

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Gas smell investigation assistance
Inquiry Sub-Category	Gas Leak Detection Equipment
Description	Information and support for customers interested in gas leak detection equipment, including recommendations for reliable products and guidance on proper usage and maintenance for enhanced safety at home or in commercial settings.
Data Size	7,295 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

_____ some models _____ extra _____ automatic shut-off valves upon _____ of _____ indoors?

Is _____ models to detect _____ of leaked _____ shut down automatically?

Is it possible that some _____ can _____ off _____ supply if a _____ leaking _____?

Where can I _____ come with auto _____ valves _____ can detect _____ levels _____ gases?

_____ model _____ that _____ when monitoring _____ levels of released gasses inside?

_____ have automatic _____ mechanisms to identify excessive gas _____?

auto-shut _____ triggered by _____ gas leak levels in my _____ any _____ features?

Automatic _____ by high _____ leaks, can be _____ models.

Can _____ automatic shut-off system _____ triggered _____ high _____ of _____ gases _____?

_____ it _____ for some models _____ detect _____ shut _____ leaking?

_____ valves _____ by _____ models when detecting _____ levels of leaked _____ inside.

Where _____ I _____ models that _____ auto shut-off _____ that will detect _____?

There _____ that provide _____ valves _____ high levels _____ gases indoors.

_____ any of your models have _____ option to shut off _____ when it _____ home?

Is _____ an _____ for appliance _____ they sense excessive indoor _____?

Is _____ triggered by high _____ available in _____?

_____ shut-off valves exist _____ that _____ excessive gas leaks _____?

_____ indoors, _____ any _____ have automatic valve closure?

Does _____ appliance models _____ if _____ indoor gas leak?

_____ any additional features, _____ as auto-shut off _____ high _____ leak _____?

_____ there _____ that have automatic _____ for _____ gas _____?

_____ capable _____ and shutting off _____ levels of leaked gases _____?

_____ are _____ that _____ automatic _____ gas levels get _____ high inside.

_____ of _____ include automatic shut-offs in case of high _____ of _____?

_____ shut-off _____ are available _____ models that can sense _____ levels _____ gases _____.

If _____ leak indoors, _____ the _____ have _____ valve closing?

_____ some _____ automatic shut-off _____ for _____ leaks indoors?

If gases _____ are _____ of those _____ equipped _____ valve _____?

Which products _____ shut _____ automatically _____ is _____ increase _____ indoor gas _____?

_____ inside are _____ models equipped with _____ valve _____?

Any models _____ with _____ leak detection _____ valves?

Is it possible _____ certain _____ to automatically shut _____ when _____ indoors?

Do _____ any options _____ automatic shut-off _____ gas leaks?

_____ there an automatic _____ that shuts _____ when _____ levels _____ gas _____ are _____?

Any models _____ shut-offs _____ gas _____?

_____ there _____ special features such _____ turning _____ if _____ find a _____ of _____ gas leakage?

Is _____ possible that _____ shut off _____ gas leaks?

_____ levels _____ released _____ inside, do certain model _____ have self-activating _____?

_____ for _____ models _____ they detect high levels of gas?

_____ that provides _____ shut-off _____ for high levels of _____ indoors?

_____ a gas _____ do your models have _____?

_____ any _____ have _____ added feature such _____ off the gas supply _____ senses a _____?

_____ shut-off _____ can _____ used _____ detect excessive _____ inside.

In case of high _____ indoors, _____ any of _____ available models have built _____?

_____ gases leak inside, _____ certain models _____ of _____?

_____ automatic _____ capability _____ high-level _____ gas leaks _____ of the _____ range?

Is _____ with auto shut-off _____ for _____ of leaked _____?

Can an automatic _____ off _____ triggered _____ some _____ detect _____ of leaked _____?

Does _____ the models come with _____ valves for _____ leaks?

Any model _____ gas _____ detection and _____ shut-off _____?

_____ any _____ have automatic _____ valves for detecting _____ gas leaks?

Is it _____ for some models _____ indoor _____ leaking _____ down?

_____ certain model _____ capable _____ self-activating _____ when monitoring _____ levels _____ released gasses?

_____ models have automatic _____ shutdown mechanisms _____ the house?

Is there _____ features _____ for _____ gas leaks?

_____ monitoring _____ levels of released _____ model _____ have _____ safety valves?

_____ any models _____ shut-off valves for _____ leaks?

_____ possible _____ models to detect _____ indoor gas leaking?

Any models that _____ shut-offs _____ leaks indoors?

_____ any of _____ models _____ automatic shut-offs in case _____ of _____?

Automatic _____ be used _____ excessive indoor _____ leakage.

When monitoring dangerous levels of released _____ inside, _____ certain _____ safety _____?

Is it _____ certain _____ to _____ they _____ elevated levels _____ gas indoors?

_____ possible to _____ valves for _____ leaks detection?

Does _____ of the models have an _____ that _____ down _____ there _____ hazardous level _____ leak?

_____ of leaked gases _____ are there models with _____ valves?

_____ a model with auto shut-off _____ in _____ of _____ levels _____?

_____ wondering _____ models with automatic _____ for high _____ gas levels.

There _____ some models _____ shut-offs for high _____ gas _____.

_____ for certain appliance models to have _____ if _____ gas _____?

Can _____ shut off when they _____ levels _____?

Are your _____ valves _____ gas _____ that are potentially dangerous?

_____ features like _____ shut-offs for _____ gas leaks?

_____ elevated levels _____ inside _____ can certain _____ shut off?

_____ models _____ detection _____ auto shut-offs?

Automatic _____ valves can _____ activated when _____ models _____ gas _____ indoor _____.

_____ models _____ come with _____ auto shut-off _____ to detect high levels of leaked _____?

Which _____ automatically shut _____ if there is _____ in indoor _____?

_____ the models include automatic _____ event of _____ levels of _____ gases?
 _____ possible for _____ models to detect _____ gas _____ and _____ off automatically?
 Do _____ models _____ an _____ valve that _____ a hazardous level of gas in _____ house?
 _____ your _____ offer _____ added feature like _____ off _____ gas _____ senses _____ leaks at our _____?
 auto shut-offs _____ indoor gas leaks are _____.

When monitoring _____ levels _____ released gasses _____ model _____ self-activating safety _____?
 _____ models _____ high levels _____ and shut off automatically?

Is _____ a model that _____ an auto shut-off _____ of _____ indoors?
 Do any of _____ available _____ automatic shut-offs in case _____ high _____ of _____?
 Is it possible to detect _____ gas leaks _____?
 Some _____ automatic shut-off valves for _____ inside.
 There are _____ for _____ indoor gas levels.
 _____ that certain models _____ automatically shut off _____ they _____ elevated _____ gas?
 Do _____ have automatic _____ to deal _____ leaks?
 Is _____ possible for _____ models to detect _____ levels _____ gases inside _____.
 _____ model _____ with self-activating safety valves _____ dangerous _____ released gasses?
 Can _____ detect high _____ of _____ gases _____ an _____ shut-off system _____ place?
 Is it _____ for _____ and shut off _____ leaks.
 _____ for _____ models to have _____ shut-off valves for _____?
 If gases _____ are any _____ fitted _____ valve _____?
 _____ are models _____ automatic shut-off _____ gas leak _____.

Is _____ a _____ with _____ valves _____ case _____ high _____ of _____ gases?
 Is _____ possible for certain _____ shut down when _____ elevated _____ of _____?
 _____ your _____ come _____ with _____ shut-off valves for indoor _____?
 There _____ that have _____ shut-off valves _____ leak _____.
 _____ gases _____ should _____ of the _____ have automatic _____ closure?
 If a _____ gases _____ detected, some appliances _____ have _____ that _____ the supply off.
 Any _____ have more _____ and stopping _____ inside?
 _____ models _____ the ability to _____ indoors _____?
 _____ there models _____ auto shut-off valves in case of _____ gases _____?
 Will _____ your _____ shut off the gas supply when _____ dangerous leaks _____ our house?
 Do you _____ products with special _____ turn _____ if they _____ a lot _____ gas leakage?
 Is any _____ your models _____ shut-off _____ gas _____ indoors?
 _____ certain models _____ and shut _____ leaks indoors?
 _____ indoor _____ leak, some _____ models have automatic shutoffs.
 _____ gases _____ what models _____ valve closure?
 _____ the automatic shutdown _____ indoor gas leaks _____ products?
 _____ a model equipped _____ an auto _____ valve _____ case of _____ levels _____?
 _____ can I find _____ that _____ valve to detect _____ of leaked indoor _____?
 _____ it possible for some _____ detect _____ and shut _____?
 Automatic _____ be used to detect _____ indoor _____.

Automatic shut-off _____ for _____ included in certain _____.

Do _____ any _____ special _____ that turn off _____ if they find a _____ indoor gas _____?
 Can _____ off the gas _____ it's high?
 _____ models _____ shut-off valves _____ for _____ leaks detection?
 Does _____ know _____ your units include _____ off _____ for _____?
 Automatic shut-off _____ be provided for _____ detect _____ leaks _____.

Is _____ an _____ detecting excessive _____ gas leak?
 Will any _____ your _____ offer _____ like shutting _____ it senses _____ leaks at our house?
 Does any _____ come _____ shut-off _____ detecting gas leaks indoors?

_____ can _____ and shut off high levels of gases _____?

Do _____ models _____ shut-off _____ for _____?

_____ monitoring _____ released gasses _____ certain _____ variants _____ with _____ safety valves.

When _____ leaks increase, _____ products can automatically _____?

_____ shut-off _____ high levels of leaked gases are _____ some _____.

Some _____ the _____ have _____ valves _____ gas leaks.

Do models _____ auto _____ to detect _____?

Automatic _____ be added _____ that sense high levels _____ leaked _____.

_____ models _____ leak _____ or shut-off _____?

Some _____ automatic shut-off _____ that _____ detect _____ of _____ gases.

Is it possible _____ indoor gas levels _____ off _____?

_____ for _____ leaks are included in _____ models?

_____ any of _____ offer _____ such as shutting _____ gas supply when _____ a dangerous leak?

_____ an auto shut-off valves for _____ leaks _____?

_____ dangerous levels of released gasses _____ some _____ have _____.

_____ models _____ automatic shut-off valves when they _____?

_____ models _____ auto _____ valves that detect indoor _____?

_____ are _____ have automatic shut-off _____ for detecting _____.

_____ I find models _____ shut-off _____ that _____ high _____ of _____ indoor _____?

Is your models capable of _____ high _____ off automatically?

Do you have any products _____ features, like _____ turning _____ if _____ find _____ gas _____?

There _____ some _____ that _____ auto shut-off valves in _____ levels _____ leaked _____.

_____ there _____ other _____ auto-shut _____ are triggered _____ high gas leak levels?

When _____ of _____ are _____ can _____ automatically shut off?

_____ possible _____ models to automatically shut _____ when _____ levels _____ gas are _____?

_____ I find _____ with auto shut-off valves _____ detect high _____ leaked _____ protection?

_____ an automatic _____ system be triggered _____ some appliances _____ high _____?

_____ certain models automatically _____ off _____ there _____ indoor _____ levels?

Any models _____ valves _____ detecting gas leaks?

Is _____ shut-off _____ for indoor gas _____ in _____?

Is there _____ shut-offs _____ levels in some _____?

_____ leak indoors do certain _____ shut off?

_____ with _____ shut-off _____ for indoor gas leak _____.

_____ models that have the _____ to turn _____ gas levels _____?

Is _____ certain models _____ off when there are _____ levels _____ gas _____?

_____ are any models equipped with automatic _____?

_____ looking for models _____ shut-off _____ levels of leaked _____ gases for added _____.

Any _____ with automatic _____ for _____ indoors gas _____?

Are _____ any _____ special features, such as sensors _____ off _____ a _____ indoor gas _____?

_____ model have an automatic _____ shuts down when _____ hazardous _____ of gas _____ the _____?

There are _____ for _____ gas _____ certain models.

Automatic _____ valves for _____ are included _____ models.

If gases leak _____ any _____ automatic _____ closing?

Do _____ models _____ valves for _____ gas leak _____?

Is _____ a model _____ can detect indoor _____ turn _____?

Do certain _____ versions _____ safety valves _____ monitoring _____ gasses inside?

_____ some _____ shut off _____ detect _____ leaking?

Any models _____ valves _____ leaks inside?

_____ monitoring dangerous levels _____ released _____ inside, _____ certain _____ come _____ valves?

_____ an _____ in certain models for _____ to indoor gas _____?

Is _____ option for automatic shut-off _____ gas _____?

In case _____ high levels _____ inside, _____ the _____ equipped _____ shut-off valves?
 _____ some _____ off when they detect _____?

Is it _____ models to _____ and shut down _____ levels?

Some _____ have _____ safety valves _____ monitoring dangerous levels _____.

Will _____ models include _____ feature like shutting _____ gas supply _____ senses _____ leak?
 _____ it _____ for auto-shut off _____ triggered _____ detection _____ high gas leak _____?

Are _____ models equipped _____ shut-off _____ for gas leaks _____?

Is _____ any _____ that includes _____ gas leaks?
 _____ that _____ auto shut-off valves for gas _____?
 _____ of _____ models _____ automatic shut-offs in case of _____ levels _____ inside?

Is it possible _____ certain _____ there are elevated _____ of _____ inside?

Automatic _____ valves _____ levels of leaked _____ possible on _____ models.

Do models have auto _____ valves in _____ of high _____?
 _____ shutdown capability _____ in _____ for high-level indoor _____ leaks?

Are some appliances _____ an automatic _____ if _____ detect _____ of leaked _____?
 _____ of _____ have the _____ of _____ off the gas _____ it _____ leaks at our house?
 _____ models with automatic _____ valves _____ case of high _____ gases _____?
 _____ have automatic shut-off _____ for _____ gas _____ indoors.
 _____ possible _____ models _____ automatic _____ for _____ indoor gas levels?
 _____ of _____ models equipped _____ automatic _____ valves _____ gas _____ indoors?
 _____ can I _____ that come _____ shut-off valves for _____ of _____ indoor gasses?
 _____ about _____ shut-offs _____ gas leaks?

Some models _____ auto _____ gas leaks.
 _____ find models _____ shut-off valves _____ detect _____ of leaked indoor gasses?
 _____ models detect high levels _____ gases _____ and shut _____?

In case _____ levels of leaked _____ of _____ models include _____ shut-offs?
 _____ models have automatic shut-off valves _____ detecting indoor _____.
 _____ indoor leaks available on some models?

Do _____ models have _____ detection _____ valves?
 _____ it _____ certain models _____ shut off if _____?

Are there any _____ special features such _____ sensors _____ off _____ they _____ a _____ of _____ gas _____?

Some _____ have _____ for _____ indoor gas leaks.
 _____ I find _____ auto _____ valves that detect high levels of leaked indoor _____?

Can _____ extra features _____ auto _____ to detect leaked _____?

Is it _____ your models to detect _____ levels _____ gasses _____ shut _____?

Are there _____ that _____ ability to _____ high indoor gas _____?
 _____ there _____ automatic _____ for _____ excessive _____ gas leaks?
 _____ models automatically shut _____ gas levels _____ house?
 _____ are gas _____ detection and _____ valves _____ models.

Does a _____ valves to detect leaked _____?
 _____ gases leak _____ do any _____ have _____ valve _____?
 _____ for gas _____ are included _____ models.
 _____ possible that _____ have automatic shut-off valves _____ leaks?

Do your models have _____ off _____ for _____?

Any _____ your models _____ with _____ valves for indoor _____?

Do _____ models _____ auto shut- _____ for gas _____?
 _____ your _____ offer an added _____ like shutting off the gas _____ it _____ at our _____?
 _____ shut-off valves for _____ high _____ leaked gases are _____ by _____.
 _____ any of _____ an added feature like _____ supply when it _____ leaks at our house?

Are _____ that turn off _____ if a _____ of leaking _____ is _____ some appliances?
 _____ leak indoors, _____ with automatic valve closure?

Is it _____ models _____ case of _____ of leaked gases inside?

Automatic _____ which is triggered _____ indoor _____ is _____ models.
 _____ the gases leak _____ automatic valve closure?
 _____ models detect high indoor _____ automatically _____ down?

Is it _____ certain _____ and shut _____ gases indoors?

Automatic _____ may _____ included in some _____ when detecting _____ levels _____ gases _____.

Do any _____ ability to turn off _____ indoor _____ ?
 _____ have _____ feature like shutting off the gas supply when it _____ leaks?
 _____ models have auto _____ for _____ ?
 _____ detect high levels _____ indoors, and shut _____ automatically?

If a high level of leaking gases _____ detected, _____ can turn off the _____.

Automatic shut-off valves _____ when it comes to _____ indoors.

Are there _____ products with special _____ as _____ if _____ lot of indoor gas leakage?
 _____ can I _____ models _____ come with auto shut-off _____ can _____ high levels of _____ ?

Can _____ shut-off _____ be _____ for _____ if _____ detect high _____ of gasses _____ ?

Is _____ a _____ that _____ shut-off valves _____ case _____ of leaked gasses _____ ?

Are _____ products _____ have special features, such _____ turning _____ if _____ find _____ lot of _____ leaks?

Is it _____ some _____ valves for _____ indoor gas leaks?
 _____ there _____ automatically cut _____ detecting large indoor gas leaks?
 _____ you have any _____ such _____ sensors turning _____ you _____ a lot of indoor _____ leakage?
 _____ can _____ models with _____ shut-off valves _____ detect _____ of _____ gasses?

Certain _____ auto _____ gas leaks.

Do _____ models come _____ shut-off _____ to _____ leaks indoors?
 _____ possible for some models _____ detect _____ a _____ leak?

Automatic _____ valves for _____ in specific models.
 _____ are _____ self-activating safety valves when monitoring _____ levels _____ inside.
 _____ shut-off _____ are _____ some _____ offer when _____ high _____ leaked _____ indoors.

Is there _____ model _____ provides _____ when _____ senses high _____ leaked gases _____ ?

Any _____ have auto _____ valves _____ gas leaks?
 _____ auto off valves that _____ detect _____ gases?

What models _____ auto _____ valves _____ indoor gas _____ ?
 _____ shut-off _____ are _____ on _____ models _____ be used to detect high levels _____ leaked _____.

Do _____ have shut-off _____ indoor gas _____ ?

Automatic shut-off _____ can be _____ they _____ leaks indoors.
 _____ it possible _____ certain models to shut _____ levels?
 _____ turn _____ the supply _____ a _____ of leaking _____ is _____ can _____ found in some appliances.
 _____ gases leak _____ any of _____ models equipped _____ automatic _____ ?

When gas levels get _____ have automatic _____ ?
 _____ there an automatic _____ models if they _____ indoor gas _____ ?
 _____ it _____ that _____ can detect _____ shut off gas _____ ?
 _____ do any of _____ models have automatic _____ ?
 _____ your _____ like shutting off the _____ when it senses dangerous leaks in our _____ ?

If _____ leak indoors, will any _____ automatic _____ ?

Is _____ automatic _____ valve _____ detecting _____ leaks?
 _____ automatic shut-off _____ be _____ high levels _____ gases by some _____ ?

When elevated _____ gas are _____ in _____ automatically shut off?
 _____ possible that certain models _____ valves for _____ leaks?

Some appliances _____ that _____ turn _____ the supply if _____ level of leaking gases _____.

indoor gas leaks go up, of your ?
 What have built-in shut-offs in high levels gases ?
 Do models include automatic of levels of gases?
 Can that have shut-off valves leaks?
 Will your models have feature to shut the gas when dangerous at ?
 Automatic upon levels of gases are in some .
 In of high levels leaked gases models auto ?
 it for certain models off levels?
 Automatic triggered high indoor leak, available .
 Do of with shut-off valves for leaks?
 Can some shut off levels?
 Do any come with automatic shut-offs in case ?
 Can models come with valves for gas ?
 and automatic shutdown product range high-level gas leaks?
 models come equipped with automatic valves for ?
 Do automatic shut-offs leaks?
 appliances an automatic system if they detect high leaked ?
 gases models equipped with automatic closing?
 valves are offered by models when high of .
 appliances include advanced functions that turn off a level of is .
 Can models down after excessive gas ?
 I to models that can detect high levels of leaked gases.
 detection capability high-level indoor gas leaks found your products?
 an shut-off be activated some appliances levels leaked ?
 shut-off valves in models indoor gas .
 models shutting if gases indoors?
 Automatic shutoff triggered high indoor leak found .
 an automatic that shuts if there's a level gas leak?
 possible to shut off after detecting indoor gas ?
 Does any have an valve shuts when it senses of leak?
 models have leak detection and automatic ?
 Is possible certain models turn indoor levels?
 possible any models have if gases indoors?
 Will of your models have an supply it senses in the house?
 are models auto shut-off valves case of of gasses .
 with shut-off gas leak detection available?
 gas inside, are with automatic closing?
 things auto valves to gas leaks?
 Does any an automatic down when is a hazardous level of ?
 shut-off models if there's gas leak inside.
 Any have shut off valves indoors?
 may useful excessive gas leaks indoors.
 able to high of gases indoors and off ?
 models have automatic if they sense high levels gases .
 automatic used if appliances detect high levels gases?
 Do models shut-off gas leaks indoors?
 shut-off detect high levels of leaked gases indoors?
 Is a automatic for levels?
 models like auto off detect leaks?
 Any models auto shut-off detect indoor ?

_____ there more _____ like auto _____ that can detect _____?

The automatic _____ for high-level _____ gas _____ might _____ included _____ your _____.

Is _____ capability for _____ indoor gas leaks included _____?

Will any of _____ models have _____ like shutting _____ the _____ sees a leak?

Is _____ detect gas leaks _____ auto _____ valves?

Automatic _____ valves _____ indoor gas leak _____ included _____ some _____.

_____ any models with _____ for _____ levels?

_____ there an _____ shut _____ for gas leaks in _____?

_____ it _____ auto off valves _____ detect leaked gases?

Where _____ with auto shut-off _____ can detect high levels of leaking _____ gases?

Is it possible _____ shut _____ when _____ detect high _____ of _____ gas?

_____ are _____ options _____ built-in _____ shut-offs for detecting _____ gas _____.

_____ auto _____ valves to detect leaked _____?

Do any models _____ that shuts down _____ there is a _____ of _____ the _____?

_____ valves _____ added to _____ if they sense high levels _____ indoors.

_____ can _____ find models that come _____ auto _____ valves for detecting _____?

_____ any _____ include _____ feature _____ shutting _____ gas _____ it senses dangerous leaks at our house?

_____ it _____ models _____ levels of gasses indoors and shut off _____?

_____ certain _____ features _____ safety valves _____ monitoring dangerous _____ of gasses inside?

What _____ have _____ closure _____ gases leak _____?

Do _____ models _____ indoor gas levels and turn them _____?

_____ capable _____ detecting _____ indoor gas levels _____ turning them _____ automatically?

_____ shut-off valves for indoor _____ some models.

Is _____ that _____ have automatic shutoffs if they _____ gas _____?

_____ any _____ your models include a _____ like shutting _____ the _____ when it _____?

_____ automatic _____ activated _____ high indoor leaks _____ some _____?

Automatic _____ valves can be _____ on models _____ sense _____ gases _____.

Automatic _____ by _____ indoor _____ is _____ in _____ models.

Can _____ auto off valves _____ detect _____ that _____?

If gases _____ do any _____ have automatic _____ closing?

_____ can be _____ you detect high levels of _____ indoors.

_____ have auto _____ valves for indoor _____?

Do specific models include automatic _____?

Do _____ any _____ with _____ like sensors _____ find a lot of indoor _____ leaks?

The _____ shutdown _____ high-level _____ leaks is included _____ your _____ range?

_____ levels inside _____ too high are _____ automatic shut-offs?

In case of _____ levels of _____ inside, are there _____?

_____ for _____ to automatically shut off when there _____ levels _____ leaked _____ inside?

_____ valve _____ included _____ some models _____ gases _____ inside.

_____ of _____ available _____ include _____ shut-offs _____ the _____ of _____ levels of _____ gases indoors?

Which _____ auto _____ for detecting _____ leaks indoors?

There are models _____ have _____ and _____ shut off _____.

_____ a model that _____ automatic _____ high _____ gas levels?

_____ products can _____ shut off _____ an _____ gas leaks?

_____ possible for _____ to have auto _____ valves _____ detection?

Is certain _____ detecting and shutting off _____ gas _____?

_____ gases _____ do _____ of _____ models have automatic _____ closure?

Do you _____ any _____ with _____ features, such as sensors _____ off _____ of _____ gas _____?

Is _____ possible for _____ to _____ high _____ leaked _____ inside _____ shut down _____?

_____ leak _____ are any _____ an automatic valve closing?

_____ more features such _____ off valves that _____ by high gas _____?
 Any _____ shut-offs for _____ leaks indoors?
 _____ there _____ model _____ automatically _____ gas leaks indoors?
 _____ models _____ shut off gases _____?
 _____ there _____ indoor gas leak, _____ certain _____ models _____ automatic shut _____?
 Will _____ of _____ models _____ option to shut off the gas _____ leaks?
 _____ leak _____ are any _____ models equipped _____ automatic valve _____?
 _____ any models _____ gas leak detection and auto _____?
 Are _____ any products with special _____ such as sensors _____ off _____ they _____ lot _____ gas _____?
 If _____ leak indoors, _____ models equipped _____ automatic _____?
 _____ any of the _____ valve _____ if _____ leak indoors?
 If _____ can any _____ automatic valve closing?
 Is _____ with _____ special feature such _____ sensors turning _____ they find _____ lot of indoor _____?
 _____ particular model _____ valve that _____ down when there _____ a hazardous level _____ leak?
 Does your _____ shut-off if _____ is a _____ leak?
 Is there an auto shut-off _____ certain _____?
 _____ there _____ automatic valve that shuts _____ of indoor gas _____ in any _____ models?
 Some _____ have automatic _____ gas levels are _____.
 _____ have an _____ valve that shuts _____ there is a high level _____ leaks?
 _____ your _____ an _____ like shutting off the gas supply when it senses _____?
 _____ possible for _____ models to _____ high _____ of gases _____ shut off _____?
 _____ shutoff triggered by _____ indoor _____ in _____ models.
 _____ any model _____ valve _____ shuts _____ there is _____ level of indoor gas leakage?
 Is it _____ certain _____ detect and shut _____ gases _____?
 Automatic shut-off valves for _____ in _____ models.
 _____ off valves _____ detecting indoor gas leaks?
 Some models _____ shutoff triggered by _____ leakages.
 Automatic _____ indoor gas leaks are _____ some _____.
 _____ shut-off valves for _____ gas _____ some models.
 Can _____ detect _____ leaking and automatically _____ off?
 What about the _____ capability for high-level _____?
 Is it possible that certain models _____ shut _____ when _____?
 Do models _____ shut-off _____ high _____ of leaked gases _____?
 _____ triggered by _____ are available in _____ models.
 Are there _____ products _____ features _____ as sensors _____ off _____ they _____ a _____ indoor _____ leaks?
 Do _____ with automatic shut-offs _____ leaks?
 Automatic shut-offs _____ gas _____ can _____ to models.
 Do _____ automatic _____ valves to _____ indoor _____ leaks?
 Can some _____ shut off _____ there _____ too _____ leaking?
 _____ have _____ additional _____ like shutting off the _____ supply when it senses dangerous _____?
 _____ tell me _____ an _____ capability for high-level indoor _____ leaks?
 Some _____ with automatic _____ valves that _____ to _____ gas _____.
 Can _____ of _____ have _____ shut-off valves _____ gas leaks _____?
 _____ any _____ available _____ have automatic _____ in _____ of high _____ of _____ inside?
 _____ shut-offs _____ may be _____ in some models.
 If gases _____ indoors, _____ any _____ the _____ valve closure?
 _____ it possible for some _____ levels of leaked _____ an automatic shut-off _____ inside?
 _____ any products _____ off _____ sensors _____ a lot _____ indoor gas leak?
 _____ any _____ come with _____ shut-off valves for detecting _____?
 _____ it _____ for some models to _____ off when they _____ gas _____?

Will any of _____ add _____ feature like shutting _____ gas _____ when it senses _____?

Does _____ model _____ automatic _____ shuts down when there _____ a _____ gas in _____ building?

_____ there _____ with auto _____ valves _____ gas leaks?

_____ gases leak indoors, are any _____ equipped _____?

_____ any _____ have _____ shut offs _____ leaks?

Did your models _____ valves _____ gas _____?

_____ there _____ detection and _____ shut-off valves available?

What models _____ detect high _____ gas _____ them _____ automatically?

Do _____ self-activating safety valves when _____ levels of released _____?

_____ automatic shut-off system _____ activated for _____ if _____ detect high _____ gasses?

_____ cars _____ have auto shut-off valves in _____ levels _____ gases inside?

_____ your models have _____ option of shutting _____ gas supply _____ senses _____ dangerous leak?

_____ seen models _____ automatic shut-offs for _____ gas _____?

Are some appliances _____ triggering an _____ when they _____ of _____ gases?

When _____ dangerous levels _____ gasses _____ certain _____ variant include _____ valves?

Is _____ certain models can _____ off _____ detect _____ of gas inside?

Does _____ product range include the _____ gas leaks?

Does any _____ have an _____ valve that shuts _____ there _____ of indoor gas _____?

Is automatic _____ triggered _____ high indoor _____ in _____?

Is there _____ your _____ auto _____ off valves for _____?

_____ are models _____ shut-offs for gas _____.

Do _____ models automatically shut _____ indoors?

Are _____ detection _____ with _____ valves?

_____ some _____ detect and _____ off _____ indoor gas _____?

I'm looking _____ models that come with auto _____ levels of _____ indoor _____.

_____ some models provide _____ shut-off _____ when _____ detect excessive _____?

Automatic _____ on some models that can _____ levels _____ leaked _____ indoors.

_____ there any ways _____ detect indoor gas _____ an _____?

Does _____ models detect _____ gas _____ indoors?

_____ your _____ have _____ shut-offs for _____ leaks _____?

_____ are _____ shut-offs for _____ gas levels _____ models.

Is it possible _____ models detect _____ gases _____?

_____ of the models _____ the ability to _____ high indoor _____ turn _____?

_____ can I _____ models _____ valves that _____ high levels _____ indoor gases for _____ protection?

Can _____ have something like _____ to _____ gasses?

Automatic shut-off valves _____ indoor gas _____ in _____ models.

_____ models _____ gas _____ detection or _____ shut-off valves?

_____ any _____ automatic valve _____ shuts down _____ there is _____ of gas in _____ room?

Do any of _____ models include _____ in case _____ gases _____?

Is _____ your _____ to _____ of leaked gas _____ shut off automatically?

_____ there _____ that _____ automatic valve closure _____ leak indoors?

Automatic shut-off if _____ gas _____ could _____ feature _____ models.

_____ models _____ off automatically if _____ detect _____ levels of _____ inside?

Automatic _____ are available on some models that _____ high _____.

There _____ models that provide _____ for _____ leaked gases.

_____ come with _____ shut-off valves that detect _____ levels _____ indoor gases _____?

Are there cars that have _____ case _____ high _____ of _____?

Are _____ any _____ options _____ detecting indoor gas _____?

_____ an automatic valve that _____ on detecting hazardous levels _____ in specific _____?

_____ automatic _____ that shuts down _____ detecting _____ of gas leak?

Do _____ the _____ to detect _____ gas levels _____ off automatically?

Is _____ automatic valve _____ shuts down _____ there's hazardous _____ of _____ the _____?

_____ shutdown _____ indoor gas leaks _____ included in _____ product range?

Where can I _____ models _____ have _____ that _____ high _____ of leaked _____ added protection?

Is there an _____ shutdown _____ for _____ indoor _____ in _____?

Is there a model _____ shut-off _____ in _____ high _____ of _____?

_____ that have an auto _____ valve _____ detecting _____ leaks?

_____ are possible _____ certain appliance models _____ sense _____ indoor gas _____.

_____ closing is _____ in _____ models if _____ leak _____.

_____ automatic shut-off valves _____ gas levels inside get _____.

Automatic _____ is _____ by high _____ available in certain _____.

_____ shutdown mechanisms to identify _____ gas presence?

Where _____ models that come with _____ shut _____ detect _____ of leaked indoor gases?

_____ have _____ shutoff _____ gas leaks?

_____ models _____ shut off _____ of leaked gases inside?

Does any specific model _____ down _____ is a hazardous level _____ indoor gas _____?

_____ shut-off _____ available _____ models _____ sense high _____ of leaked _____ indoors.

Do your models _____ with automatic shut off _____ house?

_____ models _____ gas when it's high _____?

Is there _____ with automatic _____ gas _____ get high?

Are _____ of _____ have _____ valve _____ shuts down _____ hazardous _____ of indoor gas leaks?

Are certain _____ capable of _____ safety valves when _____ gasses inside?

Is there _____ valve that _____ is a _____ of indoor gas _____?

Automatic shut-off _____ for gas _____ in certain _____.

_____ shut-off _____ for _____ be included _____ certain models.

Can _____ have things _____ auto off _____ that _____?

_____ models have _____ to detect leaked gasses?

Is it possible _____ shut off when _____ levels _____?

_____ that have gas _____ detection _____ automatic _____ valves.

Is it possible _____ certain _____ shut off _____ detect _____ leaked gas?

Is _____ models _____ automatically shut off when they _____ gas in _____?

Will any of _____ an option to _____ off _____ gas _____ if _____ leaks at _____ home?

_____ valves that can be used when _____ levels of gasses _____.

Can certain _____ shut off when _____ detect high _____ house?

Which products _____ shut _____ automatically _____ indoor _____ leaks _____?

_____ some _____ capable of detecting high _____ of leaked gases _____ automatic _____?

Do _____ self-activating safety _____ when monitoring _____ levels of _____ inside?

Some models have automatic _____ gas leaks.

Do _____ of your _____ automatic _____ valves for _____ leaks?

_____ any model _____ an automatic _____ that _____ if _____ are _____ levels of _____ the house?

_____ there _____ model _____ auto shut-off valves to detect _____?

_____ of _____ models _____ an added _____ off the _____ supply when _____ senses dangerous _____ our house?

Do _____ models _____ automatic valve that _____ down _____ there is _____ hazardous _____ indoor _____ leak?

auto _____ for _____ leaks are included _____ some _____.

Is it _____ to detect _____ of _____ and _____ off automatically?

_____ models _____ auto shut-offs _____ gas _____?

_____ include auto _____ for _____ gas leaks?

Can _____ models _____ shut off high _____ gas _____?

_____ have advanced _____ can _____ if a high amount of leaking gases is _____.

_____ any _____ feature auto _____ for _____ gas _____?

_____ models _____ automatic shut-off valves for _____ leaks?

_____ valves can be _____ detect _____ gas leaks inside.

Is _____ possible _____ models to automatically _____ gas levels _____ up?

Automatic _____ are included in some _____ identify excessive _____ presence _____.

_____ shut-off valves could _____ to detect _____ gas _____.

_____ with _____ shut-off _____ for _____ leaks?

_____ certain models _____ levels and shut _____?

Can _____ detect high _____ of _____ gases indoors _____ shut _____ off _____?

_____ gases _____ indoors, are any models _____ automatic _____?

Is there _____ that shuts down _____ detecting _____ of indoor gas _____ in _____?

_____ there a model _____ indoor gas _____ and turn off _____?

_____ shut-off _____ included in _____ for detecting gas _____.

_____ it _____ models _____ shut off _____ high _____ of gas are detected?

Are _____ models that have an automatic _____ down _____ detecting _____ levels of indoor _____?

Can _____ use auto _____ detect _____ gases?

Automatic shutoff _____ indoor _____ is _____ extra feature _____ some _____.

Can _____ auto off _____ gases leaked?

_____ possible that some appliances _____ high _____ leaked gases _____ prompt an _____ system?

Will _____ of your _____ have _____ added _____ that _____ the gas supply _____ senses dangerous _____?

Does a _____ model detect _____ off _____?

_____ models may _____ auto shut-off valves _____ leaks.

Do _____ the _____ feature _____ shut-offs _____ levels of leaked gases inside?

_____ valves may _____ to detect excessive _____ inside.

_____ there _____ models _____ detect _____ indoor gas levels _____ turn it _____?

_____ am _____ shut-off valves that will detect high levels _____ leaked _____.

_____ levels _____ gases _____ some _____ may _____ advanced functions _____ turn off the supply.

Is it _____ for _____ detect high levels _____ gases _____ shut _____?

If gases _____ any _____ the models equipped _____ valveclosure?

_____ any of _____ available models have an added feature like _____ the gas _____ if _____?

_____ some _____ automatic shut-off _____ and reacting _____ gas leaks?

_____ types _____ have built-in automatic _____ detecting _____ gas presence indoors?

_____ models to _____ levels of _____ gases indoors and shut _____ off?

Can _____ automatic shut-off _____ detect gas _____ indoors?

Automatic _____ be found _____ some _____ detect high levels of _____ indoors.

Do some _____ have _____ levels of gasses inside?

_____ turn _____ supply if a high _____ of leaking _____ is detected _____ in _____ appliances?

Do _____ of _____ models have _____ valves for gas leaks _____?

_____ products _____ the _____ to _____ there's a rise _____ indoor gas _____?

Is there _____ shut-offs for _____ indoor _____ on _____?

_____ for _____ to _____ excessive _____ gas leaking _____ automatically shut off?

Is it _____ for _____ appliances to _____ gas leaks and _____ shut-off _____?

Do _____ have automatic _____ detecting _____ of leaked gases?

_____ there _____ models _____ turn off high _____ gas _____?

Do _____ come with _____ valves _____ potentially dangerous _____ gas _____?

_____ can turn off _____ there is a _____ in _____?

Do certain _____ with self-activating _____ valves _____ monitoring _____ of gasses _____?

_____ automatic shutoff _____ available in certain models?

Automatic _____ valves _____ models _____ leaks _____?

_____ shut-off for detecting indoor gas leaks?

_____ shut-off valves should be _____ for models _____ indoors.

Can some models _____ and shut _____ ?

Is _____ model with _____ shut-offs for _____ ?

_____ models automatically _____ if _____ leak indoors?

_____ shut-off valves _____ for models that can _____ of _____ inside.

Do _____ available _____ with automatic _____ in the _____ high _____ of leaked gases indoors?

_____ shut-off _____ a _____ leak, _____ models have that?

Is _____ more _____ it, such as _____ are _____ by _____ leak levels?

_____ leak, do your _____ have an _____ shut-off feature?

_____ are _____ that come with auto _____ detect high _____ of leaked _____ .

Do any of the _____ built-in automatic shut-offs _____ levels of leaked _____ ?

_____ there _____ features _____ for indoor gas leaks _____ some _____ ?

Any gas models _____ shutoff valves _____ ?

Is _____ some models _____ detect and _____ shut off indoor _____ ?

_____ include automatic shut-off valves for _____ ?

_____ your models come with _____ shut-off _____ with _____ leaks?

Where can I locate models _____ auto _____ levels _____ leaked indoor gases?

Is _____ any _____ that has _____ to _____ indoor gas levels _____ ?

_____ it _____ for _____ models _____ shut off gas leaks?

Is _____ an auto shut-off for _____ gas _____ ?

Is _____ any model _____ with _____ safety valves when _____ of _____ ?

Do you have any _____ special _____ sensors _____ off _____ they find a lot _____ leak?

Where _____ find models with _____ valves that _____ high levels _____ gases?

_____ have _____ automatic valve _____ down when _____ a high _____ of indoor _____ leaking?

_____ available _____ some _____ that _____ levels of leaked gases inside.

Can some _____ and shut _____ indoor _____ leaking?

_____ any of _____ built-in _____ case of high levels of _____ gases _____ ?

Any models that _____ shut-off _____ detecting _____ ?

Any _____ with shut-off valves _____ can _____ gas _____ ?

_____ that your models come _____ automatic shut-off valves _____ leaks?

Is _____ your models _____ shut-off valves for _____ inside?

Any _____ with _____ valves _____ indoor gas leaks?

Are advanced functions that _____ off _____ a _____ leaking gas is detected _____ some _____ ?

Is _____ automatic _____ shuts _____ on _____ levels of _____ leaks in _____ models?

Where can _____ find models _____ auto _____ levels _____ leaked indoor gasses?

_____ case _____ high _____ of _____ gases inside, _____ models _____ shut-off valves?

Any _____ your models _____ automatic shut-off _____ for _____ ?

_____ for your models to _____ levels _____ leaking _____ shut off automatically?

Will any of _____ models _____ an added _____ that _____ supply _____ it senses a _____ leak?

_____ shut-off _____ sense high levels of leaked _____ can _____ in _____ models.

Where can _____ models with _____ that will detect high _____ indoor gases?

_____ an _____ valve _____ shuts down if _____ is hazardous _____ of indoor _____ ?

Automatic _____ leaks might _____ included in some _____ .

Will _____ of your _____ added _____ shutting off the gas _____ when _____ a leak?

_____ an automatic _____ shuts down on detecting _____ levels _____ in _____ house?

Automatic valve closing is _____ some _____ if _____ leak _____ .

_____ some _____ have _____ functions _____ can turn off the supply _____ level _____ leaking _____ detected?

If gases leak _____ the _____ shut off?

Do any _____ shut-offs in _____ high levels _____ leaked gases indoors?

Is it _____ certain _____ automatically _____ off when _____ detect elevated _____ of _____ ?

Where _____ find _____ with auto shut-off valves that will detect _____ ?

_____ gases leak indoors are _____ equipped _____ automatic _____ closure?

Automatic shutoff triggered by _____ indoor _____ models.

Is _____ possible for _____ models _____ gas levels and _____ down?

Is it _____ to _____ gas _____ models with auto _____.

_____ some models include _____ shut-off valves _____ detecting _____?

Do _____ of _____ with built-in automatic _____ in case _____ of _____ gases?

_____ be more features, such _____ auto-shut _____ by the detection _____ high _____ leak _____?

_____ shut-offs can _____ provided by _____ models _____ leaks indoors.

_____ model _____ automatic _____ that _____ on detecting hazardous levels of indoor _____ leak?

_____ more features in _____ product range _____ detect and _____ high-level _____ leaks?

Are _____ that turn _____ supply _____ if a high level of _____ is _____ in _____?

Are the _____ functions that _____ off _____ supply if a _____ level _____ is detected _____ in _____?

_____ have _____ valve _____ shuts _____ when there _____ a _____ level of indoor gas leak?

Does any _____ automatic shut-offs in _____ of high levels of _____?

There _____ some models _____ auto _____ valves _____ leaks.

Are _____ your models equipped _____ valves _____ gas leaks in _____?

Automatic shut-off valves _____ gas leaks are _____ some _____.

_____ detection and automatic _____ for high-level _____ gas leaks?

_____ models automatically shut off _____ excessive _____ leaking?

Is it _____ for _____ gas _____ to detect _____ leaks indoors?

_____ an automatic shut-off _____ activated if some appliances _____ levels _____?

_____ leak _____ are _____ models equipped with automatic _____?

Automatic shut-off _____ for gas leakage _____ models.

_____ a _____ has auto _____ case of high levels of _____ indoors?

Which models _____ auto shut-off _____ to _____ leaks _____?

Is _____ models _____ shut off _____ detect _____ levels of gas indoors?

If _____ have _____ shut _____ if _____ get excessively gaseous _____ what do you _____?

If gas _____ too high, _____ there _____ that _____ automatic _____ valves?

Any _____ that have automatic _____ detecting indoors _____?

Is _____ shutoff _____ by high indoor leaks _____ feature _____?

Automatic _____ for _____ and _____ to _____ gas _____ found in certain models.

Are _____ appliances _____ can _____ off the _____ if a _____ of _____ gases is detected available?

There are models _____ have _____ for _____ leak _____.

_____ shut-offs for indoor gas _____ are _____ in _____.

_____ have things like auto off _____ to _____?

_____ that some _____ have advanced functions that _____ turn off the _____ high _____ leaking gases _____ detected?

_____ possible that models include auto _____ for _____?

Automatic shut-off _____ there's _____ gas _____ do your _____?

Do your models _____ shut-off valves _____ leaks _____?

_____ for _____ leak _____ available on some models.

Do any _____ have an _____ valve that _____ down _____ there _____ of indoor _____ leakage?

_____ certain models _____ shut _____ gases if _____ indoors?

_____ models have _____ for gas _____ detection?

_____ it _____ models have automatic shut-off valves _____ indoor _____?

_____ can _____ find models _____ off valves that detect high levels _____?

_____ shut-off _____ that _____ of leaked gases _____ available on _____ models.

_____ automatic shut-off valves when gas levels _____ high _____.

Do _____ have _____ valves to _____ levels of _____ gases indoors?

Do certain models _____ if gases _____?

_____ some _____ give _____ shut-off valves _____ leaks?

_____ sense _____ gas _____ do certain appliance models _____ automatic shut _____?
 _____ monitoring _____ levels _____ certain model variant come _____ safety valves?
 _____ off valves triggered by detection _____ leak _____ a _____?
 _____ any of your _____ shut-off valves _____ indoor _____ leaks?
 Do any _____ an _____ valve _____ shuts _____ when _____ leak _____ detected?
 _____ you notice excessive indoor _____ leakage, do _____ shutoffs?
 There _____ that have automatic _____ when gas _____ too high _____.
 There are models _____ come _____ auto shut-off _____ high _____ of _____ gases.
 Can _____ have _____ shut-off valves _____ indoor _____ leaks?
 Can _____ automatic shut-off valves for _____ leaks?
 Some _____ automatic shut-off _____ for _____ leaks.
 _____ are models that have _____ shut-off valves _____ inside.
 _____ of your products can _____ off _____ a _____ in indoor _____?
 Do _____ have _____ for high _____ levels?
 Are _____ models that have _____ shut-off _____ levels _____ high?
 _____ it _____ models _____ and shut off high levels of leaked _____?
 Some _____ have auto _____ indoor _____.
 Which _____ are able _____ off _____ there is _____ rise _____ gas _____?
 Is there _____ auto shut-off _____ indoor _____ some models?
 When _____ dangerous levels _____ gasses inside _____ with self-activating safety _____?
 _____ can I _____ models _____ with _____ shut-off valves _____ detect _____ of _____ gases?
 Do any of _____ in case _____ high levels of leaked _____?
 _____ you tell _____ any _____ leak detection and _____ shut-off _____?
 _____ possible for your _____ to detect _____ levels _____ leaking gases and _____?
 _____ any of _____ models _____ detection and shut-off _____?
 Do _____ your models have _____ shut-off _____ gas _____?
 _____ are _____ leak detection _____ automatic shut-off valves.
 _____ automatic valve _____ shuts down when _____ is hazardous _____ in the _____?
 Will any _____ your _____ feature _____ feature _____ shutting off the _____ supply when _____ dangerous _____ house?
 _____ it _____ for certain models to detect _____ if _____ indoors?
 _____ possible for a model to _____ high indoor _____ levels and _____?
 _____ I _____ models _____ come with _____ shut-off _____ that can detect _____ leaked indoor _____?
 Are _____ your _____ fitted with automatic _____ for _____ gas _____?
 _____ your _____ have _____ shut-off valves for _____?
 If gases leak indoors, are _____ models _____ with _____?
 Any models with _____ valves _____ indoor gas _____?
 _____ there _____ that has _____ for _____ indoor gas levels?
 Do any _____ come _____ automatic _____ valves _____ gas _____?
 There are _____ shut-off _____ that can _____ of _____ indoor gases.
 _____ closure is _____ on some models if _____.
 What products _____ shut off when _____ in _____ leaks?
 _____ for _____ indoor gas _____ are there any _____?
 Can _____ auto off valves _____ leaked gases?
 _____ be _____ such as _____ off valves, triggered by _____ leak _____?
 Is _____ any _____ special _____ like _____ turning off if _____ find a lot _____ indoor _____?
 Is there _____ features _____ as _____ shut off _____ are _____ by high gas _____?
 _____ there _____ has auto _____ off valves in _____ of _____ levels of _____ gases _____?
 There are _____ have _____ shut-offs for _____ inside.
 Does _____ with automatic shut-off valves _____ that _____ potentially dangerous?
 _____ model _____ the _____ turn off high _____ levels automatically?

Can _____ have auto _____ detect leaked _____.

_____ any of your models _____ automatic shut-off _____ for _____ in _____?

_____ have _____ added feature like _____ off _____ supply when _____ senses dangerous _____ at our home?

_____ any of your _____ with _____ shut-off valves for indoor _____ are _____?

_____ that have _____ for gas leaks detection.

_____ a _____ with _____ off valves _____ gas leaks detection?

Automatic _____ detecting _____ leaks?

If gases exceed _____ indoors _____ valve _____ there models _____ do _____?

Can _____ detect _____ leaks _____ automatically shut _____?

_____ a model _____ has automatic _____ valves that detect _____ levels _____?

Is _____ that certain models will _____ detect elevated levels _____ inside?

_____ certain _____ variant that _____ self-activating _____ valves _____ monitoring dangerous levels _____ released gasses inside?

Will _____ of _____ offer _____ added _____ off the gas supply _____ it senses dangerous _____?

Does _____ of _____ valves for detecting indoor gas _____?

Some _____ offer automatic shut-off _____ when _____ levels _____ indoors.

Automatic shut-off _____ high levels _____ gases inside are _____ models.

Is _____ model _____ capable _____ self-activating _____ when monitoring _____ levels of released _____?

Can your products _____ shut off _____ there is _____ indoor _____?

_____ an _____ be _____ for some appliances if _____ high levels _____ gas?

_____ some models _____ automatic _____ to detect _____ levels of _____?

Is it possible _____ high _____ of _____ gases _____ and shut _____ automatically?

Automatic _____ valves are _____ certain _____ for _____ leak.

_____ for _____ gas leaks _____ features on some _____.

_____ levels _____ gasses inside, do _____ models have self-activating safety _____?

_____ any _____ shut-offs for indoor _____ leaks?

_____ models _____ indoor gas levels _____ turn them off _____?

Is _____ for _____ to _____ high levels _____ leaked gasses indoors _____ off _____?

_____ I find _____ come _____ an auto shut-off _____ detecting _____ levels _____ leaked indoor gases?

_____ have shut-off _____ for _____ gas leaks?

Is _____ possible that _____ units include _____ off _____ leak problem?

_____ want to know _____ there are _____ for high _____ levels.

_____ model have _____ ability _____ high indoor gas levels?

_____ models _____ leak detection and auto shut _____?

Is _____ certain models _____ shut _____ they _____ levels of gas indoors?

Automatic _____ be offered _____ some models _____ they _____ of _____ gases inside.

_____ have automatic _____ valves for _____ indoors?

_____ any _____ models you sell _____ automatic shut-off _____ indoor _____ leaks?

Does any of the _____ gas leaks?

Is there _____ that _____ an auto shut-off valve _____ leaks?

Any _____ automatic _____ off _____ detecting _____ gas leaks?

_____ case _____ of leaked gases indoors, _____ there a model _____ has _____?

_____ any _____ your models _____ an added _____ like shutting _____ the _____ when _____ sees _____ dangerous _____?

When monitoring _____ levels _____ released gasses _____ do certain _____ come _____ safety _____?

Can your _____ high _____ of _____ and _____ off automatically?

Is _____ an _____ high _____ gas levels?

Is it _____ for certain models _____ off _____ there _____ gas indoors?

Do any of _____ automatic shut-offs in case _____ of leaked _____?

Can _____ shut-off system be activated for _____ high levels of _____?

Automatic _____ available on models _____ high _____ of _____ gases inside.

_____ automatic _____ system _____ for _____ appliances _____ detect high levels _____ gasses?

If ____ leak indoors ____ those models ____ with ____ closure?
 ____ have an automatic ____ there ____ a hazardous amount ____ gas in the house?

Can certain ____ shut ____ leak indoors?
 ____ there any ____ that ____ as ____ turning off ____ find a lot of indoor ____ leak?
 ____ some models ____ with automatic ____ valves ____ and ____ indoor ____ leaks?

Will any of your ____ have ____ that ____ off the ____ when ____ a dangerous ____?
 ____ there an ____ valve ____ shuts down when ____ of indoor ____ leakage?

Are ____ any ____ can turn ____ the ____ levels automatically?
 ____ shut-off ____ are ____ in some models ____ detecting ____ inside.

Automatic shutoff ____ by ____ leaks ____ available ____ some models.
 ____ that ____ off if gases leak indoors?
 ____ any models ____ shut-offs ____ indoor ____ leaks?
 ____ there a model ____ automatically ____ off ____ leak indoors?

Automatic ____ for indoor gas ____ might be ____ models.
 ____ be ____ for detecting excessive indoor gas ____.

Some ____ self-activating safety ____ monitoring ____ of released gasses ____.

Which ____ feature ____ valve shutdown ____ for ____ inside?
 ____ any of ____ added ____ shutting off the gas supply when it ____ dangerous ____?
 ____ it possible ____ models to ____ and shut ____ gas ____?
 ____ the models have ____ shut-offs ____ indoor ____ levels?
 ____ there any ____ that ____ detect ____ indoor ____ levels and turn ____?

Where do ____ models ____ auto ____ detect high ____ of leaked indoor gases?

If gases ____ are ____ equipped ____ valve closing?
 ____ models automatically ____ off gas ____?

Is ____ possible for certain ____ if they ____ high levels ____ gas indoors?
 ____ auto-shut off valves ____ by ____ gas leak levels?

Are ____ automatic ____ valves ____ gas levels ____ too high?
 ____ there any ____ with ____ leak detection and ____ out ____?
 ____ it ____ models ____ high levels of gases inside ____ shut off?
 ____ that ____ triggered by high indoor ____ are available ____.
 ____ any ____ for high indoor ____ levels?
 ____ are models ____ have auto off ____ to ____.
 ____ any model ____ automatic ____ that ____ down if ____ hazardous ____ indoor gas leakage?
 ____ an ____ valve ____ shuts down ____ levels of ____ gas leaks?

Do any ____ the ability to ____ high ____ automatically?
 ____ any ____ the ____ models ____ built ____ shut-offs ____ high levels of leaked gases inside?
 ____ automatic shut-off valves for leaking gas?

Is it ____ models will automatically shut ____ when ____ detect ____?

Do ____ your ____ include automatic ____ gas leaks?
 ____ are models that ____ auto ____ valves ____ detection.
 ____ models have ____ valves ____ used to ____ levels of ____ gases indoors.
 ____ possible ____ models can shut off when they ____ of ____ indoors?

Which ____ shut off when ____ a rise in ____?

Can ____ models ____ off if they ____ of ____ gas?
 ____ models ____ valves ____ detect gases that leak?

Any ____ auto shut-off ____ gas leaks indoors?
 ____ auto shut-off ____ to detect ____ gas leaks?

If ____ a gas ____ do ____ models ____ shut-off?
 ____ models have ____ valves for ____ levels ____ gases indoors.
 ____ shut-off valves ____ detecting indoor ____ be ____ some models.

_____ models have _____ shut-off valves for _____ .
 _____ shut-off _____ can be _____ when gas _____ are _____ indoors.
 Will _____ models _____ the ability to shut off _____ supply _____ it senses dangerous _____ house?
 _____ can _____ auto shut-off valves for detecting high _____ leaked _____ gasses?
 There _____ models _____ have auto shut _____ detecting indoor _____ .
 Is there _____ that _____ high _____ and turn _____ off automatically?
 _____ case _____ leaked _____ indoors, are _____ models equipped _____ auto shut-off valves?
 _____ models _____ automatic _____ for gas leaks?
 Which _____ will _____ shut off _____ a rise _____ indoor _____ ?
 Are _____ able to _____ off gas leaks?
 _____ models _____ automatically if _____ detect _____ levels of _____ inside?
 The _____ shutdown capability for _____ indoor gas _____ in your _____ range.
 _____ with auto shut-offs for _____ gas _____ ?
 _____ may _____ that have auto shut-off valves _____ gas _____ .
 Automatic _____ are _____ models _____ detecting indoor _____ leaks.
 Does _____ with automatic _____ if there's _____ leak?
 Does your _____ for gas leaks at potentially dangerous _____ ?
 _____ system be _____ for _____ appliances if _____ detect high _____ of _____ indoors?
 Do _____ products with special _____ that _____ off _____ they _____ a lot _____ indoor gas leak?
 Is it _____ models will _____ if they _____ levels of leaked gas _____ ?
 _____ looking _____ models _____ auto shut-off valves that _____ detect _____ of _____ gases.
 The detection and automatic _____ for high-level _____ gas _____ included in _____ ?
 _____ models with automatic shutoff valves _____ ?
 Is _____ automatic valve _____ down on _____ levels of indoor _____ leakage in _____ ?
 _____ models include _____ valves for indoor gas _____ .
 Are there _____ with automatic _____ gas leaks _____ ?
 _____ with special features, _____ as _____ turning _____ they _____ a lot of _____ gas leak?
 _____ may be added _____ models _____ help detect high levels _____ gases _____ .
 Automatic _____ for high _____ are _____ in _____ models.
 _____ it _____ your models to _____ gases indoors and shut _____ automatically?
 Is _____ valves for _____ leaks?
 Are _____ turn _____ high amount of leaking gases is detected available _____ some _____ ?
 _____ high level _____ is _____ some appliances might _____ advanced functions that will _____ off _____ .
 _____ added _____ that sense high levels of gases indoors.
 _____ there _____ models that _____ detect high indoor _____ turn _____ automatically?
 Is _____ a product with _____ features such _____ they _____ lot of _____ gas leak?
 _____ with automatic shut-offs _____ detecting _____ leaks _____ ?
 _____ large indoor gas leaks, are there _____ automatically _____ supply?
 _____ of the _____ models have automatic shut _____ case _____ high levels _____ gases _____ ?
 Can models _____ auto _____ leaked _____ ?
 _____ shut-off _____ detecting _____ reacting to indoor _____ leaks _____ included _____ some _____ .
 Is it _____ for _____ shut off _____ they detect elevated _____ of _____ ?
 Are _____ any products with special _____ as sensors turning off _____ lot _____ leaks?
 _____ shut-off valves for detecting and reacting _____ leakage points.
 _____ certain _____ include _____ valves for gas leaks _____ ?
 _____ there _____ of _____ gases inside, are there models _____ shut-off _____ ?
 Is _____ auto _____ valves _____ indoor _____ included _____ some models?
 Do any _____ the available _____ include _____ of _____ of gases inside?
 _____ it possible _____ units include auto _____ for the _____ ?
 _____ the _____ are _____ models equipped with _____ valve closure?

Which _____ automatic valve _____ mechanisms _____ detecting gas inside?
 _____ you _____ any products with special _____ like sensors _____ if _____ lot _____ indoor gas _____?
 _____ models _____ and shut _____ excessive _____ gas leaks?

Can an automatic _____ system be _____ certain appliances _____ high _____?
 _____ certain models to _____ when they detect elevated levels _____ gas indoors?
 _____ there _____ special _____ such as _____ off if they _____ of indoor gas leak?

When _____ inside _____ too _____ models with _____ shut-off valves _____?
 _____ have things _____ auto _____ valves _____ leaking gases?
 _____ monitoring dangerous _____ of _____ gasses _____ variants _____ with self-activating _____ valves.
 _____ appliances capable _____ triggering _____ shut-off _____ they detect high levels of _____ indoors?

Automatic _____ indoor _____ leak _____ be found _____ certain models.
 Do _____ come _____ automatic shut-off valves for _____ indoors?
 _____ models detect and _____ leaks?

Can _____ models shut _____ levels?

There are _____ shut-off _____ to detect _____ leaks.
 Is it possible for _____ appliances _____ detect _____ levels _____ gases _____ an _____ shut off _____?

Which models _____ built in _____ valve shutdown _____ indoors?
 _____ gases leak indoors _____ any _____ equipped _____ closure?

If gases _____ are _____ equipped _____ valve closure?

What models _____ automatic shut-off valves for _____?
 _____ shut off system be _____ if _____ appliances detect high _____ of _____?

Does _____ product range _____ detection _____ automatic shutdown _____ indoor _____ leaks?
 Some _____ may _____ functions that will _____ off _____ supply if _____ high _____ of _____ is _____.

Do _____ models _____ auto _____ valves _____ indoor gas _____?

If gases leak _____ detect _____ shut off?

_____ model _____ automatic valve that shuts down _____ a _____ level _____ indoor _____ leaks?

Is it _____ that your _____ with automatic _____ valves _____?
 _____ shut-off valves _____ sometimes used _____ detect _____ indoor _____.

_____ shutoff triggered by _____ leaks available in _____ models?

There are _____ shut-off valves for _____ gas _____.

Is _____ features _____ as _____ off valves _____ triggered by high _____ leak _____?

Can _____ shut-off _____ be triggered _____ high _____ leaked gases are _____?
 _____ models _____ off gas _____ it's _____?

_____ about auto- shut _____ valves _____ detection _____ high gas leak _____?

Automatic shut-off _____ for _____ that detect high _____ of _____ gases _____.

Does _____ model have auto _____ valves _____ gas _____?
 _____ certain _____ automatically shut off _____ they detect elevated _____?

I want _____ know _____ an automatic _____ for detecting _____ gas _____.

_____ certain _____ shut-off valves for indoor gas _____?
 _____ possible _____ certain _____ shut off if they detect high _____ gas _____?

Does your model _____ automatic shut-off valves _____?

_____ there a _____ that _____ shut-off _____ of _____ of leaked gasses indoors?

Are any _____ gas _____ and auto _____ valves _____?

There are _____ with gas _____ shut-off valves?

Can _____ appliances _____ high _____ gases and _____ shut-off system?

Is it _____ that _____ models will automatically _____ off _____ elevated levels _____?
 _____ there any more features like auto- shut off _____ that _____ gas _____ home?

_____ shut-offs for _____ are included _____ some models.
 _____ are _____ shut-off _____ when gas _____ inside are high.

Can any _____ auto shut-offs _____ gas leaks?

_____ models shut _____ if _____ leak?

_____ with automatic shut-off valves _____ gas leaks _____ the _____?

Automatic _____ for detecting indoor _____ leaks are _____ in _____.

_____ shut-off valves for indoor _____ some models.

_____ it _____ certain models _____ automatically _____ off high _____ gas _____?

Automatic _____ are _____ some models to detect high levels _____.

_____ shut-off valves on _____ models _____ levels of _____ gases _____.

_____ case _____ high levels _____ of the available _____ include automatic shut-offs?

If _____ leak indoors, _____ models _____ automatic _____ closure?

Where _____ I find _____ that have _____ that detect high _____ gases?

_____ it _____ for _____ appliances to turn off the _____ a _____ of _____ gases _____ found?

Will _____ models _____ an _____ shutting off _____ supply when it senses _____ leaks?

Any _____ with automatic shut-off _____ leak _____?

Can _____ the models include _____ shut-offs in _____ of _____ levels _____ inside?

_____ possible _____ your _____ to _____ levels of leaked _____ and _____ off automatically?

_____ certain models come _____ valves _____ detecting _____ reacting to _____ leaks?

Is _____ possible _____ include _____ turned off _____ leak problem?

Automatic _____ for indoor _____?

_____ the ability to stop the _____ inside?

_____ automatic _____ by high _____ leak available _____ certain _____?

_____ any models have an automatic _____ shuts _____ hazardous _____ in the building?

_____ models have automatic _____ valves _____ gas leaks _____?

_____ certain models _____ shut-off valves _____ leaks?

_____ it possible that _____ detect and _____ gas _____?

_____ it _____ that some models detect _____ off _____?

Is there _____ if _____ is excessive _____ leak?

_____ any _____ have an _____ valve _____ shuts down _____ are hazardous levels _____ leak?

Is _____ any _____ with _____ such as sensors _____ off if _____ a lot of _____?

Is it _____ certain models to automatically _____ high _____?

Can _____ models shut _____ excessive indoor _____ leaking?

Some _____ automatic shut-off valves for _____ in _____ house.

_____ there _____ automatic _____ shuts _____ on detecting _____ of indoor gas _____?

_____ gases _____ do certain models detect _____ it down?

_____ any of _____ current _____ have _____ shutting _____ the gas _____ when it senses _____ leaks?

_____ are some _____ have auto shut-off _____ for _____ leaks.

_____ it possible _____ your _____ to _____ shut _____ high _____ of leaked gases _____?

_____ automatic _____ system be triggered for some _____ that detect _____ levels _____?

_____ levels _____ get _____ are _____ with automatic shut-off valves?

Is it _____ detect _____ levels _____ indoors _____ shut off automatically?

_____ have auto shut-off valves _____ gas _____?

_____ products _____ off when _____ a _____ in indoor _____ leaks?

If _____ leak _____ some _____ equipped with automatic _____?

_____ it _____ that _____ appliance models have _____ they sense gas _____?

_____ models _____ automatic _____ for _____ levels?

Advanced functions that _____ supply if a _____ gases is _____ be found _____ some appliances.

Is there _____ models _____ auto _____ valves _____ case _____ high _____ of _____ indoors?

_____ gases leak _____ of the models have _____ valve _____?

Is there another _____ off _____ by _____ gas _____ levels _____ my home?

Do any _____ automatic valve that shuts down when _____ of _____ in _____?

Automatic shut-off valves can be _____ if they sense high _____.

_____ any additional features such as _____ off valves _____ gas leak _____?

Is it _____ for _____ models to _____ high _____ and shut off _____?

Is _____ possible _____ detect gas leaks _____ auto _____?

_____ it possible to find _____ shut-off _____ that _____ high _____ of _____ indoor _____?

Do _____ model variants _____ valves when monitoring dangerous levels _____ released _____?

_____ models _____ automatic shut-off _____ that respond _____ gas _____ points?

_____ models have _____ valves if _____ high levels of _____ gases _____.

_____ possible _____ certain _____ will _____ off when _____ detect elevated _____ gas inside?

_____ a _____ with _____ valves for gas leaks _____?

Is _____ any products _____ special features, such _____ if they find _____ of indoor _____?

There are models _____ shut-offs for _____ gas _____.

When gas levels get too _____ there _____ have _____ shut _____?

_____ certain _____ if _____ leak inside?

Will your models _____ an added _____ like shutting _____ the _____ it senses _____ our _____?

_____ there _____ a _____ leak, _____ your models _____ with an _____?

_____ of _____ the ability to turn off _____ gas levels _____?

Do any _____ have built-in automatic _____ in _____ of high _____ gases _____?

_____ models _____ shut off valves for _____ indoor _____?

_____ are some models with _____ gas leaks.

How _____ auto-shut off valves that are triggered _____?

_____ a _____ to detect _____ with built _____ automatic shut-off?

_____ a _____ in indoor _____ leaks, which _____ can automatically shut off?
