

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Service outage or disruption reports
Inquiry Sub-Category	Intermittent Connection Drops
Description	Customers report experiencing periodic or random connection drops, where their internet connection disconnects and reconnects intermittently. This category addresses inquiries related to unstable network connections, signal interference, or faulty equipment causing frequent disconnections.
Data Size	5,006 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

Are there ____ maintenance activities ____ causing our ____ of ____?

Do any ____ affect ____?

____ activities are affecting ____?
