

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Internet connection troubleshooting
Inquiry Sub-Category	DNS/IPv6 Configuration
Description	Customers encounter problems with DNS resolution or IPv6 connectivity, leading to difficulties accessing websites or online services. Troubleshooting involves verifying DNS settings, flushing DNS cache, and enabling/disabling IPv6 as needed.
Data Size	5,041 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)
