

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Need for a new meter installation request
Inquiry Sub-Category	Meter Tampering Investigation Request
Description	Customers may report suspected meter tampering or irregularities, asking for an investigation to verify the accuracy and integrity of their electricity meter.
Data Size	9,207 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ verify ____ and ____ of our ____ consumption recorded by ____ current installed ____?
____ you ____ me if the ____ installed meters is correct?
____ you ____ if our ____ record electricity consumption ____?
Is ____ possible to ____ the ____ readings ____ energy ____?
Are ____ able ____ that ____ electricity consumption recorded by our ____?
Is ____ electricity usage ____ measured ____ by the ____?
____ a way to verify the ____ recorded electricity ____?
Can we ____ the ____ installed ____ accurately record electricity usage?
____ we ____ sure that our ____ consumption ____ reliable?
Will the ____ system ____ of our energy use?
Is ____ possible that the ____ meters track our ____?
____ that ____ existing meters ____ our electrical usage?
Are ____ electricity meters ____ accurate ____?
Can you ____ integrity ____ our metered electricity ____?
____ are interested ____ electric meters ____ accurate depiction ____ power consumed.
____ the ____ usage data recorded by the ____?
Will ____ correctness ____ reliability of our electricity ____ from these ____?
Are ____ installed ____ meters ____?
____ if the ____ record ____ power ____.
Can you ____ the ____ of our recorded ____?
____ use the current ____ measuring devices ____ ensure an ____?
____ check ____ the recorded ____ consumption with the ____ meters.
Is ____ built-in meters ____ electricity consumption ____?
____ the energy ____ readings ____ and ____?
Did you ____ our electricity usage as ____ installed meters?
____ electric meter's reading ____?
____ would like ____ if the meter ____ for ____ are ____.
____ you ____ us if ____ readings are accurate ____ complete?
The ____ usage ____ by these ____ meters needs ____.

Is _____ to ensure _____ electricity consumption _____ our existing meters is _____?
_____ current _____ meters record electricity _____?

Are our electric meters _____ an _____ depiction _____ usage?
_____ tell me if _____ electricity _____ was _____ correctly?

If _____ meters accurately _____ consumption, _____ you _____ me?

Are the meters _____ us _____ our electricity _____?

Is _____ meter installed that _____ usage?
_____ the _____ reading _____?

Do the current _____ meters _____?

Is _____ to confirm the _____ of _____ consumption _____ the _____ meters?

Are the _____ readings a _____ of _____ much _____ we _____?

Was it _____ make _____ metered electricity _____ was accurate?

Is our electricity consumption _____ the _____?

You _____ double-check the _____ to make _____ are _____ the _____ of electricity.

Is the _____ reliable _____ usage?
_____ are the _____ measure our _____ usage?

Please _____ that the _____ on _____ meters _____ our _____ consumption

If _____ meters _____ power consumption.

Do _____ have a way to verify _____ are _____?

Is _____ usage readings with the meters?

Do _____ know _____ the electricity consumption is being _____?

Does the _____ installed give _____ precise measurement _____ maintain _____ recording _____?

I _____ to _____ electricity meter _____ records our _____.

Can you tell _____ the _____ consumption is _____?
_____ electric meters _____ power _____ accurately?

Does the _____ accurately record _____?

Do you _____ the _____ are _____ actual energy usage?

Is _____ us to _____ the electricity consumption _____ our _____?
_____ installed meters _____ power _____ correctly?
_____ the electricity consumption _____ by _____?

_____ possible _____ verify the _____ and _____ consumption recorded by the _____?
_____ you _____ if _____ power _____ correct?

Is the electric _____ recorded by our _____?

_____ we request _____ of the _____ and reliability _____ data from _____?
_____ electricity _____ accurate?
_____ you know if _____ consumption correctly?
_____ possible to ensure our metered _____ accurate?
_____ it _____ to verify _____ accuracy and _____ of recorded _____ the installed _____?

Can _____ our electricity consumption recorded _____ current installed meters?
_____ need _____ the _____ of our _____ as _____ the installed meters.

Is the _____ electrical _____ power _____?

_____ tell us if _____ meter readings are _____ reliable?
_____ our electric _____ recorded _____ meters?
_____ it _____ to _____ the _____ of our electricity consumption _____ meters?
_____ the _____ for our energy _____?

Are _____ able to _____ our energy consumption?

Do _____ assurance that the power usage _____?

_____ there any assurance _____ the existing _____ track _____ electrical _____?

_____ please _____ the _____ and reliability _____ the _____ usage data?
_____ you _____ of checking the _____ of _____ electric _____ readings?

Is _____ possible for _____ accuracy of the _____ from _____ electric meters?

Verification of _____ correctness and reliability of _____ from _____ be _____.

_____ the installed meter readings a _____ how _____ we are _____?

_____ we _____ the current installed _____ keep an _____ record of electricity _____?

_____ the _____ our _____ readings on electricity consumption.

_____ you _____ me if the _____ is working _____?

_____ check _____ integrity of our metered electricity _____?

Were the built-in meters accurate _____ recording _____?

Is our consumption _____ meters?

Is it _____ of _____ recorded _____ consumption _____ the installed meters?

Can _____ current _____ measuring devices give _____ of _____ electricity usage?

_____ meter reading right?

_____ you _____ to verify _____ accuracy of _____ electricity _____?

_____ our _____ being _____ correctly?

Is the electrical _____ recording _____?

Are the installed meters _____ us _____ electricity _____?

Is _____ current metering _____ giving _____ account _____ energy _____?

_____ need _____ know the _____ measurement of electricity _____ installed meters.

Are _____ meter readings a _____ reflection _____ electricity we _____?

We would like _____ if _____ meters _____ accurate _____ of _____ power.

_____ the _____ accurately measure _____ consumption, can you _____?

Will you _____?

Is _____ a _____ to _____ the electricity _____ recorded _____ our _____ correct?

_____ the meters _____ to _____ consumption _____?

Was it possible _____ of our _____ electricity _____?

_____ the _____ of _____ recorded electricity consumption?

Can _____ us if the electricity _____ and _____?

Can you _____ of _____ consumption records?

_____ accurate _____ measuring electricity consumption?

Are _____ readings displayed _____ the _____ meters _____?

_____ possible _____ if the _____ consumption recorded _____ meters is correct?

_____ how _____ the meters are _____ our energy usage?

The _____ electricity _____ our _____ might _____ be accurate.

Will our _____ meters _____ usage?

I _____ if the _____ gives an accurate account _____ energy use.

_____ the accuracy _____ our _____ meters?

Are _____ sure of our _____?

It's a _____ idea to double _____ consumption is in line.

Do the _____ much electricity we are _____?

Are _____ electric meters _____?

We _____ be sure that our _____ consumption _____.

Can _____ the accuracy and integrity _____ the electricity consumption _____?

_____ ensure the _____ and integrity of _____ electricity usage?

We need _____ that _____ track _____ electrical _____ as intended.

Can _____ on these current _____ power measuring devices _____ electricity _____?

_____ recorded _____ consumption _____ meters accurate and reliable?

Is _____ electric _____ accurate in _____ power _____?

_____ a _____ to verify _____ of the _____ electricity consumption?

Is _____ capturing _____ usage data?

Is it _____ ensure _____ meter readings _____ electricity usage _____ accurate?

Is _____ electricity _____ measured _____ the _____ meters?
 _____ it _____ to check _____ precision _____ our _____ electricity _____?
 Do the electrical gauges _____ give _____ measurement and _____ _____?
 _____ there a _____ to make sure _____ electricity _____ _____?
 Would you please _____ our electricity _____?
 _____ don't _____ that _____ accurate power usage data.
 _____ this _____ the _____ capture accurate _____ usage data?
 Is there _____ our _____ electric meter readings are _____?
 Do you know _____ our _____ consumption is _____ correctly _____ meters?
 _____ make sure the _____ meters accurately reflect _____ electricity _____.
 We _____ to know _____ our _____ meters report _____ depiction _____ power _____.
 _____ if _____ usage recorded _____ the _____ is correct.
 Do you know _____ meter readings?
 Please make _____ that _____ consumption _____ our meters _____ accurate.
 Can _____ confirm the accuracy of _____ recorded _____?
 _____ electric _____ reading correct?
 _____ the _____ and integrity _____ our _____ consumption _____ by _____ meters?
 Can we use the current _____ to _____ record _____ our _____ usage?
 Is _____ consumption _____ displayed _____ the _____ meters _____?
 Please _____ accuracy and _____ the electricity usage data _____ the _____ meters
 _____ measure our electricity consumption _____?
 Is _____ to check _____ the _____ our energy usage?
 Is _____ that the existing _____ track _____ usage?
 Will _____ power _____ from the meters _____?
 _____ want to _____ is being measured correctly.
 _____ any assurance on _____ measurement _____ our _____ usage _____ per the _____?
 Do _____ have to _____ if our _____ readings _____ true _____ usage?
 Is the recorded _____ consumption _____ our _____?
 Will we request _____ of _____ electricity _____ these _____?
 _____ meters _____ our _____ usage correctly?
 _____ it possible _____ check the accuracy _____ consumption recorded _____ the _____?
 Can _____ tell me _____ of our _____ electricity _____?
 _____ electricity usage _____ recorded _____ the _____ meters safe?
 Can you _____ meters _____ record electricity consumption?
 _____ possible for the electricity _____ recorded _____ our _____ be _____?
 Is it possible to _____ the _____ integrity _____ our _____?
 Is our _____ consumption _____ meters?
 Are _____ installed meters _____ us accurate _____ our _____?
 _____ recorded power usage _____ the _____?
 Can you _____ if _____ record electricity use?
 I was _____ if _____ give _____ on _____ measurement _____ electricity usage.
 Can you _____ see if the _____ consumption?
 _____ electricity _____ by our current _____ accurate?
 Can _____ installed _____ be used _____ the _____ of _____ electricity consumption?
 _____ verify _____ accuracy _____ the electricity consumption recorded _____ the meters.
 _____ know _____ our installed meters _____?
 _____ confirm the _____ our current _____ meters?
 Was it _____ to _____ and _____ our _____ consumption recorded _____ the meters?
 Can _____ these current _____ power _____ to keep _____ accurate record _____ our _____ usage?
 _____ meters recording our electricity _____?

Can you confirm the accuracy _____ consumption with _____?

I _____ like _____ on _____ measurement of _____ per the _____ meters.

Is _____ way to see if our _____?

_____ can confirm if _____ usage _____.

_____ meter readings for _____ confirmed?

Were _____ able _____ ensure _____ accuracy _____ integrity of _____ metered _____?

_____ you able to vouch _____ the accuracy _____ the _____ electric _____?

Are _____ verify _____ our electric _____ readings _____ accurate _____ complete?

_____ you tell _____ usage is _____ measured correctly?

_____ you able to vouch for the _____ readings _____ meters?

Is the _____ installed _____ a true representation of _____ using?

_____ meters _____ our electrical usage _____ way _____ intended?

_____ usage data _____ correctly?

We _____ validity _____ electricity usage recorded _____ the meters.

_____ we know _____ the current meter _____ for _____ are _____?

_____ the current electrical _____ accurate _____?

_____ meter installed _____ accurately _____ our consumption?

Is it possible _____ verify _____ of _____ meter _____?

Would _____ please _____ that _____ measurement _____ our _____ usage _____ accurate?

_____ it _____ to _____ the accuracy and _____ of metered _____?

_____ possible _____ us to check _____ electricity _____ our existing _____?

_____ our electricity consumption _____?

We need _____ the _____ our recorded electricity _____ meters.

_____ our electricity _____ by the _____?

_____ it _____ to _____ our meter readings really show _____ usage?

Are _____ recorded _____ consumption _____ current meters _____?

Is _____ possible to vouch _____ and trustworthiness _____ the _____ by the current _____?

We want to know _____ report _____ accurate _____ of power _____.

If _____ accurately _____ power consumption _____ checked?

_____ meters _____ the power consumption?

_____ there _____ to _____ our _____ readings are reliable?

Is it _____ current electric _____ readings are _____ complete.

We _____ to _____ our electric _____ accurate depiction of _____ consumed.

Can you _____ the meter readings _____ power _____?

Are _____ in recording electricity use?

_____ us _____ our current _____ meter _____ are complete _____ accurate?

_____ it _____ correctness and trustworthiness of readings _____ by the electric _____?

Is the metering _____ an _____ account _____ energy _____?

Is it possible to _____ installed _____ measuring _____ accurate record of electricity _____?

_____ tell us _____ precise _____ our _____ as per the _____ meters.

Is _____ electricity _____ accurate?

_____ you know if _____ meters are reliable?

Do _____ if _____ accurately records _____?

Is _____ to _____ the _____ meters track _____ usage _____ intended?

_____ it _____ to check the _____ meters for _____?

Is it true _____ the _____ accurate power _____?

Do _____ installed meters accurately record electricity _____?

Is the _____ system _____ in its _____ of _____?

_____ able _____ check if _____ capture our _____ usage?

_____ our current _____ electricity _____ and _____?

Can you ensure the _____ our metered _____?

Can _____ tell me _____ electric _____ reliable?

Is it _____ the _____ our electrical usage?

_____ to verify the _____ of _____ recorded electricity _____?

_____ you _____ the electricity _____ is _____ correctly?

Do we have _____ to check if _____ meters _____?

Please confirm _____ accuracy of _____ electricity _____ data _____ by _____.

Is the _____ meter installed _____ accurate?

_____ to confirm _____ our electricity usage _____

_____ meter _____ true reflection of _____ much _____ we're using?

Are _____ electric meter _____ accurate _____?

Do _____ have _____ to make sure the _____ are accurate?

Is _____ for us to determine _____ consumption recorded _____ our meters _____?

Will _____ consumption accurately?

Is _____ reading _____ the _____ correct?

_____ it possible _____ the _____ of our _____ recorded _____ current installed meters?

_____ you have a _____ to _____ electric meter _____ are _____?

Is it _____ verify the _____ and integrity _____ use?

Do the existing meters _____?

_____ it possible _____ verify our recorded _____ consumption _____ current _____?

Do you _____ if _____ electricity _____ is _____?

_____ it safe _____ assume _____ the existing _____ our electrical _____?

Is _____ meter capturing _____ power _____?

Is the current installed _____ readings _____ electricity we are _____?

Is it possible _____ to _____ sure _____ recorded _____ our _____ is correct?

Do _____ have a way _____ that _____ consumption _____ legit?

Will _____ meters accurately record _____?

_____ the _____ recorded _____ the _____ be accurate?

Is our _____ usage accurate and reliable _____?

_____ current meters accurately record _____?

_____ our _____ recorded accurately _____ the _____ meters?

_____ tell me if our meters correctly _____?

Can we _____ the _____ if they _____ capturing _____ energy _____?

_____ you tell _____ meter accurately _____ our usage?

_____ need _____ our electricity meters _____ make _____ we _____ correct amount.

We need _____ of our recorded _____ usage.

_____ meter readings reflect _____ power usage can _____ check _____?

Do you _____ to _____ the _____ electricity usage _____?

Can you _____ the _____ of electricity usage _____ the _____?

Can you verify _____ and _____ the _____ recorded?

Can _____ of the accuracy _____ our _____ meter _____?

Is the _____ meter _____ energy use?

Is the _____ for _____ use?

_____ it _____ integrity and accuracy of our _____ consumption?

_____ verify _____ accuracy _____ electricity consumption.

_____ the reading _____ meter _____ true reflection _____ much _____ we consume?

Is it _____ for us to make _____ that _____ readings _____?

Is there _____ to make _____ the _____ meter _____ are _____ and _____?

Is it _____ the precision of _____ electricity _____?

_____ would _____ on the _____ of _____ electricity usage _____ per _____ meters.

Can you tell ____ if ____ my consumption?

Can ____ us ____ our ____ being correctly measured?

Please ____ that ____ the installed meters ____ correct.

Is our ____ by ____ meters?

Can ____ confirm the accuracy ____ our ____?

____ you ____ for the ____ and ____ of ____ readings taken ____ current ____ meters?

Is it possible ____ verify the ____ of ____?

Do you know if our electric ____ an ____?

____ the ____ meters record our power ____?

Is it ____ that those ____ are ____ about our ____ usage?

____ you ____ that the electricity ____ is ____ measured ____ the ____?

Does ____ read correct?

____ the ____ reading correctly?

Do ____ meters ____ information about our electricity ____?

Can you ____ the ____ of ____ consumption recorded by ____?

Would ____ please check the accuracy of the electricity ____ current ____?

Can we use the ____ meters ____ accuracy of our ____?

____ the ____ accurately ____ electricity consumption ____?

____ you double-check the ____ make sure our ____ is on ____.

We want ____ make sure ____ the electricity ____ figures ____ meters ____.

Can ____ see if ____ meters ____ electricity usage ____?

____ the current Meters ____ power ____?

Is the current ____ system ____ an ____ use ____ energy?

____ able to verify ____ and ____ our electricity usage?

____ the electric ____ an ____ depiction ____ power usage?

____ to know ____ the current ____ system ____ an accurate ____ our energy ____.

____ might be ____ to check if the ____ are ____.

Can ____ tell ____ our current meters ____ and ____?

Is ____ possible to ensure ____ current ____ reliable?

Please ____ our electricity ____ figures ____ are accurate.

____ readings reflect our ____ can you double-check that?

____ you ____ the ____ and ____ of ____ readings ____ by the ____ meters?

____ double-check ____ meter readings ____ reflect our actual power usage?

Can ____ say ____ the metering ____ accurate ____ energy use?

____ you ____ the ____ and ____ of our electricity ____ data?

____ readings ____ for energy use?

____ have ____ our meter readings really reflect power ____?

Has ____ current metering ____ provided ____ account of ____?

____ if the readings taken ____ the electric ____ are ____?

____ would ____ that the ____ electricity usage is correct.

Can ____ power usage ____ be ____?

Would ____ please ____ reliability ____ accuracy ____ our electricity ____ data?

Is ____ possible to ____ our ____ with the ____ meters?

____ tell ____ if ____ meters measure our ____ correctly?

The accuracy ____ of our electricity ____ is ____ current installed ____.

____ you know if ____ records our ____ correctly?

Am ____ sure ____ meters capture ____ power usage ____?

____ we ____ way ____ if our energy ____ is legit?

____ be verification of the ____ reliability ____ electricity data ____ these ____.

____ need ____ the integrity ____ our ____ electricity consumption.

We want ____ make ____ that ____ recorded by our ____ is ____.

Can ____ confirm that ____ electricity consumption measured ____ the ____?

____ be possible to verify the ____ the ____ consumption recorded ____?

Is ____ possible to make ____ our electric ____ are accurate ____?

Can ____ if the ____ readings on the ____ meters ____?

Can ____ integrity of our ____ electricity ____?

____ we have keepin' ____ the electricity?

____ power usage ____ meters, ____ they correct?

Is ____ to ____ the ____ of ____ electricity meter readings?

____ you confirm that ____ accurately ____ electricity consumption data?

Can ____ confirm our ____ meter ____?

____ we ____ the ____ meters capture accurate power ____?

____ it ____ that the installed meters ____ us ____ about ____ electricity ____?

____ you know ____ recorded electricity ____ accurately?

____ installed meters ____ us ____ information ____ electricity usage?

____ electricity usage ____ be ____ with ____ meters.

Do ____ we should check ____ electricity ____ with the ____?

____ to make sure ____ the ____ recorded by our ____ meters ____ correct?

____ devices recording ____ appropriately?

____ confirm if ____ power ____ accurate?

____ if the ____ meters record our electricity consumption ____?

____ able to ____ that the ____ readings ____ accurate and complete?

Is ____ possible ____ sure that ____ consumption ____ our ____ is correct?

____ the ____ displayed on our meters accurate ____?

____ the ____ meters accurately ____?

We ____ to confirm our ____ usage readings ____.

____ the current ____ a ____ reflection of how ____ consume?

____ it possible to ____ our ____ consumption with installed ____?

____ accurate ____ our ____ reading?

____ safe ____ say that the existing ____ electrical usage?

If our current ____ meters are ____ it?

____ it possible ____ the current ____ energy usage correctly?

____ our electricity ____ the meters?

____ assurance that the current ____ accurate power usage ____?

Do ____ know ____ electricity ____ by our current ____ reliable?

Can ____ confirm ____ the electricity ____ correctly?

____ the power ____ been recorded ____?

Is ____ to ____ the meter readings are ____?

____ the currently installed meter ____ of how ____ electricity ____ consuming?

Can you tell me ____ the ____.

____ you ____ us if our ____ being ____ correctly?

____ it ____ check the accuracy of our ____?

____ meters ____ us ____ information ____ our usage?

Is the installed meters ____ us ____ about ____?

The recorded power ____ the meters, ____ they ____?

____ meters capturing accurate ____ usage ____?

____ we ____ on these current ____ measuring ____ for an accurate ____ electricity ____?

____ possible for ____ for the correctness of the readings ____ the ____?

____ installed ____ record ____ electricity consumption ____?

____ the accuracy and integrity ____ the electricity ____ recorded ____ meters?

Is ____ possible ____ the electricity consumption ____ by ____ existing meters?
If ____ readings ____ our ____ usage, ____ you double check?
____ it possible ____ readings reflect our ____ power usage.
____ to know ____ the electricity consumption ____ being ____.
Am ____ recorded ____ figures ____?
____ meters giving us ____ information about ____ electricity ____?
____ it possible to ____ electricity consumption is ____?
Can you ____ me ____ accurately record our ____?
Is ____ electricity ____ recorded ____ reliably?
Is ____ to ____ consumption ____ by our meters?
Can you ____ of ____ electricity usage ____ per ____ installed meters?
____ assurance on ____ precise measurement of ____ usage as per ____.
Is the electricity ____ record ____ accurately?
____ the ____ meters accurately ____ power ____?
____ meters can ____ to ____ our electricity ____ readings.
____ the current ____ readings ____ for our ____?
Is ____ to ensure ____ integrity ____ accuracy ____ metered ____ consumption?
Please make ____ recorded by the installed ____.
Was the current metering ____ accurate ____ energy ____?
Is the current meter ____?
____ us to check the ____ recorded in ____ meters?
____ the current ____ electricity use ____?
Is ____ accurate and ____?
Is ____ readings indicative of ____ much ____ we ____?
____ make sure ____ registered figures on ____ accurately ____ our ____ consumption.
Can ____ on the ____ power ____ devices to ____ accurate record ____ our ____ usage?
Can ____ if our ____ meters ____ record electricity ____?
____ would like ____ report an ____ depiction of power consumed.
____ confirm the accuracy ____ the ____ electricity ____ with ____ meters.
____ those ____ giving ____ information ____ our electricity consumption?
Do ____ the ____ accurately track electrical usage?
____ you confirm ____ readings ____ electricity consumption?
____ way ____ verify our meter ____ for electricity?
Is ____ recorded electricity ____ with ____ meters?
Is ____ us ____ electricity consumption recorded in our ____ is correct?
Is ____ installed ____ us ____ information regarding our ____?
____ our meters ____ accurately?
Can you ____ me ____ the electricity ____ accurately ____?
Should ____ be reassured on ____ precise ____ electricity usage ____ per the ____?
____ recorded electricity consumption accurate ____?
____ you check ____ electricity consumption by ____ current ____?
____ that ____ readings actually reflect our power ____?
____ to confirm ____ meter readings?
____ you check ____ electricity consumption ____ our ____?
Is the ____ accurate at ____ electricity consumption ____?
____ it ____ ensure that the electricity ____ our meters ____ correct?
____ recorded with accuracy?
____ are interested in ____ our ____ accurate depiction of consumed ____.
Is the current ____ readings ____ of how much ____ consuming?
Is it possible ____ consumption ____?

Would ____ be possible ____ check ____ recorded electricity ____ our ____?
 Is ____ verify our electricity usage ____ the ____?
 Are ____ recording power used ____ manner?
 ____ usage recorded ____ meters ____ assurance.
 ____ it certain that ____ existing ____ our electrical ____?
 ____ do not ____ if ____ capture ____ power usage ____.
 Are ____ current electric ____ readings ____?
 I want to ____ meters accurately ____ power ____.
 Do you know ____ meters ____ trustworthy ____ usage?
 We need ____ the ____ the electricity ____ recorded.
 ____ able to vouch for the accuracy ____ by the ____?
 Is ____ usage ____ the current installed ____ reliable.
 ____ it possible ____ that ____ for electricity ____ are correct?
 You ____ if ____ usage is ____?
 Is our consumption ____ by the meters?
 Can we ____ on ____ current ____ power ____ record ____ electricity use?
 Do ____ meters give ____ about ____ electricity usage?
 ____ possible ____ that the electricity consumption recorded in our ____ is ____?
 Is ____ an accurate ____ energy use ____ by ____ metering system?
 Please ____ that ____ registered ____ on ____ meters reflect our ____.
 Do ____ know ____ reliable ____ in ____ energy usage?
 Is ____ recorded power ____?
 Can you ____ that our metered ____ is ____?
 ____ need to confirm ____ of our ____ electricity ____ with ____ meters.
 Is our ____ record ____ consumption?
 ____ current installed meters accurate in ____ consumption?
 ____ installed ____ power consumption accurately?
 ____ these ____ measuring devices be relied on ____ keep ____ of electricity ____?
 ____ verify the ____ on our meters ____ electricity ____.
 Do ____ if the ____ precisely track ____?
 Check to see ____ meters ____ record ____.
 ____ our ____ consumption ____ the meters?
 ____ if the ____ meters ____ our ____ use accurately?
 ____ the current meters ____ electricity ____ accurately, can ____?
 ____ know if our current installed ____ accurately?
 ____ meter reading ____ usage reliable?
 Do we ____ capture accurate power usage data?
 ____ think the ____ system provides an ____ of ____ energy ____?
 Could you please ____ accuracy ____ electricity consumption?
 We want ____ know ____ our ____ meters ____ an accurate ____ power ____.
 Is the ____ meter readings ____ much electricity we ____?
 Do the ____ meters ____ depiction ____ power usage?
 ____ electrical gauges ____ provide a precise ____ maintain their integrity ____ consumption?
 Will ____ current installed ____ use?
 ____ need ____ confirm ____ accuracy of our ____ consumption.
 ____ it ____ to ____ the meters are correctly ____ use?
 ____ tell ____ the consumption readings on the ____ accurate?
 ____ the ____ usage data ____ by ____ installed ____ to date?
 ____ sure ____ current meters ____ accurate power usage ____?
 ____ we depend ____ installed power ____ devices ____ record of electricity usage?

_____ way to _____ that our current _____ meter _____ are accurate?
 Could _____ that the _____ system _____ an accurate account _____ use?
 Is our electricity _____ accurate _____ reliable, _____ claimed _____?
 Was _____ recorded electricity _____ and _____?
 The _____ and _____ of _____ electricity _____ these _____ be verified.
 _____ to _____ electricity usage readings with _____ meters?
 _____ an _____ depiction of power consumed consistently?
 Is _____ use _____ correctly _____ meters?
 Do _____ me if _____ power usage _____?
 Is _____ meter _____ accurately record our _____?
 I want _____ know _____ accurately _____ electricity consumption.
 Please _____ the _____ of _____ electricity usage with the _____.
 _____ don't know _____ the current _____ for _____ electricity _____ are _____.
 Would _____ by the _____ meters be reliable?
 Is _____ accurately _____ reliably recorded?
 _____ the current electrical _____ installed _____ a _____ measurement _____ maintain _____ recording consumption?
 _____ the current _____ meter readings a _____ of _____?
 To _____ the _____ and reliability _____ our _____ would _____ please?
 _____ current _____ the accurate power _____ data?
 Are _____ consumption _____ the _____ reliable and _____?
 _____ we _____ a _____ to _____ that _____ energy usage _____ reliable?
 Are _____ the _____ accurate _____ usage data?
 Please verify that _____ figures _____ meters _____ electricity consumption.
 Is the power consumption _____ meters?
 _____ that the _____ on our meters accurately reflect _____ consumption _____.
 We would _____ on _____ of _____ electricity _____ by _____ installed meters.
 Can you tell _____ if _____ meters _____ accurate?
 _____ know _____ the meters capture the accurate _____?
 I _____ know if _____ current meters _____ our _____ accurately.
 Is _____ way _____ the accuracy of _____ meter readings?
 Can _____ confirm if _____ meters _____ electricity _____?
 _____ there _____ the existing meters _____ our _____ usage as _____?
 _____ our current electric _____?
 _____ tell us if our _____ meters _____ an _____ depiction _____ consumed _____?
 _____ that _____ meter readings _____ electricity _____ are reliable?
 _____ current _____ readings _____ how much electricity we are _____?
 _____ you _____ way to _____ sure _____ our electric meter _____ accurate and _____?
 _____ me if _____ use _____ being measured correctly?
 Are you _____ to _____ of _____ meter readings?
 _____ of meters _____ us accurate _____ about our electricity _____?
 _____ make sure _____ the _____ readings _____ correct?
 Is the _____ consumption _____ accurately _____ the installed _____?
 _____ we need _____ our _____ the current meters?
 _____ the _____ consumption _____ our meters accurate and _____?
 Is _____ possible _____ meter _____ ourenergy consumption?
 Are _____ figures _____ correctly?
 _____ somebody check our _____ digits to _____ if _____ are _____?
 Please _____ me know _____ electricity _____ is correct.
 _____ the consumption _____ our _____ meters _____?
 We _____ the accuracy of _____ electricity usage _____.

_____ current meter _____ accurately _____ energy usage?

_____ meters accurately _____ power consumption.

_____ it possible for _____ check _____ the meters _____ energy _____?

_____ current _____ correct and reliable?

_____ need _____ verify the accuracy _____ our electricity _____.

Can _____ for the _____ of the _____ meter readings?

_____ you _____ our current electric meter _____ accurate and _____?

_____ don't know _____ current meters capture accurate _____.

_____ to know _____ confirm meter readings for _____ use.

Is it _____ to _____ energy consumption is _____?

_____ to _____ reassurance _____ the measurement _____ our electricity usage?

Is _____ electricity _____ current installed meters accurate?

We _____ to know if _____ electricity consumption _____ measured _____.

_____ it _____ that our _____ actually _____ our actual _____ usage?

Are Existing _____ power _____?

Is there _____ way _____ verify that _____ consumption _____?

Were _____ consumption _____ our _____ meters accurate?

How about checking _____ the meters?

Are the built-in _____ consumption _____?

If _____ want _____ sure our consumption is _____ point, _____ to _____ meters.

Are we able _____ the _____ accuracy?

_____ you tell me _____ measure our consumption?

_____ devices recording _____ faithfully?

Can the installed _____ to verify the accuracy _____ electricity _____?

_____ our _____ consumption recorded _____ way?

_____ electricity consumption information _____ meters really accurate?

_____ to _____ our consumption is _____ point, you need _____ doublecheck _____ meters.

Have _____ built-in meters accurately record our _____?

Can our _____ verified _____ installed meters?

Is _____ power _____ record accurate _____ the _____?

_____ meters capable of capturing accurate power _____?

_____ it _____ to _____ of our _____ electricity consumption?

_____ it _____ us to check the _____ recorded _____ the _____ meters?

_____ surety _____ the _____ meters precisely _____ our _____ usage?

_____ make sure the _____ our meters _____ reflect _____ electricity _____.

I wonder _____ our _____ correct.

It's _____ to _____ meters to _____ sure our _____ is on _____.

Are _____ meters giving us _____ information _____ our _____?

_____ it _____ possible for you _____ of our _____ consumption?

Is it possible _____ the current _____ readings _____ complete?

Is the electricity _____ measured _____ by _____?

Is the current _____ system _____ use?

Is _____ electricity consumption _____ the current _____ reliable?

We _____ meter _____ for our _____ consumption.

_____ verify _____ registered _____ on our meters accurately _____ our _____.

_____ want _____ know if the _____ report _____ accurate _____ consumed _____ consistently.

_____ usage recorded by the meters _____ correct.

Do _____ know if the _____ our _____ use?

Can _____ me _____ the current meters _____ electricity _____?

Is _____ to _____ electricity usage through the _____?

If our ____ readings ____ usage, can you ____?
 ____ the ____ recorded by ____ installed ____ reliable and accurate?
 ____ you ____ if ____ meter accurately records my ____?
 ____ use ____ installed power ____ devices ____ make an ____ record ____ electricity usage?
 Is ____ electric meters ____?
 Can ____ the ____ meters capture accurate ____ usage ____?
 ____ the ____ accurately record ____ usage?
 ____ meters ____ precise information about our electricity ____?
 Is ____ possible to ____ if our meter ____ reflect ____ usage?
 Can we be ____ that ____ usage data?
 Could ____ verify ____ our ____ electricity consumption?
 ____ it ____ possible ____ verify ____ and ____ our electricity usage?
 Are ____ electricity ____ installed ____ accurately ____?
 ____ the ____ electricity consumption by ____ reliable?
 Can we depend ____ current ____ power measuring ____ keep ____ accurate ____ of our ____?
 Is ____ way to ____ sure ____ our ____ electric ____ readings are ____ complete?
 ____ it ____ to ____ sure ____ our ____ electricity consumption is ____?
 ____ meters give ____ accurate information about our ____?
 Can ____ confirm that ____ electricity ____ is ____ measured ____?
 Is the power usage accurately ____?
 Can you ____ me ____ the electricity meter ____?
 Check ____ make sure the ____ record ____.
 Are ____ giving us accurate ____ about electricity ____?
 Is those meters ____ us ____ about ____ usage?
 Is ____ the current meters ____ and accurate?
 Can ____ sure the ____ consumption ____ by our ____ meters ____?
 ____ possible ____ verify ____ recorded electricity consumption ____ the installed meters?
 Can ____ determine ____ the ____ capturing our energy ____?
 ____ of ____ and reliability of our electricity data ____ these ____?
 Please confirm that our ____.
 ____ meter ____ our energy usage ____?
 Do ____ electrical ____ installed today ____ a ____ measurement ____ keep ____?
 Can ____ verify ____ consumption ____ legit?
 ____ you check ____ the ____ accurately measure ____ usage?
 Is ____ to give reassurance ____ the ____ of ____?
 ____ you ____ me ____ electricity ____ are accurate and ____?
 Is it ____ to ____ that the existing meters ____ our ____?
 Are ____ built-in meters accurate ____ our electricity ____?
 Do the ____ meters give us ____ information ____?
 ____ the accuracy ____ electricity usage data ____ recorded ____ the current ____
 Was ____ possible ____ verify ____ accuracy ____ our ____ consumption recorded ____ the ____?
 ____ that the ____ meters capture ____ power usage ____?
 We ____ to know if ____ usage ____ by ____ is ____.
 Do we know ____ the existing meters track ____?
 Is ____ possible to ____ sure ____ meter readings ____ accurate?
 We wish ____ verify the ____ electricity consumption.
 ____ know ____ the ____ track our ____ usage correctly?
 ____ readings ____ beValidate ____ electricity usage readings with the ____
 Can ____ see ____ the ____ measure electricity ____ correctly?
 Are ____ to ____ that our ____ electric ____ are accurate?

Are the _____ use _____?

_____ there a way to _____ the _____ recorded _____ use?

_____ it possible _____ the energy _____ of the _____?

_____ able _____ for _____ correctness _____ the readings _____ by the electric _____?

_____ it _____ verify _____ accuracy _____ integrity of _____ electricity consumption?

_____ do _____ that the _____ capture _____ power usage data.

Are the electric _____?

_____ me if _____ current electric meter readings are _____ complete?

_____ you able _____ for _____ trustworthiness _____ readings on the electric meters?

_____ you _____ if the recorded electricity _____ accurate?

Is there a _____ accuracy _____ electricity consumption?

Do _____ if _____ current meter _____ are _____?

_____ the recorded _____ by the meters be _____?

Is it possible _____ the _____ are _____ use?

Are _____ going to _____ precision?

Are _____ meters _____ precise information about _____ consumption?

_____ it _____ for _____ request _____ correctness and reliability of our electricity _____?

Are _____ current metering _____ able to _____ an _____ account _____?

Our _____ usage _____ these _____ so we _____ assurance.

If the current _____ accurately measure _____ can _____ check _____?

Do _____ agree that _____ accurate?

Is it _____ for you _____ the _____ of _____ by _____ electric meters.

_____ you know if _____ taken by _____ electric _____ legit?

We need _____ the _____ of our _____ usage _____.

_____ sure _____ the registered figures on _____ meters _____ our _____ use.

_____ to _____ accuracy and integrity of _____ metered _____ use?

Is _____ electricity _____ recorded correctly _____ the _____ installed _____?

_____ our consumption accurately recorded _____?

_____ please _____ electricity _____ data is accurate and reliable?

Is _____ current installed meter _____ indicative _____ much _____ are _____?

Are _____ being _____ correctly?

Is it possible _____ the _____ consumption using installed _____?

_____ the _____ reliability of _____ recorded by the meters?

_____ it possible for you to _____ of our _____?

Did _____ installed _____ power consumption?

Is _____ electricity usage _____ and _____?

_____ know how trustworthy _____ meters _____ energy usage?

_____ electrical meters _____ our power _____?

_____ you verify if _____ meters accurately _____ our electricity _____?

_____ possible to check _____ the meters capture _____?

_____ you know _____ our current _____?

Have _____ recorded _____ been correct?

_____ electrical meters correctly recording _____?

Is _____ way to check _____ meters _____ capturing our energy _____?

Is it _____ that _____ record electricity use?

_____ you _____ our electricity usage data _____ the meters?

_____ you please confirm _____ current _____ readings _____ consumption?

Is it _____ verify _____ our meter readings _____?

_____ possible _____ the _____ of our recorded electricity _____?

Do _____ electric meters report an accurate _____?

_____ meter report an _____ depiction _____ consumed power _____?

We need assurances _____ validity of _____ usage recorded _____.

_____ you _____ me _____ record consumption accurately?

Is _____ installed _____ a true _____ of _____ much _____ we use?

_____ accuracy and _____ of _____ electricity consumption be _____ the _____ meters?

_____ the _____ and integrity _____ electricity consumption assured?

_____ electricity _____ by _____ current installed meters correct?

Is _____ electricity _____ tracked _____ installed _____?

Please _____ that _____ electricity usage _____.

_____ to ensure the _____ our metered electricity _____?

_____ confirm _____ electricity _____ are reliable.

_____ you know _____ my _____ usage _____?

_____ possible for _____ check _____ make sure _____ our electricity _____ correct?

_____ the _____ figures _____ our _____ reflect our electricity consumption.

We need _____ that _____ electricity _____ meters is accurate.

_____ possible _____ check the _____ correctly _____ our energy usage?

Will _____ meters _____ record our _____?

Would _____ the accuracy _____ our electricity usage _____?

_____ possible _____ consumption of electricity through _____ meters?

Are our electric meters showing _____ depiction _____?

Is the installed _____ giving us _____ our _____?

_____ the _____ meters _____ our _____ exactly?

_____ the current _____ gauge _____ give a _____ and maintain their integrity _____?

Please let _____ the _____ recorded by the _____ correct.

_____ you have _____ way to _____ electric meter readings _____?

If the current _____ meters accurately _____ electricity _____ you _____?

Are _____ electricity consumption recorded by _____?

Are _____ electrical _____ usage accurately?

Do you _____ if _____ accurately _____ electricity use?

Does _____ meters _____ record _____ usage?

Is the _____ installed meter readings _____ accurate _____ how _____ we _____?

_____ possible to make _____ electricity _____ in _____ meters is correct?

_____ you _____ the accuracy _____ our current _____ readings.

Do you _____ our _____ reliable?

_____ electricity _____ recorded correctly.

_____ electricity usage recorded accurately by _____?

Can we _____ sure that _____ accurate _____ usage _____?

Could _____ the accuracy of _____ consumption _____ by the _____?

Do _____ accurate data?

_____ we should verify _____ usage _____ the current meters?

Is _____ current meter _____ our _____?

_____ the _____ electricity _____ accuracy and _____?

Can you _____ current _____ readings on _____?

_____ would _____ to know _____ meters _____ record our electricity _____ data.

_____ confirm _____ the meters _____ electricity consumption?

_____ you _____ a _____ that our electric meter readings _____ and _____?

Is it possible _____ meter readings _____ electricity _____ legit?

_____ of our electricity usage is correct.

Please _____ sure _____ the figures _____ meters accurately reflect _____.

_____ check the _____ to see if _____ are _____ energy _____ correctly?

Verification of ____ correctness ____ reliability ____ our ____ data ____ should be ____.

Is our ____ meter ____?

How reliable ____ the ____ readings for ____ usage?

You confirm ____ use ____ accurate.

Is ____ possible that ____ electricity ____ record ____ consumption?

Please ____ of our electricity ____ data as recorded by ____ installed ____

____ electricity consumption ____ reliable?

____ installed electrical gauge provide ____ precise measurement ____ maintain their ____?

____ electrical gauge installed today provide ____ maintain ____ integrity?

____ the ____ for measuring ____ usage?

Will our ____ recorded ____ by the ____?

____ are looking for reassurance ____ the measurement ____.

Do ____ know ____ the meters track ____ intended?

Do you ____ the means ____ electric meter ____?

Is the electricity ____ the current installed ____.

Is it possible ____ our ____ readings ____ the ____?

Can ____ of ____ meter readings on ____ consumption?

Can ____ tell ____ the ____ meters ____ record ____ consumption?

Is it ____ to verify ____ readings are ____?

____ the ____ meters ____ our ____ consumption?

____ our ____ accurate and reliable ____ the meters?

Is ____ electricity usage ____ by the ____ and ____?

____ the ____ meters ____ depiction of power consumption?

____ know if our electric ____ an accurate ____ power consumed ____?

Please ____ of ____ current meter readings for ____.

____ the current installed ____ electricity ____?

____ are the ____ readings ____ energy ____?

We would like to ____ accuracy of ____.

Are ____ meters accurate in ____?

Can ____ our metered ____ is accurate?

____ it ____ to check the ____ recorded by ____ existing ____?

Is there a way ____ verify ____ the ____ meter ____?

Is it ____ to make ____ electricity consumption ____ our ____ correct?

If the ____ our true power ____ you ____ them?

____ us ____ our electricity ____ is ____.

____ inquire ____ the correctness ____ of ____ electricity data?

Can you confirm if ____ record ____?

____ registered figures on our present ____ reflect ____ electricity usage.

____ tell us if our ____ meters are ____?

Is ____ current meter readings ____?

____ the ____ electrical ____ our ____ usage accurately?

____ tell ____ precise measurement ____ electricity ____ as ____ the installed meters?

Please ____ the ____ figures on ____ meters accurately ____ electricity ____.

Is it ____ to ____ sure that ____ electricity usage ____ correct?

Can ____ confirm ____ accuracy ____ our recorded consumption with ____?

Is ____ a ____ our meter ____ for electricity ____ accurate?

____ our ____ in ____ reliable fashion?

____ verify that ____ figures on ____ meters ____ reflect ____ electricity use.

Can you ____ assure us that ____ our ____ usage ____?

Can ____ tell me ____ on our meters ____?

Is _____ to confirm _____ of our electricity _____ installed meters?

Is _____ consumption reading _____ existing _____ reliable?

Is _____ installed meter _____ any _____ how _____ we are consuming?

_____ it _____ to check if _____ are _____ our _____ correctly?

_____ it _____ to ensure _____ the _____ recorded by _____ existing _____ is _____?

_____ assurance about _____ validity _____ electricity usage _____ by the _____.

The _____ and _____ our electricity usage data is _____ current _____.

Can you vouch _____ the correctness _____ taken _____ electric _____?

We don't _____ current meters _____ accurate _____ usage data.

Can _____ rely _____ the _____ installed _____ measuring _____ to keep _____ of _____ usage?

_____ confirm that _____ registered figures _____ our _____ represent our _____.

_____ tell me if the _____ readings on _____ accurate?

_____ possible for us to make _____ consumption _____ in _____ meters is _____?

Is _____ a way to make _____ current electric meter readings _____?

Is our electric _____ the _____?

_____ the electricity _____ recorded _____ meters _____?

_____ possible _____ us to _____ sure the _____ meter _____ are _____?

How _____ the meter readings _____ usage?

_____ it assured _____ the _____ meters _____ track _____ usage?

Is it possible _____ ensure _____ the _____ recorded by _____?

_____ the current metering systems _____ an accurate account _____?

_____ you _____ me _____ current meter _____ are _____ and reliable?

_____ the _____ meters _____ our _____ accurately?

Do you have _____ to verify _____ accuracy _____ our _____ readings?

Can you determine _____ the _____ measure _____?

_____ the _____ capture accurate power usage data?

_____ please verify _____ accuracy of _____ recorded _____ consumption?

_____ our _____ accurate _____ reliable?

How about we _____ verification _____ the _____ of _____ data?

_____ reliable is _____ by the installed meters?

_____ the consumption readings on _____ existing _____?

Is the recorded _____?

_____ the _____ gauge installed _____ a precise _____ and _____ integrity?

Is _____ accurate?

_____ existing meters precisely track our usage?

_____ wonder if the recorded _____ consumption _____ our current _____?

Are our current installed _____ capable _____ accurately _____?

Do we know if _____ are _____ usage?

Does the _____ precisely track _____?

_____ current electrical _____ recording _____ usage _____?

Is the current metering _____ to give _____ of _____ use?

_____ the electrical _____ provide a precise measurement _____ integrity?

Does the existing meters _____ in _____ manner?

Is _____ to _____ accuracy _____ recorded electricity _____ with the current _____?

Is _____ consumption _____ accurately?

Is _____ possible _____ to _____ consumption of electricity _____ our _____ meters?

_____ you know _____ installed meters _____ record consumption?

_____ the currently installed _____ accurately _____ our power _____?

_____ the _____ us precise _____ our electricity use?

Could _____ record power _____?

Is our _____ correctly by the _____?
_____ you _____ the _____ meter will accurately _____ consumption?
_____ like to know if our electric _____ an _____ depiction _____.
_____ current meters capable _____ capturing _____ power _____ data.
_____ the power _____ accurately _____ the _____?
Are the _____ reliable?
_____ like _____ verify _____ and reliability _____ data from these meters.
We _____ to _____ precision _____ our electricity _____ with _____ meters.
Is it possible _____ installed _____ giving _____ information about our _____?
Is _____ for you to _____ accuracy _____ readings _____ the electric meters?
_____ recording power usage?
Can _____ if the _____ measure _____ consumption?
_____ know if _____ built-in meters accurately _____ our _____?
Verification _____ the _____ and _____ of _____ electricity data _____ these _____ requested.
Is _____ accurate in recording _____?
Are _____ meters _____ record _____ electricity _____?
Did _____ meter _____ make sure the electricity _____ is _____?
We _____ to know if _____ track _____ usage as _____.
Is it _____ our _____ through installed _____?
_____ we rely on _____ measuring _____ keep a record of electricity _____?
_____ you _____ to see if the _____ meters _____?
May we request _____ of _____ correctness _____ our _____ data?
_____ it _____ make sure the accuracy _____ integrity _____ electricity consumption?
Is _____ accurate and _____ according to _____?
Do _____ a way _____ make sure _____ electric _____ are _____?
_____ the current electrical meter _____?
Is the _____ reliable and _____?
_____ if our _____ use is _____ measured correctly?
_____ confirm _____ accuracy of our _____ recorded by the current _____.
Can _____ the current meters to _____ they _____ our _____?
Is the _____ of _____ giving us _____ electricity usage?
Do _____ meters read _____?
_____ you know _____ the electricity usage _____ by _____ meters _____?
_____ me reassurance _____ measurement _____ our _____ usage is correct?
We want _____ electricity usage recorded by _____ meters _____.
_____ to _____ if _____ meters show an _____ depiction of _____ power _____.
Can _____ confirm that _____ meter readings _____ reliable?
_____ electricity _____ recorded by the _____ is correct.
_____ electricity consumption measured _____ the installed meters _____?
_____ the _____ readings correct and trustworthy for _____?
Is it _____ to _____ the _____ consumption _____ in the _____ correct?
Can _____ tell _____ if our _____ installed _____ consumption?
Is it _____ verify _____ integrity of _____ recorded _____ through the _____?
_____ the _____ recorded correctly?
_____ could make _____ the metered _____ was _____.
Can you _____ confirm _____ meter readings?
_____ meter _____ accurately _____ our consumption?
_____ you let us know if _____ consumption _____ correctly?
_____ it be _____ the accuracy and reliability _____ our electricity _____?
We should _____ the current meters _____ data.

_____ you _____ for _____ and trustworthiness of the readings _____ meters?
 I want _____ know _____ installed _____ meters are _____.
 _____ possible to verify the _____ our electricity consumption with _____?
 Will _____ current meter readings _____?
 _____ the _____ a _____ reflection of how _____ we consume?
 _____ want to _____ your _____ meters report _____ accurate depiction _____ consumed.
 Please confirm _____ accuracy and reliability _____ the _____ by _____ installed meters?
 Do _____ those _____ are in _____ energy usage?
 Can _____ the current installed _____ measuring _____ to _____ an accurate _____ of _____?
 Can _____ that _____ meters _____ reliable and accurate?
 _____ you _____ if my _____ usage _____?
 _____ electrical _____ recording power use?
 _____ the _____ accurate _____ reliable as claimed by _____ meters?
 Did _____ verify _____ or not the _____ meters _____ record _____ electricity _____?
 _____ you confirm _____ power usage _____?
 _____ able _____ assure _____ integrity of _____ metered _____ consumption?
 _____ the _____ our electricity consumption?
 Is the electricity _____ record _____ consumption _____?
 Do _____ current _____ readings _____ we are using?
 _____ is _____ for assurance _____ of the electricity _____ recorded.
 We _____ assurances about _____ of _____ usage recorded _____ meters.
 _____ it _____ for _____ electricity _____ recorded by _____ meters _____ be correct?
 Can _____ please _____ me if _____ electricity consumption is _____?
 Is it _____ make _____ consumption _____ by our meters _____ correct.
 Is the _____ capturing _____ power _____?
 _____ you _____ our energy _____ readings?
 _____ you _____ the _____ of our electricity _____ the _____?
 Can _____ depend _____ power _____ devices _____ ensure an accurate record of our _____?
 _____ you know _____ built-in _____ record electricity use?
 _____ the electric _____ accurate in _____?
 Are _____ in recording power _____?
 Are _____ electricity _____ readings _____?
 _____ to confirm the _____ and reliability _____ usage data?
 Is the _____ installed meters?
 Is it true _____ the existing _____ track _____?
 Do you _____ how trustworthy _____ meters are _____ measuring _____?
 Are _____ able to verify _____ current _____ electricity usage?
 Can _____ please _____ the _____ of _____ recorded electricity _____?
 _____ it possible to _____ our meter readings _____ reflect _____?
 Is it _____ check _____ of our _____ the meters?
 Is _____ in providing an account _____ energy _____?
 _____ the _____ electricity consumption _____ accurate?
 _____ the _____ indicative of _____ much electricity _____ consume?
 Do _____ know whether the _____ power _____ data?
 _____ to _____ sure the accuracy _____ of _____ electricity consumption?
 Can you _____ with the current _____?
 _____ possible for _____ electricity _____ recorded in _____ to _____ correct?
 _____ you _____ how reliable _____ are _____ measuring _____ use?
 _____ want to _____ usage with the meters?
 Is there anything you can _____ sure our _____ are accurate _____?

Are you _____ vouch for _____ of the electric _____?

_____ you know if the _____ readings displayed _____ our _____?

_____ our _____ accurately _____ electricity consumption?

Do _____ sure our current _____ meter readings are _____?

_____ on the current installed _____ measuring devices _____ our _____ usage?

Are _____ installed electricity _____ accurate _____?

Will _____ current _____ accurate _____ data?

We need _____ of the _____ usage recorded.

Are the _____ existing meters _____ and reliable?

Is the _____ meters _____ accurate _____ about _____ usage?

_____ consumption _____ on our _____ reliable and _____?

Do we need _____ double-check if _____ our true _____?

Is it possible _____ the _____ electricity _____ the installed meters?

_____ possible for _____ electricity consumption recorded _____ our _____ correct?

We _____ that the _____ our electricity _____ accurate.

_____ true _____ the _____ us precise information _____ electricity usage?

_____ we know if _____ current _____ the correct _____?

_____ verify that _____ is _____ in the registered _____ on _____ meters.

Does _____ meter read _____?

_____ the _____ of our _____ consumption with _____ meters.

Do you have _____ for the _____ of the readings _____ meters?

Make _____ you _____ the _____ meters _____ make _____ our consumption is _____.

_____ know _____ the existing meters _____ our _____ usage _____ intended?

Does _____ electric _____ accurate _____ of power usage?

_____ readings _____ electric meters reliable?

Have you verified _____ built-in meters _____ record _____?

Are you _____ vouching for _____ taken _____ the electric _____?

Is there a way to confirm _____ current _____?

Is it _____ to _____ the recorded electricity _____?

Is _____ see _____ consumption recorded by our _____ is correct?

Do _____ know if _____ consumption readings _____ meters _____ reliable?

_____ electricity consumption recorded by _____ current _____ accurate?

_____ you _____ accuracy of the readings taken _____ current electric meters?

_____ possible for _____ make sure _____ the electricity _____ by _____ existing meters is _____?

_____ check _____ electricity consumption?

_____ you confirm _____ electricity _____ consumption?

_____ the _____ in _____ electricity consumption?

_____ willing to _____ the accuracy of _____ electricity _____ by _____ meters?

Is _____ possible _____ verify _____ accuracy _____ usage _____ the installed meters?

_____ current meters _____ power _____ data

_____ should request _____ the correctness _____ of electricity data _____ meters.

_____ we have a _____ verify _____ our energy _____ is _____?

_____ to verify the _____ our recorded electricity consumption?

Do you have _____ for the accuracy of _____ meters _____?

_____ the reliability _____ data recorded _____ the meters?

_____ trustworthy the _____ are in _____?

_____ electrical _____ a precise measurement _____ maintain their integrity?

_____ the precision _____ our recorded electricity use.

Do we know if the _____ track _____?

Do _____ energy consumption _____ reliable?

You ____ if ____ usage is ____?

Is there ____ to ____ if our ____ readings ____?

____ it possible to ____ integrity of ____ electricity ____?

Will ____ the ____ and reliability ____ usage data?

____ you verify ____ accuracy of ____ electricity ____ by our ____?

____ usage recorded ____ the meters is correct.

____ check ____ current meters ____ make ____ they're accurate?

____ you ____ if ____ is reflected in ____ meter readings?

____ you ____ our meters ____ record usage?

Do ____ measure electricity ____?

Do ____ current ____ accurate ____?

We need ____ know ____ the ____ readings for ____ electricity ____ correct.

____ our ____ energy ____ and reliable?

____ way to make ____ our ____ meter ____ are accurate?

Can ____ that the ____ system provides an ____ account ____ energy ____?

____ it possible ____ if the meters ____ correct ____ usage?

Can these current ____ measuring ____ on to record ____?

____ to ____ precise ____ of our electricity usage ____ per ____ meters.

____ you ____ the current installed ____ record consumption?

____ our ____ like the ____ claim?

____ our ____ consumption ____ measured ____ by the ____?
