

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network speed and performance concerns
Inquiry Sub-Category	Poor call quality
Description	Customers complaining about issues with call clarity, such as dropped calls, static noise, or voice distortion, impacting the overall call experience.
Data Size	5,011 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Is _____ network speed affects drop _____ directly/indirectly?
_____ for your _____ to quash _____ in calls?
Can _____ said _____ speed causes drop in _____?
_____ call disconnections be _____ network _____?
Is it possible _____ caused by _____ speeds?
_____ network speed _____ calls _____?
_____ have _____ influence on dropped _____?
Network _____ dropped issues.
Can _____ in-call issues _____ network _____?
Network _____ may _____ dropouts during _____.
Is _____ in-call issues?
Is it _____ network speed _____ in the _____?
Does a _____ exist between _____ speed _____?
Is _____ speed _____ dropped calls?
_____ involve poor _____ speeds?
There _____ be a _____ between network _____ and _____.
_____ your network speeds _____?
network call _____ can _____ faster _____
Can drop-in _____ by _____ network _____?
_____ in call _____ can _____ by network _____.
Is _____ that _____ network _____ call dropout?
Does _____ speed affect _____?
_____ speed _____ my _____ affect _____ dropped calls?
Call disconnections _____ be _____ by _____.
_____ call issues _____ by network _____?
There _____ possibility that _____ a _____ network _____ and dropped calls.
_____ result _____ call drops.
_____ network _____ has _____ on dropouts?
_____ speed impact on _____?

____ network speeds a factor ____ ____ ?
 ____ network ____ a ____ ____ call drops?
 ____ the ____ ____ have any impact on ____ ____ ?
 ____ network speed ____ ____ ____ call problems?
 ____ it appear that ____ speed ____ an ____ ____ calls?
 Is ____ ____ ____ speeds ____ contribute to call disconnections?
 Do call drops ____ ____ ____ directly ____ ____ ?
 Is ____ ____ ____ network ____ call drops?
 network ____ impacts ____ ____
 Is ____ network's speed ____ factor ____ ____ ____ .
 Have call ____ ____ affected ____ network ____ ?
 ____ drop ____ call ____ ____ influenced by ____ speed?
 ____ ____ speed causeDropped ____ issues?
 Does network ____ ____ ____ on in-call ____ ?
 Does ____ faster ____ ____ ____ issues?
 ____ ____ speed have ____ ____ ____ calls dropping?
 Did ____ ____ impact the ____ ____ ?
 ____ internet's pace may ____ ____ ____ on ____ errors.
 ____ there ____ correlation between network ____ ____ ____ ?
 ____ it be ____ that ____ ____ causes ____ in ____ issues?
 ____ drop issues ____ ____ ____ network speeds?
 ____ a ____ affect call ____ ____ ?
 Can it be ____ ____ ____ causes in ____ issues?
 Network speed ____ have ____ ____ ____ drops.
 ____ the ____ effect dropped ____ ?
 ____ ____ problems be ____ by connection ____ ?
 Is ____ ____ factor in ____ drops?
 Can ____ speed ____ have ____ ____ on call ____ ?
 Is ____ possible that ____ ____ ____ ____ on dropped calls?
 ____ ____ speed a factor in ____ ____ ?
 The ____ ____ may have ____ impact ____ in-call ____ .
 Can ____ network ____ affect ____ ____ issues?
 ____ ____ call problems ____ be caused ____ network ____ .
 Can network ____ directly ____ ____ drop ____ ?
 ____ is possible that call disconnections ____ ____ ____ network ____ .
 ____ my ____ speed ____ ____ calls?
 ____ speed could ____ affect ____ ____ .
 ____ speed might influence ____ ____ ____ .
 ____ the ____ ____ ____ effect onDropped in-call issues?
 ____ network ____ ____ drop ____ problems?
 Does drop in call ____ ____ ____ ?
 ____ networkvelocity ____ in call ____ ?
 ____ ____ any links ____ ____ speed and ____ calls?
 ____ it ____ ____ network ____ ____ toDropped in-call issues?
 Could network ____ ____ bad ____ ?
 ____ speed could ____ ____ dropouts.
 Is ____ ____ ____ to ____ dropout problems?
 ____ ____ network ____ ____ call disconnections?
 ____ network's speed ____ ____ the ____ inconsistencies.
 ____ the speed of the ____ have ____ ____ ____ dropped ____ ?

The _____ problems may be _____ speed.

Does the _____ affect _____?

_____ influence dropped calls?

Do speeds _____?

Can _____ speed _____ drop in-call _____?

Is _____ affecting _____ dropout?

Does my _____ to do with _____ calls?

_____ it possible that network _____ has an _____?

_____ it possible _____ in _____ issues are related to _____?

_____ network might _____ call _____.

The _____ a bearing _____ during calls.

_____ speed might _____ dropped _____.

Is _____ to network _____?

_____ network _____ call drops.

Is _____ speed _____ in-call issues?

What _____ the role the _____ plays _____ calls?

_____ the network's _____ drops?

Network speed _____ call _____.

How _____ does _____ network _____ play in _____?

Can _____ network's velocity _____ drops?

Is _____ the network speed _____ call issues?

Is it _____ network _____ calls?

_____ speed _____ calls?

_____ speed may _____ call _____.

_____ of my network _____ effect _____ calls dropped?

There _____ be _____ issues _____ network speed.

_____ network speed influence _____?

_____ network be _____ calls dropping?

_____ there _____ a connection between _____ speed _____ dropped _____.

_____ speed _____ calls?

_____ it _____ network _____ could _____ in-call _____?

Are Dropped in-call _____ network _____?

Is there _____ correlation _____ and _____ calls?

Can it be _____ speed _____ in-call _____?

_____ dropout problems _____ connection speed?

_____ it possible _____ there is a connection _____ speed _____?

It's _____ that _____ speeds _____ dropped _____.

Is _____ between network speeds _____ calls _____?

Is a _____ and dropped _____?

Can network _____ in _____?

_____ likely to cause dropped _____?

Is _____ possible that _____ speed _____ drop _____?

Is _____ network _____ dropped calls?

Network speed _____ call _____.

_____ network velocity result _____ calls?

_____ velocity _____ directly related _____ call _____?

Network _____ has _____ possible _____ call _____.

In-call issues might _____ speed.

Is _____ that network _____ call _____?

_____ dropout _____ connection speed.

Does _____ make a _____ drops?
_____ a correlation between _____ speed and _____ during _____.
_____ speed hurt _____ issues?
_____ speed may _____ a _____ on dropouts _____.
_____ something to do with dropouts _____ calls.
_____ issues affected by _____ speed?
Do dropped _____ affect _____?
Are _____ calls _____ network speeds?
Can _____ incall issues be _____?
_____ it _____ impact _____ drop issues with network _____?
The _____ on drop in-call issues.
_____ network speed affecting _____?
_____ it possible _____ in call issues _____ by network _____?
_____ it be said that _____ speed _____ drop in _____?
The _____ may _____ in-call _____.
_____ network _____ have a _____ on _____?
Can it _____ speed _____ drop in-call issues?
Drop _____ call _____ affect _____ speed.
_____ speed may be related _____ problems.
Is _____ possible _____ speed affectsDropped _____?
_____ speed a _____ dropped _____?
_____ network's speed _____ call _____?
_____ speed might _____ in-call _____.
_____ network _____ has _____ on dropped _____.
_____ the network's speed _____ inconsistencies?
Does the _____ have any _____ on _____?
Network _____ might _____ rate _____ dropouts.
The network's speed might _____ on _____.
Does _____ dropped _____?
Does _____ speed _____ Issues?
_____ contribute _____ call drops?
Can _____ in-call issues?
_____ speed affect the call _____?
Does _____ have a _____ call _____?
_____ might be affected _____ connection _____.
_____ possible _____ network speeds cause drops in _____?
Does _____ like network speed _____?
Does it seem that _____?
_____ a factor in _____ issues?
_____ it _____ that _____ affect call issues?
Is _____ speed a _____ calls?
_____ there a connection between the _____ calls _____?
_____ there a _____ network _____ and _____ in calls?
Is _____ speed _____ affect onDropped _____?
_____ calls related _____ the network _____?
_____ may have an impact _____ drop _____ issues.
_____ result in dropped _____?
Drop in _____ problems _____ be _____ by the _____.
_____ that the network speeds cause calls _____?
Might network speed _____?

_____ speed have _____ impact on _____ dropped?
 Does _____ more reliable _____ keep _____ from dropping _____ of _____ phone _____?
 _____ possible _____ dropped calls are linked to _____?
 _____ calls _____ be caused by _____?
 _____ disconnections caused _____ varying _____ speeds?
 _____ a correlation _____ speed and _____ calls?
 _____ the _____ be influenced _____ network speeds?
 Does _____ speed _____ make _____ difference on _____ calls?
 Can _____ by network speed?
 Is _____ possible _____ speed _____ an effect _____ call _____?
 _____ result _____ calls dropping?
 _____ connection between network _____ dropped?
 _____ in _____ issues _____ be influenced _____ the _____ speed.
 Can speeding _____ calls?
 _____ network _____ have _____ effect _____ call _____?
 What _____ speed _____ to _____ drops?
 Does connection speed have _____?
 _____ have an _____ on drop _____ call issues.
 Does faster networks reduce _____ while _____ phone?
 Does network speed _____ on _____?
 _____ correlation _____ network speed and drop _____ problems.
 _____ network may have _____ dropouts.
 Is _____ to _____ bad calls?
 Is network speed an _____?
 _____ there is a _____ between network _____ dropped _____?
 Is _____ factor in _____?
 _____ it _____ in call _____ be _____ to network speed?
 _____ speed _____ call drop issues?
 Network speed _____ by drop _____ call _____.
 _____ speed might influence _____ dropouts.
 Drop _____ may have _____ bearing _____.
 _____ network speed affected _____ drops?
 Can _____ impact call _____?
 _____ may _____ related to _____ problems.
 _____ your network _____ drop-in _____?
 _____ network _____ impact calls _____?
 _____ there _____ correlation between _____ network _____ the dropped _____?
 Is _____ for your network _____ to _____ call _____?
 _____ network _____ has _____ impact onDropped calls?
 Can _____ have _____ effect on _____ in _____ issues?
 There might _____ a _____ between network _____ and _____.
 Is _____ a _____ affects drop in-call issues?
 _____ a connection _____ the _____ of _____ network _____ the _____ calls?
 Network _____ might have _____ effect _____ of dropouts.
 _____ network _____ call drops?
 _____ network _____ affect issues _____ dropped _____?
 _____ there _____ role the _____ speed _____ in _____ calls?
 _____ network _____ influence drop _____ issues?
 Is _____ that _____ speed affects _____ calls?
 _____ can potentially _____ drop issues.

Does network _____ in-call _____?

_____ affecting _____ during calls?

_____ network _____ a _____ dropped _____ issues?

_____ impact on _____ calls?

Network speed _____ on _____ dropouts.

_____ drops _____ from _____ velocity.

_____ much does _____ speed _____ drops?

_____ incall issues _____ influenced _____ speed.

_____ call _____ influenced by speed.

_____ speed may be _____ on _____.

Is _____ speed _____ call _____?

_____ network speed _____ dropouts _____?

_____ it true _____ network affects _____?

_____ speed _____ calls dropped.

Network speed could _____.

_____ call drop issues _____ addressed _____?

_____ network speed play _____ dropped _____?

_____ speed an _____ dropouts during _____?

_____ speed may _____ dropouts _____.

Does _____ have an _____ dropout problems?

I wonder if _____ call disconnections.

Are _____ influenced _____ speed?

How _____ the speed _____ affect _____ drops?

_____ there a chance that _____ cause dropped _____?

Can _____ affect _____ problems?

_____ network's speeds _____ dropped-in _____?

Is _____ to _____ speeds?

_____ up the _____ call issues?

_____ speed impact calls _____?

_____ there _____ on _____ in-call _____ by the network?

_____ speed _____ dropped issues?

Network speed _____ impact _____.

_____ speeding _____ calls?

_____ the _____ have _____ on call _____?

network _____ an effect _____ dropouts.

_____ speed affect _____?

_____ may _____ an effect on _____.

Should _____ affect call _____?

Network _____ could _____ impact _____ dropouts during _____.

_____ speed _____ dropout problems.

Has _____ a correlation _____ speed and _____?

Network speed _____ calls?

_____ possible to _____ speed _____ dropped calls?

Is _____ between poor _____ speeds and _____ calls?

_____ and dropped _____ be connected?

Drop _____ might _____ affected _____ speed.

Is _____ the _____ dropped issues?

Call _____ could be _____ speeds.

_____ related to dropped _____.

_____ is the _____ of network speeds _____?

Can network _____ drops?
 _____ speed may have a bearing _____ dropouts _____.
 _____ speed of _____ my dropped calls?
 Network _____ impact _____ issues.
 _____ it plausible that _____ affects _____?
 _____ seems like _____ affectDropped _____ issues.
 _____ directly _____ indirectly influenced by network speed.
 _____ velocity cause call _____?
 _____ does network _____ play in _____?
 _____ network _____ affect dropped _____
 _____ speed affecting call _____?
 _____ speed have an _____ call issues?
 _____ what does _____ speed do?
 _____ network _____ have _____ on calls _____?
 _____ could affect call _____.
 _____ result from _____ speed?
 Has the _____ network _____ dropped _____?
 Can the _____ drop issues?
 _____ the correlation _____ speed _____ calls exist?
 _____ that the _____ has _____ drop in-call issues.
 Network _____ may _____ a bearing _____ the _____.
 Is _____ connection _____ speed _____ the network and _____ calls?
 Does _____ speed _____ the _____?
 Network _____ may _____ disconnections.
 _____ there a connection _____ network _____ calls?
 What is _____ speed _____ dropped _____?
 Does _____ an _____ dropped calls.
 _____ speed _____ call issues?
 The _____ role _____ dropped calls.
 _____ be affected by _____ speed?
 _____ speed _____ with dropped _____?
 _____ speeds _____ on call drops?
 _____ of _____ speeds affect call _____?
 Network _____ be _____ factor _____ dropouts.
 There could _____ a link _____ network speed _____.
 _____ net _____ have a _____ lost _____?
 _____ speed a _____ in regards to _____ calls?
 Network _____ might _____ an impact _____ dropped in _____.
 _____ speed have an _____ calls?
 Does the network _____ an _____ on _____?
 Networkvelocity _____ have an _____ drops.
 There could _____ relationship between _____ speed _____ dropped _____.
 Network speed may _____ effect on _____ of dropouts _____.
 Network _____ on call drops.
 _____ may _____ an impact _____ dropouts _____ calls.
 _____ it _____ affects call _____?
 Does the _____ dropout?
 _____ be _____ or _____ caused by networkvelocity.
 Will network speed _____ effect _____?
 Network call issues _____ be _____ network.

_____ could be related to _____.

Does network _____ affect _____?

Is connection _____ associated with _____?

_____ is _____ that network speeds _____ contribute _____ call _____.

Network _____ have an _____ on _____.

Has _____ of _____ network impacted _____?

Does _____ calls?

_____ network _____ effect _____ in-call issues?

Is _____ true that call _____ related _____ the _____?

Can _____ network _____ impact _____?

_____ directly result _____ call _____?

Is _____ to bad network _____?

_____ network quickness a _____?

Does the speed _____ the _____ affect _____ number _____?

_____ network _____ on call drops?

_____ network _____ affect _____ drop rates?

Is _____ that _____ affect call _____?

_____ be made between network _____ and _____ calls?

_____ possible that dropping in call _____ are _____ network _____?

_____ dropped calls?

_____ might _____ an impact on drop _____.

Drop _____ may _____ to network speed.

_____ the network speed have _____ impact _____ drop _____?

_____ can network _____ call drops?

Is _____ possible that _____ impacts _____?

The network _____ role _____ dropped _____

Network _____ bad calls.

Does _____ change _____ calls?

It seems _____ speed _____ an impact _____ in-call _____.

Network _____ call drop _____.

Is _____ a _____ in call issues?

Is it possible _____ speed _____ issues?

_____ the _____ my _____ on dropped calls?

Network speed _____ bearing on dropouts _____.

_____ the _____ calls be influenced _____ speed?

Can _____ affect _____?

_____ speed can _____ issues.

Is _____ dropped _____?

Does speeding _____?

Can it _____ deduced that _____ dropped _____?

Is connection _____ related _____ dropout _____?

_____ possible _____ drop in _____ are affected by network _____?

_____ speeds could affect _____.

_____ can _____ an impact _____ calls.

Is it _____ speeds to _____ drop- in _____?

_____ there aconnection between network _____?

Do network _____ dropped _____?

Has the _____ errors?

_____ networkspeed have _____ on _____ drops?

_____ wonder _____ can cause bad _____.

Drop in _____ can _____ network speed.
 _____ a _____ network speed and calls _____?
 _____ be _____ speed and the _____ of dropped calls.
 Can _____ speed _____ an affect on _____?
 Is _____ possible _____ call _____ be _____ by _____ speeds?
 _____ in _____ related to network _____.
 _____ speed _____ an effect _____ problems?
 _____ dropped-in-call problems _____ to the _____?
 _____ speed the _____ ofDropped _____ issues?
 _____ network _____ impact on dropped _____.
 _____ true _____ speed _____ call issues?
 Is the _____ a factor _____ the issues _____?
 Network speed might _____ in-call issues.
 Do _____ problems _____ an _____ on _____ speed?
 _____ it possible _____ network _____ drop issues?
 _____ able _____ quash drop-in calls?
 _____ in _____ may _____ by _____ speed.
 Could _____ be related _____ calls?
 Does _____ impactDropped in _____?
 _____ dropped calls _____ the speed _____ my _____?
 _____ it possible that _____ calls are connected?
 _____ speeds may contribute _____.
 _____ be impacted _____ network speeds.
 _____ faster networks _____ instances _____ drop-out _____ talking _____ the _____?
 Does _____ calls _____ be _____?
 _____ drops _____ be influenced by _____ speed?
 Is _____ network speed _____ call drop issues?
 _____ network speed having _____ call _____?
 _____ might _____ call disconnections.
 Is network _____ in-call _____?
 _____ could _____ effect on dropouts _____ calls.
 Does _____ impact _____ issues?
 _____ speed could _____ inconsistencies.
 Does _____ speed _____ impact _____ call drops?
 _____ my _____ calls dropped?
 _____ between _____ speed and dropped calls?
 _____ connection speed could affect _____ dropouts?
 _____ speed might have a _____ on _____ dropouts.
 Is _____ related _____ network's speeds?
 _____ internet's _____ affecting in-call _____?
 Does _____ an _____ on in-call errors?
 _____ in- call issues be influenced _____?
 _____ fast networks _____ issues?
 Is _____ a _____ net strength _____ conversations?
 _____ network _____ do _____ dropped calls?
 _____ the speed _____ the network _____ effect _____ calls _____?
 _____ it be said _____ network speed _____?
 Does _____ reliable networks _____ instances _____ drop-out _____ talking on _____?
 _____ the _____ the _____ of _____ calls?
 Is network _____ a factor _____.

____ it be ____ network speeds cause ____ in ____ ?
 Can call ____ be improved ____ ?
 Is network ____ connected ____ ?
 Does the ____ drops?
 ____ speeds could ____ to ____ for ____ .
 Can network ____ ?
 ____ connection speed ____ affect ____ dropout ____ ?
 ____ it possible ____ faster network ____ issues?
 ____ disconnections be ____ different ____ speeds?
 Can ____ result in calls ____ ?
 ____ calls relate to ____ speeds?
 Is ____ affected by ____ ?
 Network ____ issues ____ affected ____ speed.
 ____ affect dropped in- ____ issues.
 ____ speed may ____ dropped ____ .
 Can network ____ an ____ calls?
 Can ____ drop ____ issues?
 Is it ____ that a ____ is ____ by ____ ?
 ____ calls be ____ your network ____ ?
 Is it ____ the ____ cause ____ dropped ____ ?
 ____ the ____ my phone network affect ____ ?
 Can network ____ difference ____ dropped ____ ?
 Is ____ possible ____ has ____ effect ____ in-call issues?
 Call drop ____ can be ____ .
 Is ____ link ____ speed ____ call problems?
 ____ the ____ calls due ____ the ____ ?
 Is ____ speed ____ call drops?
 Is it ____ call disconnections could ____ linked ____ ?
 Network ____ result ____ call drops.
 Does ____ dropping ____ ?
 Is ____ for ____ to quash drop-in calls?
 Is the ____ in- ____ errors?
 Drop in-call ____ can be ____ or indirectly ____ .
 ____ speed may ____ in ____ .
 Drop in-call problems ____ affected ____ .
 ____ more ____ networks reduce instances of dropped ____ ?
 ____ dropping ____ issues affect network ____ ?
 ____ network speed a ____ on ____ ?
 Does ____ speed have any ____ call ____ ?
 Can ____ speeds ____ call ____ ?
 ____ in-call ____ related to network ____ .
 Can ____ in calls ____ stopped ____ your ____ ?
 Is there ____ between network ____ call ____ ?
 ____ network ____ affecting in-call ____ ?
 Call drops ____ indirectly ____ by network ____ .
 Is ____ a ____ between ____ and ____ drops?
 ____ the network impact the ____ of dropped ____ ?
 ____ the ____ speed ____ the call ____ ?
 ____ can ____ result ____ call ____ .
 ____ network call ____ affected by ____ ?

Can _____ change _____ issues?
_____ the _____ network speed and _____ calls?
How _____ speed impact _____ call _____?
_____ disconnections caused _____ speeds?
_____ call issues be affected _____ speed?
Can the _____ by _____ drop issues?
Does _____ speed have an _____ on _____?
Do _____ calls?
Is there _____ connection _____ speed and calls _____?
Are there _____ problems _____ speed?
Is it _____ that _____ dropping?
_____ the _____ between network _____ dropped calls _____?
_____ speed affects call _____?
_____ can _____ call drops?
Network _____ could _____ issues.
Does _____ speed of _____ network have _____ dropped?
_____ in call _____ may _____ caused _____ network _____.
_____ be shown that network _____ problems?
_____ speed can influence _____.
_____ it be _____ network speed _____ in call _____?
_____ role _____ plays _____ dropped calls?
Does _____ speed have _____ dropouts?
_____ the _____ pace _____ an _____ on _____ errors?
Does it _____ an impact on Dropped Issues?
_____ can _____ call _____ issues.
Network _____ issues can _____ faster network _____.
Do call _____ of network _____?
Is _____ between _____ and call issues?
Is network _____ on Dropped _____?
_____ speed have _____ effect on Dropped _____?
_____ the speed of my _____ related _____?
_____ it _____ that _____ speed causes dropping _____?
Does _____ speed _____ an _____ calls?
Isn't _____ for _____ network _____ to _____ drop-in calls?
_____ in call issues.
_____ network speed _____ calls _____ be _____?
Is _____ to _____ problems?
Network speed _____ potential to _____.
Is _____ a _____ between _____ network speed?
Is _____ that _____ network speeds _____ call disconnections?
_____ think network _____ causes drop _____ call _____?
Is faster network _____ to _____?
Does _____ play a role _____?
Can _____ affect _____?
Do you _____ that network speed _____ in _____?
_____ way can _____ speed affect _____?
_____ a correlation between _____ speed _____ drop in-call _____.
In-call _____ can be impacted _____.
Does _____ speed _____ have _____ impact on Dropped _____ issues?
_____ connection speed _____ issues?

Did _____ dropped _____?
 _____ network speed _____ problems?
 Can _____ in call _____?
 Is connection _____ in dropout _____?
 _____ faster or more _____ while talking on the _____?
 What _____ the network _____ do _____?
 _____ might have a _____ call _____.
 Drop in- _____ influenced _____ network speed.
 Does _____ affect dropped calls.
 _____ speed _____ call drops?
 _____ possible _____ fast network _____ call issues?
 Does network _____ dropped _____?
 _____ might be _____ network speed.
 _____ responsible for dropped _____?
 Call _____ be directly _____ network speed.
 Have _____ been caused by _____?
 _____ that the network _____ in dropped calls.
 _____ result in call _____.
 _____ network _____ impact _____ issues?
 Can _____ calls?
 _____ role _____ network _____ dropped calls?
 _____ network speed _____ dropped calls?
 _____ speed affect _____ issues?
 Network _____ be _____ to _____ in-call _____.
 _____ effect call _____ issues?
 _____ affect the _____ of _____ on calls.
 Are _____ problems _____ the speeds?
 Is it _____ speeds cause _____?
 Network speed _____ an _____ on _____ during _____.
 network _____ affect _____ during calls.
 _____ speed _____ to _____ drop issues?
 _____ speed _____ an _____ onDropped calls?
 _____ it be _____ that _____ in-call _____ are caused _____ speed?
 _____ affect dropped in _____ issues.
 _____ network _____ have an impact _____?
 Is _____ speed _____ inDropped _____?
 Is _____ in _____ by network _____?
 Call drops can be _____ indirectly affected _____.
 _____ or _____ reliable networks keep _____ from _____ out _____ phone _____?
 _____ network _____ cause _____ calls?
 _____ dropout related _____ network?
 _____ correlation _____ the network speed and _____ calls?
 Does _____ the _____ to do with dropped calls?
 Is _____ possible _____ network _____ call issues directly?
 _____ the speed _____ the _____ amount _____ dropped calls?
 _____ call dropping _____ network?
 _____ possible _____ your network _____ dropped in calls?
 Does speeding _____?
 _____ may affect call _____
 Is network _____ by dropped _____?

_____ issues can _____ speed.
_____ have an impact on _____ call _____?
Is _____ effecting call _____?
Is _____ that dropped calls _____ be _____ by _____?
Can _____ that _____ speed causes dropped in _____?
_____ speed has the _____ effect _____.
_____ issues _____ by faster network speeds?
_____ that the network has _____ impact on _____ calls?
_____ speed _____ my network have any effect _____ calls?
Is it _____ that _____ be due _____ network _____?
_____ affect call disconnections.
Does the _____ of _____ affect calls that _____?
_____ result in _____ drops.
Does _____ of _____ effect my _____ calls?
how _____ network _____ call _____
_____ it _____ that network _____ causes dropped _____?
_____ speed impact _____?
_____ what role does _____ play?
_____ connection _____ affect call _____?
_____ it true that _____ effects _____?
Is _____ a _____ dropouts?
Can _____ affect _____ drops?
There may _____ a _____ speed _____ dropping calls.
_____ it _____ that _____ call drop?
It is possible _____ cause _____ calls.
Will improved _____ make a difference _____?
Do connection _____ affect _____?
_____ network speed have _____ onDropped _____?
_____ changing _____ a _____ in call _____?
_____ network speed able to _____?
Can network _____ call _____?
_____ network _____ has _____ bearing on dropouts?
_____ there _____ between _____ speed _____ in-call problems?
Network quickness could _____.
_____ the _____ network have any _____ that are dropped?
Can network _____ incall _____?
_____ the _____ affect dropped calls.
_____ quickness might _____ an _____ dropouts.
Network speed _____ in-call _____.
_____ it seem that network _____ effect onDropped _____?
Is a dropped _____ poor _____?
_____ it possible that network _____ can affect _____?
_____ it be said _____ drop _____ call _____ by network _____?
Is _____ matter _____ network _____ causing _____ calls?
_____ possibly affect _____ call issues.
_____ link _____ speed and drop in-call problems?
_____ might _____ a correlation _____ speed _____ call issues.
_____ affect _____ dropout.
Is _____ network speed _____ in-call problems?
_____ the network have _____ dropout?

_____ there _____ between Dropped calls _____ network _____?

_____ it possible that _____ speed _____ dropped calls?

How can _____ impact _____?

_____ the internet's _____ affecting _____ errors?

_____ an impact _____ dropout problems?

Does _____ networks decrease instances _____ drop-out _____ on _____?

_____ speed able to impact drop _____?

_____ network speed _____ call _____?

_____ speed impact in-call _____?

_____ network _____ be to blame _____ disconnections?

How _____ the _____ speed _____ calls?

Is it possible that _____ speed has _____?

Can _____ result _____ dropped _____?

Network _____ can _____ issues _____.

_____ the network _____ affect _____?

Can _____ said that network _____ causes drops _____?

Can _____ speed _____ connected _____ issues?

_____ speed _____ a _____ in _____ calls

_____ network _____ effect on _____ drops?

_____ may affect _____ during _____.

_____ it be said _____ calls?

Network _____ could _____ issues.

Is the network _____ issues?

_____ network's speed _____ any _____ on _____ calls?

Can _____ speed make _____ difference _____?

Can _____ be directly impacted _____ network _____?

_____ may network _____ call _____?

Can _____ be linked _____ conversations?

_____ much _____ can _____ call drops?

_____ might be _____ by network's _____.

_____ the _____ of _____ affect _____ dropped?

_____ there _____ correlation _____ network speeds _____ calls?

Is _____ internet's _____ in-call _____?

_____ there _____ between _____ speed and _____ issues?

Does the network have _____?

_____ effect _____ speed _____ call drops?

_____ may _____ drop in-call _____ directly.

Is _____ possible _____ affects drop _____ issues directly?

_____ having _____ effect on _____ drops?

How _____ network can _____ call _____?

_____ speed _____ an effect on _____?

_____ network _____ in drops _____ calls?

_____ are the _____ speed's _____ dropped _____?

Does _____ affect _____?

Has _____ of my network _____ dropped _____?

Do dropped calls _____ because _____?

_____ issues _____ by network speed.

Does _____ internet's pace _____ influence _____ errors?

_____ network speed a factor _____ when _____ are _____?

Is _____ on _____ drops?

Does ____ speed ____ call ____.

Is ____ a ____ between network speed and ____ ____ ____?

____ your network's speeds ____ drops ____ ____?

Does connection speed ____ ____ ____ with call ____ ____?

____ calls ____ ____ quashed ____ network speeds.

Is ____ speed possibly ____ ____ ____?

____ network ____ ____ an ____ onDropped in-call ____?

____ there a ____ network speed ____ ____ problems?

____ ____ speed ____ call drop ____?

Do ____ drops ____ network ____?

____ ____ calls stem from poor ____ ____?

____ in ____ problems can ____ ____ to network ____.

____ there an ____ between ____ speed ____ dropped ____?

____ network ____ ____ an ____ on call ____?

____ in ____ issues are ____ ____ ____ speed.

Is the ____ of ____ ____ ____ for ____ calls?

Is ____ a connection between ____ ____ ____ and ____ calls?

Does ____ ____ ____ ____ affect dropped calls?

network speed ____ ____ a ____ ____ dropouts.

____ ____ does ____ impact dropped ____?

Is it possible ____ ____ network ____ might contribute ____ ____ ____?

____ ____ calls affect network ____?

____ it ____ that network speed has ____ effect ____ ____ ____?

____ speed might affect dropouts ____ ____ ____.

____ disconnections ____ be ____ ____ network speeds.

Call ____ can ____ ____ by network ____.

Can ____ internet's ____ influence ____ ____?

Is ____ speed ____ ____ ____ dropout problems.

____ ____ change dropped ____?

____ ____ ____ issues ____ network speed?

Can ____ speeds ____ affect ____ ____?

____ connection ____ ____ anything ____ do with call ____?

____ might be ____ correlation ____ network ____ and dropped ____.

Can dropped in call ____ be ____ ____ ____?

Did ____ speed ____ my ____ ____ the dropped ____?

____ networkvelocity ____ in ____ ____ dropped?

Could ____ disconnections ____ ____ by ____ ____ speeds?

How cannetwork ____ ____ ____ drops?

____ the ____ ____ to ____ for the ____ in calls?

____ it ____ that ____ ____ is connected to dropped ____?

____ ____ speed an issue forDropped ____ ____?

Does ____ ____ an impact ____ in-call ____?

I wonder if ____ ____ ____ ____ impact ____ dropped calls.

____ errors can ____ influenced ____ ____ internet's ____.

____ ____ network ____ to ____ for ____ decreasing?

Is ____ ____ ____ with ____ calls?

Call dropout ____ might ____ ____ ____ connection ____.

____ ____ ____ between ____ speed and drop in-call ____ possible?

____ the network ____ ____ call ____?

Can network ____ affect ____ ____ ____?

Is _____ speed _____ call drops?

Is it possible _____ affects _____ in call _____?

_____ can _____ in call _____?

Does _____ my _____ any _____ to dropped calls?

There _____ be a link between _____ speed _____.

There could be _____ link _____ network _____ drop _____ call _____.

Drop _____ issues _____ be _____ by _____.

_____ it _____ for _____ networks _____ instances of _____ drops?

Is _____ quickness _____ to _____?

Can _____ be _____ that network speed _____ drop _____?

_____ may be _____ correlation _____ network speed _____ call _____.

_____ may cause dropouts _____.

Does the _____ influence _____?

Network _____ will _____ issues.

_____ speed able to impact _____?

There could _____ a correlation between _____ dropped calls.

_____ network speed a _____ issues?

_____ the correlation _____ speed and _____?

_____ be affected _____ faster network speeds.

_____ does _____ network speed _____ dropped _____?

_____ speeds to quash drop in calls?

Is _____ a _____ between _____ network speeds?

_____ varying _____ speeds _____ call _____?

_____ the network _____ factor _____ call _____?

_____ drops _____ caused by network _____?

_____ speed _____ an effect _____ dropped?

Do _____ call _____?

_____ it possible _____ dropped calls?

_____ network speed has _____ on dropouts _____?

_____ in-call _____ can be _____ network _____.

_____ network speed _____ an effect _____ dropped calls?

_____ like _____ speed has an impact _____ in-call _____.

Can _____ call _____ be _____ a faster _____?

_____ possible _____ drop in call issues are _____ network _____?

_____ call _____ be _____ network speeds?
