

[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Fuel efficiency and environmental concerns
Inquiry Sub-Category	Fuel Efficiency and Performance Trade-Offs
Description	Customers explore the trade-offs between fuel efficiency and vehicle performance attributes, such as horsepower, torque, acceleration, and towing capacity, seeking expert advice on finding a balance that suits their needs.
Data Size	5,106 paraphrases

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

_____ do I _____ want _____ with minimum carbon emissions from my _____?

There _____ maximize _____ while _____ carbon footprints.

When it _____ to _____ power _____ avoiding harmful _____ fumes, _____ do _____ have here?

Is _____ vehicles _____ high horsepower and low _____?

_____ get fast _____ low emissions?

_____ we maximize _____ power _____ carbon?

_____ wondering if there are _____ models that _____ achieve _____ peak _____ reduced _____ impact.

Looking for _____ how to get _____ powerful _____ without causing _____ planet

_____ it _____ to choose a vehicle with ultimate _____.

_____ I _____ most power without _____ with the _____?

_____ I maximize _____ controlling _____ release?

_____ solutions _____ max _____ with _____ impact?

_____ there any _____ that _____ offer _____ maximum power _____ environmental _____?

_____ it _____ to _____ a _____ that _____ power _____ less pollution?

Do _____ want _____ maximum power _____ emissions?

_____ choices do I _____ to maximize _____ and _____ exhaust _____?

Can _____ either _____ power or minimal CO2 _____?

Looking for _____ footprint while _____ HP.

_____ possible to achieve maximum _____ with _____ emissions?

There are _____ that _____ both _____ minimal environmental _____.

What vehicles do _____ have _____ engine _____ less harmful _____?

I _____ to _____ maximum _____ or minimum carbon emission from _____.

_____ the car give _____ power and _____ CO2?

What _____ the _____ for _____ high power _____ low carbon _____ vehicle?

Is there _____ power, _____ carbon emission vehicles?

_____ way of combining _____ performance with _____ impact?

Are _____ to maximize vehicle power _____?

Want a _____?

I ____ to decide whether to ____ maximum ____ carbon ____.
 Are ____ options for ____ power ____?
 ____ car ____ is powerful ____ eco-friendly?
 There are ____ number of ____ achieving ____ horsepower and ____ emissions in ____.
 ____ there any ____ that gives ____ power ____ emissions?
 I have to decide ____ I want ____ and minimum ____ my ____.
 ____ I get peak ____ and ____?
 ____ able ____ maximum power with ____ emissions?
 ____ to know what options I ____ to ____ carbon emissions.
 ____ can I obtain ____ low ____?
 Do you ____ vehicles ____ offer ____ power without ____ carbon emissions?
 Is ____ possible to ____ both ____ power ____ minimal CO2 ____?
 ____ selections ____ I have for increased engine ____ and ____ harmful ____?
 I ____ to achieve peak power ____ reduce ____.
 What choices can ____ that allow ____ minimum CO2 ____?
 What ____ the ____ vehicles ____ offer ____ and minimal environmental ____?
 I ____ know ____ to ____ minimum carbon emissions.
 Looking to maximize ____ reducing ____.
 Can you ____ both ____ power ____ minimal environmental ____?
 Is ____ possible for ____ have maximum ____ being less polluted?
 ____ it possible for ____ to ____ max ____ is reduced?

 ____ is a ____ to achieve ____ minimum ____ emissions from my ____.
 I need ____ know ____ option ____ use ____ get maximumhp and ____ emissions from ____.
 ____ I ____ without hurting ____ planet?
 ____ obtain ____ my car, ____ need to know what ____ I can use.
 ____ options for obtaining maximumhp and minimum ____ from ____ car.
 Someone is looking for ____ on how ____ the ____ powerful ____ without ____ to ____.
 ____ I ____ maximum power and ____ with ____ car?
 To ____ HP, how ____ carbon ____?
 ____ vehicle ____ big power horsepower wise ____ emissions here?
 What ____ selections do ____ have for ____ engine ____ reduced ____?
 ____ to ____ a decision ____ whether ____ maximum ____ with a minimum carbon ____.
 ____ there ____ choice that gives ultimatehp and ____?
 ____ both ____ power and ____ CO2 ____ my car?
 ____ option for ____ and eco-friendly car?
 ____ looking ____ advice on how to ____ the ____ powerful ____ causing ____ to ____.
 What ____ be ____ to achieve ____ with ____ impact?
 How ____ I find ____ car with ____ and less ____?
 ____ it ____ for my ____ to ____ power ____ less polluting?
 ____ I ____ HP ____ affecting carbon ____?
 ____ to decide ____ to ____ or a minimum carbon ____ my car.
 ____ any low emissions ____ maximum power?
 Is it possible ____ without hurting ____ planet?
 ____ I use ____ get both ____ power and minimal ____?
 What vehicle ____ are available when it ____ engine power ____?
 ____ know of any ____ emissions ____ maximum performance?
 Do you have ____ emissions options ____ maximum ____?
 ____ about the maximum power ____?
 How ____ environment-friendly car?

_____ you allow _____ engine output _____ CO2 release?
 _____ there a _____ to _____ the maximum _____ and _____ emission?
 What _____ best _____ choice for _____ power and _____?
 Is _____ able to have max power while _____ harmful _____?
 _____ what options _____ get the maximumhp _____ minimum carbon emissions from _____ car.
 _____ are models _____ can consider to achieve both _____ and reduced _____.
 What _____ choices _____ have for more engine _____ less harmful _____?
 Can _____ car give _____ maximum _____ minimal _____?
 _____ need _____ what options I can _____ maximumhp _____ carbon emissions.
 _____ can _____ car _____ of power and low emissions?
 _____ a high-power, environment-friendly _____?
 _____ find _____ car that has _____ power _____ less _____?
 I need to know _____ use _____ get _____ and _____ from my _____.
 _____ there any model _____ consider that _____ both peak power _____ reduced _____?
 How can _____ my vehicle's _____ while avoiding _____?
 What are _____ options _____ emission vehicle?
 Wanting _____ vehicles.
 Is it possible to _____ car with _____ emissions?
 _____ that allow _____ engine _____ and minimum CO2 release?
 _____ a _____ vehicle?
 _____ suggest vehicles _____ have both maximum _____ and _____?
 Is _____ to have minimum carbon _____ and _____ horsepower _____?
 _____ maximize _____ while also reducing _____.
 _____ balancing _____ horsepower _____ reduced emissions?
 What _____ the choices _____ the _____ minimum CO2 release?
 _____ I get a _____ that has high _____ low _____?
 Can _____ have _____ and minimal _____ my car?
 _____ there vehicles _____ power _____ minimal environmental impact?
 Do _____ suggestions for balancing high _____ and _____?
 I _____ on how _____ achieve maximum _____ minimum _____.
 There _____ to _____ vehicle _____ and reduce _____.
 How can _____ get both _____ pollution?
 Is _____ possible to _____ a _____ max power _____ carbon _____.
 _____ for _____ powerful and eco-friendly _____?
 _____ about _____ vehicle _____ has _____ power, low _____ emission?
 What would _____ output and _____ release?
 Can I _____ both high power _____ with _____?
 _____ I _____ the _____ power without _____ planet.
 Is it possible to get _____?
 I was _____ if _____ emissions options for _____ horsepower.
 Is _____ any _____ can _____ peak power output _____ reduced _____?
 _____ it possible for _____ to _____ max _____ with _____ pollution?
 I am looking _____ advice on how _____ the _____ causing harm _____ our _____.
 Is there anything _____ can _____ to get maximum _____ emissions?
 _____ control carbon _____ in order _____ maximize HP?
 _____ there _____ to get maximum horsepower _____ emissions from _____ vehicle?
 What are the _____ carbon emissions?
 _____ to _____ power with less emissions?
 How _____ be maximized and _____?
 _____ power while also reducing _____?

Is _____ to have _____ power and _____ CO2 _____ my _____?

_____ a _____ choice that gives ultimate _____ and _____.

_____ possible _____ HP and _____ carbon release?

Is there any _____ impressive _____ without harming _____?

Is _____ maximize engine power, _____ increasing _____ footprint?

_____ my _____ have max _____ and min _____?

What _____ I _____ increased _____ power and minimizing exhaust _____?

When _____ comes to _____ exhaust fumes _____ engine power, _____ vehicle selections _____?

_____ there _____ model _____ can _____ at _____ achieve _____ output and reduced _____ impact?

_____ particular model _____ use _____ peak _____ output and reduced environmental impact?

_____ have _____ that have big power _____ low _____?

Is _____ possible to _____ high-power, _____ friendly _____?

Is there _____ vehicle _____ while keeping _____ emissions at a _____?

Am _____ able to achieve maximum _____ and minimal _____?

I _____ to decide whether _____ with _____ minimum _____ emission.

Any _____ max performance _____ low pollution _____?

_____ make for maximum _____ output and minimum _____ release?

_____ can I achieve _____ power and minimal _____?

Is it possible to _____ a _____ power _____ less _____?

How _____ maximize power _____ emissions?

There are suggestions _____ achieve maximum _____ minimal _____.

Is _____ possible _____ maximum power with _____ carbon _____?

Seeking ways _____ maximize HP _____.

Is _____ a _____ offer maximum power _____ impact?

_____ to _____ what options _____ use to obtain _____ and minimum _____.

How _____ get _____ and less _____?

_____ advice _____ how _____ get the most powerful car without _____ to _____.

How _____ get top _____ pollutants?

_____ ways _____ combine _____ with low _____ impact?

Is my car _____ to _____ power _____ minimal _____?

Is there a _____ car to _____ fast while _____?

I _____ decide if _____ maximum _____ as _____ as a minimum carbon _____ for _____ vehicle.

_____ decide _____ get _____ power _____ minimum carbon emission from my vehicle.

_____ the best choices _____ allow _____ output _____ CO2 release?

I need _____ decide _____ I should _____ power along with a _____ my _____.

_____ I _____ car that _____ power and less pollution?

Is _____ possible _____ choose a vehicle _____ will _____ ultimate _____ less _____?

Is there _____ to _____ high _____ with reduced _____?

There are _____ footprint and maximize _____.

_____ max performance with low _____?

_____ any _____ can consider _____ achieve peak _____ output and reduced environmental _____?

What _____ the options _____ low carbon _____ in a car?

_____ my _____ have maximum _____ CO2?

Will I be _____ peak _____ output and _____ environmental _____?

_____ need _____ know the options _____ obtain maximumhp and _____ my car.

When _____ to _____ engine power and _____ harmful exhaust fumes, _____ vehicles _____?

_____ we maximize _____ power while also _____?

_____ recommend _____ that have both maximum power _____?

How should _____ get peak _____?

Is _____ any _____ achieving maximum _____ minimum _____ impact?

_____ a _____ increase _____ power without increasing _____ footprints?

Is there _____ use _____ peak power output and reduced environmental _____?

How to _____ and less _____?

_____ there _____ combine max _____ with low pollution _____?

What _____ will _____ engine _____ and minimum _____ release?

_____ it _____ peak _____ output and reduced impact?

I need to _____ can _____ to get maximumhp and minimum _____ emissions _____.

_____ need to _____ what _____ I _____ and _____ carbon emissions _____ my vehicle.

_____ to _____ what options I _____ to _____ maximumhp and _____ carbon emissions _____ my _____.

What options _____ maximum _____ minimum CO2 _____?

There are _____ for a _____.

How _____ and _____ emissions?

_____ are options _____ and _____ emissions.

_____ can we _____ power while _____?

I _____ how _____ maximize _____ control _____ release.

_____ powerful yet _____

Do _____ an _____ that _____ power but _____ choke _____ planet?

I need _____ my options _____ to _____ maximumhp _____ minimum _____ from _____ car.

Is _____ way _____ keep _____ at a minimum while _____ optimal _____.

I _____ to decide _____ maximum power _____ a _____ carbon emissions _____ my _____.

_____ suggest _____ to achieve maximum _____ carbon impact?

_____ need to _____ my options are _____ obtaining maximumhp _____ minimum _____.

Looking _____ to reduce _____ while _____ HP.

I _____ to _____ to _____ and minimum carbon emissions _____ the _____.

Are _____ offer high power without _____ on _____?

_____ I find _____ vehicle with _____ and low _____?

_____ any model _____ try to _____ power output _____ reduced _____ impact?

_____ there a way my _____ less emissions?

_____ both maximum _____ and minimal CO2?

_____ maximize HP and _____ carbon?

_____ there _____ maximize _____ power while decreasing carbon?

Is there _____ car I _____ power _____ min carbon emissions?

_____ selections _____ available _____ it comes _____ power and minimizing _____ exhaust fumes?

_____ my _____ to have max _____ while still _____ polluted?

_____ I have both _____ minimal _____ with _____ car?

_____ need _____ what _____ to achieve maximumhp and _____ carbon _____ my car.
