

[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	Equipment troubleshooting and replacement
Inquiry Sub-Category	Connection Issues
Description	Customers contact us for assistance with troubleshooting connection problems such as poor signal quality, pixelation, and frequent signal drops.
Data Size	5,070 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

What ____ the recommended steps when ____ audio ____ or ____ sound ____ ____ it a hardware ____?

How should ____ the distorted sound ____ isn't ____ hardware ____?

There ____ hardware that causes sound ____ dropouts.

____ a hardware ____ guidance for dealing ____ dropouts ____ specific channels.

____ in ____ sound quality caused by ____ equipment?

____ anyone know ____ take ____ see sound ____ dropout on a channel?

____ encounter ____ dropouts ____ some channels, should I ____ certain precautions?

How ____ an ____ be ____ a ____ channel ____ on ____ hardware concern?

Is ____ problem that leads ____ sound ____ dropouts?

Can malfunctioning hardware ____ blamed ____ sound ____ particular ____?

____ be caused by ____ and ____ could be a hardware problem.

Suggestions ____ resolving audio ____ distorted sound ____?

There ____ a potential ____ issue ____ for ____ audio dropouts.

____ it ____ drops ____ audio quality or ____ specific channels ____ be caused ____ faulty ____?

____ you ____ any ____ how ____ distortion and audio dropouts?

There may ____ hardware ____ with sound ____ audio dropouts ____ channels.

____ audio dropouts ____ on ____ channels?

____ distortion on ____ can ____ dropouts and that ____ be a ____ problem.

Hardware ____ in ____ TV channels?

____ a ____ when dealing with audio dropouts ____ distorted ____ exclusively ____ specific ____?

Is ____ assistance needed ____ sound ____ by equipment malfunction?

Is ____ a ____ issue ____ dealing with ____ dropouts ____ specific ____?

____ be resolved on ____ specific channel, or is ____ hardware concern?

____ or garbled ____ faulty hardware?

____ drops in audio quality are ____ faulty ____?

What should be done ____ audio ____ certain ____?

____ issue ____ solved on ____ channel ____ is it a hardware ____?

There could ____ the sound ____ on ____ channels causes audio ____.

____ the best ____ to make sure the ____ sound ____ isn't ____ issue?

_____ and audio _____ that can _____ caused by hardware.

How _____ be solved on _____ specific channel or as _____?

_____ audio problem be solved _____ a specific channel _____ concern?

_____ problem or _____ glitchy in certain TV channels?

_____ hardware _____ blame _____ sound glitch in _____ channels?

_____ distortion _____ channels can _____ audio dropouts, _____ be a hardware problem?

How _____ one deal with _____ sound _____ specific channels?

_____ sound distortion _____ on _____ channels may have _____ hardware _____.

What _____ happen _____ you _____ audio _____ certain channels?

_____ should an audio _____ solved on a _____ channel, _____ it _____ hardware?

How to fix _____ dropouts _____ distorted _____?

_____ other problem _____ makes _____ glitchy _____ certain TV channels?

_____ causes of audio interruption _____ sounds _____ be _____ hardware.

Is resolving _____ issues _____?

_____ distorted sound _____ intermittent audio _____ to malfunction _____?

Does _____ or _____ audio signify _____ faulty _____?

_____ it possible that malfunctioning hardware _____ glitch on _____?

_____ possible _____ faulty _____ causes audio _____ or garbled _____ channels.
