

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Assistance with parental controls and content filtering
Inquiry Sub-Category	Troubleshooting Parental Control Issues
Description	Troubleshooting and resolving issues with parental controls, such as incorrect settings, blocked or allowed websites not functioning properly, or compatibility issues between different devices and filtering systems.
Data Size	14,927 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

How _____ all _____ connected _____ our network have consistent and _____ applied?
_____ you _____ us _____ of _____ content _____ consistently across _____ network?
_____ do _____ ensure _____ content filters on all _____?
_____ all of our network-connected _____ have _____ content _____?
How _____ you make sure all _____ filters?
_____ way _____ that _____ gadgets hooked up have proper _____?
Where _____ find ways _____ apply _____ across connected _____?
Is it _____ to ensure efficient _____ content _____ connected _____
Do you _____ measures to _____ implemented _____ every device in _____ network?
_____ can _____ to ensure that _____ connected device has a _____ content filters?
Can _____ guarantee that _____ content _____ our _____ are _____ effective?
_____ we guarantee that _____ filters _____ device _____ efficient?
How _____ make sure that all of the _____ adhere to _____?
_____ we come up with methods _____ dependable _____ device?
_____ that every _____ up to our _____ has proper _____ filters?
_____ can _____ make sure _____ devices have reliable _____?
_____ help us ensure reliable _____ content filters _____ all _____ devices?
_____ a way _____ filters across the network?
_____ some steps _____ be taken _____ filters across connected devices?
How do _____ sure _____ have strong _____ filtering?
Is there _____ to make sure that the _____ filters _____ are _____?
Is there _____ way _____ we can _____ powerful _____ filters on every _____?
_____ can we apply _____ in a consistent _____?
Is there _____ way _____ use of content _____ across _____ connected to our internet _____?
How _____ we make sure _____ a _____ implementation of _____?
_____ there any _____ we _____ take to make sure all _____?
_____ it possible to _____ that effective content filters _____ for _____?
_____ that all devices _____ network _____ efficient and _____ content filters?

Can _____ be _____ all _____ devices _____ network have the _____ in place?

Is there a _____ to _____ effective _____?

Is _____ way _____ content filters _____ our entire network?

Y'all _____ know _____ every device on our _____ filters?

Steps _____ to be _____ to _____ consistent _____ impactful _____ on _____ connected _____.

How _____ that _____ connected devices _____ free of _____ content?

_____ can _____ to _____ sure _____ have _____ filters on our network?

How can _____ make _____ all _____ devices connected to _____ network _____ filters?

_____ it _____ you to enforce content filtering across _____?

_____ you _____ us _____ reliable _____ applying _____ filters across all of _____?

Are _____ able to sustain the consistent _____ productive _____ across _____?

_____ secure _____ and powerful content _____ our devices?

Is _____ ensure every _____ on my network _____ quality _____?

How _____ we _____ sure _____ always apply _____ content filters?

_____ there _____ to assure _____ use of _____ across _____ linked _____ our internet _____?

_____ can _____ assure that every device _____ the network _____?

Can we assure _____ the network _____ efficient and _____?

_____ make sure _____ content filters work on all _____?

Do we have a strategy _____ place to _____ sure that all _____ are _____?

_____ possible to _____ unified content _____ network devices?

_____ it _____ can _____ consistent _____ efficient content filters?

How can _____ guarantee _____ got the right _____?

_____ there _____ way to _____ sure _____ connected _____ enforce the _____ filters?

Are _____ uniformly deploy _____ and _____ content filters across _____ of _____?

Is there a way _____ each _____ the network _____ have _____?

Is there a _____ to make sure that every _____ connection _____ right _____ in _____?

What _____ be done _____ maintain _____ filters on _____ devices?

_____ can _____ that _____ the devices _____ our network have proper _____ filters?

_____ do _____ all _____ devices have reliable _____ filters?

_____ possible _____ us to assure _____ of content _____ across all gadgets in _____?

_____ the devices on my _____ have filters?

What can _____ done to _____ applying _____ on the _____ devices?

Is it possible _____ uniform and _____ content _____?

_____ it possible that _____ to _____ have _____ yet _____ filter settings?

Is it certain that every device _____ network _____ unvarying _____ place?

_____ verify _____ content _____ are _____ on _____ device in _____ network?

How can we _____ all _____ devices have _____ filters?

_____ every device _____ our _____ solid content _____?

_____ way to make _____ that _____ network-connected _____ free of _____ content?

Is it _____ to _____ of powerful _____ filters on _____ of the _____ connected _____ network?

_____ device _____ our network should _____ and uniform _____.

_____ you _____ us _____ we _____ reliable protection _____ effective filters _____ our _____?

How _____ we make sure every _____ network _____ content _____?

There _____ be uniform _____ efficient content _____ on our network.

How can we _____ sure _____ all _____ devices _____ content _____?

_____ in place _____ ensure content _____ on our network-connected devices?

_____ there anything that can _____ verify _____ are _____ on every device?

What _____ done to uniformly _____ content _____ across all _____?

Can _____ on my _____ has quality content filters that _____?

Is _____ possible to _____ enforce content _____ all _____?

_____ be uniform for _____ device on _____ network.

_____ can we _____ application of _____ content filters _____ our _____ hardware?

_____ it possible _____ device _____ our _____ to apply _____ filters?

What steps _____ be _____ to _____ remove _____ from _____ devices?

_____ it _____ to guarantee _____ on all network _____ devices.

_____ it _____ to help _____ maintain consistency _____ effectiveness of content filters _____ _____?

Is _____ enforce uniform implementation of powerful _____ on _____ is connected _____ the network?

_____ we make _____ that every device _____ the _____ objectionable material?

_____ help _____ the _____ of _____ methods _____ applying _____ filters across all devices?

Is it possible _____ ensure _____ content _____ all connected _____ are _____ uniform?

_____ in place to _____ sure all the devices _____ network _____ equipped _____ content filters?

Is there _____ to _____ filters _____ all connected _____?

_____ there _____ way _____ secure _____ filters in our network?

_____ do _____ make _____ that _____ devices on our _____ content filters?

Is _____ to sustain application _____ content filters _____ devices?

Can _____ make sure every _____ my _____ has decent _____ that _____?

_____ help _____ maintain uniformity and effectiveness of _____ filters _____ devices?

_____ efficient content _____ all network _____?

_____ can we _____ and _____ content _____ all network devices?

We _____ to implement reliable _____ of _____ content _____ consistently _____ all _____.

How can _____ make sure that our _____?

_____ can we guarantee _____ has good content _____?

_____ can be taken _____ maintain _____ content _____?

Every _____ connected _____ have an _____ and constant content filter.

We don't _____ to _____ sure _____ devices _____ reliable _____ filters.

We _____ guarantee that _____ our _____ applies effective content filters.

_____ it possible _____ every device _____ our _____ content filters?

_____ we _____ in _____ to _____ all of _____ devices are equipped with useful content _____?

Can _____ filters on _____ device are consistent?

_____ it possible that _____ uniformly deploy _____ content filters _____ all _____ gadgets?

_____ any solutions for applying consistent, _____ filters _____ our _____?

_____ we _____ techniques _____ uniformly deploy _____ cohesive _____ filters _____ all gadgets?

How can we guarantee _____ filters _____ our _____?

_____ can _____ do to _____ all devices _____ good content _____?

_____ that _____ allow _____ to uniformly deploy potent and cohesive _____ filters _____ gadgets?

Is _____ way to _____ sure _____ content _____ the devices are uniform?

_____ we _____ sure our _____ has _____ filters _____ of our devices?

How _____ ensure _____ reliable _____ filters for all _____?

_____ do we _____ that _____ device _____ to our _____ good content filters?

Can _____ assure _____ of _____ content filters _____ every _____?

_____ can _____ do to ensure _____ and _____ application _____ filters _____ all _____ devices?

_____ able to _____ with reliable _____ of applying content _____ across _____?

_____ we ensure that every _____ has _____ efficient application _____ filters?

Is there a _____ to _____ consistent _____ content _____ on _____ devices?

Can _____ assure _____ that _____ on _____ the appropriate filters?

_____ we _____ content _____ are used _____ all network-linked devices?

What are the _____ can be taken _____ content filters _____?

Can you _____ the filters on?

_____ are steps needed to _____ impactful _____ filters _____ connected _____.

_____ there _____ way _____ assure consistent and _____ for _____ on _____ net?

_____ we _____ every device in our _____ applies effective _____ ?
 Can _____ secure _____ functional content _____ for _____ devices?
 _____ do I make _____ devices _____ unified _____ filters?
 How do _____ keep _____ in check _____ devices?
 _____ a _____ in place _____ sure the devices on _____ equipped with useful content _____ ?
 What _____ be done _____ keep _____ our devices?
 _____ you make _____ my network has _____ good _____ ?
 Does the network _____ efficient _____ content _____ place _____ every _____ ?
 How are we sure _____ have _____ our network?
 Is _____ possible to _____ and _____ for our network?
 _____ have _____ can enforce a _____ implementation of powerful _____ on every device connected _____ ?
 How _____ we make _____ that every _____ network _____ effective content _____ ?
 _____ we _____ sure that all devices _____ network are _____ harmful _____ ?
 _____ there a way to _____ content _____ applied _____ all devices _____ ?
 _____ we ensure _____ content filters _____ network devices?
 _____ steps are needed to apply _____ across _____ ?
 _____ you _____ that all _____ get _____ filters?
 What can _____ do _____ a _____ of _____ across connected devices?
 How _____ consistent _____ of _____ content filters _____ guaranteed?
 Can we guarantee that _____ of our devices _____ the _____ ?
 Can _____ that every device _____ to the _____ an effective content _____ ?
 Is it _____ sure that _____ on _____ have those filters?
 _____ can we _____ uniform _____ powerful _____ in our _____ ?
 Can you _____ of _____ on _____ network _____ those filters?
 Is it possible to _____ content filters on _____ ?
 _____ there _____ to _____ that _____ gadgets have the proper _____ ?
 _____ there _____ to _____ sure that effective _____ filters _____ to every _____ ?
 _____ I _____ every _____ network has quality content filters?
 Do we _____ content filters _____ our devices?
 How _____ we _____ network has good content filters _____ to _____ ?
 Is there a way to make _____ that _____ devices _____ enforce _____ ?
 Is _____ way _____ uniformly deploy potent and _____ all gadgets.
 How _____ make _____ network devices _____ same _____ ?
 _____ create consistent _____ content filters for our _____ ?
 _____ plan in _____ that all _____ devices in our network _____ equipped _____ content filters?
 Is _____ that _____ our _____ follow the appropriate filters _____ consistency?
 Can _____ help _____ maintain uniformity _____ effectiveness _____ the _____ on _____ devices _____ our network?
 What is _____ way to _____ content filtering _____ our _____ ?
 _____ do we ensure _____ on the network _____ reliable _____ ?
 How _____ we make sure that _____ network _____ and effective _____ ?
 _____ a way of applying _____ content _____ on _____ ?
 Are there solid content _____ our network?
 _____ we do _____ consistency _____ applying _____ content filters?
 What _____ done _____ apply content _____ uniformly _____ connected devices?
 _____ unified _____ filters _____ guaranteed?
 _____ it possible that we _____ uniformly deploy _____ content _____ all _____ ?
 _____ my network has the same good _____ everything?
 _____ do _____ make sure that _____ in the _____ has _____ filters?
 _____ know how _____ top-notch content _____ on our _____ .
 How _____ we _____ network-connected devices are _____ of objectionable _____ ?

____ you ____ that all ____ devices ____ our ____ solid content ____?
 ____ make ____ that all ____ our devices have ____ applied to them?
 Is ____ to ____ efficient ____ filters across ____ network?
 Is it ____ for you to ____ our gadgets ____ filters?
 How ____ we make sure that ____ hooked up ____ proper ____?
 ____ it ____ that ____ on the network has ____ filters?
 What are the ____ sure our devices have good ____?
 How can ____ every device ____ network applies ____ consistently?
 ____ it ____ that ____ device ____ network has the same content filters?
 Can I ____ on ____ network ____ content filters that work?
 ____ it ____ sure that all gadgets ____ up ____ proper ____?
 ____ to implement consistent ____ efficient content blocking across ____?
 Is ____ way to enforce ____ filters ____ device ____ network?
 Can ____ devices ____ filters that ____ consistent?
 ____ we make sure that ____ filters on our ____?
 Can you ____ sure ____ all those ____ my ____ those ____?
 ____ it ____ apply effective ____ to connected devices?
 ____ it ____ to ____ and efficient content filter ____ network?
 How ____ we assure ____ and proficient ____ of ____ all ____?
 How ____ make ____ that our ____ has ____ filters?
 ____ a ____ make sure ____ every device in ____ has effective ____ consistent ____ filters?
 ____ a method for ____ standardized ____ proficient ____ content filters?
 How ____ make sure ____ apply ____ bomb-ass content blocks ____ all of ____?
 ____ can ____ guarantee all ____ have ____ filters?
 ____ guarantee that ____ on our ____ applies ____ content ____ consistently.
 ____ you ____ a way ____ helpful ____ filters ____ our whole ____?
 What can ____ make sure consistent ____ of ____ protocols?
 How might ____ apply ____ connected ____?
 We need your ____ consistency ____ the content ____ on ____ network.
 ____ to ____ efficient and ____ content filtering in connected ____?
 How ____ sure all the devices in ____ have ____ same ____?
 ____ be ____ to ensure cohesive ____ content ____ on all network ____?
 Is there a ____ make ____ effective filters ____ implemented for ____?
 ____ can we ____ consistency ____ using ____ content ____?
 Can we ____ of ____ filters ____ network-linked devices?
 ____ way ____ we can uniformly ____ potent ____ cohesive content ____ all gadgets?
 ____ there a ____ consistently ____ the ____ content filters ____ devices?
 Can ____ make sure ____ gadgets ____ filters ____ are ____?
 Content ____ every ____ the network must ____ uniform.
 ____ it ____ for you to show ____ how ____ reliable ____ effective content ____ for all ____?
 Content filters ____ be uniform ____ every device ____ the ____.
 Is ____ to ____ and ____ content ____ on every device?
 How can ____ make ____ has ____ effective content filters?
 How to ____ content ____?
 ____ do we ensure ____ consistent ____ everything on the ____?
 How ____ make sure ____ have ____ filters on all ____?
 Is it possible ____ on our network ____ filters ____?
 How do we guarantee ____ all ____ devices ____ the ____?
 ____ do ____ make sure ____ all ____ devices ____ content filters?
 Can ____ make ____ my network ____ get ____?

Is it _____ you _____ all our gadgets have _____?

_____ would like to implement _____ methods of applying _____.

There needs to be _____ efficient content _____.

Can _____ way to _____ that the _____ applied _____ all connected _____ are _____?

_____ it _____ to _____ that all network-connected devices _____ thorough _____ reliable _____?

_____ you _____ way _____ helpful _____ filters on our _____ network?

Can we _____ you _____ every _____ on the _____ efficient _____ content _____?

Is _____ a way _____ assure _____ use _____ content filters across _____ gadgets linked _____?

Can you tell _____ make sure that _____ have _____ protection with effective _____ filters _____ all _____?

How _____ consistent application of robust _____ filtering _____ connected hardware?

_____ we make _____ that _____ devices hooked up _____ network _____ proper content _____?

Is it possible _____ comprehensive and _____ filters _____ everyone on _____?

Are there _____ to _____ effective _____ on _____ devices?

_____ supposed _____ enforce _____ filters across all _____ devices?

_____ we be _____ that every device hooked _____ to _____ has _____ filters?

Is _____ that _____ can _____ and efficient _____ filters?

_____ ways to _____ uniform _____ powerful content filters in _____.

_____ you _____ how _____ ensure _____ protection with effective _____ all devices hooked up _____ net?

Maintaining consistency _____ effectiveness of _____ to our network can _____ difficult.

_____ we _____ consistent, effective _____ filters?

_____ make sure that the content _____ effective on _____?

Can _____ effective content _____ all network _____?

_____ do _____ make _____ content filters are _____ place?

How can we _____ sure that _____ content filters?

How _____ enforce _____ filters on _____ connected _____.

_____ there a _____ all network-connected devices have reliable _____?

What _____ we _____ content filters on _____ devices?

Can the gadgets _____ the system consistently have _____ aligned _____?

Do you _____ how _____ apply _____ filters _____ our _____ network?

_____ can _____ done _____ ensure _____ effective _____ are _____ across the _____ devices?

_____ possible for _____ guarantee that all _____ network follow proper content _____?

Are y'all sure that _____ on our _____ content _____?

How can we _____ devices have _____ and _____ filters?

_____ we make _____ that _____ network _____ the _____ filters applied to them?

_____ it possible for _____ to help us implement _____ methods _____ content _____ network?

How _____ guarantee consistent, _____ content _____?

_____ any way to verify _____ content _____ are _____ every device in _____?

_____ a way to _____ sure _____ are implemented _____ every device _____ our _____?

What are _____ that _____ be taken to uniformly apply _____?

_____ there a _____ make sure _____ gadgets have _____ right _____?

How _____ we _____ our network _____ content filters?

_____ ways _____ enforce the implementation _____ powerful _____ filters _____ every _____.

_____ you _____ enforce _____ filter across _____ devices?

_____ any way _____ sure all gadgets have _____?

Is it _____ and uniform _____ across our network- _____ devices?

_____ possible _____ that _____ the _____ hooked up with proper filters?

_____ possible to _____ consistent, effective _____ network- connected devices?

Is there a _____ place _____ sure that all _____ devices _____ are equipped _____ useful _____?

_____ secure uniform and _____ content filters _____ connected devices?

_____ that every device on our _____ good content _____?

_____ to make _____ network connected _____ the same _____ filters?
 Is _____ a _____ to ensure that _____ content _____ and effective?
 How can we _____ network- _____ have the _____ content filters?
 We are _____ reliable _____ applying _____ filters _____ across our _____.
 Do _____ have a plan in place _____ that _____ of the _____ our network _____ filters?
 Is there a _____ if content filters _____ device _____ our network?
 _____ can _____ make sure _____ on _____ apply effective content _____ consistently?
 What _____ done to _____ safe and effective _____?
 _____ there _____ way to verify if _____ filters _____ on every _____?
 Can _____ advise us on how _____ reliable protection with _____ devices?
 _____ it _____ gadgets linked _____ system possess _____ yet aligned filters?
 _____ a way to _____ filters on _____ devices?
 _____ we _____ sure that _____ network _____ a constant and effective content _____?
 _____ we make sure _____ network _____ are _____ applying consistent _____ bomb-ass content _____?
 How _____ we ensure that _____ on _____ network _____ same _____ filters?
 _____ guarantee that all _____ got the _____ filters?
 Can _____ assure you _____ every _____ network _____ efficient _____ unvarying content _____?
 _____ make sure that all of _____ devices _____ our _____ appropriate _____?
 _____ can we _____ to secure uniform _____ content _____?
 Is it _____ to make _____ network-connected devices _____ and useful _____?
 How do we _____ we _____ content filters _____ the _____?
 How can we maintain consistency _____ content _____?
 _____ you _____ the content _____ on our _____ effective?
 _____ can we _____ network-connected devices _____ effective content _____?
 Can all _____ in our system _____ potent _____?
 _____ do we _____ sure _____ devices in _____ network adhere _____?
 Is it possible _____ use _____ and efficient _____ our _____?
 How _____ we _____ consistent _____ efficient _____ filters for _____ network _____?
 _____ do to guarantee _____ devices have proper _____ filters?
 Can _____ guarantee _____ have _____ filters?
 Can our _____ secured _____ uniform _____ powerful content _____?
 _____ device on the network covered by _____ unvarying _____?
 Are there ways _____ standardized _____ content filters?
 Can you _____ us _____ to ensure _____ protection _____ effective filters for _____ hooked _____ the _____?
 _____ can we _____ filters on all network devices _____ effective?
 _____ we enforce _____ uniform implementation _____ filters _____ every _____ the network?
 _____ we do to ensure our _____ free of _____ content?
 Can we make _____ gadgets on _____ network are _____ applying consistent _____ bomb-ass _____ blocks?
 Ensuring _____ and efficient _____ network _____ how?
 _____ you tell _____ how _____ network _____ the same filters?
 _____ there a _____ to _____ sure that our network's _____ are _____ consistently _____?
 _____ do _____ that _____ the _____ on our _____ good content filters?
 How _____ we _____ the _____ devices have good _____?
 _____ filters _____ be _____ and _____ for all _____ the network.
 Is _____ way to enforce _____ powerful _____ every device connected _____ the internet?
 _____ can _____ to _____ sure _____ gadgets have effective and _____ filters?
 Do _____ a strategy _____ to make sure that _____ on our network have the _____?
 Is it _____ that every device _____ to our network has _____?
 _____ we make _____ network- _____ devices have _____ same _____?
 _____ we ensure efficient _____ filters on _____ network?

I would like _____ sure _____ my _____ quality content filters.
 _____ a _____ to _____ content filters applied across all devices _____?
 _____ do we make _____ our _____ apply _____ and bomb-ass _____ network?
 Content filters _____ efficient _____ every _____ connected to our _____.
 _____ be _____ to _____ potent and _____ content _____ mechanisms across all the _____.
 What's _____ to guarantee _____ on network devices?
 _____ a _____ make sure effective _____ filters are in place _____?
 _____ can _____ make sure _____ robust _____ are _____ in our connected _____?
 _____ to make sure _____ devices _____ the network _____ appropriate filters?
 _____ gadgets in _____ yet aligned filter settings?
 _____ there _____ ensure _____ of content _____ across all gadgets _____ to _____ internet setup?
 _____ can we _____ that our _____ devices are _____ from _____ content?
 Is _____ possible _____ apply dependable filter _____ our network?
 _____ there a _____ to make _____ that _____ hooked up have _____?
 How _____ have top-notch content _____?
 _____ measures _____ taken to _____ content filters _____ devices?
 Is _____ anything you _____ to verify if _____ are implemented _____ device?
 _____ help us apply content _____ all _____ devices?
 How _____ sure there are effective _____ filters on _____?
 _____ a _____ for content _____ be applied _____ to every connection in _____?
 _____ we _____ sure that _____ content _____ are _____ place?
 How _____ sure that all devices _____ network _____ content filters?
 How _____ we make sure _____ the _____ applies effective _____?
 Can _____ our network-connected devices _____ filters _____ work _____?
 _____ come _____ with methods for _____ dependable _____ on _____ device?
 Is _____ a way _____ make _____ all _____ have _____?
 _____ in place _____ make sure the _____ linked _____ our network are _____ useful content _____?
 What are _____ ways _____ enforce _____ all devices?
 Is there _____ to sustain the _____ application _____ filters _____ devices?
 _____ to _____ sure _____ all the devices _____ my _____ those filters?
 _____ there anything _____ do to _____ filters _____ on every device?
 Is it possible to _____ and _____ connected devices?
 _____ we do to make _____ that all _____ reliable content _____?
 Can you assure _____ that all _____ gadgets _____?
 Uniform and _____ filters _____ are required.
 Is _____ any way to _____ filters _____ implemented _____ every _____ in the _____?
 _____ do _____ make _____ the _____ filters on _____ devices are _____?
 _____ way _____ make _____ the _____ are _____ on every device?
 Can _____ guarantee good _____ on all _____ devices?
 _____ help to _____ everything in my _____ the same filters.
 Is _____ any _____ every device _____ network has a content _____?
 Do you have _____ way _____ apply helpful _____ filters _____ our _____?
 _____ make _____ that the _____ filters _____ connected devices are _____?
 How _____ ensure _____ implementation _____ consistent _____ on all network-linked _____?
 How do _____ our network _____ content _____ for every device _____?
 _____ make _____ our _____ use _____ same content filters?
 What _____ do to make _____ that every _____ in the network _____ and _____ filter?
 _____ I make sure that all of _____ devices _____ content _____?
 _____ for reliable methods _____ applying _____ filters across our _____.
 How _____ our devices get _____ without fuss?

_____ all devices connected _____ the _____ content filters?
 _____ it _____ to _____ efficient and _____ on every device?
 Are _____ that _____ single device _____ our network _____ a _____ filters?
 How can _____ that our _____ strong for _____ the net?
 _____ we _____ network-connected devices _____ useful content _____?
 _____ a way _____ sure that _____ are hooked up with _____?
 _____ you help _____ protection _____ effective content _____ for all devices?
 Are we sure _____ on our _____ content filters?
 _____ need your _____ in implementing _____ methods _____ content filters _____ all _____ devices.
 _____ we _____ every _____ on our network _____ effective content _____?
 _____ do _____ sure _____ in our network is _____ content _____?
 Can we _____ sure our _____ have _____ same _____?
 _____ how _____ guarantee effective content _____ on the _____.
 How _____ sure all _____ devices _____ effective content filters _____?
 _____ find _____ to _____ dependable filters on _____ in our _____?
 Is there _____ way to uniformly _____ across our _____?
 _____ there any _____ to _____ content filters are implemented _____?
 Do you _____ helpful _____ filters to our entire _____?
 _____ it possible _____ make network- _____ have _____ useful _____ filters?
 _____ it _____ that the content filters _____ our _____ can be _____?
 _____ there a _____ make _____ the content filter applied _____ all _____?
 There _____ can be taken to maintain _____ filters on _____.
 _____ the steps _____ take to _____ sure _____ reliable content filters?
 _____ do we _____ that our _____ has _____ content _____?
 _____ make _____ that all of _____ have quality content _____ work?
 _____ are we _____ sure that all devices have _____ filters?
 Is _____ possible to _____ consistent _____ filter _____ network?
 Is it _____ our network connected _____ have _____ content _____?
 What can be done _____ application _____ connected devices?
 Can _____ guarantee _____ are _____ content _____ on every _____?
 Is it possible _____ you to assure _____ on _____ appropriate content _____?
 _____ assure _____ consistent and _____ filters on all of our _____?
 _____ all _____ devices _____ the _____ content filters _____ how?
 _____ it _____ that all devices on _____ the _____ filters?
 _____ we ensure _____ all network _____ have effective _____?
 _____ have _____ place to make sure that all _____ in our _____ are equipped _____ filters?
 Can you help _____ connected devices?
 _____ all the _____ connected _____ apply consistent and bomb-ass content blocks?
 _____ there _____ to _____ content filters _____ our entire network?
 _____ to _____ the network's connected devices _____ the proper _____ filters?
 _____ do we make _____ have _____ content filters _____ our _____?
 Could _____ help us _____ implementing reliable _____ applying _____ across _____ network?
 _____ we _____ sure _____ the devices on _____ have _____ content filters?
 _____ possible _____ sure all the _____ connected _____ our network are forced into applying consistent _____?
 What _____ that our network-connected devices _____ of harmful _____?
 I need _____ in _____ my _____ same good filters.
 _____ know how to make sure that every _____ on _____ effective _____.
 Is it _____ to _____ filters _____ all devices _____ our network.
 How _____ make _____ that the _____ to all devices _____ consistent?
 Can _____ our _____ filters are consistent _____ effective?

_____ there _____ content filters _____ applied uniformly _____ our network?

Can I _____ my _____ content filters that work?

Content filters _____ for every _____ on _____ network.

Can we _____ on our _____ applies effective _____ filters?

_____ there _____ way _____ make sure all _____ have _____ filters?

_____ there _____ guarantee of _____ and consistent content _____ on _____?

_____ steps that can be taken _____ and _____ content filters _____ network _____.

Does it _____ sense _____ uniform _____ efficient _____ filters _____ devices?

What _____ you do _____ that _____ devices _____ the _____ follow _____ appropriate content _____?

Is _____ possible _____ good _____ filters to all _____?

How can we make _____ our _____ has _____ filters _____ devices?

_____ it _____ to ensure comprehensive _____ content _____ for all _____?

_____ to make sure every _____ connected _____ the _____ an _____ content filter?

Can _____ help _____ that _____ devices _____ our _____ the proper content _____?

_____ can be _____ to make _____ unified content _____ on _____ devices?

Can I _____ sure _____ network has _____ filters that _____?

Do _____ a _____ in place _____ that _____ on our network are _____ with useful content _____?

How _____ we guarantee _____ the network _____ the _____ content _____?

_____ can you _____ to make _____ that all _____ the appropriate filters?

_____ it possible _____ have consistent and efficient _____ filters?

What can _____ do to ensure _____ have the _____ content _____?

How _____ we _____ content _____?

_____ that _____ could uniformly deploy _____ content _____ across all gadgets?

_____ there a way _____ that effective _____ in place?

How _____ we make _____ our _____ consistent _____ effective content _____?

_____ way to make sure that _____ are implemented _____ all _____?

_____ there _____ to _____ that the content _____ applied to _____ uniform?

How _____ we _____ sure that our content _____ applied _____ connected _____?

How _____ the application _____ content filters _____ and _____?

_____ can _____ done to _____ uniform _____ of filters _____ connected _____?

_____ can you _____ and efficient _____ filters _____ network devices?

_____ assure that _____ devices get _____ proper _____ filters?

_____ us how to ensure reliable _____ with effective _____ for all devices hooked _____?

_____ possible _____ ensure uniform and efficient _____ connected devices?

How do we _____ sure _____ all _____ devices _____ and _____ filters?

How _____ make sure all _____ content filters?

_____ we maintain _____ filtering _____ our devices?

_____ we be able to _____ potent _____ across all the _____?

Is _____ possible for _____ that all devices _____ network _____ the proper _____?

_____ you _____ that our _____ filters _____ effective?

We _____ how _____ make _____ every device on _____ network _____ an effective _____.

_____ us _____ uniformity _____ of the content filters on _____ network?

How can we make sure _____ network _____ content filters?

What _____ ensure consistent application _____ robust content filtering _____?

_____ there _____ can _____ content filters _____ on every device in the network?

_____ there _____ way to _____ the use of powerful _____ all _____ the network?

Is _____ possible to _____ content _____ on every device _____ network?

_____ you _____ sure the _____ on my network _____ those _____?

How to _____ network _____ devices have _____ content _____?

What do _____ do to _____ across _____ devices?

_____ assure _____ of content filters across _____ gadgets connected _____ our internet _____?

Is there a solution _____ applying _____ our _____?

_____ we have _____ plan in _____ to make _____ that _____ our network are equipped _____?

To maintain _____ in applying effective _____ filters _____ the network, _____?

_____ a _____ to _____ sure that _____ connected devices _____ content filters?

_____ there _____ way to _____ content filters _____ the connected _____?

We need _____ enforce _____ filters _____ all connected devices.

_____ that all the _____ have proper _____ filters?

How _____ we _____ that each _____ on _____ applies effective _____ filters?

What _____ we take _____ ensure _____ network- _____ devices are free _____ content?

How _____ we be sure that _____ device _____ network's _____ filters?

What are _____ be _____ to keep _____ content filters?

_____ you can _____ sure _____ have solid filters?

_____ can we _____ sure that _____ to _____ have the _____ content filters?

_____ to make sure that all network devices _____ cohesive _____ content _____?

_____ you _____ us how _____ ensure _____ with _____ filters _____ our _____ on the net?

_____ possible to _____ consistent and _____ content _____ on _____ device connected to _____?

How _____ we make _____ the _____ in our _____ forced _____ consistent and _____ content _____?

How can _____ powerful _____ filters _____ connected devices?

How _____ implement _____ filters _____ all _____ devices?

Can we _____ our _____ have _____ are useful?

_____ it possible _____ guarantee _____ consistent content _____ all network _____?

How _____ make sure all _____ connected _____ have _____?

_____ can _____ do to _____ our network- _____ devices _____ free _____ content?

_____ it possible to enforce _____ implementation of powerful _____ on _____ network?

I _____ know if _____ is a way to _____ sure _____ are _____.

Is _____ any _____ to _____ use of _____ across _____ of _____ gadgets?

How do _____ make sure _____ in _____ complying _____ content filters?

Can _____ content _____ within our connected devices?

_____ we _____ and _____ content filters _____ our connected devices?

_____ in the _____ should _____ efficient _____ content filters.

_____ do _____ ensure effective _____ filters on _____ devices?

_____ a way _____ make sure gadgets _____ systems?

Is _____ possible to _____ and _____ content _____ our network?

_____ it _____ all _____ gadgets _____ up have proper filters?

How can _____ sure _____ content filters _____ across _____ network?

How _____ we make sure that every _____ has _____ content _____?

How _____ ensure that _____ have the right _____ filters?

How _____ we _____ that the _____ effective content filter?

Can _____ maintain homogeneity _____ of content _____ across _____ devices connected _____ network?

_____ it _____ to _____ proficient _____ content filters _____ gadgets linked to our internet _____?

_____ we can _____ efficient content filters on _____ device?

What _____ be _____ to _____ content filters _____ our devices?

_____ a _____ to _____ filters to all of _____ network?

_____ there _____ to ensure that all _____ proper content _____?

_____ it possible _____ guarantee unified _____ filters _____?

_____ it _____ that you _____ filtering across all _____ devices?

What _____ done to _____ unified _____?

Do you _____ apply content _____ to our entire _____?

_____ make sure that _____ filtering protocols are applied uniformly?

We _____ methods of applying _____ filters _____ across _____ on the _____.
 _____ about _____ sure _____ gadgets _____ solid _____?
 _____ we make _____ all _____ network _____ have the same _____?
 _____ measures we can _____ to _____ sure _____ have _____ content filters.
 We are _____ need of _____ methods _____ applying content _____ all _____.
 _____ a _____ place _____ make sure _____ our network devices _____ equipped with useful content _____?
 _____ there a way to uniformly deploy potent _____ the _____?
 _____ can we make sure that _____ on _____ network _____ effective _____?
 How can we _____ the application _____ filters is _____ all _____?
 Can _____ guarantee that _____ filters _____ implemented _____ device on the _____?
 Is _____ a _____ make sure that effective _____ filters _____?
 What _____ should we _____ to make _____ our _____ have _____?
 Is there a _____ make sure all _____ reliable _____ thorough _____ filters?
 _____ device on our _____ should have _____ and _____.
 _____ it possible that _____ are implemented on _____ in _____?
 _____ you _____ on _____ network has a solid _____ filter?
 _____ can _____ ensure that our _____ content _____ are applied _____ devices?
 _____ to _____ consistent _____ impactful content filter _____ on all connected _____.
 How do _____ consistent, _____ filters?
 _____ can we _____ application of _____ filters on connected _____ is _____ efficient?
 Is there _____ apply consistent, _____ content _____ on our _____?
 What is _____ best _____ to _____ content _____ across _____ connected _____?
 Content filters _____ to _____ consistent _____ on all _____ devices.
 What can be _____ to _____ across _____ devices?
 What do we _____ to enforce content _____?
 How _____ that all _____ devices _____ same filters?
 How can we _____ uniform _____ connected devices?
 _____ need to be _____ on _____ devices.
 _____ a _____ to _____ sure _____ have correct filters?
 _____ we ensure that our _____ uniformly on _____ connected devices?
 _____ do _____ make _____ the network _____ have the same _____?
 Do _____ devices _____ content _____?
 How can _____ sure _____ on _____ the same content filters?
 _____ make sure my _____ has the same _____.
 _____ there _____ way _____ maintain _____ consistent _____ of content _____ across _____ devices?
 _____ guarantee that our _____ effective on _____ device?
 _____ possible to _____ effective content filters on _____.
 _____ way to sustain _____ of productive _____ connected devices?
 _____ we _____ techniques _____ would _____ us _____ uniformly _____ and cohesive _____ filters _____ all gadgets?
 Is _____ way _____ sustain consistent _____ the _____ filters across _____ devices?
 Is _____ a _____ to _____ standardized _____ of _____ filters across _____ gadgets _____ the _____?
 How _____ guarantee effective content filters _____ devices?
 What _____ done _____ sure _____ have effective _____ safe content _____?
 How do _____ know _____ device hooked _____ to our _____ proper _____?
 Is _____ way _____ ensure _____ network's connected devices uniformly _____ their _____?
 _____ can we guarantee that _____ network _____ have _____ consistent _____?
 _____ sure _____ gadgets have quality _____?
 _____ there _____ way to _____ sure that all _____ gadgets hooked _____ correct _____?
 We _____ to _____ content _____ across _____.
 Can we _____ to _____ dependable filter _____ on _____?

_____ we _____ how we _____ and cohesive content filters across _____ ?

_____ we _____ to _____ sure we _____ reliable content filters?

How do our _____ filters _____ compromising?

Is there _____ way to _____ content _____ applied _____ are reliable?

Is _____ we can do _____ verify if _____ implemented on every _____ in _____ network?

_____ steps _____ be taken to _____ devices _____ free from objectionable _____ ?

_____ able to apply _____ across connected _____ ?

Can _____ that _____ gadgets _____ proper filters?

_____ sure all my _____ on my network _____ filters?

Is it possible _____ content filters _____ all _____ ?

_____ you make sure that all _____ on _____ the proper _____ ?

_____ the _____ way to assure _____ content filters on _____ ?

What can _____ done _____ ensure _____ content _____ the network's devices?

Can _____ make sure _____ all _____ network have _____ same content _____ ?

_____ and efficient _____ filtering _____ our _____ .

Is there _____ enforce a _____ implementation of powerful content _____ devices on _____ ?

_____ can _____ ensure _____ all of _____ devices have reliable _____ ?

_____ sure _____ the gadgets hooked up have the _____ filters?

Content _____ implementation _____ devices need _____ be consistent.

_____ a way to make sure _____ devices have _____ content _____ ?

_____ help ensure that _____ devices on our network follow _____ ?

Can _____ ensure _____ all devices on _____ the right _____ ?

How do _____ make _____ that _____ connected _____ the network apply _____ and bombass _____ ?

Is _____ possible to _____ content filters _____ network devices.

How _____ be _____ that each connected _____ is _____ effective _____ filters?

_____ can _____ top-notch content filters?

_____ we make _____ that all _____ apply _____ filters consistently?

_____ are _____ can be taken _____ cohesive and _____ on _____ networks.

_____ steps _____ can _____ taken _____ control _____ on all network devices?

Can _____ enforce _____ filtering _____ connected devices?

How to _____ filters on network- connected devices _____ ?

Is _____ a way to _____ the content filters apply _____ ?

_____ help _____ with _____ implementation _____ reliable methods of applying _____ filters _____ all _____ ?

_____ can _____ make _____ that every device connected _____ our _____ right content _____ ?

What _____ do to _____ that _____ our devices _____ content filters?

_____ should _____ make _____ all devices have _____ filters?

_____ it _____ make network connected _____ have _____ filters?

_____ it possible _____ network- connected _____ have content _____ ?

Can _____ content filters _____ devices?

_____ a _____ to _____ the content _____ applied _____ the connected _____ uniform?

_____ you know how our _____ are _____ get _____ filters?

_____ need reliable methods of applying _____ all of _____ .

_____ possible to _____ network connected devices have _____ ?

_____ we make _____ that every device _____ the _____ has _____ filters?

What _____ the _____ way to assure strong and _____ net?

Is there a _____ network's _____ devices uniformly enforce _____ standards?

Consistency in applying effective content filters _____ a _____ .

Every device _____ has to have _____ content _____ .

Is _____ to guarantee consistent and _____ on the _____ ?

_____ we ensure _____ of content filters _____ connected devices?

Is it ____ to implement ____ and ____ ____?

____ do we ____ all the ____ in ____ free of objectionable content?

What can we ____ to apply content ____?

Can ____ help ____ implement reliable ____ filters across all ____ our network?

____ to make ____ network- connected devices are effective?

Is ____ to ____ efficient content filtering?

____ a ____ to secure comprehensive ____ functional ____ for all ____ devices?

____ are ____ can be ____ for a uniform ____ content ____?

____ we guarantee that ____ content ____ implemented ____ all ____ on the ____?

____ to ____ the content filters applied across ____ devices ____ reliable?

____ a way ____ ensure ____ and functional ____ our network?

Are ____ able to tell us ____ with effective ____ our devices?

How ____ we ____ sure ____ same content filters?

Content ____ to be ____ for every device linked ____.

____ a ____ to ____ sure that ____ up have ____ proper filters?

____ make ____ the ____ devices are ____ of harmful content?

Can ____ sure ____ my ____ my ____ have quality filters?

Can ____ guarantee ____ we ____ efficient ____ filters ____ every ____?

Is ____ way ____ uniform ____ powerful content ____ device connected to the internet?

____ know how to make ____ my ____ has the same ____?

Can you ____ maintain ____ of the ____ on all ____ connected ____ our ____?

____ filters must be ____ efficient ____ every ____ to ____ network.

____ there ____ make sure our ____ filters apply to ____ connection?

Do ____ a solution for applying ____ helpful ____ filters ____?

____ ways to ____ content filters for our ____.

____ can ____ done ____ make ____ content filters are ____ uniformly ____ devices?

____ we be sure ____ on ____ efficient ____ unvarying content filters?

____ it possible ____ that effective ____ filters are implemented ____ the network?

Is there a way to ____ sure ____ devices ____ right ____?

Is there ____ way ____ consistent ____ content ____ applied to every ____?

How ____ sure ____ the ____ filters are consistent?

____ we make sure ____ free of harmful content?

Content ____ consistently implemented on ____ connected devices.

____ we apply ____ content filters on every ____ to the ____?

____ we make ____ that ____ content ____ are efficient ____ all ____?

How do ____ sure that the ____ network have ____ content filters?

____ the ____ application of content ____ connected devices?

Do ____ know ____ all the devices ____ my ____ have ____?

____ there ____ way to ____ if ____ filters are implemented ____ in ____ network?

Is ____ a way to apply ____ consistently ____?

Is ____ a way ____ all ____ the ____ content filtering?

____ do ____ sure that ____ device ____ our network ____ free ____ objectionable ____?

____ there a way for the ____ to ____ enforce ____ standards?

____ do we ____ to our ____ are forced to apply consistent and ____ content blocks?

____ it ____ to ____ consistent, helpful content filters ____ network?

Are ____ to put consistent, ____ on our ____?

How ____ be ____ all network ____ have the ____ filters?

____ should ____ implemented on ____ connected ____

What ____ we do ____ ensure reliable ____ on ____?

____ there a way to ensure ____ every device ____ in ____ and ____ content ____?

_____ do we _____ sure our network doesn't _____ content _____?
 Is there _____ way _____ content _____ efficient _____ connected devices?
 _____ a way of _____ comprehensive and functional content _____ for _____?
 Can _____ there are _____ efficient content filters?
 _____ content _____ to all connected devices?
 _____ we _____ that would _____ to _____ and cohesive content filtration mechanisms?
 _____ can we _____ that every connected _____ has the right _____ filters _____?
 What _____ to consistently _____ content filters _____ connected devices?
 Is _____ way to make _____ the _____ uniformly on all _____ devices?
 Can unified _____ filters be _____?
 What can _____ uniformly apply content filters _____?
 _____ our _____ filters in _____ devices?
 _____ are methods _____ consistent _____ content _____ across connected _____.
 Is _____ a _____ to _____ sure _____ network-connected _____ have thorough _____?
 _____ I make _____ my _____ has good quality _____?
 How can we ensure _____ devices _____ content _____?
 Is there _____ to _____ the use _____ content filters across _____ gadgets _____ setup?
 Is there _____ way _____ sure _____ our content filters _____ uniformly _____ all _____?
 _____ there a way _____ ensure _____ network-connected _____ free _____ objectionable content?
 _____ a way to _____ sure _____ all network- _____ have _____ and thorough _____?
 Is there a _____ to reliably _____ dependable filters _____ each _____?
 _____ we assure _____ on the network _____ same filters?
 I _____ making _____ my _____ has the same _____ filters.
 _____ it possible that every _____ connected to the _____ constant _____?
 _____ there _____ way _____ that _____ content _____ uniformly _____ across all connected devices?
 Do you _____ to apply good _____ our network?
 Is there _____ way _____ sure that our _____ filters _____ uniformly _____ all _____?
 Will _____ to _____ content filters across all _____?
 _____ a way _____ that all gadgets _____ proper _____?
 There may be a way _____ on all _____.
 _____ guarantee _____ have _____ and effective content _____ our network?
 Can a _____ be _____ that _____ connected devices uniformly _____ content _____?
 _____ way to _____ deploy potent and _____ Filters across _____ gadgets?
 We need your _____ implementing _____ of _____ filters across all _____.
 Is there any way _____ content _____ all devices connected _____?
 How can _____ get top-notch _____ devices?
 _____ do we _____ device hooked up _____ network has proper _____?
 _____ there _____ way _____ keep productive content _____ across connected _____?
 _____ a _____ in _____ to make sure that all the _____ linked _____ our _____ with useful _____?
 _____ there _____ to _____ sure network- connected _____ don't _____ bad _____?
 Is it _____ to _____ content _____ consistently _____ all connected _____?
 _____ be sure that each _____ device is following consistent _____ content _____ our network?
 Can we _____ uniform _____ of powerful _____ on _____ connected _____ the _____?
 We _____ know how _____ can guarantee _____ our _____ has _____ filters.
 _____ to guarantee _____ effective _____ filter on every device?
 _____ do we _____ that every device on our _____ of _____?
 Is _____ a _____ to _____ apply _____ settings on each _____ network?
 _____ do _____ all our _____ apply effective content _____?
 _____ us know if _____ devices on our network follow _____?
 What _____ that can be taken _____ content _____ all _____ devices _____?

_____ possible _____ enforce the _____ of _____ content filters _____ every device _____ is connected to _____ ?
 _____ a _____ to ensure that _____ network's connected _____ uniformly _____ filters?
 _____ devices get top-notch _____ filters _____ causing any _____ ?
 How can we _____ all of our _____ apply _____ ?
 Can we come _____ apply _____ filters on _____ device?
 Is there _____ way _____ verify _____ all content _____ implemented _____ devices?
 How can we be _____ each _____ device _____ a consistent _____ content _____ ?
 Is it possible _____ to make _____ that _____ good filters?
 How _____ we make sure that _____ an effective and _____ our devices?
 _____ you make _____ devices on _____ network have _____ thingies?
 _____ it _____ to _____ sure that _____ content filters _____ across all _____ consistent?
 How _____ we make _____ all _____ network-linked devices _____ consistent _____ ?
 _____ a way to _____ certain _____ all _____ devices _____ good content _____ ?
 _____ you please make _____ all of _____ have solid _____ ?
 _____ it _____ to assure standardized use _____ filters across all _____ the _____ ?
 _____ do our devices _____ top-notch _____ filters _____ having _____ ?
 _____ there a way _____ that the network's connected devices _____ content _____ ?
 _____ a way to _____ sure that _____ in our _____ and effective?
 _____ to _____ the use of content filters _____ all _____ ?
 _____ make sure _____ our gadgets have solid _____ ?
 Can _____ say _____ all devices on the _____ content filters?
 What _____ use _____ that our _____ connected _____ are _____ of objectionable content?
 _____ we ensure _____ filters on all _____ connected _____ ?
 _____ you be _____ to help _____ of _____ content _____ consistently across _____ network?
 Can _____ make _____ that _____ on _____ network _____ filters?
 _____ can _____ content _____ all devices?
 _____ the measures that ensure our _____ connected _____ free _____ objectionable _____ ?
 How _____ we _____ consistent, _____ content filters _____ our _____ ?
 Is _____ to make _____ that all the _____ network _____ equipped with useful _____ filters?
 _____ there a way _____ sure _____ filters apply _____ to _____ devices?
 _____ we _____ able to secure comprehensive _____ content filters _____ devices?
 _____ to make sure _____ the content filters _____ the devices?
 _____ way to _____ potent and cohesive _____ filtration _____ of the gadgets?
 _____ a plan in place _____ all the _____ on our network _____ the right content _____ ?
 _____ tell _____ how _____ ensure unified content filters on _____ ?
 _____ you tell _____ to _____ have _____ protection with effective _____ filters for all _____ our _____ ?
 Have we explored methods _____ would _____ deploy _____ and _____ content _____ across _____ gadgets?
 _____ be done _____ content filters across connected _____ ?
 How _____ we make sure _____ in our _____ filters?
 _____ would _____ to _____ reliable _____ of _____ content filters consistently _____ linked to our _____ .
 Is _____ any way _____ application _____ content filters on _____ ?
 Is it safe _____ say _____ all _____ the network _____ efficient and unvarying _____ ?
 Is _____ for our _____ to be consistent _____ its _____ ?
 _____ can be done _____ retain _____ filters _____ devices?
 _____ I make _____ all _____ my network _____ quality content _____ that _____ ?
 There _____ that can be taken for _____ proficient _____ filter _____ devices.
 _____ do to _____ consistency in _____ of _____ content filters?
 How can we make _____ the _____ an _____ filters?
 _____ can be _____ effective content filters on _____ devices?
 _____ there be a _____ to _____ content filters?

How _____ be consistent application of _____ filters in _____?

_____ can _____ make _____ all network-linked _____ have the _____ content _____?

There are _____ implement content filters _____ all _____.

How _____ sure every _____ to the network has a _____?

_____ we able _____ explore techniques _____ would allow us to _____ and _____ filters _____ all _____?

_____ to check if content filters _____ implemented _____ device?

_____ help _____ ensure my network _____ same good _____?

Is _____ a way for _____ to _____ applied _____ all _____ devices?

Can _____ secure _____ content filters _____ connected _____?

Content _____ should _____ consistent and _____ on _____ connected _____.

How _____ make sure _____ on our _____ effective content _____?

Is there a _____ implement _____ content filtering across _____?

_____ we do _____ make sure the _____ filters on _____ is consistent?

Can you _____ sure _____ the devices on _____ have the _____?

_____ do we make _____ apply _____ and bomb-ass _____ to all the _____ our network?

What measures are _____ place _____ that _____ connected _____ are free _____ objectionable _____?

_____ to _____ if _____ can _____ sure _____ have solid filters.

I'd _____ to _____ network has the _____ good filters.

_____ possible to make the network's connected devices _____?

How do we make sure _____ every _____ proper content _____?

_____ how _____ make sure _____ protection with _____ filters for all devices?

How _____ be sure _____ connected devices follow _____ same content _____ on _____?

How _____ content filters in our _____ devices?

_____ do _____ that _____ of _____ network devices have _____ content _____?

Can _____ help ensure _____ my network _____ filters?

Can we figure out how _____ apply _____ on _____ network?

_____ anything _____ do to apply _____ filters _____ connected devices?

There is _____ to ensure _____ network's _____ devices _____ enforce _____ filtering standards.

_____ need to take _____ a consistent and impactful _____ of _____ connected _____.

Can _____ make certain _____ my network has quality _____ that _____?

_____ want to know if _____ can _____ our gadgets _____ filters.

_____ we _____ device on our _____ has _____ filters?

_____ every device on _____ network has proper content _____?

Were you _____ help us implement _____ applying content filters _____ network?

_____ you make sure _____ devices _____ proper _____?

Are _____ comprehensive _____ functional content filters _____ all devices on _____?

_____ a way _____ that all the _____ have _____ filters?

_____ it possible _____ connected to our network to _____ forced into _____ consistent _____ content _____?

_____ there _____ way _____ ensure _____ and _____ content _____ across connected _____?

Is there _____ to make sure _____ all _____ devices connected to _____ equipped _____ filters?

Can we _____ the _____ to _____ network _____ into _____ and bomb-ass content blocks?

_____ we _____ that network devices have consistent, _____ filters?

_____ to make _____ all _____ devices _____ good content _____?

How can we _____ are _____ and _____ content filters _____ to _____?

_____ you _____ content filters _____ all _____ devices efficient?

Do _____ a way to uniformly _____ to _____ network?

I _____ making _____ my network _____ the same _____.

_____ it _____ you to ensure effective content _____ device?

_____ we _____ methods to apply filter _____ device?

_____ we figure out how _____ get _____ content _____?

Is there _____ to _____ if the _____ on every device?

Is _____ possible to make _____ effective _____ implemented for every _____ network?

Is _____ of _____ content filters on every _____?

There are steps needed to _____ impactful and consistent _____.

_____ it _____ to guarantee _____ reliable content filters _____ devices?

Is there a strategy _____ make _____ the devices _____ to our _____ the _____ filters?

_____ do we have to _____ to apply content _____?

_____ and efficient content filters?

How do _____ sure _____ devices _____ get _____ content filters?

Content _____ on the network should _____ uniform.

Can _____ comprehensive _____ functional content _____ for _____ connected devices?

Is _____ a way _____ has proper filters?

_____ possible _____ that _____ device on _____ has reliable content filters?

_____ of our network-connected _____ have _____ filters?

How _____ we _____ content _____ on all _____ devices?

How _____ we _____ that _____ content filters _____ put in _____?

There is _____ question of _____ content filters _____ devices.

Do you _____ way _____ apply effective _____ filters _____ all _____ devices?

Is _____ possible that every _____ our network _____ filters?

_____ up with methods _____ filters on every device?

_____ do _____ make _____ gadgets _____ our network _____ forced to _____ consistent _____ bomb-ass content blocks?

Can we maintain _____ consistent _____ of _____ across _____ devices?

_____ I make _____ my network _____ good _____ content _____ for _____?

_____ do _____ keep our _____ of _____ material?

_____ can we _____ sure _____ the _____ on all _____ devices are _____?

How _____ network is always free of _____ content?

_____ we _____ the use of _____ filters _____ our gadgets?

_____ ensure _____ we _____ protection with _____ content filters for _____ our devices?

_____ do we _____ sure _____ network _____ of objectionable content?

_____ can _____ sure that _____ the network _____ same filters applied to _____?

_____ anyone _____ if content _____ are implemented on every device?

_____ we make _____ that our network _____ have _____ filters?

_____ make _____ network- _____ have the same filters?

_____ there a _____ to _____ that all network _____ devices _____ reliable _____ thorough _____?

_____ we _____ strategies that can _____ implementation of powerful _____ on every _____ to _____ network?

_____ sure my network _____ good _____ filters _____ work?

Is _____ implement _____ and efficient _____ filter across _____ network?

_____ can we _____ that _____ our _____ applies effective content _____?

Is _____ possible to ensure that _____ implemented for _____ our network?

We'd like _____ reliable methods of _____ content _____ consistently _____ our _____.

_____ don't _____ how to _____ sure that every _____ on _____ proper _____.

_____ how to _____ reliable protection _____ effective _____ for _____ of our devices?

Is there _____ way _____ apply _____ filters on all _____?

Uniform _____ required for our network.

_____ make _____ the devices have _____ content filters?

What _____ we do to _____ that _____ connected _____ are _____ objectionable _____?

Content _____ consistently on _____ connected devices.

What _____ are _____ sure _____ network- connected devices _____ free _____ content?

_____ we make all of our _____ the _____ filters?

_____ is it possible _____ every device _____ applies effective _____?

_____ there _____ to make _____ gadgets have _____ correct filters?
 You might _____ us _____ uniformity and _____ content filters _____ our network.
 _____ make sure we _____ efficient _____ uniform _____ filters?
 Can I _____ my network _____ device _____?
 _____ how to guarantee _____ filters _____ network devices.
 _____ sure _____ every device is _____ effective content filters?
 _____ to _____ network devices have consistent _____ useful _____ filters?
 _____ can we make _____ every device on _____ network _____ and _____ filter?
 _____ there _____ way to make sure the gadgets _____ filters?
 What _____ can be taken _____ that _____ network devices _____ of _____?
 _____ want _____ know _____ is _____ way _____ ensure that _____ gadgets have proper _____.
 _____ possible _____ ensure consistent, _____ filters on _____ network _____ devices?
 _____ can we keep reliable _____ filtering _____ our _____?
 Is _____ you _____ help me _____ sure _____ has the same _____?
 _____ needs to _____ a _____ application _____ content filters _____ devices.
 _____ there _____ way _____ ensure _____ effective content _____ are implemented _____ all _____?
 How _____ the devices in our network adhere _____ the _____?
 How can _____ consistency in application of _____?
 Ensuring _____ devices have _____ same content _____.
 Is it _____ to put consistent _____ content _____ our _____?
 _____ can _____ make sure _____ all _____ have _____ filters?
 Can you _____ us how _____ protection _____ effective content _____ all our _____?
 _____ content filters for every _____.
 Is it _____ to assure the use of _____ filters _____ internet?
 _____ we ensure a consistent and _____ content filters _____ devices?
 Is it safe to _____ that _____ on _____ have _____ and unvarying _____?
 Can you make _____ that all _____ our _____ follow _____?
 Is there _____ unvarying _____ filters in _____ every _____ the network?
 Can we make _____ device _____ has _____ and constant content _____?
 _____ are the steps _____ need _____ to _____ filters _____ connected devices?
 _____ we _____ sure every device hooked _____ our network _____ the _____ filters?
 _____ you _____ to make sure _____ solid filters?
 _____ there _____ way _____ apply _____ content _____ all connected devices.
 Are _____ ways to _____ effective content _____ to _____?
 Is it _____ that the _____ to connected devices are _____?
 How _____ make sure _____ consistent _____ filters are _____ devices?
 _____ us with the implementation of _____ applying content _____ across _____ network?
 Is _____ to make _____ every _____ connected _____ the network _____ effective content _____?
 _____ it _____ you to assure _____ all devices _____ the _____ the appropriate _____?
 Is _____ any way _____ enforce a _____ of powerful _____ filters _____ device _____ to _____ network?
 _____ there _____ to _____ that _____ filters are implemented on every _____ in _____?
 Is _____ possible _____ all the gadgets _____ potent _____ aligned filters?
 Can you _____ are effective _____ consistent content filters on _____?
 There should be _____ and _____ on _____ devices.
 Do you _____ way to _____ to our whole _____?
 _____ it _____ get _____ and _____ content filtering _____ connected devices?
 Do _____ any techniques that _____ deploy potent and _____ content _____ across _____?
 _____ for our network to _____ efficient _____ filters?
 _____ you _____ if every single device _____ our _____ content filters?
 Is there _____ way _____ make _____ implemented on all devices?

What can _____ done to _____ a _____ filters _____ connected devices?
 Is there _____ to _____ filters throughout _____ connected _____?
 Can _____ guarantee _____ on network _____?
 How do _____ make sure _____ our network _____ the content _____?
 How _____ we _____ our _____ have consistent _____ effective content _____?
 _____ do _____ that _____ network-connected _____ are free of undesirable _____?
 _____ you help us _____ reliable protection with _____ for _____ devices hooked _____ net?
 _____ a _____ in place to make _____ that _____ the devices on our _____ have _____?
 _____ make sure every device _____ my network _____ the _____?
 How do _____ make _____ every _____ our network _____ right content _____?
 Can you _____ my _____ has the _____ filters?
 _____ can we ensure _____ network connected devices _____ content?
 How _____ we make sure _____ in the _____ complying with _____?
 Can you _____ us _____ the _____ filters _____ our network?
 How do _____ make _____ all _____ the devices _____ our network _____ effective _____?
 _____ help us _____ consistency and _____ the _____ filters on _____ network.
 _____ be _____ to _____ and functional content filters _____ our _____?
 _____ possible to _____ that _____ filtering _____ across all _____ devices is _____?
 Is _____ possible _____ uniform _____ powerful content _____ on _____ device on _____ network?
 Can I make sure _____ quality _____ work?
 How _____ we continue to _____ content _____ across _____ devices?
 Is _____ to assure _____ and consistent _____ everything linked _____ on _____?
 How _____ we make sure _____ are used on _____?
 _____ do _____ make _____ network is _____ from _____ content?
 I _____ there _____ way _____ all connected devices _____ the same content _____.
 Can you _____ ensure reliable protection with effective _____ for _____ devices _____ net?
 Is it _____ ensure that all _____ on our _____ content _____?
 Can _____ all _____ on the _____ follow the right filters?
 Is _____ a way to _____ sure that every device _____ the same _____?
 We may _____ to _____ deploy potent and _____ filters _____ all _____.
 _____ do we make _____ filters work _____ network-linked devices?
 _____ you be _____ to help _____ maintain uniformity _____ effectiveness _____ content _____?
 Can you show _____ ensure _____ protection with _____ for all _____ connected to the _____?
 _____ make _____ the content _____ on all the _____ consistent?
 _____ it possible to uniformly _____ filters across _____ gadgets?
 What _____ do to make _____ every _____ to _____ network has _____ constant _____?
 We _____ know _____ to _____ every _____ on the _____ has _____ and constant _____ filter.
 How _____ we _____ that each device _____ network applies effective _____?
 Content _____ device on our network _____ uniform.
 Can _____ promise that _____ content _____ will be effective?
 Is _____ and efficient content _____ across connected devices?
 _____ it possible _____ that _____ devices have reliable _____?
 There are _____ use of _____ filters in _____ setup.
 _____ can be _____ that _____ gets safe and effective _____ filters?
 How do _____ make _____ everything _____ the net _____ free _____ harmful _____?
 Can you _____ all _____ on our _____ follow the _____ filters?
 _____ help _____ maintain _____ effectiveness _____ uniformity _____ filters on our network?
 _____ possible to _____ sure _____ device connected to the network _____ constant _____?
 Is there any _____ to make sure _____ the _____ filters _____ device _____ the _____?
 _____ can we do _____ order _____ content _____ across connected _____?

How _____ make sure every device in _____ free of _____ content?

How _____ maintain consistency in _____ content _____ across _____ network's _____?

_____ to ensure consistent and efficient _____ on all _____?

Is there _____ to make sure _____ all _____ filters?

_____ there _____ way to _____ filters _____ across all _____ devices are _____?

_____ a plan in place to _____ sure _____ devices connected _____ network are _____ with useful _____?

Is it possible _____ the gadgets _____ to our _____ aligned _____?

Is there a _____ to make _____ that _____ has _____ content _____?

How do we _____ sure all the _____ on _____ consistent _____ blocks?

_____ make sure _____ the stuff in _____ network has the _____?

Is _____ a _____ that _____ can _____ deploy potent _____ filters across _____ of _____ gadgets?

Can _____ create _____ for _____ filter _____ on each _____?

_____ it _____ every device _____ up to _____ network _____ the same _____?

_____ can be _____ maintain _____ filter on our _____.

_____ to confirm that _____ filters are _____ on _____ device?

_____ you _____ me _____ sure _____ filters _____ the same?

_____ it _____ for _____ guarantee that _____ on _____ follow the proper _____ filters?

Is _____ to _____ strong _____ consistent _____ for everything _____ the _____.

_____ can we make _____ of _____ content filters _____ consistent?

How do we _____ we _____ effective _____ on _____ network _____?

Content filters _____ be uniform _____ for _____ of _____.

_____ there a _____ to ensure that _____ good _____?
