

[Demo] NLP Dataset for Customer Service Automation

| | |
|----------------------|---|
| Company Type | Electricity Suppliers |
| Inquiry Category | Renewable energy options availability |
| Inquiry Sub-Category | Renewable Energy Plans |
| Description | Customers inquire about the availability of specific renewable energy plans offered by Electricity Suppliers, such as solar, wind, or hydroelectric power options, to reduce their carbon footprint and support clean energy initiatives. |
| Data Size | 5,084 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ types of renewable energy ____ are offered ____ in ____ of ____ environmental ____?

____ suppliers' RenewableEnergy options ____ reduce the environmental ____?

____ renewable ____ options ____ by power ____.

What types of ____ resources are ____ Electricity ____ lower the negative ____?

____ environmental resources are ____ from your Electricity Suppliers ____ to ____ the ____?

Energy ____ that ____ eco-friendly.

____ different ____ energy options in order ____ reduce environmental impact.

____ green ____ Electricity ____ offer that might ____ impact?

What are the ____ suppliers' ____ options ____ Environmental ____?

____ are ____ renewable energy ____ electricity suppliers to ____.

____ types of ____ are supplied ____ my ____ supplier?

____ renewable power sources that might limit ____?

Reducing ____ impact ____ type of renewable energy ____ suppliers are ____ to ____.

How are ____ options ____ by ____?

____ renewable ____ that electricity suppliers ____ give.

Any ____ sources which ____ damage?

____ resources ____ available fromElectricity Suppliers in order ____ impact?

Is ____ a ____ environmental ____ if ____ provide renewable ____?

Which ____ are provided ____ utilities?

____ to know ____ electric ____ provide different types ____ energy ____.

____ resources do ____ Suppliers ____ how do they prevent ____?

Do electric suppliers ____ types of ____ to ____ their ____ effect?

There ____ of renewable energy ____ Electricity ____ offer.

____ offer ____ of green resources.

One ____ renewable energy ____ that electricity ____ are ____ to ____ is reducing ____.

____ are ____ supporting the environment ____ renewable ____ solutions?

What ____ the electricity ____ reducing the ____ impact ____ renewable ____?

There ____ someRenewable ____ available from ____.

What environmental _____ can _____ your Electricity Suppliers _____ order _____ the negative _____?

_____ kind of environmental resources are available from _____ Suppliers in _____ effect _____ the _____?

Reducing _____ impact is _____ renewable _____ that _____ by electricity suppliers.

What kind _____ available _____ Electricity Suppliers _____ order to _____ impact?

In _____ the effect on the environment, _____ of environmental _____ are available _____ your _____?

What _____ do _____ Suppliers _____?

_____ resources _____ offered by electricity _____?

Electricity suppliers _____ renewable _____ to _____ the environment's _____.

What _____ resources are offered _____ Suppliers, _____ they _____ the _____?

_____ do _____ reduce _____ impact _____ resources from Electricity _____?

Electricity _____ offer green resources _____ reduce _____.

How _____ the _____ of green energy _____ suppliers?

Suppliers _____ to _____ environmental impact

_____ do _____ Suppliers offer, how do you _____ impact?

_____ Suppliers _____ energy _____ for the _____.

What green _____ by Electricity Suppliers _____ how do _____ impact?

Electricity _____ offer _____ renewable energy.

What _____ resources can Electricity Suppliers offer _____?

What _____ available _____ electricity suppliers?

What _____ of clean _____ me by my Electricity _____?

Which _____ suppliers' _____ reduce _____ impact?

_____ the _____ for eco-friendly power _____?

Which _____ alternative _____ provided _____ utility companies?

What _____ energy solutions available _____ electricity _____?

_____ companies provide _____ power _____?

_____ suppliers _____ renewable _____ to decrease the _____.

What sorts _____ clean _____ sources come _____ my _____?

_____ environmental _____ available from your _____ Suppliers _____ order to save _____?

_____ are supplied by _____ suppliers?

Reducing _____ is _____ type of _____ energy _____ electricity _____ provide.

_____ suppliers offer _____ options to _____ environmental _____?

_____ do you reduce negative _____ resources from Electricity _____?

What kinds _____ resources are _____ from _____ Electricity _____ lower the _____ on _____?

How _____ suppliers _____ environment through renewable _____ solutions?

_____ renewable energy _____ regards _____ decreasing _____ impact are _____ by Electricity _____.

_____ the _____ impact using renewable _____.

Electricity _____ have Renewable Energy _____ that _____ the _____.

_____ electric suppliers provide different _____ energy _____ reduce _____ effect?

_____ is _____ matter _____ of renewable is _____ by the electricity suppliers.

What _____ Electricity suppliers' _____ that are less _____ environment?

Electricity Suppliers _____ environment's _____ by _____ energy.

_____ environmental impact is a type _____ renewable _____ that _____ suppliers _____ allowed _____.

Which sustainable _____ provided by _____?

_____ resources _____ Electricity Suppliers offer, how do _____?

_____ the electricity _____ Renewable Energy _____ lower in _____ impact?

What _____ environmental resources _____ from _____ Electricity Suppliers in order _____ negative _____?

_____ do you _____ negative _____ because Electricity _____ resources?

_____ offered _____ Suppliers, _____ you reduce negative impact?

_____ Suppliers _____ energy options to _____ environmental impact.

What _____ energy _____ are offered by _____ suppliers _____ environmental _____?

_____ resources are _____ from _____ order to lower _____ the environment.
 _____ kind _____ resources are _____ your _____ Suppliers _____ lower _____ negative impact?
 _____ electric suppliers provide _____ energy sources?
 _____ green _____ offered _____ electricity suppliers?
 _____ sustainable power _____ are _____ by utility _____?
 How do electricity _____ impact _____ green _____?
 Which green _____ are _____ by _____?
 _____ Suppliers _____ different _____ energy options _____ to _____ environment.
 _____ providers _____ renewable energy _____ to limit _____.
 Reducing _____ is a _____ energy _____ suppliers _____ allowed _____ provide.
 What _____ of _____ do your Electricity Suppliers _____?
 _____ sustainable power _____ that _____ provide.
 What Environmentally _____ Resources _____ have _____ give?
 _____ type _____ sources come in _____ from _____ electricity supplier?
 _____ have _____ options for the environment.
 _____ renewable energy _____ the Electricity Suppliers.
 What _____ are available from _____ Electricity Suppliers _____ lower _____ impact?
 What _____ are _____ from your _____ suppliers _____ the negative _____?
 _____ of clean energy _____ come from _____ supplier?
 Reducing environmental impact _____ a _____ of renewable _____ option _____ electricity _____.
 Environmental resources are _____ Electricity _____ in order _____ negative _____.
 _____ do your Electricity _____ that _____ eco-friendly?
 _____ specific clean _____ are supplied _____ my _____ supplier?
 What types of _____ Sources come _____ Supplier?
 _____ energy _____ for the environment _____ from Electricity Suppliers.
 _____ providers _____ for renewable _____.
 _____ certain _____ energy _____ electricity _____ can provide.
 What _____ do Electricity _____ give out?
 _____ suppliers of electricity _____ to _____ environment through renewable _____?
 What _____ come _____ my _____ supplier?
 Which _____ renewable energy _____ available _____ electricity suppliers?
 Electricity _____ energy options
 Which Environmentally _____ Resources _____ Electricity _____?
 What green _____ do Electricity Suppliers _____ they help _____?
 _____ Renewable Energy _____ reduce environmental impact.
 _____ can _____ eco- friendly _____.
 There are some _____ energy _____ electricity suppliers.
 One type of renewable energy _____ suppliers can _____.
 Reducing _____ impact _____ matter of what types of _____ provide.
 What can _____ suppliers do to _____ impact of _____?
 What _____ resources _____ your _____ in _____ limit negative impact?
 There _____ power _____ from Suppliers.
 Do _____ accept different _____ renewable _____ sources?
 _____ are _____ electricity _____ Renewable Energy options _____ lower in _____?
 How _____ the _____ resources _____ affect _____ negative impact?
 Various _____ are offered by _____.
 What _____ resources are available _____ Suppliers _____ the effect _____ the _____?
 _____ have a _____ power choices.
 _____ electricity _____ options _____ reducing environmental impact in _____ of renewable _____?
 _____ our _____ footprint _____ done with _____ electric alternatives.

_____ energy sources _____ supplied _____ my Electricity _____?

_____ suppliers offer different forms _____?

What _____ of _____ energysources come _____ my _____?

_____ green resources are _____ Suppliers?

There _____ different types of renewable energy _____.

_____ electricity _____ contributing to the _____ renewable energy _____.

What _____ of _____ resources Electricity _____ how _____ reduce negative _____ with _____?

_____ energy _____ fromElectricity Suppliers.

_____ Resources doElectricity suppliers _____?

Which _____ Electricity Suppliers _____?

_____ green resources can _____ offer _____ the _____ impact?

What _____ of clean _____ from _____ Electricity supplier?

_____ types _____ renewable energy _____ offered _____ electricity suppliers.

How are green _____ by electricity _____?

_____ green resources _____ Suppliers offer, how _____ help prevent _____ negative _____?

_____ options, aimed at _____ consequences, are _____ electricity suppliers.

Electricity _____ different renewable energy _____.

There are _____ choices _____ Suppliers.

Energy _____ eco-friendly choices.

Are _____ for _____ environmental harm provided by _____?

What _____ do _____ Electricity _____ have?

Are there alternative _____ of _____ less harmful _____ environment?

_____ suppliers able _____ provide renewable _____ the environment?

_____ green resources _____ Electricity Suppliers _____?

How _____ find _____ solutions from electricity _____?

Certain types _____ renewable _____ Electricity Suppliers.

What green resources _____ provided _____?

_____ of eco-friendly _____ solutions _____ providers offer?

Electricity suppliers can _____ to the _____ energy _____.

_____ provides _____ for minimizing impact on _____ environment?

_____ the suppliers' options for _____ impact _____ renewable _____?

There are _____ green resources _____.

_____ types _____ options do Electricity _____ offer?

_____ are any renewable power sources _____ to _____?

What types of _____ supplied by _____ Electricity _____?

What _____ Suppliers _____ that could decrease negative _____?

Any _____ power sources that can _____?

What _____ suppliers offer _____ options?

_____ environmental resources _____ yourElectricity Suppliers _____ to lower the _____ impact?

Electricity Suppliers give different _____ in regards _____.

_____ friendly resources _____ Electricity suppliers _____?

_____ providers offer _____ to _____ harm.

Which sustainable power _____ the utility _____?

_____ are _____ RenewableEnergy _____ that reduce environmental impact?

_____ choices _____ provided byenergy _____.

_____ green _____ supplier _____ has _____ to _____ electricity consumers?

Reducing environmental _____ matter of _____ type _____ electricity suppliers provide.

_____ green _____ offer that might reduce negative _____?

How do _____ help _____ impact through green _____?

What _____ do Electricity Suppliers _____ do _____ their negative _____?

_____ offer eco-friendly _____ solutions?

_____ of green _____ do _____ Suppliers _____?

Are there electricity _____ harmful to the _____?

_____ of _____ energy options, _____ environmental _____ are offered by electricity _____.

Do _____ provide different _____ to reduce _____ ecological effect?

_____ the _____ options _____ the environmental impact of renewable _____?

_____ environmental _____ from _____ Suppliers _____ order to reduce the negative impact?

_____ are available from _____ utility companies?

What _____ of _____ are _____ Electricity _____ in order to _____ the _____ impact?

_____ suppliers offer a range _____ to _____ reduce environmental _____.

There _____ any _____ sources to _____ damage?

_____ of green resources _____ how _____ you _____ negative impact with _____?

What _____ do _____ electricity _____ have _____ eco-friendly.

What are _____ electricity _____ choices that are _____ impact?

_____ types _____ do I _____ my Electricity Supplier?

_____ of clean energy _____ supply from my _____ supplier?

Electricity suppliers _____ to _____ environment _____ energy _____

Certain _____ renewable _____ can _____ from Electricity Suppliers.

What resources _____ that is eco-friendly?

_____ some green resources.

What types _____ energy sources are supplied _____?

Environmentally _____ Resources do Electricity _____?

_____ impact _____ a _____ of what type of renewable _____ provided _____.

_____ Suppliers _____ renewable _____ options for decreasing environmental _____.

_____ of resources do Electricity _____ offer _____ eco-friendly?

How _____ providers _____ energy solutions?

_____ suppliers have _____ choices.

_____ are some _____ from Electricity Suppliers.

_____ of resources do your _____ is eco-friendly?

Which _____ sources do _____ suppliers _____?

_____ Suppliers _____ different _____ for _____ energy.

_____ are the _____ of electricity suppliers _____ energy solutions?

_____ many _____ options _____ offer by electricity suppliers?

_____ type _____ do _____ Electricity Supplier have _____ eco-friendly?

Electricity _____ energy options to _____.

_____ are _____ suppliers' _____ lower in environmental _____?

What _____ resources are _____ Electricity Suppliers and how _____ impact?

Electricity Suppliers _____ offer green resources _____ impact.

_____ I _____ less _____ of _____ generation?

There are a _____ electricity suppliers _____ offer.

_____ solutions are offered _____ providers.

Electricity _____ reduce _____ using renewable resources.

Eco-friendly _____ from _____?

_____ energy options offered by _____ are _____ at reducing _____.

_____ a topic of discussion _____ energy options that _____ suppliers _____ provide.

What _____ are _____ your _____ if you want to _____ negative _____?

_____ are _____ RenewableEnergy _____ that reduce _____ impact.

There are environmental _____ available _____ in order _____ lower _____.

What _____ of _____ your Electricity _____ have?

_____ differing types of renewable energy _____ electric _____ can _____.

Electricity _____ renewable energy _____ for _____.

Reducing _____ is _____ to what types _____ renewable energy _____ can _____.

_____ the environmental _____ one type _____ option _____ suppliers are allowed to _____.

What _____ resources _____ available _____ your electricity _____ the effect _____ environment?

What green resources _____ and how _____ help?

Do _____ types _____ renewable energy sources _____ reduce the _____ effect?

_____ are _____ suppliers' options to reduce _____ energy?

Certain _____ renewable energy can _____ Electricity Suppliers.

What are the Electricity _____ options _____ have _____ environmental _____?

Reducing environmental _____ is a type of _____ that _____ suppliers _____ allowed _____

_____ sorts of _____ resources _____ from your _____ to limit _____ impact?

Certain _____ of renewable _____ offered _____ electricity suppliers.

_____ renewable _____ sources that _____ nature damage?

Electricity suppliers _____ renewable sources _____ reduce the _____.

What _____ resources _____ available _____ your _____ Suppliers, _____ order to _____ the _____?

Reducing _____ one type _____ renewable energy _____ that electricity _____ provide.

What Environmentally _____ Resources _____ offer?

_____ sustainable power _____ are _____ utility _____?

_____ type _____ renewable energy _____ electric _____ provide?

_____ of renewable energy are _____ Electricity _____.

Reducing _____ impact is _____ type of renewable the _____ suppliers _____ provide

Which types of eco-friendly _____ offered _____ providers?

_____ kinds of _____ do _____ supplier _____ is eco-friendly?

_____ to _____ electricity sources _____ reduce ecological impacts supplied _____ companies?

_____ Suppliers use _____ the environmental impact.

Which _____ power alternatives _____ provided _____?

_____ green resources are _____ Suppliers?

_____ environmental impact _____ matter of _____ types of renewable _____ can _____.

Which _____ power _____ handed _____ by utility _____?

_____ electricity _____ have _____ options that _____ in the Environmental _____.

_____ electricity providers limit _____ harm _____ energy?

Which _____ of _____ source _____ supply from my electricity _____?

_____ electricity suppliers' RenewableEnergy _____ terms of _____ impact?

_____ environmental impact is a _____ renewable _____ that _____ can provide.

_____ are _____ types of renewable _____ can provide.

_____ is a _____ of _____ kind _____ renewable energy _____ suppliers _____ allowed _____ provide.

What _____ the green _____ Suppliers _____?

_____ renewable energy _____ providers offer?

Reducing _____ impact is _____ type _____ renewableenergy option _____ electricity _____ to _____.

_____ energy _____ are available from _____.

Green _____ Electricity Suppliers

Which green _____ and _____ they help _____ negative impact?

What _____ do Electricity _____ have _____ stock?

Electricity suppliers reduce the _____.

There _____ ways _____ get renewable energy _____.

_____ environmental resources _____ available _____ electricity suppliers _____ to _____ the negative _____?

_____ source come in supply _____ my Electricity _____?

There _____ any _____ power sources _____ can be _____ nature _____?

What _____ resources _____ electricity _____ to offer?

Renewable _____ sources can _____ used to _____.

_____ lower the _____ on _____ environment, _____ environmental _____ available from _____ Electricity _____?

_____ can electricity _____ limit environmental harm by _____?

Electricity suppliers _____ using renewables.

Electricity suppliers _____ renewables _____ impact.

_____ renewable energy _____ to electricity _____.

There _____ choices _____ by _____ suppliers.

What _____ green _____ Suppliers offer _____ reduce negative impact?

What _____ resources _____ offer?

Who have _____ electricity _____ RenewableEnergy options _____ impact?

What _____ resources _____ by Electricity _____ and how do _____ impact?

_____ suppliers _____ a _____ of renewable energy _____?

What _____ of clean energy _____ supplier?

Different renewable _____ options _____ Suppliers

_____ electricity _____ have RenewableEnergy options _____ impact.

_____ to tell _____ about _____ electric _____ offerings that are _____ at decreasing _____?

Electricity _____ can _____ renewable _____ reduce the environment's _____.

What _____ are _____ Suppliers, how do _____ reduce negative impact _____?

What electricity _____ RenewableEnergy _____ that are _____ impact?

_____ electricity _____ are helping _____ environment _____ renewable energy _____?

_____ renewable energy choices can _____ make _____ limit _____?

_____ types of renewable energy _____ are _____ by _____.

What _____ suppliers' RenewableEnergy _____ that are more _____?

_____ reduce the _____ renewable sources.

Electricity _____ can _____ the _____ renewable _____.

_____ do _____ energy solutions from _____ providers?

_____ Friendly _____ do _____ suppliers provide?

How _____ electricity _____ give _____ solutions?

_____ types of _____ get _____ my electricity supplier?

_____ energy _____ on offer _____ Suppliers.

_____ power choices are _____ from _____.

Electricity suppliers _____ offer _____ energy options.

_____ need _____ know what green options the _____ for _____.

What _____ are _____ from your Electricity _____ order to _____ the _____?

_____ is _____ of green _____ options _____ are offered _____ suppliers.

_____ the _____ RenewableEnergy _____ that are lower in _____ impact

Electricity suppliers offer _____ designed _____ environmental consequences.

What _____ do Electricity _____ that _____ decrease negative _____?

_____ able to give _____ types of _____ sources?

_____ environmental _____ is _____ matter _____ energy option _____ suppliers can provide.

The _____ suppliers' _____ are lower in _____.

Something _____ do Electricity suppliers have _____?

_____ suppliers have _____ types _____ options.

What environmental resources _____ Suppliers in order to lower _____ on _____.

_____ can _____ different forms _____ energy.

_____ can Electricity Suppliers _____ to _____ negative impact?

Which _____ are available _____ your _____ in order _____ decrease _____ negative _____?

_____ suppliers' RenewableEnergy options that _____ lower in environmental _____?

What _____ do electricity suppliers _____ you reduce negative impact _____?

_____ Environmentally _____ Resources _____ available _____ electricity _____?

_____ green resources do _____ and how do _____ help _____ negative _____?

Any renewable _____ that _____ nature damage?

_____ green _____ that may reduce negative impact?

Which _____ alternatives are provided _____?

There are _____ power _____ that _____ to limit nature _____?

Some power _____ to limit _____.

Which _____ in the _____ from my electricity _____?

Which sustainable power _____ can _____ the _____ companies?

Electricity _____ reduce the _____ impact _____.

_____ contributing to _____ renewable energy solutions, if _____?

What _____ the _____ providers _____ for renewable _____?

There are _____ electricity suppliers can _____.

_____ are _____ of _____ Electricity Suppliers can provide.

What type _____ eco-friendly energy _____ are _____ electricity _____?

Electric _____ provide _____ of renewable _____.

What _____ the _____ your _____ has that is _____?

_____ environmental resources are _____ suppliers _____ order to limit _____?

What _____ your electricity _____ have that _____?

_____ are the _____ your _____ has?

There are _____ types of renewable energy _____.

What _____ resources _____ your _____ Suppliers _____ order to lower _____ effect?

_____ of _____ resources are available _____ Electricity Suppliers _____ order to _____ the _____?

_____ environmental _____ is _____ matter of _____ electricity suppliers can provide

Electricity suppliers _____ to reduce _____.

_____ offer different _____ energy _____ reduce environmental impact.

_____ environmental resources are available _____ Electricity Suppliers in _____ the effect _____?

What _____ the electricity _____ when _____ comes _____ environmental impact _____ renewable energy?

Electricity _____ some _____ energy options.

_____ many _____ resources are available _____ your _____ Suppliers _____ the negative impact?

What _____ resources _____ supplier has?

_____ are Environmentally Friendly _____ that electricity _____ offer.

Which _____ energy sources come from _____ Electricity _____?

There _____ environmental resources _____ from _____ in _____ limit _____ negative impact.

What renewable energy _____ are _____ by _____?

_____ resources _____ Electricity Supplier _____ that _____ eco friendly?

What _____ the _____ suppliers' renewable _____ in environmental _____?

_____ choices _____ available from _____ suppliers?

_____ to reduce the environment's _____.

Electricity Suppliers _____ renewable _____.

What _____ do _____ Suppliers offer that _____?

_____ environmental _____ topic _____ renewable energy options allowed by electricity _____.

_____ types of _____ sources _____ into _____ my Electricity Supplier?

_____ about any _____ power sources _____ nature damage?

_____ friendly _____ Electricity suppliers offer?

How _____ electricity suppliers offer _____ negative impact?

_____ Friendly Resources can Electricity _____?

_____ your _____ offer that _____ less harmful to the environment?

_____ eco-friendly energy _____ are _____ electricity _____?

Different renewable _____ electricity suppliers.

Is there any _____ reduce the _____ environment supplied _____ companies?

Electricity suppliers have _____ reducing environmental _____ energy

_____ green resources Electricity Suppliers _____ negative impact.
 _____ of _____ energy options are available _____ electricity _____?
 What _____ resources _____ Suppliers offer?
 What _____ Electricity Suppliers offer that might _____ impact?
 _____ options are available _____ Suppliers?
 _____ suppliers have RenewableEnergy _____ that _____ lower _____ impact?
 What _____ resources _____ offered _____ Suppliers, _____ do they _____ the _____?
 What renewable _____ do _____ companies _____?
 _____ different types of _____ energy that _____ can _____.
 _____ electricity _____ limit _____ harm _____ renewable energy choices?
 _____ types of _____ are _____ from _____ Suppliers.
 _____ environmental _____ a type _____ renewable energy _____ is _____ the electricity suppliers.
 Reducing _____ is _____ renewable _____ that electricity _____ allowed to provide.
 There _____ some renewable energy _____ that _____ offer.
 _____ types _____ energy _____ exist from electricity _____?
 Reducing _____ one type of _____ energy option that _____ by _____.
 Reducing _____ impact _____ of _____ of renewable energy _____ electricity _____ allowed to _____.
 Electricity _____ have renewable _____ choices _____ harm.
 Electricity _____ renewable _____ choices that _____ environmental _____.
 There are _____ options _____ electricity suppliers can _____.
 _____ resources should Electricity _____ to reduce _____ impact?
 _____ green _____ Electricity _____ offer, how _____ reduce the _____ impact on the _____?
 _____ are the _____ reducing _____ impact _____ it comes to _____ energy?
 How do you _____ footprints _____ electricity options?
 Different renewable _____ options are _____ byElectricity _____ relation _____ environment.
 I wonder _____ electric suppliers provide _____ of _____.
 _____ are _____ renewable _____ choices _____ electricity providers _____?
 _____ resources _____ Electricity Suppliers _____ do they prevent _____ impact?
 _____ of renewable _____ are offered _____ Suppliers.
 _____ order _____ lower the effect on the environment, what types _____ environmental _____ are _____?
 _____ suppliers provide _____ forms _____ renewable _____?
 What _____ energy _____ providers offer?
 What _____ of eco-friendly _____ are _____?
 _____ electricity suppliers' _____ it comes to the environment?
 Which environmental _____ from your Electricity _____ lower _____ effect on _____?
 Reducing _____ is a _____ of what _____ of _____ electricity _____ provide.
 What _____ resources _____ Electricity _____ offer, how _____ they help?
 Which sustainable _____ alternatives are given _____?
 Is there _____ offered by _____ providers?
 _____ are a _____ of renewable _____ electricity suppliers can _____.
 _____ suppliers _____ renewable energy _____.
 Does renewable _____ options _____ to provide _____ the environmental impact?
 _____ are the _____ options to _____ environmental _____ in _____ energy?
 _____ green _____ Suppliers offer, how _____ reduce their _____?
 Which green power alternatives _____?
 Different renewable _____ are offered _____.
 _____ sorts _____ green resources _____ offer, how do _____ help?
 How _____ any renewable _____ that _____ limit nature _____?
 What _____ of _____ resources _____ available from your _____ Suppliers _____ lower negative _____?
 What _____ energy sources _____ in _____ from my _____?

_____ of green resources _____ offer?

_____ Environmentally Friendly _____ can Electricity _____?

There are _____ of renewable _____ that Electricity _____.

_____ options _____ by electricity suppliers?

_____ of _____ energy _____ come _____ the supply from _____ electricity _____?

Electricity suppliers _____ RenewableEnergy _____ that _____ lower _____.

_____ energy _____ that reduce environmental impact.

_____ renewable power sources _____ available _____ damage?

_____ electricity suppliers _____ environmental impact in terms of _____?

Are electricity suppliers _____ to the _____ through renewable _____?

_____ renewable _____ sources _____ to limit nature damage?

_____ are the _____ choices _____ suppliers?

What _____ of _____ do your Electricity _____ is _____?

Different _____ energy _____ in _____ to the _____ offered _____ suppliers.

What are _____ green _____ of _____?

What _____ friendly _____ have to _____?

_____ green _____ do _____ offer that _____ reduce impact?

What _____ green _____ suppliers offer?

_____ Environmentally Friendly _____ Electricity suppliers _____?

There _____ options that electricity suppliers _____.

_____ one type of renewable energy options that _____ able _____ provide.

What _____ eco- friendly _____ solutions _____ available _____ providers?

What green energy options _____?

What types _____ source are supplied _____ Electricity _____?

_____ are _____ green resources _____ offer?

_____ impact is _____ renewable energy option that can _____ by electricity _____.

Some types of renewable _____ can _____ obtained _____.

Different renewable _____ by _____ Suppliers.

_____ resources are offered _____ Electricity Suppliers _____ help avoid _____ impact?

_____ environmental resources _____ your Electricity Suppliers in order _____ restrict _____?

_____ the electrical suppliers' _____?

_____ are the _____ that utility _____ provide?

_____ some renewable _____ Electricity _____ can offer.

Which environmental resources are _____ from _____ in order _____?

Which _____ energy _____ are _____ by _____?

Electricity _____ can _____ that may reduce _____ impact.

There are _____ Resources _____ offer.

_____ can _____ suppliers reduce _____ consequences _____ green _____ options?

What _____ are _____ Electricity suppliers in _____ to _____ the negative _____?

_____ give _____ forms of renewable _____ sources?

_____ energy _____ can cut _____ impact.

Which utility _____ power options _____ the _____?

_____ offer _____ choices _____ limit environmental harm.

_____ green _____ do _____ suppliers offer, how do _____?

Which eco-friendly power _____ from _____?

How _____ sources to _____ damage?

_____ environmentally _____ resources do Electricity suppliers _____?

What _____ from _____ electricity _____ in order _____ lower the negative _____?

What _____ of renewable _____ suppliers _____?

_____ clean _____ come _____ supply _____ the Electricity supplier?

What ____ of ____ come ____ my electric supplier?

____ environmental ____ is a matter of ____ types of ____ electricity ____ to ____.

What ____ are available from ____?

What ____ resources do ____ Suppliers ____?

What ____ of ____ do ____ Electricity ____ that is ____?

What renewable ____ do ____ offer?

What ____ the electricity suppliers' ____ that have ____ impact?

The ____ suppliers ____ renewable energy ____ that are lower ____.

What ____ Electricity Suppliers ____ and how ____ reduce ____ negative ____?

____ friendly ____ offered by ____ suppliers.

Electricity ____ are ____ the ____ through ____ energy ____.

There ____ energy options ____ electricity suppliers ____ offer.

What are ____ Friendly ____ Electricity ____ have ____ offer?

Which sustainable ____ are provided ____?

____ are ____ by energy ____.

____ offer green energy ____.

What ____ power ____ are available ____?

____ green resources Electricity Suppliers offer, ____ prevent negative ____?

What are ____ contribution ____ the environment ____ solutions?

____ impact ____ type of renewable ____ options ____ can provide.

What ____ resources ____ Suppliers offer, ____ they affect ____?

Electricity ____ can offer ____ variety ____ options.

Reducing environmental impact is ____ renewable ____ provide.

____ energy options ____ available from electricity ____.

What ____ the electricity suppliers' Renewable Energy options ____?

What types of ____ energy ____ by my ____?

____ are ____ types of resources ____ Electricity Supplier has ____?

____ different types ____ renewable energy.

____ green ____ Suppliers offer, how ____ you reduce negative ____ them?

Electricity Suppliers ____ renewable ____ to ____.

____ can ____ help the ____ through renewable ____ solutions?

electricity ____ options ____ reducing ____ impact ____ terms of ____

What ____ Friendly Resources do ____?

Reducing environmental ____ one ____ of ____ energy ____ suppliers are able ____.

____ suppliers ____ green ____

____ sort of green ____ Electricity ____?

____ green resources are ____ Suppliers, how ____ they ____?

____ renewable ____ are available ____ electricity ____

Electricity ____ reduce ____ environment's ____ resources.

What resources ____ electricity supplier ____ that ____?

What eco-friendly ____ find from electricity ____?

What ____ of ____ energy ____ in supply ____ my Electricity ____?

Some renewable energy options that ____ suppliers ____.

Tell me ____ green ____ has for ____ power

____ environmental ____ can you find ____ Electricity Suppliers ____ order ____ limit ____ impact?

What ____ resources do ____ suppliers offer, ____ you reduce ____?

____ have ____ range ____ green energy ____.

____ friendly ____ do electricity suppliers ____?

____ of renewable ____ sources ____ given by ____ suppliers.

____ resources are ____ your Electricity Supplier ____ to ____ the ____ impact?

_____ clean energy sources _____ in supply _____ my _____?

The electricity suppliers' _____ options _____.

_____ RenewableEnergy options _____ reduce environmental _____.

Is _____ options lower in _____ impact?

_____ a _____ of renewable energy _____.

_____ suppliers contributing _____ the environment _____ energy alternatives?

_____ you tell _____ are for clean power?

What _____ resources is _____ from _____ Suppliers in _____ to limit _____?

Reducing _____ is one type _____ renewable energy _____ that _____ can _____
_____ types of green resources _____?

What _____ Friendly _____ do _____ suppliers _____?

_____ green energy solutions _____ offered _____?

Electricity suppliers offer green _____ impact

Reducing environmental _____ a _____ what type of _____ suppliers _____ allowed to _____.

_____ resources can Electricity _____ that _____ reduce negative _____?

Electricity suppliers _____ renewable energy _____ that impact _____.

What specific types _____ by my _____ Supplier?

_____ types of _____ energy can I _____ my _____?

_____ green _____ are _____ Electricity Suppliers _____ do you reduce _____ impact?

Are there _____ that electricity providers _____ provide?

What kinds _____ energy solutions _____ the _____ providers?

What types _____ clean energy _____ do _____ get _____ my _____?

_____ there _____ eco-friendly _____ that electricity providers can _____?

There _____ renewable energy offered _____ Electricity Suppliers.

What are the _____ suppliers' _____ that have _____?

_____ can _____ certain types _____ energy

Which resources do your Electricity _____?

_____ are provided _____ energy _____?

_____ green _____ Electricity Suppliers _____ reduce the negative impact?

What _____ do your _____ suppliers offer _____ friendly to _____ environment?

Are _____ solutions _____ lower _____ harm supplied _____ suppliers?

_____ RenewableEnergy options _____ reducing environmental impact?

Electricity suppliers _____ able to _____ to the _____ through _____.

_____ energy _____ out there from _____ providers?

_____ Environmentally _____ Resource _____ Electricity suppliers _____?

_____ the electric _____ able to _____ different _____ of _____ energy _____?

Does _____ give _____ types of renewable energy _____?

_____ resources are available _____ Electricity _____?

_____ energy options _____ offered _____ Suppliers.

Any renewable power sources _____ available _____ nature _____?

_____ environmental impact _____ energy _____ electricity _____ allowed to provide.

_____ willing _____ environmental harm _____ renewable energy choices?

Is there _____ types of _____ energy _____ electric _____?

_____ environmental impact _____ a _____ of renewable energy _____ electricity _____.

_____ suppliers _____ renewable _____ reduce the _____ impact.

Reducing _____ is a matter of _____ of renewable _____ able _____ provide.

_____ Electricity _____ provide, and _____ do you reduce _____ impact?

What renewable _____ sources are _____ damage?

_____ providers _____ choices _____ energy.

_____ do _____ negative impact with _____ suppliers, what _____ do they _____?

What _____ sources do _____ suppliers provide?
 Reducing _____ impact _____ dependent _____ of renewable electricity suppliers _____.
 Reducing environmental _____ type _____ energy that _____ be provided.
 _____ green resources _____ Electricity Suppliers _____ how _____ reduce negative _____?
 There _____ that _____ suppliers can _____.
 Reducing environmental _____ is one _____ renewable energy _____ that electricity _____.
 What _____ electricity supplier _____ that is _____ friendly?
 _____ renewable energy options _____ Suppliers.
 _____ sorts _____ do Electricity Suppliers _____?
 _____ kinds of green _____ Electricity _____ do they affect _____?
 What eco- _____ energy _____ from _____ providers?
 _____ the energy _____ choices?
 _____ electricity _____ offer renewable _____.
 _____ types _____ green _____ by Electricity Suppliers.
 _____ suppliers _____ that _____ lower in environmental impact.
 What _____ do Electricity Suppliers _____ reduce impact?
 _____ environmental resources _____ your _____ Suppliers _____ order _____ limit _____ negative impact?
 Are suppliers _____ energy solutions that _____?
 _____ energy _____ are available from _____ providers?
 _____ suppliers have options _____ reducing environmental _____ it _____ renewable _____.
 _____ options for _____ power.
 _____ are some _____ of _____ the Electricity Suppliers.
 Energy suppliers _____ choices
 _____ environmental _____ you get from _____ Electricity Suppliers in _____ negative _____?
 _____ there _____ renewable power sources _____ limit _____ damage?
 Electricity _____ renewables to decrease _____.
 _____ clean energy _____ in the _____ Electricity Supplier?
 _____ Resources _____ Electricity suppliers have _____ offer?
 _____ a range of _____ options that _____ to _____ environmental consequences.
 Electricity _____ certain types _____ renewable _____.
 What _____ of eco-friendly _____ solutions are _____ electricity _____?
 What _____ solutions that electricity providers _____?
 What environmentally _____ resources _____ electricity _____ to _____?
 _____ impact is one of the types of _____ electricity _____ are _____ to _____.
 _____ impact is one _____ of _____ choice _____ suppliers _____ allowed to provide.
 _____ renewable energy options are _____ to decrease environmental _____.
 What resources _____ that is eco-friendly?
 _____ green _____ Suppliers provide and how _____ you _____ their _____?
 Which _____ power alternatives?
 _____ environmental resources _____ from your Electricity _____ order to lower the _____?
 There are _____ choices _____ suppliers.
 There _____ number of _____ that electricity suppliers _____ offer.
 What green resources do _____ offer, _____ do _____ environment?
 _____ sources that will _____ nature _____?
 Electricity _____ that reduce _____ impact.
 _____ impact _____ one type _____ renewable energy options _____ electricity suppliers _____ to _____.
 What _____ do _____ Suppliers _____ and _____ do _____ help prevent _____ impact
 What green _____ do your _____ use _____ negative _____?
 _____ may provide renewable _____ solutions _____ environmental _____.
 _____ types of _____ resources _____ offer, how do you _____ negative _____?

____ kinds ____ resources ____ your Electricity ____ have ____ eco-friendly?
 One ____ of ____ energy options ____ can be ____ by ____ environmental impact.
 Different renewable energy ____ Suppliers.
 Will ____ providers offer ____ energy choices ____ harm?
 ____ sustainable power ____ are provided ____ Companies?
 What types of ____ are ____ my ____ Supplier?
 ____ types ____ renewable energy ____ electric suppliers ____?
 There ____ different renewable ____ available ____ suppliers.
 ____ do your Electricity Supplier have ____ and able ____?
 ____ environmental impact ____ a ____ what ____ of renewable electricity ____.
 Are there any ____ solutions ____ electricity providers ____?
 ____ kind ____ do electricity suppliers ____?
 Is ____ range ____ green ____ options ____ suppliers?
 Do ____ Electricity ____ have any ____?
 Is renewable ____ available ____ harm ____ suppliers?
 ____ electricity ____ RenewableEnergy ____ that have less ____ impact?
 Electricity suppliers can reduce ____ terms ____ renewable ____.
 ____ renewable energy can ____ found at ____ Suppliers.
 ____ green energy options ____ offered ____ suppliers?
 Which ____ alternatives are ____?
 Could ____ me ____ about ____ offerings that are ____ at ____ carbon footprint?
 ____ can ____ use renewable ____ to decrease ____ footprints?
