

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Appliance Manufacturers
Inquiry Category	Product warranty and repairs
Inquiry Sub-Category	Refund and return inquiries
Description	Customers inquire about the process for returning or refunding appliances that are defective or no longer meets their needs, including any associated fees or requirements.
Data Size	6,269 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Appliance Manufacturer" customer inquiry. (Purchased data will not be masked.)

If repairs _____ due discontinued _____ line/spare _____ availability _____ then _____ happens _____?

What happens _____ repair is not _____ due _____ lack of _____?

If the _____ production _____ affects repairs _____ is _____ next _____?

If production _____ discontinuation/limited spare _____ what alternatives _____?

What _____ if repair isn't _____ because _____ of _____?

_____ are our _____ if the _____ spare parts _____ affected?

What happens _____ happen _____ to discontinued _____ issues?

If _____ aren't able _____ fix it because _____ what _____?

_____ terminated production line leads to _____ of _____ parts?

How _____ discontinued _____ part scarceness affect _____?

If _____ occur _____ to _____ line unavailability, what _____?

_____ possible _____ a halted product _____ what should follow?

_____ if repairs aren't possible _____ to _____ production lines?

What happens _____ not enough _____ or a terminated _____?

_____ will things work out _____ cannot _____ because _____ lines.

_____ are _____ spare _____ left _____ production line is stopped, then _____ will happen to _____?

_____ if spare parts _____ not available _____?

What _____ if _____ happen because _____ line unavailability?

If _____ line _____ parts cannot be _____ repairs, what _____?

_____ don't _____ it _____ discontinued lines, what _____ happen?

_____ of _____ production _____ missing spare parts, what do _____ do?

How will _____ discontinued lines _____ not fixed?

_____ is _____ next step _____ repairs can't _____ lines are _____?

_____ happens _____ spare parts _____ for repairs?

Due _____ unavailability, what happens _____ can't happen?

_____ happens _____ repair can't _____ because _____ parts or halted production?

_____ if _____ aren't doable because _____ discontinued _____?

When _____ production _____ or spare part is _____?

As a ____ of ____ line/sparsity ____ spare ____ how ____ we ____?

What should ____ feasible due ____ halted production?

Which ____ lies ____ after scarce availability is ____ production ____?

What ____ the ____ steps ____ spare parts ____ to ____ by?

____ should ____ can't ____ due to ____ halted product stream?

____ production ____ part scarceness affect ____ action?

If ____ line/part shortage ____ feasibility, what ____ next?

When faced with manufacturing ____ should ____ do?

____ happens if there ____ repairing ____ with discontinued ____.

____ there ____ lack of spare ____ or a ____ what occurs?

____ discontinued production line/part shortage affects ____ next?

When ongoing ____ in supplies ____ repairing ____ we do?

What ____ aren't ____ due ____ parts?

What happens if production ____ spare ____ available ____?

____ the ____ impossible ____ the production ____ is ____ or there ____ no ____ parts ____ what ____ happen?

You ____ fix ____ to ____ manufacturing or spare ____ availability.

What follows if repair ____ be ____ halted production or ____?

What ____ happen ____ line issues are ____?

____ can't be made ____ of ____ what next?

How ____ we handle ____ caused ____ of necessary spare parts for ____?

When repairs can't ____ done ____ production ____ unavailability, ____?

What ____ after ____ issues if repair isn't ____?

____ manufacturing ends/lack ____ means repairing ____ can one proceed?

____ happens when there ____ enough ____ because ____ production line?

If ____ production line/part shortage affects ____ feasibility... what ____?

____ should we do ____ arising ____ discontinued line/sparsity of ____ parts?

Out ____ spare ____ manufacturing ____ for forthcoming ____ repairing isn't possible.

____ happens ____ if ____ to discontinued production line and spare ____ issues?

If ____ can't ____ because ____ discontinued ____ how ____ things go?

____ happen if repair is ____ to halted ____ or lack ____?

____ happens ____ can't ____ done due to ____ part availability issues?

____ are ____ steps ____ spare parts ____ disrupted?

If ____ parts ____ in ____ what ____ next steps?

____ comes ____ if ____ no spare ____ in the ____ line?

How ____ we proceed ____ parts caused by a ____ production?

What should happen if ____ repair ____ due ____ halted ____?

____ no spare ____ left ____ the ____ stopped working, what will happen to ____?

____ cannot ____ because of discontinued production line ____ spare ____ should be ____?

____ be done ____ of discontinued ____ availability, ____ next step?

____ repairs can't be done ____ parts ____ what is ____?

____ are ____ options ____ repairs ____ due to ____ production items?

What ____ after the ____ a production ____?

____ spare parts can ____ repairs.

If ____ isn't ____ due ____ a halted ____ what ____ we do?

What is ____ next step if ____ done due to ____ lack ____?

If ____ of spare ____ disrupted, ____ are the next ____?

____ can ____ done ____ repairs ____ possible ____ of discontinued ____?

If ____ cannot be ____ due to ____ availability, ____ will ____?

How ____ we ____ with ____ lack of ____ to ____ halt in ____?

What ____ repairs ____ because of discontinued ____?

What ____ happen if the issue ____ the ____ line ____ or ____ are no spare parts ____?

What ____ repairs ____ be ____ production line unavailability?

When repairs are impossible ____ discontinued production ____ are ____?

____ happens ____ production line stops and there ____ no ____?

What happens when repair ____ possible due ____ product ____?

What ____ happen ____ repairs ____ done because of ____ line ____ spare ____ unavailability?

Which plan lies ____ lack ____ availability ____ by ____ lines?

____ repairs cannot ____ because of ____ production or ____ parts, ____ be ____?

____ if repair ____ happen ____ of unavailability ____ spare ____?

____ to discontinued production items, what do ____ do?

If ____ issue isn't fixed ____ the production line ____ there aren't any spare ____?

What ____ aren't spare parts ____ a terminated ____?

What ____ isn't possible ____ of ____ of ____ or ____ production?

____ repair isn't ____ to a ____ product stream, ____ we do?

____ repairs ____ of discontinued production or missing ____ is the ____ step?

____ happens ____ are ____ possible ____ of discontinued parts?

____ do you ____ if repair isn't possible ____ stream?

If ____ production ____ affects repairs ____.

If there are ____ or ____ line ____ working, what will ____ the issue?

If ____ because there ____ spare parts left, what ____?

____ repairs ____ happen because ____ production or ____ parts, what ____ happen?

What ____ after repair is not possible ____ to ____?

____ happen ____ to production line unavailability, what ____?

What ____ when ____ production ____ is ____?

____ be ____ if repairs cannot be made ____ or ____ part unavailability?

____ can't be done ____ line ____ stopped, what ____ happen?

____ be ____ production line ____ stopped, what will happen?

____ a production line ____ part is ____ afterwards?

What is the next ____ repairs can't ____ made ____ production ____?

What ____ the product ____ due to ____ in production/supplies?

If repairs are not ____ of ____ production ____?

____ there are ____ or a ____ line, what happens?

____ my device can't be repaired because ____ discontinued ____ issues, ____ should ____?

How ____ spare ____ affect upcoming ____ repairing isn't possible?

Due to discontinued production ____ availability issues ____?

What ____ if ____ can't happen because ____ discontinued production ____ spare part ____?

If repairs ____ happen because ____ production ____ unavailability, what ____?

How do we ____ the ____ associated with ____ of necessary ____?

What if ____ aren't ____ of ____?

____ if ____ is not ____ due to ____ of spare ____?

What ____ do when ____ with ____ part scarcity?

If repairs ____ possible because of ____ or ____ what follows?

____ be ____ if production ____ parts prevent repairs?

If repairs can't be ____ to ____ what is ____?

If ____ no spare ____ the production ____ discontinued, what ____ happen?

____ should ____ if repair ____ not ____ due to ____ or lack of ____?

____ will happen ____ the ____ impossible ____ there are no ____ parts ____ the ____ line has ____?

When manufacturing ____ lack ____ supplies means ____ isn't viable, ____ do ____?

____ happens when ____ production line ____ shortage ____ spare parts?

____ repairs can't be made because ____ what ____ do?

What _____ is an _____ production line/spare _____?

When repairs _____ available _____ to discontinued _____ items, what _____?

_____ after a _____ part _____ unavailable?

If _____ be made _____ production _____ or _____ part unavailability, what _____ do?

What happens _____ possible _____ of _____ production line availability _____?

_____ are _____ possible due to discontinued _____ items _____ left?

_____ happens _____ repairs aren't _____ because of _____ parts?

_____ should _____ when a production _____ part is _____?

_____ the next step if _____ availability _____ spare _____?

What would _____ repairs _____ due to discontinued _____ issues?

_____ repairs _____ be _____ to _____ availability, what's next?

_____ isn't _____ because of halted production _____ lack of _____?

Given the _____ that arise _____ discontinued line/sparsity _____ should _____ proceed?

What should _____ after _____ confronted with manufacturing _____ part _____?

How _____ to the _____ because of the halt in _____?

What _____ discontinued production line/part _____ affects repairs _____?

_____ repairs can't be _____ due _____ discontinued _____ what _____?

If _____ of discontinued production line _____ what is _____ step?

How _____ we _____ constraints of _____ line/sparsity of _____ parts?

_____ repairs _____ possible because of _____ parts, _____ will _____?

_____ will _____ now if repairs are _____ because of _____?

When repairs can't happen _____ line/spare _____ happens?

_____ be done because the _____ line _____ stopped, _____ after?

How is _____ handled after the _____ of a _____?

When manufacturing _____ supplies _____ isn't _____ do we proceed?

What should happen _____ repair _____ a _____ product stream.

How _____ with the _____ arising from _____ discontinued _____ spare parts?

_____ will _____ if repair _____ possible _____ of _____ production?

What _____ repairs _____ be _____ because _____ or missing spare parts?

What _____ is not _____ spare _____ when _____ production line is _____?

_____ a lack of spare parts or _____ line, _____ happens _____ repairs _____ not _____?

_____ can't fix it because _____ how _____ it work _____?

If _____ possible _____ to _____ production line/spare _____ availability _____ what _____ happen next?

_____ can't _____ done _____ production _____ is discontinued.

A _____ parts or a _____ production _____ cause repairs _____ infeasible.

What _____ can't _____ because of discontinued _____?

_____ next step if _____ occur because of a lack _____?

_____ should be done if _____ can't _____ due _____ parts?

If the _____ because of the _____ line _____ parts left, _____ will happen next?

If _____ shortage of _____ what are our next _____?

_____ can't _____ made because _____ spare parts, what are the _____ steps?

_____ happens _____ production _____ is unavailable.

_____ happens when _____ feasible because of a lack _____?

_____ discontinued production line/part shortage _____ feasibility of repairs, _____?

_____ the discontinued production _____ affects repairs _____ next?

_____ will _____ if _____ production _____ is _____ more and no _____ parts _____?

_____ must we _____ confronted with _____ line _____ part _____?

What _____ happen _____ we can't fix _____ or parts?

_____ happens _____ is _____ of spare parts or _____ terminated production _____.

_____ happens _____ repairs aren't _____ of _____ parts

____ a production line or ____ part ____ what ____?
 ____ to ____ production ____ or ____ part unavailability, ____ should be ____?
 What ____ repairs aren't doable due to ____?
 What ____ next if ____ can't ____ to discontinued ____?
 ____ if repair ____ possible due ____ unavailability ____ spare parts?
 ____ repairs can't ____ due ____ discontinued production ____ or spare part ____?
 ____ repairs ____ because of ____ of spare ____ what is ____ next step?
 When repairs aren't ____ due ____ discontinued production ____?
 If ____ cannot be ____ because ____ is ____ spare ____ left, ____ happen?
 If repairs ____ production line or ____ unavailability, what happens?
 ____ can ____ a ____ line/spare ____ is unavailable?
 Out ____ spare ____ have ____ future actions when repairing ____ possible.
 ____ with ____ discontinuance/spare ____ scarcity, what ____ we do?
 How do we ____ constraints ____ discontinued ____ necessary spare ____?
 What ____ a ____ line/spare part are ____?
 ____ happens ____ isn't ____ spare ____ or a production ____ terminated?
 How do ____ given ____ arising from discontinued line/sparsity of ____?
 If ____ line doesn't have spare ____ what ____?
 If ____ repairs feasibility...what's next?
 If repairs can't be ____ the discontinued production ____?
 ____ be ____ repairs aren't doable ____ of ____ parts?
 What do ____ do if ____ be ____ because ____ has stopped?
 ____ are we ____ availability is compromised by discontinued production?
 ____ happens if repairs ____ not ____ to ____ line ____?
 What happens when ____ due to ____ items?
 ____ if ____ line issues can't ____?
 ____ happen if repair isn't ____ due ____ of ____?
 What ____ done if ____ possible ____ of discontinued production ____?
 What ____ if ____ won't ____ doable ____ discontinued parts?
 ____ the ____ repairs ____ happen because of the cessation of ____?
 ____ repairs ____ done ____ the ____ line/parts have ____ what happens?
 What happens ____ you ____ problems ____ equipment ____ or spare parts?
 ____ the production ____ is ____ be used for repairs, ____?
 If repairs ____ possible ____ to discontinued ____ line ____ will ____?
 When ____ don't happen ____ to discontinued production ____ what ____?
 ____ production line ____ discontinued ____ parts prevent repairs, what options ____?
 ____ do ____ constraints from discontinued line/sparsity of ____ parts?
 ____ happens ____ repair isn't ____ because ____ stopped product stream?
 ____ issue ____ fixed ____ the ____ line is stopped ____ no spare parts ____ what will happen?
 What ____ next if ____ because ____ discontinued parts?
 What should we ____ in light of ____ caused ____ a ____?
 ____ confronted with manufacturing ____ part scarcity, what ____?
 ____ will ____ constraints ____ from discontinued line/sparsity of ____ spare parts?
 When ____ is ____ enough spare ____ or ____ production line, ____?
 ____ can't be done ____ to discontinued parts, ____ are ____?
 ____ ongoing manufacture ____ in ____ means repairing ____ how ____ proceed?
 What happens ____ repairs ____ be ____ due to shortage ____?
 When ____ manufacture ends/lack in ____ repairing is ____ viable, ____ do ____?
 ____ happen when ____ production ____ is unavailable?
 ____ repairs ____ because of ____ production ____ parts, what ____ you do?

_____ line _____ limited _____ prevent repairs what _____ the options?
 How do _____ deal _____ the _____ line/sparsity _____ needed spare _____?
 _____ if repairs _____ happen _____ to production line _____?
 If _____ production line/part shortage affects _____ feasibility... _____?
 What _____ when there _____ issues fixing _____ with _____?
 _____ we do if there _____ discontinuation _____ fixes?
 _____ repairs aren't _____ due to _____ production _____ availability _____ what will _____?
 _____ happen _____ product can _____ fixed because _____ endings in production?
 What should be done _____ can't _____ because _____ discontinued _____ missing _____?
 What should happen _____ repairs _____ because of discontinued _____ line or _____?
 What _____ if _____ production line is _____ more, _____ there _____ parts left?
 What _____ if repair _____ because _____ of spare _____?
 If a _____ line/part shortage _____ repairs _____ next?
 _____ respond to _____ spare _____ caused by _____ halt in production?
 _____ repairs _____ be done due to discontinued _____ what _____ thing?
 _____ will repair _____ unviable _____ line/spare _____ scarceness is _____?
 What _____ happen if repairs _____ done because the production _____?
 How do _____ respond _____ the constraints _____ discontinued line/sparsity of _____?
 _____ isn't possible, _____ does out- _____ spare parts/terminated _____ affect _____?
 What happens _____ due to halted _____?
 What is _____ step _____ repairs _____ because of the _____ of _____ availability?
 _____ repairs _____ because of _____ production _____ part availability _____ what happens _____?
 _____ happens _____ there's _____ parts _____ a terminated line?
 What _____ repairs can't _____ done _____ line availability?
 _____ happens _____ isn't _____ due to _____ product stream?
 What would _____ if _____ feasible _____ to halted _____?
 What _____ be the next _____ repairs can't _____ discontinued parts?
 If ongoing _____ supplies _____ is not viable, _____ does one _____?
 _____ fix it because of _____ lines, how _____ it _____?
 _____ happens _____ repairs are not _____ because _____ line/spare part availability _____?
 _____ will happen _____ the _____ is no _____ and _____ spare parts _____?
 _____ will happen _____ repairs aren't _____ because _____ lines?
 What's next if _____ production _____ affects repairs _____?
 _____ the discontinued _____ line/part _____ affects repairs _____ is _____.
 What is the _____ thing _____ be done because _____?
 What should be _____ if _____ don't _____ because of _____ line _____ unavailability?
 _____ happens if _____ isn't possible due _____ parts?
 What might _____ repairs _____ doable because of _____?
 What _____ possible because of _____ production line and _____ part availability _____?
 _____ ongoing _____ in supplies means repairing _____ out _____ question, _____ one proceed?
 Which plan _____ ahead _____ scarce availability _____ lines?
 _____ be made _____ to _____ line _____ spare part _____ what happens?
 _____ if a repair _____ possible _____ of _____ spare parts?
 _____ insufficient spare parts _____ by a halt _____ production, _____?
 _____ the _____ line _____ available _____ repairs, _____ do you _____?
 The _____ spare parts _____ not _____ available _____ repairs.
 _____ will happen if _____ don't _____ due to _____ line _____?
 _____ arising from _____ of necessary spare parts; _____ do _____ do?
 What _____ don't _____ to discontinued _____ line or spare _____ unavailability?
 _____ the issue _____ impossible _____ the _____ is _____ longer being _____ what will _____?

What ____ if repairs aren't ____ due ____ line?

What should ____ if repairs ____ because ____ parts?

What do ____ do after facing ____ part ____?

How will ____ of production line/spare ____ if ____ becomes unviable?

____ due to ____ line unavailability

____ happens ____ a ____ line/spare ____ available?

____ would happen ____ line issues ____ not ____?

In ____ of ____ spare ____ or production problems, ____ will ____?

What ____ repairs can't ____ made due to ____ availability issues?

____ is a ____ of spare ____ or ____ terminated ____ line, what ____?

____ follows if repair isn't ____ a ____ product ____?

If ____ happen due ____ line issues, ____ happens?

If ____ lines can't be ____ things ____?

____ we do after we ____ line ____ scarcity?

What ____ be done when repairs can't be ____?

____ can't be ____ due to production ____ unavailability?

____ when repairs aren't doable ____ discontinued parts?

In case ____ discontinued production ____ affects ____.

When ____ can't happen ____ of ____ or ____ parts what ____ follow?

What is ____ next ____ if ____ can't ____ because ____ of spare ____?

____ happens if there is ____ equipment ____ discontinued ____?

What happens when repairs can't be ____ production or ____?

____ the ____ production line affects ____.

____ aren't ____ due to discontinued production, ____ next steps?

____ done ____ to ____ parts, what's next?

____ do ____ deal with ____ from ____ line/sparsity of necessary ____ parts?

If ____ discontinued production ____ affects ____ feasibility... ____ will ____ next?

When ____ manufacturing ____ in supplies means ____ viable, ____ does ____?

What happens ____ a production ____ or spare ____?

____ if ____ line ____ aren't fixed?

When repairs can't ____ discontinued production, ____ should ____?

What ____ we ____ if the availability of ____ gets ____?

What ____ spare ____ aren't available ____?

If ____ discontinued ____ affects ____ what is the ____ step?

What ____ repairs ____ due to ____ production lines?

If repairs can't be ____ availability, what's ____?

____ the ____ line ____ repair, what happens?

____ if ____ line parts ____ for repairs?

____ will we ____ confronted ____ line discontinuance/spare parts ____?

____ would ____ event ____ repair isn't ____ due to ____ halted product ____?

____ issues ____ equipment with discontinued production lines, ____ next?

If repairs can't ____ because ____ what's the ____?

____ ongoing ____ ends/lack in supplies means repairing ____ not ____ proceed?

When ____ isn't possible due to ____ halted ____ stream/part ____?

____ when there is a lack ____ spare ____ or ____?

If ____ made because of ____ production line or ____ part ____ are the ____?

____ if repair ____ doable due ____ halted ____ or lack of ____?

____ are not ____ due to ____ production, what ____ the ____ step?

____ happens when repairs ____ infeasible because ____ a ____ or a ____ line?

If ____ because of discontinued production, what ____?

What would _____ if _____ equipment with _____ production lines?
 _____ discontinued production line/spare _____ availability _____ repairs to _____ impossible, _____ ?

What course _____ take once _____ manufacturing line _____ part _____ ?

What _____ the _____ line or spare parts _____ for _____ ?
 _____ happen if the _____ cannot be _____ to _____ ?

If there are _____ discontinued production _____ what _____ ?
 _____ repairs _____ made because of _____ production, _____ follows?
 _____ the discontinued production _____ repairs?

What comes _____ unavailable _____ line _____ ?

If _____ discontinued production what are _____ next steps?
 _____ will _____ can't _____ it because _____ discontinued lines.
 _____ is the _____ step _____ repairs _____ happen _____ of _____ of _____ lines?
 _____ is next if repairs _____ done _____ discontinued parts _____ ?
 _____ ongoing manufacture ends, repairing _____ one proceed?

What can _____ done _____ possible due _____ discontinued production?

What _____ when spare parts _____ not _____ ?

There are options if _____ spare parts prevent _____ .

What follows if _____ be done _____ to _____ ?

If _____ production _____ affects repairs feasibility, what _____ thing?
 _____ happens _____ repairs aren't _____ due _____ discontinued _____ line/spare _____ availability?

What will _____ the _____ repair isn't possible due to _____ ?

What _____ can't _____ because of discontinued production _____ ?

What happens if repairs aren't _____ to _____ part _____ .
 _____ not possible due to _____ of spare parts?

What follows _____ production _____ can't be _____ ?

What _____ repairs _____ done because of _____ unavailability?

What should _____ happen due to _____ line _____ part unavailability?
 _____ happens _____ can't be _____ because _____ line has stopped _____ ?

A _____ of spare _____ or a _____ to _____ being infeasible.

When repairs can't be _____ or _____ spare _____ what _____ be done?
 _____ if repairs _____ made _____ to _____ line/spare part unavailability?

What happens _____ discontinued production _____ availability _____ repairs?
 _____ happens _____ production _____ spare parts _____ unavailable for repairs?
 _____ when _____ can't be _____ because of discontinued production _____ missing spare _____ ?
 _____ manufacture ends/lack _____ means _____ isn't _____ does one proceed?
 _____ plan lies _____ now that there _____ halted productions lines?

How do we _____ discontinuation _____ fix?

What _____ done _____ repairs _____ be made _____ discontinued _____ line or _____ unavailability?

What _____ cannot _____ because of _____ parts availability?

How _____ the _____ line/spare _____ scarceness _____ future action?

What _____ next _____ repairs _____ because of lack _____ spare _____ availability?

If _____ issue _____ fixed _____ of the discontinued _____ spare parts left, what _____ happen?

What _____ happen _____ the _____ isn't _____ to _____ halted _____ stream.
 _____ after _____ line _____ unavailable for repairs?

If _____ production line/part _____ impacts repairs feasibility, _____ ?

What _____ done _____ repairs _____ happen _____ of discontinued _____ line or _____ ?

If the _____ affects repairs feasibility, _____ ?
 _____ the _____ step if _____ cannot happen due _____ lack _____ production _____ ?
 _____ the discontinued _____ shortage _____ repairs feasibility... what _____ do?
 _____ if repairs _____ possible due to _____ lines?

_____ if _____ can't _____ discontinued production line _____ spare parts unavailability?
 _____ manufacture ends/lack in supplies means _____ one proceed ahead?
 _____ the issue is _____ fixed because _____ line is stopped _____ there is no _____ left, _____ ?
 _____ you _____ what will _____ there aren't spare parts _____ ?
 _____ repairs _____ possible _____ of discontinued _____ are the _____ left?
 _____ happens when _____ done due _____ discontinued parts?
 What _____ if _____ aren't feasible _____ production?
 What happens if _____ discontinued _____ line/spare _____ availability issues?
 _____ we do _____ of _____ line/sparsity of _____ spare parts?
 If repairs _____ possible _____ discontinued production, _____ next?
 If _____ line or _____ for _____ what will happen?
 What _____ be done if _____ done because _____ parts?
 What _____ if _____ don't happen _____ line unavailability?
 The discontinued _____ line/part _____ feasibility.
 _____ repairs _____ happen _____ the production line _____ out?
 _____ ends/lack _____ supplies _____ repairing isn't viable, how _____ one go _____ ?
 _____ should _____ if _____ are not _____ because of _____ or spare part _____ ?
 _____ do we _____ the constraints caused by _____ of necessary _____ ?
 What _____ repairs _____ due _____ halted production or _____ of _____ ?
 When _____ manufacture ends/lack _____ supplies means _____ isn't viable _____ ?
 What is _____ next step _____ occur _____ to _____ spare parts?
 How do _____ with _____ discontinued _____ of necessary _____ parts?
 _____ are our next _____ of _____ parts becomes compromised?
 _____ can't _____ of discontinued production _____ what is the _____ ?
 What happens _____ isn't doable due _____ lack _____ or _____ ?
 What _____ now that _____ available _____ fixing?
 Out of _____ mean consequences when _____ isn't _____ .
 _____ when _____ problems _____ equipment with discontinued production _____ spare parts?
 How _____ it _____ a specific line/spare part _____ no _____ ?
 _____ happen _____ line and spare parts _____ gone?
 _____ line/spare _____ is unavailable, what will _____ ?
 _____ repairing equipment with discontinued production _____ do you _____ ?
 What _____ if _____ production line _____ there _____ no spare _____ ?
 _____ the device _____ due _____ discontinued parts _____ issues, what _____ I do?
 What _____ if _____ availability of _____ parts _____ disrupted?
 _____ should _____ handle _____ that _____ from _____ line/sparsity of _____ spare parts?
 _____ repair is _____ possible _____ of unavailability of _____ cessation?
 What will _____ the issue is not _____ no _____ parts _____ production _____ is stopped?
 _____ repairs can't be done _____ to discontinued _____ is _____ ?
 _____ we _____ parts caused by a halt in production?
 _____ line is gone and there are _____ spare _____ left?
 What _____ repair isn't possible because _____ of _____ parts?
 _____ of the _____ arising _____ discontinued line/sparsity of necessary _____ how _____ ?
 If production _____ or spare parts _____ happens?
 _____ is the _____ of action when _____ with _____ ?
 What is _____ repairs cannot be done _____ to _____ ?
 If _____ production _____ spare parts aren't _____ repairs, _____ happens
 _____ repairs _____ be made _____ of _____ parts?
 When repairing _____ out-of-stock _____ parts/terminated _____ affect forthcoming actions?
 Given the constraints arising _____ do _____ proceed?

____ comes after an unavailability ____ part?
 ____ my device cannot ____ fixed ____ to ____ or ____ issues, ____ I do?
 What will happen ____ repairs ____ happen ____ line or ____ part ____?
 ____ will happen ____ line or spare part ____?
 What ____ repairs ____ possible due ____ production line ____ part ____ issues?
 If the ____ line/part shortage ____ what's ____ next?
 ____ happens when ____ production line ____ part ____?
 ____ should we ____ insufficient ____ of spare parts caused by ____ in ____?
 What do you ____ happen ____ parts ____ for ____?
 What ____ repair is ____ due to ____ production or ____ of ____?
 What should happen in ____ that ____ is ____ possible ____ halted ____ stream?
 What ____ do with ____ of ____ line/sparsity of ____ spare ____?
 ____ comes ____ a ____ part ____ unavailable?
 What will ____ if ____ for ____?
 Due ____ a lack ____ available ____ parts, ____ happens ____ repairs are ____?
 How ____ parts/terminated ____ affect forthcoming ____ when repairing isn't ____?
 ____ not possible because of ____ unavailability of ____ parts?
 ____ after ____ can't be done due ____ discontinued ____?
 What ____ next ____ the spare parts availability is ____ production?
 ____ if repairs ____ be made ____ unavailability of ____ parts?
 When repairs aren't ____ discontinued production items, ____?
 What must happen if ____ because ____ discontinued ____?
 ____ if ____ production line affects ____?
 ____ is ____ repairs cannot ____ due to lack of production ____?
 How ____ it ____ we ____ fix ____ because of discontinued ____?
 ____ can't fix ____ of ____ lines ____ will play ____ differently.
 What ____ if it's ____ repair due to unavailability ____?
 How should ____ ongoing ____ in supplies means ____ isn't ____?
 ____ do out-of-stock ____ manufacturing ____ repairing isn't possible?
 What ____ our ____ steps ____ spare ____ hard ____ find?
 ____ should ____ cannot be done ____ to discontinued production ____ part unavailability?
 ____ line or ____ part can't be used?
 What would ____ to discontinued ____ issues ____ isn't ____?
 ____ ongoing manufacture ends and lack ____ repairing is ____ one proceed?
 ____ will happen ____ repair isn't ____ due ____ halted ____?
 ____ happens ____ can't be made ____ to discontinued ____ line ____?
 ____ due to ____ halted product stream, what ____ happen?
 What ____ when ____ impossible because ____ or ____ spare parts?
 Suppose the ____ shortage affects ____ what's next?
 ____ happen ____ repair ____ possible due to a halted ____?
 ____ there ____ repairing equipment with ____ production lines?
 What should happen ____ feasible because of a ____?
 When repairing ____ out-of-stock spare parts/terminated manufacturing ____ actions?
 When manufacturing ends ____ lack ____ means ____ how does ____ proceed?
 ____ ongoing ____ ends/lack in supplies ____ repairing ____ how should ____ forward?
 ____ production line ____ parts ____ available, what happens?
 ____ repairs ____ due to ____ production, what is ____ next ____?
 When ____ ends/lack in supplies ____ repairing ____ viable, ____?
 What ____ step ____ repairs can't be ____ because ____ discontinued ____ availability?
 How does ____ manufacture ends and ____ enough supplies ____ repair?

What happens if repairs ____ be done ____ production ____ ?

If ____ done due ____ availability what next?

____ if ____ happen ____ discontinued ____ line or ____ part unavailability?

____ there is ____ spare parts or ____ terminated line?

____ repairing ____ ongoing manufacture ends, ____ one proceed?

What should ____ given ____ of ____ of necessary spare ____?

What happens ____ part is ____?

What happens if ____ repairing equipment with ____ lines?

____ next ____ if repairs ____ possible due to ____ line issues?

____ manufacturing ____ and ____ supplies means repairing ____ viable ____ one proceed?

____ parts/terminated manufacturing ____ consequences for upcoming ____ repairing ____ possible.

If we ____ it because ____ lines, ____ what will ____?

____ issue ____ due to the ____ production line ____ of ____ what will happen?

____ happens when ____ not ____ to a lack of spare ____ a ____ line?

If ____ can't be ____ because ____ production, ____ is the ____?

What ____ the ____ step if ____ can't be ____ discontinued ____?

What ____ manufacturing line discontinuance/spare part scarcity?

____ discontinued ____ compromises ____ availability ____ spare ____ are our next ____?

When ongoing ____ ends/lack in ____ means ____ isn't ____ proceed?

What ____ after ____ an unavailable ____ part?

What ____ you ____ repairs ____ because ____ discontinued production ____ missing spare ____?

What happens if ____ of ____ lack of production ____?

____ after ____ line ____ if repair isn't ____?

____ happens if ____ be done ____ to ____ availability?

____ happens ____ is ____ spare parts left ____ production line ____ no ____?

____ would ____ repair is ____ possible ____ to a ____ product ____?

____ will ____ can't fix ____ because discontinued ____ are gone?

____ if ____ repair isn't ____ because ____ stopped product stream?

What ____ the next steps if ____ cannot ____ discontinued ____?

How ____ we ____ the ____ line/sparsity of ____ spare parts?

What ____ our next ____ if ____ are hard ____?

If ____ issue ____ fixed ____ of ____ line ____ no spare parts left, ____ happen?

____ broken goods call ____ operations ____ feasible via end of assembly chain/discontinuity ____ pieces inventory, ____

____ happens to ____ line ____ if ____ aren't ____?

When repairing isn't ____ how does ____ spare ____ manufacturing ____?

____ the ____ discontinued line/sparsity of ____ spare parts; how do ____?

When ____ of discontinued production ____ what ____ are left?

If repairs aren't ____ what do you ____?

____ if the repair isn't ____ a ____ product stream?

____ you do ____ spare parts ____ available ____ repairs?

What ____ line issues are ____?

____ when ____ can't ____ due to discontinued ____ or ____ spare parts?

What ____ are ____ when repairs are not possible ____?

____ do you do ____ done ____ to discontinued parts?

____ make ____ because ____ discontinued production ____ missing ____ parts.

____ are unable ____ because ____ discontinued ____ what will happen?

What ____ available to fix?

____ happens when ____ are ____ repairing equipment ____ lines or ____ parts?

What ____ repairs ____ not ____ to ____ of spare ____ or a ____ line?

What will ____ the product ____ fixed ____ production/supplies ending?

What _____ there are _____ parts left _____ production line is no _____?

_____ manufacture _____ of _____ isn't viable, what do you _____?

_____ production _____ is gone _____ there _____ no spare parts?

What _____ repair can't be done _____ of _____ product _____?

How _____ discontinued _____ or spare _____ resolved?

What happens if discontinued _____ line/spare part _____?

When repairing isn't possible, _____ stock _____ affect forthcoming _____?

What is _____ next _____ if repairs can't be _____ used?

What should _____ if repairs aren't possible _____ discontinued _____ line/spare _____?

_____ unable to fix a _____ due _____ manufacturing/spare _____ can _____ explain the _____?

_____ the _____ if repairs cannot be done _____ production lines?

How does _____ production _____ part scarceness ceases?

If _____ made _____ the _____ line has _____ happens afterwards?

Repairs _____ happen because of _____ spare parts.

_____ plan _____ ahead _____ scarce _____ caused _____ the _____ production lines?

_____ can't _____ done because of _____ what are the next _____?

_____ constraints _____ from discontinued _____ of necessary _____ parts, _____ should we _____?

What will _____ if _____ can't _____ it _____ are gone?

What happens when there are not _____ or _____ production _____?

_____ will _____ if _____ not _____ because of a _____ product _____?

_____ should _____ if _____ cannot _____ done due _____ production _____ or spare part _____?

When _____ aren't _____ of _____ items, what options are _____?

_____ happens _____ repairs _____ possible _____ discontinued _____ part availability issues?

_____ the issue can't _____ the production line is _____ will _____?

If the issue is impossible _____ discontinued production _____ what _____ happen?

_____ is _____ possible due to a halted _____ stream, _____?

_____ fix it _____ of discontinued _____ how will _____ out?

What _____ when there _____ of spare _____ a terminated production _____?

_____ should be _____ when repairs _____ be done because _____ missing spare _____?

What happens _____ aren't _____ because _____ halted _____?

What will happen if _____ is _____ to _____ because _____ are no _____?

_____ the _____ steps _____ of spare parts is disrupted?

If the issue _____ impossible to _____ there _____ no _____ left, what _____?

_____ happen _____ there _____ no spare parts _____ production line stops?

_____ are not possible due to discontinued production _____ part _____ what _____?

When repairing _____ how _____ out-of-stock _____ manufacturing _____ the next _____?

_____ repairs _____ due _____ spare part _____ what happens?

How do _____ constraints stemming _____ line/sparsity of _____ spare _____?

_____ because of discontinued production line _____ unavailability, what should we _____?

What is the _____ if repairs cannot _____ lines _____ longer _____?

_____ manufacturing ends/lacks _____ repairing _____ viable, _____ does one proceed?

_____ can't _____ due to _____ line or _____ unavailability.

What _____ are unavailable for _____?

Which _____ lies _____ shortage _____ availability _____ by halted productions _____?

What happens if _____ doable because _____ discontinued _____?

What _____ next _____ not possible due to _____ production _____ issues?

_____ the _____ production _____ affects _____ what next?

_____ is the _____ step _____ cannot be _____ because _____ production lines?

When repairs _____ happen because of _____ production or _____ should _____?

What _____ the next _____ if _____ occur _____ lack of production _____?

____ can be ____ if ____ aren't ____ because ____ parts?
 ____ fix it ____ of discontinued lines, how ____ be?
 What happens if repairs ____ due ____ production?
 What ____ if ____ be done ____ to discontinued ____ availability?
 ____ would happen ____ repairs are not ____ production?
 ____ from discontinued line/sparsity ____ spare parts, ____ can we proceed?
 ____ respond to ____ spare parts caused ____ in production?
 ____ production ____ discontinuation/ limited ____ prevent repairs, what ____ the ____?
 What ____ happen if repairs ____ discontinued production ____ availability issues?
 ____ should we ____ confronted ____ manufacturing ____ part scarcity?
 If ____ of supplies ____ repairing isn't ____ how should ____?
 What should ____ repair isn't ____ to ____ product stream.
 ____ happen if there are ____ spare parts ____ and ____ ends?
 What ____ repair ____ possible because of ____ spares?
 ____ happen if repairs ____ be ____ because the production ____ discontinued?
 ____ discontinued ____ issues aren't repaired?
 ____ when there are ____ repairing equipment ____ lines ____ unavailable ____ parts?
 What ____ if ____ can't be done because ____ line/spare ____ availability ____?
 ____ happens if ____ can't ____ discontinued production or missing ____?
 ____ does the discontinued production line/spare ____ action?
 What ____ if ____ isn't ____ halted production?
 What happens ____ issues repairing equipment ____ discontinued ____.
 If ____ be done ____ the ____ has been stopped, ____?
 What ____ happen if ____ possible due ____ stopped product ____?
 When repairs are ____ what happens ____ there is ____ or a ____?
 What ____ if there ____ spare parts ____ the production line ____?
 What ____ if ____ and spare ____ are unavailable for ____?
 ____ repairs don't ____ of discontinued parts?
 If production lines ____ available for ____ the ____ step?
 ____ manufacture ends, ____ is ____ viable, so ____ one proceed?
 ____ be ____ because of the discontinued ____ what happens ____?
 ____ should ____ repair doesn't work ____ of halted ____ or ____ of ____?
 What ____ repairs can't ____ because ____ discontinued ____ spare parts.
 ____ ongoing ____ ends/lack in supplies ____ viable, ____ one move forward?
 If repairs cannot happen ____ discontinued ____ unavailability what should ____ done?
 How ____ a specific ____ part shortage ____ stopped?
 ____ cannot be ____ due ____ production line or spare part unavailability, what ____?
 ____ we ____ to do ____ the constraints arising ____ line/sparsity of necessary ____?
 ____ is ____ lack of ____ a ____ production line when ____ are ____.
 ____ will ____ we can't fix it because ____ lines ____?
 ____ happens ____ repairs ____ happen ____ to shortage of ____?
 ____ occurs ____ repairs can't ____ of ____ production ____ missing spare ____?
 ____ happens if ____ can't be done ____ or spare ____ unavailability?
 When ____ manufacture ends/lack in ____ means ____ how ____ one ____?
 ____ do ____ to the ____ from discontinued ____ of ____ spare parts?
 What ____ if equipment ____ repaired ____ production lines?
 What ____ the ____ step if ____ be done ____ lack of spare ____?
 ____ can't fix it because ____ discontinued lines, ____ fare?
 ____ lies ____ with scarce ____ being caused ____ halted production ____?
 ____ ongoing ____ in ____ means repairing is ____ how ____ proceed ahead?

How ____ we address ____ of ____ line/sparsity ____ necessary ____ parts ____ purposes?

What will ____ if the ____ fixed because ____ production ____ or there aren't ____ spare ____?

What ____ if ____ be done ____ production line ____ spare part ____ issues?

When repairing ____ how does ____ spare ____ affect future ____?

In the ____ possible due ____ halted ____ stream, what should ____?

How ____ respond to inadequate spare ____ due ____ a ____?

____ if ____ can't ____ due ____ discontinued production line ____ spare part ____?

____ should ____ done in the ____ possible due ____ a ____ stream?

What happens when repairs ____ because ____ line ____?

____ not ____ fix a ____ because ____ manufacturing and spare ____ availability.

____ happens if ____ can't ____ done ____ of production line/spare ____?

Suppose ____ be done ____ of ____ parts ____?

If ____ can't ____ made due ____ discontinued ____ next?

How ____ with lack of spare ____ caused by ____ halt ____?

When ____ line/spare ____ scarcity prevents ____ is ____ handled?

____ can't be ____ because the production ____ stopped, what ____?

____ should ____ if repairs ____ doable because of discontinued ____?

What ____ we ____ manufacturing line ____ part scarcity?

What follows ____ a ____ part ____?

____ happens if ____ isn't ____ unavailability of spare ____?

____ do ____ do ____ constraints ____ from discontinued line/sparsity of necessary ____?

____ next step ____ cannot be made because ____ spare ____ availability?

____ happen if ____ be fixed ____ to endings in ____?

____ production ____ discontinuation and limited spare ____ options ____ there?

How ____ we respond ____ of spare ____ due ____ a ____ halt?

____ should we respond ____ a ____ spare parts due ____ a ____?

____ parts ____ discontinued production, what are ____ next steps?

What ____ be done ____ of halted ____ or lack ____ parts?

How ____ we ____ the ____ of ____ because ____ a ____ in production?

What happens ____ there are no spare parts ____ is ____?

____ should ____ if ____ isn't ____ because ____ halted production?

____ there no more ____ spare ____ are unavailable?

____ be done when repairs ____ to discontinued production ____?

____ happens ____ is ____ enough ____ parts ____ a terminated production ____.

____ comes after ____ line/spare ____ unavailable?

Which ____ take place ____ scarce availability ____ halted ____ lines?

What ____ when repair isn't ____ unavailability ____ parts?

____ ongoing manufacture ends/lack ____ supplies ____ repairing ____ then ____ should one ____?

What would ____ if the ____ possible ____ a ____ stream?

If ____ device can't be fixed because ____ parts ____ what ____ I ____?

____ the ____ production line discontinuation/limited spare ____ prevent ____?

____ lies ahead ____ availability caused by halted production ____?

____ we ____ fix ____ of discontinued lines, ____ do ____ it?

____ if the ____ line isn't available ____ what ____?

____ repair isn't ____ due to ____ stopped product ____ do?

____ we respond ____ the ____ spare parts due to ____ in ____?

____ spare ____ manufacturing ____ consequences when repairing ____ possible.

If the ____ production ____ affects ____ feasibility... ____ will be ____?

If ____ discontinued ____ repairs ____ what's next?

____ is the ____ step ____ repairs cannot happen because ____ longer ____?

____ ongoing ____ ends/lack ____ supplies causes ____ ____ be ____ how does ____ proceed?
 What ____ happen if ____ because of discontinued production line ____ spare ____ ?
 How ____ go about dealing with ____ parts ____ a ____ in ____ ?
 ____ is it handled when ____ shortage ____ restoration?
 ____ is the next step if ____ can't happen ____ ?
 What ____ when ____ can't happen because ____ spare ____ ?
 ____ deal with the constraints of ____ line/sparsity ____ spare ____ ?
 When ____ happen because ____ production ____ missing ____ parts, ____ happens?
 ____ happens ____ line issue ____ repair isn't feasible?
 ____ can't ____ it because of ____ lines/parts, ____ happen?
 ____ discontinued line issues are ____ ?
 What happens when ____ don't ____ spare parts ____ terminated ____ ?
 When ____ manufacture ends/lack of supplies means ____ what ____ ?
 ____ cannot ____ done due to ____ line ____ spare part unavailability, what ____ ?
 When ____ to fix ____ of ____ spare part ____ could you please ____ the procedure?
 What happens ____ repairs cannot be ____ because ____ production ____ ?
 Repairs ____ be ____ because of ____ missing ____ parts.
 ____ should ____ repairs cannot be done ____ parts?
 What happens after ____ if ____ isn't possible?
 What ____ repair isn't possible ____ unavailability of ____ ?
 ____ things ____ if we can't ____ because discontinued lines ____ ?
 ____ will things work out ____ it because ____ lines.
 What comes after ____ repair ____ not feasible?
 What happens ____ repair ____ be done due ____ spare ____ ?
 ____ the discontinued ____ line/part shortage ____ feasibility...what ____ ?
 What comes ____ a ____ line ____ spare ____ is ____ ?
 ____ is ____ if repairs cannot occur ____ to ____ lack of spare ____ ?
 What ____ if repair isn't possible ____ halted ____ stream?
 ____ happen ____ a production line/spare ____ unavailable?
 ____ will ____ to ____ issues if repair isn't ____ ?
 If the ____ causes repairs feasibility ____ affected, ____ next?
 What ____ we ____ about ____ constraints of ____ spare parts?
 If ____ device ____ repaired due ____ discontinued parts ____ what do I ____ ?
 ____ isn't possible ____ of a ____ stream, what should ____ ?
 ____ can't ____ due ____ discontinued ____ items, what are ____ options?
 What happens if ____ are ____ equipment that ____ ?
 ____ a discontinued production line/part shortage ____ feasibility, ____ ?
 ____ repairs can't happen ____ discontinued ____ missing ____ parts, what comes ____ ?
 With ____ shortage of ____ production ____ which ____ lies ahead?
 ____ happens ____ cannot be ____ because ____ discontinued production or missing ____ ?
 What will ____ if ____ be made due to ____ line/spare ____ ?
 What ____ if ____ don't ____ discontinued parts?
 ____ if a ____ part is unavailable?
 What ____ production line or spare ____ be ____ repairs?
 What ____ the next step if repairs ____ due ____ lack ____ ?
 What are ____ steps if spare ____ are ____ ?
 ____ if ____ made ____ of ____ production line or ____ part unavailability?
 What ____ happen if ____ happen ____ production line ____ spare part ____ ?
 ____ is the next ____ repairs cannot be ____ lack of ____ ?
 ____ issue is not ____ there ____ no ____ what will happen?

_____ do _____ we _____ confronted with manufacturing line _____?

If the discontinued production _____ repairs _____ next?

_____ possible, how _____ spare parts/terminated _____ affect subsequent actions?

_____ would _____ can't happen because _____ discontinued _____ or _____ part unavailability?

_____ if the production line and spare parts _____?

_____ because of halted production _____ lack of parts?

In _____ supply of _____ parts _____ in production, _____ should we proceed?

What if _____ production _____ or spare _____ unavailable _____?

When repairs are not feasible _____ discontinued _____ items, _____?

_____ discontinued production _____ part scarceness _____ if _____ becomes unviable?

_____ happens _____ repairs _____ be done because _____ unavailability?

What _____ if the availability of spare parts _____ discontinued _____?

Sometimes repairs can't _____ of _____ production or _____ spare _____.

What _____ repairs can't be made _____ production _____ has _____?

_____ do we _____ constraints arising from _____ necessary spare parts?

If _____ are problems repairing _____ discontinued production lines, _____?

_____ if repairs aren't possible because _____ discontinued _____?

What happens _____ the _____ is _____ aren't spare parts?

_____ can't _____ the production line _____ stopped, what happens?

_____ if repairs aren't _____ discontinued production line or spare part _____?

_____ will _____ when confronted _____ discontinuance/spare part scarcity?

Repairs are _____ feasible due to a lack _____ spare _____ production _____.

What should be _____ if _____ possible due _____ product _____.

Since ongoing _____ ends/lack _____ means repairing _____ one proceed?

_____ will _____ if repairs _____ because _____ discontinued production or missing _____?

If _____ cannot _____ made _____ discontinued production _____ are the _____?

What _____ happen if the _____ is _____ the production line _____ no spare parts _____?

_____ repairs _____ of production line unavailability?

_____ do _____ confronted _____ manufacturing line discontinuance/spare part _____?

_____ device _____ repaired due to discontinued parts _____ production issues _____ I _____?

What _____ repairs can't _____ because of discontinued _____ spare _____?

Repairs can't _____ made because _____ discontinued _____ spare part _____.

What _____ next _____ be made due _____ discontinued production?

What _____ if repairs _____ not _____ because _____ discontinued _____?

_____ will happen if _____ isn't feasible due _____ lack _____ parts?

_____ should happen _____ repairing isn't feasible due to halted _____?

_____ when there's a _____ spare parts _____ production line?

_____ after repairs can't be _____ because _____ has _____?

_____ the production _____ available for repairs, _____ happen?

How _____ we _____ to _____ of _____ caused by a _____ in _____?

What _____ if _____ can't _____ made _____ discontinued _____ lines?

When ongoing manufacture _____ means _____ does one proceed?

What is _____ if _____ shortage affects _____ feasibility?

What _____ after _____ confronted with _____ line _____ part scarcity?

_____ are _____ because _____ discontinued _____ what are _____ next steps?

What _____ can't be made _____ production or missing _____ parts?

_____ repairs _____ be made due to _____ line/spare _____ happens?

If the issue _____ because the _____ line is _____ there _____ spare _____ left, _____ happen?

_____ happens _____ is unavailability of _____ and line _____?

_____ production _____ part scarceness _____ what _____ happen to _____ action?

What ____ happen ____ repairs can't be ____ because ____ production ____?
 ____ happens ____ discontinued line issues ____?

In ____ the discontinued ____ affects ____ feasibility... ____ are ____ steps?

What happens ____ if ____ because of discontinued ____.

When ongoing ____ means ____ isn't ____ how will ____ proceed?
 ____ happens ____ can't ____ done ____ production ____ has been discontinued?

What's ____ production line/part ____ affects repairs ____?

What happens when there ____ enough ____ the production ____?

What ____ if ____ is gone and there are ____ spare ____?

How ____ we ____ the constraints ____ from ____ of ____ spare parts?

What ____ when ____ terminated due to ____ lack ____ spare parts?
 ____ happens if repairs ____ of ____ part?

What do ____ repairs ____ possible because ____ production?

What ____ if ____ are ____ doable because of ____?

What happens ____ repairs can't happen ____ line ____?
 ____ repairs ____ be done ____ lines have stopped, ____ happens ____?

Production line ____ limited ____ parts can ____.

When ____ can't ____ made because of discontinued ____ or ____ what ____?
 ____ can't be done ____ discontinued production line, what ____?
 ____ if ____ are ____ because of ____ production?
 ____ repairs cannot ____ due ____ discontinued production ____ spare ____ unavailability, ____ should happen?
 ____ line/spare part is unavailable, ____ you do?
 ____ aren't possible ____ of ____ production line ____ happens?
 ____ aren't ____ of ____ what options are left?

What happens ____ parts left or ____ is no more?
 ____ can't be ____ discontinued production ____ missing ____ parts.

What happens if the production line ____ more ____ the ____?

When repairs ____ be done ____ discontinued ____ should ____?

How ____ lack of spare ____ caused ____ a production halt?
 ____ will ____ if ____ cannot be ____ due ____ ending ____ production/supplies?

What happens when ____ have ____ equipment with ____ or spare ____?
 ____ should ____ if the ____ shortage affects repairs ____.
 ____ would happen ____ happen due ____ line unavailability?
 ____ to discontinued line issues ____ isn't feasible?

What ____ repairs aren't ____ because of ____ production ____ part ____?
 ____ we ____ with manufacturing line ____ spare part scarcity?
 ____ be ____ if repair isn't ____ to ____ of parts?
 ____ case ____ line affects ____ feasibility... what's next?
 ____ is ____ that ____ discontinued production ____ shortage affects repairs ____.

What will happen if ____ because the production line ____ or there are ____?
 ____ happens ____ repair is ____ feasible ____ halted production?

If production ____ limited ____ parts prevent repairs what ____?

If repairs aren't ____ because of ____?
 ____ repairs ____ due ____ discontinued ____ line or spare ____ are the ____ steps?
 ____ the next step if ____ because ____ discontinued production ____?

If ____ because the production line ____ stopped, what ____?
 ____ is ____ next ____ if repairs cannot happen ____ of ____ spare ____?
 ____ is it ____ a line/spare part ____ prevents ____?

What ____ next step if ____ cannot be ____ to ____ availability?

If the ____ parts availability is compromised by ____ what ____?

What ____ when there isn't ____ terminated production ____?
 ____ happens ____ can't ____ done due ____ discontinued ____ line issues?
 ____ do you ____ if ____ happen ____ to ____ line ____ spare part unavailability?
 What ____ repairs ____ be made ____ to ____ parts?
 ____ repair become ____ line/spare part scarceness ceases?
 In ____ of ____ spare ____ caused by a halt ____ production ____ proceed?
 ____ what ____ with the ____ arising from discontinued ____ necessary ____ parts?
 If repairs ____ be done ____ the ____ stopped, what will ____?
 ____ will happen if repairs aren't possible ____ of ____?
 If the ____ impossible ____ the production line ____ stopped production ____ spare ____ left, ____ will happen?
 ____ plan ____ when there's ____ availability ____ by halted ____ lines?
 ____ next step if ____ can't be ____ to discontinued ____ availability?
 If ____ done because of ____ what are ____ steps?
 ____ should we handle ____ caused ____ discontinued line/sparsity ____ necessary ____ parts for ____?
 If the availability of spare parts ____ are ____?
 ____ when ____ of a lack of spare parts?
 What ____ if repairs ____ impossible ____ of ____ parts?
 When a ____ line/spare ____ is unavailable, ____?
 What ____ happen if repairs ____ possible ____ of discontinued ____ availability ____?
 What ____ the next step ____ repairs ____ happen ____ of ____ of ____?
 ____ are our next ____ spare parts are ____ to ____?
 ____ the ____ production ____ affects ____ feasibility, what ____ we going to ____?
 ____ repairs can't be ____ due to production line/spare ____?
 ____ happens if ____ can't ____ done ____ to ____ spares?
 ____ product because ____ stopped manufacturing and spare ____ availability ____.
 ____ happens ____ repairs ____ of discontinued production?
 What happens if ____ are ____ due ____ production line/spare ____?
 ____ made because of ____ production line or spare ____ unavailability, ____ do ____?
 What happens ____ we ____ fix ____ of discontinued ____?
 ____ happens ____ isn't ____ to unavailability ____ spare parts?
 ____ line ____ spare parts ____ repairs, ____ options are there?
 ____ issue is ____ production line ____ discontinued or there ____ no spare parts ____ will happen ____?
 ____ comes after ____ part ____ unavailable?
 ____ it ____ after ____ certain line/spare ____ is stopped?
 ____ happen if there ____ repairing equipment with ____ production ____?
 ____ do ____ proceed ____ the ____ line/sparsity ____ necessary spare parts?
 ____ should ____ if ____ not ____ due to halted production ____ of ____?
 What do ____ do ____ repairs ____ possible due ____ production?
 ____ happens after ____ isn't ____ due to ____ of ____?
 ____ is ____ repairs cannot happen ____ to ____ of spare part ____?
 If repairs ____ happen because of ____ production ____ spare ____ should ____?
 What ____ happen ____ repairs ____ done ____ line or spare part unavailability?
 ____ repairs ____ not ____ to discontinued production ____ or ____ part availability issues?
 When repairs can't ____ because ____ discontinued production or ____ what ____?
 The discontinued production ____ can ____.
 What ____ if repairs ____ be ____ production line unavailability?
 ____ the discontinued ____ shortage ____ repairs feasibility... ____ should ____?
 ____ when repair ____ because of ____ cessation?
 When ____ ends and lack ____ supplies means repairing ____ viable, ____?
 ____ happens ____ repair ____ done because of unavailability of ____?

_____ should happen if _____ because of halted production _____ of _____?
 When repairs _____ because _____ discontinued _____ or _____ spare _____ what _____?
 Given _____ constraints arising from _____ line/sparsity _____ parts; how should _____?
 _____ happen if repairs are _____ doable _____ discontinued _____.
 _____ if _____ not doable because _____ discontinued _____?
 _____ can't be done because of _____ line, _____?
 What course should we _____ confronted _____ line _____ part _____?
 What _____ the _____ the availability of spare parts _____?
 _____ repairs _____ impossible because _____ parts?
 _____ if the repair _____ done due _____ spare parts?
 _____ happens if _____ aren't possible because _____ issue?
 _____ spare parts/terminated manufacturing have consequences _____ actions _____ isn't _____.
 _____ can't happen because of _____ production or _____ spare _____ the next _____?
 _____ is the _____ if the _____ production _____ repairs feasibility?
 _____ product _____ to stopped manufacturing/spare part availability _____ could you please _____ procedure?
 If _____ not _____ due to discontinued _____ what _____ do?
 _____ happens _____ problem repairing equipment with discontinued _____?
 _____ happen _____ parts _____ for fixing?
 _____ done _____ of the _____ production lines, what is the next _____?
 _____ if _____ due to discontinued production?
 _____ discontinuation/ _____ spare parts prevent repairs, what _____ options _____?
 _____ step if repairs _____ be made due _____ lack _____ part availability?
 _____ happens _____ repairs can't _____ production line/spare _____ availability?
 _____ should happen _____ repairs are _____ due _____ discontinued _____ availability?
 What happens next _____ can't _____ made _____ discontinued _____ part availability _____?
 _____ can't be done _____ to discontinued _____ is the _____?
 _____ can _____ if repairs aren't _____ due to _____ line _____?
 _____ happen _____ are _____ spare parts left _____ the production _____ ends?
 _____ if _____ production line/part shortage _____ repairs feasibility?
 _____ next _____ if repairs can't happen because _____ are _____?
 _____ happens _____ parts _____ available for _____?
 _____ confronted by manufacturing line _____ scarcity, _____ we _____?
 If _____ issue _____ fixed _____ the _____ longer _____ use, what will happen?
 If _____ is not _____ a _____ stream/part _____ what should happen?
 _____ will _____ do _____ the manufacturing _____ discontinuance/spare part _____?
 _____ case _____ spare parts _____ issues, _____ this be resolved?
 _____ happens _____ cannot happen due to production _____?
 How should we respond _____ lack _____ caused by a _____?
 If repairs _____ due _____ discontinued _____ line or _____ unavailability, what _____ do?
 _____ repairs can't _____ made because _____ discontinued production _____ missing _____ follow?
 _____ if repairs _____ possible _____ to discontinued _____ line/spare _____ issues?
 _____ should _____ repairing discontinued parts _____?
 _____ happens if _____ repairs _____ doable _____ of discontinued _____?
 Some _____ can't be done _____ production or missing _____.
 _____ follows if repair _____ feasible due _____ or _____ of _____?
 What do you _____ if _____ be _____ to discontinued _____ or spare _____?
 _____ happens if _____ possible due _____ halted _____ lack _____ parts?
 What _____ the issue is _____ there _____ spare parts left or the _____ working?
 _____ be done because of _____ parts _____ what's _____?
 What _____ problems repairing equipment _____ discontinued production _____?

When ____ aren't ____ because ____ discontinued ____ items, ____ options ____ there?

How ____ be ____ line/spare ____ scarceness is discontinued?

____ happens if repairs ____ because ____ production line issues?

____ the ____ line or spare parts ____ unavailable?

____ happen if repairs aren't ____ discontinued production line ____?

What ____ when discontinued line ____ repair ____?

What ____ to discontinued ____ repair is not ____?

____ happens if ____ possible due to ____ production line/spare ____?

What ____ be ____ if ____ discontinuation/ limited spare ____ prevent ____?

____ it handled after a specific ____ stops ____?

____ of discontinued production or ____ spare parts.

Out-of- stock spare parts/terminated manufacturing ____ when repairing ____.

If ____ production line isn't ____ repairs ____ happens?

What are ____ steps ____ repairs ____ made due to ____?

____ happens when ____ aren't repaired?

____ does ____ deal with the ____ that ____ isn't viable ____ manufacture ____?

____ repairs ____ due to ____ stopped product stream?

____ repair ____ not ____ due to unavailability ____ spare/line cessation?

What happens ____ not possible ____ production ____ and spare part availability ____?

What ____ if ____ isn't possible due ____ production or ____ of ____?

When repairing ____ possible, how does ____ parts/terminated ____ the ____?

What ____ you ____ repairs ____ because ____ production line or ____ part unavailability?

____ production line/part shortage affects repairs ____ what's the ____?

What is the ____ if ____ are ____ production ____ spare ____ availability?

What occurs if repair ____ because ____ spare ____?

If ____ discontinuation or limited ____ parts ____ what options ____?

What should ____ repairs are ____ because of ____?

What ____ happen ____ repairs aren't ____ due to ____?

____ if ____ can't ____ because the production ____ has ____ discontinued?

____ should ____ proceed ____ there is a ____ hampers ____?

____ repairs ____ be done because the production ____ ended, ____?

What ____ if ____ because ____ discontinued ____ line or spare part unavailability?

____ we ____ given ____ arising from discontinued line/sparsity of necessary ____?

____ don't happen because of ____ line ____ what ____?

What do you ____ if ____ don't ____ of ____?

____ happens ____ make sense because ____ discontinued parts?

If the ____ impossible because ____ discontinued ____ are no ____ parts left, ____ will happen?

If repairs ____ to ____ line or spare ____ unavailability, ____ should be ____?

How do ____ with constraints arising from ____ parts?

When repairs can't happen ____ line ____ what happens?

What ____ step if repairs are ____ due ____ discontinued ____?

____ we ____ lack ____ spare parts due ____ halt in production?

What occurs ____ due to unavailability ____ parts?

What ____ if repair is ____ of ____ of spare/line ____?

If ____ can't ____ because of discontinued ____ or spare ____ what ____ be ____?

____ not be made due to ____ or spare ____.

When ____ can't ____ production or missing ____ parts ____ do ____ do?

____ spare ____ because ____ discontinued ____ what ____ our next steps?

What ____ next if ____ of discontinued ____ lines?

What happens if repairs ____ due ____ line ____ issues?

What ____ repair ____ possible due to ____ production or ____ parts?
If ____ be ____ due ____ the lack of ____ availability, ____ is ____ next ____?
____ repairs ____ done because the line has ____ what ____?
What ____ when ____ are ____ to ____ lack ____ parts or a ____ production ____?
What happens when ____ line ____ not available ____?
What happens ____ repairs ____ because ____ lack ____ spare parts?
____ we do ____ the availability of ____ affected by discontinued ____?
When ____ isn't ____ does ____ of-stock ____ parts affect ____ actions?
So ____ the discontinued ____ affects ____ feasibility... ____ next?
Due ____ the constraints ____ line/sparsity ____ necessary ____ what should we ____?
____ is ____ step ____ can't happen because ____ production ____ can't be ____?
What follows ____ aren't feasible ____ production?
What ____ if ____ production line/spare part ____?
____ happens ____ there ____ parts ____ the production line ends?
If ____ aren't ____ due ____ production ____ next step?
____ when ____ are ____ due to ____?
____ manufacture ____ in supplies means ____ isn't ____ how ____ one proceed?
____ do ____ proceed ____ ongoing ____ ends/lack ____ means repairing ____ viable?
How does out of-stock ____ affect ____ actions ____ possible?
____ are ____ next ____ parts are disrupted?
____ should ____ constraints arising from ____ necessary ____ parts for repairs?
What ____ the next ____ repairs cannot ____ done ____ production ____ part availability?
