ a ____ time when the affected ____ have reliable telecom ____?

When will ____ be ____ to ____ full ____ restoration?

Can you ____ of when ____ telecommunication ____ will be ____?

____ normal services ____ to ____ within ____ specific time ____?

____ can ____ expect the ____ regions ____ regain full ____?

When ____ affected ____ full function on ____ network ____?

____ the ____ time ____ network ____?

____ tell us when ____ network ____ should be ____?

Is ____ a ____ normal network operations to ____?

When ____ operations to be restored ____ affected ____?

____ we expect ____ of ____ affected ____ to have ____ network services?

____ an estimate on ____ network operation ____?

____ there ____ for when the ____ regain full connectivity?

How ____ it take ____ you ____ return comprehensive ____ they were before?

You ____ be ____ to let us know ____ should ____ restored.

____ tell me ____ will be ____ restore all ____ telecommunication services in ____ areas?

How ____ will ____ the network ____ to normal?

____ an ____ network will return to normal?

Can ____ the ____ network service ____ return?

Can you ____ me when ____ to ____ all the ____ of ____ services ____ areas?

How long ____ it ____ take for ____ telecommunication ____ to ____?

Do ____ think ____ comprehensive ____ will ____ operations ____ the affected areas?

What ____ anticipated timetable ____ network normalization after ____?

____ the ____ network recovery the same ____?

Can ____ when the network ____ return ____ in ____ regions?

What is _____ time for _____ telecom _____ return _____ normal?
 _____ it _____ to expect _____ for restoration?
 _____ there _____ frame _____ fully functional telecom _____ to _____?
 When the network _____ so we _____ get _____ back _____?
 Is there a projected _____ frame _____ when affected _____ will _____ telecom _____?
 By what _____ you _____ communication _____ to _____ back _____ normal?
 How long _____ the affected _____ fully _____ service?
 How long until networks _____ running _____?
 _____ is _____ estimation of _____ long _____ will take _____ online again?
 Do _____ have _____ functioning again by that time?
 _____ normal services will resume?
 _____ you give _____ update on _____ things _____ be _____?
 How long _____ it _____ you to bring _____ a _____ network _____ we _____?
 _____ long will _____ to _____ back comprehensive _____ facilities as _____ were before?
 _____ long before networks _____ they were _____?
 _____ long do you think it will _____ to _____?
 _____ operations return _____ their pre-incident state _____ day?
 _____ return to their pre-incident _____?
 _____ an _____ time for complete _____ services _____ return?
 What is the estimated _____ restoring _____ in _____ affected area?
 _____ there _____ for _____ telecommunication services?
 _____ long _____ it take _____ telecommunication services _____ return to _____ glories?
 _____ you _____ service will come _____ after a disruption?
 _____ estimated period _____ complete _____ possible?
 _____ long _____ it _____ for normal _____ operations to _____ to _____?
 _____ will _____ restoration _____ network _____ be possible?
 We _____ a _____ restoration of _____ operations _____ happen.
 Do _____ estimate _____ how _____ it will take to restore communication _____ and _____ back _____?
 Do you _____ telecommunication facilities _____ restored?
 _____ affected _____ get their telecommunications back?
 _____ there _____ estimate on _____ restoration _____ facilities?
 _____ long _____ it take _____ network?
 Do you have a _____ telecom _____ in _____?
 The networks _____ expected _____ back _____.
 Can you provide _____ for _____ comprehensive telecommunication services _____ be _____?
 If _____ duration for bringing _____ telecommunication facilities, _____ it?
 Do you think _____ telecommunication _____ to _____ operations?
 _____ give _____ of when _____ telecommunication capability _____ be restored?
 Before _____ up, is there a _____ anticipated?
 _____ have a set _____ for restoring _____ facilities in _____?
 After this _____ is _____ projected timetable _____ network _____?
 _____ long will _____ be _____ the impacted _____ regain their previous _____ infrastructure _____ quality?
