

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Car Dealerships |
| Inquiry Category | Accessories and customization inquiries |
| Inquiry Sub-Category | Safety Accessories |
| Description | Customers inquire about options to enhance vehicle safety, including features such as backup sensors, blind-spot monitoring systems, lane departure warning, or adaptive cruise control. They often request guidance on the effectiveness, compatibility, and installation requirements of these accessories. |
| Data Size | 5,100 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)
