

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car engine not starting
Inquiry Sub-Category	Faulty Sensors
Description	Inquiries related to malfunctioning sensors, such as the crankshaft position sensor or camshaft position sensor, which can prevent the engine from starting or running smoothly.
Data Size	5,070 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Is _____ sensor causing my _____ engine _____ at startup?
_____ there _____ with my _____ sensor _____ will cause _____ to _____ at the first _____?
A bad _____ detector may be _____ the _____.
_____ fail _____ startup because of _____ crankshaft sensor?
_____ a _____ that _____ faulty _____ Sensor can _____ engine failures during the _____?
_____ engine fails _____ starting _____ of the _____ crankshaft _____.
Can a _____ sensor _____ engine to _____ startup?
A _____ crankshaft _____ could _____ a _____ start in _____ vehicle.
_____ the bad _____ sensor _____ engine _____ when _____ starts?
The _____ engine isn't _____ at start up _____ on the _____.
My vehicle does not _____ because of a _____.
_____ may _____ during _____ first _____ of minutes of start up _____ of _____ crankshaft _____.
_____ car stalls _____ beginning _____ to a _____ sensor.
_____ that causes _____ engine _____ fail _____ the faulty sensor on the _____.
_____ crankshaft _____ cause _____ engine _____ fail during startup?
Is there a _____ my vehicle's _____ will _____ engine to _____ when it is _____?
A _____ cause _____ to _____ the first _____ minutes of start up.
_____ wonder if a _____ sensor _____ my car _____ fail _____ startup.
_____ car engine _____ start _____ due _____ a faulty sensor on _____ crankshaft.
_____ will the faulty _____ sensor cause it to _____?
_____ a bad crankshaft _____ my _____ during startup?
My car's _____ will _____ the _____ because _____ fault _____ the _____ sensor.
The _____ crankshaft _____ is to _____ starter _____?
_____ a _____ with the _____ that could cause _____ to _____ at the _____?
I'm wondering if _____ faulty crankshaft _____ car to _____ startup.
_____ cause _____ sputtering at startup is a faulty _____ crankshaft.
Is _____ fault with _____ Sensor _____ to not start?
Is _____ cause of stalling ignition sequences?

Is _____ engine malfunctioning _____ crankshaft sensor?

_____ there a _____ that the _____ engine could fail _____ because _____ a _____?

_____ failing _____ startup _____ of the faulty crankshaft sensor?

Is there _____ chance that a _____ crankshaft sensor _____ during the _____?

The _____ crankshaft sensor _____ cause _____ to _____ startup.

_____ my _____ because _____ a _____ crankshaft sensor?

_____ a problem with _____ vehicle's _____ sensor _____ engine _____ start?

Engine failure _____ startup can _____ caused _____ sensor.

Is there _____ with _____ vehicle's _____ that _____ making it _____ start?

_____ failure during _____ faulty crankshaft sensor?

Is there _____ engine _____ to faulty _____ sensor _____ startup stage?

Is _____ a _____ faulty _____ sensor causing _____ during _____ start _____ of _____ car?

A bad _____ may cause a car to _____ few _____.

_____ there a chance _____ sensor _____ cause engine _____ during _____ of a car?

_____ my _____ failure because of a bad _____?

_____ there an _____ my _____ crank _____ that prevents _____ from starting?

Is _____ a chance that faulty _____ engine _____ the startup stage _____ a _____?

_____ my _____ to _____ startup due to the _____ sensor?

_____ a chance _____ faulty _____ leading _____ engine failures during the start _____?

_____ cause _____ my engine _____ at startup _____ the _____ on the _____.

Is _____ a _____ that prevents my engine from starting?

_____ car _____ fails _____ because the _____ on _____ is faulty.

_____ a _____ be to _____ car engine failing at startup?

_____ doesn't start, is that _____ the crank _____?

The _____ engine is not responding _____ of the faulty _____ the _____.

_____ faulty sensor on _____ causes my _____ Engine _____ at _____.

The car _____ the _____ few _____ start up due _____ a _____ crankshaft _____.

Is _____ a _____ sensor causing car engine Failures during _____?

_____ a _____ crankshaft _____ to failed starts in my _____?

Would a _____ sensor ruin _____ of _____ car?

My _____ to _____ up due to _____ sensor on the _____.

_____ crankshaft position _____ a failed start?

_____ the crankshaft sensor at the start _____.

_____ sensor on _____ is _____ blame for my _____ engine failing _____.

_____ is _____ with my _____ sensor _____ will _____ car's engine to _____ at the _____.

Is _____ a _____ engine _____ fail during startup because _____ crankshaft sensor?

_____ faulty _____ sensor _____ my _____ from starting?

_____ starting issues may _____ related _____ crankshaft sensor.

Is _____ faulty crankshaft _____ causing _____ car engine to _____?

_____ faulty _____ on _____ is the _____ of my _____ engine _____ at start _____.

_____ crankshaft sensor _____ in your car _____ starting?

_____ detector may be the _____ starter _____.

_____ crankshaft _____ cause the _____ in the first few _____ of _____ up.

_____ a _____ of faulty _____ sensor causing engine _____ the _____ of _____ car.

The faulty _____ on _____ crankshaft causes my _____ to _____.

_____ fail during startup because _____ bad _____ sensor?

_____ with my vehicle's crank Sensor that will cause my _____ start?

_____ possible _____ failures are _____ a malfunctioning crankshaft sensor?

Is there a chance _____ a _____ sensor _____ the _____ of _____ engine _____ start up?

_____ a faulty crankshaft _____ car startup failure?

____ faulty ____ sensor disrupt ____ car's ____?
 ____ startup, is ____ because of the ____ sensor?
 ____ it possible that ____ lead ____ engine failure ____ the startup ____ of a car?
 ____ there a chance of ____ to the failure of ____ during startup?
 ____ that the start-up engine ____ a ____ crankshaft ____?
 My car engine ____ fail ____ sensor ____ crankshaft is faulty.
 ____ there a ____ with ____ crankshaft ____ that will cause ____ to ____ beginning?
 ____ possible that the flawed crankshaft sensor could ____?
 There is a ____ a ____ crankshaft sensor ____ engine ____ fail during ____.
 ____ cause of ____ failing to ____ is ____ crankshaft sensor.
 ____ it ____ that the flawed ____ sensor ____ affect ____ up?
 Would a faulty ____ position sensor ____ a ____ starts ____?
 ____ know if a faulty ____ will ____ startup ____ in ____ car.
 Is the damaged ____ sensor ____ my ____ start-up ____?
 ____ chance of a ____ sensor causing ____ during ____ startup process?
 ____ the ____ crankshaft ____ my ____ startup?
 Is ____ engine ____ at ____ beginning because of ____ crankshaft ____ fault?
 Is ____ chance of a faulty crankshaft ____ a failure ____ engine ____?
 Is ____ damaged crankshaft ____ sensor ____ of start-up ____ my ____?
 ____ there ____ fault ____ car's ____ Sensor that ____ preventing ____ from starting?
 ____ car engine ____ at ____ up when ____ sensor on ____ faulty.
 Is ____ vehicle's ____ the cause of ____ not ____?
 Is ____ a fault ____ that could cause ____ car's engine ____ at ____ beginning?
 ____ sensor ____ my car from starting up?
 Is ____ fault with my car's ____ Sensor, ____ engine ____?
 ____ there ____ risk ____ crankshaft ____ causing engine failures during ____?
 Is there ____ that ____ faulty ____ could ____ engine failures ____ the start up ____?
 The car ____ during the ____ couple of ____ of ____ of ____ bad crankshaft ____.
 The ____ issues ____ be ____ to ____ bad crankshaft ____.
 ____ failing starts ____ caused ____ crankshaft position sensor?
 Can a faulty ____ sensor lead ____ the failure of ____ the ____?
 ____ the ____ affecting ____ car's start up?
 ____ start ____ of a ____ crankshaft sensor.
 A ____ crankshaft ____ be the ____ of my car ____ startup.
 ____ it a fault with ____ Sensor that ____ start?
 A ____ may be causing ____ issues in my ____.
 Is ____ chance a ____ crankshaft Sensor could cause ____ failures ____?
 My car engine ____ at startup was ____ the ____ crankshaft.
 There ____ a ____ that faulty crankshaft ____ could ____ the failure ____ car's ____.
 ____ might cause my ____ stall during startup.
 ____ a fault ____ vehicle's crank ____ causes my ____ to stop?
 Is ____ crankshaft ____ able ____ engine ____ negatively?
 ____ car will not start ____ the ____ malfunctioning.
 Does the ____ sensor ____ startup?
 Is ____ car's ____ the beginning because my crankshaft sensor ____?
 Will ____ engine fail ____ startup ____ crankshaft sensor?
 A ____ sensor ____ cause the ____ to stall during the ____ of ____.
 ____ a problem with my ____ that could cause my ____ engine to ____?
 ____ car engine ____ start up because of ____ crankshaft ____?
 ____ there ____ crankshaft position sensor ____ start-up issues?

malfunctioning crankshaft sensor ____ cause my ____ fail ____

____ my car's ____ fail ____ the ____ due ____ a fault with ____?

Is it ____ a faulty ____ will ____ engine failures during the ____?

I ____ if ____ faulty ____ blame for ____ car engine not ____.

____ malfunctioning crankshaft position sensor ____ a ____ start ____ my ____?

Is ____ crankshaft ____ the reason for failed ____?

____ there a ____ with ____ crankshaft ____ that ____ my ____ at the beginning?

There is a ____ of ____ sensor ____ to ____ the ____ process.

The faulty ____ on ____ crankshaft ____ the reason for my ____.

The faulty ____ affect ____ startup.

____ my ____ not ____ due to ____ position sensor?

Is there a problem with my ____ Sensor, ____?

Is there ____ chance of ____ sensor ____ to engine ____ start up process?

____ is a ____ car engine ____ during startup if the crankshaft ____.

____ the crank ____ unit a cause of ____?

A bad crankshaft ____ cause the ____ the initial few ____.

Did the ____ mess ____ cause failed ____?

____ faulty crankshaft sensor ____ car's ____?

____ detector is what caused ____ issues.

____ a ____ crankshaft sensor causing the failure ____ a car's ____ during ____?

Is there a fault ____ vehicle's ____ my ____ doesn't ____?

____ engine ____ result ____ a malfunctioning crankshaft sensor.

____ crankshaft ____ cause my car engine ____ at start ____?

The ____ starts ____ a faulty crankshaft ____ sensor.

A bad ____ sensor ____ the car ____ the first few ____.

____ flawed crankshaft ____ engine's startup troubles?

____ there a ____ of faulty ____ causing ____ failures ____ startup?

____ faulty crankshaft sensor ____ car ____ at startup?

A ____ crankshaft ____ cause ____ to ____ first couple minutes of operation.

____ is ____ chance ____ crankshaft ____ causing car engine ____ during ____.

Engine failure ____ could ____ to faulty crankshaft ____.

Did ____ faulty ____ position ____ cause failed starts ____?

____ bad ____ sensor cause ____ failure ____ startup?

____ car's startup ____ due to a faulty crankshaft ____.

____ cause of ____ not responding ____ start up ____ a ____ sensor ____ crankshaft.

____ chance of a ____ crankshaft sensor causing ____ engine ____ during ____?

Is ____ problem with my vehicle's crank ____ it will ____ start ____?

____ the faulty crankshaft sensor ____ car ____ startup?

Will ____ my car from starting?

Is a faulty ____ sensor ____ failure ____ startup?

____ my ____ engine ____ at the first ____ my ____ sensor is malfunctioning?

____ faulty crankshaft sensor ____ car ____ starting?

____ there ____ wrong with ____ that my engine doesn't ____?

____ faulty sensor ____ causes ____ to fail at start-up.

Is ____ chance that ____ faulty crankshaft sensor will ____ failure during ____ a ____?

My ____ will fail at ____ first sign, due ____ with ____ sensor.

If my ____ fails ____ startup, ____ it be ____ faulty crankshaft ____?

There is a chance ____ faulty ____ the ____ of ____ car ____ startup.

Engine ____ startup can ____ by ____ faulty crankshaft ____.

____ a ____ crankshaft position sensor ____ to ____ for ____?

_____ there _____ of a faulty _____ leading _____ an engine _____ during the _____ of a _____?

Can _____ faulty crankshaft _____ be the _____ my car's _____?

Is the _____ due _____ a _____ crank sensor?

_____ there a _____ of _____ failing during startup due _____ crankshaft _____?

Is _____ risk _____ failure due to _____ crankshaft sensor during _____ of a _____?

A bad crankshaft _____ may _____ to stall within _____ couple _____.

Is _____ a _____ my vehicle's _____ sensor that is _____ from _____?

The flawed crankshaft _____ be behind _____ startup _____.

_____ faulty _____ the crankshaft is the cause of _____ failing _____.

_____ my car's engine going _____ startup _____ of _____ faulty _____ sensor?

_____ the bad _____ affect the startup _____ car?

There _____ chance _____ sensor leading to engine _____ during _____ startup stage _____ car

_____ a _____ my _____ Sensor causing it not to _____?

The crank _____ on _____ vehicle _____ causing _____ to _____.

Is the _____ detection unit _____ of _____ stalling _____ ignition _____?

_____ it _____ the _____ crankshaft sensor can _____ up?

Would a _____ crankshaft _____ cause a _____ start _____ vehicle?

_____ engine _____ my _____ failed _____ because _____ faulty _____ on the crankshaft.

_____ a bad _____ result in a _____ to _____ car?

Is the _____ of a _____ crankshaft _____?

The _____ starting issues _____ be _____ a faulty _____.

_____ sensor _____ crankshaft causes _____ car engine to fail _____ starts.

_____ faulty sensor on _____ crankshaft causes _____ engine _____ the start.

Is the _____ at _____?

At startup is _____ faulty _____ sensor _____ car _____?

Is _____ for _____ crankshaft _____ to _____ start up?

My car _____ at _____ beginning _____ due _____ flawed crankshaft _____.

_____ engine _____ to a malfunctioning crankshaft _____?

The _____ may _____ the _____ couple _____ of startup due to a _____.

_____ bad crankshaft sensor the _____ of _____ failure?

_____ a fault with the _____ crank _____ preventing _____ from starting?

The reason my _____ at _____ due _____ faulty _____ on the crankshaft.

_____ an _____ crankshaft _____ cause your car not _____?

_____ is _____ faulty crankshaft sensor _____ of my _____?

_____ flawed crankshaft sensor could _____ the _____.

_____ faulty sensor _____ the crankshaft is _____ my _____ failing _____ startup

_____ bad crankshaft _____ may cause the _____ stall _____ in _____ few _____.

There is a _____ of _____ crankshaft sensor _____ lead _____ car _____ during _____ up process.

_____ there a _____ that contributes to failed _____ my car?

_____ my _____ engine _____ fail at startup because of _____ crankshaft sensor?

_____ car engine _____ at startup _____ on _____ crankshaft was _____.

There _____ a _____ crankshaft sensor leading to _____ failures _____ startup.

The _____ engine _____ to start is _____ faulty sensor _____ the _____.

_____ the _____ crankshaft _____ affect _____ engine _____ negatively?

_____ faulty _____ on the crankshaft is what _____ engine _____ fail _____.

_____ crankshaft position sensor to _____ for failed starts _____?

The _____ crankshaft _____ cause my car engine _____ fail at _____.

Is _____ flawed _____ responsible for stalling _____ at _____ beginning?

A _____ sensor on the crankshaft _____ the reason _____ car _____.

_____ may _____ at _____ first sign because _____ a _____ with my _____ sensor.

_____ wonder if _____ faulty crankshaft sensor is _____ blame _____ failing at _____.
 Is there a possibility _____ a faulty crankshaft _____ of _____ engine _____?
 _____ the _____ sensor interfere _____ my _____ startup?
 A bad _____ can cause a car _____ during the _____ start _____.
 _____ engine will _____ at the _____ a fault _____ the crankshaft _____.
 _____ reason my car engine fails _____ faulty _____ on _____ crankshaft.
 _____ vehicle's crank sensor _____ that _____ engine doesn't _____?
 _____ crankshaft position sensor to blame for failed _____?
 _____ flawed crankshaft _____ affect _____ engine's _____?
 _____ car having start _____ because of _____ crankshaft _____ sensor?
 My _____ stalling at the _____ is _____ by a _____.
 _____ the _____ crankshaft _____ able to _____ engine _____ negatively?
 _____ a chance _____ a faulty _____ sensor causing engine _____ the start up _____ car.
 A bad crankshaft _____ to _____ the starter _____?
 _____ crankshaft position sensor _____ cause of failed _____ vehicle?
 _____ an ineffective crankshaft sensor _____ to _____ start?
 _____ fail _____ start _____ of a problem with _____ crankshaft sensor.
 The _____ crank Sensor _____ not to _____.
 The flawed _____ sensor _____ be _____ cause of _____ troubles.
 Is _____ damaged _____ position _____ the _____ of my _____ start-up _____?
 Is a _____ crankback detector _____ for _____ startup?
 _____ the _____ crankshaft _____ effecting my _____?
 _____ car engine _____ start _____ the faulty sensor on the _____.
 _____ the crankshaft _____ malfunctioning and my _____ fails _____?
 _____ there a _____ crank _____ and my engine _____ start?
 The _____ on the crankshaft is _____ cause of _____ engine _____.
 A _____ crankshaft sensor _____ my engine _____.
 Is a _____ sensor _____ for my _____ vehicle?
 _____ a _____ problem that will stop _____ from starting?
 _____ flawed _____ sensor _____ your _____ to not start?
 A bad crankshaft sensor _____ cause _____ car to _____ during _____ minutes _____.
 A bad _____ sensor _____ cause the _____ to _____ the first _____ of _____.
 _____ faulty _____ sensor _____ cause _____ my car's startup _____ failure?
 The _____ the _____ engine to fail at start-up.
 Is _____ car's _____ sensor _____ my engine doesn't _____?
 When _____ car starts _____ fail _____ of _____ crankshaft sensor.
 _____ bad crankshaft _____ startup _____?
 Is _____ faulty _____ sensor that could cause _____ failures _____ the start up _____?
 _____ sensor malfunctioning _____ the engine _____?
 The bad _____ detector is _____ for _____.
 _____ doesn't start because of a _____ the _____.
 _____ failure of _____ car _____ during _____ up _____ be _____ by _____ faulty crankshaft _____.
 _____ bad _____ may _____ car _____ stall _____ first couple minutes of startup.
 _____ faulty sensor _____ the _____ my _____ to fail at _____.
 The _____ crankshaft _____ cause of starter issues.
 _____ the fault with my _____ Sensor _____ it _____ not _____?
 _____ faulty _____ on the crankshaft is _____ cause _____ my car _____ start _____.
 Does _____ crankshaft sensor affect the _____?
 My car _____ stall at startup _____ sensor.
 _____ there _____ with my vehicle's crank _____ that _____ not start?

____ my ____ fail ____ startup when ____ sensor is ____?
 The ____ of ____ car engine ____ at startup is ____ crankshaft.
 ____ isn't responding ____ up because ____ faulty sensor ____ the crankshaft.
 Should start-up ____ failures be ____ a ____ sensor?
 ____ crankshaft ____ may stop my ____ from ____.
 Is there ____ with my ____ sensor, ____ my ____ doesn't ____?
 ____ the first ____ of ____ the ____ may ____ because of a ____ sensor.
 ____ a ____ crankshaft ____ cause ____ startup failure ____ my ____?
 Engine ____ be due ____ the faulty ____ sensor.
 The ____ sensor on ____ crankshaft ____ reason ____ my car engine ____.
 ____ failure ____ startup was ____ by ____ crankshaft ____.
 Will a ____ crankshaft sensor stop ____ from ____?
 Did ____ sensor ____ my ____ startup?
 ____ a faulty ____ sensor the ____ of my ____ not ____?
 Is there ____ problem ____ sensor ____ my engine to fail at ____?
 ____ car ____ the first few ____ start ____ due to a bad ____.
 ____ the bad ____ sensor ____ failure ____ startup?
 ____ startup can a bad ____ engine?
 ____ the bad crankshaft ____?
 My car's ____ will ____ at startup ____ I have a ____.
 Does ____ bad ____ car fail when starting?
 ____ there a chance ____ faulty ____ cause ____ failures during ____?
 Is there ____ fault ____ crank Sensor ____ my engine ____?
 Engine ____ startup ____ be ____ by faulty crankshaft ____.
 A ____ may ____ car to stall within ____ first ____ minutes of ____.
 ____ is a chance of ____ crankshaft ____ during start-up.
 A bad ____ the ____ to ____ the ____ couple of minutes ____ startup.
 My ____ up because ____ faulty ____ on the crankshaft.
 ____ a ____ crankshaft ____ contribute ____ the failed starts?
 My ____ engine ____ at ____ is ____ to the ____ sensor on ____.
 Are start-up ____ a problem ____ crankshaft sensor?
 When ____ starts, ____ the ____ malfunctioning?
 ____ failure ____ startup ____ possible ____ faulty crankshaft sensor.
 My ____ fail at startup ____ the crankshaft ____.
 ____ engine ____ my car ____ at ____ start because ____ a fault ____ crankshaft ____.
 Is ____ fault ____ car's crankshaft sensor that ____ cause it ____ fail ____?
 ____ the ____ sensor cause ____ engine to fail ____?
 ____ could be ____ crankshaft ____ that causes ____ engine ____.
 Is a ____ responsible for ____ failure ____ start ____?
 ____ engine failure ____ is linked ____ crankshaft sensor.
 Does the ____ affect engine ____?
 ____ there ____ chance ____ a faulty ____ sensor leading ____ failures ____ startup?
 ____ faulty crankshaft sensor ____ cause ____ engine failures ____ startup?
 ____ that a ____ crankshaft ____ could ____ the failure ____ the ____ engine during ____ start up?
 I wonder if a faulty ____ sensor ____ car ____ startup.
 There ____ a ____ a faulty crankshaft sensor ____ failure of ____ car's ____.
 ____ my car fail ____ starts due ____ the faulty ____?
 Is ____ engine ____ by ____ malfunctioning ____ sensor?
 A ____ sensor on ____ crank causes my ____ engine ____.
 ____ the ____ with ____ stop the ____ from starting?

A bad ____ sensor ____ the ____ to ____ during ____ first ____ of minutes _____.
 _____ may stall during ____ first _____ because of a bad crankshaft _____.
 Is my _____ by a ____ crankshaft sensor?
 Is _____ sensor a cause ____ startup failure _____ car?
 A malfunctioning _____ blame ____ start up engine failures.
 _____ my engine _____ is there a _____ crank _____?
 My _____ doesn't start, _____ with my vehicle's ____ Sensor?
 _____ a _____ my vehicle's _____ that will cause my engine _____ if _____ start it?
 _____ flawed ____ sensor to have an impact on engine ____?
 Does a _____ my car's ____?
 _____ crankshaft ____ may be ____ blame _____ start issues.
 _____ faulty ____ sensor ____ the car's start ____?
 Is ____ a ____ of ____ faulty crankshaft _____ engine ____ during ____ start ____ process?
 Car _____ at startup ____ be due to a _____.
 _____ engine ____ to ____ at startup because of a fault _____ sensor?
 _____ there a ____ that a _____ cause _____ engine failures ____ startup?
 _____ if ____ faulty ____ sensor ____ responsible _____ car ____ failing at startup.
 _____ there _____ with my vehicle's ____ sensor ____ my engine ____ fail ____ it ____?
 Is it possible _____ crankshaft sensor _____ startup ____?
 The ____ crankshaft ____ is ____ blame ____ the ____ issues.
 _____ engine fails ____ the _____ is there a fault with ____ crankshaft ____?
 Does _____ problem cause my engine ____ fail at _____?
 _____ there a _____ faulty crankshaft _____ to _____ during start up?
 Is an ____ crankshaft _____ problem ____ the ____ starts?
 _____ bad _____ cause the car to ____ during _____ couple ____ of operation.
 Is _____ engine failure due to _____ sensor?
 There ____ a chance of _____ crankshaft _____ failure _____ car engine in the _____.
 _____ due ____ faulty crankshaft sensor?
 _____ sensor on the crankshaft ____ my _____ fail at ____ up.
 _____ it _____ faulty crankshaft _____ responsible for engine failure ____ startup?
 Is _____ with my ____ sensor ____ will cause my ____ to fail _____?
 _____ malfunctioning due ____ the faulty crankshaft ____ at ____?
 Bad ____ detector ____ be _____ for ____ issues.
 _____ wonder if _____ crankshaft sensor ____ to blame for _____ startup.
 Is ____ a _____ malfunctioning _____ failure during the startup process?
 A ____ crankshaft _____ be ____ start-up issues.
 A bad ____ sensor ____ cause a ____ to _____ first couple of _____.
 Is the flawed ____ sensor ____ to _____?
 Is ____ a ____ with my vehicle's ____ Sensor and my _____ is ____?
 _____ car's _____ to fail at the _____ to ____ problem with my ____ sensor?
 _____ crankshaft position sensor might be _____ of _____.
 _____ there ____ chance of _____ sensors causing _____ start up?
 _____ it _____ engine failures to be ____ by a ____ crankshaft ____?
 _____ if _____ sensor contributes to failed starts in my _____.
 _____ my _____ troubles ____ by ____ flawed crankshaft sensor?
 The _____ on the _____ engine to not _____.
 Is _____ crankshaft sensor the reason _____ failures?
 _____ starts would ____ caused _____ faulty ____ position sensor.
 _____ of engine ____ due to faulty ____ sensor _____ start of ____ car?
 _____ there ____ problem with ____ car's crank _____ my ____ doesn't ____?

The faulty crankshaft _____ my _____ to stall at _____.

Is _____ a _____ of _____ engine _____ startup because of a _____ sensor?

_____ my engine malfunctioning _____ faulty crankshaft _____?

_____ the engine _____ due to _____ sensor _____?

I _____ if the flawed _____ sensor _____ the _____ engine's startup _____.

The faulty sensor _____ the _____ my car engine _____.

My car _____ at start up _____ of a faulty _____ crankshaft.

_____ chance that _____ crankshaft _____ cause the failure _____ the _____ during startup?

_____ a _____ crankshaft sensor _____ will stop _____ from starting?

A bad crankshaft sensor _____ the car to _____ first _____ of _____.

_____ it possible _____ the _____ sensor _____ affect the _____ up?

Is there a _____ Sensor _____ engine failures _____ the _____ process?

Is there a fault _____ my _____ Sensor, _____ my _____?

Is it _____ that _____ faulty _____ sensor _____ engine failures _____ the _____ process?

During _____ first _____ of startup, _____ due to a _____ crankshaft sensor.

Is _____ chance _____ faulty _____ causing a car's engine to _____ during _____?

Is _____ fault with _____ vehicle's crank _____ that's _____?

_____ car's start-up _____ caused _____ a damaged _____ position _____?

A _____ sensor on the _____ is _____ cause _____ car _____ starting _____.

_____ possible that _____ crankshaft _____ could _____ engine failures during _____ up process?

Is my crankshaft _____ malfunctioning _____ my _____ to fail at _____?

During _____ few _____ operation, the car may _____ due _____ a bad _____.

_____ there a _____ Sensor _____ cause it to fail when _____ startup?

There is _____ a _____ sensor will _____ car _____ during the start _____ process.

_____ malfunctioning _____ responsible for _____ failure during start _____?

Is it _____ the flawed _____ will _____ engine start _____?

_____ bad _____ sensor may cause _____ the first _____ minutes of _____ up.

_____ it _____ for _____ flawed crankshaft sensor to _____ an _____ engine _____?

A _____ sensor may _____ the car _____ stall during _____ of _____.

Is a damaged crankshaft _____ sensor _____ start-up _____?

Problems with _____ sensor at _____ of the _____?

A _____ crankshaft position _____ causing _____ issues.

My car engine sputtering _____ of _____ faulty sensor _____ crankshaft.

bad crankshaft _____ is _____ for _____ start _____.

_____ my car fail _____ due to _____ sensor?

_____ the crankshaft _____ causing my _____ to fail _____ start?

_____ bad crankshaft sensor affect _____?

_____ sensor _____ at startup?

_____ possibility _____ faulty crankshaft sensor _____ the failure of the _____ engine _____?

_____ my car's _____ Sensor _____ my _____ doesn't start?

_____ engine will fail at _____ the faulty _____ on the _____ is _____.

Can the faulty _____ disrupt _____?

Is _____ my _____ that _____ cause my engine _____ fail when I start _____?

Is _____ chance of _____ engine _____ during the _____ stage of _____ faulty crankshaft sensor?

_____ a problem _____ vehicle's _____ sensor _____ is causing _____ not _____ start?

Is it _____ a faulty crankshaft _____ cause engine failure _____?

_____ a _____ with _____ vehicle's _____ Sensor _____ engine won't work?

There _____ a _____ that _____ flawed crankshaft _____ engine startup negatively.

Is _____ a faulty crankshaft sensor could cause _____ failure _____?

_____ first few minutes of _____ stall due _____ a _____ crankshaft sensor.

The ____ might stall during ____ of startup because of ____ crankshaft ____.

____ am ____ if ____ can cause startup failure in ____ car.

____ with my ____ crank Sensor that ____ don't start?

____ problem caused by a ____ crank sensor?

Is ____ engine ____ starting because of ____ the ____ Sensor?

____ possible for a faulty ____ cause engine failure ____ stage ____ a car?

My ____ engine does not start ____ due ____ faulty ____ crankshaft.

Is there ____ fault with ____ crankshaft ____ cause ____ engine ____ fail ____ the first ____?

____ faulty crankshaft ____ sensor ____ reason for ____ my vehicle?

____ failure ____ start up may be caused by ____.

Is ____ having trouble ____ due ____ damaged crankshaft position ____?

____ crankshaft position sensor causing my ____ start-up ____?

The engine ____ of the ____ sensor on the ____.

____ there a ____ of ____ engine ____ if there is ____ faulty ____ sensor?

____ engine ____ start ____ of the ____ sensor ____ the crankshaft.

Engine ____ startup is ____ faulty ____ sensor.

The ____ car ____ sputtering ____ startup ____ a ____ crankshaft sensor.

____ there ____ chance of a faulty crankshaft sensor ____ failure ____ the ____ of ____ car?

Does ____ faulty ____ sensor have an ____ startup?

The engine can fail on ____ is ____.

I ____ faulty crankshaft ____ for my car's start issues.

Is ____ a ____ faulty ____ sensor ____ engine ____ during the ____ up process?

____ my ____ have ____ issues because of ____ damaged ____?

____ the ____ crankshaft ____ my car from ____?

Start-up ____ be ____ result of ____ malfunctioning crankshaft ____.

____ start up engine failures caused by ____?

____ it possible for the ____ affect the ____ start ____?

____ engine will fail at ____ beginning ____ of a ____ crankshaft ____.

____ faulty ____ position sensor ____ the failed starts in ____?

Is a faulty ____ responsible ____ engine ____ beginning?

____ startup because ____ sensor on ____ crankshaft was malfunctioning.

____ way for ____ flawed ____ sensor to ____ engine ____ up?

The ____ sensor ____ the ____ causes my vehicle ____ to ____.

____ engine may ____ at the ____ of a ____ with my ____.

____ sensor ____ crankshaft is ____ my car engine ____ fail ____ start up.

____ there a ____ of faulty crankshaft ____ leading to ____ beginning?

My ____ startup ____ caused by ____ crankshaft sensor.

____ is ____ chance ____ crankshaft ____ causing car engine failure ____.

There is ____ a ____ crankshaft sensor ____ failure of ____ car's ____ during ____

Is ____ sensor a ____ engine failures during ____ startup ____?

Is ____ crankshaft sensor to cause ____ start-up engine ____?

My ____ could be ____ a faulty crankshaft ____.

____ a chance of a ____ crankshaft ____ causing ____ engine failure during ____ initial stages ____?

The ____ on the crankshaft ____ reason ____ engine ____ start.

I wondered ____ sensor ____ cause ____ car ____ to fail at ____.

Is it possible ____ the flawed ____ affect engine ____?

____ a ____ sensor to ____ for my engine ____?

My ____ may ____ startup ____ of ____ bad ____ sensor.

Is ____ fault with ____ Sensor that ____ from starting?

____ car not ____ because of ____ with ____ crankshaft ____ sensor?

_____ bad crankshaft sensor _____ car to stall _____ the _____ few _____ of _____.

Is it _____ the _____ to _____ engine start up?

_____ a possibility that _____ faulty _____ lead _____ engine _____ during the startup _____.

The _____ because of _____ sensor on the crankshaft.

_____ crank Sensor _____ my _____ not start.

_____ of my _____ engine not _____ at _____ the faulty _____ the crankshaft.

_____ there a problem with _____ Sensor that will _____ during startup?

My car engine _____ respond to _____ because _____ the _____ sensor on _____.

_____ the first couple of _____ of operation, the _____ a bad _____.

_____ faulty crankshaft _____ be behind my _____ troubles.

_____ the car fail _____ up if the crankshaft _____?

Is there _____ my _____ that my engine does not _____?

_____ my _____ sensor malfunctioning _____ engine to fail _____ the beginning?

_____ crankshaft sensor possible _____ engine startup negatively?

A _____ crankshaft sensor _____ the _____ to _____ in _____ initial _____ startup.

Is _____ cause _____ my car _____ failing _____ due _____ a _____ sensor?

My _____ won't start _____ is a _____ crankshaft _____.

_____ my _____ engine going to _____ startup _____ of _____ crankshaft sensor?

The _____ sensor _____ the crankshaft _____ my _____ to _____ start-up.

_____ faulty crankshaft position sensor cause _____ car?

_____ car engine _____ startup _____ the faulty sensor on _____.

Is my _____ starting because of _____ crankshaft position _____?

_____ the crankshaft _____ malfunctioning and causing _____ fail?

Is a faulty crankshaft _____ the _____ starting?

_____ there _____ problem with _____ crank _____ that is _____ vehicle to _____?

_____ faulty _____ the crankshaft causes _____ engine to fail _____.

_____ faulty crankshaft _____ the _____ of my car _____?

_____ failed starts _____ be _____ by a faulty _____.

Will _____ crankshaft _____ stop _____ car from _____?

A _____ sensor _____ ruin the _____ startup.

A _____ sensor can cause the _____ to _____ during the _____ up.

I _____ a bad crankshaft sensor will _____ my _____ from _____.

_____ malfunctioning crankshaft _____ cause _____ car to _____ start?

Is _____ a _____ my vehicle's crank _____ and it _____?

Could _____ to blame for _____ failure?

Is _____ crankshaft _____ problem _____ reason _____ car engine _____ up?

_____ a chance that _____ sensor _____ cause the car _____ to _____ during _____?

_____ my _____ starting issues _____ to a _____ crankshaft _____?

_____ my _____ startup _____ failure due to _____ sensor?

Does _____ crankshaft _____ interrupt my _____ up?

Is _____ problem _____ my car engine _____ fail at _____?

Car _____ during startup _____ be caused _____ a faulty _____.

_____ car _____ failed _____ because _____ faulty sensor _____ the crankshaft.

My _____ starting _____ be the result of _____ sensor.

_____ is not starting because _____ the crank Sensor.

_____ is _____ fault _____ my vehicle's crank _____ that _____ it _____ start.

_____ malfunctioning crankshaft _____ cause my _____ fail _____ startup.

Is there _____ my _____ Sensor _____ doesn't start?

_____ there a fault _____ crank Sensor _____ is _____ to start?

_____ chance that a _____ can _____ engine failures during the _____ process?

_____ the _____ my car malfunctioning, that _____ engine doesn't _____?
 Is there _____ fault _____ my vehicle's crank _____ engine _____ startup?
 _____ bad crankshaft sensor _____ from starting?
 _____ crankshaft _____ cause an _____ failure during startup?
 My _____ issues _____ be caused by _____ sensor.
 _____ starting issues may _____ a malfunctioning crankshaft _____.
 Is there a problem _____ Sensor _____ stops _____ from starting?
 The sensor on the _____ that _____ causes _____ at start-up.
 There is a chance that _____ faulty _____ failures _____ start _____ process.
 _____ crankshaft position sensor _____ failed starts _____ my vehicle?
 Does _____ faulty crankshaft _____ sensor cause a _____ car?
 _____ a faulty _____ sensor _____ failure _____ a car?
 _____ that a _____ crankshaft sensor _____ engine _____ during the startup stage _____ car?
 The _____ at _____ the _____ on the crankshaft _____ faulty.
 _____ my car not responding _____ up is _____ faulty sensor _____ the _____.
 A malfunctioning crankshaft _____ failures.
 _____ the faulty _____ affect _____ car _____?
 Is the crankshaft _____ enough to _____ car _____?
 _____ a malfunctioning crankback _____ have _____ engine _____ during startup?
 _____ there a _____ with _____ crank _____ that is _____ not to _____?
 Is there _____ vehicle's crank _____ it to _____ when it starts?
 Is _____ chance _____ crankshaft _____ causing engine _____ during start-up?
 There is a _____ faulty crankshaft _____ engine _____ during _____ start _____ process.
 My _____ stalls at startup due _____ crankshaft _____.
 _____ faulty _____ sensor responsible for an _____ startup?
 Is it _____ that _____ sensor will _____ my car _____?
 Is a _____ sensor a _____ for _____ engine _____?
 Does _____ cause failure _____ startup?
 The _____ engine fails at start-up _____ faulty sensor _____.
 _____ is _____ my vehicle's crank sensor and _____ isn't _____.
 _____ chance of _____ causing engine _____ during the startup process.
 _____ engine failures possibly caused _____ malfunctioning _____ sensor?
 There _____ my vehicle's _____ Sensor _____ my engine doesn't _____.
 _____ not responding to start _____ is the _____ sensor on _____ crankshaft.
 Is _____ of a faulty crankshaft _____ at _____?
 _____ is a _____ sensor that _____ failures during the start up process.
 Is a faulty _____ a _____ the startup process?
 Is _____ failed starts _____ crankshaft position sensor?
 Can a _____ crankshaft _____ cause my _____ not _____?
 The _____ sensor _____ disrupt my _____.
 _____ car engine failed at _____ when _____ on _____ crankshaft _____.
 _____ car _____ fail at _____ because of _____ crankshaft _____.
 During _____ first _____ startup _____ car may _____ because _____ a _____ crankshaft sensor
 There _____ a _____ of _____ crankshaft sensor _____ cause _____ failure during _____.
 Is _____ engine _____ from _____ broken crank _____?
 Is _____ that a _____ crankshaft sensor will _____ engine _____ during _____ up _____?
 _____ crankshaft sensor _____ cause the _____ to _____ in _____ first few _____.
 Does _____ faulty crankshaft _____ my car _____ to fail _____?
 _____ there _____ risk _____ leading _____ engine failure during startup?
 _____ car _____ starting because of _____ crankshaft position _____?

____ car ____ fails at ____ when the ____ crankshaft ____ faulty.
 ____ a fault ____ that will cause the ____ fail at the ____?
 My car stalling ____ beginning is ____ a ____ sensor.
 Can a ____ cause your car ____ start ____?
 ____ my ____ crank Sensor ____ to not ____?
 ____ sensor the ____ of failed starts in ____ vehicle?
 Is my ____ crank Sensor ____ that my ____?
 ____ on ____ cause my ____ engine to ____ at start-up.
 Bad ____ detector is ____ blame ____?
 ____ there a ____ with ____ vehicle's crank ____ which ____ not to ____?
 ____ possibility of ____ sensor ____ to engine failures during ____ up?
 I was ____ a ____ was ____ for ____ car engine failing at ____.
 Is it possible ____ to affect ____ engine startup?
 Is ____ start-up engine failing ____ a ____ sensor?
 There ____ faulty ____ sensor causing the failure ____ the car ____ during ____ start ____.
 Would a ____ crankshaft ____ be ____ failed starts?
 ____ a broken ____ sensor ____ for engine ____ startup?
 Is a ____ sensor a ____ for ____ starts?
 Is ____ vehicle's ____ my engine ____ when it starts?
 There is a chance of ____ crankshaft ____ during startup.
 ____ cause ____ failing at startup was ____ sensor ____ the crankshaft.
 My ____ failed to start ____ because of ____ faulty ____.
 ____ car's ____ engine ____ related to a ____ crankshaft sensor.
 Is ____ fault with ____ vehicle's crank ____ engine ____ start?
 Can ____ crankshaft ____ your car ____ start properly?
 Can a ____ be ____ engine failure during ____ up?
 ____ chance that a ____ sensor ____ cause ____ engine to fail during ____ start ____?
 ____ a ____ with ____ vehicle's ____ Sensor ____ cause my engine to ____ it's started?
 ____ car engine ____ to start ____ to ____ on ____ crankshaft.
 ____ startup, is ____ malfunctioning?
 During startup, ____ bad crankshaft sensor ____?
 ____ a fault ____ my vehicle's crank ____ that is ____ from ____?
 Is my ____ engine going to ____ at startup ____ a ____ with ____?
 ____ starter ____ the bad crankshaft detector
 ____ engine ____ my ____ fail at ____ a ____ with my crankshaft sensor.
 ____ it ____ my ____ to fail at ____ because of a faulty ____?
 Is there a fault ____ the ____ sensor that ____ engine ____ at ____?
 The ____ sensor ____ disrupt my ____.
 ____ failure ____ could be caused by ____ sensor.
 ____ a bad crankshaft ____ blame ____ my car ____?
 Is there ____ a ____ sensor could cause ____ failures ____ startup?
 faulty crankshaft sensor could cause ____ car's ____ start
 My car ____ of a fault ____ the ____.
 ____ there ____ problem ____ crankshaft ____ that ____ car ____ to fail at ____ up?
 Is ____ sensor could affect ____ engine startup?
 Is there a ____ of ____ sensor that ____ cause ____ failures ____?
 ____ faulty sensor on the crankshaft ____ cause of ____ car ____.
 Is a bad crankshaft ____ engine ____ during ____?
 ____ sensor might stop my ____ from ____.
 Can a faulty ____ be ____ for my car's ____?

Does ____ bad crankshaft ____ affect the ____ ____ ?

____ car's ____ will ____ at the start if ____ fault ____ crankshaft sensor.

The ____ on the crankshaft ____ reason ____ engine failed ____ startup.

Is ____ car's engine malfunctioning because ____ broken ____ ?

Is a ____ to ____ for ____ car's failure ____ startup?

A faulty ____ crankshaft is ____ cause of ____ startup.

____ might be the cause ____ car engine failing at ____ .

Is there a ____ sensor that could ____ car's ____ fail ____ the start?

____ the ____ crankshaft sensor cause my ____ engine ____ fail ____ ?

____ the ____ crankshaft sensor ____ startup?

There is ____ chance ____ crankshaft ____ could affect ____ negatively.

____ failure ____ be ____ by malfunctioning crankshaft sensor.

My ____ engine fails ____ startup due ____ on ____ crankshaft.

The faulty sensor on ____ the ____ of ____ failing at ____ .

____ cause of my car ____ failing at ____ is ____ the ____ .

I wonder ____ malfunctioning ____ is behind ____ car's starting ____ .

____ crankshaft sensor affect my ____ ?

____ bad crankshaft ____ can ____ car ____ stall in the ____ minutes.

____ start-up ____ failures ____ to a malfunctioning crankshaft ____ ?

Does ____ flawed ____ sensor ____ startup troubles?

A bad ____ may cause ____ car ____ minutes of startup.

Is ____ chance of ____ crankshaft sensor ____ engine ____ startup?

____ car ____ problems ____ up because of a damaged ____ sensor?

Will ____ faulty crank sensor stop ____ ?

Is the faulty ____ blame ____ my ____ stalling ____ the ____ ?

Is a ____ sensor ____ my car stalls ____ ?

____ the ____ failures ____ by a malfunctioning crankshaft ____ ?

____ is a possibility that a ____ is ____ engine failing at startup.

Is ____ faulty ____ to ____ for my car's startup ____ ?

Will ____ problem ____ crankshaft sensor ____ car ____ starting?

There is a ____ crankshaft ____ can ____ engine failures during the ____ .

____ startup will ____ car ____ the ____ crankshaft sensor?

____ crankshaft detector is ____ blame ____ starter ____ .

____ crankshaft sensor cause ____ not start properly?

____ failure of ____ start could ____ the result of a ____ crankshaft ____ .

____ a faulty ____ sensor to ____ failure?

____ bad ____ cause ____ car to ____ in ____ couple of minutes of ____ .

____ fault with my vehicle's ____ that my ____ fail ____ it is ____ ?

Is ____ fail ____ startup due to ____ fault in my ____ sensor?

____ sensor ____ may cause ____ car ____ fail ____ start up.

____ of a ____ sensor ____ engine failure ____ the startup ____ of a car?

Is it possible ____ the flawed ____ affect ____ engine ____ ?

Is ____ troubles due ____ flawed crankshaft sensor?

____ a ____ crankshaft ____ causing start-up ____ ?

Is a faulty ____ position sensor ____ in ____ vehicle?

____ sputtering ____ startup is caused ____ a faulty ____ on ____ crankshaft.

____ a problem ____ Sensor ____ my engine to ____ when it starts?

____ cause of my ____ engine failing ____ was ____ the crankshaft.

____ car may stall ____ first ____ minutes of ____ up due ____ bad ____ sensor.

____ may ____ in the first ____ startup ____ a bad crankshaft sensor.

I wonder if a _____ causing _____ starting issues.
 _____ a _____ crankshaft sensor stop _____ starting?
 _____ sensor on _____ crankshaft causes _____ engine to fail when _____.
 _____ my car's _____ Sensor malfunctioning and _____ engine _____?
 Will _____ stop my car _____ starting up?
 _____ there a _____ a _____ crankshaft _____ to the failure of _____ car _____ the start _____?
 _____ there _____ chance _____ sensor causing engine _____ during the _____ of a _____?
 _____ the _____ detection unit _____ of _____ stalled ignition _____?
 _____ crankshaft _____ affect _____ startup of the engine?
 _____ am wondering if a _____ crankshaft sensor _____ blame _____ my _____ the _____.
 My car's _____ at _____ beginning _____ of _____ with my crankshaft _____.
 The engine _____ car will _____ the _____ of a _____ the _____ sensor.
 _____ of _____ sputtering at _____ up _____ a faulty _____ on the _____.
 _____ it possible that _____ sensor _____ the engine's startup?
 My _____ my vehicle's crank sensor.
 A _____ a _____ to stall _____ first couple minutes of start _____.
 Is the _____ problem causing my _____ fail at _____?
 There may _____ start-up engine _____ of _____ crankshaft _____.
 Will the _____ crankshaft sensor _____ car to _____?
 _____ a faulty _____ sensor _____ of _____ car's _____ issues?
 I _____ if _____ faulty crankshaft sensor _____ responsible _____ my _____.
 _____ car's engine _____ start if there is a fault _____ sensor.
 A _____ sensor _____ to stall during the first couple of _____.
 _____ there a _____ that a _____ will _____ due to _____ faulty crankshaft _____?
 Will _____ with _____ sensor _____ me from starting _____ car?
 The cause _____ engine _____ up was the _____ on the crankshaft.
 _____ crankshaft sensor _____ the _____ to _____ during _____ first _____ of minutes.
 _____ malfunctioning crankshaft sensor result _____ car not _____?
 _____ there _____ with my car's _____ that my _____ won't _____?
 _____ there _____ that _____ sensor _____ failure during the startup process?
 _____ a _____ that _____ sensor will lead to engine failure _____ startup _____?
 _____ is _____ of _____ car's engine _____ during _____ if the _____ sensor is _____.
 _____ a bad _____ engine in the beginning?
 During the first few _____ of startup, _____ may _____ to _____ bad _____.
 _____ there _____ chance that _____ crankshaft _____ engine _____ during startup?
 The _____ sensor problem causes my car _____ to _____.
 Is it _____ that _____ fails due _____ a malfunctioning _____?
 _____ a _____ with _____ vehicle's _____ that my _____ does not start?
 Should a faulty crankshaft _____ cause _____ start _____ my _____?
 _____ crankshaft _____ affect _____ start up.
 _____ flawed crankshaft sensor _____ to _____ my _____ stalling?
 _____ failure _____ due to _____ sensor?
 _____ a _____ crankshaft component _____ your _____ not start?
 Will my car's _____ fail _____ because of _____ crankshaft _____?
 _____ a bad crankshaft sensor _____ cause _____ failure during _____?
 A bad _____ sensor may cause _____ couple of minutes.
 _____ faulty crankshaft sensor _____ car to fail when _____?
 _____ car's _____ fail at _____ first _____ fault _____ my _____ sensor is not fixed.
 _____ car engine fails at startup _____ sensor _____ crankshaft _____.
 The sensor on _____ crank _____ my car _____ at _____.

____ my vehicle's crank Sensor ____ it from ____?
 ____ faulty ____ sensor disrupt ____ car's ____ up?
 ____ detector related to engine ____ during startup?
 Can ____ faulty ____ failures during startup?
 Is there ____ faulty ____ cause engine failures during ____ up?
 Is ____ chance that a car's ____ could fail ____ of ____ crankshaft ____?
 Is the faulty ____ disrupting ____ start ____?
 ____ there a chance ____ a faulty ____ sensor ____ engine failure during the ____?
 ____ faulty crankshaft ____ my vehicle ____ starting?
 ____ faulty ____ the crankshaft ____ blame ____ my car ____ not ____ to start ____.
 There is ____ the flawed ____ sensor ____ engine startup ____.
 ____ with my crankshaft sensor ____ cause my car's engine to fail ____ sign.
 ____ bad crankshaft ____ what may cause ____ car ____ first few minutes ____ startup.
 The ____ on the ____ my engine to ____ start.
 ____ my car failing ____ to ____ sensor ____ startup?
 Is ____ vehicle's crank ____ that my engine ____ when ____ started?
 The ____ a ____ crankshaft sensor during the ____ few ____ of operation.
 Is ____ chance of ____ car ____ during startup if ____ crankshaft sensor ____?
 Is ____ chance of ____ crankshaft sensors ____ failures in ____?
 ____ engine ____ at ____ is a faulty crankshaft sensor.
 ____ there ____ chance of engine ____ during the ____ stage of a ____ a ____ crankshaft ____?
 My ____ doesn't ____ of ____ Sensor.
 ____ car engine problem caused by the ____?
 Is ____ car failing ____ start ____ a ____ with ____ crankshaft position ____?
 The car's ____ could ____ disrupted ____ the ____ crankshaft ____.
 ____ car ____ start ____ due to the faulty ____ on ____ crankshaft.
 ____ a faulty crankshaft sensor ____ to ____ my car's ____?
 Is ____ the start-up engine fails because ____ malfunctioning ____?
 The reason ____ engine ____ not start up ____ due to ____ the ____.
 ____ a ____ with my ____ Sensor that does ____ start?
 A ____ crankshaft sensor could ____ car to ____ in ____ first ____ startup.
 The faulty ____ on ____ crankshaft ____ the cause ____ car ____ responding ____ up.
 Is ____ a ____ my ____ crank ____ isn't starting?
 Is ____ possible ____ crankshaft sensors ____ engine failures ____ startup?
 Can a bad crankshaft sensor ____ in ____?
 A ____ position ____ be the cause of ____.
 The car ____ to ____ the faulty sensor ____ the crankshaft.
 ____ the faulty ____ with ____ car's start-up?
 ____ my engine ____ start ____ a fault ____ the crank ____?
 ____ there a ____ with ____ crank Sensor, that ____ engine ____ it is ____?
 ____ there ____ problem with ____ crank Sensor that ____ my car ____?
 ____ at ____ a faulty sensor on the crankshaft.
 Is ____ a ____ faulty ____ causing ____ failures during ____ up?
 Would a ____ failed starts in my ____?
 faulty sensor on ____ causes ____ to fail ____ start-up
 The ____ sensor ____ crankshaft ____ engine to ____ at start-up.
 My car ____ to ____ because ____ a faulty ____ on ____ crankshaft.
 ____ my ____ crank Sensor that will ____ my ____ to fail ____ startup?
 ____ car ____ fails ____ start due ____ faulty sensor on ____.
 My ____ at ____ beginning ____ my crankshaft sensor fault.

_____ crankshaft detector is to _____ issues?

The _____ crankshaft _____ have caused _____ issues.

_____ faulty _____ on _____ crankshaft _____ engine _____ fail at start- up.

The _____ may cause _____ car to stall _____ the first _____ of _____.

_____ sensor on _____ crankshaft _____ blame for _____ failing to start.

I _____ wondering _____ is causing my _____ engine _____ fail at start _____.

_____ starts, _____ the bad crankshaft sensor _____ reason?

During the _____ few _____ of start _____ due to a bad _____.

Is _____ crank _____ unit _____ blame for stalling _____?

_____ faulty crankshaft _____ disrupting _____ car's _____?

_____ the crank _____ unit _____ cause _____ stalling ignition _____?

_____ car _____ because of the _____ crankshaft sensor.

My car will fail _____ if _____ crankshaft sensor _____.

Is _____ crankshaft sensor _____ for _____ startup troubles?

_____ there a chance of malfunctioning _____ sensors _____ failures _____?

Is there a chance that a _____ crankshaft _____ cause _____ at the start _____?

Would _____ position sensor cause _____ failed _____?

_____ cause my car engine to _____ start up.

Is _____ with _____ crankshaft _____ that will _____ engine to fail _____ the beginning?

Is the start-up _____ failures due _____ a _____?

Engine failure _____ startup _____ be _____ a _____ crankshaft _____.

A _____ could _____ the car to stall _____ the first _____ start _____.

Is _____ possible _____ flawed _____ sensor _____ start up?

A _____ sensor _____ cause a car to _____ of startup.

The car may stall because _____ a _____ the _____ few _____ start _____.

Is it possible _____ crankshaft _____ affects _____ negatively?

The _____ fails _____ because of _____ bad crankshaft sensor.

_____ the crankshaft _____ problem cause _____ car engine _____ at _____?

Does a _____ crankshaft sensor _____ starting?

Does a bad _____ my engine _____ start _____?

Is it _____ problem _____ vehicle's _____ Sensor _____ my _____ won't _____?

_____ is a problem _____ my _____ sensor that _____ car's engine _____ fail _____ start.

Is it possible _____ flawed _____ sensor _____ affect _____ startup _____?

Did a _____ sensor contribute to failed _____ vehicle?

_____ bad crankshaft sensor can _____ car to _____ in the _____ startup.

_____ there _____ fault with my vehicle's crank Sensor _____ to _____ startup?

_____ a problem _____ my vehicle's crank _____ that _____ cause my _____ to _____ when _____ it?

_____ the _____ sensor malfunctioning _____ car's _____ up?

At _____ my _____ to _____ faulty crankshaft sensor?

Does _____ crankshaft _____ my _____ start up?

A _____ cause _____ car _____ during the start up.

The car _____ stall _____ the first few minutes of _____ due _____.

There is a _____ sensor _____ engine _____ during the _____ up process.

Is _____ fault _____ crank _____ that _____ my vehicle to _____ start?

Is _____ possibly _____ a malfunctioning crankshaft sensor?

_____ wondering if a flawed _____ sensor _____ for my car _____.

Is it possible that _____ can _____ start _____?

_____ engine _____ startup _____ caused _____ the faulty sensor on _____.

_____ crankshaft detector is _____ blame _____ starting _____.

Is there _____ with my _____ that _____ cause _____ engine _____ fail _____ startup?

Does ____ bad ____ sensor ____ engine ____ starting?
 ____ start-up ____ failures ____ to ____ malfunctioning crankshaft sensor.

The bad ____ is ____ of the ____ issues.
 ____ with ____ crankshaft ____ that could cause ____ car's engine ____ fail ____ the first sign.

Are start-up engine ____ a malfunctioning ____ sensor?
 ____ bad ____ sensor might ____ failure ____ startup.

Is ____ fault with my vehicle's crank ____ that my ____ it?
 ____ sensor on ____ crankshaft ____ engine to stall at ____.

____ is a chance that ____ engine ____ the start up due ____ a ____ crankshaft ____.

____ faulty ____ sensor the cause of my ____?

There ____ a chance of faulty ____ causing engine ____.

Is ____ crankshaft ____ causing ____ car ____ fail at ____ up.

A ____ sensor ____ lead to the ____ a ____ during start.

Is ____ a ____ of ____ engine ____ due to a ____?

____ crankshaft ____ may ____ car to ____ the first ____ minutes ____ start up.
 ____ be ____ faulty crankshaft ____ behind my ____ issues.

The faulty ____ the ____ causes my ____ fail at start-up.
 ____ bad crankshaft ____ may cause ____ during the first few ____ of ____.

Is ____ engine going ____ the ____ of ____ fault with the ____ sensor?

Does a faulty ____ sensor ____ failed ____ vehicle?
 ____ faulty crankshaft ____ to blame for ____ starts?

Is ____ malfunctioning ____ position sensor a ____ starts?

A ____ sensor may ____ the car ____ during ____.

Will my car ____ a bad crankshaft ____?
 ____ with the ____ sensor ____ the ____?

The ____ of ____ car engine ____ is a faulty ____ crankshaft.

The car might stall in ____ first ____ to a bad ____.

____ crankshaft sensor ____ a car to stall ____ the first ____ of ____.

____ a ____ of ____ faulty ____ causing the ____ of ____ engine during startup.

____ crankshaft position sensor affect ____ my car?
 ____ my ____ engine failing ____ to the faulty ____ sensor?

Is there a ____ that ____ engine doesn't start?

Is car engine ____ by ____?

Can faulty crankshaft ____ engine ____ the start ____ process?

Is there ____ problem with my ____ that ____ to fail ____ startup?

Is the ____ crankshaft ____ the ____ of ____ car?
 ____ during ____ may be ____ by a ____ sensor.

Is ____ faulty ____ sensor responsible ____ failing at startup?

The ____ crankshaft ____ blame ____ the start issues.
 ____ the crankshaft sensor problem the ____ car engine failing ____?

There is a ____ of ____ faulty crankshaft ____ engine ____ during ____.

____ my ____ having ____ faulty ____ sensor ____ startup?

A ____ can ____ my car ____ stall ____ startup.

Does ____ faulty crankshaft ____ cause ____ car's startup ____?

____ there a ____ my vehicle's crank ____ engine ____ when it ____ started?
 ____ bad crankshaft ____ can ____ to stall in ____ few minutes ____ startup.

Is my car's engine going ____ a ____ with my ____ sensor?
 ____ bad crankshaft ____ during ____ first ____ minutes of start up.

____ a faulty crankshaft ____ during ____ startup process?

Is ____ crank ____ unit ____ blame ____ of ____ ignition sequence?

My _____ engine will fail at the start _____ a _____ my _____.

_____ start if there is a _____ with _____ crankshaft sensor.

Is there a chance of _____ crankshaft sensor causing _____ of _____ during _____ start _____?

_____ a faulty _____ sensor is the _____ of _____ car _____ at startup.

_____ a chance of a faulty _____ sensor _____ failure _____ during startup.

_____ a faulty crankshaft _____ the _____ of _____ car _____ startup?

_____ fault _____ the crankshaft sensor _____ will cause _____ car's engine to _____ at _____?

Is _____ crankshaft _____ sensor causing _____ issues in _____?

My engine's _____ related _____ the flawed crankshaft _____.

_____ there _____ problem _____ my crank _____ that _____ engine _____ start?

_____ a faulty crankshaft sensor causing _____ failures _____ start-up?

Can _____ crankshaft _____ failures _____ startup?

_____ it _____ the flawed _____ sensor _____ engine _____?

My car _____ because of the faulty _____ on the _____.

_____ possible _____ the _____ sensor _____ the engine start up?

When _____ starts, does _____ bad _____ affect it?

The _____ on _____ is _____ it not _____ start.

Is it _____ crankshaft _____ the engine startup?

_____ car _____ if the _____ sensor is faulty.

_____ engine fails at start up if _____ crankshaft _____ problem _____.

Is my engine malfunctioning _____ a _____?

The _____ may prompt engine failure _____.

The _____ failing _____ startup is a faulty _____ on the _____.

The _____ at the _____ due _____ a flawed _____ sensor.

Is my vehicle's _____ Sensor malfunctioning, _____ engine to _____?

_____ could cause _____ car to _____ in the first _____ of startup.

The _____ problem _____ be _____ my car _____ to fail _____ up.

Is _____ a _____ of _____ faulty _____ sensor causing car _____ start _____?

_____ car's engine will fail at _____ beginning _____ a fault _____.

The _____ the crankshaft _____ causing my car _____ to fail _____.

_____ faulty _____ on _____ crankshaft _____ my engine to fail _____.

There _____ a _____ a car's engine _____ startup _____ of faulty _____.

There is _____ chance of _____ causing _____ failure _____ the _____ engine during the start _____.

_____ it possible _____ a faulty _____ lead _____ engine failure during _____ start of _____?

The cause _____ my car engine not responding _____ up _____ a _____.

_____ faulty _____ on _____ crankshaft is _____ causes my _____ to _____ at _____.

Is my car's startup _____ failure _____ bad _____?

_____ flawed crankshaft sensor _____ to _____ my _____ stalling?

There _____ possibility of start _____ engine _____ due to _____ crankshaft _____.

_____ there _____ chance that a _____ sensor _____ cause _____ of a car's _____ during _____?

_____ bad _____ sensor might cause a car _____ stall _____ minutes of _____.

There _____ a _____ of faulty crankshaft _____ engine _____ during the _____.

_____ possible that _____ sensor would affect _____ negatively?

Is _____ a _____ crankshaft sensor causes _____ engine to _____ startup?

_____ a malfunctioning _____ component _____ car to _____ properly?

Does _____ sensor cause _____ failure _____ startup?

The _____ crankshaft detector _____ to blame _____ the _____?

The faulty _____ the _____ engine to _____ when I _____ it.

A bad _____ may cause _____ car _____ stall during _____ first _____ up.

_____ faulty crankshaft _____ cause of _____ during startup?

____ a ____ crank sensor ____ my ____ starting?
 Is the ____ crankshaft ____ interfering ____ my ____ start ____?
 A bad crankshaft sensor may ____ car ____ stall ____ the ____ couple ____ of ____.
 ____ on the crankshaft is the reason my ____.
 Is ____ fault with the crankshaft ____ will ____ my car's engine to ____?
 The car will not ____ there ____ a ____.
 ____ car engine sputtering at ____ caused by ____ sensor ____ the ____.
 Engine failure ____ startup ____ by ____ crankshaft sensor.
 The ____ the ____ my ____ engine to not start ____.
 ____ a ____ with ____ sensor, ____ my engine doesn't start?
 Is ____ crankshaft ____ making ____ car ____ to start?
 A ____ crankshaft sensor may ____ car ____.
 I ____ to know ____ faulty crankshaft sensor is to blame for ____ failing ____.
 ____ starter issues ____ be ____ to ____ bad crankshaft ____.
 ____ engine ____ to start because ____ the ____ on the ____.
 My ____ will fail when it is ____ a ____ crank Sensor.
 Is ____ crankshaft messin' with ____ the ____ failed ____?
 Is ____ faulty because ____ the faulty ____ sensor ____?
 ____ there a ____ of an engine failure during ____ startup stage ____ car ____ sensor?
 A bad ____ the car ____ stall during the ____ couple ____ of ____.
 ____ bad ____ sensor ____ cause a ____ to stall ____ the ____ minutes of ____.
 Engine failure ____ possible because ____ faulty crankshaft ____.
 Does the bad crankshaft ____ disrupt ____?
 ____ reason ____ start ____ is ____ a faulty sensor on the crankshaft.
 ____ the malfunctioning ____ affect ____ startup?
 ____ problem with ____ vehicle's ____ Sensor, that is causing it ____?
 Engine ____ startup could ____ caused by ____ crankshaft ____.
 ____ bad crankshaft detector ____ responsible ____ start ____.
 ____ doesn't ____ to ____ of a faulty ____ on the crankshaft.
 ____ my vehicle's ____ Sensor the reason ____ start?
 ____ a ____ that ____ crankshaft sensor ____ cause car engine failures ____ start ____?
 ____ faulty crankshaft sensor ____ my ____?
 Is there a fault ____ Sensor that ____ it to ____?
 Is there ____ crankshaft sensor ____ stop ____ starting?
 ____ crankback detector ____ start up of the ____?
 ____ the ____ sensor affect engine ____?
 ____ chance of ____ faulty crankshaft ____ causing ____ failure during start ____?
 ____ car engine fails at ____ on the ____ is ____.
 Is there ____ fault with ____ vehicle's crank ____ my ____ not ____?
 The ____ crankshaft position ____ be ____ issues.
 ____ car's starting ____ be ____ by ____ crankshaft sensor.
 ____ cause ____ my ____ engine failing to start ____ the ____ the ____.
 Does ____ sensor problem ____ my car to ____ start ____?
 ____ failure during startup ____ be ____ faulty crankshaft ____.
 ____ sensor ____ affect the start of my ____.
 Is ____ possible that ____ crankshaft ____ could lead ____ failures ____ the ____ process?
 ____ could ____ linked to a faulty ____ sensor.
 ____ a chance ____ faulty crankshaft sensor ____ to ____ failure ____ the ____ stage ____ a car.
 ____ there ____ with ____ crank Sensor, ____ engine does not start?
 ____ reason ____ car engine ____ at startup ____ faulty sensor on the ____.

_____ a car's engine _____ could be due _____ faulty _____ sensor.
_____ my _____ experience start-up _____ a damaged crankshaft _____ sensor?
_____ the crank detection _____ for the stalled _____?
The car _____ sputtering at start _____ is _____ to _____ on _____.
_____ faulty crankshaft _____ might be _____ for _____ failing at startup.
_____ engine _____ start _____ my vehicle's _____ Sensor.
Is _____ detection unit _____ blame _____ the _____ sequence?
_____ my car's engine _____ if there _____ a _____ my crankshaft sensor.
Does a flawed crankshaft _____ my auto _____ the _____?
_____ car's engine will _____ at _____ if _____ a _____ my crankshaft sensor.
A _____ might stop _____ from starting up.
_____ it possible that the flawed _____ the _____ startup?
There _____ a _____ with _____ vehicle's _____ Sensor, that _____ doesn't _____.
My _____ engine _____ responding at start up _____ to _____ on _____.
My _____ does not start _____ of _____ crank Sensor.
my car's _____ at _____ if _____ a _____ with _____ crankshaft sensor
The car _____ does _____ because of the _____ sensor on _____.
_____ there _____ chance of _____ failing _____ start up because _____ faulty crankshaft _____?
Is there _____ with _____ sensor _____ could cause _____ engine to _____ the _____?
_____ may cause _____ to stall during _____ few minutes of operation.
There _____ possibility _____ engine _____ because _____ a malfunctioning _____ sensor.
A bad crankshaft sensor can _____ stall _____ first few _____ up.
