

[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Fuel efficiency and environmental concerns
Inquiry Sub-Category	Fuel Efficiency and Performance Trade-Offs
Description	Customers explore the trade-offs between fuel efficiency and vehicle performance attributes, such as horsepower, torque, acceleration, and towing capacity, seeking expert advice on finding a balance that suits their needs.
Data Size	6,103 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

Is ____ a specific engine type ____ power and great ____ simultaneously?
 ____ a ____ that is also fuel ____?
 Do ____ any ____ that provide ____ performance and efficiency?
 What specific ____ or innovations ____ balance ____ energy conversion, force, and ____?
 Is there an ____ high ____ and ____ impressive economy?
 ____ you ____ engines can ____ a lot of power ____ gas mileage at ____ time?
 ____ a ____ that ____ power and efficiency?
 Is ____ chance ____ finding an engine system ____ can ____ strong ____ fuel efficiency?
 ____ motor ____ to propel a vehicle quickly ____ up ____ gas?
 ____ believe any ____ engines ____ combine a ____ good gas mileage ____ the same time?
 What ____ chances of finding ____ engine ____ offer good performance ____ compromising ____ fuel efficiency?
 ____ engine ____ and fuel efficiency?
 ____ there ____ engine tech that ____ enable exceptional ____ while ____ low ____.
 Is there an option ____ good power ____?
 ____ there ____ fuel ____ powerful options ____?
 What are ____ for engines ____ both power ____ efficiency?
 Good economy and ____ force can ____ engine ____?
 Is ____ tech that ____ enable ____ while still ____ less gas?
 Is it ____ to ____ an engine ____ that provides ____ and ____ economy ____?
 What ____ of finding ____ system that ____ good ____ good fuel efficiency?
 ____ a ____ that makes cars get ____ mpg and still ____?
 Which ____ with fuel ____?
 Can you ____ an engine ____ good ____ fuel efficiency?
 ____ there an engine type ____ amazing mileage ____?
 ____ the possibilities for engines that ____ power ____ fuel ____?
 Is ____ to ____ engine ____ that could deliver HP ____ amazing ____?
 Are ____ power ____ good fuel economy?
 Is it possible for ____ deliver ____ fuel economy?

_____ specific _____ or _____ that _____ conversion, force, and gasoline usage?
 Is _____ find _____ engine _____ great performance _____ great fuel efficiency?
 Is _____ engine type _____ power and fuel _____ at the same _____?
 Is _____ technology _____ combines fuel _____ power output?
 _____ there an _____ type _____ is _____ and still has power?
 _____ engine options _____ can _____ and outstanding _____ at the same time.
 How _____ engines that _____ both _____ fuel _____?
 _____ there any specific _____ that can give _____ power _____?
 _____ any _____ powers _____ that fetch top mpg and _____ be _____?
 _____ to _____ an _____ that _____ good power as _____ as great _____ economy together?
 Any motor _____ that can _____ quickly without _____?
 Good _____ and _____ available _____ the _____ type?
 Do you _____ the _____ engine _____ ensures _____ and economy?
 Is _____ possible _____ an engine type that _____ power and _____ fuel _____?
 _____ it possible _____ a _____ to _____ performance and _____?
 _____ there a specific engine _____ that has _____ fuel _____?
 _____ a particular _____ that combines _____ fuel consumption _____ output?
 Is it _____ find an engine system _____ performance _____ great _____.
 _____ a specific technology that combines _____ fuel consumption _____?
 You _____ any _____ engines can _____ a lot of _____ with _____?
 _____ it true _____ of _____ can _____ a lot of _____ great gas _____?
 Is _____ to suggest _____ type _____ delivers HP _____ mpgs?
 Has anyone _____ able _____ an _____ tech _____ enable _____ horsepower while _____ less _____?
 Is there _____ that gives _____ power and _____ same time?
 Can you _____ an engine that can _____ mpgs?
 Is it possible _____ suggest _____ offer impressive fuel _____ compromising _____ power?
 _____ tell me if there's a _____ mileage?
 Is _____ an _____ will _____ both power and _____?
 Is it _____ type and technology _____ good _____ and fuel economy _____?
 Is _____ possible to find _____ with _____ power _____ fuel economy?
 Will some motor _____ of forcefulness and _____?
 Is there _____ chance _____ finding an engine system _____ performance _____ compromising _____?
 Is there _____ of _____ system _____ offer strong performance _____ on fuel efficiency?
 _____ engines have optimal _____ and _____?
 _____ there be a technology _____ high _____ good _____?
 _____ get a _____ economy and sufficient power from _____?
 _____ fuel efficient and powerful _____?
 Is _____ possible to _____ with exceptional _____ efficiency in an _____?
 _____ there a specific _____ or _____ provides _____ and excellent mileage?
 What _____ the _____ for engines that deliver _____ same _____?
 Do you have any options _____ that _____ efficiency?
 Is _____ can do both power and _____ gas _____?
 Is it _____ to _____ an _____ and _____ that _____ good power _____ economy?
 _____ deliver _____ on performance and _____?
 _____ one engine _____ and _____ efficiency?
 Is _____ an engine _____ gives both _____ and _____ economy _____ time?
 Good economy _____ from the _____?
 What _____ technologies give power _____ mileage?
 Is _____ to have _____ is _____ horsepower but also _____ on _____?
 Has anyone been able _____ an engine tech that would allow _____?

Is _____ specific engine or _____ that _____ power _____?

Is there _____ technology _____ fuel use _____ output?

Is _____ possible _____ power _____ efficiency?

_____ anyone _____ engine _____ that makes an engine work _____ less _____ consumption?

_____ know of an _____ has good _____ and economy?

Is there _____ that enables exceptional _____ maintaining _____ gas _____.

_____ fuel efficient _____ engine _____ are _____?

Is there an _____ that ensures _____ economy?

Do you have _____ engines _____ both _____ and fuel _____?

Is _____ to find an engine _____ strength _____ excellent fuel _____?

_____ there any _____ or innovation that can _____ conversion, _____ and gasoline usage?

_____ that promises incredible force along _____ exceptional _____ efficiency?

_____ are the _____ engines _____ give _____ power and _____ efficiency?

Does it _____ sense _____ suggest _____ engine _____ that _____ deliver _____ mpgs?

_____ are any fuel _____ engine options out _____?

Is there an _____ both _____ good _____ efficiency?

_____ is an engine _____ be _____ for _____ and good _____.

Is _____ an engine type _____ can _____ fuel _____ without compromising _____ power?

Is there _____ finding an _____ can _____ strong performance _____ compromising on fuel _____?

Is it possible _____ find an _____ has _____ fuel efficiency.

Does _____ and fuel efficiency?

_____ you recommend an engine _____ fuel _____ and _____ power?

_____ to _____ type that can deliver amazing _____ and mpgs?

Is _____ possible _____ find _____ engine system _____ and great _____ efficiency.

_____ there an _____ that can offer _____ fuel _____ on power?

There is _____ engine _____ offer both power _____.

What options _____ there for _____ on performance and _____?

Do _____ think any of them _____ of _____ amazing gas _____ at the _____ time?

What are the chances _____ finding _____ engine system _____ and fuel _____ the same _____?

_____ you _____ that _____ are engines _____ lot _____ power with great _____ at the same _____?

Is _____ to _____ a _____ combines _____ performance with great _____ efficiency?

_____ possible _____ find _____ engine system that has good _____ and _____?

Is there _____ combines great _____ consumption and _____ output?

_____ there any engines _____ technologies _____ give _____ power _____ gas _____?

_____ an engine tech that _____ increase the power _____ the engine _____?

_____ do both power _____ fuel _____?

_____ an _____ that can deliver HP and amazing _____ mileage _____?

Is _____ any _____ technologies _____ combine _____ power output?

Is _____ possible for _____ exceptional horsepower while keeping _____ consumption _____?

Is _____ any motor _____ balance between energy _____ force, and _____ usage?

_____ to _____ a great fuel _____ sufficient power from _____ feat?

Is there a chance _____ system _____ strong _____ compromising on _____ efficiency?

_____ know of any _____ or _____ that give _____ and gas _____?

_____ there an engine _____ for _____ but also _____ for _____?

Is _____ an _____ that saves on _____ addition _____ satisfying _____?

_____ to find _____ system that combines strong _____ with _____ fuel _____?

_____ engine you can _____ for both _____ and good _____?

Is there a technology _____ strong performance _____?

What _____ that saves on _____ as _____?

_____ there an _____ deliver HP and amazing _____ also?

_____ the _____ for engines with _____ and good _____ efficiency?
 _____ there anything _____ and gas mileage?
 _____ you _____ for engines that _____ performance and _____ efficiency?
 Is it _____ an engine _____ technology to provide _____ as well as _____?
 Is _____ possible _____ find _____ engine _____ and _____ that give _____ and _____ economy?
 Can _____ engine _____ that combines _____ with _____ fuel _____ be _____?
 _____ type _____ engines _____ cars _____ offer superior power and remarkable _____?
 Is there _____ that _____ cars that _____ has plenty of _____?
 Is it _____ to _____ a _____ that gives _____ good fuel economy _____?
 _____ single engine that offers both power _____ fuel _____?
 Is _____ specific engine _____ or technology that can provide both _____ the _____ time?
 Is there an _____ that can _____ mileage?
 There are _____ engine options _____ outstanding _____ and optimal performance _____ the _____.
 Is _____ engine that _____ give _____ and fuel _____?
 _____ an engine that _____ provide both power _____ good _____?
 Is it _____ an engine system _____ combines excellent _____ efficiency?
 Is there an engine _____ both power _____ good _____.
 Is _____ a specific _____ to combine _____ power output?
 Is there an _____ both _____ and _____ economy?
 Is _____ choice _____ deliver both _____ and efficiency?
 Is _____ type _____ has _____ fuel _____ without compromising power?
 Is it _____ to _____ engine that _____ power _____ fuel economy?
 Is _____ any of _____ that combine _____ lot of _____ gas _____?
 Is _____ engine that _____ in the _____ way?
 _____ it _____ an _____ great performance and high fuel efficiency?
 Is _____ to _____ engine type that _____ deliver _____ and amazing _____?
 _____ be a specific _____ type _____ power and _____ economy _____ the same _____?
 Is _____ any _____ or _____ that _____ power and _____ mileage?
 Is _____ possible to _____ an engine system that _____ strong _____ and _____?
 What kind _____ engines _____ your cars _____ offer _____ and _____ fuel _____ at the same _____?
 Is _____ specific _____ type _____ both _____ and fuel _____ simultaneously?
 _____ possible to find _____ engine type _____ both _____ fuel economy?
 _____ power and efficiency?
 _____ there _____ single _____ both efficient and _____?
 Do you _____ engines _____ a lot of power with _____?
 _____ engine _____ that can _____ both optimal performance and outstanding _____?
 Is _____ an _____ type _____ compromise on _____ and _____ efficiency?
 _____ we get _____ economy with sufficient power _____ feat?
 _____ there _____ power cars that fetch top _____ still _____ powerful?
 There _____ certain _____ and _____ give _____ and gas mileage.
 _____ there a _____ engine _____ handle _____ power and _____?
 _____ a _____ type that can provide _____ power _____ economy?
 Is there a technology _____ fuel _____ compromising on _____?
 _____ of _____ combine _____ lot _____ power with _____ at the same time?
 _____ possible to suggest _____ engine _____ Delivers HP _____ mpgs?
 _____ engine _____ offers both power and fuel _____?
 Has _____ developed _____ engine _____ allows exceptional _____ low _____ consumption?
 _____ way to _____ engine _____ or technology _____ power as well as great _____ economy?
 Is there _____ that has _____ and fuel _____?
 There are _____ that _____ lot _____ with good gas mileage _____ time.

Do ____ think there are ____ that ____ a ____ of power with ____ gas ____ at ____ ____ ____?

Does ____ particular ____ or technology ____ and ____ mileage?

Is it ____ someone to ____ tech ____ horsepower while maintaining ____ gas consumption?

____ there ____ way to maximize ____ economy ____ same time?

____ you ____ of an engine ____ provides ____ power ____ good ____?

Is there any engine ____ of ____ with good ____ same time?

Is ____ a ____ engine type that ____ strength and good ____?

What ____ engines ____ have that give both power ____ mileage?

Is it ____ to ____ engine system that ____ strong performance ____?

____ an engine ____ high power ____ impressive economy?

Is there ____ find ____ engine type ____ provides good power and ____?

What ____ of ____ are ____ vehicles that offer superior power ____ fuel ____?

____ be technology that ____ fuel ____ and ____ output?

I ____ if there are ____ technologies ____ fuel ____ power ____.

____ there ____ engine or ____ that ____ and gas mileage?

____ you ____ engine type ____ can ____ impressive ____ efficiency ____ sacrificing power?

____ an ____ provides power ____ good fuel economy?

Is ____ suggest an engine type that ____ great ____ as well?

____ engine type ____ to tech that ____ fuels the ____?

Is ____ an engine type ____ can ____ MPGs?

____ specific ____ and technologies ____ you ____ power and gas mileage?

Is there ____ engine ____ can save ____ well?

____ up ____ engine tech that ____ engine work ____ while consuming ____ gas?

____ engine able ____ impressive pickup ____ less fuel?

____ options are there ____ have both ____ and fuel ____?

Is there a single ____ that ____ and ____?

Is ____ any motor that will ____ gas?

Will some ____ of ____ and gas efficiency?

____ any engine that ____ offer ____ power and ____?

____ that can propel a vehicle ____ too much ____?

Which ____ combines ____ on fuel ____?

____ fuel ____ yet powerful ____ options ____ there?

Can you suggest ____ engine type that ____ efficiency without ____?

Has anyone been ____ develop an ____ tech that makes an ____ better ____?

Is ____ find ____ system ____ gives ____ performance ____ good fuel efficiency?

____ there any engine ____ tech that ____ give ____ gas ____?

____ a technology that ____ good ____ good fuel economy together?

____ it possible to ____ of engine ____ HP ____ amazing mpgs?

____ type of engine ____ compromising fuel ____?

Can ____ tell me ____ there ____ an engine option ____ power ____?

Is ____ find an ____ system with ____ performance without ____ fuel ____.

Is it ____ to find an ____ system that ____ performance ____?

Is ____ type that ____ and HP as well.

Has anyone ____ an ____ tech ____ makes an engine run ____ while ____?

Is ____ for ____ single ____ to offer ____ power ____ efficiency?

____ an engine have ____ and ____?

____ engine type that ____ deliver HP ____ mpgs, too?

____ to ____ an engine ____ that can ____ HP and amazing ____ gallon?

Is ____ any ____ for ____ engines ____ on ____ and fuel ____?

____ technologies that combine ____ fuel consumption ____ power ____?

_____ get good fuel _____ and enough _____ a specific _____?
 Is _____ any _____ engine _____ deliver both optimal _____ mileage at once?
 _____ engine _____ that _____ deliver great HP and amazing _____?
 Any engine _____ fuel _____ and _____?
 _____ of engines are used _____ offer _____ and remarkable fuel economy?
 _____ it possible to _____ good _____ economy _____ from _____ engineering feat?
 _____ kind of engines _____ included _____ vehicle that offer _____ power _____ remarkable _____?
 _____ it _____ to find an _____ system that is _____ and _____?
 Is _____ certain _____ type _____ that provides _____ power and fuel _____?
 _____ economy and strong force _____ kind?
 _____ is _____ chance of _____ that _____ offer strong _____ without _____ on fuel efficiency?
 _____ powerful, fuel _____ engine?
 Is there a way to find one _____ both _____?
 _____ to find _____ engine system _____ has both strong _____ fuel efficiency?
 _____ suggest _____ type of engine _____ is fuel _____ compromising _____ power?
 _____ it possible to find _____ engine type _____ provides _____ and also _____?
 Is it possible to _____ technology _____ can _____ good mileage?
 _____ there a _____ that _____ both _____?
 _____ a technology that has _____ performance _____ good mileage?
 Has _____ able _____ develop _____ engine tech _____ allows exceptional horsepower _____ low _____?
 _____ there a _____ technology and _____ that _____ as well as excellent _____?
 _____ economy with _____ provided by _____ kind?
 _____ there _____ specific _____ technologies _____ give _____ and mileage?
 Is there _____ engine _____ technology balance that _____ excellent _____?
 Is _____ engine _____ can _____ amazing mileage _____ well?
 Has _____ developed an _____ that _____ high power _____ gas _____?
 Is _____ technology that _____ fuel usage _____ output?
 _____ you know if an _____ has _____ and _____ economy?
 _____ there any particular technology that _____ and _____?
 _____ some motor designs _____ mix _____ gas use efficiency?
 Is a single engine _____ both _____ fuel _____?
 _____ developed an engine tech _____ help _____ high _____ low gas _____?
 Is there _____ deliver _____ and _____ at the same time?
 Is _____ engine options _____ deliver _____ and mileage at _____ same time?
 _____ there an _____ both _____ and _____ fuel economy?
 Is _____ to _____ engine system with great _____ good fuel _____.
 _____ that have both power _____ fuel economy?
 Which engines _____ greatest _____ fuel _____?
 Do _____ know _____ an _____ type that _____ high _____ and _____?
 _____ you _____ an _____ high power and good economy?
 Is it possible to find _____ technology _____ good _____?
 _____ engines _____ give _____ power and gas mileage.
 Are there _____ engines that _____ both power _____?
 _____ way _____ an engine type that provides _____ power _____ economy?
 _____ you _____ any of them _____ can combine _____ power with _____ gas mileage at _____ same _____?
 _____ it _____ to find _____ engine type that _____ both strength _____?
 _____ there _____ specific _____ or technology _____ gives more _____ mileage?
 _____ it possible that any _____ engines _____ a lot _____ power with _____ gas _____ at _____ time?
 Is there any _____ equally on performance _____ efficiency?
 _____ are _____ combine a _____ of _____ a lot of gas _____ at _____ time.

_____ there _____ specific type of engine _____ fuel efficiency?
 Is there _____ engine type _____ technology _____ provide _____ fuel economy?
 _____ chance _____ an engine system capable of delivering strong performance without _____?
 Is _____ any engines that _____ lot of _____ at the _____ time?
 Can you suggest _____ engine type _____ provides impressive _____ power?
 What kind of engines are used in your _____ and _____?
 Is it _____ get a _____ economy and _____ from _____ particular engineering _____?
 What _____ options _____ provide both power and _____ efficiency?
 Is it possible _____ options to _____ both _____ performance _____ outstanding _____ the _____ time?
 _____ there any motor that _____ kick _____ gas?
 What kind of engines do your _____ power _____ fuel _____?
 Is it _____ engine _____ with _____ performance _____ compromising _____ fuel efficiency.
 _____ possible _____ an engine _____ gas is also _____ horsepower?
 What are the options _____ engines _____ provide _____ fuel _____?
 _____ an engine _____ or technology that doesn't _____ fuel _____?
 _____ it _____ a particular technology to _____ efficiency?
 _____ it _____ to find _____ engine _____ provide both good power and _____?
 _____ it possible _____ engine _____ that delivers _____ amazing _____ as well?
 Can we get great _____ and _____ a _____ feat or _____?
 Is _____ to find an _____ and technology _____ provides _____ power as _____ as good _____?
 Is there _____ particular _____ or technology _____ and _____ mileage?
 _____ there an _____ HP and amazing mpgs _____ well?
 _____ possible to _____ that is _____ and efficient?
 _____ the possible _____ that _____ provide both _____ fuel efficiency?
 Can you _____ an _____ efficiency _____ compromising on power?
 _____ a _____ good _____ and fuel efficiency?
 Is there _____ technology _____ provides _____ power _____ fuel _____ at the same _____?
 _____ are the _____ that excel at both _____ and _____?
 _____ engines that deliver _____ performance and fuel _____?
 _____ you _____ of _____ specific _____ or technologies _____ give _____ gas mileage?
 _____ there any _____ that _____ both _____ and gas _____?
 _____ anyone come _____ an _____ tech that _____ enable exceptional horsepower _____ keeping _____?
 _____ possible to recommend _____ power and good _____ economy?
 _____ with strong force _____ by _____ engine kind?
 Is _____ that _____ strong _____ but also _____ mileage?
 _____ be able to _____ power _____ fuel efficiency.
 Is _____ single _____ and fuel efficiency?
 _____ of engines _____ in your vehicles that _____ and amazing fuel _____?
 _____ anyone developed _____ tech that allows _____ consuming less gas?
 Is _____ an engine type _____ deliver _____ and amazing _____?
 Is it _____ find _____ engine type that _____ both _____ fuel _____?
 _____ any specific engine or technology _____ gives more _____?
 Can we get _____ economy _____ power _____ a particular _____ feat?
 Is there any _____ both _____ fuel efficiency?
 _____ specific engines or technologies that _____ power _____ mileage?
 _____ a chance _____ finding an _____ will offer strong _____ compromising on _____ efficiency?
 _____ them _____ combining a _____ of _____ with great _____ mileage at the same time?
 _____ or technology balance _____ exceptional thrust and _____ mileage together?
 Is it _____ to _____ an engine _____ strong performance _____ high _____?
 _____ know _____ type of _____ that ensures _____ impressive economy?

_____ possible to find an engine type that _____ good _____ and good fuel _____ ?
 What _____ engines _____ used _____ your vehicles that _____ better _____ and better _____ ?
 _____ there a chance _____ an _____ system _____ gives _____ without compromising _____ efficiency?
 Does _____ specific engine _____ both _____ performance and _____ simultaneously?
 _____ we _____ economy with sufficient _____ from a specific engineering _____ ?
 _____ you _____ me about specific _____ that give _____ and _____ ?
 _____ an option for both _____ and _____ ?
 _____ there a _____ combines strong _____ fuel efficiency?
 _____ used in _____ vehicles that _____ superior _____ and great _____ economy _____ the same time?
 Are there _____ that _____ and save _____ ?
 Can you _____ engine type _____ that _____ impressive _____ efficiency?
 _____ you know of _____ engine _____ that _____ and good _____ ?
 What is the chances of _____ can _____ compromising on fuel efficiency?
 _____ unite performance _____ efficiency?
 Which _____ of _____ combines _____ with _____ consumption _____ ?
 _____ there _____ fuel _____ powerful _____ options?
 _____ suggest an _____ is _____ efficient without _____ on power?
 Can we get _____ economy and _____ a _____ engineering _____ ?
 _____ there _____ engine _____ that _____ deliver both performance and _____ ?
 _____ are _____ an engine system _____ can offer _____ performance but _____ sacrifice _____ efficiency?
 _____ any specific _____ technologies _____ give _____ power _____ gas mileage?
 Any of _____ engines _____ combine _____ lot of _____ of mileage at _____ same _____ ?
 _____ engine has strength _____ on fuel efficiency?
 _____ engines provide _____ fuel efficiency?
 _____ there _____ find an engine _____ that gives good power as _____ fuel economy?
 Is there _____ engine that _____ those things?
 Is _____ possible to _____ an _____ type or technology _____ provides _____ and _____ fuel _____ ?
 _____ possible to get a great fuel _____ and _____ from _____ ?
 _____ technology _____ makes the vehicle propel quickly _____ too _____ ?
 _____ it possible _____ find an engine _____ with _____ and _____ efficiency.
 _____ chance _____ finding an engine _____ that can _____ compromising on _____ efficiency?
 _____ would like to _____ if anyone has _____ engine _____ enabling _____ maintaining low _____ consumption.
 Is there _____ specific engine _____ that could deliver _____ performance _____ ?
 _____ you want to _____ there's a motor _____ gives _____ and _____ ?
 _____ and fuel efficient engine _____ ?
 _____ some motor designs give the _____ forcefulness and _____ ?
 _____ you _____ type _____ engine that ensures _____ and _____ economy?
 Is _____ or technology that provides _____ power and _____ ?
 _____ single engine have _____ and _____ ?
 Is _____ an engine _____ power and fuel _____ ?
 _____ there any _____ engine _____ that _____ provide _____ performance and _____ mileage?
 _____ a chance of finding an engine _____ could offer _____ performance without _____ ?
 Is _____ a specific _____ of engine _____ power and _____ economy at _____ time?
 _____ of engine _____ strength with good _____ ?
 Is there _____ specific engine _____ that can _____ and _____ the same _____ ?
 Is _____ way _____ find _____ for high performance _____ good _____ ?
 Is it possible for _____ performs well _____ also _____ ?
 Will some _____ be _____ to _____ mix of forcefulness _____ usage?
 _____ anyone developed an _____ that _____ of _____ while keeping gas _____ low?
 _____ possible to _____ an _____ impressive fuel _____ without compromising power?

Which type _____ engine _____ powerful _____ less _____ consumption?

_____ you know of an engine that _____ good _____?

I'm wondering if _____ has _____ engine _____ that allows _____ maintaining _____ consumption.

_____ are _____ finding an engine _____ that will offer good _____ compromising on _____?

What type of engine does _____ with _____?

Which engines _____ efficacy?

Does _____ make _____ to _____ an _____ that delivers _____ amazing mpgs as _____?

What is _____ finding an engine _____ strong _____ compromising on fuel efficiency?

Which _____ strength with _____ fuel _____?

_____ an _____ that is both _____ and _____?

Is _____ possible _____ suggest _____ engine _____ can deliver HP _____?

Can _____ deliver _____ optimal _____ and outstanding mileage at _____ time?

_____ it possible to _____ a _____ that _____ high _____ good _____?

Is it _____ to _____ an _____ type or _____ that _____ good power and _____ economy?

_____ engine _____ to _____ power _____ efficiency?

_____ motor designs _____ a mix of _____ usage?

How about _____ that offers _____ and _____ economy?

Is there _____ engine _____ but also _____ gas?

_____ the _____ engines _____ deliver the same amount _____ and fuel _____?

What _____ the _____ engines that _____ provide both _____ efficiency?

_____ there a technology _____ high performance _____ good _____?

What _____ chances of finding _____ system _____ can _____ strong _____ being efficient?

Do you _____ of an engine _____ power _____ economy.

_____ option _____ that deliver performance _____ fuel efficiency equally?

_____ an engine _____ or technology _____ efficiency _____ sacrificing power?

Is there _____ or technology balance _____ exceptional thrust _____?

_____ an _____ that can do _____ power _____ mileage?

_____ there a _____ to find an _____ has _____ and fuel _____?

Is _____ any _____ deliver on _____ fuel efficiency?

_____ there any specific _____ options that _____ both optimal _____ and _____?

I want _____ if _____ any specific engines _____ technologies _____ give both power _____.

_____ to _____ strong _____ with high fuel efficiency _____ an _____ system?

Is _____ to find _____ can deliver _____ strength _____ fuel efficiency?

_____ options that can deliver both _____ and outstanding _____ same time?

It _____ be great if you could _____ engine _____ that _____ amazing _____.

Is there _____ engine that can offer _____ power?

_____ is an _____ type that _____ both _____ and _____.

_____ there _____ fuel _____ powerful engine _____?

Is _____ a _____ engine _____ provides both strength and _____ economy?

Are you aware _____ an _____ guarantees high _____ impressive _____?

Can _____ suggest an _____ both power and _____?

Is it possible to _____ an _____ both performance _____?

Is _____ option of _____ engine _____ for _____ power _____?

_____ are _____ in _____ engines can provide _____ power and _____?

_____ it possible _____ an engine type or technology that _____ and good _____?

Is _____ to find _____ engine type that _____ fuel economy together?

Do any engines or technologies _____ power _____?

Is _____ option for engines that _____ fuel _____ and _____?

_____ engine option that can _____ optimum _____ outstanding _____ at _____ same time?

_____ an engine _____ that _____ good performance _____ excellent fuel efficiency?

_____ there an _____ mileage without _____ the bank?
 _____ there an _____ offers impressive fuel _____ without _____ on power?
 _____ are _____ for engines with good power and _____?
 Is it possible _____ find _____ that _____ power _____ fuel economy?
 _____ vehicles have _____ offer superior power and fuel economy at the _____?
 Is _____ for _____ engine to _____ both _____ efficiency?
 _____ engine _____ for both _____ and fuel economy?
 Is _____ possible _____ recommend an engine that _____ both _____ and _____?
 Which type _____ has _____ without compromising _____ consumption _____?
 Is _____ that's powerful _____ efficient?
 Is it _____ suggest an _____ delivering HP _____ amazing _____ well?
 _____ are the _____ for _____ both power _____ efficiency?
 _____ an engine _____ technology balance that provides _____ and _____ mileage _____?
 _____ come _____ with an engine _____ that _____ exceptional horsepower _____ less gas?
 Is _____ a _____ technology _____ combines _____ consumption and _____?
 Is _____ any _____ can _____ a _____ quickly _____ taking too much _____?
 Can _____ recommend _____ engine _____ can _____ both _____ and _____ efficiency?
 _____ specific technology _____ gives _____ top mpg _____ still be _____?
 Can we get _____ good fuel economy _____ specific engineering _____?
 _____ it _____ to _____ technology _____ great performance and _____ mileage?
 _____ possible _____ a technology _____ is _____ for performance _____ mileage?
 Is it _____ or technology to combine _____ exceptional fuel efficiency?
 _____ an _____ that saves on gas _____.
 _____ there a _____ engine type that provides _____ good _____?
 What are the possibilities _____ both _____ and _____ efficiency?
 Is _____ can deliver _____ and amazing _____ as well.
 Is _____ engine that _____ powerful and _____?
 Is _____ to _____ an engine type that _____ both HP _____?
 _____ specific motor _____ innovation _____ achieve _____ balance _____ force and _____ usage?
 _____ know of engines _____ have high _____ economy?
 There are _____ good fuel _____ and _____ output.
 _____ anyone _____ fuel _____ and _____ engine options?
 Is _____ a _____ both power _____ good mileage?
 Is it possible _____ engine _____ technology _____ has _____ good _____ and _____ fuel economy?
 Is _____ possible _____ could _____ power _____ fuel efficiency?
 _____ you like _____ there is _____ great power yet great mileage?
 Are _____ any engines that deliver _____ same _____ and _____?
 _____ is _____ chance _____ engine _____ that can offer _____ compromising fuel efficiency?
 _____ engine _____ strength without sacrificing _____?
 Is there _____ type that _____ power _____ good economy?
 _____ there an engine _____ can offer _____ fuel _____?
 _____ a _____ idea _____ suggest an engine type that _____ and _____ well?
 Is _____ engine _____ that _____ power _____ fuel economy _____ the _____ time?
 Do _____ a type of _____ high power and _____ economy?
 _____ have _____ for engines that _____ both _____ fuel efficiency?
 Is there _____ good fuel efficiency _____ compromising _____ power?
 Is _____ possible _____ find _____ engine type that _____ and mileage?
 _____ it _____ suggest an engine type _____ can _____ miles per _____ as _____?
 _____ there an _____ type that _____ amazing _____ as _____.
 _____ there an _____ is satisfying _____ but saves _____?

_____ are the choices for _____ can provide _____ fuel _____?
 _____ it _____ engine system that gives strong _____ on fuel efficiency.
 _____ any of them _____ combine a lot _____ with good gas _____?
 _____ an _____ type that can _____ amazing _____?
 Will some _____ designs _____ you a _____ mix _____ gas _____?
 _____ engines have _____ power- fuel _____?
 _____ there an engine _____ good fuel economy?
 Is there _____ works well _____ both _____ and _____?
 Is there _____ satisfying power _____ also _____ on gas?
 Are there a _____ engine or _____ balance _____ offers _____ thrust _____ as _____?
 Is there a chance of _____ strong performance without compromising _____?
 What kind of engines do _____ vehicles _____ superior _____ fuel _____ at the same _____?
 _____ there _____ that _____ both good _____ and power?
 Both _____ the _____ give power _____ possible _____ same engine type.
 Is _____ possible _____ an _____ offer _____ and fuel _____?
 _____ you know _____ any of _____ combine a lot _____ power with _____ mileage at the _____?
 _____ possible to find an _____ type _____ offers _____ power _____ as _____ fuel _____?
 Is _____ possible to find an engine _____ provides _____ power _____ great fuel _____?
 _____ can give good performance _____ good mileage?
 _____ of engine _____ strength _____ efficiency?
 I want an _____ HP and _____ mpgs.
 Are any _____ them _____ much power _____ so _____ gas mileage?
 Do _____ have any _____ for engines that _____ on _____ fuel _____?
 There are _____ engines that _____ and efficiency.
 _____ it possible _____ have a _____ engine _____ power and _____?
 _____ engine type that gives both power _____ economy?
 _____ efficient _____ powerful engine _____?
 _____ there _____ offers impressive _____ also sips less fuel?
 Is it _____ to _____ an _____ engine?
 Is _____ to _____ type _____ will deliver HP and _____?
 _____ the option of _____ for _____ and good _____?
 _____ a specific _____ type _____ technology _____ provides both _____ fuel efficiency?
 Is _____ an _____ technology _____ impressive fuel _____ without compromising power?
 Do _____ know _____ type of _____ that _____ high power _____?
 Is _____ a particular _____ that _____ power _____ good fuel _____?
 Is _____ possible _____ an _____ gives _____ and good fuel _____ together?
 Is _____ a single engine _____ of both _____?
 Is there a _____ technology balance _____ gives _____ and _____ mileage?
 Is it _____ fuel _____ and _____ from specific engineering feats?
 Is _____ possible _____ technology _____ high performance and good _____?
 Can you _____ an engine type _____ fuel _____?
 _____ technology that combines great _____ usage and _____?
 Can _____ engine _____ compromising on fuel efficiency?
 Is it possible _____ find _____ engine _____ that _____ and fuel _____?
 _____ there _____ engine _____ balance that provides _____ thrust _____ mileage?
 _____ you _____ or _____ that is fuel efficient _____ compromising on _____?
 _____ type _____ with strong force?
 _____ it possible to _____ an engine _____ that gives _____ power _____?
 _____ you _____ any options _____ give _____ and fuel efficiency?
 Are there _____ specific _____ technology balance that _____ thrust _____ together?

Is ____ possible ____ engine that ____ both strength ____ efficiency?

Is ____ any technology ____ combines power ____ fuel ____?

Will ____ a good ____ forcefulness ____ gas usage possibilities?

Is it ____ to ____ an engine type ____ amazing ____ as well?

Is there ____ technology ____ combines great ____ consumption ____?

____ it ____ to ____ type ____ that ____ impressive fuel efficiency without ____ power?

____ of ____ engine ____ that ____ high power with ____ economy?

What ____ of engines do your ____ have ____ power and ____ fuel ____ at ____ time?

____ an engine type that can deliver ____?

What type of engines ____ vehicles ____ superior power ____ great ____ at ____ same time?

____ some ____ combine ____ fuel consumption and power output?

Is there ____ specific ____ both power ____ fuel ____?

Is ____ that ____ exceptional ____ as well as excellent mileage?

What kind of engines ____ used in ____ vehicle ____ offer ____ economy?

____ possible for an ____ to enable ____ horsepower ____ maintaining ____ usage?

____ anyone ____ engine tech ____ perform at its best while ____ gas?

____ engine ____ that ____ deliver both optimal performance and ____ mileage ____?

____ any specific ____ options available that can deliver ____ optimal performance and ____ mileage ____?

____ there an ____ both power ____ fuel ____?

Do ____ know of ____ engine ____ that ____ power and ____ economy?

Are you ____ of an engine type ____ high ____?

____ the ____ similar ____ that ____ power and fuel?

____ engine ____ gas as well?

Is ____ engine ____ that ____ high ____ with great ____?

____ to find an engine with both superior ____ excellent ____?

____ about fuel efficient ____ powerful ____?

____ there ____ particular ____ option ____ can deliver outstanding ____ and optimal ____?

Is it ____ to get great ____ along ____ power ____ feat?

How about ____ or ____ that ____ both power and ____?

Is it ____ engine ____ gives good ____ well as ____ fuel economy ____?

What options ____ there for ____ both power and ____?

Has ____ an engine ____ that allows ____ exceptional ____ and ____ gas ____?

____ an engine type ____ efficiency and power at the same ____?

Is it possible ____ an ____ is ____?

____ it ____ for ____ system to have ____ performance and ____ efficiency?

Is there ____ type ____ that ____ provide both ____ and ____ economy?

Is there ____ engine ____ power and ____ economy?

____ to ____ good fuel economy ____ power ____ a specific engineering feat?

Is ____ possible to have power ____ engine?

Is ____ or technology that gives ____ power ____ mileage?

____ a ____ engine capable ____ both power and ____?

____ possible ____ find ____ type or technology that provides both ____ power ____ good ____ economy ____?

Is there ____ that combine ____ consumption and ____ output?

____ have the ____ power- fuel ____?

____ know ____ type of engine ____ high power ____ impressive ____?

Is it ____ find ____ with both ____ and fuel ____?

____ it ____ to find ____ engine ____ good power ____ as good fuel ____?

Is there ____ engine ____ also ____?

Is there ____ option ____ power and ____ gas ____?

Is ____ possible ____ an ____ that combines ____ and good fuel ____?

Is there any _____ consumption _____ power output?

Is there _____ engine that _____ both _____ good gas _____?

_____ possible to _____ engine for both _____ and _____ mileage?

A motor technology _____ a vehicle _____ without _____ gas?

Is it _____ engine _____ will allow _____ horsepower _____ maintaining _____ gas consumption?

Can _____ recommend _____ that has both power _____ great _____?

What engines _____ pickup while _____ less _____?

_____ about _____ engine _____ both power and _____ economy?

What are the _____ engines _____ performance and fuel _____?

_____ that gives both power _____ economy at _____ same time?

Is it _____ to find _____ engine _____ that _____ strength _____ economy?

Is there _____ engines _____ achieve good mileage _____?

_____ you aware _____ engine type that _____ high _____ economy?

_____ particular _____ that can deliver both optimal performance and _____?

Is it possible to _____ an engine _____ and _____ efficiency?

Is _____ possible for _____ engine type _____ deliver _____ mpgs?

What _____ are _____ for _____ that _____ both power _____ fuel _____?

_____ you know _____ type of _____ that gives high _____?

_____ to have _____ that _____ on gas, too?

Can we get _____ good fuel economy _____ engineering feat?

Is _____ a powerful _____ efficient _____?

What _____ different _____ engines that can provide both _____ efficiency?

What are _____ options _____ engines _____ deliver on _____ fuel _____?

Is _____ to find _____ that _____ performance _____ fuel efficiency?

_____ there _____ specific _____ that can deliver outstanding _____ performance at _____ time?

_____ find _____ engine system or technology that _____ great _____ efficiency?

_____ one _____ offer power and _____?

I wonder _____ specific _____ give both _____ gas mileage.

Which _____ of engine can _____ strength _____ consumption _____?

_____ one _____ and _____ efficient?

Are _____ any specific engine _____ can deliver both _____ optimal _____ at _____ same _____?

_____ you recommend an _____ type that offers _____ without _____ power?

_____ there any _____ option that can _____ optimum _____ mileage simultaneously?

Has anyone developed an _____ tech _____ makes an _____ less _____?

_____ engine _____ that ensures high _____ with excellent _____?

_____ have _____ that deliver the same amount _____ performance _____ fuel _____?

Is an _____ powerful _____?

_____ there _____ engine that can offer _____ and _____?

_____ a _____ to find _____ that delivers both _____ and _____ economy?

Is _____ possible _____ get good _____ sufficient _____ from _____ engineering feat?

_____ there _____ engine that offers _____ power _____ efficiency?

Is it _____ an _____ system to _____ strong _____ with great _____?

Is there any _____ that _____ lot of power with great _____ mileage _____ the _____?

_____ an engine type with _____ power and fuel economy?

_____ you ever heard of _____ that combine a _____ with _____?

_____ there _____ powerful _____ that's _____ efficient?

Is there _____ kick _____ and save _____?

_____ fuel efficient engine _____ there?

_____ to find an engine type and technology _____ both _____ and _____ fuel _____?

Is there _____ engine _____ gas _____ well _____ satisfying horsepower?

_____ to get great _____ economy as well _____ from _____ engineering feat?
 Are _____ of _____ combine tons of _____ with _____ gas _____?
 _____ there _____ engine _____ both power and _____ economy?
 Are there _____ that offer _____ and _____ economy?
 Will some _____ give _____ a _____ mix _____ and _____ efficiency?
 Which _____ efficient yet _____ are out _____?
 Is there a _____ to _____ an _____ that _____ good _____ good _____ economy?
 _____ an _____ that _____ hog _____ gives _____ the power I want?
 Can _____ great _____ economy with _____ from an engineering feat _____?
 _____ you _____ an engine type _____ is _____ fuel _____ powerful?
 _____ exist _____ that _____ power and fuel efficiency?
 Is there an _____ that _____ both power _____?
 There is _____ that _____ both power and fuel _____ the _____.
 Is _____ technology _____ provides both _____ and _____ efficiency?
 Is _____ engine type _____ provide impressive fuel _____ on power?
 Is _____ way _____ combines strong performance with high fuel efficiency?
 Can _____ get _____ and enough power from _____?
 _____ there be specific _____ combine _____ output and _____?
 _____ a way to _____ good _____ and _____ output?
 Is _____ an _____ type _____ impressive _____ efficiency _____ compromising _____ power?
 Engine type _____ can _____ and give power?
 What are _____ choices _____ that give both power _____?
 Is it possible _____ an _____ that _____ power but _____ on _____?
 _____ you find an engine _____ as well as good _____?
 _____ there a _____ gives _____ fuel _____ the same time?
 Is _____ possible _____ find _____ engine that provides good _____ well _____ fuel _____?
 Is _____ single engine _____ has both _____ fuel _____?
 _____ there an _____ both power _____ efficiency?
 _____ to suggest _____ engine type that _____ and mpgs?
 _____ options are _____ engines _____ both power and fuel _____?
 _____ there an engine tech that _____ maintaining _____ consumption?
 Is _____ find _____ engine _____ both strong _____ economical?
 _____ to find engines that deliver both _____ and _____?
 _____ engine _____ that offers an _____ fuel _____ without _____ power?
 Can you recommend _____ engine _____ has _____ power _____?
 _____ aware _____ an engine type _____ power and impressive _____?
 _____ possible _____ great fuel economy along with _____ power?
 _____ there _____ find _____ engine _____ combines strong _____ with great _____ efficiency?
 I _____ like to know if _____ is an engine _____ HP _____.
 Is _____ single _____ that is _____ for both _____ fuel _____?
 Are you _____ of an _____ type _____ provides _____ impressive _____?
 Which _____ of engine combines strength _____?
 What kind of _____ do _____ have that offer _____ power _____?
 _____ it _____ to find an _____ performance with exceptional fuel _____?
 _____ any of _____ engines _____ combine a _____ power with _____ mileage _____ same time?
 Is there any specific _____ or _____ gas mileage?
 Can _____ power and _____?
 _____ tell me about _____ power output and _____ consumption?
 _____ there a _____ engine?
 _____ there _____ engine that _____ power and _____ economy _____ the same time?

_____ type _____ gives _____ fuel economy at the same time?

Is there _____ technology _____ engine _____ power _____ gas mileage?

_____ engines give both _____ and _____ fuel _____?

Is _____ engine capable _____ and _____?

Can _____ get a great _____ economy _____ from _____ engineering feat?

_____ only one engine that _____ offer _____ fuel efficiency?

_____ an _____ type _____ can deliver _____ HP _____ amazing mileage?

Is _____ find an _____ system with _____ performance and _____ fuel _____.

Is it possible _____ of engine _____ both strength and _____ economy?

What _____ of _____ in your _____ offer superior _____ fuel economy?

_____ to find _____ if _____ that gives great mileage.

Will some _____ good mix of forcefulness _____ gas _____?

_____ to find an engine _____ superior _____ and _____ fuel economy?

_____ it possible to _____ engine that _____ impressive fuel _____ compromising _____?

What _____ possibilities _____ that _____ both _____ and efficiency?

_____ it possible _____ suggest _____ type that would deliver _____ amazing _____ as _____?

Has _____ come _____ with an _____ tech _____ will _____ keeping _____ consumption low?

Is there _____ engine _____ is _____ for both _____?

Is _____ to _____ engine type _____ great mpgs and HP?

Has _____ come up _____ an engine _____ that _____ horsepower _____ still consuming _____?

_____ any _____ impressive pickup and sipping less _____?

Is there an engine _____ power _____ good _____?

_____ any _____ both optimal _____ and _____ mileage at once?

Is there an engine _____ or technology that _____ fuel _____ without _____?

_____ an engine that _____ both power and _____?

What type _____ your vehicle that offer _____ remarkable fuel economy?

Has anyone _____ engine tech _____ an engine perform _____ consuming _____?

Is there a _____ engine _____ both power _____ fuel _____ at the _____?

_____ a specific technology _____ gives _____ power _____ economy simultaneously?

_____ up _____ an engine tech _____ allows exceptional _____ while keeping gas _____?

_____ it possible to _____ an engine with _____ good _____ economy?

Is _____ engine that _____ gas _____ well?

Is _____ a way to find an _____ type _____ provides good _____?

Is there _____ single _____ with _____ power and _____?

_____ a way _____ find an _____ and _____ good power _____ fuel economy together?

_____ efficient _____ powerful _____ are available?

_____ it possible that one engine _____ provide _____?

Can we get good _____ enough _____ from _____ or tech?

Is _____ any _____ options _____ deliver _____ optimal _____ and _____ mileage at once?

Is _____ a specific _____ powers cars _____ fetch _____ and _____ be _____ powerful?

_____ possible _____ power and _____ efficiency from _____ engine?

_____ an engine _____ powerful and _____?

_____ a _____ that does _____ good things?

Is it _____ to _____ an engine type or _____ that _____ good power _____ economy?

_____ we _____ great fuel _____ enough power _____ specific engineering _____?

_____ one engine that _____ power _____ efficiency?

Is _____ possible _____ find _____ engine that combines _____ performance _____ good _____.

_____ of _____ type that _____ high power _____ an impressive economy?

Is there _____ provides high power with _____?

_____ possible _____ find _____ type with both strength and fuel _____?

_____ an engine that is _____ both power _____ ?
 Do you _____ of an _____ and good economy.
 Is _____ an _____ but also efficient?
 _____ there a way to _____ an engine _____ and technology _____ great fuel economy _____ ?
 What _____ of _____ are used in _____ provide _____ power _____ incredible fuel _____ ?
 Do _____ know of _____ engine type _____ high _____ with _____ ?
 Do you know of an _____ gives _____ with _____ economy?
 _____ possible _____ suggest an _____ that delivers _____ great mpgs?
 Is there _____ engine _____ deliver both power and _____ ?
 _____ a _____ capable _____ both power and fuel _____ ?
 Can _____ recommend an engine that _____ and _____ ?
 Is there _____ specific engine that _____ well _____ excellent mileage?
 Is there a single engine _____ offer _____ efficient?
 Do you _____ has both power and _____ economy?
 _____ possible to suggest _____ engine type _____ amazing mpgs?
 What kind of _____ your _____ power _____ fuel economy at the same time?
 _____ possible to find _____ engine _____ is both _____ efficient?
 _____ have any motors _____ kick _____ save _____ ?
 _____ motor _____ that propels _____ without consuming too _____ ?
 Do you know of an _____ type _____ high _____ good _____ ?
 _____ you _____ engine type that makes _____ power _____ economy?
 Is _____ engine _____ both _____ and good fuel economy _____ ?
 _____ an engine good _____ efficiency?
 _____ there an _____ that can offer good _____ good _____ ?
 Which _____ of engine can _____ strength _____ levels?
 _____ there any specific motor or _____ achieve optimal _____ energy _____ force _____ gasoline _____ ?
 Is there _____ engine _____ both power _____ efficiency.
 Are there _____ engine _____ can deliver _____ and outstanding mileage _____ ?
 _____ a _____ combines power and fuel efficiency?
 Has _____ an engine _____ that _____ an _____ more _____ while _____ gas?
 Is there _____ that can deliver optimum _____ and _____ mileage at _____ ?
 _____ strong force _____ engine type?
 Any _____ technology _____ propels _____ vehicle quickly _____ much gas?
 _____ anyone _____ engine _____ that makes an _____ more powerful _____ consuming _____ .
 Any motor _____ makes vehicle propel _____ without _____ gas?
 _____ any _____ for engines _____ deliver the _____ of performance and _____ efficiency?
 _____ are _____ of finding an engine system _____ can _____ performance _____ sacrificing _____ ?
 _____ there any specific technologies that power _____ that _____ top _____ and _____ ?
 _____ it possible _____ achieve _____ economy _____ power combo?
 Any _____ that _____ quickly _____ causing too much gas _____ ?
 Are you _____ recommend an engine _____ both power _____ economy?
 Is it _____ have an option _____ power and _____ ?
 _____ there _____ combine great _____ consumption and _____ output?
 Do _____ know of an engine type _____ give _____ power _____ ?
 Is _____ to find _____ engine _____ capable _____ performance without compromising _____ fuel _____ ?
 What _____ the _____ for engines _____ good fuel efficiency?
 Do _____ any of _____ engines combine _____ lot _____ power with _____ ?
 Is anyone aware of _____ that _____ the bank?
 Is _____ possible to _____ system capable _____ offering _____ performance _____ compromising on _____ .
 _____ engine _____ power with fuel _____ ?

Has _____ come _____ engine _____ exceptional power while using _____ gas?
 _____ you _____ engine _____ can offer both _____ and _____ economy?
 _____ are the possible options _____ give _____ and efficiency?
 Specific _____ that combine _____ consumption and _____?
 Is _____ can _____ high performance and good _____?
 Is there an engine _____ both power _____?
 Is there _____ engine that _____ both _____ fuel _____?
 There is an _____ type _____ can _____ power and _____.
 _____ it _____ engine or _____ balance _____ exceptional thrust _____ well _____ excellent mileage together?
 Would _____ like to find _____ if _____ a motor _____ gives _____.
 _____ that offer impressive _____ and _____ less _____?
 _____ an engine that _____ both _____ and good fuel _____?
 Which type _____ used _____ your vehicles that _____ power _____ remarkable fuel _____ the same _____?
 _____ there _____ that can combine fuel _____ power _____?
 Can _____ type _____ provides good _____ as _____ as good fuel _____ together?
 _____ efficient yet powerful _____ options?
 Any _____ powerful engine _____?
 _____ an engine that has both _____ and _____ economy?
 _____ you _____ of an _____ produces _____ power with _____ economy?
 _____ economy and _____ force available with the _____?
 _____ an engine that _____ and _____ economy?
 Does _____ engine _____ impressive pickup while _____?
 Is _____ find an engine type that _____ and _____ fuel economy _____ the _____ time?
 _____ it possible to _____ an engine system _____ and good _____?
 _____ a way _____ find an _____ or _____ provides good _____ and good fuel _____ together?
 _____ it possible to _____ an _____ type _____ gives good power _____ fuel _____?
 _____ a _____ that _____ and fuel efficiency?
 _____ to find _____ engine _____ with _____ power _____ well _____ good fuel economy _____?
 Is _____ to find _____ system _____ offering _____ performance _____ on fuel efficiency?
 What options are _____ engines that _____ both performance _____?
 What _____ of engines _____ used in _____ provide _____ power _____ amazing _____ economy?
 Is _____ possible to _____ of engine _____ will _____ HP and _____?
 Can you _____ an engine _____ that offers _____ fuel _____ without _____?
 Is it _____ an engine type _____ can _____ and mpg?
 Do you know _____ engine type _____ gives _____ power _____?
 _____ an _____ deliver _____ efficiency?
 Is _____ both power and _____ mileage?
 _____ the _____ engine _____ and fuel economy?
 _____ is the _____ engine system can offer _____ performance without compromising _____?
 _____ specific engine or technology that _____ both _____ and _____?
 Is there _____ single _____ both _____ and _____?
 Is there any _____ engine _____ can _____ power _____ gas _____?
 What engine types _____ used _____ your _____ that _____ power _____ fuel economy at _____ time?
 _____ there an _____ doesn't _____ on power or fuel _____?
 Which kind _____ has _____ without compromising _____ fuel _____?
 Is there _____ both power _____ good mileage?
 Is _____ can do _____ power and good _____?
 Possible fuel _____?
 _____ you _____ a _____ engine _____ high power and good _____?
 Can we _____ fuel _____ from specific engineering feats?

Is _____ to find an _____ system _____ that has both good _____ efficiency?

Is _____ a _____ or engine that gives _____ gas _____?

Can an _____ system _____ combine _____ performance _____ fuel efficiency?

Is there _____ power and _____ efficiency?

_____ with strong _____ provided _____ an engine type?

_____ engine options _____ optimal performance and _____ mileage at _____ time?

_____ there _____ engine _____ can provide _____ power and _____?

_____ up _____ an engine _____ that makes _____ engine _____ while _____ less fuel?

_____ there _____ engine type _____ can _____ impressive fuel efficiency _____ power?

Can _____ a technology _____ efficiency?

_____ an _____ tech _____ allows _____ high _____ and low gas usage?

_____ come _____ with _____ that enables exceptional horsepower and low _____?

_____ engine _____ is _____ for power and good _____ fuel _____?

_____ an _____ technology that _____ give both power _____ gas _____?

Is it possible to _____ that _____ great fuel economy?

Is _____ any _____ but _____ options?

Are there a specific engine or _____ balance _____ mileage?

Is it possible _____ engine system _____ of _____ performance without _____ efficiency?

Will _____ motor _____ produce a _____ gas useabilities?

_____ a _____ find an engine with _____ strength and _____ economy?

_____ the _____ of engine _____ high power _____ good economy?

Is there _____ engine that _____ deliver both _____ outstanding _____?

Is it possible to _____ power _____ with an _____?

Can _____ engine type that can _____ impressive _____ without compromising _____?

_____ specific engine option deliver _____ and outstanding _____ the _____ time?

Do you have _____ engines _____ both performance _____?

Are _____ aware _____ the type _____ engine that ensures _____ and _____?

Is _____ any _____ power and gas _____?

Is _____ technology _____ combines _____ output and _____ consumption?

_____ kind _____ engines _____ have in your _____ that _____ superior _____ and _____ economy?

Has anyone _____ tech that _____ engines more powerful _____ gas?

_____ you have _____ options that _____ on _____ efficiency?

Is it _____ to _____ an engine _____ excellent HP _____ amazing _____?

_____ there a _____ combines strong performance _____ exceptional _____?

Are _____ of them engines _____ a lot of _____ with a _____ mileage _____ time?

Good _____ and _____ force available _____?

Is there _____ that _____ give _____ power and _____?

Is it _____ to make _____ gas too?

Is _____ engine _____ that can deliver _____ performance _____ mileage simultaneously?

_____ type _____ engine _____ that _____ give _____ power and gas mileage?

_____ it _____ to find an engine _____ provides _____ power as _____ as _____ fuel _____?

Is _____ possible _____ an engine system _____ combines _____ great fuel _____?

Is _____ to find _____ that combines _____ performance _____ fuel efficiency?

_____ any _____ combines fuel and _____ output?

Is _____ well and also _____ on gas?

_____ possible _____ suggest an engine type that can _____ and _____?

Is there _____ way _____ engine _____ deliver _____ performance _____ efficiency?

_____ a technology that _____ efficiency without compromising power?

_____ there _____ or _____ that does not _____ power for fuel _____?

Do _____ have _____ for engines _____ deliver _____ and performance?

_____ possible to find an engine type or technology _____ power _____ great _____ economy?

Can you _____ a _____ that offers _____ power _____ economy?

_____ engine technology that can _____ both power and _____?

What _____ of _____ in _____ that offer superior _____ and good _____ economy?

_____ an engine type _____ ensures _____ power _____ an _____ economy?

_____ options that can deliver optimal _____ and _____ simultaneously?

_____ anything that _____ gas mileage?

What about _____ engine _____ gas but still _____ power?

_____ anyone _____ any specific _____ can deliver both _____ performance and outstanding mileage _____ the _____?

Is _____ that _____ great fuel consumption and power _____?

Is _____ engine _____ technology that _____ power _____ impressive gas _____?

_____ kind _____ are used _____ vehicles that _____ both _____ and _____ efficient?

What _____ in _____ vehicles _____ power and good fuel economy?

_____ it _____ for _____ engine _____ powerful yet fuel _____?

Has _____ an _____ helps with high _____ and low gas _____?

_____ anyone _____ an _____ that allows _____ high _____ while using _____ gas?

_____ any fuel efficient or _____?

_____ are available for _____ that provide _____ and _____?

_____ of engines _____ in your _____ that offer good _____ and good _____?

_____ anyone _____ able _____ develop _____ engine _____ that _____ exceptional _____ while _____ gas consumption low?

Is there an engine _____ HP and _____ mpgs?

Is _____ possible to _____ engine _____ that _____ and efficiency?

Is _____ possible _____ deliver _____ performance and outstanding _____ on _____?

_____ there a particular engine _____ that _____ power _____ mileage?

_____ are _____ options for engines that _____ and efficiency?

_____ it possible to _____ an _____ or _____ that combines _____ performance _____ fuel _____?

_____ or _____ achieve optimal balance between energy _____ force, _____ gasoline _____?

_____ it possible to _____ technology that combines strong _____?

_____ a particular technology _____ efficiency?

_____ there _____ engine _____ gives power _____ impressive gas mileage?

_____ to _____ an engine type that _____ both _____ and fuel _____?

_____ a way _____ an engine _____ gives _____ as great fuel economy?

Which _____ of engine _____ compromising on _____ consumption?

Is _____ an option _____ and _____ mileage?

Which _____ of _____ strength _____ fuel efficiency?

_____ possible _____ find _____ that provides good power _____ well as _____ fuel economy?

Is _____ specific technology _____ both _____ and _____ economy?

Is _____ engine tech _____ enables exceptional _____ while _____ low _____?

_____ a _____ and efficient _____?

_____ technology that provides both _____ economy at the same time?

_____ fuel efficient _____ powerful?

Is there a _____ technology _____ gives both _____?

Are _____ aware of _____ type _____ gives _____ and _____ economy?

Is _____ engine _____ technology that offers _____ fuel efficiency _____ compromising _____?

Is _____ engine or technology _____ that _____ thrust _____ together?

_____ anyone developed _____ engine _____ that _____ exceptional power _____ consumption?

_____ possible _____ an _____ type with both power and _____ in _____?

Are _____ of _____ engine type that has _____ power _____?

_____ them _____ combine a lot _____ with _____ gas _____ right?

Is a _____ has _____ power _____ fuel efficiency.

Can _____ a type _____ engine that _____ efficiency without _____ on power?
 _____ possible _____ find engines that deliver equally _____ and _____?

What _____ the _____ that _____ system _____ offer strong performance _____ fuel _____?
 _____ you know _____ there _____ a _____ that _____ offer both power _____ efficiency?
 _____ engine type that offers good _____ efficiency without _____?
 _____ fuel efficient and _____ engine _____?

What _____ engines do _____ vehicles have _____ offer superior _____ fuel _____?
 _____ there _____ engine _____ can deliver both _____ performance and outstanding _____?
 _____ possible to find an engine type that provides both _____?

Is there _____ that can deliver both _____ performance _____ simultaneously?
 _____ provides power and _____ economy at the same _____?
 _____ you _____ heard _____ engines _____ a lot of power with great gas _____ at _____?
 _____ a great fuel economy _____ with _____ power _____ an _____ feat?

Which _____ provide both ample _____ remarkable _____?

Is it possible to _____ deliver HP and _____ mpgs?
 _____ any _____ to provide _____ power _____ fuel efficiency?
 _____ engines that _____ lot of _____ good gas _____ right?

Is _____ engine _____ can _____ both _____ fuel efficiency?
 _____ it _____ find _____ engine that _____ deliver both strength _____ economy?
 _____ we _____ a _____ with _____ power _____ a specific engineering feat?

Are _____ that deliver both performance _____ fuel _____?
 _____ are options for engines _____ can _____ power _____ fuel _____.

Is _____ possible to _____ that is both strong performance _____?
 _____ it possible to _____ an _____ that can do _____ and _____?

What kind of engines _____ used _____ that _____ superior _____ and _____ economy?

Is _____ a good engine for _____ good _____?
 _____ an engine _____ for _____ efficiency?

Is _____ motor _____ achieve optimal balance _____ energy _____ force and _____ usage?

Is _____ have an engine _____ is powerful _____ fuel _____?
 _____ to _____ an engine _____ that would enable _____ horsepower _____ gas consumption?

Is _____ particular _____ gives _____ power and _____ economy?
 _____ any particular engine _____ technology _____ and _____ gas mileage?
 _____ have options for _____ that _____ the _____ performance _____ fuel _____?
 _____ it _____ to _____ an engine _____ combines _____ performance with great _____?

Is it possible _____ engine _____ strength and fuel economy?

Which _____ optimal power- _____?

_____ an _____ tech that _____ performance _____ the engine while saving _____?
 _____ of engines do _____ vehicles have _____ offer _____ power and _____ economy _____ same time?

Is _____ any _____ or technology _____ power and _____ mileage?
 _____ there any specific engine options _____ can _____ outstanding _____ at _____ same time?

Is _____ that provides both power _____ fuel efficiency?

Is there an engine _____ gas _____ also has _____?

Is there _____ engine tech _____ enable exceptional horsepower _____ maintain _____.

Is an engine option _____ both _____ mileage?
 _____ about _____ engine that _____ also saves gas?

Any _____ technology _____ propels _____ taking up too much _____?

Is it _____ engine _____ works _____ but saves _____?
 _____ there a specific _____ or _____ that _____ offer _____ thrust as _____ as _____?
 _____ there any option for _____ to _____ on _____?

What is the chance of _____ system that _____ compromising on fuel _____?

_____ technologies that combine fuel consumption _____ power _____?
_____ possible _____ has good power as well as good _____ economy?
Is _____ find a _____ provides both _____ and good _____ economy?
_____ find a good _____ both strength and fuel economy?
Is _____ possible to find _____ that _____ power and _____ fuel _____?
Which _____ of engine _____ strength _____ fuel _____ levels?
Is _____ to _____ fuel economy and _____ from a _____ feat?
Which _____ combines strength with fuel _____?
Which _____ engine _____ strength with _____ use?
_____ options are _____ engines _____ power and fuel efficiency?
What kind _____ engines are in your _____ that _____ and remarkable _____ economy at _____?
Is it _____ for _____ engine _____ have strong performance _____ efficiency?
_____ it _____ to _____ engine system _____ strong _____ high fuel efficiency?
Do _____ know of _____ provides _____ power and _____ economy.
Is _____ possible _____ an _____ combines good performance and great _____?
What _____ engines are _____ give you _____ best power and _____ economy?
_____ an _____ that _____ more _____ uses less gas?
Which kind _____ strength without _____ on fuel _____?
Is _____ an engine _____ that _____ power _____ the same time?
_____ there an engine that's _____ for both _____?
Is there _____ engine _____ that offers exceptional thrust _____?
_____ it possible _____ find one _____ that _____ both _____ and _____ economy?
