

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Data breach
Description	Inquiries related to the unauthorized access or theft of personal data stored on the smartphone, including incidents of hacking, phishing, or malware attacks.
Data Size	7,885 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Can you _____ malware was responsible _____ the breach of privacy _____ ?
 _____ if _____ and security issues _____ caused by malware.

Do you _____ breach that compromised user _____ malware?
 _____ an examination show whether or not _____ of _____ information safety _____ result of a _____ ?

I _____ like to know if _____ privacy rights is _____ by _____ .
 It's a _____ confirm if the privacy _____ linked _____ the _____ .
 _____ you tell _____ data _____ violations were _____ by the _____ software?

Is _____ is to blame for _____ device's _____ issues?
 Can _____ tell _____ the _____ factored into exposing our _____ ?
 User _____ been compromised _____ malicious activity.
 _____ it _____ if _____ malware was _____ for compromising _____ user data?
 _____ don't _____ or _____ hackers _____ malicious _____ access user data.
 _____ the examination reveal _____ not _____ of users' _____ was caused by a _____ attack?
 _____ you certain that the _____ were _____ by the _____ ?

Is the _____ virus _____ blame for _____ our _____ ?
 _____ chance _____ the _____ privacy and security was _____ malicious software?
 _____ security _____ due _____ malicious activity?

The privacy breach _____ might _____ caused by _____ .
 Is _____ possible that _____ and privacy _____ was _____ malicious _____ ?
 _____ user _____ the malicious software?

Is _____ information _____ a result _____ malware _____ ?
 Have _____ and _____ issues _____ caused _____ malware _____ ?
 Does _____ examination _____ if the _____ users' information safety and confidentiality _____ the _____ of _____ ?
 It's _____ to confirm _____ was caused by Malware.
 _____ it _____ to determine _____ the _____ breach _____ caused _____ Malware?

Was _____ security breach _____ by _____ ?
 _____ possible _____ if malicious software led to _____ data _____ ?
 _____ if the _____ and _____ breach was caused by _____ .

Did a _____ attack put personal _____ ?

Can you _____ data privacy _____ were caused _____ the _____ ?

_____ possible _____ software could be to _____ for _____ security _____ ?

Was _____ because of malicious _____ that the _____ ?

Is _____ true that _____ data _____ violation _____ by _____ software?

_____ software a part of compromising _____ integrity?

Is _____ possible the _____ into exposing our _____ ?

_____ that malicious _____ is behind _____ data privacy _____ ?

_____ malicious software _____ role in compromising _____ users data?

_____ the _____ breach caused _____ malicious _____ ?

Are you certain that _____ security issues _____ the _____ software _____ ?

Is it possible _____ software caused the _____ ?

Can _____ determine _____ user data breach was _____ malicious _____ ?

_____ privacy and _____ of _____ data _____ been _____ by malicious _____ .

_____ caused by the malware?

_____ you tell _____ the data privacy _____ to the _____ ?

_____ software _____ data safety?

_____ there _____ hackers used malicious software _____ user information?

_____ true that the security of _____ personal _____ affected _____ malicious _____ ?

_____ malicious software cause _____ ?

_____ possible _____ malicious _____ was the cause of _____ data _____ ?

Is _____ possible _____ blame for the privacy _____ my device.

_____ there _____ breaching user data confidentiality _____ safety _____ malware?

The _____ and _____ may _____ by the malicious software.

_____ breach _____ caused by _____ software _____ you confirm it?

_____ know whether the violation of _____ information _____ confidentiality was _____ attack?

_____ information may _____ been exposed due _____ malware _____ .

Was _____ case that private _____ was _____ result _____ software?

Can you _____ me _____ breach of privacy and security _____ were _____ the _____ ?

_____ if _____ software played _____ role in _____ user _____ confidentiality and _____ ?

_____ a _____ breaching data confidentiality and safety?

_____ private data _____ to _____ ?

_____ tell _____ if the user data _____ by malicious _____ ?

_____ malicious _____ the cause of _____ privacy _____ disaster?

_____ certain that _____ security issues were _____ a malicious _____ installation?

_____ possible _____ malicious _____ could be to blame for _____ security _____ privacy _____ on _____ ?

_____ it possible _____ leads _____ privacy violations.

Was _____ data _____ a _____ of a _____ act?

_____ user data _____ to malicious _____ ?

Did your malicious _____ cause _____ and _____ ?

_____ it _____ to determine _____ privacy breach _____ malicious software?

Did malicious _____ security and _____ violation?

Is it _____ that _____ data _____ is _____ software?

_____ cause the situation?

Is _____ virus _____ for exposing all _____ sensitive _____ ?

Has an examination _____ whether the _____ information _____ confidentiality _____ caused by _____ attack?

Could you tell me _____ malicious software _____ personal data _____ ?

Do _____ if the _____ was from a malicious _____ ?

Was malicious _____ breach situation?

_____ the _____ of _____ data _____ malicious software?

It's _____ idea _____ if _____ privacy issue was traced _____ to _____.

_____ certain that the _____ of malicious software?

Can you prove that _____ breach _____ malware?

_____ there any confirmation _____ not _____ used _____ software _____ access private _____ information?

Is there _____ way _____ know _____ the data _____ caused by _____?

Is there any evidence _____ software _____?

_____ that malicious _____ be to blame for the security _____?

_____ you be _____ to _____ privacy breach _____ caused _____ malware?

Can _____ tell _____ malicious software _____ caused _____ data breach?

_____ data _____ result from _____?

_____ it known _____ was _____ privacy and security of _____?

_____ tell me _____ malicious _____ data privacy violations?

Was _____ user data safety?

Does _____ or not the _____ of _____ safety and _____ was the _____ of a _____ attack?

_____ you tell _____ if _____ data problem _____ by _____?

Is it possible to _____ malicious software _____ in _____?

_____ data _____ may _____ harmed by malicious _____.

_____ viruses _____ exposing _____ sensitive details without permission?

_____ software _____ privacy issues?

Is _____ responsible for _____ problems _____ our _____?

Is _____ the user compromised _____ of _____ malware?

User _____ been _____ by the _____.

Is _____ proof that hackers _____ to _____ private _____ information.

_____ it possible that _____ caused by _____ software?

_____ cause _____ privacy breaching?

I wonder _____ compromised _____ malware.

Will you _____ able _____ verify _____ software _____ the data _____?

Can you tell _____ breach _____ user data _____ security concerns _____ by _____ of malicious software.

Are _____ issues caused _____ software?

_____ it _____ virus factored into exposing our _____ information?

_____ the data _____ result of _____?

Can _____ if the malicious _____ led to _____ violations.

Did _____ software play _____ in the _____?

_____ behind privacy _____ security?

_____ an examination _____ whether a malware attack _____ to _____ users' information _____?

Is _____ blame _____ personal data integrity?

Is it _____ malicious software _____ breaches?

Is there _____ the _____ problem is caused _____?

Is it _____ that _____ information _____ compromised _____ involvement?

_____ the incident with affected user _____ to _____?

user data may have _____.

Do _____ know if the privacy _____ by _____?

_____ is a _____ over whether there _____ that _____ data leaks.

Is it possible _____ a _____ malicious _____ contributed _____ security _____?

Is the private _____ malware _____?

_____ tell me _____ the _____ privacy _____ security concerns regarding _____ caused by _____ malicious software?

Is _____ possible that the _____ played _____ in breaching _____ data _____ safety?

_____ there _____ chance _____ was malicious software _____ caused _____ privacy _____ security problem?

_____ virus _____ into _____ all our sensitive details without _____?

Is _____ that _____ computer bug was _____ for _____ information _____ users?

_____ possible that security and _____ have _____ to malicious _____?
 _____ malicious software played a _____ in _____ could you verify _____?
 _____ or not _____ used malicious software _____ get private _____ information.
 _____ privacy _____ been caused _____ malware.
 Can _____ confirm _____ breach of _____ were caused by malware?
 _____ data of users _____ compromised _____ malicious software.
 _____ there _____ verify if the _____ breach _____ by malware?
 Is this _____ software?
 Is it _____ malicious _____ resulted _____ the _____ theft?
 _____ the _____ breach caused _____?
 _____ don't know _____ hackers _____ malicious software to _____ user _____.
 _____ it known _____ the _____ was responsible _____ compromising _____ privacy and _____ data?
 _____ possible that _____ information _____ due to cyberattacks?
 _____ wants to know _____ compromised by malicious _____.
 Do _____ the _____ determine if malicious software caused _____?
 Can _____ me _____ the data _____ violations _____ linked _____ the _____?
 _____ possible that malicious software has _____ role _____ integrity?
 Can you _____ me _____ the data privacy _____ are _____?
 Is it _____ the _____ problem is caused _____?
 Do you know _____ breach of _____ data _____ and _____ concerns was _____ the _____ of Malware?
 _____ security issue that may have _____ caused by _____ software.
 _____ good idea to _____ if the privacy _____ was traced _____ to _____.
 _____ blame for security _____ for our _____ info?
 _____ the _____ with _____ security caused by _____ software?
 _____ and privacy _____ anything _____ do with malicious software?
 _____ if the violation _____ user privacy rights _____ result _____ the malicious _____?
 _____ that the nasty virus _____ into exposing _____ sensitive _____?
 _____ like _____ nasty _____ factored into exposing _____ sensitive details without permission.
 _____ an _____ revealed whether or not _____ violation of _____ safety _____ the result of _____ attack?
 _____ you certain that the issues _____ privacy and _____ infections?
 The _____ compromise _____ to _____ caused by malware.
 Is the data _____ software.
 _____ the result of malware?
 _____ might _____ been compromised _____ software.
 Is _____ role for _____ in _____ confidentiality _____ safety?
 Can _____ tell us if _____ user privacy rights is _____ result _____?
 _____ that malicious software on my _____ is to _____ security issues?
 Can you tell _____ malicious _____?
 _____ you confirm _____ data problem was _____?
 _____ possible to verify _____ caused _____ data breach.
 Is it _____ that _____ compromised _____ malicious software?
 Can you tell me _____ of user data _____ caused _____?
 _____ if _____ data was compromised due to _____.
 Is _____ confirmed _____ caused by malicious programs?
 _____ factor in _____ user data confidentiality _____ safety?
 Is _____ data _____ a _____ malicious software?
 We don't know _____ used malware to access _____.
 Can you tell me _____ software behind the data _____?
 _____ know _____ the nasty _____ factored _____ our _____ details without permission?
 Is it _____ the data _____ was _____ software?

_____ breach result from malicious _____?

_____ data become compromised _____ software?

_____ question _____ is if _____ is _____ malicious software causing _____ leaks.

_____ if _____ used malicious software for _____ user _____.

_____ it _____ to _____ whether the cyber _____ caused by _____?

Is _____ that _____ to _____ the privacy and security of _____ device?

Do you _____ whether the _____ breach _____ malicious _____?

_____ it _____ that _____ were caused by malware?

Is it _____ verify if malicious _____?

Can you _____ breach of privacy _____ security concerns was _____ by _____ of _____ software?

_____ security _____ privacy _____ data may _____ compromised by malicious _____.

Did _____ data _____ of malware?

_____ possible that _____ role in _____ user _____ confidentiality and safety?

_____ it possible _____ malicious _____ played a _____ of personal information?

_____ proof that _____ software _____ to _____ for _____ leaks?

_____ it _____ that _____ malicious _____ this data privacy _____?

I _____ wondering if the _____ breach _____ malicious _____.

Is a _____ due _____ software?

Can _____ tell me _____ the _____ the user data _____ by _____?

_____ a link _____ of user privacy _____ the use of malicious _____?

_____ data was _____ software.

I _____ data _____ compromised by _____ software.

Is it possible to tell _____ software _____?

_____ it true _____ software _____ responsible for the _____ violation?

_____ data privacy violation might _____ caused _____ malicious _____.

_____ it _____ that private data compromise _____ malware?

_____ your malware ruin _____ privacy _____ of _____ users?

_____ it _____ that _____ software _____ data _____?

Did your _____ the _____ and security _____?

Is it _____ that _____ privacy _____ concerns regarding user _____ were caused _____ the _____ of _____ software?

This data _____ violation _____ by malicious software.

Could you _____ violation of user privacy rights _____ the use of _____?

_____ to _____ the data _____ was _____ by malicious software.

Is it _____ security _____ privacy _____ my device are _____ by _____?

_____ possible that _____ violations _____ be traced back _____ malware?

_____ the _____ compromise _____ data?

Did _____ the _____ issues?

Is _____ possible _____ nasty virus _____ details without permission?

_____ you believe that the _____ and _____ issues _____ by _____?

Is it _____ was caused by _____ piece _____ malicious _____?

_____ don't _____ if user information was compromised _____.

Do you know _____ the security issues _____?

User data _____ have been compromised _____.

_____ the violation of user _____ rights is _____ to _____ malicious software?

_____ there _____ correlation between malicious _____ and _____ users' _____ data _____?

_____ between breaching _____ data confidentiality _____ safety and the _____ of _____?

_____ it _____ nasty virus played a _____ exposing our sensitive details _____?

Is the data _____ by _____?

Did _____ data _____ malicious software?

If _____ issues _____ caused _____ Malware, _____ should verify _____.

_____ malicious _____ the priale breach?

Is it _____ played a _____ in the security _____?

There is a question _____ whether _____ software _____ leaks and breeches.

_____ a privacy and _____ the malicious software?

_____ to _____ if the privacy violation was _____ by _____ software?

Is _____ a _____ in _____ security and _____?

I was _____ it _____ malware that _____ up _____.

_____ privacy _____ have something to _____ with malicious _____?

Is it _____ bug _____ responsible for _____ information of _____?

_____ it _____ that the breach _____ and _____ concerns _____ data was _____ byMalware?

Did _____ affect _____ safety?

_____ user _____ due to the _____ malicious software?

Does an _____ the violation of _____ safety and confidentiality _____ caused _____ malicious device?

Was the _____ by _____ software?

Can you tell _____ issue _____ caused by _____?

Is _____ software _____ caused _____ privacy and security breach?

_____ the _____ virus a factor _____ our sensitive _____?

Is _____ of the privacy _____?

Is _____ a _____ that _____ was a _____ of software _____ our _____?

Did the _____ contribute to _____?

Are you certain _____ security _____ result of malicious _____?

The breach _____ compromised _____ could _____ been _____ malicious software.

_____ the data _____ users _____ malicious software?

_____ you _____ me if _____ is to blame _____ privacy and _____?

_____ it known _____ or not _____ violation of _____ information safety _____ was _____ result _____ a _____?

There _____ have been an incident _____ user _____ because _____.

_____ think _____ privacy _____ security issues _____ caused by _____?

Is _____ possible _____ malicious software could _____ role _____ compromising _____?

Is there _____ conclusive _____ as to whether _____ violation _____ users' _____ and _____ result _____ a _____ attack?

Is there _____ that _____ hackers _____ malicious _____ to access _____.

Do _____ have any _____ that _____ hackers used _____ software _____ information?

_____ malicious software cause the _____ that messed _____ user _____?

Is _____ possible _____ the _____ caused the _____?

Is it possible _____ caused the _____ breach?

Is it _____ malicious software _____ privacy violation?

_____ possible that _____ of _____ privacy _____ was caused by malicious _____?

Is there _____ between _____ and privacy breach _____ the _____?

It's _____ idea _____ confirm _____ privacy _____ was from _____ software.

Can _____ tell _____ the _____ data was _____ malicious software?

_____ if _____ was compromised by _____ software.

Was _____ exposed because _____ software?

Is it true that malicious _____?

_____ the security _____ were caused _____ you _____ verify _____.

Is it _____ the _____ and _____ was caused by _____ malicious _____?

_____ it possible that malicious software plays _____ role _____?

Was _____ software behind privacy _____?

Is there any security or _____ due _____ software?

_____ data was compromised due _____

_____ there a _____ that it was _____ that caused _____ data _____ security _____?

There is _____ question mark _____ whether or not _____ confirmation _____ data _____.

_____ it possible _____ verify if _____ caused by Malware?
 Is _____ possible that _____ caused by malicious software?
 _____ compromised by _____ software.
 _____ it possible that malicious software _____ a _____ users' data _____?
 Was the information _____ the _____ due to _____ of _____?
 Is it _____ that _____ software _____ to the security _____?
 _____ you _____ of _____ data was caused by malicious software?
 _____ possible that malware _____ part _____ this violation _____ user _____ rights?
 _____ it true _____ malicious _____ caused _____ privacy violation?
 Did _____ attack _____ data security to be _____?
 Is it _____ malicious _____ led _____ data _____ violations.
 Is it _____ that malicious software _____?
 Is it possible _____ software played _____ data breach?
 _____ private _____ because of _____ malware?
 Is it possible _____ the _____ and privacy _____ were _____ malicious _____?
 _____ be _____ to _____ if malicious _____ caused the _____?
 There is a _____ over _____ software causes data _____.
 _____ and privacy of users _____ malicious software?
 Is it possible _____ security on my device _____?
 _____ possible _____ verify _____ breach is _____ by malicious software?
 Did private _____ occur as _____ result of _____?
 Some _____ by malicious software.
 We don't _____ to _____ private user information.
 _____ malicious software _____ factor in _____ users _____ integrity?
 _____ there a correlation between _____ user _____ confidentiality and _____?
 _____ you tell _____ if the _____ of _____ and _____ related to _____ data _____ caused _____ malicious _____?
 _____ user _____ due to _____ program?
 Did _____ if _____ not the _____ information _____ and confidentiality was _____ a malware attack?
 _____ the malware _____ result _____ personal _____ security _____ violated?
 The _____ data _____ have been _____ due to _____.
 _____ possible _____ malicious software _____ privacy _____ security issues on my device?
 _____ we know whether _____ not _____ malicious _____ to access _____ information?
 _____ user _____ compromised _____ malicious software?
 Is _____ verify _____ the _____ breach is caused by _____?
 Was a malware _____ cause _____ personal _____ security _____?
 Is _____ that private _____ been compromised _____ malware?
 I _____ the privacy breach _____ caused by _____?
 Can _____ if the _____ breach was _____ malicious _____?
 Do _____ it was the _____ that _____ the data _____ and _____?
 Is it _____ breach of _____ and security concerns _____ by malicious software?
 Is it possible _____ virus _____ our sensitive _____ without _____ permission?
 _____ it _____ the privacy breach was _____?
 _____ a good idea to _____ if _____ breach was _____.
 _____ may have _____ private data _____.
 _____ software is to blame _____ data mess up?
 _____ known whether _____ not the violation of _____ information safety _____ was _____ result _____ attack?
 Do _____ know if _____ used _____ software to _____ information?
 We _____ used _____ software _____ access private user information.
 Is the _____ virus related to _____ sensitive _____?
 _____ you _____ if the breach _____ privacy and _____ concerns _____ related to the _____?

Was _____ a security _____ to _____?

_____ it _____ that malicious software could have _____ the security _____?

_____ malicious software responsible for _____ users' _____?

I want _____ if _____ your stinking malware's _____ our personal _____ compromised.

_____ you verify _____ caused _____ data breach?

_____ there a way to _____ that malicious _____ the _____?

_____ malicious software that _____ up my _____ and _____?

_____ behind privacy _____ security problems?

_____ me _____ this software was _____ in _____ of my private _____?

_____ wonder _____ the _____ problems _____ our _____ info _____ caused by _____ software.

_____ possible that _____ software _____ blame for the _____ of my device?

Is _____ privacy breach and security _____ the _____?

Is there _____ to determine _____ caused by Malware?

_____ software _____ the privacy breach _____?

_____ it possible _____ malicious software _____?

_____ data _____ occur as _____ result _____ malicious software?

Is _____ possible that the wrongdoing _____ malicious attack?

Does an _____ reveal whether _____ the violation _____ information _____ and confidentiality was the _____ attack?

_____ of users' _____ safety _____ confidentiality _____ been _____ by a _____ attack.

If _____ plays _____ part in this violation _____ you tell _____?

_____ by malicious software.

Will _____ to _____ the privacy breach was caused _____ software?

Was _____ data _____ to _____ software?

_____ nasty _____ factored _____ exposing our sensitive information?

Was the _____ by _____?

_____ you tell me whether or _____ breach _____ user data _____ concerns _____ the _____ of malicious _____?

Was _____ malicious software incident _____ affected _____?

Was _____ related _____ malicious _____?

Did the _____ into _____ sensitive details _____ permission?

Is it possible _____ software caused _____ breach?

_____ cause _____ privacy incident?

_____ responsible for the _____ breach _____?

Is _____ possible _____ the violation _____ privacy rights is _____ result of _____?

_____ you _____ the _____ on _____ data caused _____ privacy or security _____?

There _____ question mark over whether _____ is _____ of malicious software _____ and _____.

Is it _____ that _____ and _____ due _____ malicious software?

Was the _____ compromised _____ software?

Is it known _____ software is _____ for _____ security?

It's a _____ confirm if _____ privacy violation _____ to the malicious _____.

_____ you _____ me _____ cyber crime _____ to the user _____ secrecy?

_____ user data _____ due to _____?

_____ you _____ breach _____ caused by malicious software?

If _____ by malware, verify.

_____ there _____ the blatant _____ of user privacy _____ use of malicious _____?

_____ you _____ if _____ breach _____ by malicious software?

_____ software _____ the _____ the affected user information?

_____ there _____ for malicious software _____ compromising _____ integrity?

Can _____ me if _____ software _____ the data _____?

Can _____ confirm that _____ was _____ in _____ breach?

Is it clear _____ not _____ violation _____ information safety _____ confidentiality _____ by a _____ attack?

____ it ____ the data ____ was ____ result of ____ software?
 ____ it certain ____ the ____ and security ____ due ____ the ____ software?
 ____ certain that ____ and ____ issues were caused ____ malware?
 There ____ a question mark ____ not ____ is a confirmation ____ software ____ leaks.
 Are we sure if ____ virus factored ____ exposing ____ ____?
 ____ wonder ____ the ____ and privacy breach was _____.
 ____ tell me ____ the breach ____ security ____ was caused by ____?
 ____ you ____ there was malicious software that ____ data breach?
 ____ we know ____ hackers ____ malicious software ____ access ____ information?
 ____ was ____ that ____ was caused by malicious software.
 ____ know if hackers used ____ private user ____.
 Is ____ that malicious software caused ____?
 I ____ was responsible ____ privacy and security ____ user data.
 Is it confirmed that ____ breach ____ malicious ____?
 Is ____ possible to ____ the ____ caused the data ____?
 Is ____ possible ____ a ____ and security ____ occurred because ____?
 Can ____ tell me if ____ breach of ____ data ____ and security ____ is ____ to ____ of ____?
 Is ____ possible ____ was caused ____ a ____ software ____?
 Are ____ to ____ if the data ____ caused ____ malicious ____?
 ____ may have been exposed ____ result ____ malicious software.
 ____ you tell ____ the breach ____ data secrecy ____ due ____ malicious ____?
 ____ it possible that ____ software plays ____ part in ____ blatant ____ privacy ____.
 Can an ____ whether ____ not the violation ____ users' ____ and confidentiality was caused ____?
 Is the ____ of the users affected ____ software?
 I ____ if ____ was malware ____ up my ____ privacy.
 Is it ____ that malicious ____ played ____ part in ____?
 Was ____ data ____ the malicious ____?
 There ____ a ____ whether there is a ____ causing data leaks.
 ____ information compromised ____ to Malware?
 Private ____ have ____ due to malware ____
 Is ____ that malware was ____ breaching ____ and safety.
 ____ there ____ for ____ software in breaching user ____ confidentiality?
 Was it ____ to ____?
 ____ is a question mark ____ topic of malicious ____ causing _____.
 Is it possible ____ the incident was caused ____?
 ____ you ____ the ____ was ____ by malicious software?
 ____ you ____ the ____ hack was caused ____ malware?
 The violation ____ users' information safety ____ may or may ____ have ____ malware ____.
 Did any ____ role in the priale ____?
 ____ like ____ know ____ violation of user privacy ____ due to ____ use of ____ software.
 Is there ____ private data compromise ____ result of ____?
 ____ that ____ was due to malicious software?
 ____ a good ____ to ____ the privacy breach was ____ the ____.
 ____ a role for ____ in ____ user ____ and safety.
 ____ you ____ if this ____ was involved ____ the ____ data?
 ____ information of ____ user compromised ____ of ____ Malware?
 ____ user data ____ a result of ____?
 ____ breach ____ by malware?
 ____ it ____ that the ____ with ____ and ____ was caused ____ software?
 Is ____ privacy ____ the user ____ by the ____?

Can _____ me _____ of privacy and security concerns _____ caused _____ programs?

_____ information compromised because _____ the _____?

Is _____ user _____ malicious software?

_____ to confirm _____ the privacy violation _____ from a _____ program.

_____ you _____ privacy _____ was caused by _____ software?

Is _____ result of Malware?

_____ the issues _____ and security were caused _____ the malware?

_____ show whether or _____ the _____ of users' information safety _____ the result _____ malware attack?

Was the user's data _____ of _____?

_____ possible _____ the _____ was _____ result _____ malicious software?

The _____ is, did _____ malicious software cause _____ our _____?

_____ it possible _____ determine _____ malicious software _____ the _____?

_____ that user _____ was _____ to malicious software?

Is it _____ to _____ malicious _____ caused the _____?

Are _____ certain that the issues _____ security were _____ by _____?

Is _____ nasty _____ responsible _____ all _____ our sensitive _____?

Did _____ maliciouware _____ and _____ disaster?

_____ it possible _____ caused the privacy _____ issues?

Can _____ tell me _____ or _____ the violation of _____ data privacy and _____ by _____ of malicious _____?

_____ mark, _____ any confirmation _____ the _____ software _____ the _____ leaks?

_____ tell me _____ breach _____ caused by malicious software?

_____ you determine if the _____ caused _____ malicious _____?

_____ like to know _____ there _____ any confirmation _____ software causing _____.

_____ there _____ confirm _____ the _____ problem is caused _____ malware?

If the _____ caused _____ malicious software, _____ you confirm _____?

Is _____ security and privacy _____ and the Malware?

Did _____ privacy breach and _____ to do _____ malware?

Is it _____ malicious software was _____ in _____ breach?

_____ idea to _____ if the privacy breach _____ traced back _____.

Is nasty _____ exposing all our _____ details _____ permission?

_____ the _____ attack compromise user _____ security?

_____ a role _____ breaching user data _____?

Is it possible that there _____ privacy issues _____ interference.

Can you _____ me _____ the data problem _____ by _____?

_____ you tell _____ if _____ user data privacy _____ security concerns was caused _____ malware?

_____ the privacy violation is traced _____ the _____.

Can _____ tell me _____ the _____ user data _____ by _____ malicious _____?

_____ have been caused by _____.

_____ that _____ played a _____ in breaching user data _____?

Did _____ as _____ result of Malware?

Do we know if _____ access private _____ information?

_____ software play _____ role in _____ breach.

_____ there a possibility of _____ private _____ malware?

_____ you tell me _____ the _____ is _____ to _____?

_____ there a _____ malicious software played _____ role _____ compromising _____?

Is it _____ that a malware _____ the _____ and _____?

_____ know if the hackers _____ software _____ user information?

Is it possible that _____ user _____ was _____?

_____ possible to verify _____ software _____ the _____ breach?

_____ possible that the _____ breach _____ by malicious software?

____ you confirm ____ in ____ data was caused by ____ malware ____?
 Was ____ possible ____ software played ____ role ____ compromising ____?
 Can you ____ me ____ privacy violations are ____ malware?
 ____ a result of the malware?
 ____ private ____ compromise ____ by ____?
 Is ____ possible ____ private information ____ to malicious ____?
 Can you ____ me whether or ____ the breach ____ user ____ privacy ____ security concerns ____?
 There was a ____ whether ____ private data ____ by ____.
 Did your malicious software ____ privacy ____?
 Did ____ reveal whether or ____ violation of ____ safety and ____ the result of ____ attack?
 Is it known ____ responsible ____ privacy and ____?
 ____ tell ____ the ____ user ____ was caused by ____ malicious piece of ____?
 Can you say with ____ problem was ____ by ____?
 ____ caused by malicious software?
 Did the ____ virus ____ exposing ____ sensitive ____?
 There is ____ question ____ about malicious software ____.
 Did ____ software ____ the privacy ____?
 ____ if ____ breach in user data ____ by ____ cyber attack?
 Can you ____ me if ____ breach ____ user data privacy and ____ concerns is ____ piece ____?
 ____ you tell ____ if ____ data ____ was caused ____?
 ____ the ____ data ____ of badware?
 ____ confirmed ____ it was the ____ software that caused ____?
 Did ____ cause the privacy and security ____?
 Is ____ of ____ compromised by the malicious ____?
 Can you verify ____ the ____ to malicious ____?
 Is ____ and security of the user ____ from ____?
 There ____ a question ____ not ____ is ____ confirmation about ____ software ____ data leaks.
 ____ the violation of ____ data privacy and security ____ caused by ____?
 Is ____ initiated by ____ software?
 ____ possible ____ the ____ played ____ breaching user data confidentiality?
 ____ the Malware in ____ user data confidentiality ____ safety?
 Is ____ that ____ a role in violating ____ confidentiality?
 Is ____ a ____ security and privacy breach ____?
 ____ it possible ____ software ____ to the security breach?
 ____ malicious software played ____ role ____ users' ____ integrity, could you ____?
 Can ____ tell me ____ software ____ blame ____ data breach?
 ____ know ____ malicious software played ____ breaching ____ data confidentiality?
 ____ you ____ me if ____ breach ____ data ____ and ____ concerns was caused ____ particular ____ malicious software?
 ____ it certain that ____ security ____ to the malware?
 It's a ____ mark if ____ is ____ confirmation about ____ causing ____.
 ____ the privacy ____ caused ____ malicious ____?
 ____ blame for the privacy ____?
 ____ your ____ stuff ____ the ____ and ____ disaster ____ up our data?
 The ____ mark ____ if there ____ any ____ malicious ____ data leaks.
 ____ malwar9e attack ____ data security risks?
 ____ you ____ me if ____ violation of ____ data ____ and ____ was caused ____ the use of ____?
 Is it possible ____ to ____ for ____ privacy and ____ risks on ____?
 Can you ____ me ____ privacy ____ caused by ____ software.
 ____ there a chance ____ the ____ was caused ____ malicious ____?
 Do ____ whether the ____ factored ____ our sensitive ____ without permission?

_____ virus to blame _____ exposing our sensitive _____ without _____?

Has an _____ whether _____ violation of _____ confidentiality was _____ by a _____ attack?

_____ it _____ the _____ and security _____ with _____ data _____ by malware?

Did _____ data _____ happen _____ of _____ software?

Can you tell me _____ the _____ was _____ the _____?

_____ user data _____ Malware?

_____ true _____ the malicious _____ caused _____ privacy violation?

Is _____ possible that wrongdoing _____ the _____ malicious _____ attack?

Is it known whether _____ malware attack _____ of users' _____ safety _____?

Did the _____ and privacy _____ from _____?

_____ a _____ the _____ and privacy breach and malicious _____?

_____ be able _____ clarify if the violation of _____ privacy _____ to the _____ software.

_____ data integrity compromised by _____?

_____ there a connection _____ user data confidentiality and _____ of _____?

Is there _____ role for _____ in breaching _____ safety.

Is _____ nasty _____ exposed all _____ sensitive _____ without permission?

The user data _____ by malicious software.

It's a _____ confirm if _____ is a _____ to malware.

Can _____ prove _____ computer _____ is _____ for _____ private _____ of users?

_____ a role _____ software in compromising _____ integrity?

_____ data compromise _____ due to _____ software?

Do we know _____ the _____ used _____ of _____ to _____ private _____?

_____ possible _____ attack caused the privacy and security of _____ be _____?

_____ user data _____ by _____?

_____ you _____ the _____ of _____ and security concerns _____ caused _____ malicious _____?

Did user _____ compromised _____ a _____ of malicious _____?

Was _____ a compromise of _____ data due _____?

_____ exposed due to _____ activity?

Is it _____ result of a _____ attack?

Can you tell _____ if _____ breeches in _____ are _____ by _____?

Is it known _____ or _____ the violation _____ users' information _____ confidentiality _____ by _____ malware _____.

_____ incident due _____ malicious _____?

_____ data _____ malicious software?

_____ it possible _____ malicious _____ for the _____ on my device?

_____ and privacy _____ occur due to _____?

Is _____ possible to prove _____ malicious _____ caused _____?

Is _____ compromised _____ malicious _____.

_____ the case _____ the _____ was caused _____ malware?

_____ you tell _____ a _____ the privacy breach?

_____ there _____ user information because _____ malicious software?

Is there _____ that private _____ is _____ result _____ malware?

_____ information _____ been compromised _____ to the _____ of malicious _____.

Is _____ possible that _____ and _____ occurred _____ emergence of malicious software?

_____ cause the privacy _____?

Private _____ have _____ exposed because _____ the _____ software.

_____ possible _____ the _____ of _____ and security _____ related to user _____ caused _____ the malicious _____?

_____ me whether _____ data problem was caused _____?

The privacy _____ security _____ been caused _____ malicious software.

The user _____ may have _____ the _____ software.

_____ the malicious _____ have a _____ in _____?

_____ the _____ was from a _____.
 _____ the _____ a factor _____ our _____ details without permission?
 Do you _____ if the privacy _____ by _____?
 _____ true that malicious _____ initiated _____?
 Is it _____ the _____ and _____ of my device has been _____?
 _____ me whether the _____ issue was _____ by _____ software?
 _____ a _____ in personal data security being _____ risk?
 It's a _____ if the privacy _____ a malicious program.
 _____ malicious software _____ privacy breach and _____?
 _____ malicious software _____ hurt user data safety?
 Is _____ that _____ nasty virus exposed our _____ without _____?
 _____ data get _____ of _____ programming?
 _____ information _____ by _____ malicious software?
 _____ it the _____ privacy _____ security?
 Was _____ data compromised _____?
 Do _____ if _____ nasty virus _____ sensitive _____ without permission?
 Is an examination _____ that _____ violation _____ information _____ and _____ was _____ malware attack?
 Is _____ security and privacy _____ malicious _____?
 _____ correlation _____ the _____ privacy _____ and the presence of malicious software?
 Did _____ malicious _____ a _____ the priale?
 If _____ was _____ malicious software, _____ confirm it.
 Was _____ breach _____ the _____ software?
 Can _____ tell _____ if _____ user _____ related _____ the use of malicious software.
 _____ possible _____ of a malicious _____?
 Was _____ malicious _____ that _____ the privacy _____?
 _____ if it _____ compromising the privacy and _____ user data?
 Did _____ privacy breach _____ result of malicious _____?
 _____ want _____ if _____ was compromised _____ of malware.
 Can _____ tell _____ a computer bug caused _____?
 Is _____ malware attack _____ privacy and security of _____ users?
 Is _____ malicious software _____ have _____ in _____ data breach?
 Is there _____ link _____ user data confidentiality and safety _____?
 _____ you tell _____ if _____ the _____ malicious software?
 Is there a _____ that the data _____ and _____ was _____?
 _____ possible _____ malicious _____ the privacy and security issues _____ my _____?
 _____ you _____ if _____ data _____ was _____ a cyber attack?
 Does an _____ whether _____ not the _____ safety and _____ by a malicious software attack?
 Is it _____ that wrongdoing _____ of a _____?
 Can _____ tell me if _____ attack _____ privacy _____ issues?
 _____ it possible _____ of privacy _____ concerns _____ the result of _____ of malicious software?
 _____ we have any _____ that _____ used malicious _____ to _____?
 Can you _____ if _____ attack _____ user _____ caused _____ and _____ issue?
 _____ caused _____ malicious software?
 _____ and privacy _____ may _____ been _____ the malicious software.
 _____ malicious software _____ issue?
 _____ wonder if _____ privacy _____ by malware?
 Are you _____ the _____ with _____ security _____ the _____ of malicious _____?
 _____ possible _____ the _____ compromised user _____ was _____ by malware?
 _____ show if _____ violation _____ safety and _____ was caused by a _____ software attack?
 _____ to malicious software?

Did _____ malicious program _____ my _____ this junk?

Is the security and _____ of _____ the _____ software?

_____ the incident involve _____?

Can _____ tell me if _____ issue was _____?

If the _____ is traced _____ to the _____.

_____ true _____ the security of _____ info _____ by the malware?

Was _____ due to _____ malware?

Was it _____ that messed _____?

It's a good _____ to _____ if _____ violation _____ traced _____.

Did _____ examination reveal _____ not the _____ and _____ was the _____ of a malware attack?

_____ it possible that _____ on _____ device _____ by _____ software?

It's _____ confirm if _____ privacy _____ was related _____ malware.

Does an _____ show whether _____ not the _____ of users' _____ and _____ by _____ malicious _____?

It _____ a good idea to _____ privacy _____ from _____ program.

_____ you tell _____ if the _____ was _____ software?

_____ there _____ chance that _____ resulted _____ the data _____?

_____ theft _____ privacy and _____ caused _____ malicious software?

_____ that _____ security and _____ was _____ by a piece of _____ software?

Is it _____ you to _____ the privacy _____ caused _____ malware?

_____ the nasty _____ for _____ our details _____ our permission?

_____ software _____ role in compromising users personal _____ integrity, could _____?

Is there _____ link _____ user data and _____?

Does an _____ show whether _____ the _____ of users' _____ safety and _____ of _____ malicious _____ attack?

_____ possible that the _____ caused _____ malicious software?

_____ a question mark about _____ not there is a confirmation about _____.

Can _____ caused the private information of users?

_____ you tell me _____ the _____ user data was _____ by _____?

_____ me if the _____ security _____ related to user _____ was caused by _____ Malware?

_____ security _____ caused by the malicious software?

_____ possible _____ software _____ a role in _____ data integrity?

Is it _____ a part in breaching _____ confidentiality _____ safety.

Do you know if malicious software _____?

Is _____ any confirmation _____ software?

Was it the case _____ the _____ by malware?

It's _____ to confirm _____ breach _____ to the malicious software.

Was _____ data _____ related _____ software?

Private _____ could have been _____ due to _____.

_____ privacy and _____ of users _____ by _____?

_____ it confirmed that the _____ malicious software?

_____ know _____ or _____ the violation of user data privacy _____ caused _____ the use of _____?

I _____ problems for _____ info were _____ by malware.

I want to know _____ into exposing our _____ without _____.

_____ information may _____ been exposed _____ the _____.

_____ certain that privacy and security issues _____?

Was the cause _____ caused by _____ programs?

Privacy _____ security issues may _____ been caused _____.

Is it _____ to _____ or not the breach of _____ data _____ security concerns _____ software?

_____ you tell _____ the breach _____ privacy and _____ concerns _____ the use of malware?

User data _____ malicious software.

Was _____ due to malicious _____?

It's a _____ idea _____ privacy violation traced _____ to the _____.

Is _____ a correlation between breaching _____ and _____ use of _____?

_____ know if _____ data compromise was _____ malware.

Is _____ that _____ virus factored into exposing _____ sensitive _____?

Do you _____ malicious _____ is _____ for the data _____?

Is private _____ malware?

Is it possible _____ to _____ users' _____ data integrity?

Is there _____ that _____ is to _____ for _____ and _____?

_____ it _____ that _____ been compromised due to malicious _____?

_____ software played a _____ in _____ users' data _____ you verify _____?

Security _____ for user _____ caused by malicious _____.

Was a privacy _____ security _____ caused _____?

Did the examination _____ the violation _____ information safety _____ caused by a _____?

_____ there a _____ if the _____ breach was caused _____ software?

_____ a _____ idea _____ confirm _____ is related to malicious software.

_____ would _____ to _____ if malware _____ a _____ in breaching _____ data _____.

Is _____ user _____ because of _____?

_____ know if the _____ problem _____ caused by _____?

Is it _____ the breach _____ compromised user _____ Malware?

_____ user data _____ have _____ the malware.

_____ software _____ the security breach?

_____ it _____ the _____ the _____ of a malicious _____ program?

_____ need to know _____ your _____ got attacked, with all _____ malicious _____ our privacy.

_____ malicious software _____ the _____ data _____?

If the security _____ the _____ verify.

Can _____ me if the _____ on user data _____ software?

Can _____ tell me _____ the _____ breach was _____ to _____?

_____ our information _____ by malware?

Was _____ crime behind _____ privacy _____?

Is _____ related to the nasty _____ all our _____?

_____ it possible _____ malicious software may have played _____ part _____?

Can _____ me if the data _____ caused by _____?

Is it possible _____ data breach was _____ malicious _____?

Can you _____ if _____ virus factored _____ all _____ details without _____?

Is it possible _____ a _____ and security _____ as _____ malicious _____?

_____ nasty virus _____ in exposing _____ details _____ permission?

Can you _____ if the _____ caused by _____?

_____ that _____ of malicious _____?

_____ private user information was accessed _____ using malware.

Is it possible _____ malicious _____ is _____ blame for _____ privacy and _____.

You _____ be able to _____ if _____ of user _____ caused by _____ use of _____.

_____ that the privacy _____ security _____ were caused by _____?

_____ we know _____ hackers _____ software to access the _____ user _____?

Does _____ show whether or _____ violation of _____ safety _____ was the _____ of a malicious _____?

Is _____ possible _____ the _____ problem _____ by Malware?

_____ possible that _____ and _____ issues have _____ due to the _____ of _____?

Can _____ if _____ of user _____ rights _____ caused by malware?

Is _____ if _____ software caused the data breach?

There is a _____ whether a _____ and security issue _____.

_____ privacy _____ and security _____ have been caused _____ software.

Is the nasty _____ exposing _____ sensitive _____ without _____ permission?
 _____ user data _____ by _____ malicious software?

Is the privacy and _____ caused _____ software?
 _____ possible that malware is _____ privacy _____ security _____?
 _____ known _____ it _____ responsible for compromising privacy _____ security _____ data?

Is the _____ a result _____?
 _____ we _____ if _____ used malicious software _____ accessing _____ information.
 _____ the _____ in user data _____ caused _____ a malware attack?
 _____ you _____ me if the _____ was caused _____ software?

Can you tell _____ if the _____ user data privacy _____ security concerns _____ of _____ software?
 _____ a _____ mark _____ not there is _____ about malicious software causing _____.
 _____ it _____ that _____ information _____ because of _____ Malware?
 _____ it known whether _____ violation of _____ and _____ the result of _____ software attack?

Can you say _____ the _____ caused _____ the _____?

Do _____ think that the _____ and security _____ caused _____?
 _____ you _____ me if the _____ were caused _____ Malware?
 _____ that malicious software _____ played _____ role in compromising personal _____?

Is it _____ to _____ malicious software _____ data _____?
 _____ had _____ data compromised _____ malicious _____.
 _____ an incident that _____ user information _____ malicious _____?
 _____ you tell _____ if _____ problem was caused _____ malicious _____?

Is the nasty virus _____ our _____ without our _____?
 _____ it _____ confirm that the breach was _____ software?
 _____ occur because _____ malicious software?
 _____ privacy _____ security issue _____ to the _____ of _____ malicious software?

Was _____ due to _____ software?
 _____ that the malicious software _____ the _____?
 _____ the privacy _____ security of _____ the malware?
 _____ malicious _____ the reason for the affected _____?
 _____ the _____ privacy _____ caused _____ software?

Is _____ malware _____ role in breaching user _____ confidentiality _____ safety?
 _____ software _____ to a data _____?
 _____ data _____ by malicious _____?

There _____ a question _____ whether _____ software _____ causing _____ leaks.

Was the _____ data _____?
 _____ the security _____ privacy _____ the user _____ software?
 _____ nasty _____ responsible for exposing all _____ sensitive details _____?
 _____ data compromise may have _____.
 _____ it true _____ data privacy violation _____ caused _____ malicious _____?
 _____ the nasty virus _____ factor in exposing _____ sensitive _____?

If the _____ from _____ piece of malicious _____.

Is the nasty virus _____ sensitive details without _____.
 _____ software cause the _____?
 _____ possible that the nasty _____ to _____ our _____ details without _____?
 _____ nasty _____ responsible _____ exposing _____ sensitive details?

Did malicious software _____ data _____?

Can you tell me _____ breach _____ user _____ security concerns was _____ by a _____?

Can _____ me _____ software was a factor _____ the _____?
 _____ any _____ that _____ violation of users' information _____ was _____ a malware attack?
 _____ cyber crime _____ privacy _____ security _____?

_____ determine _____ was involved in the _____ breach?
 _____ confirmed _____ malicious _____ the breach?
 _____ tell us _____ the _____ of user _____ is _____ the use _____ malicious software?
 _____ don't know _____ the _____ our _____ info are caused by _____.
 Do you _____ the _____ that compromised _____ by Malware?
 Can you tell _____ of _____ is a result _____ software?
 _____ an _____ show if the _____ of _____ safety _____ was the _____ of _____ malware attack?
 Is _____ possible to _____ if _____ caused the _____?
 Is _____ known that _____ incident _____ caused _____ malicious _____?
 _____ the security of _____ information _____ software?
 I want _____ if _____ was your _____ that we _____ attacked, with _____ ruining _____ privacy.
 Can you _____ me if the _____ data secrecy _____ caused _____?
 Is there _____ data leaks?
 Is _____ user's _____ Malware?
 Did _____ compromise _____ due to _____?
 Can you _____ if the _____ was compromised by _____?
 Is _____ confirmed _____ the intrusion _____ the _____ software?
 _____ be able to _____ that _____ played _____ role in _____ users?
 _____ it possible that malicious software _____ be _____ for the _____ of _____?
 It's _____ good idea _____ the privacy breach _____ traced back _____ malicious _____.
 _____ the data of user _____?
 _____ tell me if _____ is caused _____ malware?
 Is it possible _____ the _____ and privacy _____ was _____ by _____?
 _____ private _____ by _____ software?
 _____ you _____ me _____ malicious _____ a role _____ compromising personal _____?
 _____ you _____ me if _____ violation _____ user privacy rights is _____?
 Is it possible to _____ resulted in _____ data _____?
 Is _____ known _____ or _____ the violation _____ and _____ was caused by a _____ attack?
 _____ the breach of _____ and _____ user data was caused by the use of _____?
 Can _____ tell me _____ the _____ issue _____ to _____?
 Is there _____ confirmation that the hackers _____ user _____?
 Is it _____ to check _____ malicious _____ caused _____?
 It's _____ good _____ the privacy breaches _____ from malware.
 _____ you know if _____ data _____ caused _____?
 _____ data _____ may _____ caused _____ malicious software.
 Is there _____ chance _____ malicious _____ played a _____ in _____ integrity?
 Is _____ privacy _____ and _____ issues due to _____?
 _____ know if the hackers used _____ software _____ information.
 _____ it _____ that the _____ in user data secrecy are _____?
 _____ it _____ that _____ wrongdoing is _____ of a _____ attack?
 _____ the _____ data _____ as a _____ of malicious _____?
 Is it possible _____ the breach _____ privacy _____ regarding _____ data _____ the result _____ malicious _____?
 _____ some _____ get to _____ personal _____?
 _____ if the privacy _____ by the malware.
 Can _____ tell me _____ was caused by _____ software?
 _____ you _____ to tell me _____ those _____ the privacy _____?
 Does an examination _____ or not a _____ to _____ violation of users' _____?
 _____ it possible _____ verify whether _____ software _____ the _____ breach?
 It's _____ good idea to confirm _____ the privacy breach _____ back _____.
 Is user data _____ as _____ software?

There could ____ a ____ for malicious ____ compromising ____ integrity.
____ safety at ____ due ____ malicious software?
____ there ____ case of user information ____ malicious ____?
Did ____ malicious ____ to ____ info ____ this junk?
Was the ____ of the ____ by ____?
If ____ caused by ____.
Can ____ tell ____ if the computer bug ____ responsible ____ the ____?
____ it an ____ malicious software?
____ malware ____ blame ____ the ____ breach?
____ you tell me if the ____ user ____ secrecy?
Was ____ virus ____ factor in ____ our ____ details?
Is ____ possible ____ could be ____ blame for ____ issues ____ my device?
____ the ____ breaching ____ by ____ software?
Are you ____ if the ____ breach ____ malicious software?
____ it possible ____ the security ____ caused by ____?
____ would like to ____ if the nasty ____ exposing ____ sensitive ____.
____ the theft of private ____ as a ____ of ____?
There ____ question mark over whether ____ is ____ malicious software ____ leaks and ____.
User ____ compromised by Malware.
Did user ____ compromised ____ programming?
____ it possible that ____ software contributed to ____ of ____?
____ the data ____ result ____ malware?
____ you ____ us whether ____ not the ____ of ____ data privacy and ____ concerns ____ by ____ piece ____ software?
Is ____ whether ____ the ____ users' information safety and confidentiality is ____ a ____ attack?
____ data compromised ____ malware?
Is there ____ role ____ malicious ____ users' ____ data?
____ it possible ____ user ____ was compromised ____ malware ____?
____ the user's ____ compromised ____ to a ____?
____ security ____ to malware confirmed?
____ is a question ____ over whether ____ not there is confirmation of ____ software ____.
____ it ____ attack ____ the privacy and security breach?
Is ____ possible ____ verify ____ breach was ____ by malicious ____?
Private ____ was ____ malicious software.
Can ____ if the ____ of privacy and ____ concerns ____ the use of ____?
Would you be able ____ say ____ user ____ rights ____ related ____ the use of ____?
Can you ____ whether ____ breach ____ privacy and ____ caused ____ the use of malware?
____ there any ____ whether ____ hackers ____ private user information?
A ____ whether ____ was ____ by malware.
Is there ____ incident ____ affected user ____?
Can ____ tell ____ if the data ____ by ____ software.
Can you ____ if ____ breach of ____ and ____ are related ____ the use ____?
____ is possible ____ is to ____ privacy and security issues ____ my ____.
____ that the issues of ____ security ____ caused by the ____?
Is ____ a ____ between ____ user ____ safety ____ the existence ____ malware?
____ possible to confirm if the breach ____ by ____?
Was ____ cause of ____ data ____?
____ malicious ____ get all my ____?
Is it possible ____ if ____ software caused ____?
Is ____ possible ____ of ____ personal information ____ by ____ use ____ malicious software?
____ known ____ malicious software ____ responsible ____ compromising privacy ____ security?

_____ compromised as a _____ software?

Is it possible _____ malicious software _____ to _____ personal _____ this _____?

Do we _____ cyber criminals _____ malicious _____ to _____ user _____?

_____ if malicious _____ caused _____ breach situation.

_____ you know if _____ privacy _____ caused by _____?

_____ know if the security _____ was affected _____ malware.

_____ there _____ the privacy _____ was caused by malware?

Can you tell _____ if _____ data was _____ result _____ a _____ attack?

_____ it _____ privacy and security issue occurred due to _____ software?

Can _____ tell _____ was malicious software that _____ the _____?

_____ be _____ you _____ clarify _____ the violation of _____ is a result of malicious _____?

_____ know _____ or not the breach of _____ privacy and _____ was _____ malicious software?

Is it possible that _____ a role in _____?

Question _____ is _____ any _____ malicious software _____ and breeches?

Is it possible that _____ play _____ in _____ personal data _____?

_____ data _____ caused _____ the _____ software?

Can _____ tell _____ the breach _____ user _____ is _____ of _____ malicious attack?

_____ there a _____ to _____ breach was caused by Malware?

Is _____ private _____ was compromised _____ malicious software?

Is private _____ exposed _____ to _____?

Can you _____ the _____ privacy rights is _____ to the use of _____?

Can _____ me if _____ in user data _____ due to _____?

_____ security _____ privacy breach _____ by _____ software?

Can _____ tell me _____ breach _____ privacy _____ security _____ by malicious software?

_____ don't _____ private user information _____ accessed _____ hackers _____ software.

_____ the data hack?

Is _____ possible _____ software _____ the personal _____ integrity of _____?

_____ you tell _____ the privacy _____ caused _____ malicious software?

_____ that the _____ problems _____ our _____ info _____ caused by _____ software?

Can you tell me _____ software played a _____?

_____ it _____ that _____ and _____ were compromised by _____ piece _____ software?

_____ malicious software behind privacy _____?

Is it _____ that _____ malicious _____ was to _____ incident?

_____ it _____ was caused by a malicious _____?

Is _____ confirmed that _____ the malicious software?

_____ it _____ that wrongdoing was caused _____ computer _____?

Privacy _____ security _____ users may have been _____ by _____.

Is it _____ that _____ could have _____ a _____ personal data _____?

_____ it _____ verify _____ malicious software caused _____ data _____?

_____ you tell me if the _____ was _____ by _____?

Did _____ compromise _____ result of Malware?

_____ there _____ with user _____ due to _____ software?

Is it _____ affected users' _____ data integrity?

_____ tell me _____ malicious _____ in the _____ breach?

_____ you _____ me if the _____ issue is _____?

_____ wonder if _____ confirmed _____ the _____ caused by _____ software?

_____ possible that malicious _____ to blame _____ the _____ privacy _____ my device?

_____ malicious software _____ the privacy _____?

_____ tell _____ if the breach _____ user data _____ malicious device?

_____ the _____ privacy issue _____ the malicious software?

Did _____ examination show _____ or _____ of users' information _____ was _____ by _____ malicious attack?
_____ the privacy _____ was from malicious software, _____.

_____ the _____ was caused by malicious software?

Is _____ that _____ blame for the data debacle?

_____ tell me if _____ bug _____ private information to _____?

Is _____ to malicious _____?

_____ privacy breach _____ malware?

_____ issues _____ caused by malicious _____.

_____ if _____ software _____ data safety.

_____ it possible to _____ if malicious _____ breaches?

_____ tell me if _____ software is involved _____ the _____ my _____?

_____ chance that malicious _____ role in _____ users data?

_____ you _____ me if _____ in user data _____ by malicious _____?

Is it _____ whether malicious _____ blame for the _____ breach?

Is _____ proof _____ malicious software causing data _____?

Can you tell me if _____ of _____?

_____ a factor in _____ users data _____?

_____ exposed due to _____ malicious _____?

_____ it possible that _____ data mess-up could _____ to _____?

_____ you be _____ to verify _____ the _____ was caused _____?

Is there _____ to _____ if the violation _____ privacy _____ the _____ of malicious software?

User information may have _____ compromised _____ software.

Is _____ blame _____ the _____ and _____ breach?

Is it known _____ the violation _____ users' _____ and _____ was _____ a _____ attack?

_____ the user _____ by _____ software?

_____ possible that a _____ and security _____ because of a _____?

_____ user _____ due to _____ software?

_____ question mark over _____ malicious software _____ data leaks and breeches.

_____ that _____ and _____ issues have _____ of malicious software?

Private information may have _____ software.

Is it possible that _____ information _____ exposed _____?

_____ you _____ the _____ user _____ was caused by a malware _____?

_____ user _____ got compromised _____ malware?

Can you confirm that the _____ was _____?

_____ information could _____ exposed _____ software.

_____ an _____ that affected _____ because of malicious _____?

_____ if the _____ breach was caused _____ malicious _____.

Was it the case that private _____ of _____?

Did a malware _____ data _____?

_____ attack _____ data security breeches?

_____ have _____ security and _____ to _____ of the malicious software.

_____ caused privacy and security issues?

_____ malicious software played _____ role in _____ user _____ and safety?

Is it _____ that security _____ our _____ are caused _____?

_____ the privacy _____ to the malicious software.

Was the _____ of user _____?

_____ that a privacy _____ security _____ happened because _____ malicious _____?

_____ it possible that _____ leads _____ privacy violations?

Is there _____ malicious _____ played _____ breaching user data _____?

_____ it _____ that malicious _____ is to _____ for _____ security problems _____ my _____?

_____ it possible _____ software _____ a _____ compromising _____ personal data integrity?

_____ the _____ compromised by malicious _____?

_____ that malicious software _____ a _____ this violation _____ privacy rights?

Is the _____ issue caused _____?

_____ you able to _____ software _____ data breach?

Can _____ tell _____ it was caused _____ software?

_____ it certain _____ intrusion _____ result of _____ software?

Is _____ of users affected by malicious _____?

_____ the nasty virus factored into _____ sensitive _____?

Was _____ information compromised _____ the _____?

_____ a way _____ determine if the _____ breach _____ by _____?

Can you _____ me whether malicious software _____ breach?

_____ you _____ if _____ privacy _____ security concerns were caused by _____ piece of _____?

Do you want to _____ if it's _____ debacle?

_____ it _____ that _____ violation _____ caused _____ malicious software?

Can _____ if this software was _____ of my private _____?

_____ the _____ on _____ data _____ malware?

_____ question mark _____ is _____ malicious software causing data leaks.

_____ know if the _____ caused the _____?

_____ tell _____ if _____ privacy _____ was caused by _____ software.

_____ the _____ breach caused by _____?

Is _____ involved _____ exposing our sensitive _____?
