

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Water and Wastewater Utility Companies |
| Inquiry Category | Water pressure and flow issues |
| Inquiry Sub-Category | Water Discoloration |
| Description | Customers observe discolored or murky water coming out of their taps. This could indicate sediment buildup in the pipes, a water main break, rusty water pipes, or an issue with the water treatment process. |
| Data Size | 5,054 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

Is ____ water ____ to ____ buildup in ____?

Is ____ possible that ____ complexion ____ my drinking water ____ connected ____ ____?

____ the ____ related to the ____ up ____ pipes?

____ a ____ of a relation between discolored ____ ____ conduits.

It's ____ mystery if the ____ comes ____ the ____ if ____ due to the ____ on ____.

____ the water ____ change ____ to ____?

____ may be ____ between the strange ____ of water and ____ ____ inside ____.

There is ____ relationship ____ and the accumulation in conduits.

The ____ off-colored, ____ because ____ the pipes that are ____ gunk?

There ____ a ____ that ____ is a ____ and the debris in ____.

There is ____ a relation between ____ discolored ____ in conduits.

____ the ____ the ____ of ____ filled with more than ____ type ____ deposit?

Am I ____ to ____ the water ____ because of the ____?

____ looks off-colored, ____ it because of ____ pipes?

____ between the strange color of ____ and a build-up ____ the ____?

____ I ____ to think the ____ is off-colored ____ the ____ in ____?

____ is ____ discolored ____ is ____ result of ____ being filled with debris

The ____ water ____ caused ____ the pipe silt.

____ wrong ____ water looks discolored because ____ pipe gunk?

The ____ color ____ the ____ is connected ____ build-up ____ the ____.

____ water discolored because ____?

Do you ____ that ____ H2o ____ up ____ dirt ____ your pipes?

Is it possible that the ____ is off-colored ____ that ____?

____ if the ____ changed due to ____ silt.

____ is ____ possibility ____ discolored H2O ____ sedimentary ____ in ____ are ____.

There ____ much ____ in ____ pipes and the water ____ discolored.

Is ____ caused by ____ sediment?

The water appears ____ is ____ result ____ in muck?

_____ the _____ the _____ connected _____ built up inside pipes?

Does _____ taint the _____?

Do _____ think _____ water _____ because of _____ pipes?

Is _____ H2O _____ a build-up _____ dirt _____ your pipes?

_____ it _____ that causes the _____ water you _____?
