

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|--|
| Company Type | Automotive Parts Retailers |
| Inquiry Category | Technical assistance with part installation |
| Inquiry Sub-Category | Compatibility with hybrid or electric vehicles |
| Description | Inquiries pertaining to the compatibility and installation procedures of automotive parts specific to hybrid or electric vehicles, providing guidance on specialized installation techniques and considerations for these vehicle types. |
| Data Size | 10,124 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Automotive Parts Retailer" customer inquiry. (Purchased data will not be masked.)

____ precautions should I take ____ auto-parts ____ automobiles ____ EVs/PHEVs?
Some ____ should ____ replacing ____ parts ____ hybrid ____ electric cars.
____ auto- ____ on ____ vehicles should be ____ with ____.
Is ____ possible ____ ensure ____ for auto-equipment ____ green ____?
Can ____ tell me about safety when ____ in ____ for ____?
____ the safety ____ to install ____ in ____ hybrid car?
____ precautions ____ taken when ____ on eco- friendly ____?
Is ____ possible ____ make ____ replacements for ____ green automobiles?
When installing ____ on environment-conscious ____ I know about the ____?
____ safety precautions are ____ to install ____ in ____ electric/ ____?
____ for safe ____ parts ____ eco-friendly cars ____.
____ some ____ that ____ to be taken when ____ auto ____ hybrid ____ cars.
Should special ____ taken when replacing ____ vehicles?
____ I make sure ____ when ____ for eco-friendly ____?
____ to take precautions ____ installing ____ on ____ and ____ vehicles?
What ____ do to ____ sure the ____ installations of ____ equipment ____ green ____ secure?
____ I ____ to make sure ____ when I swap ____ vehicles?
Replacing ____ sustainable ____?
What ____ I do if ____ vehicles ____ are friendly ____ environment?
____ eco-friendly ____ may require precautions.
____ have ____ on ____ to swap out parts in ____?
____ are ____ safety measures that I should ____ of when ____ components ____ cars?
____ the precautions ____ installing EV/PHEV ____ cars?
____ should I ____ for eco-friendly ____?
I ____ if ____ are any ____ to ____ the installation of ____ for electric vehicles.
____ should be done ____ replacing ____ eco-friendly autos?
Proper ____ green vehicles?
____ there have to be ____ auto-parts on green ____?

_____ are _____ to be _____ electric or hybrid cars.
 _____ any way to _____ a _____ installation of _____?
 What _____ done to install _____ electric _____ hybrid _____?
 Is _____ a good _____ to handle installations _____ EV _____?
 When _____ autos, _____ there be _____?
 _____ you _____ safety measures when fitting _____ parts?
 Please _____ necessary _____ to _____ fitting new _____ onto fuel _____ systems.
 _____ there need to _____ any _____ when _____ in _____ cars?
 _____ components on _____ what are _____ safety measures _____ should be aware _____?
 What _____ should be _____ install _____?
 _____ in eco-friendly cars _____ done?
 _____ there _____ I _____ to watch _____ for while _____ parts _____ EV or _____?
 _____ precautions _____ to _____ taken _____ parts in _____ cars?
 _____ need to _____ precautionary _____ part _____.
 _____ it possible _____ advise _____ safety when _____ new parts _____ cars?
 There are some _____ need _____ taken when replacing _____ vehicles.
 _____ should I take when _____ auto- parts _____ friendly _____?
 _____ EV/PHEV _____ what _____ steps?
 _____ the _____ auto-parts _____ green vehicles need _____ precautions?
 Guidelines for _____ replacing _____ were requested.
 Are _____ take for _____ parts on _____ cars?
 There _____ safety protocols for installing _____ eco-friendly _____.
 What _____ I take _____ parts _____ eco-friendly vehicles?
 _____ tips to _____ safe when _____ auto-part _____ eco- _____.
 _____ is a precautionary measure2EV part _____ to take _____.
 _____ safety _____ I _____ of when installing _____ components on _____ cars?
 When _____ green _____ there be _____?
 _____ to _____ when _____ green autos?
 There _____ that need to be taken _____ auto-parts _____ vehicles.
 _____ put in _____ gear and mess with eco-wheels, what _____?
 _____ precautions should _____ replacing/installing _____ parts into _____ vehicles?
 _____ you _____ me _____ necessary safety _____ when fitting eco-friendly _____?
 _____ of _____ parts _____ eco-friendly cars is subject _____.
 Are _____ changing parts _____ eco _____?
 _____ any precautions I _____ take _____ parts on _____ electric cars?
 Replacing _____ do I take?
 _____ want to _____ parts for _____ but how _____ I _____?
 Is _____ precautions for _____ parts _____ eco _____.
 What safety precautions _____ I _____ installing new automotive _____ environment-friendly _____?
 Replacing auto-parts _____ steps _____ take?
 _____ I put in _____ Eco-wheels, what do I _____ to _____ out _____?
 Is _____ anything _____ follow when _____ parts on _____?
 safety measures when _____
 Is it possible to kindly _____ putting in _____ cars?
 _____ must be taken when _____ auto-components _____ eco-friendly _____?
 What _____ should _____ taken when _____ components _____ sustainable _____?
 I was wondering if _____ tell me _____ safety _____ in _____ or _____ vehicles.
 When _____ eco-wheels and put in new gear I _____.
 _____ about _____ installation _____ new _____ electric vehicles?
 What _____ need to _____ taken when _____ parts _____ car?

_____ should _____ for _____ new parts into an _____ or _____ car?
 Is there _____ to _____ changing _____ eco cars?
 _____ fixing green _____ should _____ be _____?
 What _____ the _____ for changing _____ parts _____ green _____?
 Need _____ to stay _____ onto eco-cars.
 _____ precautions should I _____ car parts _____ electric _____?
 What _____ I do _____ installation _____ EV/PHEV parts?
 Do I _____ any _____ replacing/installing _____ parts onto _____ vehicles?
 _____ are _____ precautions _____ vehicles changing _____ parts?
 _____ fitting new _____ what are the _____ steps?
 There _____ be guidelines _____ changing _____ cars.
 What _____ I _____ replacing/installing car _____ onto _____ that are _____?
 _____ when I _____ to replace part in eco-friendly _____?
 I _____ consider _____ part changeups.
 _____ tell me about the safety measures I need to _____ when _____ parts _____?
 _____ to _____ taken when replacing/installing car _____ electric and _____ cars?
 _____ precautions are required when changing _____ in _____?
 _____ on sustainable _____ requires _____.
 _____ there any recommended precautions _____ EVs and PHEVs?
 When _____ in place _____ checks
 _____ auto parts safely _____ eco-friendly _____.
 There are _____ to _____ taken _____ parts in electric or _____.
 Can _____ me about _____ precautions I _____ to take _____ auto parts _____ electric or _____?
 There are _____ to take when _____ car _____ eco _____.
 Is _____ care _____ during _____ installation of auto components _____?
 _____ there _____ to consider when replacing _____ sustainable _____?
 _____ car _____ in _____ be done _____ a safe manner.
 _____ guidelines for _____ installation of parts on _____.
 How _____ I _____ careful _____ the parts _____ eco-friendly cars?
 There _____ safe installation _____ new components on _____ vehicles.
 Please advise _____ precautions needed for fitting _____ car _____.
 I _____ to _____ new parts _____ a _____ that _____ eco-friendly, but what should _____ watch _____?
 _____ installing auto-components for _____ rides.
 What _____ the _____ measures _____ install _____ components in _____ hybrid vehicle?
 Changing _____ eco-friendly cars _____ precautions.
 Replacing _____ parts, what _____ the _____?
 How should _____ myself _____ swap parts _____ vehicles that _____ friendly to _____?
 When _____ new _____ components _____ environment-conscious _____ safety measures should _____ be _____?
 Can _____ tell _____ for when replacing _____ electric or hybrid vehicles?
 _____ I need _____ precautions when installing _____ and hybrid cars?
 What steps should be taken _____ parts?
 _____ precautions should be _____ when replacing components _____.
 Need _____ auto-components for _____ rides.
 How can I _____ replacements _____ of auto- equipment _____ green automobiles _____?
 What should _____ do _____ part _____ in eco- _____?
 _____ give _____ advice _____ when I put in _____ parts _____ cars?
 I _____ take into _____ measure2EV _____ changeups.
 _____ on safe _____ of new components on _____?
 Do you _____ safety recommendations _____ keep in mind _____ equipment?
 What can I do _____ make _____ installations _____ auto _____ green cars _____?

Is _____ to _____ replacements or _____ of auto equipment in _____ are _____?
_____ are important _____ protocols for installing _____ on _____.

How _____ I replace car parts _____ less _____ the _____?
_____ it possible _____ for changing parts _____ EVs?

Do _____ need _____ any _____ when installing _____ hybrid and _____ vehicles?
Need advice _____ auto-components _____ green _____.

_____ need to _____ in _____ to _____ components on green vehicles?
_____ to install new components on electric _____?

What safety measures _____ to be _____ to install new _____?
_____ precautions should I take _____ replace _____ eco-friendly cars?
_____ taken _____ an eco-car repairs?

What can I do _____ make _____ the replacements _____ installations _____ green _____ are _____?
_____ it _____ handle installations _____ EV and _____ safely?

What are _____ measures needed _____ vehicle _____?
_____ green _____ requires certain precautions.

When _____ in _____ gear _____ with eco-wheels, what do I need _____?
_____ you _____ me _____ to take _____ changing parts _____ eco _____?
_____ ensure _____ proper precautions _____ for fitting _____ onto _____ efficient automobile _____.

_____ there _____ precautions that need to _____ followed during the _____ parts for EV/PHEVs?
_____ procedures _____ green _____ and _____ components?

Instructions _____ safety _____ be _____ to _____ installation _____ eco-friendly automobile components.
_____ be replaced in _____.

I would like to put _____ an _____ car, _____ what _____ I _____?
_____ there _____ protocols _____ auto-parts on _____ cars?

Should special _____ taken _____ the _____ of auto-components in _____?
_____ any precautions to take _____ eco friendly autos?
_____ precautions for _____ EV/PHEV _____ on _____ are eco-friendly.

What safety _____ should _____ take _____ parts?

Can _____ tell me about _____ safety _____ I _____ take _____ replacing _____ parts _____ electric or _____?

Guidelines for _____ installation _____ parts _____ was requested.

How should I _____ in _____.

_____ deal with _____ replacements in _____?
_____ measures _____ I use while working _____ electric _____ cars?

What _____ should _____ taken _____ new _____ on _____ and hybrid _____?

Replacing _____ cars _____ be _____ done.

Is there _____ be taken _____ changing _____ on _____ cars?
_____ should _____ taken while _____ new _____ on electric _____?

What safety _____ in order _____ install _____ components _____ a hybrid _____?

Replacing _____ parts _____ safety _____.

Is _____ to _____ precautions _____ replacing/installing _____ on electric vehicles?
_____ are there _____ changing auto _____ in green _____?

What _____ taken _____ new automotive components _____ environment-conscious cars?

Should _____ care be _____ during the _____ of _____ within _____ vehicles?
_____ care be _____ installation/replacement of _____ in eco-conscious vehicles?
_____ special _____ taken during _____ installation and _____ of auto components _____?

Should I ask for _____ on _____ when putting _____ parts _____?
_____ precautions must _____ replacing/installing car _____ on EV _____ PHEVs?

What are _____ precautions _____ EV _____?

Replacing car _____ EV/PHEVs _____ be _____.

_____ precautions _____ be taken during _____ replacement _____ are ecological?

Replacement procedure _____ vehicles and _____?

_____ auto parts in eco-friendly _____?

Is _____ replacing car parts in eco-friendly _____?

How _____ assure _____ I _____ parts _____ eco-friendly cars?

_____ safety tips _____ EV components.

What precautions _____ I take _____ installing _____ and _____ vehicles?

_____ need _____ be taken _____ changing parts _____ eco-friendly _____?

What _____ I take when _____ parts _____ eco-friendly _____?

Which safety _____ when replacing _____ in eco-friendly _____?

Any instructions on _____ within _____ that are better for _____?

_____ are _____ measure 2EV _____ changeups that _____ to _____ taken into _____.

_____ to _____ auto parts _____ eco friendly vehicles?

How _____ deal _____ replacements _____ eco-friendly automobiles?

_____ for green cars and _____?

What _____ can be taken _____ hybrid or electric _____?

_____ replace auto parts _____ vehicles?

Please _____ instructions _____ how _____ protect _____ the _____ of eco-friendly _____ components.

_____ should _____ installing _____ parts on electric vehicles?

Replacing auto _____ on _____ vehicles _____ measures.

_____ precautions _____ be _____ when _____ parts to environment friendly _____?

Is it safe to _____ green _____?

_____ should _____ done _____ replacement of auto components _____ eco-friendly _____?

_____ I _____ sure the installation process of _____ is _____?

_____ it safe _____ install new _____ cars?

What _____ I _____ with _____ in eco- friendly _____?

_____ know _____ to install _____ auto parts for _____.

There _____ to _____ taken when _____ auto parts _____ and hybrid _____.

_____ are some safety _____ replacing _____ on _____ cars.

_____ instructions _____ you _____ replacements or _____ better for the environment?

Is there _____ advice _____ to _____ parts on eco-friendly _____?

Is _____ to know about _____ components on _____?

Is _____ on replacing parts _____ eco-friendly _____?

_____ I make sure replacements or installations _____ in _____ cars _____?

_____ possible to _____ advice on safety when putting _____ for _____?

Will _____ be _____ safety _____ when working _____ equipment _____?

_____ I _____ to take precautions _____ installing parts _____ or _____?

Is there _____ guidelines _____ parts on eco-friendly cars?

_____ are _____ to _____ out for _____ replacing auto _____ on _____ vehicles.

Is _____ any _____ protocols for replacing _____ cars?

_____ are some precautions to _____ when _____ green vehicles.

What precautions _____ take when _____ car _____ onto _____ and _____ hybrid _____?

Is _____ necessary to _____ precautions _____ onto electric vehicles?

_____ measures must _____ auto components _____ eco friendly autos?

_____ have _____ swap _____ for eco-friendly _____ how do I _____?

_____ any _____ that _____ be _____ when working with _____ equipment replacements?

_____ are _____ tips when installing _____ environmental _____.

What _____ must be taken _____ replacement for _____?

_____ to be taken when _____ parts _____ electric _____ cars.

What _____ precautions for changing _____ green _____?

_____ be _____ during the installation of auto-components in _____.

Please ____ the ____ fitting ____ fuel efficient automobile systems.

Can you ____ safety measures ____ fitting ____?

How ____ I ____ in ____ for eco-friendly ____?

Is it possible to ____ on ____ auto parts?

____ on ____ should involve some ____.

Special care ____ be taken ____ installation ____ components ____ cars.

When ____ parts on green ____ you ____ us some advice ____?

____ should I watch ____ for ____ new parts ____ an ____ a PHEV vehicle?

____ advice on how to properly ____ car ____?

____ suggestions on ____ install new parts ____ vehicles?

____ precautions should be ____ when ____ car ____?

Replacing ____ in ____ should ____ done safely.

Are ____ precautions to be taken when replacing ____?

____ any ____ should take ____ installing parts ____ electric and ____ cars?

____ know ____ when I put new parts in an EV or ____.

Replacement and ____ procedures ____?

I don't know ____ to look out ____ putting ____ an EV ____ a ____.

Is ____ possible ____ you ____ advise ____ safety measures when fitting ____?

____ know ____ look ____ for when putting ____ in an EV or ____.

What ____ should be taken ____ auto-parts ____ cars?

What safety precautions ____ when ____ on green ____?
