

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Repair and Maintenance Companies
Inquiry Category	Garage door opener troubleshooting
Inquiry Sub-Category	Opener not working after power outage
Description	Customers find that their garage door opener does not work after a power outage. This category provides guidance on diagnosing and resolving power-related issues to restore the opener's functionality.
Data Size	6,727 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Repair and Maintenance Company" customer inquiry. (Purchased data will not be masked.)

_____ remote-controlled gate mechanism operate _____ experiencing an electrical _____?
 There _____ electrical problem that _____ automated _____ functioning.
 _____ is _____ opening since _____ problem.
 Gate _____ electrical glitch
 Help? _____ mechanism was _____ electrical malfunction.
 _____ remote _____ is _____ after _____ electrical _____.
 _____ why _____ disruption _____ the gate?
 The _____ respond to _____ after the electric _____.
 _____ electrical _____ remote _____ won't work
 After _____ gate won't work.
 The _____ our automated _____ to stop _____.
 _____ work _____ power issue?
 _____ electrical disruption recently _____ gate mechanism will not _____ anymore.
 Our _____ gate doesn't work _____ of power _____.
 Since the _____ what has _____ the _____ opening?
 Why _____ gate functional anymore _____ event?
 _____ gate is _____ functioning due to _____ issues.
 Gate no _____ power _____?
 Gate _____ last power _____.
 _____ an electrical issue and _____ remote _____ work.
 _____ gate _____ work anymore _____ of _____ interruption.
 There _____ power _____ that _____ our automated _____ working.
 _____ gate stopped _____ the _____ problem.
 Our gate _____ work _____ disruption.
 There _____ a power _____ which _____ our _____ control _____ working.
 We can't _____ why _____ zapped _____ gate _____.
 Our _____ stopped work after _____ screw-up, how _____ it?
 _____ remote-controlled _____ is _____ to recent electrical issues.

_____ gate _____ after the electricity _____?
 Due _____ electrical issues, _____ entrance is _____ operating.
 Is _____ malfunctioning _____ to the _____ going _____?
 _____ problems _____ gate to malfunction.
 _____ remote _____ won't _____ electrical problem.
 The _____ responding _____ remote because _____ an _____ issue.
 _____ clear _____ electrical _____ zapped the gate _____.
 _____ right _____ maybe it was lost _____?
 _____ disruptions, why isn't the _____?
 Gate stopped _____ due to _____.
 The _____ of the power problems.
 _____ our _____ stop _____ after _____ disruption?
 _____ remote operated _____ work after _____ power disruption?
 _____ due to recent _____.
 _____ had _____ problem that stopped our _____ functioning.
 _____ gate _____ after _____ electrical disruption.
 _____ was _____ electrical disruption that stopped _____ from _____.
 Gate _____ right now, maybe _____?
 _____ won't the remote _____ gate work _____ because _____ the _____?
 _____ electric interruption _____ my gate system, can _____?
 _____ a power _____ remote _____ gate stopped _____.
 The _____ mechanism will _____ operate _____ electrical disruption.
 Our gate _____ not working _____ the _____ problems.
 _____ the recent _____ disruption, _____ caused _____ automated gates _____ stop working?
 The gate _____ electric _____.
 Our _____ stopped _____ power issue.
 We had a _____ and _____ stopped working.
 What _____ the _____ working _____ exposure to _____ voltage?
 _____ caused our gate mechanism _____ to operate.
 _____ recent _____ issue, what's the _____ our _____ gate?
 Why did our _____ when _____ was _____ problem?
 Gate _____ after _____ issue?
 _____ functioning _____ the power incident.
 _____ after a electrical _____?
 _____ gate can't _____ because of _____ recent electric problem.
 _____ the _____ entryway stop _____ after a power _____?
 _____ isn't the _____ functional _____ shock?
 _____ won't the gate open?
 _____ the _____ has _____ gate stopped _____?
 _____ isn't our electronic _____ after _____ goes off?
 _____ the gate open _____ electrical _____?
 _____ isn't _____ mechanism of _____ gate operating anymore _____ electrical _____?
 The _____ amidst electric _____.
 Gate _____ work _____ power?
 The automatic gateway _____ electrical issue.
 Gate stuck _____ to _____.
 Our remote-controlled gate _____ will _____ anymore _____ of an _____.
 _____ problem, why isn't _____ gate _____?
 _____ come the _____ stopped _____ electric trouble?
 _____ not _____ after _____ issue.

_____ after the recent electrical issues.

We had _____ power issue that _____ our _____ to _____.

_____ will not _____ the _____ glitch.

Why did the _____ shut down _____ off?

The _____ to _____ remote due to _____ electrical _____.

_____ is the _____ functional after the electricity _____?

_____ remote-controlled gate is _____ longer working _____ power _____.

_____ won't _____ after the _____ glitch?

The _____ stopped functioning after _____ with the _____.

Why electrical trouble _____ system _____ clear.

_____ electric _____ our _____ from functioning.

Since _____ disruption, _____ our remote-controlled _____ not working anymore?

The remote-controlled _____ isn't _____ anymore because of _____.

The _____ might be _____ an electrical problem.

_____ gate _____ malfunctioning after the _____.

_____ will our remote _____ not _____ the power disruption?

_____ the gate functional _____ an electricity _____?

Why can't our _____ an electrical _____?

Why _____ gate open _____ remote after the _____?

The _____ stopped functioning _____ electrical _____.

_____ gate is not _____ of _____ issues.

_____ did _____ remote-controlled _____ stop _____ after a power _____?

There _____ an electrical _____ stopped _____ automated _____ functioning.

The _____ gate is malfunctioning _____ of _____ electrical _____.

_____ remote _____ is not _____ after the _____.

Since _____ electric _____ occurred, _____ gate mechanism fails _____.

A _____ problem stopped our _____.

_____ for _____ remote-controlled _____ that _____ after an electricity failure?

Why isn't _____ after _____ event?

_____ no longer _____ our remote-controlled _____ due _____ electrical _____.

Is _____ the power going down?

_____ made _____ gate stop amidst _____?

The _____ entrance _____ due to recent electrical _____.

The _____ controlled gate _____ working after _____.

Why did _____ with electricity _____?

_____ gate won't _____ after _____ electrical _____.

_____ is remote _____ caused by _____?

After an _____ problem, _____ come our _____ gate _____?

_____ won't _____ to its remote _____ electric problem.

Why does _____ electronic gateway _____ function _____ a _____?

_____ the gate _____ amidst electric _____?

_____ did our remote _____ stop working _____ the _____?

The _____ working after _____ electrical disruption.

_____ our way-in _____ down _____ to _____ electric shock?

_____ fix for _____ automated gates _____ stopped working _____ of the _____ disruption?

Why isn't _____ gate _____ there _____ an electrical _____?

_____ did _____ electrical hiccup ruin _____?

We _____ electrical _____ wrecked our _____ mechanism.

Our mechanism fails _____ the _____ glitch _____.

The _____ to have stopped _____ after _____ electrical _____.

Gate no _____ have lost _____?
 _____ now, maybe it is _____?
 _____ a power _____ be causing _____ entryway to stop working.
 _____ did the remote control not _____ the _____?
 _____ an electrical hiccup which _____ gate _____.
 Our _____ stopped _____ because _____ a problem _____ power.
 Since _____ power _____ Gate _____ working.
 _____ open now _____ a _____ outage.
 There was _____ power disruption _____ caused _____ gate _____.
 _____ the mechanism of _____ not working anymore after _____ electrical _____?
 _____ come our _____ isn't functioning _____ electrical disturbance?
 _____ the _____ because of _____ power _____?
 _____ recent power _____ caused _____ remote- controlled _____ stop _____.
 _____ automatic gateway _____ working due _____ disruption.
 Gate isn't _____ since _____ a power _____.
 _____ an _____ issue, _____ remote _____ work.
 _____ isn't _____ after _____ electrical glitch.
 Gate ceased _____ work _____ issue.
 Gate _____ stopped, _____ because _____ lost _____.
 We have _____ gate that _____ an _____ problem.
 The gate _____ respond to its _____ after _____ an _____.
 _____ happened _____ remote-controlled gate _____ power interruption?
 _____ gate _____ after an electrical _____.
 _____ when the _____ working _____ a power disruption?
 _____ gate stopped working _____ problem?
 _____ remote _____ gate work anymore after _____ interruption?
 Our gate _____ after _____ power _____.
 _____ couldn't _____ to its remote _____ of an _____.
 _____ mechanism _____ after _____ power fault.
 I'm not sure _____ electric gate _____ it doesn't _____.
 _____ mechanism fails to _____ since the _____.
 Why _____ not _____ after _____ disruption?
 The _____ after a _____ power issue.
 The recent _____ disruption has _____ malfunction.
 The _____ won't _____ to _____ when there is an _____.
 Recently electrical issues _____ from functioning.
 _____ gate doesn't _____ anymore because _____ power problems.
 After _____ bad _____ the gate cooperate?
 _____ doesn't _____ work after the power _____?
 _____ is _____ working despite _____ power _____.
 The _____ of the _____ gate is _____ anymore _____ an _____.
 There _____ an electrical problem that _____ prevent _____ gate _____.
 _____ mechanism _____ because of the _____ failure.
 _____ work now _____ power?
 _____ our gate not _____ after _____ problem?
 _____ lousy electrical glitch, why _____ our _____ gate _____?
 The remote-operated _____ since _____ had an electric _____.
 _____ an _____ our fancy gate cooperate?
 _____ gate isn't _____ after an _____.
 Our gaiter _____ after _____ glitch.

_____ couldn't work _____ last power _____.

We have _____ problem _____ the _____ stopped _____.

What caused the _____ working after the _____?

Why _____ our _____ gateway _____ the power _____ out?

_____ figure out _____ zapped our gate _____.

Our _____ isn't _____ anymore _____ of _____ power _____.

Power _____ our _____ gate to malfunction _____.

The _____ issue caused _____ to _____.

Since the electric _____ mechanism _____ operate.

_____ remote-controlled _____ working after _____ power _____.

Why did the _____ shut down _____ of _____?

_____ a gate _____ will _____ an electrical problem.

_____ happened _____ automated gate _____ the electrical _____?

Gate didn't open _____ the _____.

Our _____ entryway _____ after a _____ issue.

_____ working after _____ power fault.

_____ because of the _____ outage.

_____ because of power going crazy?

Since _____ disruption, _____ aren't _____ working?

After an _____ what _____ with the _____ gate?

_____ now, what happened to _____?

Our _____ gate _____ not _____ anymore _____ to power _____.

Gate _____ working due _____ last _____.

_____ caused _____ to _____ after _____ power went out?

The _____ electrical disruption _____ have caused _____ to _____ working.

_____ why _____ broke the electronic gate?

_____ work _____ is it because _____ power?

Why _____ the remote _____ not _____ after _____?

After _____ an _____ disruption, _____ is _____ gate not working _____?

After an _____ our _____ won't _____.

_____ gateway doesn't function _____ power _____.

The _____ gate stopped _____ a recent _____ disruption.

I can't _____ out why _____ trouble hit _____.

Why _____ gate cooperate _____ the electrical _____?

The _____ disruption disrupted _____.

_____ disruption, why _____ gate worked?

_____ a _____ our remote _____ gate _____ working

_____ glitch, our fancy remote controlled _____ won't _____.

Has _____ that _____ not working anymore because _____ problems?

I _____ help with _____ remote gate _____ work _____ an _____.

Help _____ mechanism was ruined _____ an electrical _____.

The _____ remote mechanism stopped _____ malfunction.

Our _____ functioning _____ to _____ electrical _____.

The gate _____ went off.

After _____ electrical issue, what is wrong _____?

Why is our _____ gateway _____ after _____ power _____?

_____ an _____ disruption, why _____ be opened with _____ remote?

Our remote-controlled _____ has _____ to _____ problems.

_____ will _____ respond _____ the remote now _____ an electric problem.

Is anyone _____ of _____ for our malfunctioning _____?

Why isn't _____ an electricity _____?
_____ recent power _____ could be _____ reason our _____ entryway _____.
We experienced _____ recently _____ why _____ the gate _____ anymore?
Why _____ after an electrical _____?
The _____ won't _____ after an _____.
_____ problems _____ control gate _____ working.
Since _____ what's _____ our gate _____ opening?
The _____ mechanism stopped working _____ the _____.
_____ isn't _____ of _____ power outage.
_____ automated gate stopped _____ there _____ electrical problem.
_____ no _____ at _____ moment, _____ power?
What _____ wrong _____ our gate _____ an _____?
_____ gate _____ won't operate anymore because of _____.
_____ automated Gate _____ working after _____ high voltage?
_____ stopped functioning since the _____.
_____ aware of _____ for our malfunctioning _____ gates?
Since the _____ what has _____ our _____ opening?
_____ work since the power _____.
After _____ electrical _____ the _____ won't _____.
Gate stuck _____ recent _____.
_____ our _____ open _____ an _____ incident?
_____ may have stopped _____ a power issue.
After _____ lousy electrical _____ why won't _____ cooperate?
_____ electric _____ prevents _____ gate _____ from _____.
_____ electrical glitch, why wouldn't our _____ remote-controlled _____?
The _____ gateway stopped _____ due _____ noise.
_____ opening because _____ a power _____.
_____ gate has _____ malfunctioning _____ electrical issue.
_____ power _____ and the gate _____ functioning.
_____ fail _____ to the _____ disruption?
_____ automated _____ after a power _____.
_____ will not _____ its remote, _____ an electric problem.
After _____ electrical _____ our fancy _____ gate _____ work.
_____ was a recent _____ disruption which _____ to stop _____.
_____ is _____ gate not working _____ the _____?
Our _____ controlled entrance is _____ working _____ issues.
After an _____ problem, _____ gate won't _____ to _____.
After an _____ our _____ work.
_____ opening _____ after the _____ went _____.
The _____ doesn't work _____ issues.
The _____ of _____ remote-controlled _____ working anymore _____ an _____ disruption.
Why _____ after _____ electrical malfunction?
_____ is malfunctioning since the _____.
_____ gate's _____ after the power problem.
_____ will not _____ an electrical _____.
_____ no work _____ now, _____ power.
There is _____ electrical problem _____ will _____ the _____.
_____ the gate _____ stop functioning _____ the power _____?
Why _____ the _____ gate functional _____ an _____?
The gate _____ after _____ problem.

The ____ gate stopped ____ after _____.
 The ____ gate stopped ____ after _____.
 The remote control _____ malfunctioning _____ of a _____.
 _____ a _____ issue, _____ did our automated _____ stop _____?
 _____ gate _____ functioning _____ a power _____.
 There _____ a power _____ that caused _____ automated entryway _____.
 There _____ an _____ stopped our gate from _____.
 _____ power issue _____ our _____ gate from _____.
 The gate wasn't _____ to the remote _____.
 There _____ an electrical _____ with _____.
 The remote _____ gate _____ a _____ problem.
 _____ electrical _____ our _____ gate isn't working properly?
 _____ longer works _____ last _____ issue.
 The _____ stopped _____ the _____ power interruption.
 _____ trouble caused the _____.
 _____ the gate _____ anymore after _____ recent electrical disruption?
 _____ killed the gate _____?
 _____ gate _____ open _____ electrical accident.
 After _____ electrical issue, _____ the problem _____ our _____ gate?
 _____ electric disruption messed up my _____ system; _____?
 _____ the remote-controlled _____ not _____ anymore because of an _____ disruption.
 _____ mechanism fails _____ the electric glitch.
 _____ our remote gate _____ functioning?
 _____ broke _____ to an _____?
 An _____ halted _____ gate.
 Has _____ that _____ gate doesn't work anymore _____ problems?
 _____ stopped _____ of _____ electrical fault.
 The _____ is malfunctioning _____ recent _____.
 _____ come our _____ gateway _____ the _____ goes out?
 After _____ power problem, our _____ stopped _____.
 The _____ our _____ working _____ of an electrical _____.
 There was power _____ our electric gate _____ work.
 _____ glitch has _____ our _____ mechanism to _____.
 The remote-operated gate _____ not _____ incident.
 Why didn't our _____ after _____?
 The remote-controlled _____ isn't working _____ the power _____.
 _____ is _____ of _____ power problem.
 _____ stuck _____ recent electrical _____.
 Is it because of _____ disruption _____ is no _____?
 _____ simple question: _____ our _____ gate is malfunctioning?
 _____ it _____ electric _____ killed our _____ motor?
 We _____ an electrical problem that _____ to _____.
 _____ open _____ the electrical problem?
 Gate's remote mechanism _____ because _____ the _____.
 _____ our gate malfunctioning after _____?
 _____ gate _____ the electric disruption.
 _____ after the power failed.
 The _____ entrance _____ due to _____ issues.
 _____ gate wouldn't _____ to its _____ an electric _____.
 _____ gate is _____ after the _____.

The fancy _____ cooperating after an _____.

_____ gateway stopped functioning _____ due to an _____.

_____ had _____ problem and the gate _____.

_____ power problem caused _____ remote _____ to stop _____.

Why isn't _____ of _____ gate _____ after experiencing an _____?

The gate _____ to the _____ because _____ problem.

_____ got _____ electrical _____ with _____ remote _____.

_____ contraption break _____ because of _____ shock?

After _____ malfunction, _____ the _____ open with _____ remote?

_____ no _____ now, perhaps _____ power?

_____ the remoted-operated _____ anymore _____ electricity?

The _____ hasn't _____ since _____ power _____ out.

There _____ power issue that may _____ to stop working.

_____ the _____ mechanism _____ the electric glitch?

_____ remote gate _____ problems after _____.

The remote-controlled _____ has _____ recently due to _____.

Is _____ an _____ fix _____ automated _____ because _____ the recent electrical disruption?

_____ automated _____ stopped _____ the electrical _____.

_____ had _____ disruption _____ and _____ gate _____ no _____ functioning properly.

_____ gate _____ not cooperate after _____ electrical _____.

The _____ our remote-controlled _____ isn't _____ anymore after _____ disruption.

_____ remote gate _____ of electrical _____.

There's _____ electrical problem _____ a _____ work.

_____ working after _____ issues.

After the power _____ the _____ stopped _____.

_____ isn't our remote-controlled _____ after experiencing an _____?

_____ experienced an _____ disruption _____ our gate mechanism won't _____.

A _____ no longer _____ due _____ power problems.

_____ no longer functioning because of _____ issues.

The automated _____ after _____ problem.

Is _____ familiar _____ the reason _____ our _____ gates?

_____ gate _____ working _____ power trouble.

The electric _____ our gate mechanism _____ fail _____.

_____ is the _____ gate malfunctioning?

Is it because of _____ the _____ is _____ longer functioning _____?

_____ no _____ now, may be _____ power.

_____ a power problem, _____ gate _____.

_____ an electrical _____ didn't our gate _____ the _____?

Why didn't our _____ function after the _____?

_____ gate _____ after an electrical _____.

_____ electrical hiccup _____ gate _____.

_____ won't our _____ mechanism work _____ after an _____?

_____ electric _____ down our contraption?

Is the gate broken _____?

Why _____ our _____ open with the _____ problem?

Is _____ an easy fix _____ that caused automated gates _____ working?

Why does _____ us _____ the gateway?

The remote-controlled _____ is _____ longer functional _____ issues.

_____ gate stopped _____ recent power _____.

What _____ to _____ after the electrical _____?

_____ after an electrical _____.

The remote-controlled _____ after _____ power _____ out.

Gate _____ opening anymore because _____.

_____ fancy _____ cooperate _____ an electrical glitch?

A _____ problem _____ remote _____ gate _____ working.

_____ gate _____ respond to the remote now _____ electric problem.

The _____ operated gate won't _____ after _____ failure.

Is there an _____ fix _____ gates _____ stopped functioning _____ electrical disruption?

_____ gate is unable to _____ to the _____ of _____.

_____ gate isn't working after _____?

Gate _____ anymore because _____ loss.

After a _____ electrical _____ why don't _____ remote-controlled _____?

The _____ gate _____ because of the _____ disruption.

_____ now that power _____ lost?

Why _____ remote _____ gate work _____ the power _____?

_____ an electrical disruption _____ why won't our _____ mechanism operate _____?

Is _____ because _____ the _____ gone out?

An _____ cause a _____ gate _____ stop working.

_____ the electric _____ our mechanism _____.

The remote-controlled _____ not work _____ to the _____.

There is _____ problem that _____ remote control gate _____.

_____ simple _____ come _____ gate isn't functioning _____ electrical problem?

The _____ stopped _____ after _____ problem.

_____ won't cooperate after _____ glitch.

Why _____ the _____ our gate not _____ anymore after the _____?

Our _____ isn't _____ due _____ disruption.

After _____ electrical _____ the remote gate _____ work.

The _____ respond _____ due to _____ electric problem.

Why _____ the _____ anymore, after _____ electrical disruption?

The _____ working due to _____.

The gate _____ respond to _____ electric problem.

_____ the _____ cooperate _____ the _____ glitch?

_____ gate is failing since _____.

_____ gate _____ won't _____ anymore _____ the electrical disruption.

_____ automated gate _____ electrical issue.

_____ there _____ reason _____ our remote-operated gate is _____?

Our remote _____ entrance _____ longer open _____ to _____ issues.

_____ because of _____ power failure.

_____ the _____ issue, why _____ gate _____?

_____ has _____ our gate mechanism _____ working.

_____ to recent electricity _____

An _____ problem will _____ remote _____ working.

Gate _____ work _____ maybe _____ of _____?

_____ mechanism _____ not operate anymore _____ to _____ disruption.

_____ gate _____ from _____ going out?

Why isn't _____ after the _____ went _____?

_____ doesn't _____ after the _____ problem?

_____ electric _____ messed up _____ system.

The electricDisruption messed _____ my _____.

Has _____ that our gate isn't _____ anymore _____ to _____?

The remote _____ entrance _____ longer _____ of recent _____ issues.
_____ an electrical disruption, _____ the _____ not operating anymore?
_____ gate is malfunctioning _____ recent _____.
Why was _____ shut _____ disruption?
_____ don't _____ why _____ zapped the gate _____.
_____ automated entryway stop working after _____ problem?
_____ issues are _____ why our _____ entrance is _____ functioning.
Why was the _____ when _____ electric _____?
The _____ isn't _____ power issues.
Why _____ gatefunctional _____ electricity incident?
Why _____ remote _____ not work _____ after the _____ disruption?
_____ was _____ power issue _____ could _____ automated _____ to stop working.
Our _____ after the _____ disruption.
_____ know _____ the _____ works anymore due _____ power problems?
_____ wouldn't _____ fancy gate _____ after _____ glitch?
Our _____ working _____ power problems.
Why was _____ ruined _____ issue?
The automatic _____ to an _____ glitch.
Why doesn't _____ power issue?
_____ won't the _____ gate _____ anymore after _____ disruption?
_____ entrance _____ no longer _____ because _____ recent electrical issues.
Gate _____ opening _____ since _____ a power _____.
_____ after electrical _____?
Is _____ of electric trouble?
Recent electrical issues _____ caused _____ entrance _____ functioning.
The _____ is not _____ after _____.
Our _____ after an _____ problem.
Our gate isn't _____ the _____.
_____ electrical _____ how come our _____ gate isn't _____?
_____ control gate _____ a problem.
After _____ lousy _____ don't our _____ cooperate?
_____ lately have caused our _____ to _____.
_____ mechanism _____ gate _____ because of an electrical _____.
_____ electronic gateway _____ the power glitch?
_____ the _____ functional _____ the electrical _____?
Why did _____ electric trouble?
_____ our _____ stop working _____ being exposed _____ high voltages?
_____ isn't opening anymore because _____.
_____ gate will not _____ to its remote _____ problem.
Our remote controlled gate doesn't _____ anymore _____.
_____ gate _____ respond to _____ it had _____ electric problem.
_____ remote _____ gate _____ anymore after _____ power disruptions?
_____ know _____ our gate mechanism failed because of _____?
Repairs need _____ made _____ remote-controlled entrance _____ went _____ an _____ failure?
After an electrical _____ why _____?
_____ fancy gate _____ a bad electrical _____.
_____ work since _____ power issue.
_____ gate broken because _____ the _____ go _____?
_____ mechanism of _____ remote-controlled _____ is malfunctioning _____ experiencing _____ disruption.
After _____ malfunction, _____ remote _____ work.

_____ issues _____ caused the remote _____ entrance _____ longer operate.
 _____ a power _____ that stopped _____ automated _____ from _____.
 _____ the _____ stop functioning _____ the _____ disruption?
 Why doesn't the gate open _____ electrical _____?
 _____ gate mechanism had _____ disruption _____.
 _____ an electrical _____ the remote-controlled gate _____ won't _____.
 _____ the _____ stop amidst electric _____?
 _____ electricity interruption, _____ gate functional?
 The remote control _____ the power problem.
 _____ disruption break the _____?
 The genius gate _____ work after _____ screw-up, how _____?
 Gate _____ opening since _____ went _____.
 _____ is the remote-controlled _____?
 A power _____ the _____ control _____ from _____.
 _____ it because _____ electric disruption that _____ remote-operated gate is _____?
 The fancy remote-controlled _____ work _____ glitch.
 The remote _____ after an _____.
 Gate _____ work now, maybe _____?
 _____ our gate _____ after _____ malfunction?
 Can't _____ gate now, _____ of _____?
 There was _____ power _____ and _____ automated _____ working.
 _____ is _____ electricity problem.
 _____ broke _____ a problem _____?
 Why isn't our remote _____ working _____?
 There _____ power issue _____ be causing the _____ entryway to _____.
 _____ has our gate stopped _____?
 _____ is an electrical _____ that will _____ the _____ to _____.
 _____ our gate open _____ electrical _____?
 _____ problems _____ remote-controlled gate to no _____ work.
 There is a _____ may _____ our automated _____ to _____ working.
 _____ fancy gate will not _____ glitch.
 _____ stopped _____ of electrical noise.
 _____ power _____ the remote-controlled gate to _____ working.
 The _____ controlled _____ is _____ due to _____ problems.
 _____ the _____ to _____ electric trouble?
 We _____ problem _____ stopped _____ gate functioning.
 Was the _____ trouble?
 After _____ disruption, did _____ gate stop _____?
 Our _____ controlled entrance _____ no _____ working _____ to _____ electrical _____.
 _____ the _____ what is preventing _____ gate from _____?
 _____ electrical problem _____ the reason the _____ work.
 The _____ gate isn't working _____.
 _____ no work _____ and _____ lost _____.
 The _____ is _____ to _____ electric _____.
 The _____ remote _____ stopped working _____ to the _____.
 _____ entryway _____ after _____ recent power problem.
 An electric problem _____ gate _____ respond _____ the _____.
 After _____ glitch, why won't _____ gate _____?
 _____ electrical issues have prevented our _____.
 Why isn't _____ remote-controlled gate _____ after _____ disruptions?

_____ after recent electrical _____.

The gate _____ working because of _____.

A _____ problem halted _____ gate.

_____ the _____ disruption, _____ is _____ working.

_____ gate is _____ after _____ electrical _____.

_____ was a power _____ our _____ entryway _____ stop working.

The _____ functioning _____ the power issue.

Our _____ work _____ an electrical _____.

Since _____ electrical _____ the remote-controlled gate _____ anymore?

_____ not _____ since the _____ problem.

_____ to the remote _____ after _____ electrical _____?

_____ the power _____ why _____ our gate _____ working?

Was the gate _____ the _____?

_____ did our automatic _____ stop working _____ last week?

Why _____ gate _____ after the power _____ out?

What _____ the _____ stopped _____ after the _____ disruption?

_____ fix for the _____ gate that _____ after the _____ disruption?

The gate won't _____ its _____ an _____ problem.

Why _____ the gate _____ with _____ electrical disruption?

Why _____ our _____ cooperating after _____?

_____ won't respond to its remote _____ a _____.

Why _____ open _____ an _____ noise?

How _____ gate _____ after the electrical problem?

The _____ isn't working right _____ electrical _____.

Gate's remote mechanism _____ due _____ the _____.

After _____ our _____ gate won't work.

Our _____ not _____ power glitch.

After _____ electrical _____ why _____ our gate open _____?

Why _____ gate opened _____ an _____?

Is _____ busted _____ of _____ going out?

_____ our gate broken _____ problem?

_____ isn't opening anymore _____ of _____.

_____ you _____ us _____ issue _____ the gate _____ an _____ problem?

There was a power _____ stopped working.

_____ our gate stop working _____ recent _____?

_____ isn't _____ open after _____ issue?

_____ made the _____ gate stop functioning after being _____?

_____ did _____ remote _____ gate _____ functioning after a _____?

The _____ won't _____ of _____ electrical _____.

_____ our gate _____ the _____ trouble?

After an _____ why _____ gate cooperate?

_____ remote- controlled _____ anymore because of _____ problems.

The gate stopped _____ due _____.

_____ an _____ problem _____ caused our _____ to stop _____.

_____ working now, lost _____ or _____?

_____ stuck _____ electricity problem...

_____ remote _____ stopped working due _____.

_____ an electrical _____ a _____ will not _____.

The _____ caused our _____ to _____.

_____ not working _____ the _____ interruption.

Our gate is _____ the _____.

After a _____ electrical glitch, _____ cooperate?

_____ isn't _____ outage allowing _____ to _____ the _____?

After an electrical issue, how _____ gate _____?

_____ amidst electric trouble.

_____ to our remote-controlled gate not _____.

_____ automated _____ stopped working _____ power _____.

Why _____ gate functional after _____ electrical _____?

The _____ can't _____ to its _____ of an _____.

_____ the _____ electrical disruption, why won't _____ work anymore?

_____ open _____ gate _____ the remote after an _____.

The automatic _____ recently due _____ electric problem.

_____ had an _____ glitch _____ ruined _____ gate _____.

_____ no _____ may have lost _____.

Gate didn't _____ issue, why?

_____ gate mechanism _____ electrical hiccup.

An _____ problem will _____ remote _____ won't _____.

_____ can't _____ gate _____ an electrical event?

The _____ functioning _____ the _____ disruption.

_____ is not _____ the power _____.

_____ gate not _____ because _____ the power going _____?

_____ have caused _____ gate to malfunction _____.

_____ the _____ gate stopped working.

The _____ gate has _____ power problems.

The _____ working _____ of _____ power _____.

_____ won't _____ to _____ remote since _____ was an _____ recently.

_____ ideas _____ our gate _____ after the electrical _____?

_____ no _____ now; lost _____?

Is _____ gate broken _____ power _____ on?

Since the _____ disruption, _____ our _____ been _____?

We _____ electric _____ and _____ remote-operated gate _____ malfunctioning.

_____ gate is _____ power issue.

A recent power _____ have _____ entryway _____ stop working.

_____ not _____ electrical glitch.

Gate _____ working after _____?

Gate's _____ stopped functioning _____ accident.

Why _____ gate open _____ noise?

Our automated gate _____ electrical _____.

Why _____ gate mechanism _____ after _____ electrical disruption?

_____ entrance is _____ operating because of electrical _____.

There was an _____ disruption _____ gate _____ with the _____.

_____ was an electrical _____ and _____ automated _____ stopped _____.

_____ there an easy fix for _____ working _____ electrical disruption?

How did _____ remote-controlled gate _____ the power _____?

Is _____ an _____ fix for our automated gates that stopped _____?

Is _____ easy fix _____ automated _____ stopping working after the _____?

Our automated _____ working _____ a _____.

_____ gate system _____ hit _____ trouble.

An electrical problem will prevent _____.

_____ electrical issues have stopped our _____ entrance _____.

The ____ is ____ to a ____ glitch.
 The ____ will ____ open ____ issue.
 Why is ____ gate ____ the ____ electrical ____?
 The ____ the ____ because there ____ an electric problem.
 ____ issues have rendered ____ entrance ____.
 ____ stops working ____ issue.
 ____ gate is not ____ issue.
 Our ____ doesn't ____ after a ____.
 The gate is ____ power ____.
 ____ is ____ longer ____ due to electrical problems.
 ____ was a ____ interruption ____ caused the gate ____ functioning.
 ____ gate will not respond to ____ remote ____ problem.
 Our remote-controlled ____ no ____ operating because ____ electrical ____.
 Our ____ doesn't ____ after ____ power ____.
 Is ____ easy ____ for the ____ that stopped ____ that electrical ____?
 There ____ malfunctioning after an electrical glitch.
 ____ electrical ____ how come the gate isn't ____?
 Our ____ stopped ____ after ____ problem.
 Gate ____ now ____ is lost?
 Our ____ working ____ electrical issues.
 The gate ____ after ____ recent ____.
 The ____ of ____ gate has stopped working ____ an ____.
 Gate stuck after ____.
 ____ no ____ possibly ____ power?
 ____ a ____ issue ____ have caused ____ automated entryway to ____ working.
 ____ stuck ____ problem ____ electricity
 ____ has our remote gate ____?
 How could ____ automated ____ working after ____ issue?
 ____ fancy ____ gate ____ cooperate after ____ electrical ____.
 ____ remote-controlled ____ mechanism ____ work ____ because ____ an electrical ____.
 Since ____ electrical disruption, why ____ our ____ anymore?
 ____ the ____ issue, why ____ not work?
 The ____ won't ____ of ____ electrical ____.
 ____ did remote ____ malfunction ____ power hiccup?
 ____ can't our ____ after a ____ glitch?
 The remote controlled ____ anymore due to ____.
 ____ isn't the ____ operating ____ experiencing an electrical ____?
 The remote ____ stopped working ____ power issue.
 ____ experiencing ____ disruption, ____ won't our ____ mechanism work ____?
 The ____ stopped ____ was exposed to high voltages ____.
 Is ____ gate broke from ____?
 ____ not functioning ____ the ____ issue.
 Why ____ electronic gateway ____ power glitch?
 ____ the gate ____ after a recent ____ disruption?
 ____ remote gate ____ functioning ____ electrical ____.
 ____ does ____ not open ____ an ____ problem?
 Need repairs for ____ down ____ an electrical failure?
 ____ due ____ an electrical problem.
 ____ interruption, how come our remote-enabled ____ isn't ____?
 Why did remote ____ after ____?

Did ____ surge ____ ____ motor?

The ____ failed ____ the electric ____?

____ is ____ responding ____ remote ____ of an electric problem.

____ remote-controlled gate stop ____ after the ____?

____ gate ____ work ____ an ____ malfunction.

Our electronic ____ ____ after a power ____.

____ stopped working ____ electrical issues.

The remote-controlled ____ not ____ due ____ issues.

____ remote ____ functioning ____ to a power problem.

____ gate ____ working because ____ the ____.

____ messed ____ gate system up.

Help?Electrical ____ ruined our ____.

____ the gate stopped ____ electric ____?

____ remote ____ due to ____ power problem.

What is ____ the remote ____ the ____ issue?

____ electrical issue the ____ not ____.

____ to our remote ____ electrical issue?

____ the ____ gate malfunction ____?

____ control ____ stopped working because ____ power problem.

The ____ an electrical issue?

Gate isn't ____ of the power outage, ____ us?

Why ____ operated gate work after the ____?

____ controlled entrance ____ longer operates ____ to recent ____.

____ gate mechanism ____ work ____ since there was ____.

Since ____ electrical ____ is our remote-controlled gate ____?

Why is ____ the gate ____ working ____ the ____ disruption?

Has ____ gate ____ after ____ recent ____ disruption?

____ did ____ automated entryway ____ working ____ the ____ problem?

After an electrical issue, ____ gate ____ the ____.

Gate does ____ issue?

Why isn't ____ power failure?

____ remote-controlled ____ after a ____ disruption.

Gate ____ power problem?

____ may ____ the remote-controlled ____ fail recently?

Why ____ gate ____ after an ____?

After an ____ can't the ____ be ____ with ____ remote?

____ is ____ the power issues.

The ____ stopped ____ electrical interference.

The ____ not working after ____.

The gate ____ respond to ____ due ____ electric problem.

____ stopped ____ due ____ electrical fault.

The remote-controlled gate ____ anymore ____ electrical disruption recently.

____ easy ____ for ____ automated gates that stopped working after ____ recent ____?

A ____ theremote control ____ working.

Gate stuck due ____

____ our gate stopped ____ because of ____ recent ____?

____ theremote ____ after the ____ hiccup?

Since there was ____ recently, ____ gate ____ work anymore?

____ issues have made ____ entrance no ____ operating.

____ is ____ the power issue.

How come our gate isn't _____ correctly _____ ?

Why doesn't the gate _____ the _____ problem?

_____ working _____ electrical issue?

The _____ isn't _____ after _____ power _____.

_____ malfunctioning after an _____ fault.

_____ gate stopped _____ after _____ recent _____.

_____ messed _____ automated gate system

Why isn't _____ gate operating _____ an _____ disruption?

_____ electrical incident, how come _____ functioning correctly?

_____ mechanism _____ our remote _____ gate _____ an electrical disruption.

_____ mechanism of the _____ is _____ the electrical disruption.

_____ gate is not _____ power _____.

Post-power glitch, _____ the _____ function?

_____ the electrical issue, _____ not _____

_____ disruption disrupted my gate _____ can _____ be _____?

_____ gate is _____ the power _____.

A _____ gate doesn't work _____ of _____.

_____ can't the _____ remoted-operated _____ electricity disruption?

Did _____ gate _____ electricity disruption?

After _____ power _____ the remote-controlled _____.

Our _____ stopped functioning _____ electrical _____.

_____ the _____ glitch occurred, our mechanism _____.

_____ the electronic gateway not _____ power problem?

_____ work _____ it _____ lost power?

_____ function after the _____ goes _____.

The gate _____ opening since there _____ an _____.

_____ isn't responding _____ the remote _____ of _____ electrical _____.

_____ electric surge kill _____?

Why doesn't the _____ problem?

_____ isn't _____ gate _____ an electricity shock?

We _____ an _____ why _____ the gate mechanism _____ anymore?

Why was _____ caused by _____ power _____?

Has the _____ stopped functioning _____ disruption?

_____ the remote-controlled _____ power problems?

Our gate _____ be broken from the _____.

Any _____ stopped working after _____ electrical problem?

_____ the mechanism _____ our _____ gate _____?

_____ haven't _____ operated gates worked _____ the _____ disruption?

_____ working after an electrical _____.

The _____ wouldn't respond _____ remote, because of _____.

_____ remote-controlled _____ is _____ because _____ power _____.

_____ remote _____ after an electrical _____.

Is our _____ because _____ power _____?

_____ experiencing an electrical disruption, our _____ mechanism _____ not _____.

_____ power _____ caused _____ gate to stop working.

_____ an _____ the _____ not open with the _____.

Why won't _____ cooperate _____ electrical _____?

Help, _____ hiccup ruined _____.

_____ was a _____ disruption, _____ have caused our _____ gates to _____ working?

_____ is not _____ an electrical _____.

The _____ my _____ gate system.
 An _____ problem _____ prevent _____ working.
 _____ experiencing an _____ disruption, _____ won't _____ mechanism work _____?
 _____ power going _____ is _____ broken?
 The remote controlled _____ longer _____ recent electrical issues
 Why won't our gate _____ after _____?
 Is our _____ malfunctioning because _____?
 _____ automated _____ be fixed _____ the electric interruption?
 Why _____ the _____ functioning after _____ disruption?
 _____ isn't our gate _____ power _____?
 How _____ remote-enabled gate _____ functioning _____ an electrical _____?
 Why is _____ not _____ anymore _____ an _____ disruption?
 _____ did the gate _____ at _____?
 Is _____ remote-controlled _____ not working _____ due _____ the _____?
 _____ working _____ a _____ issue.
 _____ electrical trouble _____ gate system _____?
 _____ glitch _____ the gate _____ from _____.
 Any _____ disruption _____ the _____ gate?
 _____ anymore since there was _____ power _____.
 The _____ has _____ the _____ to _____ work.
 _____ did the remote _____ a power _____?
 _____ entryway stopped working _____ power _____.
 _____ gate stopped _____ because _____ an electrical _____.
 The _____ control _____ malfunctioning _____ a _____ problem.
 _____ gate mechanism _____ operate _____ since _____ was _____ electrical disruption.
 The _____ respond _____ the _____ now that _____ an electric _____.
 _____ our _____ stop working after exposure _____ voltages?
 _____ stopped working _____ the _____.
 _____ mechanism _____ a power issue.
 _____ doesn't work _____ lost _____?
 Our electronic _____ isn't _____ the _____.
 _____ remote _____ isn't _____ after the _____.
 The _____ is malfunctioning _____ issues.
 _____ disruption and _____ be able to _____ our _____ gate mechanism _____.
 _____ gate _____ to have _____ after _____ recent _____ disruption.
 _____ recent power disruption _____ remote-controlled gate to _____.
 The _____ stopped _____ after an _____.
 _____ no work _____ was lost?
 _____ automated Gate _____ functioning _____ being _____ voltage recently.
 _____ electrical _____ zapped _____ gate system _____.
 _____ surge killed _____ gate motor?
 We _____ an _____ disruption _____ remote-operated _____ no longer working correctly.
 The remote _____ functioning after _____ recent _____ disruption.
 _____ remote mechanism _____ working after the _____.
 _____ hasn't _____ remote operated gate _____ the power _____?
 Our gate mechanism _____ work _____ glitch.
 _____ gate _____ working after _____ power _____.
 _____ can't _____ remote _____ after the power disruption?
 Since _____ electrical issue, _____ our _____?
 _____ remote _____ gate _____ after a _____ problem.

Why did ____ remote control ____ our gate ____ electrical ____?
 The gate ____ its remote ____ electric problem.
 There ____ an ____ hiccup that ____ the ____.
 ____ an electrical problem and ____ gate stopped ____.
 The ____ entrance ____ working because of ____ issues
 ____ no ____ now, maybe its ____?
 Why isn't ____ gate mechanism ____ after ____ disruption?
 ____ gate ____ malfunctioning since ____ went ____.
 ____ remote controlled entrance ____ no ____ functioning due ____ recent ____.
 ____ not ____ after the recent ____ disruption.
 There ____ problem and ____ the ____ responding to ____ remote.
 ____ gate ____ work ____ an ____ problem
 ____ power ____ is ____ gate malfunctioning?
 The ____ work ____ due ____ the power issues.
 ____ has ____ a ____ issue ____ has ____ our automated entryway ____ stop ____.
 An electrical ____ our automatic ____ stop running.
 The ____ gate stopped ____ a ____.
 Have you ____ work anymore because ____ the power ____?
 ____ our ____ function after a ____ glitch?
 ____ no work ____ power?
 ____ gate wasn't ____ to ____ due ____ electric problem.
 We had an ____ disruption recently ____ is no ____.
 ____ gate stopped working ____ a problem ____ power.
 ____ hasn't ____ electrical issue.
 ____ now, maybe ____ gone out?
 ____ remote-control ____ work anymore because of ____.
 The ____ messed with ____ automated ____ can it be ____?
 I ____ know ____ electric gate system, it ____ now.
 ____ stopped working because of ____ electrical ____.
 ____ our ____ operated gates ____ the power went ____?
 ____ don't ____ gateway ____ after the power ____?
 Is ____ contraption broken down by ____?
 The ____ respond to the remote ____ an ____.
 ____ last ____ issue, ____ gate ____ working.
 ____ remoted-operated ____ isn't ____ after the ____.
 ____ why isn't ____ gate functional?
 ____ gate ____ not ____ power issue.
 Is ____ gate ____ to the ____ not being ____?
 The ____ glitch stopped ____ gaite ____.
 Since ____ electrical disruption ____ won't ____ gate mechanism operate ____?
 ____ electrical ____ our gate ____.
 The gate ____ electrical issue.
 ____ electrical issue, what is ____ the gate ____?
 Is it possible ____ electric disruption ____ up my ____?
 ____ did ____ stop ____ electric problems?
 ____ gate won't ____ remote ____ having an ____ problem.
 Since experiencing ____ electrical ____ remote-controlled ____ mechanism won't ____.
 Is ____ broken ____ to the power ____?
 ____ isn't open ____ of ____ outage.
 ____ problem, why ____ our ____ open?

____ the ____ ____ does our gate not ____?
 ____ an electrical ____ so why won't our gate ____?
 Why ____ our ____ gate ____ working after ____ electrical ____?
 Why is ____ remote-controlled ____ working ____ that there ____ been an ____?
 We ____ power ____ and the ____ entryway ____ working.
 ____ experiencing ____ electrical disruption, ____ isn't ____ operating anymore?
 Our remote- ____ work ____ due to power ____.
 Has ____ noticed that ____ gate is ____ working ____ problems?
 ____ no work ____ and ____ lost ____?
 ____ gate ____ working because ____ issue
 ____ event, ____ the gate open?
 ____ isn't our gate ____ after a ____?
 Gate ____ power issue.
 There ____ recent ____ issue with ____ gate.
 ____ can't ____ now ____ of lost ____.
 ____ remote-controlled gate isn't ____ anymore after ____ electrical disruption.
 ____ happened ____ the ____ functioning after the power ____?
 ____ our ____ gateway ____ after ____ power glitch?
 ____ remote operated gate ____ after ____ power ____.
 We've had ____ with ____ gate.
 Why ____ the gate ____ problem?
 Since the electrical ____ is ____ gate from ____?
 After ____ failure, our remote control ____.
 Why ____ the ____ on ____ not working?
 Why ____ our gate ____ the ____?
 Gate no work right ____ was ____.
 The ____ after an electrical ____.
 The ____ gateway ____ working ____ electric malfunction.
 The ____ isn't functional anymore after ____.
 After an electrical ____ open?
 ____ not responding to ____ to an electric problem.
 Why is ____ opening ____ the ____ problem?
 ____ an electrical ____ that is ____ our gate ____.
 Recent ____ issues ____ our ____ to be ____ of commission.
 Can the automated gate ____ be fixed ____?
 ____ halted the ____.
 A power ____ the gate ____.
 Did electrical hiccup ____?
 ____ gate ____ experienced an ____ disruption, why won't ____ operate ____?
 The ____ not working after ____.
 ____ genius gate stopped working ____ the ____ how ____ it?
 ____ the gate shut down after ____?
 Did ____ cause our gate motor ____?
 Why is the ____ gate ____ working ____ the electrical ____?
 ____ our ____ the power out?
 The gate ____ down ____ an ____.
 The ____ ruined ____ gate ____
 ____ we experienced ____ recently, ____ won't the ____ operate anymore?
