Masked sample paraphrases of one "Home Repair and Maintenance Company" customer inquiry. (Purchased data will not be masked.)

Can _____ cause smoke to _____ living spaces even _____ blockages?

If _____ will insufficient ventilation _____ to backdraft through living _____?

Is it possible _____ can _____ living _____ if _____ no obstructions?

_____ nothing _____ smoke backflow, _____ still be _____ by inadequate _____?

Is smoke coming _____ without _____ air circulation is _____?

_____ is _____ problem, will smoke _____ through living _____ to _____ Ventilation?

If _____ no _____ can _____ allow _____ smoky backdrafts?

_____ into homes can _____ caused by _____.

Would inadequate ventilating _____ if _____ no issues?

_____ deficient Ventilation _____ allow for _____ if _____ obstacles?

_____ is blocking _____ will it _____ if _____ is inadequate _____?

_____ backdraft _____ experience poorly ventilated _____.

_____ possible _____ a _____ of sufficient _____ flow _____ cause smoky _____ in residential _____?

_____ reverse into _____ even _____ there is no _____.

Can _____ ventilation cause _____?

Is _____ any _____ of _____ backdrafting _____ living _____ if there _____ obstructions in _____?

_____ there _____ will _____ cause smoke to _____ in living rooms?

_____ insufficient Ventilation _____ smoke to _____ living spaces if _____ isn't _____?

_____ smoke coming _____ living _____ without _____ because _____ ventilation?

_____ there a chance _____ due to a lack _____ proper Ventilation?

Is _____ possible that _____ flow can lead to _____?

_____ it _____ for there to _____ insufficient _____ flow _____ in houses?

Is it _____ for smoke _____ into _____ spaces _____ are no _____?

Is smoke _____ living _____ because _____ poor ventilation?

_____ smoke backdraft _____ living areas _____ of inadequate _____?

Is it possible _____ smoke to be backdrafted _____ of _____ air _____?

Is _____ possible _____ lack _____ flow will result _____ smoke-filled _____?

_____ nothing is blocking the _____ will it _____ insufficient _____?

Is there _____ that inadequate ventilation could _____?

If _____ are no obstructions, would inadequate _____?

_____ Ventilation allow _____ there are no obstacles?

The possibility _____ smoke backing _____ inside _____ be _____ inadequate vents.

_____ deficient air allow _____ smoky _____ if _____ obstacles?

_____ smoke from backdraft into _____ insufficient Ventilation cause the problem?

Is _____ possible smoke _____ into living _____ even if _____ no _____?

_____ suffer _____ backdraft when unblocked?

Is _____ of smoky _____ in _____ no venting?

Is smoke _____ living _____ if the _____ circulation _____ good?

_____ it cause backdraft of _____ homes if _____ insufficient _____?

Is smoke coming _____ barriers _____ of _____?

_____ no _____ insufficient ventilating _____ smoke to backdraft _____ living rooms?

_____ smoke backflow _____ caused by _____ Ventilation _____ nothing _____ blocking _____?

_____ backdraft a _____ in _____ ventilated _____?

_____ still pushing sooty air _____ no obstructions?

Is it _____ lack of _____ smoky drafts in residential _____?

Can _____ reverse _____ if _____ is _____ ventilation?

Smoke _____ in _____ spaces when unblocked.

_____ is blocking smoke backflow, will _____ be _____?

Is smoke _____ into living areas without _____ circulation is _____?

_____ there _____ no _____ but _____ Ventilation will cause smoke _____ rooms?

Smoke can _____ if there _____ absence of _____.

Is _____ smoke to _____ backdrafted due to _____ of _____ air _____?

_____ there are _____ house still have the _____ backdrafts?

_____ can _____ smoke backdraft _____ poorlyventilated _____.

In case _____ problem, _____ insufficient Ventilation _____ to backdraft _____ living _____?

Is _____ coming into _____ obstructions due _____ Ventilation?

Will smoke _____ happen even _____ nothing _____?

Is it _____ possible _____ for smoke _____ back _____?

_____ smoke _____ up inside a home caused by _____?

_____ poor _____ circulation _____ the case, _____ smoke _____ into living _____ without _____?

_____ a _____ of _____ up _____ home if the _____ is inadequate.

Can _____ of smoke _____ homes?

_____ smoke to backdraft _____ even if _____ is no _____?

_____ air circulation _____ be _____ cause _____ smoke _____ living areas _____ obstructions.

_____ with _____ can smoke _____ homes?

Is smoke _____ areas _____ due to lack _____ Ventilation?

_____ there _____ anything blocking the _____ backflow, will _____ result _____?

_____ there any chance of smoke backdraft into _____ if _____ in _____?

_____ possible that insufficient _____ circulation _____ smoke to _____ indoors?

Is _____ to have smoky backdrafts _____?

_____ poor _____ is the _____ smoke _____ into living _____ without obstructions?

_____ ventilated places _____ backdraft when _____?

_____ no issue, will _____ Ventilation _____ smoke to _____ through living _____?

_____ be caused by insufficient _____.

_____ possible _____ smoke to be _____ indoors because _____ of proper _____ movement?

Can there _____ backdraft _____ homes?

_____ smoke _____ into _____ without obstructions if it _____ of poor air _____?

Can poorlyventilated _____ if unblocked?

Poor _____ cause _____ into homes.

_____ of ventilation _____ backdraft into living spaces.

Even _____ is _____ problem, will _____ Ventilation cause _____ to backdraft _____?

_____ for smoke _____ get backdrafted _____ any obstructions?

Can _____ backdraft indoors _____ lack _____ Ventilation?

Is _____ possible for _____ insufficient _____ cause smoky _____ in homes?

Will insufficient _____ smoke _____ backdraft if _____ trouble?

Is _____ of smoke backdraft into _____ spaces if _____ obstructions

Is there a _____ of _____ there _____ ducts?

_____ poor air circulation _____ the _____ does _____ coming into _____ obstructions?

_____ can lead to _____ backing _____.

_____ if there _____ no _____ will _____ Ventilation _____ smoke to _____?

_____ smoky _____ still _____ there is _____ obstacles?

Does _____ Ventilation _____ even if there isn't _____ problem?

_____ it possible _____ smoke to _____ there is _____ proper _____?

_____ bad _____ will come _____ into _____ living areas?

If there _____ no _____ will insufficient _____ to _____?

Is _____ into homes without _____ of poor _____?

There _____ smoke _____ unblocked rooms due _____ Ventilation.

If _____ blocking _____ smoke backflow, can _____ caused _____ inadequate Ventilation?

If nothing _____ it still be _____ inadequate ventilation?

_____ living areas _____ barriers because of _____ Ventilation

If poor air _____ is the _____ is _____ into living _____?

If there _____ no _____ be smoke _____ through living _____?

Is _____ a _____ of _____ into _____ spaces _____ there aren't _____ obstructions?

_____ is _____ chance of smoke _____ into _____ spaces _____ there _____.

Is there _____ chance _____ backdraft into _____ there isn't any _____ the _____?

Is _____ a lack _____ air _____ to _____ smoky drafts?

_____ poor air circulation _____ does _____ come in without _____?

If _____ is no ductwork _____ can be _____ the _____.

Is it _____ could be backdraft _____ into _____.

Is _____ into _____ without obstructions because _____ bad _____?

Can a _____ lead _____ inside?

_____ it possible _____ smoke _____ cause _____ into _____?

Is smoke _____ caused by _____ of Ventilation?

_____ allow _____ backdrafts if _____ are no obstacles?

Is there _____ that _____ backdraft _____ there are no obstructions?

_____ is no ductwork _____ can _____ smoke _____ living _____.

Smoke _____ if proper ventilation _____.

Is _____ living _____ obstructions _____ of poor air circulation?

_____ spaces _____ smoke backdrafts?

Does _____ ventilation _____ smoke will come _____ areas?

Smoke _____ into _____ to insufficient Ventilation.

_____ it possible _____ bad _____ makes _____ blow back into _____?

Can smoke come back _____ homes _____ is _____?

_____ there aren't _____ inadequate ventilating _____ sooty air _____?

Smoke _____ be brought _____ living _____ Ventilation

Isn't it _____ for _____ be _____ indoors _____ lack of proper _____?

Is there a _____ of smoky _____ there _____ walls?

_____ it _____ backtrack indoors even with no _____.

____ it ____ to backdraft into ____ even if ____ no blockages?
 Smoke ____ enter living ____ blocks ____ of ____ ventilation.
 ____ smoke ____ one's home may be ____ by inadequate vents.
 Is it ____ that ____ makes smoke ____ back ____ living ____?
 ____ possible ____ blows ____ into my living ____ no blocking?

 ____ possible for a ____ of ____ flow ____ drafts in homes?
 ____ it possible ____ there is ____ air flow ____ in residential spaces?
 Is ____ possible for smoke to back ____ because of ____?
 ____ there ____ no problem, ____ Ventilation ____ in living spaces?
 ____ to cause smoky ____ without ____?
 Smoke ____ inside if ____ no proper ____.
 Is ____ a risk ____ in unvented ____.
 Is ____ for ____ be ____ because of ____ lack of proper ____?
 ____ bad ventilating ____ smoke ____ back into ____?
 If ____ any obstructions, wouldn't ____ venting push ____ air ____?
 Can smoke backdraft ____ due ____ absence ____ proper ____?
 Is ____ possible ____ lack ____ air can cause smoky ____?
 Even ____ obstructions, can ____ a ____?
 ____ it ____ for smoke ____ into living ____ if there ____ no ____?
 If ____ problem, will ____ lead to smoke ____ backdraft?
 Is smoke coming ____ areas ____ obstructions ____ of ____ areas?
 Can ____ reverse ____ homes ____ if there ____ no ____?
 ____ there ____ smoky ____ in non-vented spaces?
 ____ that ____ Ventilation ____ result in smoke ____ nothing ____ blocking it?
 Is ____ possible ____ smoke to ____ indoors ____ without ____?
 Is ____ that insufficient ____ flow will lead ____ back ____ areas?
 Is ____ possible to have ____ our house ____ no obstacles?
 ____ smoke come into ____ without ____ due to ____?
 ____ it possible ____ a lack of ____ could cause ____ drafts ____?
 Is smoke coming ____ without obstructions ____ air circulation?
 ____ is ____ a ____ will insufficient ____ cause smoke ____ backdraft ____ living ____?
 There can ____ smoke ____ living ____ ductwork.
 Do ____ think ____ risk of ____ backdraft ____ in unobstructed ____?
 Will ____ inside the ____ due to ____ flow?
 ____ coming into unblocked ____ to ____ of ventilation?
 ____ of Ventilation can ____ reverse into ____.
 Is it ____ that ____ could cause ____ smoke?
 ____ in ____ areas without ____ due to poor ____?
 Is it ____ for smoke to be ____ if ____ obstructions ____ room?

____ may backdraft ____ there is no problem.
 ____ there are no ____ inadequate ____ still push ____ air ____?
 Is ____ coming into living areas without ____ if ____?
 If ____ is blocking ____ it still be ____ inadequate ____ flow?
 Is ____ venting ____ pushing sooty ____ inside ____ no obstruction?
 ____ up inside ____ home if ____ are inadequate.
 ____ if ____ blocking smoke backflow, ____ it result from ____?
 If there ____ will ____ Ventilation create ____ backdraft?
 ____ deficient ____ allow ____ smoky backdrafts ____ our house if ____ no ____?
 ____ it ____ for smoke ____ backdraft indoors ____ ventilation?
 ____ there is ____ problem, ____ insufficient ____ cause smoke ____ living rooms?
 Is the ____ coming into ____ by ____ ventilation?
 ____ isn't a ____ will ____ Ventilation cause smoke to ____ rooms?
 Can ____ lead to smoky ____?
 ____ may get ____ with ____ blocks.
 If ____ air ____ is ____ is ____ coming ____ without obstructions?
 Smoke ____ into unblocked ____.
 Does ____ result in ____ backdrafts?
 ____ a chance ____ into Living ____ there aren't ____ in the space.
 Is ____ coming into living areas ____ is true?
 When ____ in ____ way, can ____ smoke to fill ____ house?
 ____ backdrafts into living ____ be ____ of ventilation.
 ____ ventilating lead ____ smoke backing ____?
 If ____ will ____ cause smoke ____ backdraft through living spaces?
 If there are ____ can insufficient ventilation cause ____ to ____?
 Smoke ____ come ____ unblocked ____.
 ____ there is no ____ will ____ Ventilation ____ back draft through living ____?
 Is ____ possible for ____ reverse into ____ without ____?
 ____ poorlyventilated space ____ smoke ____ when ____?
 Is it possible ____ smoke ____ into ____ spaces even ____ obstructions?
 ____ possible ____ from backdraft into ____ spaces can ____ insufficient ventilation?
 Is ____ any chance of smoke backdraft ____ any ____ the air?
 Is smoke ____ areas ____ obstructions if ____ air ____ is ____?
 ____ living areas ____ obstructions if it is ____ poor ____ circulation?
 Is ____ coming into ____ areas ____ poor ____ is the main ____?
 ____ there ____ anything blocking ____ it ____ in smoke backflow?
 If the ____ the lack ____ result in a smoke backflow?
 If ____ circulation is ____ coming into ____ areas without obstacles?
 Is ____ possible ____ of ____ flow to ____ in ____ rooms?
 If ____ will insufficient Ventilation ____ smoke to ____ living spaces?
 If ____ air circulation is the case, ____ come into ____?
 ____ there ____ chance of ____ into living spaces if ____ obstructions ____ space?
 ____ ventilation can ____ smoky ____.
 ____ to make ____ indoors without obstacles?
 If there ____ too ____ Ventilation cause smoke ____ backdraft?
 ____ it possible ____ lack of adequate ____ flow ____ smoky drafts ____ spaces?
 ____ there ____ no ____ will ____ Ventilation cause smoke ____ backdraft ____ living ____?
 ____ Ventilation cause smoke to backdraft through living ____ there ____?
 Is ____ backflow ____ caused ____ insufficient ____ if nothing ____ it?
 ____ spaces ____ experience smoke backdraft?

Even _____ no _____ insufficient _____ cause smoke to backdraft?
 _____ there any chance of _____ backdraft _____ spaces _____ aren't any _____.

Is it possible that _____ ventilating _____ the _____?
 _____ the _____ backflow isn't blocking it, will the lack _____ a _____?
 _____ it _____ inadequate Ventilation will _____ smoke _____ is blocking it?

Even if there _____ smoke to backdraft _____ living spaces?
 Is _____ smoke can _____ backdraft in _____?
 Is there _____ risk _____ even in _____ spaces?
 _____ Ventilation causing _____ indoors - obstruction-free?
 _____ there isn't a _____ insufficient _____ cause _____ into living spaces?

There is _____ smoke _____ isn't any obstructions in the air.
 Lack of _____ smoke _____ backdraft indoors _____?
 Will _____ lack of air _____ being forced _____ into the _____?
 _____ it possible _____ to _____ backdrafted indoors _____ a _____ of proper _____?
 _____ it _____ that _____ of _____ could _____ smoky drafts?

There _____ of _____ backing up _____ the _____ the vent is _____.

Can weak ventilation lead _____?
 _____ risk that insufficient _____ cause smoke _____ backdraft _____ living rooms?
 Smoke _____ backdraft _____ be caused _____ absence _____ proper Ventilation
 Smoke can be _____ homes _____ insufficient air _____.

Does smoke _____ into living _____ of _____ ventilation?
 _____ possibility of _____ up _____ a home _____ the _____ is inadequate?
 _____ living spaces if _____ are no obstructions?
 _____ insufficient Ventilation cause smoke _____ backdraft _____ living rooms _____ is _____?

Smoke can _____ there is _____ absence of _____.

_____ there is no _____ will insufficient _____ backdraft through the _____ rooms?

Smoke to _____ indoors _____ inadequate Ventilation.

Smoke may _____ if there _____ of _____ Ventilation.

_____ smoke _____ through living _____ if insufficient Ventilation _____?

Can insufficient _____ to backdraft _____ living rooms _____ there _____ problem?
 _____ smoke to backdraft into _____ there _____ no _____?

Does deficient _____ for _____ there are no _____?
 _____ it possible that _____ Ventilation will _____ smoke _____?

Smoke _____ areas without _____ may _____ because _____ ventilation.
 _____ risk _____ smoky _____ even if there _____ no obstructions?

Is it _____ for smoke _____ backtrack _____ if there _____?

Smoke _____ could _____ by inadequate Ventilation.

Is _____ chance _____ backdraft _____ if there isn't any obstructions?

Does weak _____ backdrafts _____ obstacles?
 _____ for smoke _____ indoors as a _____ of _____ lack _____ proper ventilation?

If there _____ no _____ will _____ Ventilation _____ smoke _____ into _____ spaces?

Is _____ a possibility _____ up inside a home _____ are not _____?
 _____ coming into _____ areas _____ because _____ poor ventilating?

Even _____ nothing _____ the smoke _____ will it result _____?
 _____ smoke to backtrack indoors because _____ insufficient air _____?
 _____ chance _____ backdraft into _____ spaces if _____ are no obstructions in _____.

Is _____ possible _____ a _____ of air _____ cause smoky _____ homes?

Could it cause _____ into _____?

Even if _____ smoke _____ be caused _____ inadequate ventilation?

Is _____ smoke to _____ backdrafted indoors due _____ lack of _____?
 _____ smoke _____ without obstructions _____ there _____ poor air Circulation?
 _____ there any _____ smoke _____ if there _____ no _____ in the air?
 _____ is _____ issue, _____ insufficient _____ smoke to backdraft?
 _____ smoke _____ areas with no _____ because _____ poor _____?

Is _____ to _____ a lack _____ air _____ to _____ smoky drafts?

Is _____ coming _____ obstructions if _____ is not good?

Is it _____ of air circulation to cause _____?

Is _____ for smoke _____ into _____ without obstructions?
 _____ there are no obstacles, _____ still _____ backdrafts.
 _____ possibility of smoke backing up _____ if _____ vent _____ inadequate?
 _____ there any chance of _____ living _____ if there _____ obstructions?

There _____ be smoke in _____ rooms _____ occurs.

Will _____ be _____ limited airflow?

Is _____ any _____ of _____ Living spaces _____ aren't any obstructions?

If there _____ problem, will _____ through living rooms _____ Ventilation?
 _____ the lack _____ cause smoke _____ into living _____?

Will there _____ backdrafts in the house _____ flow?

If _____ causes _____ come into _____ areas without _____ is it _____ problem?

Can _____ poorlyventilated _____ backdraft?
 _____ can _____ to smoky backdrafts _____.

Is it possible _____ inadequate _____ smoke infiltration?

If smoke comes _____ living _____ is it _____ to poor _____?

Is it _____ have smoky _____ inside _____ there is no _____?
 _____ of smoke _____ into Living _____ if there _____ any _____.

____ we ____ smoky backdrafts ____ our ____ if there is ____?
 ____ there a possibility ____ lead ____ smoke infiltration?
 Will insufficient ____ smoke to backdraft through ____ rooms even if ____?
 Is ____ able to ____ into ____ obstructions?
 ____ it possible ____ make smoke ____ if ____ is ____ blockade?
 Is it ____ for ____ backtrack indoors ____ blockades.
 If ____ no ____ Ventilation cause ____ backdraft through living ____?
 ____ there ____ Ventilation causes smoke to ____ through living spaces?
 Can smoke come ____ even though ____ obstructions?
 ____ there ____ obstructions, would inadequate venting still push ____?
 ____ coming into ____ areas without obstructions ____ reason is bad ____?
 ____ it possible for ____ backtrack indoors ____ any ____?
 ____ is no problems, ____ Ventilation ____ to ____ through living spaces?
 ____ could end ____ in unblocked ____ insufficient ventilation.
 ____ Ventilation ____ smoke to backdraft through living ____ there is ____?
 ____ areas without obstructions because ____ poor air ____?
 ____ no obstructions, ____ inadequate ____ still push sooty ____ inside?
 Is it possible ____ inadequate Ventilation ____ smoke ____?
 Will the ____ Ventilation cause ____ smoke ____ if ____ is not blocking ____?
 Can smoke ____ into living ____ if there ____?
 Is it ____ smoke ____ backdrafted ____ even if there ____ obstructions?
 Even ____ there ____ problem, will insufficient Ventilation cause smoke ____?
 Is smoke coming ____ areas without ____ if ____ is what ____ problem ____?
 Is it ____ insufficient smoke to ____ back ____?
 Does ____ Ventilation ____ to ____ living ____ if there is ____ problem?
 ____ living areas ____ obstructions ____ be ____ by ____ Ventilation.
 ____ coming into areas without obstructions ____ poor ____ circulation ____?
 ____ it ____ for ____ to go backtrack ____ if ____ are ____ blockades?
 ____ entering ____ areas ____ blocks could ____ of poor ventilation.
 ____ poor air ____ case, can ____ come ____ living areas?
 Is the ____ backing ____ inside ____ home due to ____?
 ____ there ____ risk ____ smoke ____ up ____ one's ____ if the vent ____?
 If there ____ obstacles, can deficient ____ allow for ____?
 Even ____ nothing ____ blocking smoke ____ will ____ by inadequate ____?
 ____ can ____ due to ____ Ventilation.
 Will ____ be insufficient air ____ smoke being ____ back ____ inhabited ____?
 Smoke backdraft ____ occur ____ poorly ____ spaces ____ unblocked.
 ____ smoke ____ living ____ obstructions ____ root of ____ issue ____ poor air circulation?
 It's ____ ventilation ____ cause smoke ____.
 Smoke coming into living ____ can ____ by ____ ventilation.
 ____ possible ____ circulation ____ smoke ____ backtrack indoors even with no blockades?
 Is ____ into ____ areas ____ is due to bad air ____?
 ____ it ____ of smoke ____ into homes?
 ____ may ____ unblocked ____ from insufficient ____.
 Is it possible for ____ be ____ proper Ventilation?
 ____ smoky backdrafts occur as ____ airflow?
 If ____ is no problem, ____ insufficient Ventilation ____ backdraft?
 ____ be caused to backdraft indoors ____ lack ____?
 Is smoke ____ still ____ by ____ if ____ blocking it?
 ____ there's no ____ can ____ in the ____ space.

____ you think ____ a risk of smoky ____ unvented ____?
 If ____ is blocking the smoke ____ can ____ by inadequate ____.
 ____ is ____ problem, will insufficient Ventilation ____ smoke to ____ rooms.
 ____ it ____ poor ____ could lead ____ smoke infiltration?
 ____ it ____ for ____ to ____ into ____ spaces ____ if ____ isn't ____ problem?
 Smoke entering living areas without ____ of ____ ventilation.
 Is it possible for ____ homes even ____?
 ____ be smoky backdrafts ____ the ____ due ____ air flow?
 Will ____ cause smoke to backdraft ____ there ____ issue?
 ____ coming ____ areas ____ obstructions can be ____ poor Ventilation.
 ____ smoke backdraft possible ____ ventilated ____?
 Will ____ Ventilation cause smoke ____ backdraft ____ issues?
 Is there ____ that smoke will ____ even if there are ____?
 If there is ____ problem, will ____ of ____ backdraft?
 ____ into ____ without ____ due to bad ventilation?
