

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|--|
| Company Type | Automotive Parts Retailers |
| Inquiry Category | Clarification on product specifications |
| Inquiry Sub-Category | Measurements and dimensions |
| Description | Customers seek clarification on measurements and dimensions of a product, such as length, width, and height. They want to ensure the part will fit properly in their vehicle or equipment. |
| Data Size | 5,100 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Automotive Parts Retailer" customer inquiry. (Purchased data will not be masked.)

How ____ I ____ these replacement ____ match ____ correctly with existing ones ____ of ____ sizes?

Are ____ size ____ existing ones?

____ guaranteed that the sizes ____ among component ____?

Is ____ an ____ size ____ replacement and existing ____?

____ can be ____ to ____ between current ____ future ____ sizes?

____ no ____ of ____ between these replacements and ____ existing ____.

Will these replacements ____ in ____?

Will ____ when they're replaced?

____ don't ____ these replacements ____ the ____ dimensions ____ relation ____ my stuff ____.

Is ____ that ____ will ____ same size ____ ones I need ____ out?

Proper ____ and old ____ sizes ____ questioned.

____ if these replacement parts ____ with my existing ____?

Can ____ make sure that ____ are the same size ____?

How ____ I ____ that the components are the ____ in size ____ the ____?

____ be certain ____ replacement items are ____ right ____?

Are ____ compatible with the ____ ones ____ size?

____ we know if ____ sizes ____ among ____ replacements?

____ want ____ these ____ pieces are proportional compared ____ ones ____ present.

Can ____ give me ____ assurance that the ____?

____ I make sure ____ parts ____?

____ don't know if these replacement items ____ sized ____.

____ match ____ of size?

Is ____ an ____ replacements and the existing components?

How ____ make sure that the ____ different ____ size ____ the ones already ____?

I ____ know ____ substitute parts will ____ the ____ ones.

How can I make ____ that ____ different in size ____ already ____?

Will these pieces ____ their ____ are ____?

____ you tell me whether ____ correctly?

Are _____ about accurate sizing _____?

_____ to know _____ replacements match _____ parts in _____.

When _____ to _____ dimensions, will _____ components _____ a _____ match?

_____ the replacement _____ ensure the _____?

Will _____ components match in _____ with _____ ones _____?

_____ the replacement _____ be _____ right _____ for existing _____?

_____ there _____ that all _____ have the same _____?

_____ I _____ to _____ about whether _____ size _____ the replacements _____ to _____ installed?

_____ replacement _____ match _____ dimensions of the original _____?

Are these _____ same _____ as _____ parts?

Is it _____ new _____ will fit _____ old _____?

_____ the _____ this replacement _____ those of _____ existing ones?

_____ it _____ know if _____ pieces are _____ when _____ to the already _____?

How _____ that the components _____ not _____ in size _____ ones _____ been used?

Is _____ assurance that _____ sizes will _____ line with _____?

_____ can _____ ensure that _____ substitute parts _____ fit in _____ ones?

Do _____ if the replacements _____ match the _____ ones in _____?

Can _____ guarantee _____ be the same size?

_____ the replacements _____ in terms _____?

_____ possible _____ components will align accurately _____?

_____ you know _____ the dimensions _____ this _____ ones _____ the _____ ones?

_____ it possible _____ the _____ parts _____ the part _____?

Is _____ the sizes _____ among component replacements?

I _____ know if _____ parts will _____ with _____ I _____.

_____ replacement parts _____ compatible _____ is already in place?

Is _____ way _____ make sure that _____ replacements _____ with _____?

_____ I confirm if _____ the part _____?

Is _____ possible _____ the _____ replacement match those already _____?

_____ it possible that the _____ this _____ the _____ in _____?

_____ you _____ assurances _____ accurate _____ matching _____ replacements here?

For existing parts, _____ the _____ parts _____?

I would like _____ the dimensions _____ match _____ ones.

Do _____ know if the dimensions _____ the _____ there?

_____ it _____ fit between existing and new _____?

_____ the dimensions of this replacement _____?

_____ the _____ up in _____ size?

Is the new _____ to fit _____ installed?

Can _____ the fit between _____ and replacement _____ is _____?

_____ know if these _____ fit in my _____?

Is it _____ to _____ that _____ of _____ match others?

How _____ be _____ that _____ of _____ replacements will be the same _____ items?

Can _____ me _____ the _____ are going _____ fit?

I don't know _____ new components _____ size with _____ ones.

_____ if these replacements _____ size-wise?

_____ replacements be _____ match for the _____ parts to _____ fitting?

There is _____ question _____ whether the sizes will _____.

_____ pieces _____ in size?

Can ____ be ____ that ____ items are the ____?

How ____ sure the components ____ same ____ as those ____ use?

Can ____ sure ____ components are the ____ size ____ the ones ____ used?

Is there ____ guarantee of ____ and the ____?

____ can I ____ that the ____ are sized ____?

____ we know ____ coincide ____ replacements?

Is it possible ____ if ____ will ____ alongside the ____ ones?

Can I be ____ of ____ replacements will match ____ current ____?

I want ____ know ____ the substitute parts ____ size.

____ am unsure ____ the replacements ____ in size.

I don't ____ if ____ will fit ____ the existing ____.

____ you know if ____ parts ____ fit ____ existing ____?

How do I ____ the parts ____ terms ____ size?

Do ____ know ____ replacements will ____ size-wise?

Is there ____ guarantee that ____ replacements have the ____ have now?

____ we make ____ replacements ____ what's already ____ place?

____ replacement ____ the dimensions ____ the original parts ____ ensure proper ____?

Can you say that the replacements will ____ as ____?

Will these replacement ____ similar ____?

____ replacement ____ what's already there?

Do ____ if ____ parts will ____ correctly?

Will ____ pair ____ in ____?

____ guaranteed that ____ replacement ____ will ____ the ____ components?
