

[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Electronics and Technology Retailers
Inquiry Category	Product specifications and compatibility questions
Inquiry Sub-Category	Power requirements and voltage compatibility
Description	Customers ask about the power requirements and voltage compatibility of products, especially for international use or in regions with different electrical standards, to avoid any potential issues and ensure the proper functioning of the device.
Data Size	5,020 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Online Electronics and Technology Retailer" customer inquiry. (Purchased data will not be masked.)

Will this product ____ on ____ outlets?
____ the ____ support ____ outlets?
____ this be compatible ____ types of ____?
Will it ____ two ____ of ____?
____ work ____ of the outlets?
Is ____ possible ____ use the product ____ sockets.
Is ____ it will operate when ____ kind of ____?
Is ____ possible to use ____ and 110V ____?
____ I use ____ a ____ gives 110-240V?
____ be possible to use this ____ 110-240V ____?
Is it ____ use ____ an ____ system?
Is ____ product compatible ____?
Are ____ with both ____ of ____?
____ it in an ____ system with 110-240V?
____ sure if it ____ with ____ V ____ 240 V sockets.
____ it ____ both kinds of ____?
____ support the ____ types ____ outlets?
____ to use ____ on both types of ____?
____ it ____ possible to ____ this product ____ sockets?
Can ____ electrical ____ that provides 110-240V current?
____ want ____ know ____ use it in ____ system ____ provides 110-240V.
____ I use it in ____?
____ I ____ both types ____ outlets?
Will this item ____ at ____ or ____ outlet?
Is this ____ of ____ in 0-240V ____?
Is ____ possible that ____ fit ____ electrical outlets?
I'm ____ if it's ____ both ____ and 110V ____.
____ product ____ both sorts of ____?

Is ____ item capable ____ ?
 ____ on two types of ____?
 ____ I ____ it ____ an electrical ____ that ____ 110-240V ____ output?
 Is it ____ it ____ an electrical system that ____ 110-240V?
 Is this product able ____ use ____?
 ____ the ____ either type of ____ at either ____?
 This ____ or ____ compatible with ____ outlets ____ both types
 Is it ____ will work when ____ into either ____?
 I ____ unsure if it ____ with ____ V sockets.
 ____ don't know ____ compatible ____ both-110V and 0-240V sockets.
 ____ it ____ in both ____ of ____?
 ____ this ____ in ____ types of ____?
 Is ____ compatible with ____ of electrical ____?
 ____ possible that this ____ could be compatible in ____ high 240 ____?
 ____ the product ____ both ____?
 Is it ____ in 110-240V ____.
 Will ____ support ____ two ____ of ____?
 Is it ____ this product in both ____?
 ____ fit both types ____ electrical ____?
 ____ can ____ compatible ____ both ____ outlets.
 Can I use it with ____ 110-240V?
 ____ the product ____ used ____ both types ____?
 Can I ____ it in ____ that provides ____?
 Can ____ used ____ a 0-240V or ____ sources?
 Can ____ this ____ a ____ with a 110-240v ____?
 ____ support two ____ types of ____?
 ____ be ____ with either type ____ outlets?
 Does the product ____ both ____?
 ____ this product support ____ types ____?
 ____ it will operate ____ plugged ____ either ____ of sockets?
 Will ____ work on ____ 110 ____ 240V outlet?
 ____ it ____ that it will ____ to either type ____?
 ____ this ____ used with ____ electrical outlets
 Is ____ possible that it ____ operate if ____ type ____?
 ____ this can be ____ both ____ outlet?
 Does this ____ outlet ____?
 ____ am ____ if ____ product ____ be used ____ types ____ sockets.
 ____ it compatible with both ____?
 ____ possible ____ use ____ in an ____ system with 110-240V ____?
 ____ product be ____ with ____ types of ____?
 ____ it ____ two outlets?
 ____ be compatible with two ____ types ____ outlets?
 It's ____ that ____ will operate ____ plugged into ____ sockets.
 Is ____ possible to ____ on an ____ system that ____?
 ____ this ____ able to ____?
 Can an item work ____?
 ____ know if ____ is compatible ____ 240V sockets.
 Does ____ both outlets?
 ____ it ____ will ____ if ____ into either ____ of socket?
 Does this ____ operate ____ outlets?

Is _____ with both _____ outlets?
 _____ with _____ kinds of electrical outlets?
 _____ if it's _____ with the 0-240 and 110V _____?
 Is _____ possible _____ this _____ both _____?
 _____ you use this _____ sorts _____?
 Does it _____ both _____ and _____ power _____?
 _____ it in _____ electrical _____ provides 110-240V electrical output?
 I want _____ know _____ I _____ it _____ electrical _____ with _____ electrical current.
 _____ want to know _____ I _____ an electrical system _____ electrical power.
 Is it _____ to _____ this product _____ both 0-240v _____?
 Is _____ possible _____ a system with _____ electrical output?
 _____ device _____ in both _____?
 _____ you _____ both _____ of outlets?
 _____ this _____ in the 0-240V and 110V _____?
 Is it _____ it _____ in both _____?
 Does it _____ on both _____?
 Is _____ possible _____ use _____ on _____ kinds of _____?
 _____ use _____ on an electrical system _____?
 _____ it _____ work when plugged _____ either _____ of sockets.
 I am _____ if _____ with both 110 _____ sockets.
 _____ this _____ be used with _____ types _____?
 Can _____ used _____ both the _____?
 Is it _____ to _____ this _____ in _____ and 110v _____?
 Can this _____ used _____ of electrical _____?
 _____ product be _____ with both _____ sockets?
 _____ both types of sockets?
 Can _____ used _____ two _____ of _____?
 _____ used _____ both _____ of outlet?
 _____ the product be used _____ of _____.
 Is this _____ with _____ of _____ types _____ outlets?
 Will it work in _____ of _____ types _____?
 _____ it _____ it _____ both plugs?
 Can _____ on _____ different types _____?
 Can I use it in _____ 110-240v _____?
 Is it possible to _____ on _____?
 Does _____ is _____ use _____ 110-240V electrical systems?
 Can _____ do _____ at higher _____?
 Is _____ that it _____ operate when _____ either _____ of _____?
 _____ it _____ to _____ electrical systems?
 _____ that compatible _____ both _____ sockets?
 _____ this item _____ two different kinds _____ power?
 Can it _____ power source and _____ source?
 _____ possible _____ it _____ operate when plugged into _____ the _____ sockets?
 _____ am wondering if _____ can _____ electrical systems.
 _____ it _____ possible to use this _____ 110-240V _____?
 Is _____ the two types _____?
 _____ the _____ be compatible _____ both _____ electrical outlets?
 Is it possible it _____ into either _____ sockets?
 Does _____ handle both _____ of _____?
 Will the _____ supports _____ types _____?

_____ the product be used with _____
 Is it _____ in 110-240V _____ use _____?
 _____ am unsure _____ both-110 V and 240V _____.
 Does the _____ with both _____?
 _____ my 110-240V _____ use _____?
 _____ be _____ in _____ electric systems?
 _____ this _____ to use two _____?
 Can _____ 110-240V electrical system?
 Is _____ that _____ operate _____ plugged into _____ of sockets?
 _____ work _____ two types of outlets?
 Is _____ styles of electrical _____?
 _____ it _____ the _____ is compatible with _____ types _____ outlets?
 Can I use _____ that _____ at least 110-240V _____?
 _____ product _____ both types _____ outlet?
 _____ this _____ capable of _____?
 _____ it _____ this _____ work _____ both low 110 and _____ voltages?
 _____ it possible that _____ plugged _____ either kind of sockets?
 Can _____ used _____ both 0-240v _____ sockets?
 _____ with both _____ of outlet?
 _____ this _____ in _____ types _____ outlets?
 Can _____ product be _____ as _____ types _____?
 Is _____ possible _____ supports _____ outlets?
 _____ for _____ and _____ V outlets.
 _____ be compatible with _____ of _____?
 _____ I _____ that gives 110-240V electrical power?
 I _____ if it's _____ use _____ on _____ of outlets.
 _____ it possible _____ me _____ use it _____ system _____ 110-240V?
 _____ in both types of _____
 _____ it _____ to _____ in _____ and 110v sockets?
 _____ could _____ either type of outlets.
 _____ this _____ both _____ of electrical _____?
 _____ an electrical system _____ provides 110-240V _____ use _____?
 _____ compatible with _____ of electrical outlets?
 _____ it possible _____ use it _____ an 110-240V _____.
 _____ use the _____ with _____?
 Can _____ works _____ powered outlets?
 _____ asked if _____ be _____ in _____ system that _____ 110-240V _____ current.
 _____ the product _____ used _____ both types _____
 Is it possible _____ the _____ types _____ outlets?
 _____ it be _____ and _____ power sources?
 _____ if it is compatible _____ the 0-240 _____ sockets.
 _____ do _____ know if _____ compatible _____ both 110 _____ 240 V sockets.
 Can I use _____ power _____?
 _____ it _____ to use _____ a 0-240V _____ source or a 110V _____?
 Will both _____ and 240-volt _____?
 _____ I use _____ electrical _____ that supplies 110-240V electric _____?
 can _____ both types of _____?
 Will _____ possible _____ it _____ plugged _____ either type _____ sockets?
 _____ possible to _____ it _____ and 110V power sources?
 Is _____ the electrical _____ the two types??

Can the _____ higher powered _____?

_____ it _____ supports-110V and 0-240V outlets?

_____ don't _____ if _____ works _____ V and 0-240V sockets.

I _____ if it is compatible _____ sockets.

Is _____ compatible _____ the two _____ of electrical _____?

I am _____ be used in _____ electrical _____ 110-240V.

Is the _____ either type _____ at either voltage _____?

Can a product _____ with _____?

Can I _____ an electrical system _____ provides _____?

Is it possible _____ it _____ system _____ 110-240V?

Can _____ in _____ electrical system that supplies _____ 110-240V electrical _____?

Is _____ product _____ with _____?

_____ both types of _____ outlets?

_____ it possible _____ this _____ can be compatible with _____ and _____?

_____ use _____ an electrical system _____ a line _____ 110-240v?

Can _____ on both _____ types?

_____ it _____ the electrical system with _____ line?

_____ this support _____ types _____ outlets?

Can _____ use _____ in _____ electrical system _____ provides _____ least _____?

Is _____ possible _____ device can _____ and-110V outlets?

Can the _____ with _____ two types of _____?

_____ the product _____ able _____ different types _____ outlets?

_____ I _____ electrical system that provides _____ power?

_____ this product _____ in _____ and-110V _____?

_____ I use it in _____ system _____ 110-240v _____?

Is _____ with _____ these _____ of outlets?

_____ possible _____ use this _____ 110-240V electrical _____

Can _____ use it _____ electrical system that _____ to _____?

_____ unsure if it's _____ with _____ 240V sockets

_____ is a _____ whether this _____ capable of dual-voltage _____.

_____ possible to be compatible _____?

I want _____ know if _____ device _____ function _____ both 0-240V _____.

_____ in the 110-240V _____ system?

Will _____ product _____ types of _____?

Is _____ product _____ kinds _____ outlets?

Is _____ to _____ this _____ 110-240v electrical _____?

_____ in _____ system that outputs _____ least 110-240V?

_____ possible for this item _____ these outlets?

Does _____ fit _____ kinds _____ outlets?

Can _____ in _____ types of sockets?

Is _____ possible that the product _____ both _____ and _____ voltages?

_____ this _____ on _____ powered outlets?

Can _____ in an electrical system _____ power?

Is the _____ with either _____ at _____ voltage inputs?

_____ not certain _____ it works _____ both-110 V _____ sockets.

Does it work with _____?

_____ this item _____ of _____?

_____ don't _____ if _____ is compatible _____ both-110 _____ and _____ sockets

_____ this fit in _____ two types?

Will it function _____ electrical _____?

_____ use _____ in a system _____ has 110-240V electrical _____?

_____ the product _____ types of _____

Does _____ item _____ 240V _____?

_____ wondering _____ it's possible _____ use this on _____ of _____.

Is it possible that _____ in _____ outlets?

I _____ to _____ use _____ an electrical system with 110-240V.

Can this device _____ and-110V _____?

Is _____ product _____ and-110V outlets?

Is it _____ that it _____ work _____ outlets _____ operate _____ either _____ the _____ modes of _____?

Is this possible _____ both 0-240V _____ 110V _____?

Does _____ two _____ of _____ outlets?

Does _____ work in _____ system _____?

Is this _____ with the _____ the _____ types?

_____ suit both types _____?

Can this be _____?

Can i _____ in _____ with 110-240V?

Can _____ use it _____ an electrical _____ 110-240V _____?

_____ device use _____ outlets?

Is it _____ this product _____ in _____ and 110v _____?

_____ this _____ 110-240V _____ systems.

_____ I use _____ within _____ electrical system _____ 110-240v line?

_____ there a way to _____ in _____ systems?

Can the _____ be done _____?

_____ fit in both _____ Outlets?

_____ this in 110-240V systems?

_____ it possible to _____ this _____ in both 0-240V _____?

Is _____ device capable _____ in both 0-240V _____?

Is it _____ this _____ 110-240V _____?

_____ it possible _____ this _____ both _____ of outlets?

Will it _____ plugged into the _____ sockets?

Is _____ possible to _____ this in _____?

_____ it _____ to put _____ on _____ types of _____?

_____ it _____ of the plugs?

_____ I use it _____ an electrical _____ that _____ 110-240V _____?

_____ product _____ the _____ of outlets?

Does _____ work _____ the _____?

Will the product function _____?

_____ to _____ and 110V outlets?

_____ it possible _____ use this _____ both _____ outlets?

Can I _____ with _____ system?

_____ work _____ 110V _____ 240V plugs?

_____ I use it _____ that has a 110-240v _____?

_____ you _____ both outlets?

_____ it _____ on _____ and _____ outlets?

Can it be _____ in _____ electrical system _____ 110-240V _____.

_____ this _____ both _____ of outlets?

Is _____ possible _____ use it in an electrical _____ 110-240v _____?

Can _____ an 110-240V system.

_____ that it _____ when _____ into either type of _____?

Is _____ possible _____ use them _____ types of _____?

____ I use it in an electrical ____ an ____ ?
 Will ____ compatible ____ 110-240V ____ systems?
 Can ____ on ____ types of ____ ?
 Does ____ two types of ____ ?
 ____ it compatible ____ power sources?
 ____ product ____ both kind ____ at both input levels?
 ____ it possible that ____ plugged ____ type of sockets?
 Can ____ the product ____ of sockets?
 ____ the ____ compatible with ____ of ____ different ____ outlets?
 I wonder ____ I ____ in an ____ system ____ 110-240V.
 Can ____ it in ____ electrical ____ that ____ an ____ current?
 Can ____ use it ____ an electrical ____ 110-240 ____ ?
 ____ the ____ provide support for ____ outlets?
 Can I use it in an ____ 110-240V ____ ?
 ____ wonder ____ it ____ be ____ with both the 0-240 ____ .
 ____ know if I can ____ it ____ an ____ system that provides ____ volts.
 ____ it work ____ an electrical ____ provides ____ electrical ____ ?
 ____ it possible that ____ could be ____ with ____ ?
 Is this available ____ both ____ ?
 Can you ____ this ____ both ____ ?
 Can I use ____ an electrical ____ with an ____ ?
 ____ am not sure ____ it ____ both 110 ____ 240V sockets.
 Is it ____ it ____ operate ____ into either ____ of sockets?
 ____ possible ____ use ____ product in both 0-240v ____ sockets?
 Can ____ product ____ with ____ types of ____ ?
 Can I ____ an electrical system that ____ 110-240V ____ ?
 I want ____ if I ____ it in ____ system.
 Is ____ to ____ it in an electrical system that ____ ?
 ____ possible that ____ if ____ into either kind ____ sockets.
 ____ the ____ accommodate ____ two ____ outlets?
 Is it possible ____ to ____ plugged ____ either ____ of ____ ?
 Is it ____ that this ____ ?
 Is this ____ work in both 0-240V ____ ?
 ____ possible that ____ work ____ connected ____ either type of ____ ?
 Can ____ use ____ in an electrical system ____ ?
 ____ the ____ in ____ the 0-240V and 110V ____ ?
 Is ____ product ____ with ____ of ____ ?
 Can ____ this in an ____ that provides ____ ?
 Is ____ item ____ use ____ power?
 Is ____ item ____ with ____ outlets?
 Is it ____ to ____ the ____ in both 0-240V ____ ?
 Can I ____ electrical system ____ a 110-240v line
 ____ this ____ be use ____ powered ____ ?
 ____ need to ____ can ____ electrical system with a 110-240v line.
 Are ____ possible ____ will work ____ kind of sockets?
 ____ both ____ be ____ the product?
 Is ____ a way to ____ this ____ both 0-240v ____ ?
 I want ____ if ____ can use ____ an ____ that gives ____ volts.
 ____ I ____ it ____ that gives 110-240V output?
 Is ____ on both type ____ ?

Can the _____ be _____ both _____.

_____ product operate _____ of those _____?

_____ be _____ to _____ this on both types _____?

Is it _____ to _____ this on _____ of _____?

_____ it _____ in 110-240V electrical Systems?

Is the _____ forms _____ outlets?

_____ this _____ with _____ of outlets?

Is it _____ to _____ in _____ that offers 110-240V?

Can _____ be used with _____ sockets?

Does _____ item _____ types _____ electrical outlets?

Can _____ use _____ in _____ system _____ a _____ line

_____ it possible to _____ the product _____ sockets?

_____ be used with both _____?

_____ the product _____ support for _____?

Will it be _____ the _____?

_____ could be used _____ types _____ sockets.

Can it _____ electrical _____ has a 110-240v line?

_____ am _____ it _____ used with _____ V and 0-240V sockets.

_____ think _____ will _____ on both _____?

_____ the _____ two different _____ of outlets?

I _____ if I could _____ this _____ systems.

Is _____ possible _____ it on _____ of outlets?

Does _____ work in more _____ range?

Is it _____ use _____ on both _____?

_____ I use _____ in _____ system _____ supplies 110-240V?

_____ the _____ the different sockets?

Can _____ be _____ with _____ types _____ sockets?

_____ used _____ system _____ provides 110-240V electrical output?

_____ be _____ an electrical _____ with an 110-240V electrical _____?

_____ on both _____ the _____ types of outlets?

_____ the product operate _____ the _____?

_____ to _____ in an _____ system that _____ 110-240 _____ electrical power?

_____ this _____ with both of the _____ types?

_____ The product be used _____?

Is it possible to _____ a 0-240V _____ source or _____?

_____ I use _____ product in _____?

Can it be used _____ plugged into _____?

_____ it _____ touse this on both _____?

Is this _____ and _____ outlets?

Can it _____ system that _____ a 110-240v _____?

_____ the product _____ types _____ sockets?

Can _____ use it _____ system with _____ of _____?

Is _____ with the electrical _____ different types?

Can I _____ it _____ electrical _____ that _____?

_____ know _____ compatible _____ both 110 V and 240V sockets.

_____ to use _____ in _____ electrical _____ that has _____ electrical current?

Is _____ product compatible _____ types _____ at _____ two _____ levels?

Are this compatible _____ type _____?

_____ it _____ both 110V and _____?

Is _____ use _____ an electrical _____ that gives _____ current?

Is _____ to use _____ in _____ system _____ provides _____ V?
 _____ product _____ power sources?
 _____ use it _____ system _____ offers 110-240V _____ output?
 _____ with both electricity inputs?

Does _____ work _____ types _____ Outlet?
 _____ would _____ to _____ if _____ compatible with either type _____ outlets.
 _____ with these two types _____ electrical _____?

It _____ possible to _____ this _____ systems _____ 110-240V.
 _____ I _____ in _____ electrical system which _____ 110-240V electrical _____?
 _____ this _____ function in either 0-240V _____?

Does _____ item _____ types of _____?

Is _____ to use it in an _____ 110-240V?

I'm not _____ with both-110 V and 240V _____.

This _____ used _____ both _____ of _____.

Can we _____ both _____ of _____?

Can _____ these sockets with _____ product?

Are _____ to _____ electrical system that provides 110-240V electrical _____?
 _____ use this on _____ of _____?

Is _____ to both _____ outlet?

Can _____ be compatible _____ of electrical _____?

Can _____ use it _____ an output of 110-240V?
 _____ it be _____ electrical system _____ electrical current.
 _____ I _____ it _____ electrical system that provides _____ 110-240V electrical _____?
 _____ might be possible to _____ this in _____.

_____ with both of _____ outlets?

Can _____ the product in _____?

Is _____ it _____ when plugged into either kind _____?

Is _____ to use _____ product _____ both _____ of _____?
 _____ with two _____ of sockets?

_____ I use it _____ an _____ that _____ least 110-240V?

Is the product compatible with _____ of _____?
 _____ this _____ on both _____ of _____?

Did this _____ with _____ electrical _____?
 _____ to _____ this _____ a 110-240V electrical system?
 _____ I _____ it in an electrical _____ 110-240V _____.

_____ to use this _____ electrical systems _____ 110-240V?
 _____ on both types _____ outlets.
 _____ used _____ an _____ supplies at least 110-240 volts?
 _____ both types of outlets?

_____ use _____ in an electrical system _____ give _____ current?
 _____ the _____ both types _____ outlets?

_____ work _____ types of _____ Outlets?
 _____ it _____ an electrical system that _____ 110-240 _____?

can _____ work in _____ outlets?

_____ need _____ can use it in _____ that _____ 110-240V electrical current.

_____ I use it in an electrical _____ volts?
 _____ be used in _____ 110-240V _____?

Can _____ in an _____ system _____ a _____ line?

Can it _____ used in _____ that gives _____?

Can this device _____ two _____ types _____?

_____ product _____ able to support the _____ types _____?

Is it _____ it _____ an _____ system that _____ 110-240V electrical _____?

_____ it possible to use _____ on _____ outlets?

_____ be _____ for both types _____ sockets.

Will _____ fit 110V _____?

_____ the item _____ higher _____ outlets?

Is _____ product _____ with both _____?

_____ compatible with both type _____ electrical _____?

Can the device _____ and-110V _____?

Will _____ in _____ different _____ of electrical _____?

_____ the item _____ these _____?

_____ I use it _____ both _____ outlets?

_____ this _____ both types of _____?

Can I _____ it _____ electrical _____ that _____?

_____ to be _____ on both types _____ outlets?

Can I _____ an _____ system _____ can provide _____ electrical _____?

Would _____ be possible _____ use _____ of outlets?

_____ product able to _____ the _____ different _____ outlets?

Is _____ compatible _____ of Outlets?

_____ possible _____ this can _____ both 0-240V and 110V _____?

_____ product _____ used with _____ sockets.

_____ if _____ is compatible _____ both-110 V _____ 240V sockets.

Can I _____ in a _____?

Is it possible _____ will _____ when _____ either _____ of _____?

_____ possible to use _____ on _____ sources?

_____ this useful _____ types of _____?

Can _____ use _____ both of _____?

Can _____ use it in _____ electrical system _____ 110-240 _____?

_____ a _____ function in _____ outlets?

Can this _____ used with _____?

Can the _____ be _____ both _____?

_____ it _____ in _____ electrical system that provides 110-240V?

_____ be used in _____ electrical system _____ power?

_____ product _____ with both _____ of _____?

_____ I _____ with the _____ systems?

Can _____ used in _____ systems?

_____ this device _____ both 0-240V _____?

_____ product compatible with either _____ of _____ either's _____?

_____ apply _____ both _____ of outlets?

Does _____ product _____ and 110V?

_____ electrical systems, is _____ possible _____ use _____?

_____ dual-voltage capable?

_____ sure if it will _____ V and 240V _____.

Is it _____ use _____ 110-240 V _____?

Is the _____ compatible _____ both _____ of _____?

Is it _____ to use it _____ system that _____ power?

Is _____ for me to use _____ with _____?

_____ sure if it is compatible _____ and _____.

Can this _____ both _____?

Is _____ possible to use _____ electrical systems.

Can it _____ an electrical _____ 110-240V power?
 _____ with both _____ sources?

Can _____ it with _____ system that gives 110-240V _____?

Are _____ use _____ in _____ electrical systems?
 _____ the product _____ used _____ different types _____ sockets?

Can _____ use it _____ an _____ that gives _____ 110-240V _____?

Can _____ be used in an _____ 110-240V?
 _____ this _____ be dual-voltage _____?
 _____ it compatible with _____ 110V _____ a _____?
 _____ this _____ both _____ electrical Outlets?

Can _____ be _____ both of the _____?

Can this _____ both 0-240V _____ outlets?
 _____ you use _____ both types _____?
 _____ use it _____ that delivers 110-240V electrical power?

I _____ unsure if it can be _____ V _____.

Does _____ product _____ on _____ of _____ two types _____?

Is _____ item _____ to _____ both _____?

Is _____ capable _____ dual-voltages?
 _____ this item _____ of _____ two types of _____?

Does _____ work with _____ the two _____?

Does _____ to _____ types of _____?
 _____ use this in 110-240V?
 _____ it _____ both _____ those outlets?
 _____ it in an _____ system _____ makes 110-240V electrical _____?

Can _____ be used _____ electrical system _____ 110-240V.
 _____ it be _____ an _____ system that provides _____ power.
 _____ able _____ use _____ on both _____?
 _____ it _____ an _____ electrical system?
 _____ item _____ used with _____ sockets?

Will it _____ different _____ electrical sockets?

Can I use _____ provides 110-240V _____ current?

Can _____ use _____ to _____ electrical _____?

Will the product _____?

I'm wondering _____ it can be _____ an electrical system _____.

_____ product _____ 240V outlets?
 _____ it _____ those outlets?

The product _____ be _____ sockets.
 _____ this product _____ on _____ outlets?
 _____ you can _____ this _____ both _____ of outlet?

Can this _____ with both _____?

Can I use _____ in an electrical _____ allows _____?

Does _____ both _____ electrical outlets?

I'm _____ if I _____ use _____ electrical _____ with _____ volts.
 _____ possible _____ it _____ electrical _____ which has a 110-240v line?

Is it compatible _____ types of _____?
 _____ compatible _____ both the 0-240 and 110V _____?

Can _____ use _____ an electrical system _____ outputs _____?

Does _____ accept _____ of outlets?

_____ I use _____ with _____ system _____ 110-240V?

Is _____ possible _____ use this on both _____?

I _____ wondering if I _____ it _____ an _____ system that _____ output.
 _____ the product _____ with _____ types _____ sockets?!
 Can _____ it in an _____ system that _____?
 _____ use it in an electrical _____ that _____ current?
 _____ it _____ with _____ types _____ outlets
 _____ the _____ work _____ both 0-240V _____ outlets?
 Can _____ use _____ on _____ types _____.
 Can _____ an electrical _____ that provides _____ V?
 _____ use it in a system _____ has _____ electrical _____?
 _____ this _____ both _____ electrical outlets?
 Can I _____ it _____ system _____ electrical output.
 _____ may _____ capable of _____.
 Is _____ that _____ could function _____ both _____?
 Can the product utilized _____?
 Can I _____ in _____ system that _____ provide 110-240V _____?
 Can _____ with _____ types _____ electrical _____?
 _____ the _____ dual-voltage use.
 _____ possible for _____ to _____ it _____ a system that _____ 110-240 _____?
 Is _____ to _____ inside of 110-240V electrical _____?
 Are it _____ for me _____ use _____ both _____ of _____?
 _____ to know _____ it can _____ used in an electrical _____ provides _____ electrical _____.
 Can _____ use it in _____ that _____ 110-240V _____?
 _____ both of the _____ of outlets?
 Does _____ fit _____ types _____ outlets?
 _____ this be used with electrical _____?
 Does _____ product operate _____ the _____?
 Is it _____ with _____ kinds of _____ both _____?
 _____ possible to use it in an _____ 110-240V _____ output?
 _____ possible _____ it in _____ electrical system _____ is 110-240v?
 _____ it _____ that _____ product _____ both low-110 and high-240 voltages?
 _____ fit _____ both _____ electrical outlets?
 Is _____ possible _____ use _____ both 0-240v and _____ sockets?
 Is it _____ use _____ in an electrical _____ with _____ electrical _____?
 Is this _____ with both _____?
 Is this okay _____ both _____?
 Is _____ device _____ and-110V outlets?
 _____ it _____ for it to _____ plugged _____ types of _____?
 Is _____ for me _____ on _____ types of outlets?
 Does _____ product cater for _____?
 Is _____ to _____ item _____ both 0-240v and-110v sockets?
 Can _____ work _____ outlets?
 Is _____ use it _____ electrical system that _____ 110-240V electrical _____.
 Is _____ with the _____ of _____ two _____?
 _____ I use _____ the _____ system _____ has 110-240V?
 Is _____ with both _____ of _____.
 Can _____ use _____ in an electrical _____ 110-240V?
 Is _____ with _____ two _____ of _____ Outlets?
 The product may _____ utilized _____ sockets.
 Can _____ use _____ an _____ has a 110-240 _____ line?
 Is it compatible _____ the _____ types _____ electrical _____?

_____ work _____ two types _____ electrical _____?

Can it _____ used in a _____ provides _____?

It _____ possible _____ will _____ when plugged _____ either _____ sockets.

_____ the _____ with either _____ the different _____ outlets?

_____ it _____ operate when _____ into _____ kind of sockets?

_____ be _____ in an electrical _____ that _____ output?

Can _____ use _____ on _____ source?

_____ the product _____ two _____ outlets?

Can _____ this _____ types of electrical _____?

Does _____ be used with _____ types _____ sockets?

_____ use it with an _____ gives 110-240 _____?

_____ know if _____ can use _____ in an _____ that provides _____ power.

Is _____ compatible with _____ (110) and _____ voltages?

_____ able _____ use _____ in 110-240V _____ systems?

_____ be _____ with _____ different sockets?

_____ it in an electrical _____ has _____ electricity?

_____ used on _____ of outlet?

Is it possible _____ it on either _____ or a-110V _____?

Will I _____ able _____ it in _____ provides 110-240V electrical _____?

Can I _____ system _____ supplies 110-240 volts?

Can this be _____ with _____ electrical outlets?

I _____ wondering _____ in an electrical system that gives _____.

Is it _____ to _____ item _____ and 110V _____?

Can _____ both _____ electrical outlets?

Is _____ possible _____ it can _____ on _____?

_____ with both types _____ electrical _____?

_____ use it _____ an electrical system that _____?

Can _____ product with both _____?

_____ not sure if it _____ compatible _____ both-110 _____.

_____ to _____ the product _____ both 110-240 and 110V sockets?

_____ with both _____ outlets?

_____ it _____ that it will _____ either kind _____ sockets?

Will I be _____ to _____ with _____ electrical _____?

_____ can be _____ with _____ types of _____

Will the _____ outlets?

_____ to use _____ 110-240V systems?

_____ I can _____ this with _____ 110-240V electrical _____.

_____ the product be utilized _____?

Is _____ to use it on _____ power _____?

_____ be _____ both sockets?

It is possible _____ in _____ systems

Does the _____ support _____ two types of _____?

_____ use it in an electrical system that _____?

Does _____ have _____ for both _____?

I am _____ is _____ both 110-240 and 110V sockets.

Will _____ product _____ 2 _____ types of _____?

_____ it possible that it _____ plugged into _____ of sockets?

Is _____ product _____ either low 110 or high 240 voltages?

Can _____ product be _____ two _____?

_____ is _____ to _____ this _____ 110-240V electrical _____.

Can _____ be _____ in _____ electrical _____ that provides _____ 110-240V _____ current?

Are _____ to use this on _____ outlets?

Can _____ both _____ of outlets?

Is _____ possible _____ the product _____ compatible _____ of outlet?

Can _____ on _____ of outlet?

Can _____ product be used with _____.

I am _____ if _____ both-110 _____ and 240 _____ sockets.

Is _____ to _____ it _____ electrical system _____ provides _____ volts?

_____ if it _____ compatible _____ both _____ and 110V sockets.

_____ I _____ to _____ electrical system _____ provides 110-240V electrical current?

Is _____ to use _____ in _____ systems at _____?

Does the product _____ support _____?

_____ compatible _____ types of outlets.

I _____ wondering _____ can _____ used with 110-240V _____.

_____ it _____ an electric system that provides _____ electrical _____?

Is this able _____ 110-240V _____ systems?

_____ this fit two _____ outlets?

_____ in both _____ the two _____?

_____ I _____ in _____ electric system _____ electrical power?

_____ be _____ with both types of _____?

Will it _____ 240V _____?

_____ it possible _____ use this _____ both _____ of _____?

_____ product _____ support the two _____ outlets.

Can _____ device function _____ outlets?

Can I _____ this _____ outlets?

Is it _____ to _____ in _____ and-110va sockets?

_____ this appliance _____ both 0-240V _____ outlets?

_____ use it _____ an electrical system that _____ electrical _____?

Is _____ the _____ supports _____ types of _____?

Can I use _____ a _____ provides _____ current?

Do _____ product _____ both _____?

Can I _____ in _____ system that has at least _____?

Is it _____ that _____ into either _____ of sockets?

_____ I use it _____ system _____ will provide 110-240V _____?

Is the Product _____ of _____?

Is _____ to _____ an electrical system _____ provides 110-240V _____?

_____ product _____ by both _____ of sockets?

_____ want _____ know _____ I can use _____ in _____ system _____ 110-240V electrical _____.

_____ product _____ both type _____ outlets?

_____ it support _____ of outlets?

Can I use _____ that provides _____?

_____ good with _____ systems?

_____ the product be _____ types _____ sockets?

_____ it _____ of electrical outlets?

Is _____ product _____ either type _____ outlets?

I _____ it is _____ both-110 V _____ sockets.

_____ possible that it _____ operate _____ into _____ of sockets?

_____ it be _____ an electrical system with _____ electrical _____?

_____ I _____ this on _____ of these _____ outlets?

_____ the _____ outlets of both types?

_____ product _____ used _____ both sockets?

_____ it happen _____ this _____ used _____ 110-240V _____ systems?

_____ be _____ both _____ of electrical outlets.

Will this item _____ either a 110V _____?

It _____ possible _____ to use _____ on _____ of outlets.

I'm not _____ if it works _____ sockets.

_____ use _____ an electrical system that provides _____ output?

_____ be use _____ types _____ electrical outlets?

Can this item _____ to _____ on _____ powered _____?

_____ compatible with _____ outlets?

_____ works with _____ types _____ outlets?

_____ the product _____ both of the _____?

_____ use _____ in an _____ system that _____ 110-240V _____?

_____ device function on both 0-240V _____?

Is _____ product able _____ both types of _____?

_____ the product _____ support _____ outlets?

_____ it _____ 110V _____ outlets?

Can _____ be used in _____ electrical _____ that _____ at _____?

_____ it _____ to use this _____ kinds _____ outlets?

_____ the _____ support _____ outlets?

Is it _____ that _____ item _____ dual-voltage use?

_____ I _____ it _____ electrical system _____ a 110-240v wire?

Can _____ work _____ of _____ outlets?

_____ it _____ electrical system that provides _____ power?

_____ device do _____ both 0-240V and 110V _____?

_____ product _____ both _____ those types of _____?

Is this device _____ and 110V _____?

Yes, _____ this _____ compatible _____ both _____ of _____ outlets?

Can _____ device function at _____?

Is _____ to _____ this product with both 0-240v _____?

_____ this item in 0-240v and 110v sockets?

_____ this product _____ be _____?

Is _____ 110-240V electrical _____?

Can _____ use _____ in an _____ system that _____?

_____ it _____ to use this _____ dual-voltage _____?

_____ the _____ compatible _____ both _____ of _____ at both input _____.

Can I _____ in _____ with _____?

_____ possible _____ use this _____ both types of _____?

_____ am _____ if it is _____ to _____ this on both _____.

Is _____ possible _____ it _____ plugged into either kind _____?

_____ am wondering _____ I can _____ in _____ electrical system that _____ electrical _____.

_____ they _____ both types _____ outlets?

_____ this _____ have _____ use?

_____ with both types _____ outlets?

_____ not _____ if it is compatible _____ both 110 _____ 240V _____.

_____ utilized in _____ electrical systems?

_____ is the _____ kinds of outlets?

_____ this _____ in either 0-240V _____ outlets?

Is _____ on both _____ of outlets?

_____ I use _____ a 110-240v _____?

_____ work with _____ types of _____?

Can I _____ it _____ system with _____.

Is _____ possible to _____ it _____ an _____ system _____ is _____?

_____ this device able to _____ outlets?

_____ be used _____ both _____?

_____ it _____ an electrical _____ that _____ 110-240V current?

Can _____ use both sockets?

_____ it _____ 110-240V electrical systems?

_____ the _____ employed with _____ types of _____?

Is _____ capable _____ dual-voltage _____?

I _____ no idea if _____ is _____ and _____ sockets.

Is _____ this supports both-110 _____?

The _____ could _____ with _____ sockets.

Is _____ to _____ in _____ systems in 110-240V?

Will _____ in both _____?

_____ this product in _____ types of _____?

_____ possible that it _____ if plugged into _____ of _____?

_____ type of electrical outlets?

Can it _____ used _____ an _____ system that _____ output?

_____ device _____ multiple outlets?

_____ it possible _____ this product _____ with _____ of _____ voltages?

Is _____ it will function _____ plugged into _____ kind _____?

_____ this _____ on higher powered _____?

Does the _____ permit _____ types _____?

_____ this fit _____ both _____ types _____ electrical outlets?

Can _____ use it _____ an _____ system _____ 110-240V _____?

_____ the _____ cater _____ both _____ of _____?

Can the device work _____?

_____ this fit _____ types _____ electrical _____?

_____ am not _____ it is _____ both-110 _____ and 0-240V sockets.

_____ this _____ with _____ outlets of _____ two _____?

_____ I use _____ an _____ system that provides electrical _____?

_____ there _____ way to _____ the _____ with both types _____?

_____ it _____ with both _____ of _____.

I am _____ it _____ with both-110 _____ and 240V _____.

_____ this good _____ 110-240V _____?

Can this be _____ both _____ of _____?

Can the product be _____ of _____?

_____ be used _____ either a 0-240V _____ source or _____ source?

Is _____ compatible _____ both _____ power _____?

_____ am _____ sure if it _____ compatible with _____ V _____.

_____ I use _____ electrical systems _____?

_____ capable _____ dual-V use?

Can _____ be used _____ electrical _____ electrical power?

Is _____ possible _____ on a 0-240V _____ a _____ source?

Is the products _____ of _____?

_____ possible to _____ on _____ type of outlets?

_____ operate _____ both outlets?

Can _____ use _____ in an _____ that _____ 110-240V electrical _____?

Can _____ both _____ electrical outlet?

Can _____ use _____ an electrical system _____ 110-240V _____ current?

I _____ not sure if _____ compatible _____ and _____ sockets.

Does _____ ability to support _____ of outlets?

_____ you use this _____?

Does the _____ allow both _____?

I am _____ it _____ compatible with both-110 _____.

Can this device _____ and-110V _____?

_____ possible _____ product to be compatible _____ of outlets?

Is it _____ to _____ product _____ both 0-240v _____ sockets?

_____ use it _____ power _____ electrical _____ provides 110-240V?

Can _____ it _____ a _____ uses 110-240V?

Is _____ compatible with _____ outlets?

Can it _____ types _____ outlets?

Is _____ that _____ may work _____ either kind _____ sockets?

Is it _____ it _____ with _____?

_____ item might be able to be _____.

_____ this product _____?

_____ compatible with _____ two _____ sources?

Can I use _____ system that provides _____ current?

_____ possible for it _____ function on _____ types _____?

Is _____ will _____ when plugged _____ either sockets?

_____ use it in a _____ that has _____?

Has _____ fit in both _____?

_____ operate on both types _____ outlets?

I am wondering _____ it _____ an _____ that provides 110-240 _____.

Is _____ to use _____ in both 0-240v and-110v _____.

Can _____ used _____ an _____ that uses 110-240V?

_____ you _____ on _____ outlets?

_____ possible _____ operate if plugged into either _____?

_____ put _____ on both types _____?

Can _____ use it in _____ electrical _____ that _____ a _____?

I want _____ if it _____ used _____ an electrical system _____ provides _____.

_____ it in a _____ has a 110-240 _____ line?

_____ be _____ with _____ types _____ electrical outlets?

Can _____ it _____ electrical _____ that provides 110-240V _____ current

_____ possible _____ will perform _____ into either type of _____?

Is _____ with both type _____?

Can I use _____ in an _____ power output?

_____ the product have _____ 240V _____?

Can _____ in _____ with 110-240V?

Does _____ fit _____ kinds of _____?

Does _____ work _____ the _____ voltages?

_____ applicable with _____ sockets?

_____ the product _____ the different types _____?

_____ it be _____ an electrical system _____ 110-240V _____?

Will _____ function in _____ of _____?

It _____ possible _____ this in _____ electrical systems.

I am uncertain _____ compatible _____ both-110 V _____.

Can _____ use that in _____ system _____ a _____?

_____ it _____ to use _____ for _____ of outlets?

I do _____ it's compatible with _____ and _____ sockets.
 Is _____ with _____ electrical _____.
 Can it _____ used with _____ types _____?
 _____ this item work _____ a _____?
 Will it _____ with _____?
 This _____ or _____ compatible with the two types _____
 _____ use it _____ that offers 110-240V _____ power?
 _____ I _____ able to use _____ in _____ system that _____?
 _____ compatible with _____ two types _____ outlet?
 Is _____ compatible _____ outlets?
 _____ for dual-power use?
 _____ use _____ for both _____ of _____?
 _____ this fit _____ systems?
 Can _____ use it in _____ that outputs 110-240V _____?
 _____ to use _____ in 110-240V _____.
 _____ don't _____ it can be used with _____ V _____.
 I wonder _____ can _____ in _____ electrical system _____ 110-240V power.
 I'm not _____ with _____ V and _____ sockets.
 _____ item _____ with higher _____ outlets?
 Can the _____ used _____ sockets?
 Does this _____ both types _____?
 _____ I _____ on _____ types of _____?
 _____ use it _____ electrical _____ that provides 110-240V?
 _____ it _____ could be compatible _____ both low 110 and _____?
 Can I _____ it _____ system that _____?
 I _____ to know _____ can use _____ in _____ system _____ 110-240 volts.
 Can _____ on _____ of outlets
 _____ use it in an electrical system _____ 110-240 _____?
 Will the _____ 2 _____ of _____?
 _____ I _____ an electrical system _____ produces 110-240V _____?
 Can it _____ used in _____ system _____ 110-240V?
 Can _____ item _____ on _____ powered _____?
 Is _____ good _____ both _____?
 _____ able to _____ in the 0-240V _____ outlets?
 _____ it possible _____ I _____ in an _____ system that provides _____?
 Is _____ to _____ it _____ system _____ 110-240V electrical output?
 _____ wondering _____ this can be used _____ 110-240V _____.
 _____ this _____ two _____ of outlets?
 Is _____ compatible _____ both _____ outlets at _____ input levels?
 Is _____ with _____ kinds _____ outlets?
 Will the _____ supports _____ of _____?
 _____ I _____ this in _____ electrical systems?
 _____ sure if it is compatible with _____ V _____.
 _____ I use it _____ an electrical _____?
 I would _____ to know _____ I can use _____ electrical _____ gives _____.
 _____ item work _____ use?
 Is _____ compatible _____ of _____ inputs?
 _____ the product _____ with both types _____ input levels?
 Are the _____ either _____ outlets?
 Can _____ be used _____ both _____?

_____ the _____ also _____ with _____ sockets?
 Can _____ work _____ higher powered _____!
 Is it _____ this _____ two different voltages?
 _____ if _____ is compatible _____ the 0-240 and 110V sockets.
 _____ the device _____ outlets?
 _____ be utilized with both _____
 Can I use _____ electrical _____ that _____ 110-240 _____?
 Will _____ be able _____ operate _____ both _____?
 Is _____ both _____ of sockets?
 _____ could be _____ in _____ systems.
 _____ be used _____ types of _____?
 Will _____ product _____ two _____ of _____?
 It is _____ if it is compatible _____ both 110 _____.
 Will _____ in _____ electrical sockets?
 I am _____ it is compatible with both 110 _____.
 _____ compatible _____ two different _____ of _____?
 _____ am _____ if _____ can use _____ in _____ system that _____.
 _____ product _____ both _____ (110) _____ high (240) voltages?
 Will _____ types of outlets?
 It _____ that _____ item is capable of _____.
 _____ product _____ dual-voltage operation?
 _____ it _____ the works _____ both _____?
 _____ I _____ in _____ electrical system that sells _____?
 _____ I use it in _____ uses _____ volts?
 Can _____ product support the _____?
 _____ be _____ both types of _____?
 Is _____ possible _____ this _____ electrical systems _____ 110-240V.
 _____ this _____ compatible with _____ types _____ Outlets?
 Does _____ device _____ both types _____?
 Is _____ the device to _____ and 110V outlets?
 Can _____ device _____ both 0-240V _____?
 Does it _____ types _____ outlets?
 Can _____ use it _____ an electrical _____ has _____?
 _____ this device _____ in both 0-240V _____?
 _____ it _____ that _____ operate _____ to _____ kind of sockets?
 _____ product _____ two types _____ outlets?
 Is this compatible with the _____?
 _____ it be _____ an electrical system _____ 110-240V _____ output?
 _____ it _____ used _____ electrical _____ that _____ at least 110-240V _____?
 _____ it _____ to use _____ in an _____ system _____ a _____?
 _____ if it _____ be used _____ an _____ was 110-240V.
 _____ use it _____ electric system that _____ a 110-240v _____?
 _____ I use _____ types _____ outlets?
 Is _____ product _____ either _____ (110) _____ high _____ voltages?
 _____ the product _____ either the _____ outlets?
 _____ you use _____ type of _____?
 _____ product _____ to use two _____?
 _____ the _____ two types _____ outlets?
 Is it _____ use the product _____ both _____?
 I wonder _____ both 0-240 and 110V sockets.

_____ that product be used _____ sockets?
 Does _____ on _____ voltages?
 Will _____ be _____ the different _____ of outlets?
 Is _____ both types _____ outlets?
 Can _____ in an _____ that _____ at least 110-240V?
 I was wondering if _____ it in an _____ was _____.
 Can _____ use it _____ electrical _____ that can _____?
 _____ possible that it works _____ at _____ of the two major _____?
 Can _____ both _____ of outlets.
 _____ know if _____ compatible with _____ and 0-240V sockets.
 _____ product operate _____ outlets?
 _____ wondering _____ use it _____ an electrical _____ that provides _____.
 Is it _____ two different power sources?
 _____ asked if it _____ be used _____ electrical _____ 110-240V _____ output.
 _____ the _____ have support _____ 240V and _____?
 Are it possible _____ it _____ electrical _____?
 _____ compatible _____ dual-voltage use?
 Is it _____ to utilize _____ with _____?
 _____ possible to use _____ on both a 0-240V power _____ power _____?
 _____ wondering _____ it's _____ both the 0-240 _____ sockets.
 _____ possible _____ use it in an _____ that can _____ 110-240V _____?
 Is _____ possible to _____ it on _____ power _____ or _____?
 Does _____ the two outlets?
 can _____ product be _____ with both _____?
 Can _____ it in an _____?
 _____ compatible _____ both 110V _____ 240V power _____?
 _____ it _____ to _____ within 110-240V electrical _____?
 _____ it possible _____ use it _____ electrical system _____ 110-240V electrical _____?
 Can _____ use it _____ an _____ that _____ to 110-240V?
 _____ would _____ to _____ if I can use _____ electrical system that _____.
 Can _____ both types _____ electrical _____?
 _____ the item _____ with _____ types of _____ outlets?
 Can _____ devices function _____ both 0-240V _____?
 _____ in an electrical system that _____ volts _____ electrical power?
 _____ to use it _____ and 110V sources?
 What can _____ do in _____?
 Can I use _____ electrical system _____ gives _____ current?
 Is it possible _____ on both _____ outlet
 _____ the _____ both types _____ outlets?
 _____ the _____ be used _____ both type _____?
 Will it work _____ of _____ outlets?
 _____ it function _____ electrical sockets?
 _____ it _____ with the _____?
 _____ product compatible with _____ type _____ at _____ voltages?
 _____ could be _____ capable.
 Is _____ use _____ in 110-240V electric _____?
 _____ you _____ on both types _____?
 Can _____ be _____ 110-240V _____ systems?
 _____ be _____ on _____ powered outlets?
 I want _____ know if I can _____ in _____ that _____ volts.

Does it _____ and-110V _____ sources?

Is it _____ that _____ operate _____ into either _____ sockets?

_____ use it _____ electrical _____ 110-240V electrical power?

_____ possible to use this on _____ these _____?

Is this product _____ in both 0-240v _____?

Does _____ product compatible _____ type _____?

_____ the _____ with _____ kind _____ outlets?

I asked _____ it _____ be _____ in an _____ 110-240V.

Is _____ this _____ 110-240V electrical systems?

Are _____ possible that _____ function on _____?

Can _____ use _____ both kinds _____?

Can this device _____ and-110V _____?

I want to _____ can use it _____ system that _____.

_____ I use _____ in an electrical system _____?

_____ it _____ the works _____ outlets?

Can this item operate _____ outlets?

Can it _____ used _____ an _____ provides _____ V?

_____ device able _____ function _____ both 0-240V and-110V _____.

Will this _____ both types _____?

Is it possible _____ works _____?

It might _____ it will operate _____ plugged into _____ sockets.

Is it _____ it _____ with a 110-240V electrical output?
