

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Product specifications and features request
Inquiry Sub-Category	Power requirements
Description	Customers inquire about the power requirements for the telecommunications equipment, including voltage, wattage, and any specific power supply options.
Data Size	7,861 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

How do I _____ current _____ system meets all _____?

Is _____ current _____ the necessary requirements?

How do _____ find _____ if our _____ set-up _____ with _____?

I _____ to check _____ our electrical _____ all requirements.

_____ I know if _____ power _____ is _____ defined _____?

_____ you help _____ assess _____ current _____?

How can I be _____ our _____ requirements?

Can _____ whether or not _____ power _____ requirements?

_____ electricity _____ those requirements?

Is _____ electrical _____ to _____?

_____ confirm _____ power met all _____?

_____ do _____ know if _____ electrical system _____ compliance?

How do _____ our _____ system complies with _____ requirements?

Does the _____ to _____ standards?

_____ need to know _____ our existing _____ setup _____.

We _____ to _____ existing electricity setup complies with _____.

_____ I _____ sure _____ electricity _____ up to standard?

I don't know how to _____ system _____ needs.

_____ can I _____ power _____ works?

_____ possible _____ mandates _____ being met by _____ current electrical arrangement?

Is the _____ with _____?

Can _____ all _____ needs are _____?

Are _____ meeting _____ the electric _____?

_____ there a _____ me _____ verify the _____ setup?

_____ you _____ electrical system's compliance _____ rules?

_____ you know if _____ system _____ adequate to _____ standards?

Let _____ how I _____ make sure _____ power _____ are _____.

_____ the electrical _____ adequate _____ standards?

How ____ I know if the ____ compliance?

____ our electrical ____ tick ____ all the ____?

How can I ____ if our electric ____ needs?

Do our electrical ____ with ____?

____ should I ____ make ____ our power setup ____ working ____?

I need ____ determining ____ electrical ____ compliance with the ____.

____ all ____ by ____ power system?

____ you ____ able to ____ all ____ are met?

Does ____ electrical ____ fulfill ____ its ____?

Does ____ meet ____ requirements?

I ____ help ____ if ____ electrical ____ in compliance with ____.

Are ____ fully addressed in ____?

____ tell me ____ matches all of the ____?

____ the ____ conforming to ____?

How ____ certain ____ infrastructure is ____ to the mark?

Do ____ electricity ____ required ____?

Is ____ to tell if all ____ are ____?

Does ____ electrical ____ its ____?

____ way ____ verify the electrical ____?

____ it ____ that ____ could ____ us ____ if our ____ electrical arrangement ____ all ____ criteria?

Can you ____ me ____ our power ____ all of ____?

I ____ help ____ our current electrical ____ with ____ specifications.

____ you ____ that the current electrical ____?

____ need to know ____ electrical system ____ with ____.

____ our ____ setup ____ the ____ requirements?

____ our ____ follow all ____ rules?

____ our electrical ____ standards?

Is ____ possible ____ determine if certain mandates are ____ our ____?

____ I know if our ____ complies with ____?

____ our ____ essential criteria?

____ you ____ if our ____ electric layout complies ____ requirements?

I need assistance ____ system ____ the specifications.

I need help ____ out ____ our existing ____ specifications.

Can ____ tell ____ if our ____ able to meet ____?

____ the elec-system ____ requirements?

____ meet the electrical ____ in ____?

Can you ____ all ____ been met?

____ it ____ if ____ electrical arrangement complies ____ all the ____ criteria?

____ know ____ the ____ electricity meets ____?

____ current electrical ____ meet ____ the requirements?

We need to ____ our ____ electrical ____ all ____ criteria.

____ you ____ me ____ our current ____ meets all ____ necessary ____?

Can you ____ power ____ with all requirements?

What should ____ to make sure ____ power?

____ system ____ all of ____ obligations?

Do you know if ____ the ____ boxes?

What measures can ____ used ____ with guidelines in ____?

I ____ our electrical mess ____ the requirements.

____ electrical system complying with ____ requirements?

Given ____ current setup, ____ meet ____ needed electrical ____?

Does _____ elec-system meet _____ necessary _____?

How can _____ find _____ if _____ up to par?

Tell me, _____ electricity compatible _____?

_____ you _____ if _____ system complies with the requirements?

_____ the electric _____ compatible _____?

The _____ of our _____ is _____ I _____ check.

How do _____ if the _____ is up _____ par?

Is _____ determine if any _____ mandates are being _____ by _____?

Does the electrical system _____?

Is _____ grid _____ the _____ standards?

_____ the _____ electrical _____ meeting _____?

Can you _____ us _____ the _____ system _____ meet required _____?

_____ out if _____ electric system works?

_____ do _____ electricity _____ demands?

_____ electricity _____ the required requirements?

Does _____ necessary requirements?

_____ we _____ out _____ set-up meshes with the _____?

Can I _____ sure that _____ electricity _____ complies with _____?

_____ our electrical _____ fulfill _____?

_____ the _____ electricity meets demands?

_____ need to find out _____ set-up _____ the _____.

_____ should I do _____ our power _____ ok?

I need _____ if _____ electrical system complies with _____.

We need _____ know _____ matches important requirements.

Are _____ our _____ electrical system _____ up _____ the task?

_____ we _____ current electrical system _____ meet essential _____?

_____ do I _____ out _____ our current _____ with requirements?

_____ know _____ electricity is _____ demands?

Do we meet _____ electrical _____?

_____ the _____ network _____ with essentials?

I _____ know if _____ electric system _____ all of _____.

Can you _____ me _____ of _____ current electrical _____?

Is _____ way _____ make sure that our _____ electrical _____ meets _____?

How _____ know _____ system can meet _____ needs?

Does _____ current _____ system _____ the _____?

Is the _____ criteria right?

Is the _____ in line _____?

Is _____ setup _____ with _____ necessary _____?

How _____ meet all the _____?

Is _____ a way _____ that _____ setup _____ the standards?

_____ you tell me _____ our electric _____ is _____ to _____?

Please confirm if our current _____ layout _____.

_____ our current electrical system _____ for _____ standards?

_____ current elec-system _____ the necessary _____?

Can _____ our current electrical _____ matches the necessary _____?

_____ the necessary _____ requirements for _____ setup?

How should _____ make _____ power setup is _____?

_____ our _____ system _____ required _____?

How _____ I know _____ our _____ is _____ needs?

_____ our electrical _____ off _____?

We need to _____ our _____ electricity _____ prerequisites.
 _____ to determine _____ current electrical system meets all necessary _____.
 Is _____ possible _____ to confirm _____ electricity requirements are _____?
 _____ we find out if _____ fits?
 Does the _____ the _____?
 How _____ electric system _____ fulfilling all needs?
 _____ our current _____ system _____ scratch?
 How do _____ if our current _____ adequate?
 What _____ I _____ make sure our _____ enough?
 Is our _____ setup _____ needs?
 Is _____ electrical _____ standard _____ what _____?
 _____ possible _____ assess if _____ current _____ arrangement _____ all necessary criteria?
 _____ our _____ setup, do we _____ necessary _____?
 _____ you tell me if _____ the electricity _____?
 _____ you _____ me _____ our _____ system works?
 _____ can _____ find _____ our _____ system is in _____?
 Is _____ system _____ for the _____ standards?
 _____ I know if _____ electrical equipment is _____?
 Is _____ those things?
 _____ our _____ system compatible with _____?
 _____ in line with _____ rules?
 _____ do I decide if _____ up to _____?
 Are _____ the necessary _____ our _____ electrical setup?
 _____ should be _____ confirm compliance _____ guidelines in _____ system?
 Is _____ electrical _____ all _____ the _____?
 Can you _____ the required electricity _____?
 How _____ we have _____ power?
 I _____ our electrical _____ complies _____ the specifications.
 Does our _____ all of _____?
 _____ meeting the _____ the _____ system now?
 Is _____ current _____ setup _____?
 _____ all _____ prerequisites fulfilled _____ power _____?
 _____ the existing _____ to meet _____?
 Can you tell _____ the _____ electrical _____ is _____ to _____ standards?
 How can _____ be _____ that our electricity infrastructure _____?
 _____ determine if the _____ system _____ good?
 Can _____ confirm _____ layout complies with all the _____?
 Can _____ tell _____ the electrical _____ are met?
 Is _____ grid meeting required _____?
 How _____ I _____ if our _____ provides all _____?
 _____ there _____ for me to check _____ setup?
 _____ need _____ make sure _____ setup is adequate.
 Is _____ electricity _____ to _____ demands?
 _____ current _____ system _____ requirements?
 Please _____ us _____ electrical _____ complies with all _____ criteria.
 Can _____ tell _____ if _____ is adequate _____ meeting standards?
 _____ you tell _____ if our _____ to all _____?
 _____ can _____ if _____ system works?
 I _____ know if our electrical _____ meets _____.
 We _____ know _____ our _____ complies _____ certain requirements.

Do ____ meet ____ our ____ system?
 ____ you say if ____ setup is ____ standard?
 Do ____ if ____ existing electricity ____ demands?
 ____ like to ____ if ____ electrical ____ complies with ____ necessary ____.
 Can ____ confirm if ____ complies ____ all requirements?
 Are we ____ the ____ standards ____ system?
 Does ____ setup tick all ____?
 ____ anyone confirm ____ layout complies with all ____ prerequisites?
 ____ say ____ electric ____ is up to snuff?
 ____ need ____ confirm if ____ current ____ with all essential ____.
 ____ idea ____ the electric ____ checks ____ the ____?
 ____ the ____ sufficient for meeting ____?
 Can we ____ if ____ set-up fits the ____?
 Will ____ current electrical ____ meet ____?
 We ____ to ____ if ____ electricity setup ____ important ____.
 How can ____ be ____ that ____ electricity infrastructure ____ par?
 ____ it possible ____ if ____ electrical ____ complies ____ the rules?
 ____ would ____ to ____ current ____ setup meets all necessary ____.
 ____ don't know ____ our electrical ____ to standard.
 Given ____ setup, ____ we ____ the ____ electrical ____?
 Is ____ way ____ sure ____ electrical setup is ____ to code?
 How ____ find out ____ power set-up fits ____?
 ____ have to figure out ____ electrical ____ all ____ needs.
 ____ electrical setup meet ____ necessary ____?
 Is our electrical system in ____ with ____?
 ____ we ____ out ____ the power ____ matches the ____?
 Please ____ us if ____ setup is in ____ with the ____.
 Can ____ me ____ electrical system ____ up to snuff?
 ____ do I find out if ____ meets all ____?
 ____ can I ____ if ____ electric system ____ up ____?
 ____ can I ____ certain that ____ electricity ____ up ____ code?
 Do ____ existing ____ setup ____ all necessary criteria?
 ____ setup up to ____?
 We ____ clarification on whether ____ is up ____.
 ____ you ____ that all ____ requirements ____?
 Are ____ necessary ____ met ____ our current electrical ____?
 ____ to ____ if our ____ electricity setup complies ____ requirements.
 Can ____ mandatory prerequisites ____ fulfilled by ____ system?
 ____ we find out ____ power ____ fits our ____?
 ____ are measures ____ confirm compliance ____ for the ____?
 ____ don't know if our ____ system checks ____
 ____ you check to ____ if ____ electrical ____ all the ____?
 Were you ____ to assess ____ our ____ arrangement ____ with ____ necessary ____?
 How ____ I ____ if ____ works well?
 ____ the ____ electrical infrastructure meet ____?
 ____ electrical system ____ those ____?
 Does ____ follow requirements?
 ____ the electrical system ____ have ____?
 ____ check if ____ electrical system ____ the required standards?
 Can ____ if all ____ mandates ____ met by ____ arrangement?

____ do ____ decide if our ____ system ____ to the ____?
 Can you ____ all of the requirements?
 Is it ____ confirm ____ all the ____ are ____?
 Does the ____ meet ____?
 What ____ I ____ for ____ power setup ____ up to par?
 What are ____ measures ____ to confirm ____ with ____ system?
 ____ you tell ____ power ____ my requirements?
 ____ our electricity ____ line ____ requirements?
 ____ to determine ____ important mandates have been ____ by the electrical ____?
 ____ you ____ me ____ is up to the required ____?
 Tell ____ our electricity ____ requirements?
 ____ do ____ find out if ____ power set-up ____ for ____?
 Can ____ electricity requirements ____ met?
 Is ____ up to ____?
 Does ____ the rules?
 ____ electrical setup ____ all of ____ needs?
 ____ we certain ____ our ____ can meet the ____?
 Is ____ grid ____ right?
 Do you think ____ electric setup ____ all ____?
 ____ it possible to ____ if any ____ being met ____ the current ____?
 Does ____ elec-system ____ requirements?
 ____ electrical infrastructure ____ the necessary ____?
 We ____ our current ____ system meets ____.
 ____ do ____ decide ____ the current ____ with all requirements?
 ____ you ____ if all ____ needs ____?
 Could ____ this ____ is ____ to snuff?
 ____ need help figuring out if ____ electrical ____ the ____.
 ____ know if ____ current electrical system meets all ____.
 ____ I know ____ electrical end is ____?
 How ____ decide ____ our ____ electrical ____ complies ____ all ____ necessary requirements?
 Are ____ following ____ for ____ system?
 ____ you ____ me find ____ if ____ complies with all the ____?
 ____ to ____ if the electrical end ____ complying?
 ____ power ____ fits ____ guidelines, ____ can we find out?
 Are ____ current ____ system ____ meeting ____?
 We want ____ if our ____ up to the ____.
 ____ setup meet all our ____?
 Can ____ about the ____ the current electrical ____?
 ____ current elec- system follow ____?
 Can you tell me ____ up to par?
 I would like ____ if ____ all requirements.
 ____ to know ____ our ____ infrastructure meets ____ necessary requirements.
 ____ our ____ adequate ____ meeting standards?
 Does ____ system ____ according to ____?
 ____ our ____ setup ____ to ____ for all ____?
 ____ the ____ all ____ the obligations?
 ____ electrical grid meeting ____?
 I ____ know ____ our electricity gives ____ requirements?
 ____ our ____ electrical ____ meet ____?
 ____ to ____ if our ____ electricity ____ works for _____.

I don't _____ if _____ system _____ criteria.
 Is _____ power _____ meeting _____?
 Does _____ meet _____ of _____ requirements?
 _____ present electrical _____ the _____ criteria?
 _____ for _____ electric _____ being met now?
 Is _____ electrical grid _____?
 _____ it possible _____ the electricity requisites _____ met?
 _____ you _____ out if our _____ electrical arrangement _____ with all _____ criteria?
 Is it _____ to _____ all _____ necessities _____ met?
 _____ present power system fulfill _____?
 How can I _____ sure that _____ complies with _____?
 Can _____ tell _____ that our _____ complies _____ all _____?
 _____ our _____ system work according _____?
 Can I _____ sure _____ our _____ infrastructure _____ the requirements?
 Can you _____ infrastructure _____ up to the required _____?
 Is our _____ setup up _____?
 How _____ find _____ if _____ system is up to _____?
 Can you _____ to _____ if _____ system complies _____ rules?
 _____ I find _____ power system works?
 We _____ know if we _____ required _____.
 Is our _____ setup _____?
 Do you know _____ our current _____ layout _____ with _____?
 _____ it possible to _____ whether our _____ system _____ requirements?
 Would _____ to _____ assess _____ current electrical _____ complies _____ all necessary criteria?
 Is it _____ determine _____ the power system _____.
 _____ do I know _____ the _____ is _____ par?
 Can _____ tell me _____ our power set-up _____?
 _____ tell me _____ the electricity _____ met.
 _____ know if _____ electrical setup ticks _____ all _____ things?
 How _____ I _____ the current _____ system is up _____?
 Are _____ system up _____ the _____?
 Can you _____ our _____ compliant?
 _____ we _____ that the electricity _____ to _____ demands?
 _____ the current electrical setup are _____?
 _____ able _____ verify if _____ electricity _____ are met?
 Does _____ necessary conditions?
 Does the _____ duties?
 _____ can I make sure _____ power _____ par?
 Can you _____ current _____ system's ability _____ meet required _____?
 _____ our _____ system perform _____?
 _____ our _____ setup _____ all _____ necessary things met?
 _____ our _____ enough for _____ of our needs?
 Is _____ following all _____?
 I _____ to know _____ system is _____ to the _____.
 How do _____ out _____ power set-up _____ with _____?
 _____ we _____ requirements for _____ electric _____?
 Can _____ make sure _____ met?
 _____ it _____ that our electricity infrastructure _____ with all _____?
 _____ determining if our current electrical _____ complies _____ specifications.
 How _____ I _____ if _____ system is _____ needs?

____ you know if our electrical setup ____ the ____?
 ____ you ____ if our ____ infrastructure ____ up to ____?
 Is the ____ grid ____?
 It is ____ to ____ our ____ setup satisfies important ____.
 ____ tell me if ____ all of the ____?
 ____ I check to ____ sure ____ power ____ adequate?
 ____ to determine if the power system ____?
 Can our ____ power ____ prerequisites?
 ____ you tell ____ electricity requirements ____?
 I ____ know if our current electrical ____ requirements.
 Do ____ electrical setup ____ the ____?
 ____ it ____ if the ____ requirements are met?
 ____ the ____ essential criteria?
 ____ tell me if this ____ the job?
 Is ____ possible to check if our present ____ arrangement ____?
 ____ required standards for our ____ now?
 How can ____ that our ____ infrastructure ____ up to ____ standards?
 ____ know if our ____ is satisfying important prerequisites.
 Does ____ setup meet ____?
 How can ____ our ____ system can ____ needs?
 ____ there a ____ sure that our ____ electrical ____ with the ____ standards?
 ____ need ____ our existing electricity ____ is up ____ snuff.
 ____ electrical ____ for what we ____?
 ____ our ____ meet expectations?
 ____ if the electrical infrastructure ____ the necessary ____?
 ____ the ____ electrical grid ____ criteria?
 Is ____ check if ____ system complies with ____ rules?
 Given our current setup, ____ we ____ electrical ____?
 ____ do I ____ if ____ electrical ____ meets all ____ requirements?
 ____ you say if our electric setup ____ regulations?
 Does ____ work ____ those ____?
 How ____ I ____ if ____ system is in ____?
 ____ I ____ certain that ____ is in ____ with ____ requirements?
 ____ current electrical ____ necessary criteria?
 How can ____ find ____ if the ____ system is ____?
 ____ all ____ necessary requirements ____ in our ____?
 ____ can I determine ____ is adequate?
 How ____ know if ____ is appropriate?
 ____ our ____ electrical ____ that needs to ____ done?
 Can someone ____ our ____ electric layout ____ the prerequisites?
 ____ possible ____ the ____ are being met ____ our current electrical ____?
 ____ me, ____ meet the requirements?
 ____ meet ____ the must-have rules?
 ____ we know if ____ system ____ all the ____?
 ____ can ____ find ____ if our ____ system is ____?
 ____ jive with those ____?
 ____ I check to ____ sure that ____ is adequate?
 Have ____ confirmed ____ the ____ meet ____?
 How ____ I find ____ if ____ meets ____ criteria?
 Does our ____ jive ____ required ____?

Can ____ look ____ if our electrical ____ complies ____ rules?

I ____ know ____ our ____ mess ____ with ____ standards.

Can I ____ certain that ____ up to ____?

____ our electric ____ enough to check ____ the ____?

Are our electric system ____?

What ____ we do to ____ our ____ fits?

____ you ____ if ____ power matches ____?

Is ____ compliant with ____?

____ you ____ me if all ____ met?

Are our ____ electrical system ____?

Can ____ confirm that ____ current electrical ____ is ____?

____ our power ____ specific ____?

Does our ____ meet ____.

____ electrical system ____ the rules?

____ a way to ____ that the ____ is in line ____ the ____?

____ like to ____ our ____ layout complies with all ____.

Can you ____ if ____ electrical system is ____?

Is ____ possible ____ assess ____ arrangement complies with ____ necessary criteria?

Does our ____ system ____ obligations?

____ I sure that our ____ infrastructure ____ requirements?

____ the ____ all rules?

How do ____ find out ____ is right?

____ to know if ____ current electricity setup ____.

____ to ____ if ____ mandates are being met ____ our present ____ arrangement?

____ the current ____ meet ____ of ____ needs?

____ I tell if ____ electric system is ____ task?

____ I know ____ our electric ____ is ____?

We need ____ if our existing ____ with ____ requirements.

____ it ____ know if all the ____ mandates ____ our present ____ arrangement?

Is our ____ suitable ____ requirements?

____ our ____ grid ____ criteria ____?

____ need ____ determining ____ our ____ system complies with ____ specifications.

How can ____ know ____ system meets ____ of our ____?

____ our ____ system check ____ the ____?

I ____ no ____ if our electric ____ the ____.

____ can I tell if ____ is ____ end?

Does our electrical ____ needs?

____ if the power set-up meshes with ____ guidelines?

How ____ know ____ electrical ____ meets all requirements?

____ power setup ____ necessities?

____ our ____ elec- ____ requirements?

Is the ____ electrical ____ adequate ____ meet the ____?

Can ____ confirm if our electric ____ complies with ____?

____ our electricity ____?

____ the ____ set-up fits the ____.

Can you ____ our ____ system to ____ sure ____ complies ____?

____ to know if ____ setup ____ in compliance ____ all necessary ____.

Can ____ confirm that our ____?

Is there a ____ to ____ electrical setup ____ to ____?

____ on our power setup?

_____ there _____ to _____ that _____ current _____ setup complies with the _____?
 Is our electrical _____ compatible _____?
 _____ to _____ current _____ setup, _____ all _____ requirements met?
 _____ I _____ sure _____ current _____ system complies with _____ requirements?
 _____ know how to determine if our _____ meets _____.
 I would _____ to _____ electric _____ checks _____ boxes.
 _____ our _____ elec _____ follow _____ the _____ requirements?
 Do you _____ our _____ jives with the _____?
 _____ certain that our _____ system _____ the requirements?
 _____ electrical _____ all the right things?
 _____ we certain _____ our electrical _____ with _____ requirements?
 Is it possible to _____ if _____ current _____ all necessary criteria?
 _____ electric _____ all the boxes?
 _____ power _____ fit _____ guidelines?
 Does _____ system have _____ standards?
 Does _____ system fulfill _____?
 Please _____ if our existing electrical setup _____ criteria.
 Are our _____ setup up _____ the _____?
 Can you _____ our _____ is _____?
 Is our current _____ par?
 Is _____ existing _____ of meeting _____?
 Can _____ find _____ if _____ with the guidelines?
 Are _____ electrical system adequate _____?
 Is the current electrical _____ all _____?
 Does _____ elec- _____ meet the _____?
 _____ electric setup is _____ to snuff with all _____ tell me?
 _____ our present power system _____ prerequisites?
 Is _____ possible for you to assess _____ electrical _____ requirements?
 _____ sure that our _____ infrastructure complies _____ all of _____?
 _____ you _____ if _____ current electrical _____ meets the _____?
 Are _____ electrical _____ with essential requirements?
 How _____ be determined?
 I _____ to _____ if _____ existing _____ complies _____ important standards.
 _____ power _____ meeting all _____ criteria?
 Does the present _____ all _____?
 Are our _____ for meeting the _____?
 _____ me if our _____ requirements.
 _____ sure our power _____ works?
 We _____ to know if _____ the right _____.
 _____ check _____ all the _____ are met?
 I _____ to know if our _____ system _____ the _____.
 How _____ current electrical _____ is up _____ the job?
 _____ want to _____ if _____ with _____ required requirements.
 _____ need help _____ if _____ existing _____ complies with the _____.
 _____ help figuring _____ if our _____ system _____ up _____ date.
 _____ our _____ the standards?
 Will my _____ electrical _____ requirements?
 How can _____ if _____ electric _____ is _____ all _____?
 _____ our electrical _____ fit _____?
 _____ are the _____ to _____ compliance with _____ electrical system?

Is it possible to _____ certain _____ being met _____ electrical _____?

Is _____ up _____ all _____ requirements?

_____ current electrical system _____ essential _____?

Is _____ current _____ capable of _____ electrical requirements?

_____ electrical _____ the must have rules?

Will the current _____ system _____?

_____ current elec-system _____ requirements?

How can I know _____ the _____ criteria?

It is _____ to clarify whether _____ meets _____ prerequisites.

_____ you check _____ see _____ is in _____ with the rules?

_____ our electrical _____ the _____ standards?

_____ there a way _____ that _____ electrical _____ is _____ with the _____?

Please tell _____ our existing _____ setup _____ the _____ criteria.

Is there _____ if _____ electrical setup _____ with the _____?

Are required _____ met _____ electric _____ now?

Is it possible _____ mandates are _____ met by _____ present electrical _____?

Does our _____ requirements?

_____ our _____ system _____ to meet _____?

_____ we meet _____ of the _____?

How _____ I make _____ power _____ is _____?

_____ our _____ compatible _____ those _____ requirements?

_____ the electrical system _____ all _____?

Are we _____ for _____ electric _____?

Are the _____ standards _____ our _____ system?

What _____ on assessing our _____ meeting _____?

_____ can _____ be certain that _____ infrastructure complies with _____?

I have a question _____ our _____ electrical _____ meets _____.

_____ help determining if _____ electrical system _____ fulfill _____.

_____ the _____ meet _____ standards?

Is _____ electrical system in _____ rules?

_____ me if _____ system is up _____ the task?

_____ our _____ electrical _____ all needs?

_____ whether our current _____ system _____ with the specifications.

I _____ know if our existing electrical _____ the _____.

Does _____ current _____ setup meet _____?

I wonder if _____ electrical _____ to _____.

Is _____ to code?

Is _____ to all _____?

Can _____ tell me whether _____ our _____ complies _____ all _____?

_____ our _____ system _____ its _____?

Are the required _____ for _____ met?

Are _____ electricity _____ with essentials?

Can _____ tell _____ the _____ end _____ in _____?

_____ you _____ if our power _____ with all _____?

Is _____ if _____ important _____ are being _____ by _____ electrical arrangement?

_____ the _____ with _____ of the requirements?

_____ need _____ figuring _____ our electrical system _____ specifications.

Is it possible to _____ are being _____ by _____ electrical _____?

_____ on whether _____ electricity _____ is up _____ the job.

_____ our _____ in _____ with _____ the rules?

_____ we _____ out if _____ set-up is appropriate?
_____ I look for _____ make sure _____ setup is _____?
I'd like _____ our _____ jives _____ required requirements.
_____ electrical system _____ compliance?
Do _____ know _____ electric _____ checks _____ boxes?
How can we be sure _____ infrastructure _____ the _____?
_____ our electrical _____ to the _____?
_____ our _____ the standards?
Do _____ our electricity jives with _____ necessary _____?
Has the _____ met _____?
Can you _____ our _____ meets all _____
Can you _____ our _____ system is up _____ snuff?
_____ our _____ system _____ line _____ standards?
_____ fully addressed in our _____?
_____ the _____ system _____ commitments?
_____ clarify if _____ electricity setup complies with important _____.
_____ current _____ system follow _____?
_____ power _____ meeting all _____ requirements?
Please _____ me if _____ jives _____ requirements.
_____ have _____ electrical requirements?
I want _____ know if _____ satisfies all _____.
_____ wondering if _____ electric _____ will check _____ the _____.
I _____ if our electrical _____ the requirements.
_____ able to verify _____ all electricity _____ are _____?
It is necessary _____ clarify whether _____ complies with _____.
Are we _____ that we _____ electrical _____?
Is _____ Electricity network _____ with _____?
Do we _____ if _____ electric _____ the boxes?
_____ our present power _____ fulfill _____ mandatory _____?
Can I _____ if _____ is _____ compliance?
Can _____ that _____ electricity needs _____ met?
Is _____ electric layout _____ essential _____?
_____ electrical system meet _____ requirements?
_____ know if _____ met demands?
Can you _____ me _____ the _____ sure it works?
_____ if our _____ setup satisfies important requirements.
_____ there _____ way to _____ our _____ complies with the _____ standards?
Will _____ electrical _____ fulfill _____?
_____ you _____ know _____ our _____ complies _____ all the requirements?
Should _____ electrical system meet _____?
_____ electricity _____ with _____ required requirements?
_____ to know if _____ current electrical _____ complies _____ standards.
How do _____ if _____ power set-up fits _____?
We have a current _____ do _____ requirements?
_____ you say if _____ setup is up _____?
_____ would like to _____ electrical system _____ all the _____.
Do we _____ that our _____ electrical _____ requirements?
Is _____ electrical _____ the _____?
_____ do I _____ if the current _____ is _____ to _____?
_____ we comply with _____?

Is our current _____ with all _____ essential _____?

Does _____ current elec- _____ follow _____ necessary _____?

_____ the electrical _____?

I _____ our power _____ meets _____ criteria.

_____ the _____ electrical _____ meeting proper _____?

_____ _____ grid meeting requirements _____?

_____ meet all requirements?

Can you _____ that electricity _____?

Does _____ elec- _____ requirements?

_____ the _____ power setup is _____ need to check.

Does _____ electrical system _____?

Is our _____ fulfilling _____ prerequisites?

_____ can we confirm _____ guidelines in _____ system?

_____ need help _____ electrical _____ works as _____ should.

_____ we _____ standards for our electric _____?

How can I figure out _____ is up _____?

Can _____ check _____ electrical system complies with _____?

_____ need _____ on whether _____ electricity _____ important requirements.

_____ you _____ the electricity _____ are _____?

_____ I _____ that every _____ is _____ line _____ our _____ electrical model?

_____ setup tick all _____ right _____?

_____ electricity network _____ compliance _____ basic _____?

Can _____ tell us about the _____?

If _____ layout _____ essential prerequisites, can _____ confirm it?

Can you _____ system to _____ complies with all the _____?

_____ electrical _____ compatible with all of _____?

Can _____ electric layout complies with _____ essentials?

Are _____ compliant _____ all the _____?

Can you help me determine if our _____?

_____ it _____ you _____ help _____ our current electrical arrangement _____ necessary _____?

_____ know _____ the _____ system satisfies all needs.

Are _____ required standards _____ the _____?

I don't _____ how to _____ equipment is _____ compliance.

_____ electrical system _____ compliance _____ rules?

Is our _____ grid _____ correctly?

Can the electrical _____?

_____ am I _____ that our _____ complies with _____ the _____?

_____ need to know _____ our _____ is in line _____.

_____ want to _____ if _____ current electric _____ all essential _____.

_____ make sure _____ electrical system _____ in compliance with _____?

_____ electrical grid _____ the needed _____?

_____ our current _____ follow _____ rules?

_____ present _____ fulfilling _____ mandatory requirements?

_____ someone _____ the _____ layout complies with all _____ requirements?

_____ there _____ way _____ check _____ setup?

Do you _____ electrical system complies _____ requirements?

Can we _____ power _____ works?

_____ possible to _____ our electrical arrangement _____ with all _____ criteria?

_____ necessary conditions _____ in _____ electrics?

Does _____ electrical system _____?

We _____ current _____ so _____ we meet _____ electrical _____?
 Does _____ complete _____ obligations?
 _____ we _____ out if the _____ set-up _____ right?
 How _____ know if _____ system _____ standards?
 _____ you check _____ electrical system is _____ task?
 Can _____ the _____ electrical _____ is up _____ date?
 I want to know _____ can _____ of our _____.
 _____ want _____ know if _____ current _____ meets _____ requirements.
 Is _____ possible to check _____ electrical _____ complies with _____?
 Does _____ electricity _____ necessary _____?
 _____ know _____ our power system complies _____ criteria?
 _____ our electric system meet _____?
 _____ electrical system fulfill _____?
 _____ we meeting _____ for _____ system _____?
 _____ our present _____ meeting required _____?
 _____ the _____ system fulfill _____ of _____?
 Can you help _____ assessment of _____ electrical _____?
 _____ you _____ if our _____ all requirements?
 _____ our _____ setup tick all _____?
 I _____ to know _____ the _____ layout _____ essential prerequisites.
 _____ help us _____ if _____ present electrical arrangement _____ all necessary criteria?
 Do _____ have _____ that is up to _____?
 Can _____ me if the _____ setup is _____ with _____ those _____ regulations?
 _____ our electrical system _____?
 Can _____ tell me if _____ power _____ meet _____?
 We _____ clarify _____ our current electricity _____ complies with _____.
 How _____ find _____ power set-up fits the _____?
 We would _____ to _____ system checks all _____ boxes.
 _____ the _____ grid meeting required _____?
 _____ if our electrical setup _____ the right points.
 How can _____ if our electric _____ with all _____?
 _____ our electrical setup _____?
 Is it _____ our _____ system _____ essential requirements?
 Are _____ meeting _____ standards with _____?
 Are _____ setup _____ the _____ criteria?
 _____ we _____ out if the _____ set-up _____?
 _____ our _____ certain standards?
 _____ we _____ electrical _____ of our _____?
 Does our _____ electrical _____ meet _____?
 I _____ know how to be certain that _____ with _____.
 _____ way to make _____ our electrical _____ required standards?
 _____ help _____ figure out if _____ system complies _____ the _____?
 _____ our _____ being met _____ electric _____?
 How _____ I _____ if our electric system _____?
 _____ current setup, _____ we _____ the _____ requirements?
 Is _____ current electrical _____ able to meet _____?
 How do I _____ current electrical _____ to par?
 _____ I determine _____ our electrical _____ is _____ par?
 Is _____ possible to _____ assess if _____ present _____ arrangement _____ with all _____?
 _____ electrical _____ meeting _____ criteria?

_____ wondering if there _____ way _____ verify _____ electrical setup.
 What _____ be _____ to _____ guidelines in the electrical _____?
 _____ don't know how _____ current electrical system _____ requirements.
 _____ electrical system _____ of _____ responsibilities?
 Is it possible _____ the _____ being _____ by _____ electrical arrangement?
 _____ don't know _____ to be _____ that our _____ mandatory requirements.
