

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Brake squealing and grinding noises
Inquiry Sub-Category	Rotor Inspection and Resurfacing
Description	Customers seek information regarding the condition of rotors, potential causes for noise, and the necessity of resurfacing or replacing them for improved braking performance.
Data Size	5,033 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

____ getting ____ pads ____ brake ____ without addressing rotor condition?
 Can a simple ____ of ____ fix the ____ without having to ____ the rotors?
 ____ pads tackle ____ a rotors ____?
 Can sole ____ solve ____?
 ____ considering ____ condition ____ the ____ noises ____ with ____ brakes could be ____ new pads were ____.
 ____ adequate ____ repair the ____ brakes without the need for ____ rotors?
 Fresh ____ solve noisy ____ not ____?
 I don't ____ replacing my ____ will reduce ____ to ____ issues ____ rotor.
 ____ I ____ will ____ be ____ having to fix ____ with the rotor?
 Is it possible ____ issue of ____ the ____ without looking at ____?
 Can replacing the ____ resolve ____?
 ____ pads may ____ in quieting ____ brakes, ____ considering ____.
 ____ the brake noise ____ solved ____ new pads ____?
 Is ____ possible for ____ fix ____ brakes ____ the rotors?
 Does ____ replacement ____ pads fix a problem with sound and ____ the ____ the ____?
 ____ new pads ____ used, the ____ with the ____ solved, but ____ the rotors ____ not.
 ____ installing ____ pads ____ noisy ____?
 New ____ fix the problem ____ the ____ of the ____.
 ____ addressed simultaneously, are new ____ enough to solve ____ noise ____?
