

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network outages and service disruptions
Inquiry Sub-Category	Call drops
Description	Customers may experience frequent call drops, where phone conversations are abruptly disconnected.
Data Size	5,141 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Have signal _____ locations _____ causing more frequent disruptions during _____?

There _____ reports of _____ or tower locations _____ may cause disruptions _____.

_____ phone sessions _____ been _____ signal strength or _____ position _____.

There are reports of signal _____ tower _____ which _____ cause more _____.

_____ that _____ strength _____ can cause disruptions in _____ phone _____?

erratic phone sessions may _____ caused by _____ or _____.

Are _____ in phone calls _____ signal strength _____?

_____ shifts and _____ strength causing _____?

_____ are reports _____ signal _____ tower _____ cause more _____ on active phone sessions

Did _____ my phone _____ during important _____ messing _____ the signal or the _____ spots?

There _____ more frequent _____ disrupted by signal _____.

_____ strength _____ which _____ cause _____ calls _____ in the middle of a call?

Is the signal _____ changing, _____ can cause more calls to _____ the _____.

Is _____ just me _____ get disrupted due to signal _____ changes or _____?

_____ signal strength _____ tower _____ may _____ more _____ not be returned _____ active phone sessions.

_____ disrupted phone usage _____ by _____?

Did _____ strength _____ locations change and _____ more _____?

_____ during _____ sessions are caused _____ or tower locations _____.

erratic _____ sessions _____ have been caused by signal _____.

Did _____ change _____ signal _____ with _____ spots to make _____ phone _____ more _____ during important calls?

Signal _____ changes _____ tower location changes can _____ conversations.

_____ there _____ lot of _____ on my _____ result _____ signal strength changes?

_____ have been reports of signal strength changing _____ calls.

_____ strength _____ tower positions _____ a surge in _____ disruptions.

Is _____ a change _____ that leads to _____ disruptions during _____?

_____ there a _____ of _____ happening during _____ conversations due to signal _____?

There _____ of signal strength or tower _____ which can _____ to _____.

Increasing disruptions during _____ sessions are _____ signal _____ or _____.

Are _____ more frequent calls _____ or tower locations?

_____ signal strength _____ which _____ more calls to _____ off in _____ of _____ session

Is _____ more _____ calls _____ because the signal _____ changing _____ the _____ is not the _____?

____ there ____ calls disrupted ____ signal ____ changes?
 ____ there a ____ location that ____ disruptions ____ active ____ sessions?
 ____ signal strength ____ tower locations changing ____ cause phone ____ to ____.
 There ____ signal strength changing ____ may cause ____ calls.
 Increased ____ during ____ calls can be ____ by ____ strength ____ changes.
 ____ phone sessions ____ be linked ____ strength or tower ____.
 Is ____ because of tower ____ being changed?
 ____ signal ____ or ____ tower ____ cause of frequent phone ____?
 Is ____ signal strength ____ which ____ calls ____ go off ____ session?
 Have signal ____ led to ____?
 Do you think there ____ frequent ____ because ____ changes?
 Are there ____ calls ____ the ____ strength ____ or ____ tower locations ____ the same?
 Did you ____ signal ____ with ____ tower spots to ____ my ____ useless ____ during ____ calls?
 ____ anyone ____ the ____ with ____ tower spots ____ make ____ phone useless ____ during important calls?
 ____ go off ____ middle of a ____ if ____ strength ____ locations change.
 ____ a change in signal ____ or ____ causing ____ my ____ calls?
 ____ active phone ____ been reports of signal ____ changing.
 There ____ reports ____ signal ____ or ____ changing ____ cause more disruptions to ____ calls.
 ____ signal strength or tower ____ changing may cause ____ not be ____ phone calls.
 Are there ____ calls disrupted because ____ locations?
 Is ____ lot ____ disruptions happening during ____ phone conversations ____ strength ____ tower ____ changes?
 ____ are reports of signal strength or ____ can ____ more disruptions ____ active ____
 Are ____ frequent ____ phone conversations ____ signal ____ being changed?
 ____ signal ____ and tower ____ changing, which can ____ disruptions ____ calls.
 There have ____ reports ____ signal ____ or tower ____ changing, ____ cause ____ not being ____.
 There ____ changes ____ signal ____ positions ____ could cause a ____ call disruption.
 Is ____ a ____ in ____ location ____ increased disruptions during ____?
 Changing ____ call ____?
 Is ____ more ____ signal ____ or ____ have changed?
 ____ changes are ____ call ____?
 There could be changes ____ strength or ____ cause ____ surge in ____.
 Did ____ shifts ____ towers make ____ service conditions ____?
 ____ of signal ____ or tower ____ cause more ____ during ____ calls.
 ____ more ____ get disrupted ____ signal ____ changes?
 There are ____ signal ____ locations changing which can ____ disruptions ____.
 There may ____ changes ____ signal strength or ____ positions ____ cause ____ in ____ disruption ____.
 Is signal strength ____ cause ____ to go off ____ the session?
 ____ a lot ____ phone conversations due ____ signal strength or tower ____?
 Session ____ possible due ____ or tower ____.
 ____ more ____ disrupted ____ the signal strength is changing or ____ tower locations ____?
 There ____ of ____ changing which can cause ____ on ____ calls.
 ____ possible ____ signal ____ are disrupting more calls?
 ____ change in signal ____ causing ____ disruptions on my ____?
 There have been reports of ____ strength ____ changing which ____ disruptions on ____.
 ____ have been reports of ____ strength changing which ____ active ____.
 There are reports ____ signal strength and ____ changing ____ may ____ more ____ not ____.
 ____ there ____ lot of disruptions during my phone ____ signal ____ tower ____?
 ____ are reports of ____ or ____ locations changing which ____ lead to ____.
 If any updates ____ signal strength ____ positions causing a ____ disruption ____?
 Is ____ signal strength changes and ____ location changes ____ disruptions ____ conversations?

____ signal strength ____ location of the ____ calls to ____ disrupted.
 ____ there a lot of ____ as a ____ tower changes?
 ____ session disruptions might ____ caused ____ or tower ____.
 Is ____ any update on ____ tower ____ causing a ____ in ____ disruptions?
 During ____ phone calls, ____ been ____ strength or tower ____ changing.
 ____ strength ____ tower locations changing ____ cause ____ disruptions
 ____ you ____ the ____ to make my phone ____ more ____ important ____?
 ____ more ____ disrupted ____ signal strength ____ or ____ are not the same?
 ____ are ____ of ____ strength changing, ____ cause ____ disruptions ____ active ____ sessions.
 ____ signal ____ tower locations ____ more disruptions on ____ phone sessions.
 Do ____ think ____ signal ____ locations affect ____ more?
 ____ possible ____ calls are disrupted ____ is changing or the tower locations ____ not ____ same?
 Is signal ____ locations ____ causing more ____ during phone ____?
 During active ____ sessions, is the signal ____ due ____?
 ____ possible ____ there are frequent ____ my phone ____ due ____ strength ____ tower location changes?
 Is ____ a change in ____ signal ____ location ____ leads ____ more ____?
 Is ____ in tower ____ that ____ increased ____ during phone ____?
 Is ____ because the signal strength ____ or ____ tower locations are ____ the same ____?
 There have ____ of signal strength changing ____ lead ____ frequent disruptions ____ active ____.
 There may ____ strength ____ tower positions that ____ a ____ call disruptions.
 ____ strength changes ____ tower location changes, ____ conversations disrupted?
 There have been reports of signal ____ tower locations changing ____ can ____ phone ____.
 There have ____ reports ____ signal strength and ____ changing ____ cause more ____ being returned.
 There have ____ or ____ changing which can ____ more disruptions on active phone ____
 There are more ____ calls disrupted because ____ strength ____ changes.
 More frequent disruptions ____ may be caused ____ signal strength ____.
 Any ____ to ____ strength or ____ positions to cause ____ surge ____ call ____?
 Reports of signal strength ____ tower locations changing ____ cause ____.
 Is ____ power ____ towers cause increased call times?
 ____ there a ____ in tower locations ____ phone ____?
 There have ____ reports of signal strength ____ which can ____.
 More frequent disruptions ____ phone ____ caused ____ of signal strength or tower ____.
 Did ____ modify the ____ or ____ the tower spots ____ make my ____ useless ____?
 Call issues could ____ by ____.
 Is ____ of ____ my ____ to signal strength ____ tower location changes?
 Did shifts concerning ____ towers ____?
 Is ____ signal ____ which ____ cause ____ calls ____ go off in ____ of ____ session
 ____ changed, causing more disruptions during ____?
 Cell reception ____ changed ____ leads ____ disruption periods.
 Is there ____ calls ____ strength ____ or the ____ not the same?
 There ____ of ____ strength changing, ____ may ____ more ____ on ____ sessions.
 ____ are ____ of ____ or ____ locations ____ which can cause ____ frequent disruptions on active ____.
 There ____ been reports ____ strength changing ____ can ____ more disruptions ____.
 ____ a lot of disruptions ____ my phone ____ signal ____ changes?
 ____ was ____ if ____ tinkered ____ the signal or messed with the tower ____ my ____ often.
 Is ____ disruption due ____ signal strength or ____?
 ____ frequent ____ because of the signal ____ change?
 Is ____ changed ____ location causing ____ disruptive calls?
 Is ____ that ____ changes ____ disruptions during my ____ conversations?
 Do ____ signal strengths ____ cause ____ in my phone ____?

Are calls _____ signal _____ is _____ or _____ tower locations are _____ same?

There _____ reports of _____ or _____ locations _____ which _____ more _____ disruptions

Reports _____ signal _____ tower locations _____ can _____ not _____ on active _____ sessions.

Is _____ changing, which _____ cause a _____ of calls _____ go _____ in _____ middle of _____ ?

_____ signal _____ tower locations may _____ caused _____ disruptive phone _____.

More _____ calls have _____ caused by _____ or _____ locations _____.

Is _____ signal _____ will cause _____ to go _____ a session?

There might be _____ calls _____ the middle of a _____ or tower locations _____.

Is there a change in _____ that _____ during my _____ ?

_____ are reports _____ signal _____ changing which _____ more _____ calls not _____ on _____ phone sessions.

_____ possible _____ my _____ conversations _____ disrupted due _____ signal _____ or _____ location changes?

There could _____ changes _____ or tower _____ could cause a _____ in _____ disruption occurrences.

Do signal _____ tower _____ session _____?

_____ are reports _____ strength or tower _____ which may _____ calls.

_____ signal _____ which may _____ more _____ to go off in the _____ ?

The signal _____ tower _____ could be _____ more _____ to _____.

_____ calls disrupted _____ the signal strength _____ changing?

Increased _____ during _____ phone sessions can _____ changes _____ tower locations.

There _____ reports of _____ or _____ locations changing which can _____ frequent disruptions _____ sessions.

_____ more _____ disrupted because _____ signal strength _____ changed?

Is it _____ who's _____ disruptions _____ my phone call _____ signal _____ or _____ ?

_____ frequent _____ active _____ could be caused _____ signal _____ or _____ locations changing.

_____ it possible _____ phone _____ to be _____ to _____ being changed?

_____ updates on _____ strength _____ tower positions _____ surge in _____ disruptions?

There _____ been reports _____ strength or _____ may cause disruptions on _____ calls.

Did they _____ my phone _____ calls by _____ with _____ tower spots?

_____ have _____ of signal strength _____ tower _____ can cause _____ disruptions during _____.

There _____ of _____ tower _____ changing _____ can lead to more frequent _____ not being _____.

_____ frequent disruptions _____ sessions could _____ caused by reports of signal _____ or _____.

_____ there _____ interrupted by _____ strength _____ ?

Is the _____ more disruptions during phone _____ ?

Is it _____ that signal strength changes _____ interrupt _____ ?

Are _____ in _____ phone conversations due to signal _____ ?

_____ more frequent calls _____ strength _____ locations have changed?

If _____ or _____ locations have been _____ more frequent calls _____ ?

More _____ phone _____ may be _____ to signal _____ or _____ locations _____.

_____ that _____ strength changes _____ cause _____ my phone conversations?

Is the _____ changing _____ calls to go _____ in _____ middle _____ a session.

Some _____ are _____ because _____ signal _____ tower locations _____ changed.

_____ signal strength _____ tower location _____ causing more _____ ?

_____ it true that more _____ are _____ by _____ ?

Is _____ lot _____ disruptions on _____ phone _____ due to _____ ?

There _____ disrupted when _____ signal strength _____ or _____ tower locations are not _____ same.

Is it _____ the signal _____ and _____ changes cause _____ my _____ conversations?

Is _____ more _____ because signal _____ has _____ changed?

Is there _____ lot of _____ phone _____ tower changes?

Is _____ frequent _____ disrupted by signal _____ ?

_____ there _____ of disruptions in _____ phone _____ by signal strength _____ ?

_____ in _____ calls _____ to _____ strength being changed?

Changes _____ signal _____ or tower _____ cause a _____ in call _____.

Are _____ a _____ of _____ my phone _____ strength or tower location _____?

_____ have _____ reports _____ signal strength _____ tower locations _____ which _____ cause _____ active _____ sessions.

There _____ be _____ frequent calls _____ of _____ strength _____ being changed.

_____ the signal _____ tower spots to make _____ phone useless _____?

Are _____ my phone calls _____ to _____ changes?

Is it _____ cause _____ phone use?

More _____ disruptions on active phone _____ may _____ by _____ strength _____ being _____.

_____ of signal strength _____ tower locations changing which _____ cause _____ disruptions _____ active _____.

If _____ been changed, are _____ more frequent calls _____?

Will _____ more disruptions _____ my _____ there is _____ change _____ strength or tower location?

Frequent disruptions _____ active _____ are _____ signal _____ and _____ locations.

_____ disrupted because the _____ is _____ or the tower locations are _____?

Are there frequent _____ in _____ phone conversations _____ strength _____ tower _____?

_____ there _____ change in _____ or _____ that leads to _____ disruptions _____ my _____ calls?

_____ it _____ that _____ location changes can cause _____ in my phone _____?

_____ there a lot _____ disruptions when _____ talk _____ phone because _____ or tower _____ changes?

There are frequent _____ to my _____ as a _____ of _____ changes.

Tower _____ or signal _____ could be _____.

Are there _____ calls disrupted _____ signal _____ changes _____?

_____ y'all _____ my _____ useless more _____ during important _____ by _____ with _____ and _____ spots?

Changes _____ signal _____ tower locations _____ active phone sessions.

_____ the signal _____ is changing _____ the _____ not _____ are there _____ frequent calls _____?

Changes in _____ or tower _____ to _____.

Talks cut _____ now _____ moved?

Is _____ or _____ location _____ of more _____ phone calls?

Did _____ strength change _____ tower locations _____ more _____?

_____ signal strength or _____ changing may cause _____ disruptions _____ active _____.

Did shifts concerning cellular _____?

Is there a _____ of _____ my _____ conversations _____ a result of _____ changes?

Reports of _____ strength _____ tower locations changing _____ cause _____ disruptions _____.

The _____ or tower _____ more calls to _____ off in _____ of the _____.

There _____ reports of tower _____ during active _____.

Is there frequently _____ conversations _____ signal strength changes _____ changes?

Is it _____ that _____ disrupted due _____ signal _____ or tower location _____.

Did _____ signal or _____ spots to _____ phone useless more frequently?

_____ the signal _____ calls to go off in the _____ of a phone _____.

There _____ of signal strength _____ tower locations _____ and _____ more _____ not being returned.

Reports _____ signal _____ tower _____ lead to _____ frequent disruptions.

Call issues _____ by Towers _____.

_____ there _____ made to signal strength or _____ that will _____ a surge _____ call _____?

_____ disruptive phone _____ been caused _____ signal _____ tower locations changing.

_____ possible that calls are _____ because _____ or towers _____?

_____ calls disrupted _____ of the _____ strength changing or _____ tower locations _____ being the _____?

Are _____ more _____ because of _____ strength being _____?

_____ active _____ there are _____ of signal strength _____ tower _____.

_____ have _____ signal strength _____ changing, which _____ cause more disruptions.

Reports _____ or tower _____ changing can cause _____ calls _____ not _____ on _____ phone sessions.

Are there _____ disruptions _____ my phone _____ signal strength _____ changes?

_____ there _____ of disruptions _____ during my _____ conversations _____ strength changes?

_____ disruptions _____ signal strength or _____ locations?

_____ frequent _____ in my phone conversations due to _____ strength _____ ?

Tower _____ issues?

Is it possible that _____ calls _____ because _____ changes?

Session disruptions _____ signal _____ tower change.

_____ strength _____ locations _____ calls more?

_____ it possible _____ more calls _____ because the towers _____ ?

Is the signal _____ could cause _____ calls _____ off in the _____ Session?

_____ signal strength changes _____ tower _____ can _____ to my phone _____.

_____ have been reports _____ signal strength changing and _____ on active _____.

_____ disruptions might be _____ by signal _____.

Changes _____ to _____ strength or _____ surge in call disruptions.

More _____ could go off _____ of _____ if signal strength _____ tower _____.

_____ there more _____ tower _____ have changed?

Is it _____ that recent _____ changed _____ phone conversations?

_____ possible _____ my _____ conversations _____ be _____ by signal _____ or _____ changes?

There _____ more _____ due _____ strength or tower locations _____.

Is signal _____ cause more calls to _____ off _____ middle of _____

_____ a _____ signal strength that _____ phone _____ to be _____?

_____ possible for _____ phone conversations _____ due to signal strength _____ changes?

_____ of signal strength _____ tower _____ changing _____ cause _____ calls _____ being returned on _____ phone _____.

Is the signal _____ changing, which _____ cause _____ calls _____ middle _____ ?

_____ are disruptions to _____ conversations as _____ strength or _____ changes.

_____ of signal _____ tower _____ changing _____ cause _____ disruptions _____ active calls.

Is there a change _____ strength _____ during my calls?

_____ there _____ calls disrupted _____ signal _____ has changed?

Are _____ more calls _____ to _____ or _____ locations?

Is it _____ who is _____ disruptions _____ phone call due to _____ or _____ ?

Is it _____ that _____ phone _____ disrupted _____ to signal _____ or tower _____ ?

_____ there be _____ disruptions during _____ if _____ a change _____ signal strength?

_____ any _____ signal strength _____ cause _____ disruptions _____ active phone calls?

_____ there a _____ disruptions _____ my _____ conversations _____ of signal strength _____ changes?

Did _____ or tower _____ cause _____ disruptive phone calls?

Changing _____ locations could cause more _____ to go _____ in _____ middle _____ a _____.

There _____ more _____ because of signal strength _____ or _____ location _____.

_____ may be caused by signal strength changes.

Is _____ strength _____ which will _____ more _____ off in the _____ a phone call?

_____ signal _____ to cause _____ disruptions during active phone sessions?

_____ there _____ regular _____ disrupted _____ signal strength _____ ?

Are _____ more _____ signal strength or tower _____ ?

Is _____ a _____ my _____ conversations as _____ result of the signal _____ being _____ ?

Is _____ signal _____ changing which _____ lead _____ calls _____ off in _____ middle _____ a _____ ?

_____ signal strength changing which _____ off _____ the middle of a _____ ?

Are there _____ disrupted _____ the _____ strength is _____ location is _____ the same?

Is _____ and _____ changes cause disruptions during my phone conversations?

_____ and causing more disruptive _____ calls?

_____ calls _____ middle of a call if _____ signal _____ or _____ locations are changing.

_____ changing which _____ cause more _____ to go off in the _____ session?

There _____ reports _____ signal _____ cause disruptions to active _____ sessions.

Is there _____ calls _____ signal strength changes _____ tower _____ ?

_____ signal strength _____ locations _____ can cause more _____ to active phone _____.

Is _____ strength _____ could _____ go off in the middle of _____ call.
 _____ calls _____ go off _____ the middle of a _____ if the signal _____ tower _____ .
 _____ possible _____ conversations _____ disrupted by _____ strength _____ and tower _____ changes?
 _____ frequent calls _____ not be _____ because _____ or tower locations _____ .
 _____ there _____ calls disrupted _____ of signal strength _____ being _____ ?
 _____ it _____ that _____ strength _____ changes cause disruptions to _____ conversations?
 _____ the signal strength changing which _____ cause more _____ middle of the _____ ?
 There may _____ changes _____ to _____ strength _____ positions to _____ in call _____ .
 _____ during my phone _____ to _____ strength _____ tower changes?
 Reports _____ signal strength _____ tower locations _____ may cause _____ frequent _____ not _____ active _____ .
 _____ there _____ lot of disruptions during my _____ signal _____ or tower _____ ?
 _____ it _____ that signal _____ locations _____ changed _____ caused _____ phone calls?
 Is _____ strength _____ which _____ to go off _____ middle of a _____ ?
 Increased disruptions during _____ be _____ signal _____ or tower _____ changing.
 More _____ go _____ in _____ middle _____ call if _____ signal strength or _____ changes.
 Did signal strength _____ tower _____ to _____ calls _____ disruptive?
 _____ y'all _____ or the _____ to _____ my phone useless more _____ ?
 _____ more _____ disrupted _____ the signal _____ is changing?
 _____ frequent _____ on _____ sessions may _____ caused by _____ and tower _____ changing.
 Did you make my _____ more _____ important calls by messing _____ signal _____ ?
 _____ active phone _____ there _____ been reports of signal _____ or _____ .
 Is _____ strength and tower _____ the cause _____ more _____ ?
 Is it _____ strength _____ towers have _____ are disrupted?
 There are reports of signal _____ tower _____ which can _____ phone _____ .
 There _____ signal _____ or tower _____ causing a surge in _____ .
 _____ it possible _____ strength or tower locations _____ more?
 _____ been reports of _____ strength or _____ locations changing, which _____ cause _____ being returned.
 _____ reported that signal _____ or tower _____ can _____ frequent _____ on active phone _____ .
 Shifts related to cellular _____ may _____ call _____ .
 _____ locations might cause more frequent calls _____ disrupted.
 _____ it possible _____ signal strength changes _____ conversations?
 _____ of signal strength _____ location changes, _____ there _____ in my phone _____ ?
 Are _____ calls _____ by _____ strength _____ ?
 There are _____ of _____ strength _____ which _____ cause _____ on _____ .
 Reports of signal strength or tower _____ changing may cause _____ calls _____ .
 Is signal strength _____ which _____ to _____ off in the _____ phone call?
 Increased _____ during _____ calls are caused by _____ strength _____ .
 _____ disruptions _____ signal strength changes or tower locations?
 _____ phone _____ the signal _____ or tower locations causing _____ ?
 _____ it possible for my phone _____ disrupted _____ a result _____ signal _____ tower _____ changes?
 _____ there frequent disruptions on _____ because _____ strength or _____ changes?
 _____ the _____ strength _____ tower locations _____ calls _____ go off _____ the middle of the session?
 Session disruptions _____ due _____ or _____ changes.
 Any updates on _____ positions _____ surge _____ call _____ ?
 _____ could _____ off _____ a session if the signal strength or _____ change.
 Are there _____ calls disrupted _____ strength or tower _____ ?
 Is _____ that recent signal _____ are _____ phone _____ ?
 Is _____ or tower location _____ could cause _____ go off in _____ middle of _____ call?
 There _____ adjustments made to _____ positions that can _____ surge in call _____ occurrences.
 There _____ reports of signal _____ which _____ phone calls _____ disrupted.

Did signal strength _____ causing _____ ?

Reports of _____ and tower _____ changing can _____ more frequent _____ sessions.

Is _____ that tower location _____ and _____ strength _____ cause _____ in _____ calls?

Are _____ disrupted more _____ changes?

As _____ of _____ strength _____ location changes, are _____ disruptions _____ my _____ calls?

_____ shifts or _____ strength can _____ .

_____ changes made _____ or _____ that will cause a _____ call _____ occurrences?

Did y'all _____ the _____ tower spots to _____ phone useless more _____ calls?

Reports of _____ or tower _____ changing has _____ disruptions.

_____ calls disrupted _____ signal strength change or _____ ?

_____ frequent _____ may _____ be returned _____ to _____ strength _____ tower locations _____ .

Is _____ signal strength changing, _____ cause _____ to go _____ the _____ of a _____ ?

Is there a lot of _____ my phone _____ because _____ strength _____ ?

_____ have _____ reports _____ strength or tower _____ changing _____ may _____ to _____ calls.

_____ there frequent disruptions _____ by _____ strength _____ and _____ changes?

There _____ been reports _____ signal strength _____ tower _____ changing _____ may _____ more _____ active _____ calls.

_____ signal _____ changing, which might cause _____ go _____ the middle of the _____ call?

_____ changes _____ to signal strength or _____ could _____ a _____ in _____ disruptions?

Is _____ a _____ phone _____ as a result _____ recent signal strengths _____ changed?

_____ during phone sessions _____ caused _____ signal _____ or _____ locations.

Did _____ move, _____ call drops?

_____ change _____ signal _____ tower _____ that causes more _____ during calls?

Is _____ possible _____ disrupted because _____ signal strength _____ being changed?

_____ been reports _____ signal strength _____ tower _____ changing _____ may _____ more disruptions _____ phone _____ .

Reports of signal strength _____ tower _____ cause _____ calls _____ be _____ .

_____ phone sessions, is _____ signal _____ of tower locations?

Tower _____ signal _____ causing _____ interruptions?

Is _____ frequent calls _____ because _____ signal _____ locations changing?

_____ mid-call is _____ possibility _____ to _____ power _____ towers nearby.

Reports _____ strength and tower _____ changing _____ cause _____ on active _____ .

Did signal strength change _____ more _____ to _____ ?

There _____ disruptions _____ my _____ calls _____ a _____ of _____ or _____ location changes.

Are my _____ tower location _____ ?

_____ there _____ in signal strength that's _____ more _____ calls?

Is the _____ strength _____ which could _____ to _____ off in the _____ of _____ ?

Is it possible that _____ strength _____ disrupting _____ ?

Is _____ change _____ location that leads to more disruptions _____ calling?

_____ a _____ of _____ strength _____ tower _____ there _____ disruptions during my phone _____ ?

_____ more disruptions because of signal _____ locations?

_____ there a change _____ or _____ that's causing _____ disruptions?

Is the signal _____ changing, which may cause more _____ the _____ session _____ because _____ the _____ strength changing or the _____ location being _____ ?

More frequent disruptions _____ active phone _____ may be _____ by _____ changing.

Is there _____ disruptions in _____ because of _____ strength _____ and _____ location _____ ?

_____ there _____ of disruptions to my phone _____ because of _____ ?

_____ it only me who _____ having _____ my phone call _____ strength _____ or _____ locations?

_____ might be a result _____ altered _____ or _____ .

Reports of _____ tower _____ changing _____ more frequent disruptions to active _____ .

Is there more _____ to signal strength _____ locations?

_____ it _____ location changes _____ cause _____ my phone calls?

Is there more _____ because _____ signal strength _____ or _____ locations _____ not the same?
 _____ there a _____ tower location that causes increased _____ during _____?

Is _____ more _____ because of _____ strength being changed?
 _____ possible _____ frequent calls _____ because _____ signal strength changes?

There have been reports _____ strength changing, _____ cause _____ on _____ sessions.
 Reports of _____ strength _____ tower _____ changing may cause _____ to _____.

Change _____ signal _____ tower can cause _____ to _____.

_____ are reports of _____ locations _____ may result _____ more frequent _____ not being returned.

Is it unusual for my _____ conversations to be disrupted _____ signal _____?

_____ have _____ signal strength or _____ locations changing _____ cause more _____ disruptions.
 _____ chance _____ altered signal _____ or nearby towers _____ increased _____.

Is it _____ that recent _____ strengths _____ changed can _____ frequent _____ phone _____?
 _____ signal _____ leading _____ frequent session _____?

Do I experience _____ during my _____ conversations _____ signal _____ changes?

Frequent _____ sessions may be caused by signal _____ tower _____.

Recent _____ being _____ could be _____ for frequent _____ my _____ conversations.

Is there a _____ in _____ that _____ during _____ calls?

Is it _____ has changed, causing more _____ during _____?
 _____ there _____ due to signal strength or towers _____?
 _____ there more disrupted _____ signal strength or tower _____?
 _____ phone sessions due to _____ strength or _____?

Is the _____ or tower locations _____ could _____ more calls _____ off _____ the middle of _____?

Is there _____ calls disrupted _____ signal _____ or _____ locations?
 _____ there frequent disruptions _____ conversations _____ of signal strength _____ tower _____?

Is it _____ phone conversations _____ as a result _____ being changed?

Is _____ more _____ interrupted _____ signal strength _____?
 _____ been reports _____ strength _____ changing _____ could cause more frequent _____ on active phone _____.

More _____ on active phone _____ may _____ caused by _____ strength _____ tower _____.

Is _____ signal strength or tower _____ changing, _____ calls to go _____ in the middle _____?

Is _____ that _____ strength has _____ causing _____ disruptions during active _____?
 _____ reports _____ signal _____ locations changing which can _____ more frequent _____.
 _____ may be _____ frequent _____ by _____ changes _____ tower locations.
 _____ it possible that _____ strengths _____ are causing frequent disruptions _____ phone _____?

More frequent disruptions on active phone _____ strength or _____ location _____.

Is _____ my _____ get disrupted because of _____ strength _____ tower _____ changes?

Is signal _____ shifts _____ disruptions?

There are _____ calls _____ is signal changed or _____?
 _____ changing, which may _____ to go _____ in the middle _____ a _____.

Is _____ possible that calls _____ because _____ signal _____ is changing _____ the same?

Is _____ tower _____ causing _____ be disrupted?
 _____ it possible _____ strengths being changed is causing _____ disruptions _____ conversations?
 _____ there disruptions _____ phone conversations due to _____ tower _____ changes?

Reports of _____ strength or _____ locations changing _____ calls _____ returned on active _____ sessions.

There _____ reports _____ or tower _____ changing, _____ may cause _____ disruptions on active phone _____.

There may _____ more frequent _____ of the _____ strength _____.

_____ changing _____ cause more calls _____ off _____ middle of a phone call?
 _____ there _____ calls disrupted _____ of _____ signal strength _____ tower location _____?
 _____ calls will go _____ in the _____ of a _____ the _____ locations are changed.

Is _____ strength changed, _____ cause more _____ to go _____ in the _____ call?
 _____ calls interrupted _____ signal _____ changes?

_____ are reports of signal strength _____ changing _____ can _____ to _____.

_____ there more frequent _____ that are _____ changes?

Is the signal _____ changed, _____ during _____?

Is there a change in _____ leads _____ more _____ calls?

Reports of signal _____ may _____ in more _____ not being _____ on _____ phone sessions.

Is _____ possible that _____ being _____ are _____ my phone _____?

_____ more frequent calls _____ because the signal _____ is changing _____ the _____ not the _____?

There are _____ signal _____ or tower _____ changing which _____ disruptions.

_____ signal _____ or _____ disruptive calls?

_____ or _____ can lead _____ session disruptions.

_____ possible for _____ conversations to _____ disrupted _____ tower changes?

_____ it possible that _____ or _____ strength can cause _____ conversations?

_____ changes _____ signal strength _____ tower _____ might cause _____ surge _____ call _____?

Is signal strength _____ or _____ causing _____ calls?

The _____ or _____ locations _____ cause _____ calls _____ be interrupted.

_____ are reports _____ signal _____ or tower _____ more disruptions during calls.

_____ reports _____ signal _____ or _____ changing which _____ cause _____ not being returned.

_____ disrupted by _____ and tower location changes?

_____ frequent disruptions may _____ caused _____ strength or tower _____ changing.

_____ there _____ more _____ calls disrupted because the signal _____ is _____?

_____ it possible _____ recent _____ disruptions _____ my phone conversations?

_____ signal strength _____ locations may _____ to blame for _____ being _____.

_____ being returned _____ active _____ sessions may _____ a result of _____ or tower locations _____.

_____ there a _____ disruptions during my _____ to _____ strength changes _____ tower _____?

Is it possible _____ tower changes _____ cause _____ to _____?

Is the _____ will cause more _____ off in the _____ of _____ call?

_____ the _____ strength changed to cause _____ calls?

_____ could be _____ made _____ or _____ positions that could _____ a surge _____ disruptions.

There are reports of _____ strength _____ tower locations changing _____ frequent disruptions _____ active _____.

_____ of _____ strength or _____ locations _____ can cause more disruptions.

_____ more _____ calls because _____ signal strength _____ location changes?

Did _____ signal _____ cell _____ shift _____ the regularity _____ phone _____?

Have _____ locations changed, causing more _____ disruptions _____?

_____ session disruptions _____ be caused _____ signal _____ tower changes.

_____ there frequent _____ in _____ phone _____ as a result _____ signal _____ or _____?

_____ during phone _____ are caused by _____ strength _____ tower _____.

Changing signal _____ could cause _____ to _____ off _____ the _____ a phone _____.

_____ during active _____ are caused by signal _____ and _____ changing.

_____ may _____ frequent _____ disrupted due to the _____ being _____.

Tower shifts _____ signal _____ causing _____?

There have been _____ disruptions _____ of _____ changes.

_____ if there _____ frequent disruptions during _____ because of _____ strength _____ changes.

_____ of _____ tower locations changing may _____ frequent _____ not being _____ on _____ phone calls.

_____ that my _____ are _____ a result _____ recent signal _____ being changed?

Did _____ shifts impact frequent _____?

_____ sessions were _____ signal strength _____ tower position _____.

_____ my phone conversations disrupted _____ changes?

I was wondering _____ anyone tinkered _____ or _____ the tower _____ make my phone _____ more _____.

_____ signal strength _____ which _____ cause more disruptions _____ phone calls.

_____ there _____ frequent _____ to the _____ strength being changed?

_____ have _____ caused by signal _____ or tower positions _____.

There have been _____ tower locations changing, which _____ more _____.

There are more _____ phone sessions if signal strength _____ changed.

Changes _____ signal strength and _____ disruptions _____ phone conversations.

There _____ calls disrupted _____ the _____ is changed or _____ tower location _____.

_____ or more disruptions during calls?

_____ there a lot _____ disruptions during _____ conversations _____ signal strength _____?

_____ signal _____ or tower locations changing, _____ might cause _____ calls _____ go _____ middle _____ a call?

Is signal _____ tower positioning _____ erratic phone _____?

Is _____ signal _____ or _____ affected by _____ phone _____?

There are reports _____ and tower locations _____ more disruptions.

There have _____ strength or _____ changing which can _____ more disruptions on _____.

_____ strength or tower locations changing _____ cause more frequent _____ being _____ on active _____

There _____ disruptions during _____ phone conversations _____ a _____ strength _____ tower location _____.

Modifications _____ or _____ positions could cause a surge _____ occurrences.

Is it _____ more _____ are _____ by signal _____?

_____ there a _____ signal _____ to phone calls _____ disrupted?

Is there _____ change in signal _____ location _____ my _____ calls?

There _____ reports of tower locations _____ sessions

Increased _____ during _____ caused _____ changes in signal strength.

_____ an update _____ possible signal _____ tower positions causing _____ in call _____?

_____ strength _____ causing _____ disruptions during _____ phone calls?

There _____ reports _____ strength _____ tower _____ could cause more disruptions on active phone _____.

More _____ might go off in _____ of _____ phone _____ if _____ signal _____ location _____ changed.

Any updates _____ whether _____ strength or tower _____ causing _____ surge _____?

_____ are _____ frequent _____ disrupted _____ signal _____ or the tower location is _____ the same.

_____ y'all _____ signal or mess _____ tower _____ to make my _____ useless more _____ during _____?

Recent signal _____ causing frequent _____ during _____ phone conversations.

_____ drops increase _____ or _____ moved?

erratic _____ sessions _____ caused by _____ strength _____ positions _____.

Is _____ which will cause more calls _____ during the _____?

Is _____ that signal strength _____ changes disrupt my _____ calls?

_____ there _____ calls disrupted _____ of _____ strength _____ tower locations being _____?

_____ disruptions to _____ can _____ caused _____ signal strength or _____ locations _____.

Changes _____ to signal _____ or tower _____ can _____ surge _____ call _____.

_____ may be _____ frequent calls _____ strength has _____ changed.

Are there more frequent _____ signal strength _____ the _____ location _____ different?

_____ it possible that _____ tower _____ can _____ disruptions _____ my _____ conversations?

_____ more _____ because of signal strength _____?

_____ phone sessions caused _____ signal _____ or tower _____?

_____ disruptions during _____ phone sessions _____ caused _____ signal strength _____ changes.

Is _____ change _____ signal _____ that leads to more _____ on _____?

Are _____ disrupted _____ strength is changing _____ the tower locations aren't the _____?

Are there frequent _____ to _____ calls as a _____ changes?

There are _____ adjustments made _____ signal _____ or _____ which _____ a surge _____ call _____.
