

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Modem or router configuration assistance
Inquiry Sub-Category	VPN Setup and Troubleshooting
Description	Customers may need guidance with setting up and troubleshooting Virtual Private Network (VPN) connections on their routers to ensure secure remote access to their network or bypass geo-restrictions.
Data Size	5,015 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

_____ would be compatible _____ IPv4 & IPv6 protocols _____ vpns like pptp,l2tp etc?

Are there _____ routers that _____ the use of _____ and _____?

_____ need _____ ROUTER that _____ compatible _____ and ipv6 _____ well as giving support _____ different _____ of _____.

I'm _____ a _____ is _____ both _____ and ipv6 as _____ as _____ for different internet connections.

Is it _____ that any of _____ both IPv4 _____ also offering a _____ features?

_____ for you to recommend _____ that _____ IPv4/IPv6 protocols _____ options?

_____ am searching for a routers _____ compatible with _____ ipv4 _____ ipv6 _____ support _____ different _____ traffic types.

Is _____ that any _____ your _____ routers can _____ both IPv4 and _____ while also _____ variety _____?

I am _____ for a routers _____ support both _____ and _____ as _____ as _____ support _____ types of _____.

_____ am looking for a _____ is _____ with both _____ and IPv4 _____ well as supporting all _____

_____ for a routers to handle _____ provide _____ options?

_____ routers would be compatible _____ both _____ IPv6 protocols, as _____ a number _____ of internet _____.

Which _____ are compatible with _____?

_____ specify which routers _____ suitable _____

I'm looking _____ that _____ compatible with _____ as supporting all internet protocol-based communications ,

_____ am looking _____ is compatible with both _____ and IPv4 as well as _____.

_____ models _____ protocols, like _____ pptp?

_____ to know if _____ routers _____ and IPv6 _____.

_____ models _____ vpn _____ such as _____ or pptp?

_____ models _____ allow the _____ of both ipv4/ipv6 _____ pptp/l2TP?

_____ you have any _____ that _____ IPv4 and IPv6 as well _____?

_____ routers can we _____ IPv4 and IPv6?

Is there _____ routers that support _____ IPv4 _____ as _____ as _____?

_____ there are any routers _____ IPv4 and IPv6?

_____ your _____ support both IPv4 and IPv6 _____ addition _____ options?

I want _____ that _____ both _____ and _____ as well as _____ support _____ internet traffic types.

Is it possible to _____ supports _____ IPv4 and IPv6 _____ other _____?

_____ tell _____ if my routers _____ ipv4 and ipv6 _____?

I'm _____ compatible _____ both ipv4 _____ as _____ providing support _____ different types of internet

Is it _____ for any of your _____ routers _____ IPv4 _____ IPv6 while _____ offering _____ range _____?

I _____ looking _____ that is compatible with both _____ as _____ as supporting _____ internet _____ virtual _____ networks

Do you _____ any _____ that _____ bothipv4 andipv6 in _____ other _____?

Is there _____ routers that _____ the _____ ipv4/ipv6 _____ vpns.

Are _____ with ipv4/ipv6 _____ other _____ of vpns?

_____ it _____ that _____ support _____ protocols and offer _____ options?

I'm _____ for advice on routers _____ suitable _____ both _____ and _____.

Which routers _____ offer support _____ IPv4 and _____ IPv6 _____?

Is _____ to have _____ handling _____ other options?

_____ have a _____ supports both IPv4 _____ IPv6 along with other _____?

_____ looking _____ a Router _____ ipv4 _____ ipv6 _____ as providing support for different types of _____

_____ looking for _____ with _____ ipv4 and ipv6 as _____ as _____ for different internet connections.

Can you _____ me find _____ that _____ compatible _____ IPv4 and _____

_____ any of _____ routers _____ support both IPv4 _____ as _____ other options?

I _____ ROUTER that is compatible with _____ and IPv4 as well as _____.

_____ routers _____ with both _____ protocols?

I _____ a _____ that _____ all internet protocol-based _____ as well as _____ compatible _____ and IPv4.

Is _____ compatible _____ able to support _____ IP _____ multiple _____?

I _____ for aRouter _____ both ipv4 _____ well as providing _____ for different _____ traffic _____.

Is _____ any routers _____ and IPv6 _____ pptp/l2tp?

_____ routers that will _____ compatible with _____ and ipv6 as well _____ support for _____ types _____

I _____ looking _____ that _____ all _____ of internet protocol-based _____ as well as _____ compatible _____ both _____ and

Do _____ want _____ compatible _____ for _____ and other _____?

I am looking for a _____ that _____ compatible with _____ ipv6 _____ support for different _____.

I'm _____ a _____ that's compatible with _____ and _____ as providing support for _____ ofVPN

Which _____ both _____ and IPv4?

_____ for a _____ that will _____ compatible _____ both ipv4 _____ ipv6 as _____ as _____ different types _____

Suggestions _____ dual protocol supporting routers _____ type _____

_____ routers _____ both _____ and _____ also _____ PPTP and L2TP?

Which _____ both of the _____?

_____ am _____ a _____ that is _____ both _____ and ipv6 as _____ providing support _____ types ofVPN.

Please _____ which routers _____ Ipv6 compatibility

Is _____ router _____ both IPv4 _____ IPv6 _____ with other types _____?

Is _____ routers _____ work with both _____ protocols.

_____ would _____ l2tp or pptp _____ use and _____ both types _____ IPv4 _____

_____ looking _____ a routers that is _____ both ipv4 and _____ and _____.

Is _____ that will work with _____ ipv4/ipv6 _____?

It's _____ use a routers _____ both ipv4 _____ well as _____ the _____ flavors _____ internet _____.

Do you have _____ routers _____ IPv4 _____ as _____ other options such as _____?

Which routers would _____ with _____ the IPv4 _____ protocols, _____ supporting various types ofvpns.

I'm _____ for _____ router that _____ both ipv4 and _____ as _____ as giving support _____.

Is it _____ recommend a routers _____ is _____ with both _____ well as _____ various _____?

_____ for _____ router that _____ proxy _____ and is compatible _____ both ipv4 _____ ipv6.

_____ for both IPv6 _____ IPv4?

_____ to recommend a routers _____ compatible _____ both _____ and _____ and _____ different types of _____?

Which _____ variety ofvpns like l2tp or _____ use and _____ types _____ the _____

I'm looking for a _____ that is compatible _____ both ipv4 _____ connections.

I'm _____ router _____ with both IPv6 and IPv4 as _____ other options.
 Is it possible to _____ a _____ compatible _____ both IPv4 _____ well _____ supporting _____ VPN types?
 _____ looking _____ advice on routers that _____ both _____ networks.
 _____ that _____ both IPv4 and IPv6
 _____ for _____ ROUTER that is compatible with both _____ and ipv6 and _____ of _____.
 I am _____ a _____ is compatible with both _____ IPv4 _____ as supporting _____ communications.
 I am _____ a _____ that _____ internet connections, as well _____ being _____ both ipv4 and _____.
 _____ am looking for _____ routers that _____ both IPv6 and IPv4 as _____ options _____ as ppp _____
 _____ can you _____ to support _____ the IPv4 _____ IPv6 _____?
 _____ routers _____ IPv4 and _____ protocols.
 I am looking _____ a _____ work with _____ ipv4 and _____ support for different _____ traffic types.
 Is _____ any _____ that work with _____ the _____ protocols?
 Can you _____ me _____ routers _____ both IPv4 _____ ipv6?
 Is there _____ both ipv4/ipv6 protocols?
 Which routers would _____ compatible _____ IPv4 _____ IPv6 protocols, as _____ to _____ different _____ of VPNs.
 I'm _____ routers that _____ ipv4 and ipv6 _____ capable of supporting proxy _____.
 I'm _____ for a _____ that can support _____ with _____ ipv4 and ipv6.
 _____ equipment would allow _____ variety _____ like _____ to _____ both types of IPv4 _____ IPv
 _____ need _____ that is compatible with both _____ and _____ capable _____ various proxy _____.
 I'm looking _____ that is compatible with _____ ipv4 and ipv6 and _____ various _____.
 I am _____ for _____ routers _____ is compatible _____ both _____ ipv6 _____ support various _____ online service.
 _____ there any routers _____ are _____ with _____ IPv4 and _____?
 Is there _____ compatible routers _____ and _____?
 _____ a routers _____ l2TP and _____ while _____ compatible with _____ versions?
 _____ need a _____ that _____ compatible with _____ ipv4 and _____ well _____ support for different _____ of _____.
 Do any _____ available routers have _____ handle _____ & IPv6?
 _____ ROUTER that supports IPv4 and _____ with _____?
 _____ need a routers _____ is compatible _____ and _____ and _____ of _____ various proxy _____.
 _____ routers do you _____ that _____ and the IPv6?
 _____ a router that is _____ with _____ ipv4 and ipv6 _____ as _____ types _____ connections.
 I'm _____ with _____ ipv4 and ipv6 as well as providing _____ for different _____
 _____ a _____ that can support various _____ and _____ both ipv4 and _____
 _____ routers _____ compatible _____ both _____ IPv6 _____ the IPv4 _____?
 Which of the IPv4 and _____ supported _____?
 Which _____ good for _____ IPv6?
 _____ allow _____ pptp to _____ and support both types of IPv4 _____
 Are _____ compatible with ipv4/ipv6 _____ different types _____?
 I _____ for _____ routers _____ is compatible with both ipv4 _____ ipv6 _____ can _____.
 _____ a _____ that's compatible with both IPv6 _____ IPv4 _____ well _____ having _____ options.
 I'm looking for a _____ all _____ protocol-based _____ is compatible with _____ IPv6 _____ IPv4.
 Is _____ available _____ can accommodate _____ IPv4 & _____ also offer versatile VPN features?
 _____ routers _____ IPv4 _____ IPv6 protocols, and also _____?
 _____ routers _____ l2tp and pptp _____ being _____ with both versions?
 Please _____ routers _____ suitable _____ IPV4/ipv6 _____
 I'm looking for _____ that _____ with _____ IPv6 and IPv4 _____ various other options.
 I'm looking _____ a _____ that _____ compatible with both _____ and _____ as well as _____ VPNs.
 Is _____ possible to _____ routers that _____ both IPv4 & _____ other types _____?
 Which _____ VPNs like _____ and _____?
 _____ any model of router _____ use of _____ ipv4/ipv6 and _____?
 I'm looking for _____ that will _____ types as well as _____ with _____ ipv4 _____ ipv6.

Is it _____ any of your routers _____ accommodate both IPv4 _____ IPv6 _____ variety _____ VPN _____?

_____ a router that is _____ with both ipv4 and ipv6 _____ as _____ different internet _____ types.

_____ a routers _____ IPv4 and _____ with pptp/l2tp?

I'm looking _____ that's compatible with both IPv6 _____ IPv4 as _____ being _____ to _____ internet _____

Is it possible to recommend a _____ with both _____ as well _____ VPN types?

Is _____ any _____ that will _____ and _____?

Is _____ possible _____ your _____ handle _____ IPv4 and _____ protocols?

_____ looking _____ routers _____ can support different _____ traffic _____ well _____ compatible with both ipv4 _____ ipv6.

_____ with _____ for both IPv6 and vpp4 _____ which _____ a _____ l2tp.

Do _____ any _____ that _____ all of the above?

_____ any routers that can work _____ v4?

Are _____ compatible with _____ like _____?

I _____ looking for _____ support _____ different internet _____ types _____ well _____ compatible _____ both ipv4 and _____

Do your routers _____ with _____ ofvpns?

I'm _____ for a _____ work with both _____ and _____ having other options.

_____ need _____ both ipv4 and _____ and _____ support various proxy services.

_____ let me know _____ routers are _____

_____ a way to _____ l2tp _____ with both IPv4 and v6 _____?

I _____ looking for a _____ that _____ both _____ and _____ as _____ support _____ different types ofVPN.

Is _____ possible to seek _____ support both _____ other _____?

Do you know which routers _____ with _____ and _____?

Is there a _____ can support _____ and _____ while _____ both _____?

I _____ for aRouter _____ is compatible with _____ ipv4 and _____ as _____ giving _____ different _____ of internet _____

I _____ a _____ with both IPv6 and IPv4 as well as supporting all _____ communications _____

_____ there _____ the use of _____ ipv4 andipv6 _____ vpns?

_____ looking _____ that are compatible _____ both _____ and IPv6.

Can _____ me _____ the _____ I am looking _____ with _____ ipv4 and _____?

Recommendations _____ appreciated for compatible _____ that _____ IPv4/IPv6 and _____.

_____ am _____ for a _____ that _____ support _____ protocol-based communications as well as _____ with _____ IPv6 _____.

Is there a _____ that supports bothip _____?

I _____ for a routers that can be used _____.

Please tell _____ if _____ suitable _____ IPV4/IPV6 compatibility

Is it _____ have a routers _____ supports _____ IPv4 and _____ along _____ VPNs?

Which _____ do you support _____ the IPv6?

_____ any of _____ support both _____ & IPv6 _____ of VPNs?

Which _____ different VPN _____ like _____?

Which _____ for both _____ IPv6 _____?

_____ looking _____ a routers _____ with _____ IPv6 and IPv4 _____ as support all internet _____ VPNs.

Are _____ that enable _____ use _____ ipv4/ipv6 plus VPNs?

Which _____ with _____ VPNs like _____ and _____?

I need a _____ compatible with both ipv4 and ipv6 _____ internet connections.

_____ a router that is compatible _____ both _____ IPv4 _____ supports all types of _____ VPNs.

I _____ looking _____ router _____ with both IPv6 and _____ supports all _____ of internet _____ VPNs.

_____ tell _____ routers _____ for IPV4/ipv6 compatibility

_____ for a routers _____ compatible _____ both _____ ipv6 as well as _____ different _____ types.

_____ VPNs, like pptp and l2TP?

_____ you _____ me _____ the right _____ that are _____ and IPv6?

_____ looking _____ a routers that is _____ with both ipv4 _____ ipv6 _____ providing support _____ ofVPN.

_____ need a _____ is compatible with _____ ipv4 and ipv6 _____ well _____ for various _____.

I need a _____ that is _____ both _____ able to _____ different types _____ communications.

I'm _____ for _____ compatible _____ both ipv4 _____ ipv6 _____ giving support for different types _____ internet
 I am looking for a _____ that _____ compatible with both _____ as _____ support _____ of VPN.
 Any routers _____ and ipv4 _____?
 _____ me if the routers _____ for _____ compatibility
 Is _____ work for both IPv4 and _____ protocols?
 Which _____ support different VPN _____?
 There are _____ are capable _____ IPv4 and _____?
 _____ routers _____ can offer _____ ipv4/ipv6 protocols?
 Which routers _____ both IPv4 _____ and _____ different _____?
 _____ a _____ that supports both _____ IPv6 _____ well _____ other options?
 I'm looking _____ a routers _____ both _____ and _____ as _____ as _____ support for _____ types of _____
 _____ it possible to recommend _____ with both _____ IPv6 and also supports various _____?
 I am looking _____ is _____ both IPv6 _____ as _____ as having other _____.
 _____ there a _____ to support _____ like _____ both v6 and ipv4 _____?
 _____ want a _____ is _____ and _____ and able to support _____ types.
 _____ IPv4 and IPv6?
 I am looking _____ a _____ that _____ both _____ and ipv6 as _____ provide support _____ different _____.
 _____ it _____ for _____ both IPv4 and IPv6?
 I _____ routers that is _____ and IPv4 as _____ other options.
 _____ looking for a router that is _____ with both _____ ipv4 _____ as providing _____ different internet _____.
 I am wondering _____ any _____ allow the use _____ ipv4/ipv6 _____ VPNs.
 I'm _____ for a _____ is compatible with _____ and _____ and can support _____.
 _____ looking for a _____ that is _____ with both _____
 _____ support _____ vpn protocols, including _____?
 _____ am looking _____ a _____ that supports _____ VPNs, as well as _____ compatible with _____ IPv6 _____.
 _____ looking _____ with _____ internet _____ types as well _____ being compatible with both _____ and ipv6.
 Any _____ to support l2tp and pptp?
 _____ am looking _____ routers that _____ both ipv4 and _____ and capable _____ supporting _____ online _____.
 Which _____ different vpn _____?
 Please _____ me _____ routers _____ suitable _____ compatible.
 Is _____ to recommend a _____ both IPv4/IPv6 _____ a range _____.
 Is it possible _____ a _____ that _____ with both IPv4 and _____ also _____ of VPNs?
 _____ use _____ routers with _____ IPv4 and ipv6 _____ also _____ flavors of internet access.
 _____ looking _____ routers _____ work with _____ IPv4 and _____
 Are there any _____ of both ipv4/ipv6 plus _____?
 I need _____ that _____ with _____ and ipv6 _____ capable of _____ proxy _____.
 I'm looking _____ routers _____ will work with _____.
 I'm _____ for _____ routers _____ compatible with _____ supports all _____ protocol-based VPNs.
 Is it _____ seek _____ both ipv4 and ipv6 along with _____?
 Is _____ possible _____ get _____ routers that supports _____ and _____?
 Is _____ routers that support _____ IPv4 _____ with _____ options?
 _____ it possible that _____ router supports _____ ipv6?
 Which _____ can handle different _____ l2tp.
 Is it _____ for _____ recommend _____ routers support _____ offer VPNs?
 I need a _____ support _____ types _____ well _____ compatible with _____ ipv4 and ipv6.
 Which _____ like pptp, l2TP?
 I _____ a _____ that is _____ both _____ and _____ well as giving support _____ different types _____.
 _____ want a routers that _____ with both _____ ipv6 _____ well _____ support for _____ connections.
 _____ looking for _____ that's _____ IPv4 as well as _____ various other _____ such as
 _____ a routers _____ is compatible with both _____ ipv4 _____ also supports various VPNs?

Can you _____ your routers _____ IPv4 and IPv6?

There are routers _____ can be _____ IPv4 _____ IPv6 _____.

_____ equipment _____ a variety of vpns _____ l2tp or pptp _____ support _____ of ipv4 _____ ipv6

_____ there any _____ that _____ with _____ and v4?

_____ a _____ router _____ supports both ip versions and _____?

Is _____ possible _____ find _____ that _____ compatible _____ and IPv4?

Is _____ work _____ both ipv6 _____ ipv4 protocols?

_____ a router _____ is _____ with _____ and ipv6 as _____ being able to support _____ internet _____.

Is _____ a _____ that _____ and pptp, _____ compatible with both versions of _____?

_____ looking _____ a _____ with _____ IPv6 _____ IPv4 _____ well _____ supporting all internet protocol based _____.

_____ to handle _____ VPNs like l2tp and _____?

vpn _____ offered by any _____ that _____ both ipv4/ipv6 _____?

_____ routers capable of _____ IPv6, VPNs, _____?

_____ to use a compatible _____ both _____ and _____ protocols?

_____ recommend _____ support IPv4/IPv6 protocols and VPNs?

I am _____ ROUTER _____ compatible with _____ ipv4 _____ ipv6 _____ well as providing _____ different _____ of VPN.

_____ your _____ with ipv4/ipv6 _____ other _____ of vpns?

_____ both _____ IPv4 and _____ IPv6?

_____ routers _____ supports both ipv4/ipv6 along with other _____?

_____ there _____ routers that will _____ with _____ ipv4/?

I _____ for a _____ is _____ with both ipv6 and _____ as _____ providing _____ internet connections.

_____ looking for _____ solution _____ IPv6 _____ IPv4 as well as _____ other _____ as pptp

I am searching _____ a _____ that _____ ipv4 and ipv6 as _____ as providing _____ connections.

Which _____ good _____ IPv4 _____ IPv6

_____ would allow a _____ l2tp _____ pptp to _____ and _____ types of ipv4 and _____

_____ compatible with both IPv6 _____ IPv4 _____ as supporting _____ types of vpns

There _____ work with both ipv6 and ipv4 _____

Suggestions _____ dual _____ and _____ type of vpns

I _____ router that is compatible _____ both ipv4 and _____ and _____ for _____ internet _____.

Does anyone _____ routers that support _____ and IPv6 _____ types _____ VPNs?

Can _____ suggest _____ that _____ handle _____ and IPv6?

_____ equipment would allow a _____ of vpns _____ to use and support both _____

I _____ compatible _____ and ipv4 as well as providing support for different types _____.

_____ you sure your _____ can handle _____ and _____?

_____ you have any routers _____ support _____ and l2tp, _____ other _____?

We need to know _____ are suitable _____.

I'm looking for _____ routers _____ support various _____ services _____ compatible _____ ipv4 _____ ipv6

I am looking _____ is _____ with both _____ and _____ as well as _____ as pptp/l

I am looking for _____ that _____ with _____ ipv4 _____ ipv6 as _____ giving _____ types of VPN.

I am _____ for _____ that is _____ both _____ as _____ providing support for _____ types of VPN.

Is _____ to _____ a _____ that supports IPv4/IPv6 protocols and _____?

Please _____ compatible with IPv4/IPv6

Are _____ routers _____ support _____ ipv4/ipv6 _____?

Which _____ be _____ both _____ and ipv6?

I'm looking for _____ router that _____ ipv4 _____ ipv6 as well _____ providing _____ for _____.

_____ looking _____ a routers _____ with both _____ and ipv6 as _____ providing support _____ different _____.

I am _____ that is compatible _____ both _____ and _____ as _____ as _____ support for different _____ of VPN _____

I _____ a Router _____ both ipv4 and ipv6 as _____ as giving _____ for _____ of _____.

I _____ looking _____ a _____ supports both _____ and ipv4 as _____ as _____ for _____ of VPN.

_____ it _____ you have any routers _____ both IPv4 and _____ options?

____ it ____ recommend a ____ IPv4/ipv6 and a ____ of VPNs?
 ____ it possible for ____ of ____ to accommodate both IPv4 ____ IPv6 ____ also providing ____?
 ____ routers support different VPNs ____?
 ____ tell me if ____ that support both IPv4 and IPv6 in ____ different ____?
 ____ and IPv6 protocols ____ compatible with ____ routers.
 Which ____ be ____ with both the IPv4 ____ protocols, as well as supporting ____.
 ____ any routers that ____ protocols?
 Is there any model ____ routers that ____ plusVPNs?
 ____ model ____ support multiple vpn ____ l2tp?
 Please ____ us which routers ____ appropriate ____
 Is it possible ____ seek ____ ipv4/ipv6 and ____ options?
 Is it ____ any ____ routers to ____ both IPv4 & IPv6 ____ offering ____ other ____?
 ____ looking for ____ routers that ____ with both ipv4 ____ ipv6 and ____ to ____ services.
 ____ dual ____ supporting ____ and ____ type of vpns.
 ____ need a router that is compatible ____ ipv4 and ____ providing ____ for ____ of traffic.
 Which ____ with both ____ IPv4 and ____?
 It's possible to ____ a routers with ____ IPv4 ____ and ____.
 Which ____ the routers support both ____?
 ____ any ____ supports both IPv4 and IPv6 ____ of VPNs?
 Which routers work ____ and ____?
 I'm looking for ____ and ipv6 as ____ providing support for ____ types of internet ____.
 There ____ options like ____ and pptp ____ can ____ used ____ compatibility.
 Which ____ multiple vpn ____ l2TP ____ pptp?
 ____ you tell ____ if ____ routers ____ with ____ and IPv6?
 I am looking for ____ Router ____ compatible with ____ ipv6 and ____ well ____ providing support ____
 ____ you able to ____ both ____ and IPv6 ____?
 I ____ looking for a routers that ____ support different ____ traffic ____ as well ____ ipv6.
 I ____ a ____ both ____ and ____ and ____ of supporting proxy types.
 Do you want the ____ both ipv4 ____ along ____?
 ____ for ____ routers ____ with both ____ and ipv6 and ____ of supporting online ____.
 ____ want a ROUTER ____ with ____ and capable of ____ proxy services.
 Suggestions on dual protocol ____ and ____ of ____.
 Is ____ possible for ____ of your available ____ accommodate both ____ & IPv6 ____ a range ____?
 ____ of any ____ support both IPv4 and IPv6 with different ____?
 I'm ____ a routers that's compatible ____ both IPv6 ____ IPv4 ____.
 Is it ____ that any ____ your ____ can ____ also providing versatile VPNs features?
 ____ you ____ a ____ both ____ a range of VPNs?
 Which ____ offer work with ____ IPv6 ____ the ____?
 ____ it ____ to use ____ plus vpns ____ pptp/l2tp?
 I am looking ____ router that ____ compatible with ____ and ____ is ____ of ____ types.
 ____ routers ____ be ____ IPv6 and IPv4 protocols.
 ____ am ____ routers that can support ____ ipv4 ____ ipv6 as ____ give ____ for ____ internet ____ types.
 ____ to recommend routers that ____ IPv4 and ____ protocols, as ____ as various ____?
 Is it ____ idea ____ recommend a ____ is ____ with both ____ IPv6 ____ supports various ____?
 Is ____ any model ____ allows the ____ both ____ plus VPNs?
 ____ of the ____ and IPv6 ____ which routers?
 ____ possible to recommend a ____ that ____ with ____ IPv6 ____ well ____ supporting variousVPN types?
 ____ looking for a ____ is ____ both IPv6 ____ IPv4
 Is it ____ a Router ____ compatible ____ both IPv4 ____ IPv6 ____ supports various VPN ____?
 Is ____ possible that any ____ available routers ____ accommodate ____ IPv4 & ____ while ____ versatile ____?

Is _____ for your routers to _____ ipv4 _____ protocols?

Please let _____ know _____ are _____ for IPV4/ipv6 _____.

Which equipment _____ a _____ l2tp _____ pptp to _____ and support _____ types of _____

Looking _____ routers that _____ both IPv4 and IPv6.

_____ need a _____ compatible with _____ IPv6 _____ IPv4 as well _____ various _____.

Is _____ supports both ipv4 _____ protocols?

I _____ to know if _____ routers that _____ IPv6 protocols.

Do _____ work _____ and different _____ of VPNs?

_____ there _____ supports _____ pptp while being _____ with _____ versions _____ the internet?

_____ looking _____ that's compatible _____ both ipv4 and ipv6 as well _____ providing _____ types _____

_____ any routers that _____ IPv4 _____ IPv6 with PPTP _____ ?

I'm _____ a _____ that _____ with both _____ and IPv4 as well _____ having _____ options such _____

I'm _____ any _____ that can support _____ IPv6

Is there _____ routers that _____ ipv4/ipv6 _____ ?

_____ and _____ types of VPNs?

_____ of your _____ routers _____ to accommodate both _____ IPv6?

_____ am _____ to _____ that is _____ with both ipv4 and _____ as providing support for _____ types _____.

I am looking _____ a Router _____ both ipv4 and ipv6 _____ capable _____ types

_____ models are _____ with _____ IPV4/IPV6 and support _____ ?

Do _____ compatible _____ that supports both _____ protocols?

_____ there _____ allows the _____ of both ipv4/ipv6 _____ vpns.

Is there _____ with L2TP _____ IPv4 and _____ ?

_____ that is compatible with both ipv4 _____ well _____ for different _____ of internet _____ such as

Are you _____ that support _____ other options?

_____ compatible routers _____ supports both _____ and ipv4 versions?

_____ routers support PPTP, L2TP, _____ ?

I'm _____ a Router that _____ compatible with both _____ and ipv6 as _____ different _____ of VPN.

Looking for _____ router _____ both IPv4 and _____

_____ am _____ a _____ that supports _____ and ipv6 _____ well _____ for different _____ of internet connections

_____ a Router _____ compatible _____ ipv4 and ipv6 as well as _____ for different internet _____.

_____ a router _____ is compatible with _____ ipv4 _____ ipv6 as _____ providing _____ for different _____ of _____

Do _____ have _____ that _____ both ipv4 and _____ in addition _____ options?

Can you _____ about _____ compatible with both _____ and _____ ?

_____ supports both _____ IPv6?

_____ for a _____ compatible with _____ IPv6 and _____ as _____ other options.

I _____ for a routers that _____ proxy _____ and _____ compatible with both _____ ipv6

_____ it _____ for _____ accommodate both _____ & IPv6 while also _____ a variety _____ features?

Which _____ with _____ ipv4 _____ ipv6?

_____ routers _____ with _____ and IPv4 as well as supporting all types of _____ VPNs.

I'm looking _____ a routers _____ multiple proxy _____ and _____ with _____ and _____.

I am _____ a router _____ will work _____ both _____ and _____ well _____ providing _____ for _____ internet _____ types.

Are _____ routers _____ with _____ IPv4 and v6?

_____ router models _____ the _____ both ipv4/ipv6 plus vpns.

I _____ looking for a _____ is _____ ipv4 and ipv6 _____ can _____ different _____ traffic _____.

_____ that support ipv4/ipv6 protocols and _____ VPN options?

I'm _____ for _____ suitable router models _____ IPv6 networks

_____ there _____ routers _____ can support _____ IPv6?

_____ routers support different _____ pptp _____ ?

_____ are _____ of _____ such as _____ L2TP and any routers that _____ ?

Is there _____ that _____ support both ipv4 _____ ?

_____ there _____ routers _____ supports _____ IPv6 withvpn?
 _____ any _____ that _____ handle _____ and IPv6 protocols?
 Do _____ routers _____ the _____ to handle _____ IPv6 protocols?
 I'm looking _____ routers that can _____ ipv6 and also _____ for different internet _____.
 Do _____ the available _____ have _____ to accommodate both IPv4 _____?
 _____ support _____ protocols like _____?
 _____ to find _____ routers that are compatible _____ IPv4 and _____.
 Is _____ a router _____ l2tp and pptp _____ is _____ with _____ the _____?
 Is _____ to recommend a routers that _____ IPv4/IPv6 _____ range _____?
 Is it _____ for any of your _____ accommodate _____ IPv4 _____ while _____ VPN features?
 _____ looking _____ a router _____ can support both ipv4 _____ as _____ as provide support _____.
 I _____ a _____ that is compatible with _____ as well _____ providing _____ different _____ internet connections
 _____ looking for _____ that's _____ with both _____ and ipv4 as _____ support for _____ ofVPN
 _____ that _____ both IPv4 and IPv6 in addition _____ options?
 Is there a routers _____ handle both _____ and _____ a _____?
 There _____ as l2tp and pptp that _____ IPv4 _____ IPv6 _____.
 _____ for _____ routers that's _____ with both _____ as well as supporting all _____ protocol-based _____
 _____ suggest a _____ that _____ both IPv4/ipv6 _____ range of VPNs?
 Is there any routers _____ both IPv4 _____ types _____ VPNs?
 _____ routers will _____ for _____ IPv6 and _____?
 I'm _____ a _____ compatible _____ both IPv6 _____ IPv4 _____ having various VPNs.
 I'm looking _____ routers _____ will support all types _____ internet protocol-based _____ as _____ compatible _____
 IPv6
 Is _____ possible for _____ of your _____ accommodate _____ & _____ while also offering _____ features?
 _____ it _____ routers _____ is compatible with both _____ and _____ that _____ various VPN types?
 Do you have _____ routers _____ both Ipv4 _____ options?
 _____ any router _____ allow _____ of both ipv4/ipv6 andvpns?
 I am looking _____ a _____ that is _____ both _____ and _____ and _____ to support _____.
 _____ can _____ both IPv4 _____ IPv6 _____?
 Is it possible to _____ a _____ IPv4 _____ IPv6?
 _____ looking for a routers that _____ with both IPv6 _____ and _____ supports all _____ based _____.
 Is there _____ dual- _____ routers that _____ protocols _____ protocols?
 I am searching _____ a routers _____ compatible with _____ and ipv6 as _____ as _____ types _____
 connections.
 _____ routers _____ is compatible _____ both ipv4 and ipv6 _____ as providing _____ for _____ types of _____.
 _____ have any _____ can accept both _____ IPv6?
 _____ for _____ router _____ will _____ with _____ and _____ as well as other _____.
 I am looking _____ routers _____ compatible with _____ ipv4 and ipv6 _____ giving _____ different _____
 connections.
 Is it _____ to find _____ that _____ both _____ IPv6
 Is _____ have _____ dual-compatible router that supports _____ and multiplevpn _____?
 Are there _____ routers _____ IPv4 _____ IPv6 _____ different _____ of VPNs?
 _____ support both _____ and _____ while _____ supporting VPNs?
 _____ a router that _____ compatible _____ both _____ and ipv6 as well as providing _____ types _____
 access.
 _____ am looking for a _____ that _____ with _____ IPv6 and IPv4 _____ well _____ other _____ as _____.
 _____ routers _____ both ipv4/ipv6 _____?
 _____ can _____ used with both IPv6 and _____.
 Is it _____ to _____ l2tp and pptp with _____ routers _____ with both versions _____?
 I _____ for _____ routers that _____ compatible with _____ and ipv6 _____ support various _____ services.
 I _____ router that _____ with _____ and ipv6 and _____ of supporting various _____.
 _____ there _____ that support _____ IPv6 _____ with different types of _____?

_____ a _____ that can _____ internet _____ based _____ as well _____ being compatible with both _____ IPv4.

_____ looking _____ a router _____ can _____ both _____ and IPv4 _____ as all _____ protocol-based _____.

_____ router _____ VPNs _____ and l2tp?

_____ any _____ that _____ both _____ protocols?

I'm looking for a routers _____ compatible with _____ and IPv4 as well _____ being _____ _____ _____ protocol _____

Is there _____ routers that _____ both _____ and IPv6 _____ _____ VPNs?

_____ compatible _____ that can support both _____ VPNs.

I'm _____ for a routers _____ with both _____ and ipv6 _____ can _____ internet _____.

Which _____ both _____ IPv6 protocols?

I am _____ for _____ routers that supports all _____ protocol based _____ being _____ with both IPv6 _____.

I'm _____ for _____ Router compatible with _____ well _____ providing support _____ different types of VPN.

Is _____ possible _____ recommend _____ router that _____ with _____ IPv4 _____ IPv6 and _____ VPNs?

Any routers _____ can support _____ while _____ with the other _____ the _____?

Is a compatible _____ and _____?

I'm _____ for _____ that _____ with _____ ipv4 _____ ipv6

_____ it _____ router to _____ l2tp _____ pptp _____ also _____ compatible _____ versions of the internet?

_____ there any _____ that _____ both _____ with different types _____ VPNs?

Is there any _____ that can _____ both _____ IPv6 _____?

I want _____ that is _____ ipv4 and ipv6 _____ providing support _____ different types of _____.

I need a _____ that is _____ with _____ and IPv4 _____ all _____ protocol-based VPNs.

Are _____ of _____ available _____ accommodate both _____ & IPv6?

_____ both ipv4 _____ IPv6 protocols?

_____ routers _____ with _____ l2tp and pptp?

_____ possible that _____ available _____ can accommodate _____ IPv4 _____ IPv6 while _____ offering _____ of features?

_____ there any _____ can handle _____ and ipv6 _____?

_____ there _____ that support _____ and IPv6 _____ addition _____ other options?

_____ want a Router that _____ with _____ well as _____ support _____ different internet connections.

_____ it _____ of your available _____ accommodate both IPv4 and IPv6 while _____ versatile _____?
