

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Issues with car electrical system
Inquiry Sub-Category	Alternator malfunctions
Description	Customers might seek assistance with problems related to a malfunctioning alternator, such as dimming or flickering headlights, battery not charging properly, or intermittent electrical power loss.
Data Size	6,476 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ would certain _____ randomly stop working _____ though _____ connected _____ a functioning _____?

Why _____ some _____ not work _____ though _____ are _____ a _____?

_____ _____ devices stop functioning randomly even _____ to _____ battery?

How _____ some electronics _____ stop _____ to the _____?

_____ gadgets will conk _____ they are _____ to a _____ battery.

_____ that operational electronics can _____ random failures _____ connected _____ batteries?

My _____ even though _____ attached to an operational _____.

_____ causes _____ to _____ working when _____ a battery supply?

_____ some electronics _____ out even though they're _____ up for _____?

_____ is _____ point of these _____ when they have _____ battery?

_____ you _____ me _____ electrical items stop _____ even _____ they _____ a _____?

Is there _____ to a _____ battery that _____ devices to _____?

Why do some _____ out despite _____ to _____?

_____ you _____ electrical gadgets stop working despite being _____ to _____ source?

_____ certain _____ stop working when _____ are _____ with _____ functioning battery?

_____ certain electrical _____ stop working _____ connected to _____ power source?

Even when _____ accurately with _____ battery _____ technological _____ malfunction and shut down _____ apparent _____?

What's _____ with these _____ when they have _____ the _____?

Why _____ certain _____ stop working _____ they are _____ a perfectly-functioning _____?

Is there _____ certain _____ stop functioning despite _____ active _____ to _____ levels?

Why _____ electronic _____ stop _____ even _____ they have a _____?

_____ do _____ electrical _____ are _____ properly to a power source?

_____ a reason for _____ to _____ if connected to a functional battery?

_____ you _____ solve _____ issue _____ my devices suddenly failing _____ battery source?

Even _____ the devices are connected _____ a _____ will _____.

_____ electronic gadgets quit _____ a good _____ hookup?

_____ electronic devices stop _____ connected to _____ functional battery, what _____?

Is _____ a _____ certain electrical gadgets don't work _____ to _____ operational _____?

Is it possible that _____ kickass batt _____ refuse _____ work _____?
 _____ these ding _____ devices _____ when _____ power from _____ battery like they _____?
 _____ there a reason why specific _____ gadgets unexpectedly _____ when _____ to _____?
 _____ items _____ linked with _____ batteries.

Is _____ a reason why _____ electrical gadgets _____ despite _____ connected _____?
 _____ are not _____ on even _____ they _____ plugged in _____ battery.
 _____ is _____ for _____ device _____ when connected to a _____.

How _____ don't _____ despite having a _____?
 Why do _____ fade out even _____ they _____ to an _____?
 Random electronic _____ failures when _____ a _____ are _____.

There was an _____ function _____ certain devices _____ functional _____.
 _____ how _____ to a batt sometimes refuse to work _____?
 _____ technological _____ intermittently _____ and shut _____ no _____ reason when linked _____ batteries?
 _____ aren't _____ electronic _____ functioning _____ active _____ to reliable _____ levels?
 _____ it possible _____ operational electronics to _____ failures _____ are _____ with _____ batteries?

What causes _____ to _____ working if _____ with a _____?
 What causes _____ devices to _____ connected with a _____?
 Why do _____ gadgets _____ working _____ good _____ connection?
 _____ causes certain _____ to _____ functioning _____ connected to _____ battery _____?
 _____ possible _____ abruptly stop _____ even though they _____ an effective battery?

Why do _____ electronics _____ out even _____ they _____ wired-up _____ to _____?
 _____ know why _____ electronic devices stop _____ linked to a battery?
 What _____ electronics suddenly _____ working, attached _____ a _____ battery?
 _____ know why _____ shutting down but _____ attached to a _____.

_____ do _____ stupid gadgets konk _____ even when _____ are _____ battery?
 _____ electronic device failures _____ connected to _____ may _____.

If _____ electronic _____ stop working even _____ to a _____ functioning _____ is _____?
 How come _____ don't _____ when _____ to a _____?
 _____ electronic device failures when _____ to a _____ battery?

Is _____ possible _____ some electronics _____ though they _____ into a _____?
 _____ are hooked _____ a good battery, they _____ konk out.
 _____ you _____ me solve the problem _____ my _____ failing while _____ a _____?
 _____ have _____ for how _____ electrical _____ suddenly stop _____ even though they have _____?
 _____ some electronic widgets _____ functioning _____ though _____ plugged into a _____ charged battery?
 _____ it possible that operational _____ random _____ they are connected _____ working _____?

Why _____ electronics _____ despite _____ up proper to _____ active battery?
 Is _____ that certain items _____ operating when _____ batteries?
 Will certain _____ randomly malfunction _____ fully _____ battery?
 _____ it _____ certain _____ to work despite their active _____ to reliable power _____?

Can _____ explain _____ gadgets stopped _____ with _____ battery?
 Is there _____ particular reason _____ to _____ connected to a _____ battery?
 Can anyone explain _____ me how things connected _____ batt _____?
 _____ have _____ problem with _____ electronic devices suddenly failing _____ to _____ operational _____.

Can _____ electrical gadgets _____ working when _____ to a _____ source?
 _____ electronics _____ though attached _____ the functional battery.
 _____ operational _____ suffer _____ failures despite being _____ batteries?
 _____ devices _____ connected _____ a _____ but they _____ functioning.

I _____ having _____ with my devices _____ connected to an _____ battery _____.
 _____ you tell _____ why some _____ though _____ have a battery?
 _____ reason _____ gadgets suddenly _____ operating despite being _____ to an operational _____ source?

____ come ____ electronic devices abruptly ____ operations, even ____ battery ____?
 ____ possible ____ certain electronics could malfunction randomly ____ connected ____?
 ____ it ____ that some ____ suffer random failures despite ____ connected ____?
 ____ technological ____ and shut down for no ____ reason when ____ battery source?
 Why do some ____ even though ____ are ____ up proper ____ an ____?
 ____ would ____ stop working ____ they're ____ to a battery?
 ____ there ____ for certain electronic ____ to stop ____ randomly ____ to ____ battery?
 Specific ____ gadgets ____ intermittently, ____ have ____ connection to the ____.
 ____ someone explain how electronic gadgets ____ a ____?
 Why ____ electronics fade out ____ though ____ are wired up ____ an ____?
 Do some ____ just stop ____ linked ____?
 ____ do ____ fade ____ though they ____ wired up real proper ____ battery?
 Why do ____ gadgets ____ when ____ up to a good ____?
 ____ attached ____ working battery, can ____ stop working?
 I'm having my ____ while connected ____ operational battery ____.
 ____ are these ____ quitting ____ they have power ____ battery?
 ____ it ____ some ____ working even though they are plugged ____ a ____ battery?
 Why do ____ stop ____ when attached to ____?
 ____ there ____ reason for ____ electronic devices to stop ____ randomly, ____ if connected ____?
 ____ my electronic ____ working ____ connected to a ____ could be the ____?
 ____ anyone explain how things ____ to a ____ batt ____ to ____?
 ____ did ____ electronic gadgets stop ____ with ____ good ____?
 ____ it possible ____ some ____ working unexpectedly ____ attached to ____?
 ____ might be ____ the ____ halt in function ____ connected to ____?
 I ____ your help with ____ of my ____ devices suddenly failing ____ connected ____ battery ____.
 ____ electronic ____ wouldn't work even though ____ a ____ battery.
 ____ someone tell ____ how electronic ____ stopped ____ with ____ battery?
 Is ____ some ____ gizmos ____ even though they are plugged ____ a ____?
 Is it ____ electrical items stop ____ despite ____ a ____?
 ____ devices ____ stop working ____ though ____ are connected ____ battery.
 ____ there ____ certain ____ working ____ had a proper ____ to the battery?
 ____ you ____ some electronics fade ____ though ____ are ____ to an active ____?
 Why ____ electronic devices stop ____ they were connected to ____?
 ____ some technological ____ and shut down ____ apparent reason when ____ accurately with ____ source?
 The ____ devices don't ____ despite ____ connected to ____.
 ____ could be ____ some ____ working even though ____ are ____ a fully charged ____.
 How come certain ____ suddenly ____ though ____ battery?
 ____ certain ____ devices suddenly ____ are ____ into a perfectly- functioning battery?
 There is ____ the ____ of ____ devices ____ to batteries.
 Do ____ items just stop ____ are ____ with ____ batteries?
 What causes these dumb ____ they have a good ____?
 ____ there a ____ certain ____ devices stop ____ when connected ____ battery?
 ____ do some ____ devices stop working ____ have ____ functioning ____?
 I don't ____ why certain ____ on ____ battery conk out.
 ____ hard ____ how ____ connected straight ____ batt sometimes ____ work suddenly.
 ____ devices don't ____ even ____ to a battery.
 ____ do ____ electronic ____ stop ____ even ____ have a ____ battery?
 ____ linked with ____ source, ____ some technological ____ and shut ____ for no ____ reason?
 ____ electronic devices stop ____ even ____ have a ____.
 What happened to ____ when ____ a ____?

_____ they're _____ up _____ a good battery, _____ still conk out.

I _____ to _____ why _____ electronics _____ despite _____ attached to _____ battery.

_____ there a specific _____ electronic _____ to _____ functioning when connected _____ battery?

Is it possible _____ some _____ do _____ work _____ of _____ even _____ are _____ into a _____ battery?

_____ certain electronic gadgets _____ a _____ to a battery, _____.

Do _____ know why _____ stop _____ being _____ a battery cell?

_____ technological _____ malfunction and _____ no _____ reason, _____ when linked with _____ active battery _____?

_____ electronic _____ abruptly _____ running despite having _____ charged _____.

_____ causes _____ to stop working _____ to a _____ functioning _____?

Is it _____ some _____ stop _____ though they are _____ into a _____ battery?

_____ do _____ electronic _____ stop working _____ plugged into the right _____?

_____ electronic items _____ working despite _____ to reliable power levels?

Why _____ even though _____ are wired-up properly to an _____?

My _____ aren't turning on _____ they _____ plugged _____ working _____

_____ dumb _____ out _____ when they're hooked up _____ good _____.

Is _____ a reason _____ devices fail even _____ a _____?

These _____ gadgets _____ conk out even _____ they _____ a good _____.

_____ there a reason for certain _____ devices _____ to _____ a functional _____?

Although _____ a direct _____ to _____ operational battery, they malfunction _____.

_____ suddenly fail _____ connected to a _____?

_____ someone tell me _____ electronic _____ working _____ a battery?

Even when _____ to a _____ can _____ stop _____?

Is there _____ that certain _____ work _____ functioning battery?

_____ electronic gadgets stop working _____ a _____ battery _____?

Why would _____ devices stop working _____ they _____ to a _____?

_____ it possible that some _____ functioning _____ are plugged _____ a _____?

Is there a reason _____ devices don't _____ being _____ battery?

_____ an _____ with my electronic devices _____ when _____ operational battery _____.

Is it _____ that some _____ even though they _____ a good _____?

Is it _____ that my _____ will stop _____ have a fully _____?

Is it _____ some _____ items abruptly _____ in _____ of _____ a _____ battery?

Can anyone _____ how things connected _____ a _____ sometimes don't _____?

_____ make _____ for _____ electronics _____ while _____ to a battery?

Why _____ some electronic devices _____ if they are connected _____?

_____ could be the _____ of _____ devices not working _____ a _____ functional _____?

I was _____ you _____ issue of my _____ devices suddenly failing _____ connected _____ an operational _____.

Is it possible _____ fail when _____ to a _____?

_____ working _____ when _____ a fully functional battery, what _____ be the cause?

_____ reason certain electronics wouldn't function when connected _____?

_____ possible _____ operational electronics _____ random _____ being connected with batteries?

I want to _____ suddenly _____ performing, even _____ they _____ an _____ battery.

What _____ stupid gadgets _____ out _____ they _____ a good _____?

Can you help _____ solve _____ of _____ electronic devices _____ failing when connected _____ source?

_____ to stop _____ even _____ there is a _____ battery _____?

_____ why some _____ stop working despite _____ linked to a battery?

_____ it possible that operational electronics can _____ failures _____ to _____?

_____ reason why certain _____ stop working when they are _____?

_____ linked accurately with an active _____ source, _____ tools _____ for no _____ reason?

Do some items _____ linked _____ batteries?

Is there _____ reason why _____ stop operation despite _____ connected _____ an _____?

____ come ____ devices ____ working ____ being connected ____ a ____?

Why wouldn't ____ electronic ____ even though ____ to ____ functioning ____?

Why do ____ electronics ____ working despite ____ connected ____ battery ____?

____ there ____ why ____ electrical gadgets suddenly ____ operating despite ____ connected ____ operational power ____?

____ it ____ electronic objects ____ even though they are ____ into a ____?

Why do some ____ when ____ are plugged into ____ perfectly-functioning ____?

How come ____ ding ____ devices quit when they have ____ the ____?

How ____ some electronic ____ working ____ they are ____ battery?

____ do ____ devices ____ to function despite being ____ battery?

Why ____ certain ____ even ____ they're connected to ____ battery?

Is ____ some electronic ____ stop ____ even though ____ directly ____ into a ____?

____ there ____ reason for ____ functioning randomly even ____ have a functional battery?

What ____ working even if ____ linked to a ____ battery?

Why ____ gadgets malfunction intermittently, even ____ have ____ direct battery ____?

____ tools ____ and shut down for no apparent reason even ____ linked to ____?

____ could be that some ____ stop working even ____ a ____ charged battery.

Why ____ devices work ____ being ____ to a ____ battery?

Some ____ even with ____ working ____ .

____ causes ____ stupid ____ even when they're hooked up ____ a good ____?

____ tell ____ how some electrical ____ performing, ____ though ____ have a good ____?

____ me figure ____ the cause ____ my electronic ____ suddenly failing ____ a battery source?

____ has ____ an unexplained ____ in functions of ____ batteries.

Why ____ items unable to work despite ____ reliable ____ levels?

If ____ devices ____ working even ____ have ____ fully functional ____ what ____ the ____?

Is there ____ why ____ work ____ having a proper ____ connection?

Why ____ electronic ____ stop ____ even though ____ battery ____ fully ____?

____ and shut ____ for no ____ reason when linked with ____ active battery ____?

____ help ____ solve the ____ of my ____ failing while connected ____ battery source?

Why ____ fade out even ____ wired-up to an ____ battery?

____ do ____ gadgets ____ even ____ up to ____ good battery?

____ possible that ____ devices ____ working ____ they're plugged into a ____?

____ me how things connected straight to ____ batt ____ refuse ____ .

Random ____ device failures when ____ working ____

Is ____ that certain electronics ____ work when connected ____?

Do ____ malfunction ____ linked to an active battery ____ no ____?

____ it possible ____ to ____ fail ____ connected ____ a battery?

When linked correctly with ____ source, ____ malfunction and ____ down for no ____?

What ____ certain gadgets to stop ____ the ____ functional?

Is ____ some electronic ____ stop working ____ though they are plugged in to ____?

The ____ stopped ____ a good battery connection.

What causes certain ____ stop working even ____ with ____ good ____?

____ some electronic gizmos stop working when ____ plugged ____ fully-charged battery?

Do ____ tools ____ shut down ____ linked ____ with ____ active ____ source?

Do certain ____ stop working ____ linked with ____?

____ technological tools ____ and shut ____ no apparent ____ linked ____ a battery ____?

Why ____ gadgets ____ when they ____ a direct ____ a ____?

There are ____ causes ____ random ____ failures ____ to a battery.

____ electrical ____ stop performing in spite of having ____?

____ working attached to ____ functional battery?

____ of random ____ when connected to ____ battery?

____ causes certain ____ stop working, ____ of ____ attachment ____ a battery ____?
 Something may be behind ____ unexplained ____ function ____ devices connected _____.
 Why ____ certain ____ intermittently when ____ have ____ direct ____ to ____ battery?
 Do ____ having a direct connection to ____?
 Although ____ have a ____ connection to ____ electronic ____ intermittently.
 ____ why ____ working ____ being connected to a battery cell?
 ____ don't ____ keep ____ down even ____ they're attached to an ____.
 ____ electronics suddenly ____ a functional battery?
 Do you know ____ electronics stop ____ when ____ a ____ cell?
 Is there ____ reason ____ gadgets stop ____ power?
 Do ____ devices fail ____ when connected to ____?
 ____ my gadgets don't work ____ there ____ a good ____?
 I don't ____ gadgets ____ a good battery.
 What causes ____ stupid ____ to ____ when they're connected ____ good ____?
 Can ____ help me figure ____ of ____ suddenly failing while connected to ____ source?
 While ____ connected to ____ operational battery source, ____ failing.
 ____ there ____ particular reason for certain ____ devices to ____ working ____ connected ____?
 ____ possible that ____ electronic devices ____ fail ____ with ____ working ____?
 Even ____ a functioning battery, they stop ____ randomly.
 ____ do certain ____ stop ____ even ____ the ____ is ____?
 The stupid ____ conk out ____ to ____ good battery.
 Do you ____ as to why some ____ devices stop ____ linked ____ a ____?
 ____ know why some electronics ____ when ____ to ____ battery ____?
 Do you know ____ some ____ out even ____ are wired ____ an ____?
 Is it possible ____ toys stop working ____ plugged into a fully- ____?
 Does certain ____ just ____ with batteries?
 Why do certain ____ devices ____ working ____ in ____ battery?
 ____ do certain ____ stop working even ____ connected ____ a ____ cell?
 ____ causes ____ stop ____ when they are plugged into a ____?
 ____ my gadgets ____ on ____ despite having ____ battery?
 Why ____ electrical items suddenly stop ____ they have ____ effective ____?
 What causes certain devices ____ working even ____ linked ____ a ____?
 ____ you help me ____ issue ____ my electronic devices ____ when connected to ____ operational ____ source?
 My ____ fail while ____ to an operational battery ____ help me ____ the ____?
 Why aren't devices ____?
 Possible causes ____ random ____ devices when ____ to ____ battery
 ____ electronic ____ stop working ____ a battery?
 Despite a direct ____ battery, do ____ devices ____?
 ____ gadgets conk ____ even when ____ connected ____ good ____.
 Specific electronics ____ stop operating, ____ the ____ battery.
 Why ____ that ____ connection ____ a battery malfunction intermittently?
 Is it possible that operational ____ random ____ despite being ____?
 When linked ____ functional batteries ____ to function?
 ____ know why ____ electronic devices ____ working, even ____ they ____ linked ____ a ____?
 ____ you tell ____ stop ____ after being connected to an ____ power ____?
 Is there a ____ certain ____ gadgets ____ being ____ properly?
 Can anyone ____ things connected straight to ____ can sometimes ____?
 ____ causes specific ____ of attachment to ____ functional battery supply?
 What ____ to ____ functioning ____ if ____ have ____ battery supply?
 ____ need ____ to ____ out ____ electronics keep ____ down, ____ they ____ attached to a battery.

_____ has _____ halt _____ function _____ devices connected to batteries.

If _____ electronic devices _____ when connected _____ could be the cause?

What _____ be behind _____ unexplained _____ in _____ some _____ to batteries?

_____ you tell us why _____ gadgets _____ when connected _____ operational power _____?

Is it possible _____ suffer random failures _____ to working _____?

_____ the stupid gadgets _____ conk _____ even when _____ a _____ battery?

If my devices _____ even when connected _____ fully _____ could _____ the _____?

Is it _____ that _____ electronics _____ work _____ having a _____ battery?

_____ do electronics fade out _____ they are _____ an active _____?

_____ do certain _____ operating _____ connected to a _____ cell?

_____ there _____ that some _____ inexplicably stop working despite _____ linked _____ a _____?

Even _____ battery _____ working, some _____ fail.

What causes certain _____ stop _____ if they are connected _____?

Is it possible that _____ electronic gizmos stop _____ when _____ a fully _____?

Why did _____ device _____ when the _____ fine?

_____ though a fully charged _____ electronic _____ running.

_____ that some electronic _____ functioning _____ though they _____ into a battery?

What _____ devices to _____ when _____ to _____ battery?

Is _____ a reason _____ electronic _____ working _____ connected to a battery?

Is _____ a _____ for _____ devices _____ stop _____ randomly, _____ if connected to a _____ battery?

_____ with my electronic _____ while connected to _____ battery source.

Do _____ know _____ some electronic devices _____ despite being connected _____?

What could _____ the cause of _____ I have a fully _____?

_____ have been _____ issue _____ my electronic _____ failing _____ to _____ operational battery source.

Don't understand, _____ connected _____ to a batt _____ refuse to _____?

My gadgets are _____ turning _____ even _____ I _____ a _____ battery.

Is _____ possible that _____ stop functioning even though _____ a _____ battery?

_____ electronic _____ stop working _____ they _____ plugged into a _____ functioning _____?

_____ make _____ certain electronics _____ when connected to _____ fully _____ battery?

_____ causes gadgets to _____ the battery _____ functional?

There _____ an unexplained _____ in _____ of _____ devices _____ to _____.

When linked _____ an _____ source, _____ technological _____ malfunction _____ shut _____ for _____ reason?

_____ there a _____ certain _____ work even _____ they _____ to the battery?

_____ it possible for certain _____ devices _____ functioning randomly when _____ battery?

_____ there _____ reason _____ certain electronic _____ stop functioning randomly _____ connected _____ functional _____?

_____ it possible operational electronics can suffer _____ connected _____ batteries?

_____ there _____ why _____ devices unexpectedly stop working when _____?

There _____ direct connection to _____ operational battery _____ electronic _____ malfunction intermittently.

_____ you ever wondered _____ certain electronic _____ functioning despite _____ link _____ power levels?

_____ was the battery _____ electronics not _____?

_____ though the _____ are connected _____ functioning _____ they _____ stop _____.

There is _____ of _____ connected to batteries.

_____ a direct connection _____ the _____ some electronic _____ malfunction _____.

_____ a particular reason for _____ electronic _____ functioning randomly _____ if connected _____ a _____?

How _____ my _____ die on _____ though _____ have a good _____?

Why are these _____ prone _____ conk out _____ they _____ a _____?

Why _____ some _____ devices not _____ despite _____ battery?

Why _____ some _____ out _____ though _____ are _____ up right to an _____?

_____ electronic _____ stop working _____ I _____ a fully functional battery, _____ is _____?

Do _____ malfunction and shut _____ for _____ when linked with active _____?

Some _____ devices _____ work even though they _____ battery.

_____ the unexplained _____ functions _____ certain devices connected to batteries?

_____ to _____ out despite being wired up to an _____ battery?

_____ do _____ devices stop functioning when _____ plugged _____ perfectly _____ battery?

How _____ suddenly stop working _____ attached _____ battery?

_____ cause of _____ stupid gadgets conk out even _____ they have _____?

I _____ in figuring _____ why _____ keep shutting _____ despite being attached _____ battery.

Why wouldn't _____ work even _____ they _____ to a functioning _____?

_____ devices _____ despite being connected to _____ functional _____?

My gadgets _____ out _____ nowhere _____ up to a battery _____.

_____ finding out why my _____ keep _____ down even _____ they're attached _____ an _____.

_____ do certain _____ when they have _____ connection _____ a battery?

_____ unexplained halt in the functioning _____ devices _____ functional batteries.

Why do some _____ stop _____ even _____ have a _____?

If _____ devices stop working _____ connected _____ a _____ what's _____ reason?

Can _____ how _____ connected _____ to _____ batt sometimes _____ work _____?

_____ there _____ reason why certain _____ don't _____ despite _____ connected _____ an _____ power _____?

_____ anyone explain _____ things _____ directly _____ batt sometimes _____ work?

_____ does _____ abruptly cease operations even _____ battery connections?

_____ gizmos _____ working _____ I have a good battery?

_____ there _____ reason why certain _____ wouldn't _____ when _____ battery?

_____ come _____ electronic devices _____ operations, even _____ battery connections?

_____ did _____ electronic _____ working _____ a _____ battery hookup?

Do _____ know _____ certain _____ devices suddenly stop _____ even _____ direct _____?

I _____ your _____ why _____ electronics keep shutting _____ even though they're attached _____ battery.

Why _____ some electronic _____ stop working even though _____ battery?

_____ possible _____ operational _____ suffer _____ failures _____ are properly connected with _____ batteries?

_____ do _____ devices _____ when _____ are connected _____ a battery?

Do _____ know how some _____ performing even _____ a battery?

_____ why some electronics _____ working _____ being _____ to a _____ battery _____?

What _____ cause of certain devices stopping _____ a _____?

_____ causes _____ to _____ working _____ there is a functional _____?

_____ widgets stop _____ when they are _____ into a fully charged _____?

_____ is _____ certain devices not _____ when _____ a battery?

Is _____ that certain _____ stop _____ when linked _____ batteries?

_____ tools malfunction and shut down for _____ linked to _____ battery?

_____ you know why some _____ devices _____ though _____ to a batteries?

_____ linked _____ active battery _____ certain technological tools malfunction _____ for no apparent reason?

Is it possible for _____ fail _____ a working _____?

_____ electronics _____ working _____ to the functional battery?

My gadgets are _____ turning _____ though _____ a battery.

Can _____ working even _____ they have a _____?

_____ electronic devices _____ suddenly even if they are _____?

_____ possible that _____ electronics sometimes suffer random failures _____ connected _____?

_____ there a _____ for _____ electronic devices to stop _____ even _____ they are _____ to _____?

Do you _____ why _____ electronics _____ when _____ to _____ cell?

_____ electronic _____ abruptly _____ running _____ though they _____ a _____ battery.

_____ know _____ certain electronics _____ working _____ connected to _____ battery cell?

_____ some electronics fade _____ they are wired-up proper _____ active _____?

Do technological _____ when _____ an _____ battery source?

When ____ gadgets ____ hooked up ____ good battery, ____ causes them ____ ?
 ____ anyone explain how things connected ____ kickass ____ sometimes don't ____ ?
 Do ____ to why ____ electronic devices ____ despite being connected ____ a battery?
 ____ a ____ certain electronics wouldn't ____ a proper connection ____ a ____ ?
 I have a ____ electronic ____ while connected ____ an ____ battery ____.
 ____ my ____ working when connected to a ____ the reason?
 ____ these gadgets stopped working ____ good ____ ?
 ____ certain items just ____ when linked ____ ?
 Why do some ____ stop working ____ a ____ ?
 Why is ____ that these ____ the power from ____ battery?
 ____ electronic ____ no longer ____ with a good ____ ?
 Can anyone explain ____ straight to ____ sometimes refuse ____ work?
 Even when ____ an active battery ____ do technological tools ____ down ____ ?
 Some ____ are connected ____ a battery and ____ .
 While attached to a ____ some gadgets ____ ?
 ____ out ____ though they're wired ____ to an active ____ ?
 Why ____ stop operating ____ they are connected ____ a charged ____ ?
 ____ linked with an ____ source, do certain technological tools ____ down ____ apparent ____ ?
 Is ____ possible that ____ will randomly ____ while ____ a fully ____ ?
 Why would some electronic ____ fully charged ____ ?
 What ____ be ____ of my ____ devices ____ working ____ connected ____ battery?
 ____ there ____ for ____ electronic ____ stop working when connected to a ____ ?
 ____ cease operating ____ functional batteries.
 ____ understand why certain ____ run on juice ____ out randomly.
 ____ there a reason ____ electrical ____ suddenly stop operation ____ to ____ power source?
 ____ gadgets ____ intermittently even though ____ a direct connection ____ battery.
 ____ is an ____ halt in ____ functioning of certain ____ .
 Is it ____ that some ____ stop ____ despite ____ battery?
 ____ gadgets ____ even though ____ are ____ into a battery.
 ____ stupid gadgets ____ they're connected ____ to a good ____ .
 Do ____ how ____ stop ____ even though they ____ a ____ battery?
 ____ causes ____ failures ____ electronic ____ when connected ____ working battery?
 Is ____ possible that operational electronics ____ though they ____ with batteries?
 ____ do ____ electronic ____ randomly ____ when they are connected ____ a ____ ?
 ____ there ____ devices ____ stop ____ randomly when connected to a battery?
 ____ my electronic devices ____ working ____ connected ____ a ____ battery, what ____ that ____ ?
 Electronics not ____ but ____ ?
 ____ can't ____ with a good battery hookup?
 ____ electronic devices suddenly stop working, even ____ direct ____ ?
 What's ____ just quitting when ____ power from the battery?
 ____ suddenly ____ operating, though ____ to a ____ .
 ____ me find ____ solution to ____ issue of my ____ devices suddenly ____ while ____ a ____ source?
 ____ possible that gadgets stop ____ to a ____ battery?
 ____ items stop ____ despite their ____ link to reliable ____ levels?
 ____ have a clue ____ to why some ____ devices stop ____ being ____ battery?
 ____ my ____ on despite being plugged ____ ?
 ____ come ____ devices ____ when ____ are connected to ____ battery?
 ____ you know why ____ items ____ despite ____ active ____ to reliable ____ levels?
 I ____ someone to ____ me ____ out why my ____ shutting ____ they're attached to ____ .
 ____ electronic ____ stop ____ they ____ connected to a battery?

Can _____ gadgets _____ when _____ are _____ a battery?
 _____ don't know _____ my _____ keep _____ attached to a battery.
 _____ anyone explain _____ things connect _____ to _____ batt _____ work?
 My electronic devices may _____ to a fully _____.
 _____ electronic _____ might _____ if they have _____ battery.
 Is _____ that certain electronics _____ connected to a fully _____?
 _____ malfunction intermittently but have a _____ connection to _____.
 _____ causes _____ devices _____ working _____ if there is a _____?
 _____ there _____ particular reason _____ devices to stop _____ when _____ to a _____?
 I _____ having _____ my electronic devices _____ failing _____ to a _____.
 _____ causes _____ gadgets to _____ even if _____ have a _____ battery _____?
 _____ electronics stop _____ even _____ are connected _____ a charged battery cell?
 My electronic _____ fail while _____ to _____ source.
 What _____ gadgets to stop _____ if _____ a functional battery _____?
 _____ there _____ why _____ electrical gadgets suddenly _____ despite _____ connected _____ power source?
 My gadgets are _____ being _____ to a _____.
 _____ causes certain gadgets _____ working even if they _____?
 Can _____ explain _____ linked straight _____ a _____ refuse to _____?
 _____ need your _____ to _____ out why my electronics _____ down even though _____ attached _____.
 Is it possible _____ electronics _____ suffer _____ even _____ connected with _____ batteries?
 Why do certain electrical _____ suddenly _____ working _____ they are _____ properly _____?
 _____ items stop _____ linked to _____ batteries?
 Could _____ me _____ the _____ my electronic _____ connected to a battery source?
 _____ do these devices _____ when _____ have _____ from _____ battery?
 How come some devices fail despite _____?
 Can _____ tell me how _____ items suddenly _____ working despite _____?
 What _____ to stop working _____ there _____ a functioning _____?
 _____ electronic _____ stop working _____ they _____ connected to _____ battery.
 I _____ help figuring out _____ causes _____ to _____ down _____ though _____ attached to _____ battery.
 You _____ help _____ find out _____ my electronics keeps _____ down even _____ to _____.
 _____ you ever _____ certain electronic items _____ despite _____ active link to _____ power _____?
 _____ come these _____ with _____ good battery hookup?
 Is there a _____ why certain electronic _____ cease _____ with _____?
 _____ stop working randomly when _____ connected _____ a battery?
 _____ you know why certain _____ stop _____ connected _____ battery cell or _____?
 Even _____ certain electronic devices _____ connected _____ a _____ work.
 _____ my gizmos _____ when _____ a good battery?
 How can the _____ stop _____ with a _____?
 _____ stupid gadgets are _____ to a _____ battery, what makes _____?
 _____ you know _____ some _____ working when _____ to a fully _____?
 _____ it possible that electronics _____ despite _____ connected with _____?
 When gadgets _____ to a _____ can _____ stop _____?
 Is it _____ some electronic gadgets _____ if they _____ plugged _____ charged battery?
 _____ causes certain _____ stop functioning _____ they have a _____ supply?
 _____ possible _____ some _____ when attached to a battery?
 Why are _____ electronic items unable _____ link to _____ power _____?
 _____ you know _____ electronics _____ operating _____ connected to a _____ cell?
 There _____ an unexplained _____ in _____ functioning _____ certain _____ connected _____.
 Do certain items just _____ when _____ linked _____?
 _____ linked with _____ active battery source, _____ frequently for no _____ reason?

_____ causes gadgets _____ stop _____ they _____ connected _____ a battery supply?
 If _____ stop _____ connected to a battery, _____ the cause?
 Why did _____ suddenly _____ operations, even with _____ connections?
 _____ would _____ not work if they're _____ a _____?
 Even though some devices _____ connected _____ stop _____.
 There _____ some _____ devices that don't _____ connected _____ battery.
 _____ is an _____ the _____ of a _____ connected to batteries.
 _____ do _____ electronic gadgets quit working _____ battery?
 _____ some electronic _____ stop _____ they are plugged into _____ fully charged battery.
 I _____ a problem with _____ connected _____ an operational battery source.
 Is _____ a reason _____ electronic _____ functioning _____ when connected to _____ battery?
 Despite a _____ to _____ functional battery, do _____?
 _____ causes these stupid gadgets _____ conk out _____ when connected _____?
 Is _____ reason _____ electronic devices inexplicably _____ being connected to _____ battery?
 Is it _____ to _____ random failures _____ well connected with _____?
 Do you _____ how _____ abruptly stop performing, even _____ they _____ battery?
 _____ possible that _____ electrical items suddenly _____ in spite _____ an _____ battery?
 _____ certain things _____ juice from that _____ conk _____ randomly?
 What _____ when _____ electronics _____ working, _____ attached to _____ functional _____?
 _____ why certain things run on _____ directly from _____ conk _____.
 Even _____ devices _____ directly _____ the _____ they _____ working randomly.
 _____ devices _____ working even though they _____ battery?
 Why do some _____ items stop _____ even though _____?
 _____ anyone tell _____ things _____ straight _____ a _____ can _____ to work _____?
 Do you know what causes _____ to stop _____ despite _____ a _____?
 Why _____ electronic _____ stop _____ into a perfectly-functional battery?
 I need _____ issue of my electronic devices _____ failing _____ connected to _____ operational _____.
 Is it possible _____ can suffer _____ if properly _____ with _____?
 Is there _____ reason _____ electronic _____ when connected _____ a functional battery?
 Do you have _____ idea _____ causes _____ devices to _____ being linked _____ battery?
 Some electronic _____ stopped working even _____ connected to _____.
 What _____ to stop working _____ to _____ battery?
 Can anyone _____ me _____ connected straight to _____ sometimes _____ to _____?
 Do certain _____ tools malfunction _____ no _____ even when linked _____ an _____ battery source?
 _____ these _____ gadgets _____ to conk out _____ have _____ good battery?
 Do you know why _____ electronic _____ to _____ despite _____ linked _____ battery?
 _____ could my electronic _____ working if _____ connected _____ battery?
 _____ some electronics _____ they're wired _____ to an activetater battery?
 _____ is possible that some _____ even though _____ are _____ a _____ charged battery.
 _____ causes _____ gadgets to conk out even _____ a _____ battery?
 _____ gadgets to stop working if _____ is functional?
 _____ for _____ items to halt functioning despite their active _____ to _____?
 Despite being _____ working _____ can operational electronics _____?
 _____ the cause of _____ stupid _____ conk out _____ when _____ have _____ battery?
 Do _____ some _____ stop operating even _____ they _____ connected to _____ cell?
 _____ you know why some _____ stop _____ being _____ to _____ battery?
 Is it _____ some electrical _____ though they get direct power _____?
 My gadgets _____ even though _____ working battery.
 _____ it _____ electronic _____ stop _____ even _____ they are _____ into a battery?
 Do you know _____ certain _____ operating _____ connected to _____ battery _____?

_____ electronic _____ after a working _____ is used.

Do you _____ why certain _____ stop _____ when _____ a _____?

_____ do some electronic _____ stop _____ are plugged into _____ battery?

Do you _____ devices _____ working if _____ are _____ to _____ battery?

Is _____ electronic devices fail despite _____ a working _____?

Is it possible _____ devices _____ cease _____ even with _____ battery _____?

_____ though _____ to a functioning battery, _____ randomly stop working.

Can _____ how _____ connected _____ a kickass _____ sometimes don't work _____?

_____ you _____ me how some _____ items _____ stop _____ though they _____ battery?

_____ certain _____ stop _____ are linked to batteries?

The _____ my electronic _____ failing while _____ battery _____ could you help?

What _____ stupid _____ to conk _____ when _____ to _____ battery?

_____ possibilities of _____ failures _____ electronic _____ connected _____ a battery.

Even _____ are _____ battery, they wouldn't work.

_____ it _____ for _____ electronics to _____ random failures even though _____ are _____?

_____ be causes of _____ device failures when connected _____?

_____ electronic _____ intermittently, but _____ a _____ to the battery.

Do certain _____ tools malfunction and _____ no _____ when linked _____ with an _____ battery _____?

Can you _____ why certain _____ stop working despite being _____ source?

_____ it possible _____ electronics can _____ failures even though _____ with _____?

_____ you _____ how _____ electrical _____ stop working, _____ though they _____ battery?

My _____ devices _____ failing _____ connected to an _____ source could be _____.

Is _____ devices stop _____ randomly, even if _____ a functional battery?

_____ do _____ electronic _____ stop _____ being connected to _____?

_____ working _____ connected to battery

_____ tools _____ and shut down _____ no apparent _____ they are _____ an _____ battery source?

_____ gadgets to stop working _____ if they are _____ to _____ battery _____?

_____ electronic _____ when connected _____ a working battery.

_____ anyone explain _____ batt sometimes don't work at all?

_____ do _____ electronics fade _____ though they _____ wired-up _____ to an _____?

Specific _____ suddenly stop _____ battery.

Do _____ know _____ some electronic _____ suddenly stop _____ connected _____ a _____ operational _____?

What causes gadgets to stop _____ they _____ supply?

_____ devices stopped working despite being connected _____.

If _____ electronic _____ stop working even _____ to a fully _____ battery _____ the _____?

_____ things _____ straight _____ a kickass _____ then refuse to work?

Is it possible that some _____ functioning _____ though _____ plugged _____ battery?

_____ tools _____ malfunction _____ shut down for no _____ reason _____ linked _____ with _____ active battery _____?

_____ certain electronic devices _____ operations, _____ direct battery connections?

_____ do _____ fade out despite _____ up for _____ active _____?

Do _____ certain electronic devices suddenly _____ operations even _____ battery _____?

My _____ gadgets _____ turn on _____ plugged into _____.

_____ do some _____ stop _____ connected to a battery?

I don't _____ stuff _____ on juice _____ the battery _____ out.

Can anyone _____ how _____ connected straight to _____ refuse _____ work _____?

_____ causes specific _____ stop _____ even if _____ is a _____?

_____ causes _____ stop operating when _____ to _____ battery supply?

_____ need _____ finding out why my _____ stop working even _____ to _____.

I _____ your help _____ the _____ of _____ suddenly _____ while _____ to an _____ battery source.

Is _____ a _____ why _____ working _____ plugged into a battery?

When _____ an _____ battery source, do technological tools _____ reason?

Can _____ explain _____ items suddenly stop working, even _____ good battery?

What causes _____ devices _____ stop working _____ they are _____ battery?

_____ that some _____ gadgets _____ though they _____ plugged into a battery?

_____ know why some electronics stop _____ to a battery _____?

_____ have caused the _____ halt in function _____ certain _____ batteries?

_____ not functioning despite their _____ link to reliable power _____?

_____ is the _____ but _____ cooperating?

Why wouldn't certain _____ devices run despite _____?

_____ don't know _____ electronics keep shutting _____ attached to _____ battery.

Is it _____ electronic widgets stop functioning even though they _____ battery?

When _____ attached _____ working _____ can they _____ working unexpectedly?

What causes _____ devices to _____ even _____ connected to _____ battery?

Some _____ work _____ though they're connected to _____ battery.

What causes _____ of the battery's function?

_____ certain devices _____ to _____ when connected _____ good battery?

If my _____ working when _____ a _____ battery, what could _____ cause?

Is it _____ that _____ can suffer _____ being _____ with batteries?

My gadgets _____ even _____ they're plugged _____ a _____.

Could _____ help _____ to the problem of _____ electronic devices _____ failing _____ to a battery _____?

Do you know why _____ though they are _____ a battery?

Is there a _____ reason _____ to _____ connected to a functional _____?

_____ there _____ specific reason _____ certain electronic devices to _____ randomly _____ if _____ battery?

Is there a _____ to _____ some _____ items _____ performing _____ though they _____?

What causes _____ gadgets to conk _____ they're _____ up to _____?

_____ some gadgets _____ even _____ a _____?

_____ technological tools _____ no apparent _____ even _____ linked with an active battery source?

How _____ my _____ though there's a _____ battery?

_____ can anyone explain _____ things _____ straight to _____ refuse _____ work suddenly?

_____ down even though they're attached _____ an effective _____.

When gadgets _____ a _____ can they _____ stop _____?

_____ do some electronics _____ out _____ being _____ proper _____ a _____?

_____ do _____ dang devices quit _____ they've _____ from the _____?

Why do certain _____ gadgets _____ even _____ they are connected properly _____?

_____ my _____ don't work _____ though I have _____ battery?

_____ possible that _____ electrical items suddenly stop _____ even _____ a good _____?

Could be _____ of _____ device failures _____ connected to _____?

_____ some _____ stop _____ when they _____ plugged into a battery?

_____ it possible that _____ electronics _____ failures despite _____ connected to _____?

_____ help me _____ why _____ electronic devices suddenly fail _____ connected _____ battery _____?

_____ certain electronic _____ when they have a direct connection _____?

Is it possible that _____ items stop _____ in _____ a _____?

Is there _____ reason some _____ despite having a _____ to _____?

Do _____ know why _____ electronic _____ mysteriously _____ working _____ being _____ to _____ fully _____?

Could _____ find a solution _____ electronic devices _____ while connected _____ a battery source?

_____ there a _____ explain _____ some _____ suddenly stop performing despite having _____?

_____ electronic _____ intermittently even _____ they _____ direct _____ to an _____ battery.

What _____ certain devices not _____ work when connected _____?

I _____ your assistance in figuring _____ my _____ shut _____ even though _____ a _____.

_____ with an active battery _____ do technological tools occasionally _____ down _____ apparent _____?

_____ possible that _____ will stop working randomly even if connected _____?
 _____ there a _____ for _____ electronic _____ to stop working randomly when _____?
 _____ working when connected _____ battery
 Why do _____ attached to a _____ battery?
 Why _____ things run on juice from _____?
 When these _____ gadgets are _____ up _____ battery, _____ causes them to _____?
 Is it _____ that _____ electronic _____ out _____ even though they are _____ a battery?
 Do _____ stop working when _____ are linked _____ a battery?
 _____ do _____ electronics _____ connected to a _____ battery cell?
 The _____ will _____ they're hooked _____ to a good battery.
 Why do _____ devices stop _____ are _____ into a _____?
 Why _____ certain electronic _____ not work even _____ to a _____?
 _____ do _____ devices stop working _____ being _____ to _____ battery?
 _____ they are _____ up _____ a _____ what causes _____ gadgets to _____ out?
 Although _____ electronic _____ a direct _____ to _____ battery, _____ malfunction _____.
 _____ why _____ devices _____ working _____ though _____ are linked to the battery?
 _____ gadgets stop _____ when _____ to a working _____?
 Despite _____ connected _____ battery, _____ devices _____ working.
 Is there _____ reason _____ electrical gadgets _____ stop _____ connected _____ operational power source?
 If _____ working even _____ connected to _____ battery, what _____ it be?
 Don't _____ can _____ connected straight to _____ sometimes refuse to work?
 It isn't _____ on despite being _____ battery.
 I don't understand _____ certain _____ juice directly _____ conk out.
 _____ want to _____ why my _____ keep _____ even though _____ attached _____ battery.
 Even _____ the _____ is fully charged, certain electronic _____.
 _____ do _____ devices _____ despite being _____ to a _____?
 Why _____ these _____ gadgets _____ working with _____ good _____?
 Can you explain how _____ electrical items _____ having _____?
 _____ it possible that some electronic _____ though they _____ plugged _____ a _____ battery?
 _____ explain _____ connected straight to _____ sometimes refuse to work?
 I _____ find _____ why my _____ keep _____ they're attached to a battery.
 Why _____ certain _____ items _____ functioning _____ they have a link _____ power _____?
 _____ are _____ of random _____ when connected _____ a _____ battery.
 _____ that are attached to _____ working _____?
 _____ any technological _____ malfunction _____ down for _____ apparent _____ with an active battery _____?
 What causes _____ devices to _____ working when _____ well-functioning _____?
 Can _____ explain _____ connected _____ to _____ batt sometimes refuse _____ work _____.
 _____ electronics stop _____ when connected to _____ battery cell or pack?
 What _____ reasons _____ gadgets _____ despite being connected _____ a power source?
 _____ there _____ reason for certain electronic devices _____ if _____ a battery?
 Why did _____ when _____ had a good battery _____?
 How _____ the _____ stop working _____ though they _____ battery?
 Even _____ they're hooked up _____ a _____ gadgets _____ still _____ out.
 Is it _____ electronics to suffer _____ though they _____ to _____?
 _____ with functional batteries, _____ certain items _____?
 Why _____ some electronic _____ malfunction _____ they _____ direct connection to the _____?
 _____ is _____ point of these _____ just _____ power from _____ battery?
 _____ anyone _____ me _____ gadgets stopped working with _____ battery?
 Why _____ devices suddenly _____ working when they _____ to a _____?
 _____ gadgets stop operating even though _____ are connected _____ source?

Why do _____ functioning despite being connected to _____ pack?
 _____ it _____ that _____ electronic gadgets just _____ working _____ good _____ connection?
 _____ they're _____ to a _____ battery, what _____ stupid _____ to conk _____?
 Can anyone explain _____ connected straight _____ sometimes _____ work _____ away?
 _____ do _____ electrical _____ working _____ though _____ are _____ to a power _____?
 Do certain technological _____ malfunction and shut _____ reason, _____ linked with an _____ battery _____?
 _____ come _____ gizmos _____ though _____ have a good battery?
 Why do _____ fade out despite being _____ to _____?
 If my electronic devices _____ when they _____ connected to a _____ is _____?
 What makes these _____ gadgets _____ out even when _____?
 _____ you _____ as _____ why some electronic _____ working when connected to _____?
 Do _____ why certain _____ stop working even _____ connected _____ a charged battery _____ or _____?
 When connected _____ a battery, what _____ working?
 Is it possible _____ operational _____ to suffer _____ even _____ they _____?
 My gadgets just _____ out _____ nowhere _____ they're _____ up _____ an _____.
 _____ running even _____ they _____ a fully charged battery.
 _____ do some _____ performing, despite having _____ battery?
 The _____ devices _____ fail while _____ an _____ battery _____.
 Even when they're _____ good battery, these _____ gadgets _____.
 _____ it _____ electronic products _____ working even _____ plugged _____ a fully-charged battery?
 Why do _____ electrical _____ despite _____ connected _____ power source?
 Do some _____ fail _____ a _____?
 What _____ certain devices to _____ linked with _____ good _____?
 _____ linked with a battery, _____ causes _____ stop working?
 You want _____ know why electronics fade _____ despite being _____?
 _____ power from the _____ what's _____ these devices just quitting?
 _____ is possible that _____ functioning even though _____ are _____ fully charged _____.
 How come some _____ stop _____ despite _____ to _____?
 _____ items _____ stop functioning _____ they are _____ batteries?
 I'm having _____ problem _____ my _____ connected _____ an operational battery source.
 _____ come _____ devices stop working _____ being _____ battery?
 There was _____ in the function of certain _____.
 I _____ if _____ items just cease _____ linked _____ batteries.
 What _____ why _____ electrical _____ suddenly stop operating despite being _____ an operational _____?
 _____ you _____ why some _____ stop working _____ being _____ to _____ battery?
 Is _____ some electronic _____ stop working _____ they are directly _____ battery?
 _____ come _____ electronic gadgets _____ working with _____?
 Even _____ they're hooked up _____ these _____ gadgets _____ conk out.

 What could _____ the cause of _____ not working _____ connected to _____ ?
 Is _____ possible that _____ electrical items _____ in _____ up by a _____ ?
 Why do these _____ gadgets _____ they're _____ to a _____ battery?
 Do you know why _____ despite _____ to _____ battery cell?
 I _____ having _____ problem _____ my electronic _____ failing _____ connected to an _____.
 _____ certain electronics will randomly malfunction while _____ battery?
 Is it _____ for gadgets to _____ they _____ a working _____ ?
 _____ it possible _____ certain _____ to randomly _____ when connected to _____ ?
 _____ it possible _____ electronics to _____ failures due to _____ with working _____ ?
 There are electronic devices that _____ a _____ stop _____.
 _____ there _____ for random _____ failures _____ connected to _____ working battery?
 I _____ issue _____ my electronic _____ suddenly _____ connected _____ operational battery source.
 Why do _____ electronic _____ when they _____ direct _____ the battery?
 I _____ my electronics keep shutting _____ even though _____ attached _____ an _____.
 Is it _____ for an _____ device to malfunction _____ while _____ ?
 _____ a problem _____ my electronic devices suddenly _____ to _____ operational _____ source

Why _____ electronic _____ randomly stop _____ they are connected _____ a _____?

_____ there _____ reason _____ gadgets suddenly stop operation _____ connected properly?

How can electronic _____ work _____ good _____?

_____ you _____ some electrical _____ stop _____ though _____ have a good battery?

Do electronic _____ always _____ despite having _____?

What causes _____ gadgets _____ working after being _____ battery _____?

How _____ don't _____ even though there's a _____?

Why do certain devices _____ if the _____?

Is there _____ electronic devices _____ randomly even _____ connected to _____ functional battery?

Is there _____ electronics wouldn't work _____ a _____ the battery?

_____ stupid _____ are _____ to a _____ battery, what _____ them _____ fail?

Do you _____ why certain _____ devices abruptly cease _____ even _____?

_____ technological tools suddenly malfunction _____ shut _____ no _____ linked with _____ active _____ source?

My _____ aren't _____ being connected _____ a battery.

gizmos _____ work _____ battery

What can happen _____ my electronic devices _____ working _____ connected _____ fully _____?

When _____ are hooked up _____ a good _____ causes them _____ conk _____?

How _____ electronics _____ working _____ to a _____?

Do _____ tools malfunction _____ shut _____ no reason _____ when _____ active battery source?

_____ possible for _____ to _____ failures _____ being _____ to batteries?

Is _____ possible for some gadgets _____ stop _____ working battery?

Why are _____ devices _____ quitting _____ have power from _____?

_____ electronic _____ when connected to a functional _____?

There _____ these devices _____ quitting when _____ have _____ from the _____.

Why _____ die _____ even _____ there is _____ good battery?

Why _____ devices stop working _____ connected _____ fully functional _____?

_____ gadgets don't _____ when there's a _____ nearby?

Can anyone explain _____ something connected to a _____?

_____ an issue with my _____ suddenly _____ connected _____ an _____ source.

_____ causes some _____ to _____ when connected _____ a _____ functioning _____?

What causes _____ stop _____ regardless _____ the _____ supply?

Is there a reason _____ electronic _____ not work when _____?

Is _____ possible that _____ abruptly _____ performing in _____ of having _____?

Do _____ know _____ some electronics _____ they are _____ to _____ battery cell?

_____ wouldn't certain _____ devices work _____ connected _____ to _____ battery?

_____ it _____ that my _____ devices stop working _____ connected to _____?

_____ my _____ stop working when _____ a _____ what _____ the cause?

_____ can _____ out why _____ electronics _____ shutting down even though _____ to _____ operative battery.

Don't understand, can _____ how _____ to a batt _____ to _____?

How _____ my electric _____ die on _____ even _____ I _____ battery?

_____ have _____ some devices _____ though they are _____ to a battery?

_____ possible _____ some _____ devices stop _____ even _____ plugged into a _____ battery?

_____ cause _____ electronic devices not working when connected to _____?

_____ it possible for _____ working _____ if they _____ attached to _____?

Do _____ know _____ certain _____ stop _____ when _____ are plugged _____ battery?

If my _____ working _____ to _____ battery, _____ is the _____?

There is _____ issue _____ devices suddenly _____ connected to an operational _____.

Is _____ some electronic _____ working even though _____ are _____ full-sized battery?

Is _____ for some _____ to _____ working even _____ working battery?

It _____ possible _____ some electronic gadgets stop _____ if _____ are plugged _____ battery.

_____ electronic device failures _____ be possible when _____ a _____.

I need _____ to _____ why my _____ are _____ even though they _____ attached _____ battery.

_____ explain why _____ electrical _____ stop performing _____ though they _____ battery?

There could be _____ for _____ connected to a _____.

_____ my _____ devices _____ after being _____ to _____ functional battery, _____ could be the _____?

_____ are _____ of random _____ device _____ they are connected to _____.

Could you _____ solve _____ my _____ devices suddenly _____ while connected _____ an _____ battery source?

_____ to a functional _____ stop _____.

Is _____ a reason why _____ connected to _____ operational power source?

Is _____ a reason _____ work despite _____ a battery _____?

_____ it _____ certain _____ devices _____ stop _____ even _____ direct battery connections?

Can _____ tell _____ some electrical items _____ performing, _____ though _____ have a _____?

_____ electronic _____ work _____ they have a functional _____.

_____ you _____ a _____ to the problem of my electronic devices failing when _____ battery _____?

_____ do certain electrical gadgets _____ when they _____ connected properly _____?

Can _____ explain how things _____ to a batt often _____?

Why are _____ devices _____ function despite _____ connected _____ a _____?

_____ do some _____ working _____ being connected _____ charged _____ cell _____ pack?

Do certain _____ cease _____ linked to _____?

Although there _____ connection to _____ operational _____ specific _____ malfunction intermittently.

Do _____ tools _____ down for _____ when linked _____ with an active _____ source?

_____ do _____ devices stop _____ when _____ with a _____?

_____ do certain devices _____ are linked with a _____?

_____ causes specific _____ stop working if _____ functional _____ supply?

_____ they're hooked up to _____ works _____ gadgets just _____.

Why do stupid _____ conk out _____ when _____ good _____?

_____ do _____ electronic _____ not work _____ they are plugged _____ a _____?

Is it _____ that some electronic widgets _____ working even _____ charged battery?

Possible _____ of random _____ failures _____ connected to a _____.

_____ it _____ to _____ failures despite being connected with working _____?

_____ certain devices _____ working when connected to _____?

_____ with these ding dang devices just _____ if they have _____?

Can _____ things connect straight _____ a batt _____ refuse _____?

Is _____ for _____ to _____ functioning unexpectedly when _____ a battery?

_____ gadgets _____ turning on _____ into a battery.

Is _____ possible _____ certain _____ stop working randomly even _____ a _____ battery?

_____ gadgets aren't _____ being plugged into _____ battery.

_____ come _____ electronic _____ connected to a battery?

_____ my electronic _____ when connected _____ a _____ what is the _____?

_____ that _____ electronics _____ experience _____ failures despite being _____ with _____ batteries?

_____ you _____ electronic devices to stop _____ despite _____ to a _____?

_____ electronic gadgets quit _____ with _____ good _____ hookup?

The _____ when connected to a _____ battery.

What _____ gadgets _____ even _____ are attached to a _____ supply?

_____ to _____ working _____ are attached to a _____ battery supply?

Specific _____ malfunction intermittently, _____ they _____ direct connection to _____ battery.

Why do certain _____ devices suddenly _____ even _____ they _____ direct _____?

_____ an unexplained _____ of some devices connected to _____.

Is _____ possible that _____ electrical _____ stop working, _____ though _____ a good _____?

Possible causes _____ failures when connected to _____?

Why would _____ even if they are connected to _____?

Can _____ explain how _____ a batt sometimes _____ out?

_____ do certain _____ stop functioning when they're _____ into _____?

My _____ quit out of _____ when they're _____ battery.

Is _____ a _____ electronic items _____ stop _____ link to reliable _____ levels?

Do technological tools _____ shut _____ for _____ reason, even when linked _____ active _____ source?

_____ you know why _____ electronics stop _____ being connected _____ charged _____?

Is _____ a reason why _____ devices _____ working even _____ to _____ battery?

_____ gadgets to _____ when _____ to _____ battery supply?

Does _____ suffer _____ failures despite _____ connected to _____?

_____ are _____ to _____ good battery, what causes _____ to _____ crazy?

_____ working even _____ functional battery, what could be the reason?

_____ trying to _____ why _____ electronics keep _____ even though _____ are _____ a battery.

_____ linked _____ an _____ source, do certain technological tools _____ apparent reason?

_____ do _____ stop working _____ if _____ is _____ well- functioning _____?

_____ work _____ to battery

Some electronic gadgets _____ good battery _____.

Can _____ tell me _____ things _____ sometimes refuse to work?

Do you know _____ electronics _____ working despite being _____ a _____?

What is _____ in function of _____ connected to batteries?

_____ my gadgets _____ even though _____ is _____ battery?

It _____ possible _____ some electronic _____ working even though _____ are _____ fully- charged _____.

Is _____ possible _____ some _____ gadgets stop _____ are _____ into a _____ battery?

Why do some devices _____ they have _____?

_____ devices suddenly _____ operations even with direct battery _____?

_____ causes gadgets _____ stop _____ even _____ they are connected _____ a _____?

Is _____ possible _____ operational electronics _____ random _____ they are _____ to batteries?

_____ do _____ devices stop functioning _____ though _____ are _____ to _____?

_____ these dumb gadgets _____ connected _____ a good _____ them _____ out?

_____ you _____ solve the issue _____ electronic devices _____ while connected to an _____?

_____ if _____ to _____ battery, certain electronic devices _____ stop _____.

Why do _____ gadgets conk _____ up to a good _____?

_____ possible _____ some _____ can _____ random failures _____ being _____ working batteries?
