

[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	HD and 4K resolution support
Inquiry Sub-Category	Troubleshooting HD and 4K issues
Description	Customers seek support for troubleshooting problems related to HD and 4K resolution, such as signal degradation, pixelation, or screen flickering. Assistance may involve troubleshooting connections, adjusting picture settings, or identifying equipment issues.
Data Size	5,846 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

Why does changing ____ cause ____ loss ____ video in ____ definition ____?
____ can ____ a ____ in HD ____.

How ____ image loss on input shift?

What ____ of clarity with ____ after changing ____?

Why ____ the quality of ____ visuals suffer temporarily?

How can ____ audio ____ quality ____ cut ____ in high ____?

Why ____ HD input ____ media?

____ do high def ____ signal when there ____ input ____?

Why does the ____ when ____ high ____?

When ____ switch inputs, does HD ____ video?

Why does ____ momentary loss ____ picture ____ sound ____ using HD ____?

____ changed, what ____ loss of ____ and visual ____ in ____ definition?

____ does the quality ____ HD ____ and visuals ____ due ____ switch ____?

____ inputs cause ____?

____ input sources ____ HD ____ a brief loss ____.

____ causes ____ interruption of ____ sound or video ____

Why is ____ by input ____?

Why does ____ sound and ____ loss when I ____?

____ inputs causes ____ temporary ____ sound ____ video in high ____.

How ____ muted or ____ happen ____ inputs are altered?

How come ____ HD ____ on input shift?

____ causes temporary ____ of ____ in high ____ input is changed?

What ____ a brief absence ____ audio/visuals ____ using ____?

____ do I ____ and ____ I switch to high ____ mode?

Does changing inputs ____ high-definition ____?

____ the ____ of audio and video disruptions when ____?

____ the ____ loss of high-def audio or visuals?

____ can ____ affect the audio and ____ quality ____ high ____?

_____ impact of input change _____?
 _____ disrupt _____ in HD setup.
 When _____ switch _____ experiences sound and _____ loss.
 _____ a _____ audio-video _____ in high definition _____ input sources.
 _____ of high-def audio or visuals?
 Something could _____ the reason _____ interruption _____ video _____ high _____.
 _____ high-definition inputs _____ altered, _____ to temporarily muted or _____?
 HD _____ and _____ are cut _____ of _____ inputs.
 _____ HD input swap interrupt _____?
 _____ changing inputs cause _____ during high-definition viewing?
 _____ results in a brief interruption _____ high _____ video.
 _____ can _____ quality _____ and _____ be disrupted _____ switched inputs?
 _____ in inputs disrupt the sound _____ video _____.
 How _____ input _____ to _____ downtime?
 _____ do _____ HD audio and video _____ be cut _____?
 Why _____ the quality _____ HD _____ and _____ of switch inputs?
 _____ the reason for interruption in _____ definition _____ video?
 Why do _____ result in _____ sound and picture _____ while using _____?
 _____ affect audio _____ visual _____ outs during high-definition _____?
 _____ the high _____ mode _____ after input switch _____?
 _____ is an _____ video during _____ Mode input changes.
 _____ to issues with _____ and visual _____ high-definition viewing?
 What _____ on with _____ loss _____ audio _____ video in _____ def _____?
 I don't _____ why messing _____ my _____ picture and sound _____ go _____.
 A momentary loss _____ and _____ using HD mode _____ by changes _____.
 _____ inputs results in an interruption _____ definition _____ or _____.
 _____ might be momentary sound _____ blackouts due _____ highest quality setting.
 _____ are _____ audio-video interruption in _____ definition _____ input _____.
 HD _____ when _____ channels/input?
 _____ is _____ cause of a temporary loss _____ or _____ definition?
 Why _____ switch inputs _____ and _____ components when _____ in _____ definition?
 _____ a momentary loss _____ high definition visuals _____ sound _____ used?
 _____ is temporary loss with _____ by inputs _____?
 _____ is the quality _____ disrupted by switch inputs?
 When _____ is modified, _____ temporary loss _____ or visual display _____?
 Is there an _____ video being _____ out?
 _____ inputs _____ a _____ of _____ and _____ in _____ definition mode.
 _____ in _____ result _____ a loss _____ picture _____ sound _____ using _____ mode
 _____ a reason why _____ quality _____ audio and visuals is _____?
 _____ there _____ momentary _____ in _____ definition _____ sound _____ there are different _____?
 I wonder _____ tarnation _____ my HD _____ and sound to _____ ka-poot.
 Why does _____ HD?
 Changing the _____ source _____ lack of sound _____ vision _____ display
 Changing _____ be _____ cause for _____.
 _____ inputs may _____ a loss _____ definition visuals _____.
 Why _____ input _____ interrupt _____ plays?
 _____ there _____ sudden _____ high definition visuals _____ sound when different _____?
 _____ can there be a _____ absence _____ audio/visuals _____ mode?
 _____ HD _____ swap interrupted media?
 _____ audiovisual glitch caused _____?

Why _____ and visual components _____ operating in HD _____?

Some _____ cause _____ in _____ definition visuals and _____.

_____ inputs causes a _____ sound _____ in _____ definition.

_____ in _____ loss of _____ picture quality and _____ while _____ mode.

_____ a _____ audio and _____ disruption when _____ high definition _____.

How _____ a _____ def mode lose _____ with _____ _____?

_____ does _____ swap _____ media?

Changing _____ interrupt the sound _____.

When high-definition _____ temporarily muted _____ paused content?

HD _____ input _____ interrupt _____.

Is _____ because different _____ make _____ HD _____ blank?

_____ is the _____ for _____ loss _____ video _____ def mode?

Do you _____ why HD _____ or video output _____?

Why _____ HD mode _____ and video _____ I _____?

_____ come _____ in HD downtime?

Changing _____ sound _____ video output to be _____.

_____ of inputs _____ sound and video _____.

_____ the issues _____ changing _____ sources?

_____ the sound _____ in HD mode.

There is a temporary _____ sound or video _____ changing _____.

Which _____ HD _____ and _____ to be _____?

Changing _____ inputs in a _____ disrupt both _____ video.

_____ sound and _____ HD mode.

Why does the _____ signal when _____ is _____ switch?

_____ altering _____ lead _____ temporarily muted or paused _____?

During _____ shifting inputs _____ to _____ issues?

_____ using _____ is the reason _____ brief _____ and video _____?

Why do the _____ interrupt _____ and _____ components while _____ HD _____?

Does _____ cause _____ watching high-definition _____?

Short _____ loss of sound and _____ in _____ definition _____ by _____.

Why do you think _____ and _____ is affected?

When _____ definition _____ is _____ what _____ the _____ or visual display?

_____ mode input _____ there _____ a _____ interruption in _____ sound/video.

When _____ temporarily during input changes.

Is it _____ switching _____ interrupt audio and _____ while _____ HD _____?

_____ quality of HD _____ and visual _____ by _____ inputs?

When changing _____ what _____ for interruption _____ high definition?

_____ glitches, _____ does _____ inputs create _____?

_____ quality _____ HD audio and _____ the switch inputs?

_____ there brief audio _____ disruptions when _____ inputs to high-definition _____?

_____ altering _____ inputs, what happens _____ content _____?

_____ do adjusting inputs _____ audiovisual _____?

Why do high _____ lose signal _____?

How do _____ inputs _____ and _____ in _____?

_____ inputs leads _____ a brief interruption _____ sound _____ video _____.

Why is _____ change _____?

_____ changing _____ and visual problems during high-definition _____?

Changing inputs cause a _____ of _____ video _____.

_____ input _____ high definition mode causes a brief loss _____.

Why does temporarily _____ or _____ content _____ when _____ inputs _____?

Does _____ cause _____ high-definition viewing?

Why _____ or _____ when I switch between devices?

HD _____ and video when _____ switch _____.

There _____ brief _____ of audio/video _____ changing input sources _____.

I _____ to know why _____ the _____ HD picture _____ go ka-poot.

_____ going _____ the _____ audio and _____ in high def?

_____ does altering inputs _____ HD _____ and video _____ cut _____?

Have different inputs caused _____ loss in _____ sound?

_____ inputs may cause a loss _____ sound _____ mode.

Changing _____ disrupt _____ sound and _____ in _____ definition _____.

_____ the _____ to _____ when entering _____ definition mode?

_____ may be momentary _____ video blackouts due _____ input _____ the highest _____.

Why switch _____ both audio and _____ operating in _____?

_____ cause HD audio _____ video _____ be cut _____.

_____ up with the loss of _____ in _____?

_____ inputs results in an _____.

Why _____ HD _____ video _____ cut _____?

Does shifting _____ cause _____ viewing _____?

_____ no sound or picture, _____?

_____ does HD _____ sound _____ loss when I switch _____?

_____ is a small _____ and _____ HD mode _____ changes.

_____ what is _____ problem _____ the HD _____ suddenly _____ picture?

Why does _____ HD audiovisual _____?

Alterations _____ HD _____ to be cut _____.

_____ do switch inputs _____ both audio _____ in HD mode?

Is there _____ reason why switch _____ components _____ HD mode?

_____ don't _____ why _____ with the _____ my high _____ picture and _____ work.

_____ does _____ temporary loss _____ sound _____ you change inputs in high _____?

_____ on cause _____ with inputs changing?

_____ quality of HD _____ and visuals disrupted _____ made?

Changing _____ a brief interruption of _____ sound _____.

_____ switch _____ in _____ definition _____ the _____ and video _____ out.

Changing _____ cause a _____ loss of _____ in _____ definition.

Is _____ loss _____ high definition _____ and sound _____ by _____?

Why _____ of HD audio _____ visuals _____ disrupted?

_____ inputs _____ cause a _____ loss in _____ and sound.

When _____ high-definition inputs, _____ lead _____ or paused _____?

_____ the cause _____ disrupted sound _____ in _____ mode?

_____ sound _____ out _____ I switch inputs _____ high _____ mode.

Change of _____ definition mode causes _____ of sound _____ video.

_____ the _____ the _____ of sound _____ in high definition?

_____ are _____ audio and _____ components interrupted _____ inputs are _____ mode?

_____ causes _____ loss _____ HD on when _____?

_____ HD input _____ disrupting media _____?

_____ brief _____ high-definition audio _____ visuals?

_____ input source _____ a lack of _____ and _____ a _____ display.

_____ can cause _____ hiccup in _____.

_____ do you explain why _____ and _____ loss?

_____ the cause of _____ loss of _____ and visuals?

Changing inputs _____ a _____ of HD _____ and _____.

When high definition _____ what _____ the temporary loss _____ and _____?
 _____ HD _____ swap interrupt media _____?

What is _____ reason _____ the _____ audio and _____ disruption _____ you _____?

Why does _____ sound or _____ randomly _____ out _____ use _____ inputs?
 _____ a _____ of sound and video in _____ definition.
 _____ of _____ audio or _____ from input _____?

When altering high-definition inputs _____ temporarily _____ or _____?

Changing _____ source causes _____ lack _____ vision on high _____ display.

Does input _____ content?

When I switch _____ mode _____ off _____ and _____?
 _____ is there _____ loss with _____ on when _____?

Is there _____ in _____ sound _____ inputs are different?

Why do the _____ and visual components _____ in HD _____?

How do you explain _____ switch _____ interrupt _____ components while _____ HD _____?
 _____ inputs disrupt _____ and _____ in _____ definition setup.
 _____ come _____ to HD downtime?
 _____ temporary sound _____ in _____ are disrupted by changing _____.

Does shifting inputs _____ to _____ visual issues during _____?

Why is _____ HD _____ the _____?
 _____ the _____ disrupt _____ the _____ and audio _____ setup.
 _____ is _____ of _____ when changing _____ to high definition.

Does shifting _____ lead _____ issues _____ when viewing high-definition?
 _____ input source _____ a temporary lack of _____ vision on _____.

Does changing _____ definition _____ result in _____ of sound or _____?
 _____ causes _____ loss _____ or visuals?

Why _____ make _____ HD go _____?
 _____ did input _____ downtime?
 _____ you _____ why the _____ HD audio _____ disrupted by switch _____?

I _____ a question about _____ experiences sound _____ video loss _____ I _____.
 _____ high def mode _____ signal _____ you _____?
 _____ mode _____ sound _____ video _____ I switch inputs.

Why _____ swap _____ media play-back?

HD _____ off sound _____ when I _____ inputs?

I need _____ know why _____ audio _____ video _____.
 _____ setting that makes audio _____ input _____ what's _____?

Changing inputs _____ high definition _____ a _____ of sound _____.
 _____ be the _____ for the HD _____.
 _____ there _____ explanation _____ why _____ audio and video _____ out?
 _____ it possible _____ in _____ highest _____ setting cause _____ sound and _____ blackouts?

Can you tell _____ the _____ sound or picture?
 _____ me why switching inputs _____ both audio and _____ operating _____ HD _____?
 _____ tell me why _____ mode experience sound _____?

Suddenly _____ or picture, what's the _____ with _____?
 _____ explain _____ you change inputs into high _____?

Changing _____ a _____ interruption of high definition _____ output.
 _____ leads to temporarily _____ paused _____ when high-definition _____ altered.

Is there _____ loss in _____ definition visuals and _____?
 _____ why _____ change is _____ sound and visuals.

Changing _____ temporary sound _____ HD.

There is _____ sound or _____ inputs to high definition.

_____ audio and _____ disrupted by _____ inputs?

Audio _____ during _____ changes _____ the _____ setting is _____.

Does _____ inputs _____ to _____ and _____ during high-definition _____?

_____ can _____ inputs affect HD _____?

I switch inputs in HD _____ experiences _____ and _____.

_____ interrupt _____ visual components while operating _____ HD mode?

_____ a brief loss _____ and video _____ you change _____ to _____.

_____ do _____ my _____ from playing?

Changing _____ a _____ of _____ sound and video output.

_____ possible _____ changing inputs _____ high _____ in a loss _____ and video?

HD _____ cut _____ sound and _____ when _____ switched _____?

_____ is _____ momentary _____ picture _____ and sound while using HD mode?

Why does HD mode _____ sound and _____ when _____?

During HD _____ there _____ brief interruption in _____.

There _____ an interruption _____ during HD mode input _____.

What _____ silent when _____ high definition mode?

Do _____ a _____ in high definition?

HD audio _____ cut _____ of _____ to inputs.

I want _____ tarnation _____ the _____ HD picture and sound bad.

_____ is a brief _____ or clarity with high-definition _____ changing _____.

What _____ a _____ high-definition _____ visuals?

_____ you _____ why the quality _____ audio and _____ disrupted?

Is _____ make my HD _____ silent?

_____ audio and visual components while operating _____ mode?

_____ shifting _____ lead _____ some _____ in _____ viewing?

What causes the loss of _____ high-definition _____ changing _____?

What is going on with _____ that _____ audio _____ input _____?

_____ can adjusting _____ make _____ audiovisual _____?

Does _____ inputs lead _____ and visual in _____ viewing?

Why _____ I _____ sound and image _____ switch to _____ mode?

There is _____ brief _____ of _____ changing _____ in HD _____.

_____ am wondering _____ inputs _____ temporary _____ with _____ on.

_____ mode _____ with input switch/ _____

Is _____ for _____ and video blackouts due _____ in the highest _____ setting?

_____ can HD _____ sound and video loss when _____?

Changing the _____ source _____ temporary lack of sound _____ on _____ display.

_____ the input _____ in _____ lack of _____ on a High Definition _____.

When _____ changes _____ to _____?

_____ multiple _____ cause a _____ high _____ and sound?

_____ that changing inputs _____ results in a _____ loss of _____ video?

What _____ to a _____ of high-def audio _____?

Changing inputs _____ momentary loss of sound _____ using HD _____.

_____ input _____ changed in high _____ what causes the loss _____?

_____ brief loss of audio/video when _____ to _____.

_____ inputs cause a _____ of sound _____ video in _____.

When altering _____ inputs, _____ muted or _____ content?

Is _____ a reason _____ switching _____ interrupt _____ visual components _____ HD mode?

_____ altering _____ what leads to temporarily _____ paused _____?

What are _____ momentary loss of _____ audio _____?

What _____ going _____ with _____ HD _____ suddenly _____ or picture?

How is HD downtime _____?

Does _____ affect _____ definition _____ sound?

_____ momentary _____ in _____ and sound occur _____ to different inputs?

Changing _____ a _____ of HD sound _____ output.

_____ a _____ definition _____ and _____ happen _____ of different inputs?

Why do you _____ HD audio _____ visuals _____ temporarily?

Something _____ to temporarily _____ or _____ when _____ high-definition _____.

During _____ what happens when HD _____ disappear?

Is _____ reason _____ inputs _____ the quality of _____ audio _____ visuals?

Do different _____ cause a _____ in high definition _____?

Changing _____ leads to a _____ interruption _____ definition _____ output.

Why _____ you _____ audio and _____ you switch _____?

Why do the _____ video _____ when _____ use _____ inputs?

What causes _____ loss of _____ and _____?

_____ viewing affected _____ audio _____ issues due to _____ inputs?

_____ is _____ impact _____ input _____ impacting _____ sound?

Why _____ the audio and _____ when you _____ to _____?

_____ inputs causes a loss _____ sound when using _____.

_____ the input source causes _____ lack _____ vision _____ a high _____ display.

Changed inputs cause _____ and _____ to _____ out.

Is adjusting _____ HD _____?

When _____ switch _____ is _____ brief audio and video disruption.

_____ the inputs can _____ and _____ in HD _____.

Why does _____ input _____ the media _____?

What causes _____ sound _____ to go _____ I _____ high definition _____?

There _____ a _____ audio-video _____ definition when changing _____.

Shortage of _____ when _____ definition mode, _____ causes _____?

What _____ glitch _____ changing hi-def _____?

Changing _____ leads to _____ of _____ sound or _____.

Is it _____ changing _____ audio and video to _____ cut _____?

_____ there _____ the audio and visual components _____ while _____ HD mode?

_____ is _____ leading _____ HD downtime?

There _____ temporary loss with _____ on _____.

_____ inputs ruin _____ definition visuals _____?

_____ inputs _____ cause _____ loss _____ quality _____ sound when using HD _____.

Why _____ HD _____ swap interrupted _____ play _____?

_____ in _____ HD downtime.

There _____ temporary _____ of sound or _____ High Definition _____ input _____ is changed.

_____ there _____ and video caused by _____ inputs _____ HD?

_____ modification can _____ content _____.

_____ and _____ disruptions when you _____ inputs to high definition _____.

_____ there a _____ the audio _____ are _____ while in _____ mode?

_____ does _____ def mode lose _____ there _____ an input _____?

Changes _____ inputs result in a _____ loss _____ mode.

_____ confused _____ to _____ mode experiences sound and video loss _____ inputs.

How can changing _____ HD _____ video _____?

_____ reason for the _____ audio and video disruption _____?

altering inputs cause _____ and _____ to _____ cut _____?

Does shifting _____ issues _____ both audio and _____ in _____?

_____ the quality _____ HD audio and _____ disrupted _____ are used?

_____ interrupt _____ and video in _____.

_____ a _____ loss of _____ and video when _____ changed?

_____ there a _____ why the _____ and _____ quality _____ disrupted?

_____ does inputs _____ temporary loss _____?

_____ leads to _____ downtime _____ input _____?

Can you _____ the _____ of _____ audio _____ is disrupted?

How can _____ affect audio _____ video quality _____?

Can you _____ inputs _____ audio and visual _____ while _____ HD _____?

When I _____ inputs, _____ Mode _____ and _____ loss.

Why _____ there _____ of high-def _____ or _____?

Does _____ inputs cause _____ and visual _____ viewing _____?

_____ changing inputs in _____ definition mode cause _____ loss _____ sound _____?

_____ high-definition inputs, _____ leads to temporarily _____ or _____?

_____ may _____ momentary sound _____ video blackouts due to _____ alterations _____ setting.

When I _____ inputs, _____ mode _____ off the _____?

_____ loss in high definition visuals and _____ can _____ caused _____.

_____ do different _____ HD go _____?

_____ you know _____ causes HD _____ to experience sound _____?

Is a _____ loss _____ sound and _____ to _____ inputs in _____?

Changes in input _____ lead _____.

Why _____ HD _____ video and sound _____ when _____ switch _____?

_____ changing inputs _____ and _____ during high-definition viewing?

I _____ why HD _____ has sound and _____ switch inputs.

Why _____ inputs interrupt _____ audio and _____ when _____ in _____ mode?

Can _____ tell _____ inputs _____ high _____ causes a _____ of _____ and video?

_____ sound _____ picture, what's _____ with _____ HD input?

_____ inputs will disrupt _____ videos _____ in HD _____.

Changing _____ disrupt both _____ and _____ in _____ setup.

_____ is _____ not being _____ when entering high _____ mode?

altering _____ HD _____ and _____ to _____ cut out.

_____ inputs lead to _____ viewing?

_____ altering high-definition inputs, what _____ the _____ temporarily _____?

_____ inputs _____ HD _____ and _____ be cut out?

_____ switch inputs, _____ mode cuts off _____ and _____?

_____ setting _____ during input changes

_____ do _____ why HD _____ sound and video _____?

What's _____ to the audio/ video _____?

Why _____ in high definition _____ sound _____ video?

_____ come sparkling HD _____ sound _____ image _____ shift?

Changes _____ inputs _____ a momentary _____ both picture quality _____ HD mode.

Why _____ setting _____ audio _____ during _____ changes?

_____ the _____ causes a _____ of _____ vision _____ a high definition _____.

When I switch _____ high _____ and _____ go out.

_____ I switch inputs _____ high _____ sound _____ suddenly stops.

Why _____ you _____ a _____ sound or video when _____ inputs _____ definition?

_____ audio or visuals from _____ change

_____ a reason for HD audio _____ be cut _____?

Why does _____ or _____ go _____ when _____ switch _____ high _____ mode?

_____ changes result in HD _____?

Does changing inputs _____ to _____?

Is _____ because different _____ HD blank or _____?

_____ inputs _____ can cause _____ sound and video.

Is there a _____ for audio- _____ in _____?

Changing _____ causes _____ of HD _____ and video _____.

_____ high-definition _____ by audio _____ issues when _____ inputs?

_____ a loss in _____ definition _____ and sound because _____?

Why do I encounter sound and _____ to high _____?

Why _____ in _____ when changing input sources?

_____ high definition _____ changes there is a _____ interruption in _____.

_____ come _____ changes _____ lead _____ HD _____?

_____ the quality _____ HD audio and visuals gets _____?

Altering _____ audio _____ video _____ be cut out.

_____ inputs can cause _____ hiccup _____

Can _____ tell _____ the _____ input suddenly has _____ picture?

When entering _____ causes the _____ to disappear?

_____ in _____ lack of sound and vision _____ Definition display.

Why does changing inputs _____ high definition _____ in a _____?

_____ causes a _____ high-def _____ or visuals?

When _____ switch _____ definition mode, _____ or _____ goes out.

_____ I switch _____ in high _____ or _____ goes out.

What _____ to _____ downtime _____ input changes _____?

_____ switch _____ interrupt _____ and _____ components while operating in HD _____?

_____ disrupt temporary sound _____ video in HD _____.

_____ to _____ you enter high definition mode?

_____ be _____ sound and _____ because of _____ alterations _____ the highest quality _____.

_____ the _____ a _____ of _____ or vision on _____ Definition display

_____ audio _____ visual components _____ operating in HD mode?

Changing _____ inputs disrupt both video and _____.

_____ loss _____ sound or visual _____ high definition _____ input _____ changed?

What _____ reasons _____ mode experiences sound and _____ loss _____ I _____?

Why do _____ loss of quality when _____ HD mode?

It _____ when _____ inputs _____ definition mode.

_____ HD _____ changes, there is brief _____ in _____ and _____.

_____ can _____ a hiccup in _____.

Does shifting _____ issues with _____ audio and visual _____?

Changing inputs _____ a short _____ sound _____ output.

Is _____ the HD _____ and visuals _____ disrupted?

Is _____ audio and _____ interrupted while operating in HD _____?

Does _____ cause _____ glitch?

_____ does _____ quality of HD _____ and _____ suffer?

HD setting causes _____ to _____ during _____?

Why do _____ both _____ and visual _____ operating in _____ mode?

_____ in _____ a loss of picture _____ sound _____ using HD _____.

How come _____ problems after _____?

Why does _____ quality of HD _____ temporarily when _____ switch _____?

_____ cause of _____ high-def audio and visuals?

_____ after changing _____?

_____ the _____ ongoing glitch after changing hi-def _____?

When modifying high-definition _____ temporarily _____ or _____ content?

_____ would the HD _____ swap _____?

How ____ switching inputs ____ audio ____ while ____ HD mode?
 ____ changing ____ HD mode ____?
 ____ why HD ____ experiences sound and video ____?
 Changing the ____ source results in ____ of ____ or ____ a High ____.
 Do ____ inputs cause a ____ in ____ visuals ____?
 ____ shifting ____ cause ____ audio and video during ____?
 Can you ____ why ____ inputs interrupt both audio and ____ components ____?
 ____ mode ____ loss when I switch the ____.
 ____ audio and video to be cut out.
 ____ inputs in ____ causes temporary loss ____ or video.
 ____ messing with ____ inputs make ____ HD picture ____ right?
 ____ does the audio ____ video interrupt ____ switch ____ to ____?
 Why ____ you ____ the HD audio and ____?
 ____ causes content ____ be ____ muted when high-definition ____ are ____?
 altering inputs ____ HD ____ and video ____ cut ____?
 ____ the ____ High Definition display ____ have a ____ sound or ____.
 Is it ____ changes that you cannot ____ feeds?
 HD mode ____ video when I ____ inputs?
 ____ loss ____ and video when changing ____ into high ____.
 ____ cause ____ loss of high-def audio or ____?
 ____ in ____ messing with the ____ my ____ picture and ____ different?
 Changing inputs ____ and ____ in ____ definition.
 ____ input changes ____ downtime.
 Does ____ lead ____ audio ____ visual issues during ____?
 ____ inputs in high ____ a loss ____ sound ____ video.
 ____ is the ____ inputs interrupt ____ audio ____ visual components ____ HD mode?
 ____ both videos and audio ____ HD setup.
 ____ changing ____ in high ____ in a ____ of ____ or video?
 Why ____ I ____ when I ____ to high definition Mode?
 What leads ____ loss ____ audio ____ visuals?
 Why ____ and video go ____ I switch inputs ____ mode?
 How ____ changing ____ HD ____ video?
 ____ causes ____ of ____ in high definition?
 ____ disrupting the quality ____ HD audio ____ visuals?
 When I switch ____ inputs, ____ mode ____ off ____?
 Changing inputs causes a short ____ HD ____.
 Changing inputs ____ and video ____ be cut ____.
 When ____ definition ____ is ____ what ____ loss ____ sound or visual ____?
 ____ the ____ switching ____ and ____ components while operating in HD mode?
 ____ inputs ____ in HD.
 ____ the switch ____ both audio ____ visual components when operating ____?
 ____ source ____ in a lack ____ and ____ on high definition ____
 Explain how the ____ sound/visuals?
 ____ sound and video ____ in HD ____.
 ____ idea ____ why HD ____ are cut out?
 What ____ consequences of ____ HD sound/visuals?
 Why do ____ experience ____ and video loss ____ over?
 Changing inputs in ____ temporary loss ____ sound ____.
 Why ____ inputs make ____ or blank?
 ____ causes ____ hi-def sources.

_____ input change affecting _____?

The loss in high _____ sound can be _____.

Why _____ loss of _____ audio _____ occur?

_____ causes _____ momentary loss _____ high-def _____ and _____?

_____ can changing _____ audio and video _____ definition?

_____ input _____ HD sound/visuals.

_____ adjusting _____ a reason _____ glitches?

Changing _____ could be _____ of a _____.

_____ because of _____ during input _____ that _____ don't _____ HD _____?

What _____ sudden loss of high-def _____ and _____?

Is it because inputs _____ with _____?

I don't _____ inputs causes _____ video to be _____ out.

What _____ going on with _____ loss of _____ high _____?

_____ inputs cause HD audiovisual _____?

_____ HD mode has sound _____ loss _____ I _____?

Why _____ a _____ loss _____ sound _____ picture _____ when using HD _____?

What causes intermittent _____ hi-def _____?

Why _____ inputs _____ HD audiovisual _____?

_____ what _____ the cause of _____ muted _____ paused content?

Why _____ results in _____ loss of sound _____ video?

Is changing inputs the _____?

_____ loss _____ sound and _____ changing inputs in HD?

Why _____ HD mode _____ video _____ when _____ switch inputs?

_____ a brief loss _____ high definition audio _____?

_____ there a temporary _____ video due to changing _____ in _____?

Why does _____ switch _____ interrupt _____ components while _____ in _____?

_____ are _____ causing HD _____?

_____ is _____ input _____ media?

_____ you tell me _____ mode _____ and _____ loss?

Can you _____ what _____ to _____ sound and video _____?

Is there _____ reason _____ HD mode has _____?

HD _____ input _____ and video.

_____ of high-definition _____ can _____ temporarily muted _____ paused _____.

What's going _____ in high def _____?

Why _____ high def _____ input _____?

_____ are there _____ after _____ sources?

Do _____ why messing with _____ makes _____ HD picture _____ go _____?

When _____ switch inputs in _____ mode, _____ is _____ sound _____ that goes _____.

_____ interruption _____ sound and video _____ HD _____ input changes.

How _____ you _____ why the _____ of _____ audio _____ visuals _____ temporarily?

_____ HD _____ input _____ a brief interruption _____ sound _____ video.

_____ causes _____ loss _____ with high-definition _____ you _____ inputs?

_____ changing inputs in _____ cause a _____ of sound _____?

What causes _____ high-def _____ visuals?

Changing the _____ disrupt _____ videos and _____ setup.

_____ and video to _____ cut out?

HD audiovisual _____ caused _____ adjusting _____

_____ does high _____ with change?

Why _____ input _____ sound/visuals.

Changing _____ in HD _____ temporary loss _____ and video.

_____ audio and video quality _____ when you switch ____?

_____ inputs _____ cause _____ loss of _____ video in _____ definition mode.

_____ feeds _____ interrupted _____ input _____.

Changing the inputs _____ disrupt both _____ in _____.

_____ the input source _____ lack of _____ on _____ definition screen.

Why _____ changing _____ temporarily _____ of HD _____ and visuals?

Is messing with _____ inputs cause _____ picture _____ go ____?

Why does the _____ go out when _____ switch _____ definition?

Why does changing _____ loss _____ video _____ high ____?

Why _____ HD _____ and _____ loss when you _____ inputs?

_____ the input _____ is _____ sound/visuals?

What _____ for _____ and video _____ when using _____ inputs?

Changes in inputs _____ loss _____ picture _____ and _____ while _____ mode.

There _____ a _____ audio _____ when you _____ inputs to _____.

Changing inputs _____ hiccup _____ video

_____ changing inputs _____ definition mode _____ a _____ of _____ or ____?

What _____ the cause _____ momentary loss _____ high-definition _____ or ____?

Do _____ inputs _____ a _____ the high definition _____ and ____?

Content _____ temporarily muted _____ paused _____ are altered.

Why _____ I get _____ and image issues _____ switch _____ mode?

Is _____ in _____ definition _____ and _____ triggered by different ____?

_____ the _____ interruption the media?

_____ does high def _____ with _____ switch change?

Why _____ video when you change inputs in _____?

_____ do _____ cause _____ audio _____ video _____ cut out?

_____ do switching inputs interrupt _____ and _____ components _____ operating in _____?

_____ possible that different inputs _____ loss _____ definition visuals and _____.

_____ input _____ there is _____ interruption in _____ and sound.

_____ don't _____ why in tarnation _____ with _____ makes my _____ and _____.

Why does changing _____ high definition _____ a _____ of sound _____ video?

Changes in inputs _____ in a _____ sound and _____ HD _____.

_____ could be _____ the _____ of audio _____ high definition?

Why do _____ input _____?

_____ high-definition _____ audio _____ visual _____ if you _____ inputs?

When altering _____ leads to _____ content?

_____ know why _____ inputs makes my HD picture _____ sound sound _____.

Change of _____ a _____ of _____ video _____ high definition.

What _____ reason _____ the _____ disruptions when you switch _____ definition?

Changing inputs are _____?

_____ does _____ brief audio _____ occur when _____ to high-definition mode?

_____ can changing _____ temporarily affect audio and _____ definition ____?

Why _____ input _____ HD downtime?

I want _____ know _____ with _____ my HD _____ and sound _____.

Is there a reason _____ HD _____ visual is ____?

How _____ input _____ HD _____.

What is the reason _____ audio _____ video _____ you switch _____?

_____ entering high definition mode, _____ to be ____?

_____ possible _____ switching _____ temporarily interrupt audio _____ visual _____ while operating in _____?

_____ inputs cause HD _____ and _____ to be ____

Why _____ sound and image problems when _____ high definition ____?

____ HD ____ be affected ____ inputs ____ switched?
 ____ input changes cause a ____ sound/video.
 ____ shifting inputs lead ____ issues with audio and ____?
 Changing ____ brief interruption of ____ sound and ____.
 ____ momentary loss of high-def ____ visuals ____ about?
 Why ____ inputs ____ audio and ____ while ____ in ____ mode?
 There is ____ sound or ____ display ____ high ____ input is modified.
 ____ inputs disrupt ____ sound and ____ in ____.
 Can ____ tell ____ why the ____ of the HD ____ disrupted?
 Changing ____ causes the ____ video ____ be cut ____.
 Changing ____ cause ____ momentary ____ of ____ quality ____ sound ____ using HD ____.
 Changing ____ source results in a ____ of ____ vision ____ definition screen.
 Why HD mode ____ and ____ I switch ____?
 ____ there a ____ in high ____ sound when certain inputs ____?
 fleeting ____ audio/visuals ____ high definition ____ what causes ____?
 Does ____ cause issues ____ and visual when ____ high ____?
 Why ____ quality of HD audio and ____ is ____ inputs?
 Why ____ you see ____ interruption during ____ changes?
 How ____ loss of ____ audio ____ visuals ____ caused?
 Why ____ interrupt ____ and visual components during HD ____?
 ____ does changing ____ audio ____ to be cut out?
 ____ inputs disrupt ____ sound ____ video ____ high definition.
 A ____ high definition ____ is possible ____ different inputs.
 Why ____ the ____ sound and video ____ when I ____?
 Is ____ messing ____ the inputs makes ____ HD ____ sound different?
 how ____ input changes ____ to ____
 ____ a ____ in high-definition mode ____ changing inputs?
 Why ____ lose sound ____ clarity when changing ____?
 Changing the ____ disrupt both ____ and ____ in ____.
