 I _____ know how you _____ variations from _____ that need _____.
 Do _____ differentiate _____ genetics _____ need treatment?
 Do you have insight into _____ variations and _____?
 Can _____ tell the _____ natural _____ a hereditary _____?
 Is there _____ between _____ diversions and _____ genetic _____?
 _____ tell normal variations _____ genetic _____?
 How _____ variations _____ genetic diseases?
 _____ variation vs _____ them apart?
 _____ do you _____ between _____ fluctuations and necessary _____ genetic _____?
 I want _____ how _____ and genetic disorders.
 Is it _____ the _____ between natural variation _____ disorder?

_____ detect normal _____ serious _____ illnesses?

How _____ you _____ between regular _____ treatment for _____ condition?

_____ want to know how you _____ variations _____ genetics that have _____.

Can _____ determine if it _____ diversity or a _____?

How _____ you detect _____ or serious _____?

How _____ it _____ or serious _____ diseases?

_____ can I differentiate between _____ genetic _____ variability?

_____ how to distinguish _____ genetic disorder _____ needs _____ and something else.

_____ you _____ the _____ between a _____ and a genetic _____?

I want to know _____ you _____ normal _____ and _____.

What is _____ difference _____ versus treated _____ disorders?

_____ you _____ apart _____ typical variations from _____ issues?

Identifying _____ genetics that _____ treatment, _____ sir?

Tell me _____ from _____ needed genetic disorders.

Can _____ distinguish _____ natural variation _____ disorder?

I _____ like _____ how you distinguish between _____ normal _____.

Is _____ for you to tell _____ variations _____ genetic _____?

Can _____ give us _____ into the _____ between _____ variations?

_____ it be possible _____ between natural _____ disorders?

_____ can _____ if _____ is normal _____ a genetic _____?

How _____ tell if it is normal _____?

Can _____ apart the typical _____ from _____

Could it _____ distinguish _____ natural _____ and _____ disorders?

How do _____ an _____ is normal variation _____ a _____ genetic _____?

How can _____ if you _____ normal _____ or _____ problem?

Can you _____ us _____ the _____ genetic disorders _____ variations?

How to _____ regular _____ mendable gene disorders?

What _____ you _____ fluctuations versus _____ for a _____?

_____ common differences from _____?

_____ tell _____ variations from _____ issues?

_____ how to detect if a _____ variation and _____ genetics _____.

_____ you tell _____ differences between _____ variations and genetic _____ that _____?

Can you _____ how _____ differentiate _____ that need treatment?

Can _____ show _____ discern _____ genetic disorders and _____ variations?

_____ know how you _____ between normal _____ genetic disorders.

I want to _____ distinguish _____ variation _____ a genetics _____ treatment.

_____ normal variation and _____ genetic disorder?

_____ differentiate _____ normal _____ and a genetic disorder?

Can _____ help _____ decide between normal _____ disorders?

_____ normal variation _____ from genetic _____?

_____ wish to know _____ to distinguish _____ disorder _____ needs _____ and _____ variation that does _____.

_____ tell _____ difference between naturally variation _____ a _____?

I _____ find out how you _____ and genetic _____.

_____ you _____ you see a normal variation _____ genetic _____?

How _____ is normal or a _____ disorder?

How _____ you _____ fluctuations and _____ for a genetic _____?

How can you _____ disorder requires treatment _____?

I _____ to know how _____ tell _____ from a _____.

_____ distinguish a _____ regular one?

I _____ to know how to distinguish between a _____ needs treatment _____ variation _____ is _____.

____ a way to ____ between a ____ and ____ variation?
 ____ a ____ between natural ____ and ____ genetic disorder ____ needs ____?
 ____ you ____ us ____ between genetic disorders and typical variations?
 You ____ variations ____ genetics that _____.
 Can ____ us ____ the ____ genetic disorders ____ typical variations?

 ____ you _____ variation and genetic disorder.
 Do you ____ the difference between _____ treatment-needed _____?
 How ____ distinguish ____ regular or _____?
 What do ____ do to _____ from genetic _____ a fix?
 ____ ordinary changes ____ curative ____?
 _____ normal deviation ____ a genetic disorder?
 ____ ordinary changes from _____ problems?
 What ____ identify ____ variations and _____ a ____ disorder?
 What _____ tell us about ____ differences between ____ variations _____?
 ____ it _____ differentiate between ____ variability _____ genetic issue?
 How _____ tell whether _____ issue mandates _____ or natural ____?
 Tell me ____ to distinguish _____ treatment-needed ____ disorders?
 How can _____ a ____ disorder or ____ variation?

How to _____ regular _____ in the genes?

I _____ you differentiate normal variations from _____ needed for _____.

_____ you _____ normal _____ from _____ genetic disorders?

_____ you help _____ between normal variations _____ genetic _____?

_____ changes from genetic _____?

What is _____ difference _____ variation _____ needed _____ disorders?

_____ to _____ how to tell if normal _____ genetics _____ treatment.

How to _____ if _____ a _____ genetic disorder?

_____ it possible _____ separate everyday flukes _____ jumbo that _____?

_____ can I _____ a _____ issue and _____ variation?

_____ way to _____ ordinary alterations _____ hereditary problems?

_____ do _____ variation and a _____ disorder?

How _____ if the _____ is normal or _____?

_____ normal _____ medically important genes?

_____ possible _____ differentiate between natural fluctuations _____ genetic _____?

_____ to distinguish between _____ or _____?

_____ tell _____ between _____ disorder and normal variation?

_____ to _____ how to discern between _____ genetic disorder _____ treatment and a _____ not.

I _____ know _____ distinguish _____ normal variations _____ genetic disorders.

_____ need _____ know how to _____ normal variations from _____.

What _____ normal variation _____ to _____?

_____ the _____ between a genetic disorder and _____?

Can _____ tell _____ natural diversity or _____ ailment?

Can you _____ us how _____ between _____ that warrant _____ typical _____?

How _____ decide if you _____ normal variation _____ disorder?

_____ you know _____ abnormality _____ normal variation or _____ genuine _____ disorder?

_____ ordinary changes _____ from curative _____?

_____ want to _____ how to _____ between a _____ disorder _____ needs treatment and _____ variation _____.

How can _____ between _____ and _____.

_____ do you do _____ normal variation _____?

Can _____ help us determine _____ or genetic disorders?

_____ makes _____ variation _____ genetic disease _____?

_____ you _____ the _____ differences _____ the genetic issues?

How can _____ separate _____ flukes from genetic _____ jumbo _____?

How can we _____ flukes from genetic _____ that _____?

_____ can we determine the _____ a _____ disorder?

I want _____ know _____ variations and genetics _____ treatment.

How _____ you tell between _____ variation and _____?

How do _____ abnormality is _____ a real genetic disorder?

_____ you tell us about _____ between _____ and genetic _____?

Can you tell apart _____ genetic _____?

Is it _____ distinguish _____ natural and _____?

How do _____ flukes from genetic _____ fixin'?

How _____ detect _____ normal differences _____ serious hereditary _____?

_____ the difference between natural variability _____ genetic issue that _____?

What _____ from _____ problems?

_____ know _____ you differentiate normal variations _____ which _____ treatment.

Can _____ help _____ discern between _____ and typical _____?

_____ you tell _____ between normal and treatable _____?

What _____ the best ways _____ treat a _____ disorder?

Can one _____ it's _____ diversity _____ a _____ related _____?

_____ know _____ there is normal variation or _____?

_____ to detect normal differences _____ hereditary illnesses?

How do we identify normal variations _____ disorders?

_____ to _____ normal _____ from genetic _____?

_____ normal _____ from _____ disorders?

_____ to know how to _____ normal from _____ that _____.

How _____ determine _____ a abnormality _____ normal _____ or _____ genetic disorder?

_____ know what differentiates _____ variations from _____ that need _____.

Can _____ distinguish _____ variations _____ genetic _____?

What can _____ do to _____ variance _____ issues?

How _____ distinguish _____ regular _____ underlying _____ with genes?

What do _____ between typical variations and genetic _____?

_____ to know the difference between _____ disorder _____ treatment _____ a variation that is _____.

I _____ know the difference between _____ need treatment.

How _____ I _____ that _____ medical intervention and natural variance?

How _____ you tell _____ it's _____ or if _____ genetic _____?

_____ to _____ difference between _____ genetic _____ that needs treatment _____ a variation that _____ not.

Can you _____ if _____ is _____ diversity _____ gene related _____?

Can you tell us _____ decision _____ typical _____ genetic _____?

How _____ you _____ regular _____ and necessary treatment for _____?

How _____ tell if _____ disorder.

_____ do you _____ disorders and _____ variations?

_____ there _____ difference between typical _____ genetic disorders _____ warrant _____?

_____ you _____ between a _____ and a genetic _____?

Is _____ between normal variation _____ genetic disorders?

_____ about the _____ between _____ treatment-needed genetic disorders.

_____ we _____ determine between _____ variations and _____ disorders?

What can be done to _____ genetic _____?

_____ able _____ us if there are _____ genetic disorders?

_____ between _____ variations and _____ that require treatment?

_____ to know _____ you _____ between normal variations _____ required _____ treatment.

_____ possible to give insight _____ between typical _____ genetic _____?

What can I _____ between _____ variance _____ genetic issue?

_____ tell _____ the _____ variations _____ the _____ genetic issues?

I _____ to _____ how _____ differentiate between _____ Variations _____ Genetic _____.

I _____ to _____ to _____ between a _____ disorder that _____ and a _____ does not.

Can _____ the _____ natural variation _____ genetic disorders?

Is _____ between natural _____ and _____ treatable disorders?

How _____ between _____ a genetic disorder?

Is _____ a way to _____ alterations and _____?

_____ there a _____ typical variations and _____ warrants care?

Can you _____ a natural variation and _____?

I _____ to know _____ distinguish _____ a genetic disorder _____ needs treatment _____ a variant _____.

Can _____ tell the difference _____ variation _____ a _____

How _____ you determine if _____ normal _____ a genetic _____?

Has _____ way to distinguish _____ hereditary problems?

_____ you determine _____ abnormality is _____ variation or a _____ genetic _____?

_____ we _____ normal variations _____ for _____ a genetic disorder?

_____ a _____ if _____ is _____ diversity or a _____ ailment?

____ am interested ____ distinguish between ____ variations and genetic ____.
 Can ____ types of ____ issues?
 ____ can you ____ are normal ____ and ____ disorders?
 I ____ to ____ difference between ____ genetic disorders ____ treatment.
 How can ____ distinguish a ____ variation?
 ____ can you tell if you ____ a ____ normal.
 ____ know how to ____ normal ____ from ____ requiring treatment
 How ____ decide ____ an ____ a ____ variation ____ a genuine ____ disorder?
 Can you ____ me ____ between ____ typical variation ____ a genetic ____?
 Does ____ possible to ____ between ____ genetic disorders?
 How ____ you tell ____ genetic disorders?
 How ____ you ____ an abnormality ____ variation or ____ genetic disorder.
 Tell me how ____ from ____ disorders.
 ____ you tell ____ or if it's a ____ problem?
 ____ want to know how ____ normal ____ from ____ requiring ____.
 ____ tell whether a ____ issue ____ intervention or not?
 How ____ tell ____ normal variation ____ disorder?
 ____ to know ____ to ____ if ____ normal variation and a ____.
 What is the ____ issue that ____ intervention and ____ variation?
 I wanted ____ how ____ variations from ____ requiring treatment.
 How ____ tell ____ difference between a ____ issue ____ variation?
 ____ it possible to tell ____ normal ____ disorder?
 Are ____ able ____ distinguish between ____ and hereditary ____?
 Are ____ any ways ____ if something ____ normal or ____?
 ____ normal variances ____ defects?
 ____ ways ____ distinguish ordinary alterations and hereditary ____?
 Can you tell ____ to differentiate between ____ variations ____?
 How ____ separate ____ flukes from genetic ____ that ____ fix?
 Is it ____ distinguish normal variation ____ treatment-needed ____.
 Is it ____ tell ____ something ____ normal ____ genetic problem?
 Can you ____ how you ____ variations ____ genetics ____ treatment?
 ____ like ____ know how ____ differentiate between ____ genetic disorders.
 ____ need ____ to distinguish ____ a ____ treatment and a ____ that is nothing more than.
 Is it ____ diversity ____ genetic ____ that ____ attention?
 Is it ____ decide ____ natural ____ and genetic ____?
 ____ between natural and ____ issues?
 ____ tell ____ you ____ genetic disorders?
 How ____ you ____ normal variance ____ genetic ____?
 Can you help us ____ variations ____ disorders?
 What ____ to ____ apart normal ____ and genetic ____?
 Can ____ tell ____ it is natural ____ a ____ attention?
 ____ between typical variances and medically ____ gene ____?
 ____ do ____ know ____ is ____ or a genetic ____?
 How ____ tell ____ with a ____ disorder or ____ variation?
 What ____ be done to ____ from ____ condition?
 ____ it possible ____ apart variations from ____?
 How ____ tell ____ regular fluctuations ____ underlying ____ disorders?
 ____ do ____ tell ____ between normal variation ____ genetic ____?
 ____ separate everyday flukes from ____ that ____ fixing?
 How do ____ is normal variation or ____ disorder?

Is it natural _____ a gene-related _____?

_____ a genetic or _____ disorder?

Any ideas on _____ distinguish _____ hereditary defects?

Is _____ feasible to _____ natural fluctuations _____ genetic _____?

I want _____ know _____ you differentiate _____ genetics required _____.

_____ to _____ how you differentiate between _____ and genetics _____.

Can _____ tell _____ and normal variation?

Is _____ difference between _____ treatment-needed genetic _____?

_____ want to know how to _____ a normal variation and _____ need _____ treated.

Do you _____ the difference between usual _____?

What _____ tell _____ difference between typical _____ and _____ disorders.

_____ tell apart regular _____ genetic disorder.

_____ it _____ separate everyday flukes _____ that needs fixin'?

_____ tell different _____ of genetic _____?

Do you _____ a way _____ typical _____ from _____?

_____ it possible to _____ between _____ fluctuations and _____?

_____ want _____ know _____ you _____ variations _____ genetics required for _____.

How can _____ normal variation _____ disorder?

Can you help _____ between _____ genetic disorders?

How _____ you _____ and normal variation?

How _____ you _____ genetic _____ and normal _____?

_____ would _____ to know _____ between _____ disorder that _____ and a variation that does _____.

_____ want to _____ to _____ that needs treatment _____ a _____ that is _____ more than.

The difference _____ Gene diseases?

How _____ you _____ between normal _____ disorders?

I _____ to know how _____ normal _____ and _____ requiring _____.

How _____ tell _____ difference between regular _____?

Distinguishing _____ from genetic _____?

I _____ how to tell between _____ disorder _____ needs _____ and a _____ that is _____.

_____ you tell _____ an abnormality is _____ variation _____ genuine genetic _____?

The _____ between regular variation _____?

How _____ tell between _____ variability and a _____?

Is that _____ distinguish between natural _____ disorders?

How _____ abnormality is just _____ variation or a _____ disorder?

How _____ you differentiate between _____ disorder _____ variations?

Is _____ normal fluctuations and _____ diseases?

_____ can _____ difference between _____ and genetic disorders?

_____ is the _____ typical _____ important gene defects?

_____ there a _____ to _____ if something is _____ genetic _____?

Identifying normal variations _____ treatment

How _____ tell _____ is _____ regular or a _____?

_____ normal differences or hereditary _____?

Can you _____ us _____ between normal _____ genetic _____?

_____ want to know _____ distinguish _____ from genetics _____ treatment.

_____ distinguish between _____ genetic syndromes?

What is _____ difference _____ versus _____ for a genetic _____?

_____ to _____ how _____ between normal _____ and genetic disorder.

_____ determine if the _____ diversity or _____ to _____ genes?

_____ it possible _____ differentiate between a _____ genetic issue?

_____ want _____ know how you differentiate _____ genetic _____ and _____

_____ regular _____ and gene diseases?

How do _____ variation _____ disorder?

Can _____ tell me _____ it's _____ it's a genetic _____?

What are _____ distinguish _____ alterations _____ problems?

_____ you _____ difference between normal variation _____ genetic _____?

_____ tell me _____ the difference _____ variations _____ genetic _____ that require _____?

_____ you determine _____ is normal or genetic?

How _____ you _____ between _____ and a _____ disorder?

How _____ _____ genetic disorders?

_____ it _____ to tell _____ differences from _____ disorders that _____?

Is _____ to tell _____ the typical variations _____ issues?

Do _____ about differentiating _____ variation from _____ genetic _____?

How _____ identify _____ variations _____ needing treatment?

How do _____ _____ and treatment for _____ genetic condition?

_____ to distinguish _____ and _____ disorders.

_____ tell between _____ genetic disorder and a _____?

Can _____ how to _____ between typical _____ and _____ disorders that _____?

_____ do you differentiate between normal variation _____?

Can _____ tell the difference between natural _____?

How can _____ between normal variance _____ a _____?

How do _____ between _____ and _____?

Do _____ know how to _____ normal variations _____?

Normal variation vs _____ separates _____?

_____ you tell _____ about how _____ discern _____ and _____ variations?

_____ know how to distinguish regular _____?

_____ you tell _____ genetic _____ requires _____?

_____ to _____ if you differentiate normal _____ genetics _____ treatment.

I _____ to _____ if _____ normal variation and a genetics need _____.

_____ distinguish between _____ fluctuations _____ diseases?

What can _____ do _____ distinguish everyday _____ from _____ disorders _____?

Tell _____ between normal _____ treatment needed _____ disorders.

What _____ you _____ between genetic _____ normal variation?

Can _____ the _____ of genetic issues?

_____ you know how _____ tell between _____ or _____?

How _____ you tell _____ you're _____ genetic _____ or _____?

_____ a _____ disorder different from normal variations?
