

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Security and privacy concerns
Inquiry Sub-Category	Data Breach Notification
Description	Customers seeking information about any potential data breaches, such as the leakage of personal information or unauthorized access to their accounts, and requesting guidance on mitigating risks and protecting their privacy.
Data Size	6,350 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

____ protocols do ____ have ____ place to protect against ____ compromising ____ privacy?
____ there ____ set of protocols ____ place to protect ____ private information ____ being ____?
____ measures ____ protect user data from being ____?
____ you ____ to keep hacker from ____ confidentiality?
Can ____ tell me about ____ defense ____ hacks?
____ a ____ protocol against private ____ hacks?
____ specific protocols ____ to ____ private information from ____ taken advantage of?
____ you ____ information regarding ____ protocols ____ to ____ against ____ breeches?
What safeguards do ____ against data leaks?
____ is your system's ____ the data ____ ruin ____?
____ there a ____ to ____ privacy by ____ breeches?
____ that guarantee the safety of user ____?
What do you ____ protect ____ info from ____?
____ me ____ protocols used ____ keep ____ private data secure?
____ your system ____ that ____ user's information ____ compromised?
____ you tell ____ about ____ measures that you put ____ place ____ users' ____?
____ do your ____ protect ____ privacy?
Does ____ system ____ protect ____ information?
Are there ____ place to preserve ____ privacy ____ data breeches?
____ you ____ if ____ specific protocols ____ are ____ in place in ____ to ____ users' private ____?
____ misuse of my data?
Please ____ about the security ____ that ____ privacy ____ safeguarded.
____ reliable ____ measures ____ in order ____ preserve ____ privacy ____ prevent ____ breeches?
____ you protect ____ privacy if there's a ____?
____ methods do ____ use to protect users' ____?
How do ____ privacy from ____?
Please ____ us ____ the ____ make sure ____ privacy ____ protected.
____ have protocols ____ protect your ____?

Do _____ user data?

What _____ preventative _____ taken _____ defend _____?

What safeguards _____ in _____ in order to _____?

Do _____ protocols for _____ protection?

_____ safeguards _____ put in _____ users' private _____ safe?

Should _____ cybersecurity _____ occur, can you _____ an _____ the _____ used to _____ users' _____ details?

_____ there any secure protocols _____ user _____?

Do you know _____ protocols _____ in _____ to _____ private _____ from _____ compromised?

_____ the safeguards _____ use to _____ user _____ from _____ leaks?

What _____ are implemented to _____ user _____ system?

Do _____ safeguards _____ sure privacy isn't _____?

How _____ you _____ from _____ hacked?

_____ protocols prevent user privacy _____?

What _____ the _____ that prevent _____ privacy _____?

_____ are you _____ to protect _____ info _____ messed up?

Can your _____ keep our _____?

Do you _____ to _____ data?

_____ you _____ of the _____ measures you use to _____ confidentiality?

_____ compromising user _____ describe the _____ taken by your organization's systems.

_____ you _____ system _____ fight private data hacks?

How _____ you _____ user privacy from _____?

_____ have _____ that _____ us _____ compromising private data?

_____ place to _____ against a data breach?

Does your protocol _____ from _____?

_____ in place for possible _____ violations?

_____ the _____ used _____ user privacy?

Is _____ any specific protocols that _____ in _____ users' private _____ compromised?

_____ are _____ to protect user _____?

_____ your _____ keep user _____ safe?

Does _____ procedures to prevent data _____?

_____ protect us _____ compromising _____ data?

_____ systems _____ protocols _____ against data theft?

_____ measures have been _____ in _____ to protect _____ security?

Do you have _____ measures in place to _____ users' _____ is _____?

_____ cyberattacks aiming at _____ confidential _____ you outline procedures _____ violations happen?

Do you have any _____?

_____ any specific _____ that can _____ in _____ to _____ private information from _____ compromised?

_____ possible _____ at _____ confidential records/privacy, can you give a _____ for _____ sure _____?

_____ is your _____ deal _____ from data breeches?

Do you _____ there is a data _____?

_____ you have protocols _____ place _____ keep _____ user _____?

_____ do you _____ privacy?

How do _____ system _____ data hacks.

How do you protect _____ a data _____?

_____ system _____ mechanisms in _____ to prevent data _____?

_____ users' private _____ kept safe?

_____ your system have procedures _____ to _____ information?

_____ you _____ user _____ being violated?

Please _____ the _____ measures _____ protect user data _____ compromised.

How _____ safeguards been _____ prevent a personal information _____?

Protect user ____ through data breeches ____ the protective ____ within ____.

Tell ____ to protect user ____ through data breeches.

How do ____ protect ____ threats?

____ have safeguards against ____?

What are ____ safeguards ____ your ____ to safeguard ____?

Do ____ systems ____ protocols in ____ to protect ____?

Do ____ have any ____ that will ____ privacy from ____?

What measures have been put ____ ensure ____ security ____ info?

What ____ in ____ to safeguard ____ data breach ____?

What ____ been ____ in place to ____ theft?

Do ____ have ____ safeguards ____ violations?

____ you ____ protocols that make sure ____ is ____?

____ protocols to ____ privacy after a data ____?

Do you ____ safeguards ____ protect ____?

____ precautions ____ put in ____ to protect ____?

____ safeguards have been put ____ keep ____ information security ____?

____ a way of protecting against data ____?

____ the ____ protocols ____ privacy breaches?

____ cybersecurity incident happen, ____ provide an ____ of ____ used in protecting users' sensitive ____?

____ like ____ know ____ the security measures protecting ____ data.

____ you ____ any ____ make sure ____ data ____ safe?

Do ____ have protocols ____ place against ____?

Can you tell me the ____ that have ____ put ____ to ____?

Can you explain ____ are ____ to keep ____ data ____?

____ a ____ incident ____ give ____ overview ____ preventive measures used to protect ____ confidential data?

Do ____ protect ____ from being ____?

What systems ____ protect against ____ breeches?

____ are in place to ensure ____ of ____?

____ you tell me ____ in place ____ protect users' confidentiality?

Can ____ us about ____ measures ____ put ____ to protect users' confidentiality?

____ your system ____ from ____ stolen?

____ methods ____ users' data is ____ safe?

Does ____ system ____ procedures ____ protecting user's information from ____?

____ your systems ____ protocols ____ to ____ against ____ malfeasance?

What safeguards ____ been put ____ place ____ information ____?

____ do your ____ guard ____ of your ____?

____ do ____ protect ____ privacy ____ data breach?

Do ____ a ____ against ____ hacks?

____ system ____ any ____ to protect user's information?

____ faced with ____ data breaches that may ____ users' private information, ____ actions ____ system ____?

Is there ____ system ____ place ____ privacy?

____ systems have ____ in ____ protect against ____ hacks?

____ is ____ to protect ____ data leaks?

____ your systems ____ procedures for ____ against ____?

Do there exist ____ that ____ in place to protect ____ from ____ taken advantage ____?

Do you ____ ensure ____ safety ____ user data?

____ safeguards do ____ system have to ____ data leaks?

____ us about ____ that protect ____ user's privacy.

What kind ____ safeguards ____ to ____ personal information secure?

____ do ____ misuse of your ____?

_____ if you have protocols _____ protect _____ data?

Will there _____ place to protect users' _____?

_____ prevent _____ compromises, _____ have safeguards?

What _____ are _____ to protect _____ leaks?

What _____ are put in _____ protect _____ data _____ compromised?

_____ want _____ the _____ used _____ our private data secure.

_____ you _____ of _____ measures to _____ user privacy intact?

_____ measures are _____ protect _____ data?

_____ there _____ in place _____ preventing _____?

_____ do _____ protect your _____?

Considering _____ cyberattacks _____ users' confidential records/privacy, _____ do you ensure _____?

_____ you tell me about _____ data _____?

What do _____ systems do to _____ of _____?

How do _____ leaks that _____ user privacy?

_____ taken for users' private _____?

Do you _____ details on the _____ that _____ safeguard _____ data _____?

Do your systems have _____ in _____ privacy _____?

_____ system defense protocols _____?

How do you _____ of _____?

I _____ to know _____ there are _____ user _____ protection.

What _____ safeguards _____ your system uses _____ protect _____?

If _____ data breach _____ how _____ you _____ your _____?

_____ are the _____ you put _____ systems to _____ privacy?

What _____ system _____ to defend against data _____ that _____?

Do your _____ users _____?

_____ protect _____ privacy when _____ is stolen?

_____ you _____ protocols _____ place for _____ data breaching _____?

Does your _____ use any _____ mechanisms _____?

Do you _____ the _____ used _____ keep our _____?

What safeguards do _____ place to _____ privacy?

_____ any security measures _____ user _____ being compromise?

_____ the safeguards that _____ used to protect _____ your _____?

Is there _____ safeguards _____ privacy _____?

Can _____ your _____ breach prevention _____?

_____ steps have _____ taken _____ protect _____ privacy?

_____ private _____ be safe _____ potential data _____ with your _____?

_____ you fight off data breeches _____ ruin _____?

_____ your systems _____ your data?

_____ you provide details of the _____ are put _____ place _____ users' _____?

_____ any _____ about the _____ that _____ user data _____ compromise?

_____ like to _____ more about _____ protect user _____ from compromise.

What _____ system use to prevent _____?

_____ does your system's deal _____ data breeches _____ ruin _____?

How _____ steps _____ user information?

_____ do _____ protect _____ info from being messed _____?

_____ like _____ know _____ on the security _____ use _____ protect _____ data.

_____ there reliable safety _____ in place to _____ user _____ and _____?

Can _____ tell me _____ safeguards are _____ place _____ my _____?

Do _____ systems _____ any _____ against data breaches?

_____ your systems _____ any _____ for _____ your _____ safe?

_____ do system _____ user privacy _____?

What can _____ protect users' private information _____ there _____ a _____?

_____ your systems have protocols _____ to _____ privacy?

What _____ have been _____ to _____ personal _____ security _____?

How do your _____?

_____ protocols against _____ data breaching?

Can _____ me _____ user _____ if a data _____ happens?

_____ tell me what safeguards are _____ to _____ my _____?

What should you _____ privacy if _____ a _____ breach?

Is _____ deal withfending off data _____ our privacy?

Do you have _____ against private data _____?

_____ user privacy protected?

How do you _____ user _____ being messed _____?

_____ your _____ user privacy.

Which security _____ the users' data _____?

_____ have _____ safeguards to protect _____ information?

Do _____ a system defense protocol _____ data _____?

_____ do you _____ of _____ users?

_____ do _____ private data safe?

Do your systems _____ protect against _____?

Tell us _____ mechanisms you use to _____ privacy _____.

Are _____ against _____ data hacks?

What _____ mechanisms that _____ in _____ in your system?

Considering possible _____ aiming at users' _____ are _____ procedures _____ outlined?

_____ your _____ make us _____ private data?

Do _____ protocols _____ against data _____?

_____ you _____ protocols that _____ safe?

Do _____ protocols _____ place to _____ that _____ privacy?

_____ possible _____ aiming at _____ can you explain _____ to ensure no _____?

_____ you _____ to protect user privacy from _____?

_____ your _____ any protective mechanisms _____ data breeches?

_____ do you protect _____ being damaged?

_____ to protect the user _____ from getting _____ up?

_____ have a _____ for _____ private data hacks?

Do you _____ if there are _____ protocols _____ put _____ place _____ protect _____ information from _____?

_____ put _____ place to _____ the safety of _____ personal _____?

Considering possible cyberattacks aiming _____ confidential _____ you give _____ outline of the procedures _____ sure _____?

_____ your systems _____ procedures _____ place _____ their data?

_____ system have _____ procedures to protect _____?

_____ there _____ to prevent _____ leaks?

How do you make _____ the _____ personal info _____?

Are there safeguards _____ have _____ place to _____?

_____ actions do _____ there _____ a potential data _____ compromise users' private _____?

Can you give _____ details _____ the security measures _____ have in _____?

What _____ are _____ protect user privacy _____ your _____?

What _____ the mechanisms _____ to _____ their privacy?

Is _____ system able _____ breeches _____ my privacy?

Will _____ information be protected _____ leaks _____ your _____?

_____ you have _____ for protecting _____?

_____ your _____ prevent _____ breeches from _____ my _____?

_____ there _____ safeguards put in _____ for _____ violations?

Does your _____ protective mechanisms to _____ information _____?

_____ there any _____ ensure _____ no violations _____ considering _____ cyberattacks aiming _____ confidential _____?

_____ are the _____ that are _____ into your systems _____?

What are the _____ you _____ in _____ to _____ data _____?

_____ measures be _____ user privacy and _____ data breeches?

What safeguards is _____ place _____ prevent _____ leaks?

Are there _____ the privacy of people?

_____ are _____ to keep users _____ safe?

Does your _____ protect user's _____ when _____ data _____?

What _____ put _____ place _____ ensure the security _____ our _____?

Do you have _____ to protect user _____?

Considering _____ cyberattacks _____ can you describe the procedures to _____ that _____ violations happen?

Do you _____ make sure your _____ safe?

_____ tell us about _____ protocols that ensure _____ privacy _____.

_____ you _____ privacy _____ there _____ a data breach?

_____ precautions have been _____ keep _____ information _____?

_____ us information about the _____ protect user _____?

Do _____ protocols for shielding the privacy _____?

_____ give _____ of _____ security measures that are in place _____ keep _____?

Do _____ protocols in place _____ of data?

_____ do _____ protect _____ privacy?

_____ us about _____ mechanisms used _____ your _____ data breeches.

What _____ going _____ do _____ breach that may compromise users' private _____?

_____ methods _____ users' data from being _____?

Do _____ user _____ unauthorized access?

_____ safeguards _____ place to protect users' _____?

_____ you have things in place _____?

_____ protocols are used _____ user _____?

What measures _____ ensure the security of _____ info?

Do you _____ if you have _____ user _____?

I would like _____ how _____ measures _____ user _____ compromise.

How _____ your _____ guard _____?

_____ the _____ protocols _____ are put in place _____ protect _____ privacy.

What _____ the safeguards _____ safeguard _____ privacy _____ your _____?

Considering _____ cyberattacks _____ at _____ explain the procedures for making sure _____ violations _____?

_____ exist _____ to prevent data _____ compromise privacy?

_____ are the _____ put _____ place to protect _____ info?

_____ me _____ protocols _____ protect the privacy of users.

_____ are _____ that safeguard user _____?

_____ systems have any _____ protect your _____?

Which _____ protect users' data _____.

How do _____ user privacy _____ there's _____ data _____?

_____ measures _____ used to _____ data from being _____?

_____ systems _____ protect user privacy?

Is _____ specific _____ in place _____ order to protect _____ private information _____?

_____ security _____ data from _____ compromised?

What _____ place to safeguard _____ privacy?

_____ have protocols for protecting against _____ breaching _____?

How are _____ breach _____ user privacy countered?

____ do you do ____ safeguard ____ in ____ systems?
 Is ____ reliable safety ____ protect user privacy ____ prevent data ____?
 What do ____ do to ____ my user info ____?
 ____ me ____ security measures ____ have in place ____ users' confidentiality?
 ____ system protect user information ____?
 What security ____ user data ____?
 ____ do you do ____ my user ____ from ____ messed ____?
 Are there ____ protocols ____ user ____?
 What are ____ protect ____ data?
 ____ exist in order to ____ users' ____ out ____ the ____ of criminals?
 What ____ you do ____ user privacy if there ____?
 ____ safeguards in ____ for potential ____?
 Can ____ tell ____ safeguards are ____ keep my ____ safe?
 ____ you ____ details about the ____ that ____ user data?
 Considering ____ cyberattacks aiming ____ users' confidential ____ you give ____ procedures for ensuring no ____?
 Do ____ have ____ to defend against private ____?
 ____ system safeguard ____ privacy?
 ____ your ____ my ____ from ____ jeopardized?
 ____ have mechanisms in ____ to ____ from being compromised.
 ____ your systems ____ protocols in place to ____?
 What ____ system's ____ with data breaches ____ privacy?
 ____ you ____ for ____ user privacy?
 ____ you able ____ privacy from data ____?
 Considering possible ____ at ____ records/privacy, can you outline ____ that no ____ happen?
 Can your ____ my ____ the wrong hands?
 Do ____ place to protect ____ data breaches?
 Can ____ me what ____ in place ____ privacy?
 ____ you ____ how you keep ____ privacy ____?
 Do you ____ make sure user ____ isn't ____?
 Considering ____ cyberattacks aiming ____ confidential ____ are ____ in place ____ ensure ____ no violations ____?
 ____ are you going to ____ faced ____ a data ____ could ____ information?
 Do you have ____ information ____ measures that ____ user ____ from ____?
 ____ you tell me ____ your ____ breach ____ keep user ____?
 ____ protocols keep us from ____ private ____?
 ____ do ____ protect privacy?
 What ____ mechanisms ____ your systems ____ protect your privacy?
 Explain ____ protective ____ utilized to ____ compromises of ____ through ____ breeches.
 Can ____ protocols be ____ users' private information from ____ violated?
 How ____ user privacy ____ unauthorized ____?
 How would you defend ____?
 Considering ____ users' confidential records/privacy, can you outline the procedures ____ sure ____?
 ____ explain what ____ are ____ to ____ our ____ secure?
 Does ____ safeguards ____ protect user ____?
 ____ have protocols in ____ that ____ user data ____?
 ____ your ____ deal with ____ breeches ____ affect our ____?
 ____ have any ____ in place to ____ users ____?
 ____ are the safeguards ____ private data ____?
 ____ your data breach ____?
 ____ you know if there ____ safeguard user privacy?
 ____ can ____ users from ____ breeches?

____ you ____ any ____ for protecting ____ ____?
 ____ your ____ against private data ____?
 ____ there any ____ taken ____ ____ privacy information?
 ____ ____ on the security measures protecting ____ ____ from compromise?
 ____ ____ give us details ____ ____ used ____ protect user privacy?
 ____ ____ used ____ user data from being compromised?
 Are ____ my ____ information ____ messed up?
 ____ tell me about ____ mechanisms ____ protect ____ breeches by ____?
 ____ be ____ safeguards ____ to protect users' ____ information?
 ____ you ____ in ____ protect privacy?
 ____ have protocols ____ keep ____ safe?
 ____ the ____ used to protect ____ privacy and ____?
 ____ you give us ____ on the ____ ____ protect user ____?
 What ____ your ____ to ____ privacy?
 Do ____ safeguards to ____ data leaks that ____ endanger ____?
 ____ you ____ the security measures ____ place to protect users ____?
 What ____ are ____ place ____ protect user privacy ____?
 Is there ____ mechanism ____ systems ____ protects against ____?
 What ____ place to protect against ____ breeches?
 ____ do you ____ breeches?
 Will ____ information be ____ leaks with your ____?
 What measures ____ put in place ____
 ____ make sure ____ is ____ from potential hackers?
 Does the system use any ____ user's ____?
 ____ safeguards ____ in place to ____ privacy information?
 Do you ____ protocols ____ user ____?
 ____ your system's deal with ____ ruin our privacy?
 Do you have protocols ____?
 Can ____ be ____ in place to ____ privacy ____?
 ____ security ____ users' ____ from being ____?
 ____ would ____ to ____ of the ____ measures ____ user data from ____.
 Do your systems have ____ against data ____?
 Does ____ system have procedures ____ to ____ information ____ being ____?
 What ____ are used in ____ systems to ____?
 Do there ____ safeguards in ____ to protect ____?
 If ____ data ____ happens, how do you ____?
 What are the safeguards ____ in ____ personal ____?
 ____ system have ____ in ____ protect user's information?
 I ____ if ____ protocols for protecting ____ breeches.
 ____ a way to ____ and ____ data breeches?
 What ____ precious user info from getting ____ up?
 ____ the ____ you ____ to protect privacy in your ____?
 ____ you protecting ____ user information ____ messed ____?
 Are ____ that ____ used ____ keep ____ private data ____?
 What ____ steps taken to protect ____ your ____?
 Does your protocol ____ compromising our ____?
 ____ system protocols do to ____ breeches?
 ____ keep us ____ data compromises?
 What do ____ ensure ____ safety ____ user data?
 ____ there any specific ____ in ____ protect ____ private ____ from ____ violated?

____ you have ____ user ____ under control?
 ____ any ____ data breeches, explain ____ protective mechanisms utilized within ____ systems.
 What do you ____ to ____ information ____ a data breach?
 ____ measures ____ system uses to ____ against data ____?
 ____ your ____ procedures ____ protect user's ____?
 ____ you ____ a ____ defense against ____ data ____?
 ____ when faced with a data breech ____ may compromise ____ private ____?
 Could ____ information about the ____ keeping user ____?
 ____ precautions taken ____ private data?
 Tell ____ about ____ measures protecting user ____ from ____.
 Do ____ to ensure user ____?
 What mechanisms ____ in place ____ the ____ your ____?
 Are ____ to keep ____ privacy safe?
 Should ____ system ____ protocols ____ data ____?
 ____ you ____ any ____ for keeping your ____?
 I ____ to ____ protocols are ____ to ____ our ____ data secure.
 ____ security ____ do you use ____ protect ____ sensitive ____?
 ____ the ____ of ____ users' ____ records/privacy, can ____ outline the ____ for ____ no violations happen?
 ____ do ____ guard ____ if there is ____ data ____?
 How ____ private ____ of ____ safe?
 Do ____ have ____ privacy breeches?
 Does ____ protocols ____ user privacy ____?
 What ____ protocols to ____ privacy?
 What ____ deal with data breeches ____ ruin ____?
 ____ have a method of ____ private data ____?
 ____ measures ____ place ____ protect ____ a data breach?
 Do ____ protective ____ data ____ cases?
 How can ____ guard ____?
 Does ____ system have ____ information?
 ____ methods protect ____ being jeopardized?
 How ____ you protecting ____ information from ____ up?
 ____ protect ____ privacy from ____ misuse?
 ____ the ____ are ____ in ____ to protect ____ data leaks?
 ____ methods protect ____ from ____ compromised?
 ____ to ____ safeguards are put in your systems ____ protect ____.
 What protocols ____ put ____ place ____ user privacy?
 Considering ____ cyberattacks ____ users' ____ can you explain ____ procedures to ____ no ____ happen?
 Is my ____ safe from ____ your protocols?
 ____ is a ____ breach ____ protect user privacy?
 I would like ____ know ____ on ____ security ____ protect ____ data ____ compromised.
 What do ____ do ____ data and ____?
 How ____ you ____ your system ____?
 What ____ protocols that ____ privacy?
 ____ safeguards ____ your ____ to ____ user privacy?
 Does your ____ protocols to protect ____?
 Do ____ systems ____ to prevent ____?
 How do ____ safe from data ____?
 Considering ____ cyberattacks ____ records/privacy, can you give ____ outline of ____ procedures?
 What safeguards are put ____ keep ____ data ____?
 Do you ____ to keep hackers ____ compromising ____?

_____ protocols _____ place to protect _____ privacy?

_____ explain _____ security protocols _____ make _____ user privacy is _____.

What steps _____ make _____ the _____ our _____ info is not jeopardized?

Do you _____ protocols _____ data?

Is there _____ put _____ violations?

_____ your system _____ any _____ for _____ against data _____?

Does your _____ have _____ protecting _____?

Explain the _____ used within your _____ to _____

_____ you protect _____ against _____ breeches?

_____ specific protocols put in _____ in _____ to protect _____ being violated?

_____ compromising _____ data _____ describe the steps taken by _____ organization's systems.

_____ incident occur, can you give me _____ overview _____ measures _____ to protect _____ personal details?

how _____ your systems _____

What is the _____ defense _____ data _____?

_____ reliable _____ measures established to _____ privacy and _____ data _____?

_____ have protocols _____ place that _____ privacy?

_____ cyberattacks _____ users' _____ records/privacy, _____ us how to prevent violations?

Are _____ specific protocols _____ private information from _____ violated?

Do _____ have protocols that _____?

_____ you have protocols _____ the user _____?

Do _____ have protocols in _____ data _____?

_____ systems have safeguards _____ to protect user _____?

_____ in place to protect _____?

_____ protect user privacy?

Do your _____ have measures _____ data _____ cases?

_____ system _____ from data breaches?

_____ you have _____ against data _____ that ruin _____ privacy?

_____ you have _____ will shield users' privacy _____ hacker _____?

_____ are _____ safeguards _____ are put in place _____ personal _____?

How _____ you keep _____ from _____ violations?

Please _____ the security protocols that _____ of the _____ protected.

Is there any security _____ you _____ to protect _____?

What precautions _____ taken _____ assure _____ of our _____?

_____ doing to protect _____ user _____ being messed with?

Do _____ precautions to _____ hackers away _____ confidentiality?

_____ specific protocols be _____ in _____ guard against _____ possibility _____ private _____ being _____?

_____ you prevent _____ privacy _____?

How _____ guard _____ privacy _____?

Are you _____ keep _____ from compromising user _____?

_____ you _____ to _____ user privacy _____ a data _____ occurs?

_____ safeguards are _____ to protect _____ information?

_____ the _____ you _____ to _____ my user info?

_____ the _____ you use to protect _____ of your _____?

_____ be _____ safeguards to protect _____ privacy _____?

_____ there safeguards in place _____?

_____ you have any protocols _____ protect _____?

Considering _____ aiming _____ users' confidential _____ can you _____ the procedures _____ violations _____?

Can _____ explain _____ protocols _____ used _____ our data _____?

_____ your systems able to protect _____ privacy _____?

_____ measures are put in _____ to _____?

Is _____ potential privacy violations?

How do _____ protect user _____ there _____ data _____?

_____ have any procedures to _____ user's _____ safe?

_____ do you keep _____ data breaches?

_____ your _____ have any _____ to protect against _____?

Do you employ _____ protect _____ data _____?

_____ you _____ protect _____ users' data?

_____ you tell _____ the _____ measures _____ put in place _____ protect _____?

The question is, _____ your _____ protocols to protect _____?

Does _____ systems _____ place for _____ data breeches?

Can _____ in place for protecting privacy _____ your systems?

_____ have any procedures in place _____ breaches?

_____ us about the _____ in _____ systems to _____ privacy.

Which _____ ensure the _____ sensitive _____?

_____ safeguard user privacy?

Does _____ system _____ in place to protect user's _____?

Did you have _____?

Can _____ please _____ on _____ protocols _____ to safeguard against _____?

_____ you _____ to _____ your privacy _____?

How _____ protect _____ privacy in _____ of _____ breach?

How _____ your protocols _____?

What _____ your system _____ private data _____?

_____ protocols for _____ against _____ hacks?

_____ a _____ incident occur can _____ an overview _____ the preventive measures _____ users' personal _____?

_____ steps _____ to defend user _____?

Do _____ use _____ to _____ against _____ leaks?

_____ do you _____ yourself _____ hacks?

_____ privacy breeches prevented _____ system _____?

Does your _____ have _____ for _____ hacks?

What kind of _____ in _____ to _____ user _____?

_____ there any safeguards _____ protect _____ information?

What do you do _____ a _____ data breach that _____ users' _____?

How _____ you keep _____?

_____ protocols do _____ have in place _____ users' _____?

_____ mechanisms _____ in your systems _____ keep _____ privacy safe.

Tell me about _____ measures _____ user _____ compromise?

_____ are _____ implemented to _____ user _____?

_____ the protocols that are used _____ safeguard _____ compromising _____ privacy?

_____ incident _____ can _____ overview of _____ preventative measures used _____ users' sensitive personal details?

Considering _____ cyberattacks _____ users' _____ can you _____ procedures _____ ensure that _____ violations _____?

Have safety _____ into place to _____ privacy and prevent _____?

_____ additional precautions to keep hackers _____ of _____?

Is _____ specific _____ are put in _____ private information from _____ exposed?

What _____ protocols _____ user _____ breeches?

_____ order _____ privacy and prevent _____ reliable safety measures been _____?

_____ cyberattacks aiming _____ confidential records/privacy, _____ outline _____ procedures making _____ that no violations _____?

Can you _____ me the security _____ in _____ users' confidentiality?

_____ it possible for _____ protect _____ from _____ messed up?

_____ you have _____ protect user _____ from data _____?

Do you _____ privacy?

What do _____ have to _____ breeches _____ ruin our _____?

_____ your systems _____ user privacy _____ being _____.

Do _____ have _____ safeguards _____ protect user privacy?

Are safety _____ established _____ user _____ prevent data _____?

_____ the protection of _____ data?

Should _____ Cybersecurity _____ occur, _____ give an overview of the preventive measures _____ protect _____?

_____ do you _____ to _____ breeches?

What safeguards _____ to protect _____ and _____?

_____ a way _____ hackers from hurting _____ data?

_____ protective _____ used _____ to protect user privacy

Do _____ exist established _____ to _____?

_____ are _____ to _____ the _____ of personal info?

Do your systems have _____ breeches?

_____ should _____ protected in the _____ of a _____ breach?

Do there _____ specific _____ are _____ to _____ users' private information _____ being violated?

Considering _____ confidential records/privacy, _____ you explain the procedures for _____ that no _____?

Do _____ protocols to make _____ data privacy _____?

_____ against privacy breach?

_____ have any protective _____ place _____ protect user's information?

_____ are _____ to protect _____ data breeches that _____ user privacy?

_____ when faced _____ a potential _____ breach _____ compromise users' private information?

_____ your systems guard _____ data _____?

Will my private information _____ protected from _____ data _____?

_____ you have protocols in place to _____?

_____ measures _____ been put in place to _____?

Do your _____ to _____ against _____ hacks?

_____ there _____ in _____ protect user privacy?

_____ you have _____ for _____?

Do you _____ user's privacy?

Can _____ place for _____ privacy breeches?

Are _____ protecting the _____ from _____ up?

Are _____ in place _____ protect user _____?

_____ to _____ more about _____ measures protecting user _____ from _____.

What _____ the safeguards _____ in to _____ user _____?

_____ you have _____ protecting _____ privacy?

Are there _____ defense protocols _____ data _____?

_____ have any information _____ the _____ to safeguard _____ breeches compromising _____ privacy?

Do _____ have protocols _____ user's _____?

Does anyone _____ there are _____ protocols _____ to _____ private information _____ being _____?

_____ possible _____ aiming _____ users' confidential _____ can you _____ us a procedure _____ ensuring _____ happen?

_____ you have _____ about _____ protocols _____ to safeguard against data _____ user _____?

What _____ do _____ system have in _____ data leaks?

Is _____ about the protocols used _____ user privacy _____ breeches?

_____ systems _____ protocols in place to protect _____?

_____ can you _____ user _____ compromised?

_____ your systems _____ protocols _____ user _____?

_____ does your _____ with _____ our _____?

_____ do _____ protect _____ if _____ a data breach?

Do _____ have _____ their data?

_____ your _____ with _____ losses that _____ our privacy?
 Can you tell me _____ you use to _____?
 What _____ methods that _____ the protection of _____ data?
 _____ the safety of _____ data _____ potential hackers?
 What _____ your systems do _____ privacy from _____?
 _____ have _____ against privacy _____?
 _____ do _____ protocol _____ privacy?
 Do _____ for _____ info security?
 _____ you protect _____ against _____ breeches?
 What _____ place _____ safeguard user privacy?
 _____ want to know _____ you _____ user _____ being _____ up.
 Are _____ precautions taken _____ information?
 Is _____ way to _____ no violations happen, considering possible _____ records?
 Do _____ in place _____ user _____?
 What _____ do _____ system have _____ to _____ against _____ leaks?
 What _____ the _____ in _____ to _____ a personal information _____?
 _____ you keep my user _____ protected _____ messed _____?
 _____ protocols _____ place _____ protect _____ privacy?
 How do _____ systems keep _____?
 What precautions _____ system _____ protect against _____ leaks?
 How are _____ user's _____ safe?
 What _____ are taken _____ keep _____ private _____?
 _____ you tell _____ if _____ you _____ in place _____ users' confidentiality?
 _____ place to protect user _____?
 How do _____ sure that _____ isn't _____?
 Do _____ have _____ for shielding _____?
 Does your system _____ procedures in _____ to _____?
 Do _____ will protect _____ privacy?
 _____ are the _____ protocols _____ privacy?
 Tell _____ the _____ mechanisms used within _____ systems _____ keep _____ private.
 Do you have _____ way _____?
 Do there any specific _____ are _____ in _____ to _____ users' _____ violated?
 Are _____ that _____ in _____ to protect _____ information from being compromised?
 _____ have protocols _____ your _____ data?
 Do _____ have details _____ that protect user _____?
 Do _____ protection against data _____?
 _____ are the effects on _____ data breech?
 _____ can you _____ sure _____ data is _____ attackers?
 How _____ you _____ data _____?
 _____ protect user privacy.
 Can you tell _____ protocols are for _____ data _____?
 _____ been _____ in place to ensure _____ security?
 What _____ steps _____ user privacy?
 Tell us _____ protective _____ use to _____ data _____.
 _____ you _____ in _____ to protect _____ against data leaks?
 What _____ your _____ deal with _____ breeches _____ ruin _____ privacy?
 What _____ methods _____ data from being _____?
 How do _____ user privacy _____?
 Do _____ have protocols _____ safeguard user _____ breeches?
 _____ you _____ any safeguards _____ place to protect the _____?

_____ are _____ place _____ user privacy?

Share your safeguards _____ make sure user _____.

Considering possible _____ can you outline _____ procedures _____ that no _____ happen?

_____ procedures _____ been put _____ place _____ protect personal _____?

_____ safeguards for _____ violations?

_____ way for your _____ to _____ privacy breeches _____ hackers?

_____ security methods _____ users _____ from being _____?

What _____ are _____ place _____ against _____ privacy risks?

Share _____ safeguards _____ keep _____ safe.

Do you have a _____ system _____ data _____?

Does your _____ have protocols _____ against _____?

Should _____ incident _____ can you _____ an _____ of the _____ measures _____ users' privacy?

_____ it possible _____ systems _____ protocols against _____ breeches?

_____ does your system _____ place _____ user privacy?

Do specific protocols _____ to _____ to _____ private information _____ being violated?

_____ have safeguards to keep _____?

_____ steps _____ taken _____ protect user privacy _____ systems?

Can you give us _____ measures that _____ users' _____ intact?

Do you have _____ protocols in _____ cases?

Do _____ have _____ data hacks?

_____ the security protocols that make _____ the user _____ is _____.

_____ systems are _____ place to _____ against _____?

_____ you have _____ your data _____?

_____ have _____ protocols _____ place against data breeches?

Do _____ protocols in _____ protecting user _____?

_____ you have _____ measures in place _____ ensure that _____ not _____?

What safeguards are _____ place to _____ the _____?

Considering possible cyberattacks _____ users' _____ records/privacy, _____ explain the _____ for _____ that _____ happen?

Is _____ specific _____ put _____ place in _____ to _____ users' private _____ from being broken?

Is _____ safety measures _____ ensure _____ privacy _____ prevent _____ breeches?

Can there be _____ place to _____?

_____ protocols _____ protect user _____ from harm?

What _____ you _____ against data leaks?

_____ there safeguards in _____ privacy?

_____ you _____ protocols _____ user _____ out _____ harms way?

_____ you _____ how _____ will ensure the _____ of _____ data?

What _____ to _____ private data _____?

_____ you have any _____ keep _____ data _____?

_____ you _____ privacy against a _____ breach?

Do you have protocols _____ protect _____ from _____?

Is there _____ way _____ that no violations happen, _____ on _____ records/privacy?

_____ do _____ do to _____ privacy _____?

_____ system safeguard _____ data leaks?

Considering the possibility _____ cyberattacks _____ users' confidential _____ ensure that _____ violations _____?

_____ the _____ to protect user _____?

What _____ users' private data safe?

_____ are _____ were put _____ place to _____ the _____ of _____ systems?

Do _____ have protocols _____ privacy?

_____ your system have _____ user information _____ compromised?

What _____ protect against data _____?

Do _____ know if specific _____ users' private information from being _____?

_____ are _____ protocols _____ prevent _____ breeches?

What _____ in place _____ protect from data _____?

_____ system have _____ procedures for _____ data breaches?

_____ me what your system's deal _____ with _____ our _____?

What protocols _____ in place _____ privacy of your _____?

Do your _____ have _____ to _____ leaks?

Do your systems have _____?

_____ safeguards are _____ to _____ users' privacy?

Do your _____ have _____ to _____ against data _____?

Which _____ are used _____ user data _____ being _____?

Do reliable _____ measures _____ to protect user _____ and _____ data _____?

What protocols _____ use to safeguard _____?

What safeguards _____ put in place _____ privacy in _____?

_____ it _____ that your _____ would protect us _____ private _____?

_____ security _____ are used _____ protect user _____ being _____?

_____ have protocols for making sure _____ not _____?

Is _____ established _____ to safeguard _____?

_____ safeguards does your system _____ to _____ data _____?

How _____ you _____ user privacy in _____ of _____ data _____?

Explain _____ protective mechanisms utilized _____ to _____ user _____

Can you _____ details _____ that are _____ place _____ protect users confidentiality?

_____ user _____ data breeches?

Can _____ details about your _____ breach prevention _____?

_____ steps _____ you _____ when faced _____ data _____ may _____ users' private information?

_____ do we do _____ protect user _____ data _____?

_____ cybersecurity _____ can you _____ us an overview _____ preventive _____ used _____ protect users' personal _____?

_____ protect _____ user privacy _____ your systems?

_____ you _____ me what _____ are in _____ my info?

Do _____ in _____ to protect against data _____?

How do _____ deal _____ potential data _____ may _____ information?

What steps are _____ sure the _____ our personal _____ not _____?

Do you know if there _____ implemented _____ private _____ from _____ violated?

What precautions are _____ privacy?

_____ we protect _____ from data _____?

Is there _____ keep _____ and prevent _____ breeches?

Do _____ have _____ keep _____ out of harms _____?

_____ possible cyberattacks aiming _____ confidential records/privacy, can you _____ the procedures _____ occur?

How are _____ the _____ info from _____ messed _____?

_____ safeguards _____ been _____ in place to _____ sure _____ information security _____?

_____ you _____ safeguards against _____?

To prevent _____ being _____ explain the _____ within your systems.

Do specific _____ guard _____ possibility _____ misuse of users' private _____?

_____ there any protective protocols against data _____?

How will _____ user _____ from potential _____?

Should you protect user privacy _____ breach?

What _____ be done to _____ the _____ our personal _____ not _____?

_____ do _____ safeguard _____ leaks that could _____ privacy?

_____ protocols _____ place _____ safeguard _____ privacy?

_____ are _____ safeguards _____ place to _____ personal _____ security breach?

_____ your systems _____ protocols _____ place _____ your data?

_____ me how your prevention _____ user _____ intact?

_____ methods _____ users' data _____ exposed?

_____ do _____ secure user _____?

_____ mechanisms _____ in place _____ in your systems?

_____ a cybersecurity incident occur, _____ give an _____ the _____ used _____ sensitive personal details?

Will _____ information _____ data leaks with your _____?

How _____ in _____ to prevent _____ data breach?

_____ your system _____ private _____ hacks?

Can you tell _____ the _____ measures _____ use _____ users _____?

What _____ the _____ place _____ user privacy?

What are the _____ that are _____ protect _____ privacy _____?

_____ have any _____ on the _____ used _____ user _____ from data _____?

What measures _____ in _____ to _____ the _____ of _____ personal _____?

Can _____ protect _____ when _____ is _____ data breach?

Do _____ use safeguards _____ privacy?

What safeguards do _____ put _____ place _____ protect _____?

I would like _____ the _____ used _____ protect _____ data breeches.

_____ your system use any methods _____ from _____ compromised?

_____ are in _____ against _____ breeches?

_____ privacy _____ from data _____?

_____ safeguards _____ put _____ place to ensure _____ information _____?

_____ possible _____ on _____ confidential records/privacy, _____ outline the procedures _____ that _____ happen?
