

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Tariffs, rates, and pricing inquiries
Inquiry Sub-Category	Time-Sensitive Pricing
Description	Questions about time-sensitive pricing models, such as peak and off-peak pricing, and understanding how these pricing structures may affect overall natural gas costs.
Data Size	8,102 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

_____ can _____ taken to _____ during _____ off-peak times _____ the day?

Ways to _____ usage _____.

Is _____ way to cut _____ time slots?

How _____ use during _____ time?

_____ can _____ done to _____ efficiency _____ there are _____ off-peak _____?

How do _____ make sure utilization _____ costs are _____ than _____?

How _____ you _____ budget-friendly _____ hours?

Ways to _____ consumption _____ busy hours _____ required.

_____ efficient utilization as _____ go down _____ slots?

During _____ frames, _____ be tips on efficient _____?

How _____ maximize consumption in _____ the day?

Is it possible to _____ more efficiently?

How can _____ maximize _____ when prices plummet?

Strategies _____ maximizing _____ busy times.

_____ there _____ ways to make _____ low-cost, off-peak _____?

How can _____ increase efficiency _____ weak- _____ energy _____?

_____ it _____ usage when costs and _____ are _____?

Is there _____ to _____ benefits of off-peak times _____?

_____ prices go _____ should consumers _____ utilization?

What _____ we do to _____ during _____ hours?

How _____ we _____ usage _____ hours?

During _____ non-rush hours, _____ actions should _____ increase _____ utilization?

How do _____ ensure efficient _____ are _____?

_____ you _____ any tips _____ how _____ conserve energy when _____?

_____ we heighten expenditure _____ during _____ timelines?

_____ we boost _____ when _____ are _____?

_____ can we _____ less _____ during affordable, _____ peak _____?

_____ we maximize _____ the off-peak _____?

Suggestions _____ of times of _____?

____ can we ____ to maximize use ____ ____ ?
 ____ can ____ do ____ maximize usage during off ____ ____ ?
 Do you ____ any ____ on how to ____ ____ priced?
 ____ saving ____ during low cost ____ ?
 ____ ____ to ____ in inexpensive, off-peak periods ____ the day?
 ____ hours how can ____ consumption?
 ____ we ____ usage during off-peak ____ ?
 ____ hours how ____ we maximize our energy ____ ?
 Which measures ____ consumption ____ ____ time?
 ____ way ____ maximize consumer ____ outside of ____ and daytime decline?
 ____ can ____ be ____ off-peak hours?
 ____ are ____ save money on usage ____ peak ____ .
 ____ prices are ____ in ____ day, ____ are ____ supposed ____ to increase ____ ?
 ____ are ____ less during ____ hours.
 Is ____ a ____ to ____ the benefit ____ low-cost, ____ times ____ ?
 ____ outside peak ____ should ____ do to save?
 During ____ can ____ increase ____ ?
 How do ____ ensure ____ are minimal?
 How ____ we boost ____ when ____ ?
 How can ____ be raised ____ ?
 What should ____ done ____ maximize low-cost, ____ ?
 What ____ to increase expenditure efficiency ____ off-peak ____ ?
 When costs are ____ there strategies for ____ usage?
 ____ to increase consumption levels ____ needed during ____ .
 How ____ one ____ cost ____ consumptions ____ peak times?
 ____ we make consumption ____ efficient ____ off-peak ____ ?
 ____ consumption during ____ hours?
 What ____ be done to ____ efficiency during ____ ?
 How ____ make consumption efficiency ____ efficient ____ hours?
 What can be ____ increase ____ efficiency during ____ ?
 Do ____ any ____ for maximizing ____ when costs ____ low ____ demand ____ ?
 ____ be ways to ____ consumption ____ during ____ hours.
 ____ when prices are outside ____ peak hours?
 ____ prices are lower, what ____ we ____ boost ____ ?
 ____ maximizing our resource ____ when prices go ____ ?
 ____ any ways ____ maximize consumer consumption rates ____ durations?
 ____ we ____ when it's ____ expensive?
 Is ____ any way to ____ in off-peak ____ the ____ ?
 ____ we heighten expenditure ____ cost off-peak times?
 How do we ____ consumption ____ peak ____ ?
 ____ I improve ____ weak-period energy use?
 ____ can we ____ more ____ during ____ ?
 ____ are some ____ in which ____ consumption rates ____ maximized ____ of ____ .
 What can be ____ during low ____ times?
 ____ can be done to ____ when the ____ are ____ ?
 ____ hours what ____ be done ____ enhance consumption ____ ?
 What ____ be done ____ during ____ cost, ____ times?
 Is ____ way to ____ the ____ off-peak ____ of ____ day?
 ____ can ____ heighten ____ during low-cost off-peak ____ ?
 ____ should we ____ our resources usage ____ prices ____ ?

_____ increase _____ lower times?

Recommendations _____ efficient _____ when costs go down _____.

Which _____ boost consumption _____ non _____?

_____ we _____ maximize our _____ use during off _____?

Which measures _____ think _____ at cheaper _____?

Is _____ any pointers _____ consumption _____ affordable _____ frames?

_____ actions _____ better _____ non-rush hours.

_____ do _____ maximize _____ off-peak hours.

Suggestions on _____ energy _____?

_____ can be _____ to maximize _____ off _____ times?

_____ on how to _____ my usage _____ in _____.

How _____ our _____ timing when the _____ fall?

_____ there _____ way for _____ off-peak _____ to _____ more efficient?

_____ can _____ increase consumption efficiency at _____ hours?

Do there _____ for maximizing usage _____ low?

_____ dip outside peak hours how should _____?

Is it possible _____ be maximized _____ off-peak _____?

Suggestions on how to enhance _____ during _____?

Strategies for _____ money _____ less _____.

_____ on _____ to _____ my usage _____ during off-peak times.

_____ for _____ on _____ in _____ busy _____?

_____ the plan for budget-friendly _____?

How can _____ at affordable _____?

What _____ best way _____ ensure _____ effective _____ outside peak times?

_____ quiet and discounted periods _____ consumers _____ for _____ to _____?

_____ can be done _____ usage _____ off hours?

_____ can _____ improve efficiency _____ energy use?

Can we _____ consumption _____?

_____ we maximize _____ usage timing _____ decrease?

Which steps _____ utilization _____ times?

_____ there a way _____ maximize _____ it's _____ expensive?

_____ suggestions _____ how to make _____ use of _____ times?

_____ maximize _____ during _____ hours?

_____ effective at _____ consumption during cheaper _____?

_____ what _____ we do _____ maximize our _____ use?

What should we _____ boost _____ prices _____ low?

_____ about _____ efficient consumption _____ frames?

_____ done to _____ expenditure efficiency in _____ peak _____?

How _____ we maximize _____ when _____ less?

_____ help _____ consumption _____ non-peak times?

How _____ we increase _____ during affordable _____?

Suggestions on _____ affordable time _____?

_____ we increase usage in _____?

There are _____ that _____ at _____ moments.

_____ usage in cheaper _____.

_____ how to ensure _____ cost-effective _____ outside peak times?

_____ for cutting expenses _____ hours.

_____ are taken _____ inexpensive, non-rush _____?

_____ can we best use _____?

_____ on _____ to _____ my usage efficiency _____ off-peak _____.

_____ about _____ consumption during affordable _____?
 How _____ maximize _____ off-peak periods?
 _____ measures _____ optimal consumption _____ prices?
 _____ costs are lowest and _____ is _____ are _____ any _____ usage?
 We _____ your plan is for _____.
 What _____ do to maximize consumption during _____?
 Is there _____ for maximizing _____ cheaper _____?
 _____ more ways to save _____?
 _____ affordable _____ what can be _____ consumption efficiency.
 _____ can we _____ save energy _____ low-cost _____?
 What _____ done to _____ consumption in _____ the day?
 _____ times, how can _____ usage efficiency _____ overspending?
 The measures _____ lead to _____ in _____.
 _____ actions can _____ taken to _____ resource _____ during _____?
 _____ maximize usage in _____ busy _____?
 Which steps increase _____?
 _____ there any _____ for maximizing usage _____ are _____?
 _____ increase consumption _____ during _____ hours are important.
 What actions _____ be taken to encourage _____?
 Is _____ any _____ to increase usage _____?
 _____ for ways to improve _____ use _____ discounted _____?
 There _____ ideas for _____ during _____ off-peak _____.
 During _____ what ways can _____ energy consumption?
 How _____ one ensure the _____ outside peak _____?
 _____ prices _____ in _____ what _____ we do _____ increase consumption?
 How do you _____ that _____ consumptions _____ outside peak _____?
 Is _____ a _____ to increase consumption _____ off-peak _____ throughout _____?
 How should _____ best _____ off-peak _____?
 _____ are _____ for maximizing _____ non- _____ times.
 What should _____ done _____ cost, _____ peak time _____?
 What _____ done to _____ consumption during _____?
 Do you have _____ strategies for _____ busy _____?
 In _____ what _____ optimal consumption?
 _____ steps _____ improve _____ in low-priced, _____?
 _____ there a _____ the _____ of off-peak _____ of day more _____?
 Is _____ way to maximize consumption _____?
 Recommendations for _____ while costs _____?
 _____ we do _____ increase consumption _____ affordable hours?
 Is _____ any _____ or _____ efficient utilization _____ costs go _____?
 Is _____ consumption rates _____ be maximized outside _____ rush hour?
 What _____ can be _____ maximize consumption during _____?
 How do _____ utilization is _____ minimal outside peak times?
 _____ down, _____ can _____ do to improve _____ spending?
 During affordable, _____ hours, how _____ maximize _____ energy _____?
 _____ can _____ done to _____ expenditure _____ the off-peak _____?
 What _____ taken _____ non-rush hours _____ improve resource efficiency?
 Any _____ can save money during _____ times?
 _____ should be done about _____?
 _____ to save _____ during _____ off-peak hours?
 There are ways _____ consumer consumption _____ can be _____ hour.

_____ are _____ actions that can _____ during _____?

Which _____ non-peak times?

Do _____ have any tips on _____ to _____ affordable?

_____ be done to make _____ during off-peak _____?

What _____ the _____ during time frames?

How _____ maximize _____ prices go _____?

_____ ways _____ maximize usage during _____.

Which _____ non peak times?

Do _____ any _____ how to _____ use _____ the times?

_____ we maximize _____ we _____ spend less?

_____ what ways can we use _____ energy _____?

What _____ be _____ improve low-cost _____ usage?

_____ prices _____ low, _____ can _____ to boost _____ spending?

Ways to _____ consumption levels during _____ hours _____.

_____ can _____ utilization _____ low-priced, non-peak _____?

_____ on _____ in _____ busy times?

_____ way _____ maximize consumer _____ rates outside _____ daytime decline?

Is there a _____ advantage _____ of day?

Ways to _____ during _____ hours are _____.

Is there _____ strategy for _____ when _____ are lowest _____ demand _____?

_____ does one _____ sure the _____ cost-effective _____ happen outside _____?

Can you _____ me _____ on _____ during time _____?

How _____ make the _____ consumption _____ peak hours?

Which _____ are _____ at _____ consumption _____ times?

_____ times, how _____ one ensure the _____ cost _____?

_____ to increase _____ busy hours must _____ included...

How _____ usage at _____ peak _____?

_____ on _____ I _____ increase my usage efficiency _____ hours.

_____ you _____ for _____ in cheaper times?

How _____ we ensure _____ utilization when _____ minimal _____ times?

How _____ we _____ it's _____ expensive?

_____ do to maximize our energy consumption _____?

_____ consumers need _____ ways _____ improve their use during _____?

_____ do _____ lower our energy consumption _____ hours?

_____ any strategy for _____ when _____ are low and demand _____?

_____ tips to save more during the _____?

_____ we _____ our _____ usage timing _____ prices drop?

How can _____ improve _____ period energy _____?

How can _____ the _____ effective consumptions _____ peak _____?

_____ we improve _____ bargain weak-period energy _____?

How _____ consumption during _____ hours?

What _____ for _____ power hours?

_____ to save _____ during off-peak _____?

What _____ we _____ to _____ consumption when _____ down?

What can _____ done _____ expenditure _____ in low _____?

_____ we ensure _____ costs are not _____ high?

_____ are _____ for _____ expenses _____ time.

Is _____ ideas to _____ expenses _____ off-peak _____?

How can we _____ in _____ periods _____ day?

What _____ can _____ taken _____ maximize consumption _____ low _____?

Is _____ to maximize _____ in _____ periods throughout _____?

_____ steps _____ utilization _____ low-priced _____?

How can we increase _____ efficiency _____?

Is _____ to more efficiently use _____ off-peak _____ of _____?

Is _____ any _____ to _____ consumer _____ of rush-hour lengths?

_____ we use more _____ off _____?

_____ we make _____ utilization _____ costs are _____ peak times?

_____ a _____ to make _____ out of _____ off-peak times _____ day?

Can _____ better during _____ of the day?

Is _____ tips _____ efficient consumption during _____?

_____ maximize usage during off _____?

How _____ money when prices go _____ hours?

How can we _____ off-peak _____?

_____ one make sure _____ consumptions?

_____ steps _____ improve _____ non-peak times?

_____ prices go down, what _____ do _____ their spending _____?

_____ can _____ maximized during off-peak _____?

_____ we _____ consumption during _____ peak _____?

How _____ we _____ energy _____ during non-peak _____?

How _____ we maximize our _____ when _____ decline?

_____ to how I _____ my usage _____ during off-peak _____.

_____ can _____ improved _____ off peak _____?

Increase consumption rates _____ non-hectic spells _____ day

_____ can we _____ our resource usage timing _____?

Do _____ have tips _____ more during _____ peak _____?

_____ consumers look for _____ improve use during _____?

Do _____ the ability _____ during quieter parts of _____ day?

How should _____ decrease outside peak _____?

_____ non-rush hours, _____ would promote _____ resource utilization?

_____ it _____ to maximize _____ lowest and _____ is reduced?

_____ actions can be taken _____ during _____ hours?

What _____ we _____ save energy during _____.

_____ do we maximize _____ expensive?

What can _____ done to make _____ more _____?

_____ prices hit _____ can individuals do to _____ spending?

_____ can be _____ to _____ efficiency _____ the off-peak?

_____ there strategies _____ when _____ are less?

How can _____ weak-period energy _____?

_____ method _____ consumption rates can _____ maximized outside _____ rush hour?

_____ steps can _____ in _____ times?

When costs are not high _____ how _____ use?

Ways _____ increase _____ less busy _____

How _____ save money _____ cheap _____?

What actions _____ maximization _____ hours?

_____ can _____ money when prices _____ outside of _____?

How _____ maximize _____ in _____ times?

Is _____ a _____ to boost _____ cheaper _____?

Ways to increase _____ less _____ include...

Suggestions and _____ for more _____ utilization while _____?

During _____ and _____ parts _____ day can we _____ rates?

____ for ____ utilization ____ costs go ____ in ____.
 ____ a ____ usage if ____ are lowest and demand ____ reduced?
 ____ we maximize consumption ____ doesn't cost as ____?
 ____ on how to use ____ efficiently ____ costs _____.
 ____ measures ____ consumption ____ non-peak times?
 Suggestions ____ expenses ____ off-peak time ____?
 Is ____ way to maximize ____ when costs ____ demand ____?
 ____ we make our bargain ____ energy use ____?
 Suggestions ____ how I can maximize my ____?
 ____ consumption efficiency at ____ hours ____ can be ____.
 Can usage enhancement remedies ____ periods?
 ____ should ____ maximize utilization ____ are ____?
 How can we increase ____?
 ____ increase ____ in low ____?
 ____ your plan ____ power hours?
 ____ the best ____ boost consumption ____ cheaper periods?
 What ____ to encourage more ____ during ____?
 ____ boost consumption during ____.
 ____ lead to optimal ____ in ____.
 During ____ non-rush ____ what ____ can ____ taken ____ resource utilization?
 What can be ____ to ____ efficient ____ hours?
 ____ are steps ____ in low-priced ____.
 Is there ____ way to increase ____ consumption ____ hours?
 ____ can individuals ____ their ____ when prices ____ low?
 ____ is the best ____ during low-cost, ____ times?
 How do we ensure ____ costs ____ not ____?
 ____ be done to ____ during ____ day?
 There are ways to ____ consumer ____ rush-hour ____.
 ____ measures increase consumption during ____?
 ____ can we increase ____ off peak ____?
 Is there ____ to maximize our energy ____ hours?
 ____ actions ____ during ____ non-rush hours?
 There ____ on efficient consumption ____ affordable ____ frames.
 How to ____ usage ____ cheaper, ____.
 Is there ____ on efficient ____ time ____?
 ____ can be done to ____ times.
 What ____ consumption be ____ off-peak ____?
 Do ____ have any ____ to ____ on energy ____ the day?
 ____ we ____ energy ____ non peak hours?
 Can we ____ utilization rates ____ the day.
 ____ can we maximize our energy ____?
 How ____ maximize usage ____ hours?
 ____ my ____ efficiency during off peak times.
 ____ measures increase ____ are cheaper, non-peak ____?
 Suggestions ____ to ____ use of low-price ____?
 Do ____ tips to ____ the off-peak hours?
 ____ any ____ to save money ____ off-peak hours?
 ____ there be ____ maximize usage ____ are low and demand ____?
 ____ can consumption ____ during off- ____?
 Out ____ peak ____ maximize consumption?

It's possible to _____ time _____.

Measures _____ be taken _____ low cost times.

_____ prices drop, _____ we _____ maximize our resource usage _____?

When _____ minimal _____ peak times, _____ we _____ efficient use?

There _____ ways _____ consumer consumption rates outside _____.

_____ we maximize _____ when the _____?

When prices _____ what _____ do _____ improve _____ spending?

During _____ non-rush _____ actions can _____ promote better resource _____?

_____ there ways _____ usage _____ off-peak _____?

_____ saving _____ during _____ periods?

_____ maximize _____ resource usage timing when _____ prices _____?

Is _____ to _____ the most of the low _____ times _____?

_____ done to _____ consumption efficiency _____ lower hours?

_____ strategies _____ can help maximize consumption _____ off-peak _____?

During off-peak hours, _____ consumption _____?

How _____ we _____ utilization is _____ are low outside _____ times?

_____ use less _____ non-peak hours?

How can _____ during off-peak _____

_____ improve efficiency on bargain weak _____ energy _____?

How can we _____ use _____?

_____ low cost _____ what _____ to optimum _____?

Which _____ increase utilization _____ times _____?

_____ less expensive, _____ we maximize _____.

_____ you save _____ cheap days?

What can _____ maximize _____ energy consumption during non _____?

_____ can _____ done to _____ low-cost, _____ time _____.

Do you _____ strategies for optimizing _____?

_____ can increase _____ in non-peak _____?

Suggestions on _____ use _____ while _____ go down?

_____ can look for _____ improve _____ quiet periods.

_____ to _____ consumption in _____ periods?

_____ measures _____ best during _____ periods?

Ways to boost _____ during _____ hours _____ necessary.

_____ actions _____ increase the efficiency of _____ during _____ hours?

Is there a _____ to make _____ of _____ times _____ cheaply?

_____ utilization rates during _____ times of _____?

_____ can _____ maximize _____ during _____ off-peak _____?

_____ that _____ to boost consumption rates during non-hectic _____.

How should consumers maximize _____ utilization _____ outside _____ hours?

How should _____ be _____ during _____?

When _____ is less expensive, _____ you _____?

_____ a _____ make _____ out of less expensive times _____ day?

_____ steps _____ be taken _____ low cost, off _____ usage?

What _____ be done _____ consumption _____ times?

Can we _____ quieter areas _____ the day?

How can we _____ in low _____ timelines?

During _____ hours _____ can consumption _____?

_____ tips _____ efficient _____ during _____ frames?

I am wondering what your _____ budget-friendly _____.

_____ steps improve _____ when there _____ not _____?

When prices _____ what should we _____ consumption?
_____ what measures _____ to optimal consumption?
Ways _____ increase _____ levels during _____ hours must _____.
There are _____ cheaper times.
_____ can be _____ to _____ consumption during _____ times in _____?
There are _____ during cheap _____ frames.
_____ make _____ better _____ non-peak times?
What _____ lead to _____ low cost periods?
_____ affordable _____ we do _____ enhance consumption efficiency?
Do _____ have _____ advice _____ saving energy during _____?
Suggestions on _____ increase my _____ efficiency during _____?
When _____ outside _____ should consumers save?
_____ does _____ the _____ cost-effective consumption outside peak _____?
When prices are _____ in _____ day _____ increase _____?
Is there any _____ maximize _____ are _____ demand is reduced.
There _____ way to make _____ most _____ off-peak _____.
_____ can _____ ways to _____ use during discounted _____.
Suggestions _____ how _____ enhance _____ during off-peak times _____ overspending?
_____ maximize _____ in _____ hours?
_____ can _____ be maximized _____ hours?
_____ are ways _____ maximize _____ off- _____ periods.
How can _____ during _____ hours?
How is it _____ to _____ cost-effective consumptions _____ times?
What actions _____ we take _____ encourage _____ during _____?
I wonder _____ plan _____ budget-friendly _____ hours?
_____ hours, _____ actions do _____ take _____ maximize resources?
Shouldn't _____ to improve their _____ during discounted _____ quiet _____?
_____ there a way _____ maximize usage _____ lowest.
_____ increase consumption in non-peak _____?
_____ can be done _____ heighten _____ low-cost off-peak _____?
_____ on saving _____ low-cost periods?
_____ hours _____ we maximize usage.
When _____ decline in _____ day, _____ we _____ boost consumption?
How _____ we ensure _____ costs are _____ outside _____ times?
_____ at affordable hours.
Is _____ a _____ maximize utilization _____ go down?
There are ways _____ during _____.
_____ there _____ ways to _____ most out _____ off-peak hours?
What _____ during _____ hours to improve _____ utilization?
_____ are _____ tips _____ efficient consumption during _____ frames?
_____ maximize usage in _____ busy _____?
_____ can _____ done to maximize _____ low-cost _____ of _____?
What _____ be done to _____ low-cost _____ timelines?
How _____ we maximize our _____ it _____?
When _____ are low _____ should we do _____ consumption?
_____ can _____ more usage during _____?
_____ or hacks _____ better _____ while _____ go _____?
_____ way to make the most _____ low _____ off-peak _____ day?
_____ any _____ for consumption rates _____ outside _____ rush hours?
_____ we make low-cost, _____ time usage _____?

____ or hacks ____ utilization ____ are reduced?
 ____ there ____ to maximize ____ off-peak?
 When costs ____ and ____ is reduced, ____ any strategies ____ usage?
 ____ be done to ____ consumption during low-cost, ____?
 Do ____ have tips to ____ low ____ hours?
 ____ can be ____ increase ____ throughout low cost ____?
 ____ to ____ expenditure efficiency throughout ____ cost off-peak ____?
 How do you ____ cheaper, ____ busy ____?
 ____ there a way ____ consumption ____ off-peak ____ during ____ day?
 ____ consumption ____ be achieved ____ low-cost ____.
 Have ____ making optimum use ____ low-price ____?
 ____ we ____ our ____ when it costs ____?
 There ____ available to ____ in ____ times.
 Are there ____ ways ____ consumption rates ____ be ____ outside of the ____?
 ____ affordable, non-peak ____ maximize ____ energy use?
 ____ on ____ can enhance my usage ____ during ____.
 What ____ can ____ taken ____ inexpensive, ____ hours ____ increase resource ____?
 During ____ non-rush ____ what ____ promote better resource ____?
 What can ____ to ____ money when ____ low?
 During non-peak ____ maximize ____ energy consumption?
 ____ what ____ do you recommend?
 ____ increase ____ during less expensive ____ necessary.
 How can you ____ money ____?
 Can ____ ways for ____ consumption ____ to ____ maximized outside ____ durations?
 ____ are ____ save money on ____ during ____ periods.
 ____ are strategies for saving ____.
 ____ tips ____ efficient consumption ____ time is ____.
 How ____ we maximize ____ energy consumption ____?
 How ____ consumers maximize ____ prices fall ____ hours?
 ____ can ____ done to ____ more efficient during ____?
 ____ a way ____ maximize ____ of low ____ off peak ____ of ____?
 ____ to ____ during off-peak ____?
 Ways to ____ consumption ____ during less ____ must ____.
 ____ any ____ maximize consumer consumption rates outside ____ durations?
 How ____ we ____ affordable ____ within a day?
 ____ do ____ in the off-peak ____?
 Is ____ to ____ when costs are ____?
 There ____ ways ____ during ____ off-peak hours.
 What ____ utilization ____ nonrush hours?
 Examine ____ can be taken to boost ____ during a ____.
 Is ____ advice ____ saving energy in ____?
 Is there ____ way to ____ times of ____ efficiently?
 What ____ be done ____ consumption ____ times?
 To ____ usage, ____ steps should be ____?
 How do ____ less expensive?
 How ____ maximized during off-peak ____?
 Ways ____ consumption in ____ must be included.
 Do you need ____ save ____ during ____?
 Is it possible to improve ____ parts ____ the day?
 Can ____ maximize ____ during _____.

Suggestions ____ making ____ of ____ times?
 ____ strategies ____ to ____ consumption in ____ periods throughout ____ day?
 ____ consumption ____ during less busy hours are ____.
 Can there ____ ways ____ maximize ____ peak times?
 ____ there ____ the most out ____ off-peak hours?
 How ____ be improved during ____?
 Is ____ any strategies ____ to maximize ____ off-peak ____?
 What ____ taken ____ non-rush hours ____ resource efficiency?
 When ____ go ____ peak ____ should ____ maximize utilization?
 ____ measures ____ optimal consumption in ____ cost ____.
 Need to ____ off peak ____?
 How do ____ save money ____?
 There are ____ which consumer consumption ____ maximized outside ____ rush ____.
 Suggestions on ____ to ____ overspending during ____ times.
 ____ can ____ maximize our ____ usage during ____ non-peak ____?
 Which steps ____ of peak ____?
 ____ are ways ____ in cheaper, non- ____ times.
 ____ consumption efficiency ____ affordable ____ improved.
 ____ we use ____ in ____ periods throughout the day?
 ____ be done ____ maximize consumption ____ and off ____ times?
 How ____ you ____ money ____ the ____?
 ____ do to ____ energy consumption during ____ hours?
 ____ what can be done ____ improve consumption ____?
 When costs ____ minimal outside ____ what do ____ utilization?
 ____ can we ____ when it's ____?
 Is ____ any ____ get the ____ of ____ hours?
 ____ can we maximize our ____ usage ____ go ____?
 ____ utilization when costs go ____ in daylight slots.
 ____ maximize utilization ____ prices dip outside ____.
 Suggestions ____ how ____ maximize ____ efficiency ____ off-peak ____.
 ____ are ____ can people do about their ____?
 ____ you ____ any ____ to ____ when energy is cheap?
 Ways ____ consumption levels ____ expensive ____.
 There ____ maximize ____ off-peak periods
 Which ____ consumption in ____?
 ____ way to ____ the ____ of low cost off ____ of ____?
 During ____ parts of the day ____ rates?
 ____ can ____ do ____ to maximize consumption?
 ____ prices are ____ what ____ be ____ to increase ____?
 What ____ maximize ____ energy ____ within a day?
 How ____ we ____ it's cheaper?
 Which ____ improve use ____ low-priced ____?
 ____ for consuming at cheap ____?
 Is there ____ to ____ during ____ in the day?
 There are ____ raise ____ during less ____ hours.
 Ways to ____ times.
 ____ affordable, non-peak ____ what can we do to ____?
 ____ to save on ____ frames.
 ____ consumption when it is ____ affordable?
 What is ____ way ____ the ____ cost-effective ____ outside ____ times?

How _____ maximize consumption _____ off-peak periods _____ the day?

Ways to _____ during _____ hours are needed.

_____ there any _____ energy during low-cost _____?

What _____ done to increase _____ throughout off-peak _____?

Suggestions for _____ when _____ fall _____ slots.

_____ should _____ consumption _____ it's _____ expensive?

Suggestions on _____ save _____ during _____ cost _____?

_____ we _____ consumption in the _____?

Can consumers _____ ways to _____ during quiet _____?

Look for _____ to boost consumption rates _____ non-hectic _____ given _____.

Ways to increase _____ levels _____ hours are _____.

Ways to _____ during dull-day _____?

_____ for _____ expenses during off _____?

How do _____ maximize _____ its _____?

What _____ done to maximize _____ off-peak _____?

_____ efficient utilization _____ costs go down _____ daylight _____?

_____ your _____ budget-friendly _____ hours?

_____ are _____ low-cost, off-peak hours.

Is _____ a way _____ more _____ utilize _____ of _____?

_____ to _____ consumption _____ busy hours are needed.

_____ a way to _____ the most out _____ of the _____?

_____ can _____ increase expenditure efficiency _____ low _____ off-peak timelines?

How to _____ during _____ times.

How _____ we _____ sure _____ cost-effective _____ outside peak times?

_____ off-peak hours _____ be optimal?

_____ take _____ increase usage during off hours?

Can _____ improve utilization rates during _____ the _____?

How can _____ maximize _____ usage _____ when _____?

_____ lead _____ in low-cost periods.

There are ways _____ usage _____.

_____ can _____ use less _____ hours?

There _____ strategies for maximizing usage _____.

When prices _____ in the day _____ we _____?

Can consumption _____ hours.

_____ should _____ consumption when the _____ low?

Is _____ maximize usage during off-peak times?

_____ consumption _____ the cost is less?

How _____ we _____ during inexpensive _____?

_____ you tell me _____ are strategies _____ maximizing _____ when _____ lowest?

Is _____ to save _____ during off-peak _____?

Do you have any _____ on _____ conserve _____?

During non-peak hours, what ways _____ consumption?

Saving _____ frames?

_____ tell _____ about your plan _____ power hours?

_____ it _____ to make _____ cost effective consumptions outside _____?

Suggestions _____ can _____ my usage _____ during _____ times

Is there _____ to _____ the _____ off-peak times of day?

_____ it _____ to _____ the _____ off-peak times of _____?

Is _____ feasible way _____ maximize _____ consumption _____ outside _____ hours?

_____ can _____ done _____ maximize consumption _____ times?

Is there any _____ consumption _____ outside the rush _____?

Is there _____ during off-peak time?

_____ cost _____ hacks for _____ at _____ periods.

_____ there a _____ to _____ the most of _____ of _____?

_____ the _____ cost-effective _____ outside _____ times?

_____ there _____ way _____ maximize _____ rates outside of rush _____ daytime _____?

There _____ some ideas _____ cutting _____ during _____.

There _____ recommendations _____ hacks _____ efficient utilization _____ go down?

_____ should _____ when prices decrease?

_____ fall _____ hours, how _____ consumers maximize _____ utilization?

_____ maximize _____ energy consumption during inexpensive _____?

When _____ cheaper, how _____ we _____?

Should consumers look _____ use _____ discounted periods?

_____ or _____ efficient _____ while costs go down?

When _____ minimal _____ peak times, how _____ we ensure _____?

_____ do you _____ efficient _____ affordable time frames?

How do _____ usage _____ non-busy _____?

What steps _____ take _____ boost _____ when prices _____?

_____ there a way to get _____ off-peak _____ of _____ day?

_____ prices _____ lower, _____ the steps we _____ take _____ consumption?

_____ or _____ utilization _____ costs go down in _____ slots

Want _____ more _____ low-cost, off-peak _____?

_____ maximize usage in _____ busy _____.

When _____ in the _____ what should we _____ increase _____?

Hmm, _____ budget-friendly power hours?

_____ ways to use less _____.

_____ inexpensive, _____ hours what _____ promote _____ maximization?

_____ to _____ consumption at low-cost times throughout _____ day?

What _____ it take _____ cost-effective consumptions outside peak _____?

_____ increase consumption _____ are required during _____ hours.

There _____ strategies that _____ be used _____ consumption _____ the day.

There _____ methods that _____ to _____ rates _____ of rush hour.

_____ for _____ during off _____ hours?

_____ fall outside peak hours _____ maximize utilization?

During _____ hours _____ be adjusted?

_____ be done to heighten _____ efficiency during _____?

_____ off-peak hours _____?

_____ budget friendly _____ hours?

_____ be _____ increase consumption during low cost _____?

_____ available to _____ consumption in off-peak periods?

Can _____ enhancement _____ with _____ periods?

Which _____ boost _____ at _____ times?

What _____ be done _____ increase _____ usage?

Is _____ a _____ to _____ outside _____ rush hour and _____ decline?

There _____ ways _____ when costs are _____.

_____ to _____ usage _____ time periods?

_____ there _____ way _____ make the _____ off _____ times of _____?

Are you looking _____ save _____ off peak _____?

_____ steps _____ be _____ to maximize low-cost, _____ usage.

During the quieter part of _____ day _____?

I ____ what ____ for budget-friendly ____ hours?
 ____ we ____ rates during quieter ____ of ____?
 ____ to save energy ____ time ____?
 How ____ we ____ consumption ____ off-peak ____ throughout the ____?
 ____ measures can ____ consumption ____ non-peak ____?
 Suggestions ____ hacks for more ____ utilization ____ costs ____?
 How ____ we ____ most ____ off-peak hours?
 Which ____ boost consumption ____ non ____?
 ____ for ____ consumption rates during ____ spells of a ____ day.
 Is there a ____ to ____ resource usage ____ prices ____?
 ____ the ____ that can be taken ____ boost consumption rates ____ an ____ spell _____.
 ____ ways to ____ expenses ____ times.
 ____ hours ____ we maximize ____?
 Need ____ during ____ off-peak hours?
 ____ could ____ maximize ____ during ____ hours?
 ____ do you make sure ____ consumption outside peak ____?
 ____ can we do ____ our energy use ____ non-peak ____?
 ____ measures can be taken ____ consumption during ____?
 ____ should be ____ to ____ time usage?
 ____ consumption ____ during ____ hours?
 ____ off-peak ____ throughout ____ day, ____ strategies for maximizing ____?
 ____ there ____ idea for ____ expenses during ____ time ____?
 ____ actions do you take ____?
 ____ can ____ do ____ my usage ____ during off-peak ____?
 Are there strategies for ____ are ____ is reduced?
