

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Network equipment recommendations and compatibility
Inquiry Sub-Category	VPN compatibility
Description	Customers looking to use a virtual private network (VPN) with their internet service providers may seek recommendations for routers or modems with built-in VPN support or guidelines on configuring their existing hardware for VPN compatibility.
Data Size	5,001 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

____ we already have our preferred ____ software ____ on ____ still need additional ____ procedures?
 Do ____ really need more setup hassle ____ that ____ beloved ____ systems?
 ____ preferred ____ further setup ____ necessary?
 ____ still need to ____ configuration steps ____ desiredVPN software ____ multiple OS?
 When our preferredVPN ____ is ____ a ____ be an ____ setup?
 Do ____ really need ____ setup hassle ____ that ____ installed ____ our systems?
 ____ any needed setup measures for ____ existing installations ____ software?
 If our favorite ____ is installed ____ different ____ systems, ____ need ____ go through additional ____?
 ____ thevpn ____ up by multiple OSes should ____ configuration processes ____?
 Should ____ be ____ when our ____ software is ____ a ____ OS?
 When ____ preferredVPN ____ on different platforms, ____ extra setup ____?
 ____ VPN ____ have to be changed ____ already installed on ____ operating ____?
 It's ____ previous installation of favoredVPN ____ for ____ configurations ____ different operating ____.
 ____ favorite VPNs have to ____ setup ____ it's ____ on other operating ____?
 ____ there ____ need ____ more setup hassle ____ that our ____ is installed ____?
 When ____ preferredVPN is ____ different platforms ____ necessary?
 Should ____ be ____ when our preferredVPN ____ is ____ different ____?
 Is ____ any need ____ setup ____ we deploy our ____ different ____ platforms?
 If ____ software is ____ OS, should ____ install more ____ up?
 Do the additionalconfigurations still need ____ be ____ after we established ____?
 If ____ VPNs ____ installed ____ additional procedures be necessary?
 ____ preferredVPN ____ used ____ different OS, should there be ____.
 ____ preferred VPN ____ different OSes, more required or ____?
 ____ preferredVPN software is ____ for a ____ there be more ____ it?
 If our ____ software ____ for a ____ OS, should ____ more setup ____?
 ____ the configuration ____ after we have ____ software ____ up outside ____ a single ____?
 Do ____ need to ____ more if ____ already ____ preferred VPNs ____?
 ____ our preferredVPN software ____ used for different ____ setup?

____ our ____ software ____ already ____ different OS, ____ need more setup?
 ____ we install additional setup ____ deployed on ____ platforms?
 Do ____ it ____ necessary to ____ to use ____ software on different ____?
 When our preferredVPN ____ for ____ should ____ additional setup?
 When ____ preferredVPN software ____ a different OS, ____ additional ____?
 ____ setup our favorite VPNs differently ____ a few other operating ____?
 If our preferredVPN software ____ different OS, should ____ one setup?
 Do ____ supplementary installation ____ if ____ desired ____ is functioning ____ different platforms?
 ____ preferredvpn, ____ further setup needed?
 Do our ____ VPNs have ____ differently ____ already installed ____ some operating systems?
 When ____ preferredVPN ____ for a different OS, ____ we ____ set-up?
 Do we ____ to ____ more procedures ____ installing ____?
 ____ software is ____ for different OS, ____ we setup more than ____.
 Should ____ be further ____ required if preferred ____ on ____ platform?
 Should there be ____ setup ____ preferredVPN ____ deployed for different ____?
 Do ____ need ____ have more procedures ____ installing ____?
 ____ have ____ vpn ____ set up across multiple OSes, should the ____?
 Will we need ____ set ____ more if ____ installed?
 ____ it necessary to install additional ____ when ____ software ____ deployed ____ a ____?
 ____ it necessary for the configuration ____ after ____ multiple ____ software?
 If ____ using ____ VPN, ____ further setup is ____?
 When ____ VPNs ____ multiple platforms, ____ be ____ procedures required?
 ____ it ____ processes even after we have ____ software ____ up ____ multiple OSes?
 Can ____ we ____ sweat over any extra ____ because we ____ favorite ____ software on ____ OS?
 ____ we ____ to install additional setup when ____ preferredVPN ____ installed ____?
 Is ____ for the ____ processes to ____ done even after ____ vpn software ____ set up ____?
 ____ setup ____ our ____ deployed for different OS?
 Should ____ any additional ____ measures ____ my ____ software working on different operating systems?
 ____ take any ____ setup measures ____ have ____ software ____ on different operating systems?
 When our preferredVPN software ____ on different ____ install more ____?
 Is it ____ install ____ when ____ software is deployed ____ platforms?
 More ____ not, with the ____ installed ____ various OSes.
 ____ it necessary for ____ to setup our ____ for ____?
 Is the ____ needed ____ have ____ set ____ across multiple OSes?
 ____ preferred VPN already ____ across ____ is ____ more required?
 ____ we ____ up more ____ our preferred VPNs ____ set ____?
 ____ I take ____ setup ____ if ____ already ____ my preferred PureVPN software working ____ operating ____?
 ____ our preferredVPN ____ is deployed for ____ systems, should ____ additional ____?
 ____ our ____ is deployed ____ a different ____ system, ____ be needed?
 Is ____ any ____ procedures ____ preferred VPNs ____ installed ____ platforms?
 ____ you use preferred ____ more ____ required?
 ____ we really ____ more ____ our beloved VPN ____?
 Should ____ for our preferredVPN ____ required ____ it ____ deployed ____ OS?
 Is ____ more config ____ our ____ set up across ____?
 If you ____ using ____ further setup is ____?
 Do ____ really ____ more setup hassle ____ have ____ beloved ____ installed?
 ____ we ____ to setup our preferredVPN software ____ it ____ OS?
 If our favorite ____ is ____ other ____ systems, does it ____ be setup differently?
 ____ it ____ install additional ____ when our ____ deployed on different ____?
 Do we really ____ because ____ PureVPN ____ installed on all systems?

If preferred _____ installed on _____ will _____ be _____ further _____?
 Do our favorite _____ software _____ be setup _____ if _____ in a _____ systems?
 Do we _____ to _____ further _____ if the desired _____ available across multiple _____?
 Do _____ have to _____ setup _____ if it's _____ in _____ operating systems?
 Is additional procedures required if _____ VPNs _____?
 Is there _____ needed after _____?
 When _____ deployed for _____ should an additional setup _____ required?
 _____ the VPN _____ already _____ is it necessary _____ setup?
 _____ got our VPN _____ any more _____ setup needed?
 _____ additional setup necessary _____ use _____ on different platforms?
 _____ our _____ software is _____ OS, should _____ add more setup?
 Is _____ setup necessary _____ preferredVPN _____ is deployed for _____?
 Can _____ required if preferred _____ are _____ on multiple _____?
 Should _____ be _____ setup when _____ preferredVPN software _____ deployed _____ OS?
 _____ still necessary to have the _____ up across _____?
 When _____ preferredvpn software _____ deployed _____ a _____ we _____ more?
 Do we really _____ hassle _____ we _____ VPN _____ all systems?
 Is _____ need for _____ setup _____ the _____ existingVPN software?
 _____ more _____ be _____ if _____ VPNs _____ installed on more _____ platform?
 _____ our preferredVPN _____ is deployed _____ is _____ setup necessary?
 Should we _____ more of _____ preferredVPN software when _____ for _____?
 When our preferredvpn software is used _____ OS, _____ set _____?
 _____ favorite _____ installed on _____ operating systems, _____ need to _____ through additional setup steps?
 Is _____ more _____ installing favored _____?
 _____ install additional setup _____ have our _____ software deployed on _____?
 Is _____ any remaining setup _____ after _____ VPN _____ has _____ all _____ devices?
 _____ there any _____ further setup _____ installing our favorite _____ on _____ operating _____?
 When _____ deployed on different _____ would it be necessary _____ setup?
 We already have the _____ installed _____ we _____ do _____ need to setup PureVPN?
 When _____ deployed for another OS, should _____ more _____ we already are?
 _____ preferred VPN need additional _____?
 When our preferredVPN software _____ deployed for _____ some more _____?
 When _____ software is _____ for _____ should _____ setup _____ required?
 When our _____ software _____ deployed for _____ operating _____ we set _____ than _____?
 _____ there any _____ for further setup _____ our favorite _____ across _____?
 Are _____ needed surplus _____ the _____ of our preferredVPN software?
 If the desired VPN _____ in _____ on _____ we _____ more _____ set it up.
 _____ our _____ software _____ used for different operating systems, _____ additional _____?
 Do _____ favorite _____ software _____ be _____ up differently _____ installed _____ other operating systems?
 It is _____ that _____ installation _____ the _____ added configurations _____ various operating systems.
 When our _____ is deployed for a different OS, _____ than _____ do?
 _____ need to setup _____ VPNs _____ it is _____ on other _____ systems?
 Do _____ additionalconfigurations still need to _____ after _____ our _____ combo?
 _____ to install _____ setup _____ our _____ software to be deployed _____ platforms?
 _____ there be _____ setup for _____ preferredVPN when it's _____?
 _____ we setting _____ setup _____ our preferredVPN _____ is deployed _____ OS?
 Should _____ processes be required _____ we _____ vpn _____ set up _____ multiple _____?
 Will _____ needed if _____ are installed on _____ platforms?
 Should _____ up _____ setup _____ our _____ deployed for another OS?
 _____ VPN software need _____ be _____ up _____ it's already installed in _____ systems?

If _____ already _____ our preferred _____ on _____ operating _____ need _____ do anything more?
_____ it's _____ in _____ few different operating _____ to be setup differently?

If _____ software is deployed _____ OS, _____ setting it _____ more?

When _____ software is _____ different _____ we setting _____ up more?

When our _____ is _____ on different _____ are _____ install _____ to accomplish this?
_____ still need added setup _____ preferred _____?

When _____ preferredVPN _____ is _____ for _____ OS, _____ set up _____ than _____ already have?
_____ preferredVPN software is used _____ a different _____ setting _____ more than we _____ are?

Should we _____ up _____ setup _____ preferredVPN software _____ used _____ OS?

When our preferredVPN _____ deployed _____ different _____ we be setting _____ we already _____?
_____ need _____ set up _____ if we stuck with our PureVPN _____ PureVPN PureVPN _____ PureVPN _____ PureVPN _____
PureVPN PureVPN _____

If _____ have our PureVPN software _____ systems, do _____ need to _____ setup procedures?
_____ set up more _____ for _____ when _____ deployed for different _____?

Is it _____ to have more setup _____ now _____ our _____ all systems?
_____ it _____ to _____ additional setup when _____ is deployed _____ platforms?

When _____ software _____ for _____ operating systems _____ more set up?

Could _____ relieve the requirement for _____ configurations _____ operating systems?

Do we _____ need _____ add _____ configuration _____ have _____ VPN _____ set _____ across multiple OSes?
_____ the configuration _____ required even if we _____ multiple _____ software?

Should there _____ needed _____ you use preferred _____?
_____ necessary to _____ thevpn software set up _____ multiple _____?

If our favorite _____ is _____ installed _____ different _____ systems, do we _____ to _____ setup _____?

When our _____ software is _____ different _____ we _____ setting _____ than one setup _____ that?
_____ be required when _____ is deployed for other _____?

Does it _____ setup after installing _____ VPNs?
_____ preferredVPN _____ is deployed for different OS, _____ setting _____ more than _____ already are?
_____ it _____ to _____ thevpn _____ up over _____ OSes?
_____ preferredVPN software is deployed on _____ platforms _____ setup _____?

Is it necessary to set _____ our _____ already _____?

Do _____ really _____ more setup _____ now _____ we _____ beloved _____ all the _____?

Is _____ necessary _____ the configuration processes to _____ after _____ software is set _____?

When a _____ software _____ deployed _____ different _____ there be _____?
_____ need _____ steps _____ installing the favored _____?

Do _____ need _____ setup _____ now _____ our PureVPN installed on _____ systems?
_____ necessary to set thevpn _____ multiple OSes?
_____ preferred PureVPN software is running smoothly _____ various _____ is _____?

Do we _____ to setup _____ favoriteVPN differently if it's _____?

Is _____ to _____ setup _____ use _____ with our preferredVPN software?
_____ our favorite _____ to be _____ up _____ if it's _____ other systems?
_____ for the _____ processes to _____ done after _____ is _____ up across different operating _____?

When _____ preferredVPN software is _____ on _____ platforms, _____ install _____ setup?

When our preferredVPN software _____ for _____ install _____ set up?
_____ to _____ additional setup when our _____ software _____ deployed _____ different platform?
_____ VPNs are _____ on multiple platforms, will _____ additional _____?
_____ the additionalconfigurations _____ need _____ done _____ establishing our favored _____ client/systems combo _____?
_____ process necessary even after _____ software set _____ across multiple OSes?

Is it _____ install additional setup _____ our preferredVPN _____ on _____ platforms?

Will _____ be _____ VPNs are installed _____ more than one _____?
_____ software is _____ by multiple OSes, _____ the _____ processes be _____?
_____ software is deployed for a different operating _____ setup _____?

____ our ____ different platforms ____ it necessary to ____ additional setup?
 ____ the VPN ____ is it necessary to ____ more ____?
 With ____ already installed ____ various setups, ____ required ____ not?
 ____ a need for ____ setup tasks ____ we ____ installed our ____ VPNs ____?
 If ____ preferredVPN, ____ further ____ needed?
 ____ be additional setup ____ preferredVPN ____ deployed for different ____ systems?
 Do we ____ to ____ up our favorite ____ already ____ on ____ operating ____?
 ____ our ____ is ____ for ____ different ____ should there be more ____?
 Do ____ still need ____ be done ____ favored ____ client/systems combination?
 Is there any ____ setup ____ preferred ____?
 If our ____ is ____ operating ____ should there be ____ setup?
 Is ____ install ____ if the ____ software ____ deployed on ____ platforms?
 ____ setup ____ VPNs ____ software is already on ____ devices?
 ____ deployed ____ a different OS, ____ we set ____ more setup?
 ____ any ____ for ____ we deploy our ____ program across different ____ platforms?
 If ____ is ____ on ____ do you ____ setup for ____?
 ____ there be ____ if preferred VPNs ____ installed ____ multiple ____?
 ____ we ____ if ____ software is ____ on different platforms?
 ____ preferred ____ software is already ____ operating systems, do ____ need an ____?
 ____ up more ____ preferredVPN ____ when it's deployed ____ different operating systems?
 Is ____ still necessary ____ perform ____ steps ____ desired VPNs ____ is ____ across ____ OS?
 ____ additional setup ____ required ____ our ____ software ____ for ____ OS?
 ____ preferred VPNs are installed on ____ procedures be ____?
 ____ we have ____ set up ____ favorite ____ if it's already ____ systems?
 ____ we ____ setup for our preferredVPN software ____ it's ____ for ____?
 ____ be any further setup ____ use preferred ____?
 ____ our favorite ____ software differently if it's already installed ____ a ____ operating ____?
 Is additional setup ____ when ____ software ____ different platforms?
 ____ our ____ used for ____ should ____ set up more setup?
 Is it ____ to ____ setup when ____ software ____ deployed ____ platform?
 Is ____ necessary for the ____ after ____ have ____ software?
 When our ____ used ____ OS ____ we be setting up ____?
 When ____ is ____ for a ____ OS, ____ additional setup ____ required?
 ____ favorite virtual private network ____ if it's ____ installed on some ____ systems?
 ____ our ____ software is deployed for ____ is additional ____?
 When ____ is ____ for ____ should we setup ____ for it?
 If ____ VPN is already ____ there any need ____?
 When our preferred VPN ____ different OS, should ____ setup?
 ____ you ____ we're ____ to ____ extra ____ since we have our ____ software on each OS?
 ____ it ____ up ____ preferredVPN ____ when it's deployed for ____ platforms?
 ____ our ____ deployed for ____ we set up more?
 ____ necessary ____ our ____ software ____ deployed ____ multiple platforms?
 Is the ____ after we have thevpn software ____ up ____ operating ____?
 ____ we need ____ do ____ procedures after ____ a ____?
 ____ favorite VPN software is ____ installed on other operating systems, ____ we ____ setup ____?
 ____ additional ____ after installing ____ preferred VPNs?
 ____ additional ____ follow ____ installations ____ VPNs?
 Is the ____ still ____ after ____ our ____ VPN ____ earlier?
 When ____ software is ____ different operating ____ we install ____ up?
 When ____ deployed ____ OS, should we setting up ____ than ____ already ____

Will _____ if preferred VPNs are installed on _____?

Do _____ set _____ if we _____ installed our preferred _____?

Can you _____ I am supposed _____ sweat over _____ steps _____ have our favorite PureVPN _____ each _____?

If our _____ is _____ for a different OS, _____ than _____ setup?

When _____ software is deployed for _____ should _____ up more?

Is _____ need _____ extra _____ if we _____ our PureVPN software _____ up _____ OS?

_____ our _____ VPN software have to _____ differently _____ other systems?

Is it necessary _____ us _____ install _____ setup _____ is deployed _____ platforms?

If our _____ is deployed _____ we set up _____?

Should _____ be _____ when _____ preferredVPN software _____ deployed _____ operating systems?

_____ configuration processes _____ required _____ the vpn software _____ up across different _____ systems?

_____ the VPN _____ still _____ to be setup after it's _____ operating _____?

_____ we have _____ through more _____ steps _____ our _____ VPN _____?

Do _____ have _____ through _____ setup steps _____ favorite VPNs?

_____ to setup our _____ if it's _____ installed on _____ systems?

When our _____ software _____ deployed _____ different _____ should _____ be _____ for it?

When we have _____ software _____ the operating _____ we _____ do _____ still have to _____?

_____ it _____ for _____ configuration _____ after we have _____ by multiple OSes?

When _____ preferredVPN _____ is used _____ one OS, should we _____?

If _____ VPN software is already _____ place _____ different _____ we need _____ for setting _____.

Is _____ us to _____ additional configuration _____ for _____ VPN software?

_____ software _____ set up _____ one OS, _____ the configuration processes _____?

_____ we _____ up _____ for _____ software when _____ is deployed _____ different operating _____?

_____ additional _____ required _____ preferredVPN _____ when deployed for different _____?

_____ favorite _____ software have to be _____ if it's _____ installed in a few _____?

_____ preferred VPN _____ is _____ further setup _____?

_____ VPN already installed across _____ setup, more _____ required _____?

_____ we _____ our favorite VPNs _____ if _____ installed in other _____ systems?

_____ preferredVPN _____ is _____ on _____ platforms are additional _____ needed?

_____ know if we _____ to sweat _____ extra steps _____ favorite PureVPN _____ on each OS.

_____ the _____ across all _____ systems, do you still need _____ it?

When our _____ is _____ for _____ OS, _____ we install more _____ up?

_____ the _____ up _____ of one OS, should the configuration _____ required?

When _____ have _____ up across _____ OSes, should _____ process be required?

When our _____ is deployed for a _____ system, _____ we setting _____ we _____ do?

Do _____ to _____ our favorite _____ software _____ if _____ already _____?

When _____ preferredVPN _____ used for different OS, _____ setup required?

_____ required if _____ VPNs are installed _____ multiple platforms?

_____ tell _____ to _____ extra steps when we have our favorite _____ software _____ each OS?

Is _____ really _____ have more _____ with our _____ on all systems?

When _____ for the operating _____ we _____ do we still need to set _____?

Can _____ tell _____ if _____ sweat _____ steps since we _____ our _____ software on each OS?

Should we _____ more _____ we _____ our preferred _____?

Are we required to install _____ used on _____ platforms?

If _____ favorite _____ software _____ installed on different _____ systems, _____ we need _____ through _____ setup _____?

After _____ we need more _____?

_____ you still have to setup _____ deployed _____ all operating _____?

If _____ already have our _____ VPN software installed on _____ need _____ add _____ extra _____?

_____ isDeployed for different _____ should we be _____ up _____ setup _____ it?

_____ you need _____ take after installing _____ VPNs?

____ I take any additional ____ precautions if I ____ working?
 ____ our preferredVPN ____ is deployed for other OS, ____ set ____ than one ____ ?
 Setting ____ more setup ____ a question ____ preferredVPN ____ deployed ____ different ____.
 ____ we ____ do more ____ for our favorite ____ software?
