

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water quality and safety concerns
Inquiry Sub-Category	Water Testing
Description	Inquiries regarding the process and frequency of water quality testing, including concerns about potential contaminants, bacteria, or chemical pollutants in the water supply.
Data Size	5,020 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

How often is the water _____ pollutants?

Does _____ testing _____ chemicals,bacteria, _____ pollutants?

_____ you know the _____ of _____ chemicals _____ the _____ supply?

Do you _____ water _____ make sure _____ isn't _____ harmful _____ in _____?

Is _____ when _____ testing involves chemicals,bacteria, _____ pollutants?

When _____ the water _____ tested _____ bugs, or _____?

_____ the _____ of testing the water for _____ andbacteria?

I'm _____ on _____ you _____ the tap water _____ harmful chemicals and _____ noxious _____.

_____ for chemicals, _____ andbacteria _____ done _____ weekly or monthly _____.

_____ screened frequently for _____ andbacteria.

_____ frequently would _____ check _____ for harmful _____?

_____ is water _____ to make sure _____ toxins _____?

How frequently have _____ make _____ they _____ filled _____ harmful chemicals?

What _____ Frequency _____ the water _____ harmful effects _____ andbacteria?

_____ they _____ our _____ regularly _____ toxins?

I _____ there _____ tests _____ to _____ pollutants in _____ water.

_____ test the _____ often for _____?

I wonder if _____ regular testing _____ detect _____ pollutants.

_____ is water tested _____ make sure _____ free ofbacteria _____?

_____ are often screened for _____ water.

_____ curious _____ done _____ detectbacteria and pollutants in water.

_____ often _____ your water _____ hazardous chemicals?

How _____ tests _____ and chemicals?

_____ frequently do the _____ for _____ andbacteria?

The _____ testing _____ for pollution _____ is _____.

How often do we _____ water _____?

_____ a _____ to find out if _____ drinking _____ with chemicals _____ germs?

Is there _____ water _____ pollutants?

_____ wonder _____ testing _____ to _____ pollutants _____ is done regularly.
 When _____ water tested to _____ sure _____ free _____ pollutants?
 _____ are _____ water tests _____ chemical _____.
 Is there regular water _____ to _____ chemicals, _____?
 _____ is water _____ make sure it _____ and _____ free?
 _____ chemicals, pollutants and bacteria _____ be done _____ monthly
 "Is a regular _____ in _____ figure _____ water we drink _____ germs or chemical substances _____
 _____ are the _____ checked for _____?
 The water _____ chemicals and bacteria.
 _____ tests detect _____ chemicals.
 _____ water is often _____ chemicals
 How _____ a _____ the water for hazardous chemicals?
 How _____ do they check for hazardous _____?
 Water tests _____ like bacteria _____ chemicals.
 _____ you know when the _____ for _____ or _____.
 Do _____ know the Frequency _____ Testing _____ Pollution _____ in _____?
 There _____ water _____ chemicals, pollutants _____.
 The _____ periodically screened _____ and _____
 _____ the water testing _____ for chemicals, bacteria _____ harmful pollutants?
 _____ tests _____ things _____ and chemicals.
 _____ checked _____ things like bacteria and _____.
 Is the water _____ for _____ and chemicals _____?
 _____ wonder _____ there's testing _____ to _____ pollutants _____ water
 _____ often _____ the water _____ tested _____ things _____ as _____ and _____?
 _____ the _____ tested _____ chemicals, _____ rather _____ just being tested for something, is it _____?
 There _____ frequent _____ that check _____ harmful bacteria and the _____ water.
 I _____ regularly testing is done _____ detect bacteria _____ in _____.
 _____ regular water _____ for bacteria, pollutants, _____?
 _____ are the water _____ for contaminants, bacteria, _____ pollutants?
 _____ you _____ the _____ of testing for the _____ effects _____ in _____ supply?
 How often does _____ be _____ pollutants _____ chemicals?
 _____ many _____ do we check _____ water _____ harmful _____?
 Are water tested _____ make sure _____ of bacteria, toxins _____?
 _____ to ensure it _____ of bacteria, toxins and pollutants?
 How often _____ inspect the _____ spot hazardous _____?
 How _____ year do water samples need to be checked _____ make _____ are _____?
 _____ test the _____ regularly for _____?
 _____ you know _____ of water tests _____ pollution _____?
 The _____ is _____ tested _____ germs _____ pollutants.
 Water _____ and chemicals.
 Is there _____ tests for things _____ and _____?
 _____ water _____ checked for _____ and _____ often than _____.
 _____ we check the _____ for _____ toxins?
 _____ there is _____ done to _____ water's bugs and other _____.
 _____ water _____ done _____ pollution and _____ on _____ basis?
 Do you _____ the _____ regularly _____ make _____ no harmful _____?
 _____ know what the _____ of testing water for _____?
 _____ it _____ for chemicals, bacteria or _____ pollutants?
 _____ the water is tested _____ pollutants, rather than _____ water, _____ it _____?
 _____ it _____ the water is tested for chemicals, germs or _____ than _____ tested _____?

Is it tested _____?

There _____ water _____ that test _____ the _____ in _____ water.

_____ you _____ the _____ on _____ regular basis for _____?

_____ water testing _____ chemicals, _____ pollutants.

_____ of testing the water for _____ of _____ is _____.

There is a _____ about _____ there _____ tests _____ chemicals, _____ pollutants.

_____ check water _____ hazardous chemicals?

Do _____ the water frequently to make _____ it isn't _____?

Do _____ the _____ testing the water _____ chemicals?

How _____ water samples _____ sure _____ don't _____ chemicals that can be _____?

_____ be checked to make sure _____ aren't _____ chemicals that cause _____?

How _____ do _____ check our _____ water _____ and bacteria?

_____ are water samples checked _____ sure _____ not filled _____ harmful _____?

Water _____ for _____ pollutants and bacteria may _____ at _____ weekly _____ basis.

_____ there is _____ done to detect bacteria _____ in water.

Do you _____ Frequency of _____ for _____ effects of chemicals on _____?

_____ often do _____ water for dangerous _____?

_____ it _____ when the water is _____ germs, or _____ instead _____ just _____?

_____ there a _____ for pollution _____ harmful bacteria?

How _____ is _____ tested _____ like _____ pollutants and bacteria?

Does _____ water tests _____ and pollutants?

_____ there _____ water _____ chemicals, _____ pollutants?

_____ testing _____ chemicals, bacteria, or pollutants?

_____ of drinking water for _____ substances or _____ could _____.

_____ it usually _____ is tested for chemicals, germs, _____ pollutants, instead _____ tested for _____?

I wonder _____ testing _____ done regularly _____ detect bacteria _____ pollutants _____.

When is water tested _____ make sure its _____ pollutants _____ other _____?

_____ many times should _____ pollution and bugs?

_____ frequently have _____ to _____ sure _____ aren't _____ with harmful chemicals?

When _____ water tested _____ make _____ it _____ of _____ and bacteria?

Water _____ can check _____ pollutants, bacteria _____.

_____ would we check the _____ harmful _____?

_____ regularly do we _____ harmful chemicals _____ water?

_____ water _____ tested for chemicals, _____ or _____.

_____ often does _____ water _____ for _____ like pollutants _____?

_____ does _____ be _____ chemicals, pollutants and bacteria?

_____ tests for chemicals, _____ and bacteria _____ be _____ a _____ or monthly _____.

Do _____ routinely _____ for hazardous _____?

How often do _____ check _____ chemicals in _____?

_____ often do the water tests _____ and bacteria?

_____ tests check _____ pollutants, bacteria, _____ chemicals

There _____ regular _____ to _____ chemicals, _____ pollutants.

_____ frequently are _____ to _____ sure _____ have harmful chemicals?

_____ water is _____ for chemicals, _____ just _____ tested, is it usually?

How often _____ checked _____ make _____ don't have chemicals _____ can _____?

A _____ screening _____ drinking water _____ is _____ to make sure the _____ is safe.

Did you _____ the _____ of _____ water _____ of chemicals and bacteria?

When is water _____ make _____ it _____ of bacteria and _____?

_____ tests _____ pollutants, _____ may be done _____ a _____ or monthly _____.

_____ it _____ when the water _____ chemicals, germs or pollutants, rather than _____ for _____?

I _____ on how often you _____ water for _____ chemicals.
 _____ the _____ is _____ or _____ is it usually?
 _____ often have water _____ to make sure _____ filled _____ that endanger _____?
 _____ frequently do we _____ our water _____ chemical _____?
 How _____ we check _____ water for _____?
 _____ wondered if there _____ done _____ detect bacteria, pollutants _____ water.
 Is _____ testing usually _____ to _____ pollutants?
 How _____ water is tested for _____?
 How often _____ the water _____ chemicals, _____?
 _____ often is _____ water _____ and chemicals?
 Do _____ know the Frequency of _____ the water _____ effects _____?
 _____ water _____ chemicals, and _____?
 Water _____ for chemicals, pollutants _____ be done on _____ or _____
 _____ wondered _____ was regular _____ detect bacteria and _____ in _____ water.
 _____ wonder _____ there _____ testing done to detect the _____ pollutants.
 _____ water _____ look _____ for _____ chemicals often?
 _____ you _____ how often _____ water _____ is _____ for _____ and bacteria?
 _____ water _____ a regular _____ the pollution _____ chemicals?
 _____ monthly _____ tests for _____ and bacteria
 _____ tests _____ for chemicals _____?
 _____ it _____ when water _____ is for _____ pollutants?
 _____ is often _____ and chemicals.
 Do _____ the water for _____?
 Is _____ often when _____ is _____ chemicals, bacteria, _____ harmful pollutants?
 The water is _____ for bacteria _____.
 Do you _____ how _____ the water is _____ for _____ on _____ environment?
 _____ our _____ water for _____ toxins?
 _____ wonder if _____ is testing _____ to detect bacteria _____ water
 _____ things like pollutants, bacteria _____ more _____ than not chemicals.
 I wonder _____ testing to detect bacteria and _____.
 Do _____ test _____ water often to _____ no _____ chemicals?
 _____ test the _____ make sure _____ aren't _____ hazardous chemicals?
 Water tests can _____ pollutants, bacteria _____ often _____ chemicals.
 _____ curious if _____ testing done _____ water's _____ and other pollutants.
 _____ you know _____ the water is _____ pollution _____.
 _____ often have _____ to _____ sure they _____ not filled with _____ that _____?
 How many _____ we water be _____ and _____.
 I wonder _____ there is _____ to detect bacteria _____ water.
 _____ tests _____ chemicals, pollutants, _____ be done _____ or _____.
 _____ process _____ place _____ figure _____ if the _____ has _____ or chemical substances in _____?
 _____ wonder if _____ are regular _____ done _____ detect _____ water's _____ and _____.
 _____ often _____ water _____ hazardous chemicals?
 _____ have water _____ checked to _____ they _____ have chemicals _____ could _____ harmful?
 Water tests can _____ used _____ check _____ chemicals.
 Is water _____ done _____ chemicals?
 _____ pollutants, _____ and _____ are done frequently.
 Regular screening _____ water for _____ germs _____ be a way to _____.
 _____ often are _____ samples _____ to make _____ they don't have _____ can _____?
 _____ often _____ you _____ chemicals _____ the water?
 How frequently _____ we _____ the water _____?

_____ frequently do _____ inspect _____ water to detect _____ ?
 When _____ water tested _____ sure _____ is free from bacteria _____ ?
 _____ do you check _____ harmful _____ the water?
 There _____ water tests _____ chemicals, _____ .
 Do _____ the water _____ to make sure it _____ ?
 Water _____ is _____ look _____ and chemicals.
 _____ need _____ test the _____ for harmful chemicals and other _____ substances.
 I'm _____ if _____ regular _____ detect bacteria, pollutants in _____ water.
 _____ you _____ water _____ chemicals, often?
 Water _____ are _____ check for pollutants, bacteria, and _____ often _____ .
 How often have _____ samples checked to _____ don't _____ chemicals that _____ ?
 _____ often are water _____ to make _____ don't contain _____ harm?
 I _____ know the _____ times you test the _____ chemicals _____ other _____ substances.
 _____ you _____ the _____ for _____ chemicals?
 _____ often _____ water samples checked to _____ have any _____ that _____ cause _____ ?
 Is there _____ pollutants and _____ ?
 _____ you _____ the _____ times _____ hazardous chemicals?
 _____ the water checked _____ chemicals?
 _____ of testing _____ water _____ for harmful effects of chemicals _____
 _____ samples _____ to make _____ they are _____ that can cause harm?
 _____ tests will check _____ and more _____ not _____ .
 Do they _____ harmful toxins _____ ?
 Is there a _____ in _____ determine _____ water _____ drink has _____ substances _____ it?
 _____ wonder _____ to find bacteria _____ pollutants in our water.
 _____ often do _____ the _____ to see hazardous _____ ?
 _____ have water samples checked _____ sure _____ don't _____ that _____ harm?
 I wonder _____ water _____ regularly _____ detect bacteria, pollutants.
 How often _____ water _____ for pollutants and _____ ?
 _____ you _____ the _____ for _____ chemicals?
 _____ you test _____ make _____ there are no harmful _____ ?
 _____ tests _____ pollutants _____ done on _____ weekly or monthly level.
 _____ Frequency of _____ the water supply for _____ ?
 _____ water _____ tested _____ chemicals, _____ or pollutants, rather _____ being _____ for water, is _____ usually?
 _____ frequently _____ water _____ need to _____ checked _____ make _____ they aren't _____ with _____ that _____ harm?
 How _____ times _____ the _____ for chemicals?
 _____ the water tested to _____ and pollutants _____ ?
 I wonder _____ there _____ testing to _____ pollutants in _____ .
 I wonder if there _____ detect bacteria, pollutants _____ .
 How _____ do we _____ tests to _____ sure the water _____ ?
 _____ they _____ drinking _____ for harmful _____ ?
 Do we have _____ regular screening process _____ determine _____ water is _____ chemical _____ or _____ ?
 Is _____ usually _____ germs or pollutants, instead of _____ ?
 Is _____ tested for _____ and _____ ?
 How _____ do _____ check _____ for _____ chemicals?
 Is _____ for chemicals on _____ regular _____ ?
 How _____ times have we checked _____ harmful _____ ?
 _____ water tests for pollution _____ done _____ a _____ ?
 _____ tests _____ and chemicals frequently?
 _____ when the _____ for chemicals, germs or _____ instead _____ just being _____ ?
 _____ many _____ should we _____ for bugs and pollution?

_____ you _____ is _____ to make _____ it is _____ toxins and pollutants?

The _____ is _____ and _____ very _____.

_____ test the water _____ make sure there are _____ the _____?

Is this usually when _____ is for _____ pollutants?

Is _____ when _____ tested for _____ germs or pollutants, _____ than just being tested _____?

_____ and _____ screened for the _____.

Do you _____ tests for _____ harmful bacteria?

_____ chemicals, _____ can be done regularly.

Do you _____ the _____ of _____ water supplies _____ effects of _____?

Do _____ test _____ for chemicals?

_____ regularly have _____ tests for pollution _____?

Do water _____ look _____ chemicals _____?

_____ have a regular _____ if _____ drinking water is _____ with chemicals or _____?

How frequently _____ the _____ checked _____ make sure they _____ have _____ harmful?

I _____ there's regular _____ for bacteria and pollutants _____.

How _____ have _____ to make sure _____ with chemicals that _____ be harmful?

_____ frequently for _____ and chemicals?

_____ is _____ find _____ if it is _____ of bacteria, _____ and pollutants?

When _____ is _____ for chemicals, _____ pollutants, rather _____ just _____ tested for _____ usually?

When is the _____ tested _____ free of bacteria, _____?

How _____ we check out _____ harmful _____?

Do _____ check _____ for _____ frequently?

Do water test _____ out _____?

Do _____ know if _____ regular water tests _____ and _____?

Is _____ chemicals _____ checked _____?

Do you test _____ water often to _____ sure _____ dangerous _____?

Is it _____ testing for _____ or _____?

Is it usually _____ chemicals, bacteria, or pollutants?

The _____ for bacteria and chemicals _____.

_____ if there is _____ done to _____ and _____ in _____.

_____ you test the _____ often _____ it is _____ of chemicals _____ things?

_____ a process _____ place _____ if _____ water we drink has _____ or chemicals _____?

_____ samples _____ to make _____ they are _____ filled _____ harmful chemicals?

I wonder if there is _____ pollutants in _____.

_____ is usually _____ for _____ rather than just water.

_____ often when _____ testing _____ chemicals, bacteria or pollutants?

The water _____ pollutants, bacteria and _____.

When is water _____ sure that _____ of bacteria _____ pollutants?

_____ samples _____ checked to _____ sure _____ aren't filled _____ chemicals that can cause _____?

Is _____ and bacteria _____ regularly?

I _____ there _____ regular _____ done to _____ pollutants _____ the water.

When the water is _____ chemicals, _____ rather than _____ water, is it usually?

The _____ screening _____ and chemicals.

The water _____ check for _____ and chemicals.

_____ water _____ regularly _____ for bacteria _____ chemicals.

_____ the number _____ conducted _____ for pollutants and bacteria _____ water?

_____ you testing the _____ chemicals?

How often is the _____ for _____?

I _____ if _____ to detect bacteria and pollutants in _____.

_____ water _____ to make _____ it's free of bacteria, pollutants _____?

_____ tests _____ things _____ pollutants, bacteria, and _____ than not chemicals.

I wonder _____ there is regular _____ to _____ bugs _____ other _____.

A _____ of _____ water for chemical substances _____ germs could _____ way _____ check _____ safe.

When _____ water tested _____ make sure _____ and bacteria?

How often have water _____ to _____ aren't _____ with chemicals _____ harmful?

Is _____ usually when the water _____ for _____ germs or pollutants, instead _____ for _____?

How often _____ water samples _____ to _____ free of _____ that _____ the environment?

_____ should water samples be _____ make _____ they don't contain _____?

_____ should _____ be tested to make _____ it's free _____?

_____ water _____ for _____ and chemicals frequently?

Is a regular _____ to know if the water _____ or chemical _____ it?

_____ regular _____ of _____ water for chemicals or _____ could _____ used _____ if the water _____.

When the _____ testing _____ chemicals, bacteria, _____ harmful pollutants _____ usually?

I wonder if there's _____ done _____ the water.

_____ often _____ check the _____ for harmful _____?

_____ they _____ out _____ water _____ toxins?

_____ tested to make _____ that it is _____ of bacteria, _____ pollutants?

How frequently does the _____ be _____ and bacteria?

I _____ there _____ regular _____ to detect bacteria and _____ in _____.

_____ water's bugs and _____ were regularly tested.

How frequently _____ water samples _____ they don't have _____ in them?

How _____ do water samples _____ checked _____ make _____ they don't _____ harmful _____?

Do _____ the _____ for hazardous _____?

How _____ does _____ water be tested _____?

Water _____ check _____ pollutants, bacteria and _____ than _____ chemicals.

_____ there _____ testing done _____ detect bacteria _____ water?

Do we _____ for _____ chemicals?

_____ water is _____ for chemicals, _____ and _____ instead of just water?

I wonder _____ regular tests done to _____ bugs _____ other _____.

Are the _____ for _____ pollutants?

_____ those _____ and bacteria being _____?

Water tests are done _____ and more _____ not _____.

Water _____ can be used to _____ and _____.

Is _____ usually when the _____ for _____ or _____?

_____ if there's _____ done to detect bacteria and pollutants _____.

_____ water _____ always _____ for _____ and _____?

Is water _____ pollutants, bacteria, and _____?

_____ the _____ tested to _____ sure it is _____ of bacteria and _____?

_____ frequently _____ water _____ harmful chemicals?

_____ at _____ drinking _____ for toxins and bacteria?

Water _____ check _____ and _____.

_____ is water _____ make _____ that _____ water is _____ of _____ and bacteria?

_____ is _____ tested _____ sure that _____ water _____ of bacteria, pollutants, and _____?

_____ frequently _____ water samples _____ to make _____ not filled _____ harmful _____?

The _____ germs or _____ instead of just being evaluated _____ water.

Is _____ usually tested for _____ germs _____ rather _____ just _____?

How _____ samples _____ make sure they _____ have chemicals that _____?

_____ regular _____ for pollutants, bacteria, and _____.

It's possible _____ water is _____ by regular _____ for chemical _____ or _____.

Is _____ done _____ pollutants, bacteria and _____?

_____ possible to _____ water's _____ by _____ screening for chemical _____ or _____.

_____ you _____ the _____ is tested for the harmful _____ chemicals?

Is there _____ for bacteria, _____ and _____?

_____ is water tested to _____ free of bacteria, pollutants _____?

When _____ water tested _____ make sure it _____ free _____?

_____ there _____ water tests for _____?

_____ they ever check _____ drinking water _____ and bacteria?

Do you test _____ water often _____ it _____ have _____?

_____ tests _____ chemicals, pollutants _____ be done _____ weekly _____ monthly level.

I wonder _____ regular testing _____ water's bugs _____ other pollutants.

_____ is usually _____ for chemicals _____.

Do you _____ the _____ of testing _____ for pollution _____?

Is _____ process _____ out if the water _____ drink has _____ in it?

_____ this usually when water testing _____ for _____?

When the water _____ for chemicals, _____ pollutants, _____ water, _____ it usually?

There are regular _____ tests _____.

How _____ are we checking the _____?

When does _____ for _____ and _____?

_____ for hazardous toxins _____ our drinking water?

Is _____ when _____ water is tested for chemicals, _____ pollutants, _____ just being evaluated _____.

_____ and _____ are screened _____ water.

Is it usually when _____ water _____ tested for _____ pollutants _____ being tested _____ it?

_____ testing _____ to _____ sure it doesn't contain harmful _____?

_____ often are water _____ make sure they _____ have _____ can cause _____?

Do you _____ water frequently to _____ sure it is _____?

How _____ check _____ for toxins?

How frequently _____ sure the water is _____ of _____?

Do _____ often _____ water for _____?

Is _____ usual _____ water _____ for chemicals, bacteria, _____ harmful pollutants?

Is it _____ the water is _____ for _____ or pollutants, rather _____ tested for _____?

_____ you know _____ water is tested _____ and bacteria?

bacteria and chemicals are _____

_____ many _____ should we _____ be _____ bugs and pollution?

Do they _____ for _____ toxins _____?

_____ the _____ pollutants, bacteria and chemicals?

Is the _____ testing _____ harmful _____ usually?

Water _____ can _____ pollutants, bacteria, and _____.

_____ you test for chemicals in _____?

Is _____ always when _____ is _____ for _____ pollutants, rather than just _____ tested for _____?

Do you _____ the _____ to _____ are no dangerous _____?

Does anyone _____ the Frequency _____ the water supply _____?

_____ know how _____ the _____ is _____ pollutants and chemicals?

Is _____ tested _____ chemical _____ often?

What number of times should _____ checked for _____?

Water _____ can _____ checked _____ contaminants, bacteria, _____ pollutants.

_____ to see if _____ and more often than _____ chemicals, _____.

_____ you _____ the Frequency _____ water _____ for pollution and bacteria?

How frequently _____ samples _____ make _____ are _____ of harmful chemicals?

I _____ there's _____ done to detect _____ bugs _____ other pollutants.

_____ the water _____ or pollutants, _____ it usually?

_____ process _____ to determine _____ water we drink has _____ chemicals in it?

Is _____ quality checked _____ contaminants, bacteria, _____ chemical _____ frequently?

_____ you _____ test _____ water _____ make sure _____ contain harmful _____?

_____ is water tested to _____ sure _____ coliforms, _____ and other _____?

_____ are regular water tests that _____ and _____ in _____.

_____ regular screening of drinking _____ chemicals or _____ could be _____ way _____ the _____ is _____.

_____ chemicals _____ checked often?

Is _____ regularly _____ and chemicals?

_____ is water _____ to make sure _____ is _____ and _____

_____ times _____ we _____ the water for _____ chemicals?

Is it typically _____ the _____ is _____ chemicals, bacteria, _____?

There _____ regular _____ tests for bacteria, chemicals, _____.

_____ you periodically test _____ chemicals?

How _____ do water _____ get _____ make sure _____ free of _____?

I _____ if regular _____ done to _____ and other pollutants.

_____ screening of drinking _____ chemical substances _____ germs _____ be a way _____ find _____ the _____ is _____.

There _____ water _____ that _____ for pollutants, bacteria _____.

_____ often _____ for chemicals and pollutants?

Do _____ what the _____ of _____ for pollution and bacteria?

Do _____ the Frequency _____ water _____ harmful effects of chemicals on _____?

Is _____ water _____ a regular basis _____ and _____?

_____ it usually _____ the water _____ harmful chemicals, germs _____ pollutants, _____ than just _____ for _____?

_____ curious _____ there _____ testing _____ detect bacteria and pollutants in _____.

_____ check for pollutants _____ often?

What is _____ of _____ the _____ is checked _____?

_____ regularly check our drinking _____?

Do _____ how _____ the _____ is tested _____ the effects _____ chemicals _____?

Do _____ test _____ water _____ sure there _____ dangerous chemicals?

Is _____ checked for _____?

_____ you _____ water is tested for pollutants and _____?

_____ do you _____ water _____ dangerous chemicals?

_____ undergoes _____ screening for bacteria and _____.

How _____ are _____ make _____ they aren't filled with harmful _____?

_____ know _____ of _____ water for pollutants or bacteria?

_____ often have _____ checked _____ sure _____ don't have chemicals that _____ harm?

_____ there regular water _____ and _____.

Do they occasionally _____ our _____ water _____?

_____ the _____ tested for _____ like _____ pollutants and bacteria?

_____ interested in learning _____ you test _____ water _____ harmful _____.

_____ you know when _____ is tested _____ make sure _____ is _____ pollutants _____?

_____ the _____ gets tested _____ chemicals, bacteria, _____?

_____ they _____ check _____ toxins _____ water?

_____ have water _____ to _____ they _____ filled with _____ that could _____ harm?

Do you _____ if _____ is _____ water _____ chemicals, and _____?

_____ frequently _____ we check the _____ for _____?

_____ you _____ the water _____ make sure _____ doesn't _____ any _____ in it?

_____ is _____ to _____ if _____ is _____ regularly _____ it _____ chemical substances or germs.

Does a _____ in _____ to _____ out if _____ has _____ or chemical substances in _____?

_____ tests _____ for pollutants, bacteria, _____ chemicals.

_____ can _____ for pollutants, bacteria _____ more _____ than _____ chemicals.

_____ the _____ to make sure _____ are no _____ chemicals?

Water tests can _____ pollutants, bacteria, _____ often than _____.

When is _____ sure _____ free from coliforms, pollutants _____ other _____?

_____ for _____ and bacteria _____ be done _____ a weekly or monthly _____

When _____ water _____ see if it is _____ toxins _____.

_____ regular screening of _____ water _____ substances or _____ a way _____ if the _____ safe.

How _____ water _____ for bacteria _____ chemicals?

Do you _____ water _____ hazardous _____ times?

_____ pollutants, chemicals and bacteria may _____ weekly or _____.

Do _____ know _____ Frequency _____ the water for _____ chemicals and bacteria.

Do _____ check out _____ chemicals often?

Is it usually _____ the water _____ chemicals, bacteria _____?

_____ Frequency of testing water _____ pollution and bacteria?

How often _____ water _____ pollutants, and bacteria?

Is _____ drinking _____ regularly assessed _____ and bacteria?

_____ and _____ often screened for _____ the _____.

Does _____ an _____ the _____ testing the water supply for _____?

_____ frequently do _____ samples be checked to _____ sure _____ are _____?

_____ frequently _____ samples checked _____ make _____ they are free _____ harmful _____?

_____ the Frequency _____ testing the _____ supply _____ harmful effects of bacteria?

How often _____ samples checked _____ make sure _____ have _____ chemicals?

Do _____ test _____ routinely for _____?

_____ have _____ samples _____ to make _____ aren't filled _____ chemicals _____ the environment?

_____ they check our drinking _____ regularly?

_____ often _____ the _____ things such as chemicals, _____ and bacteria?

_____ is tested _____ chemicals, germs, _____ rather than just _____ tested _____ chemicals, is _____ usually?

Would _____ know the _____ supply _____ harmful effects of _____ and bacteria?

_____ look at pollutants, bacteria, and _____ often _____ chemicals.

I wonder _____ the water's _____ other _____ are _____.

How often _____ take _____ at the _____ hazardous chemicals?

_____ frequently _____ to make sure it _____ free of _____ chemicals?

How often should _____ be _____ for pollution _____?

Is there a process in place to figure _____ if the _____ drink _____?

_____ you _____ the _____ of _____ the _____ harmful effects of chemicals _____?

I _____ interested _____ knowing _____ often you test _____ harmful _____.

How _____ have _____ samples _____ don't _____ any chemicals that can harm?

There _____ tests _____ pollutants, _____ chemicals.

Water tests can _____ pollutants, bacteria, _____ than not chemicals.

The _____ is routinely _____ for bacteria _____

I _____ if there is _____ and pollutants in _____ water.

_____ the _____ tests _____ things like pollutants and bacteria?

Do you _____ the _____ water _____ and bacteria?

_____ you _____ how _____ water is tested _____ and bacteria.

I _____ there's _____ testing _____ detect water _____ and _____ pollutants.

Is _____ when _____ water is _____ germs or _____ than just _____ tested for food?

Is _____ water _____ done for _____ pollution _____?

Does anybody _____ the _____ of _____ water _____ and bacteria?

_____ often do we check on the _____?

_____ be checked _____ for _____ chemicals.

How _____ water _____ checked to make _____ they _____ full _____ harm the environment?

_____ often _____ the water _____ tested _____ chemicals?

_____ water _____ out _____ chemicals regularly?

Do you _____ water _____ hazardous _____?

_____ you inspect _____ hazardous chemicals?

Is water tests done _____ chemicals?

A _____ checks _____ and chemicals.

_____ are _____ water tests _____ pollutants from the water.

_____ do you check the _____ hazardous _____?

_____ is water tested to _____ it _____ of bacteria _____ pollutants?

Is _____ water _____ for _____ or _____?

How often does _____ water _____ tested _____ things _____ chemicals _____?

Do you test _____ frequently to _____ sure _____ there _____ no _____?

_____ it usually _____ the water _____ chemicals, bacteria, or _____?

_____ they regularly _____ water for _____ toxins?

_____ frequently have _____ samples _____ make _____ they _____ filled with harmful _____?

Is the _____ chemicals, bacteria _____ pollutants?

I _____ the water _____ regularly _____ and pollutants.

_____ water _____ to _____ sure it _____ free _____ and toxins?

_____ water samples _____ to make _____ chemicals that can harm?

_____ it _____ when _____ water _____ chemicals, _____ or pollutants, instead of _____ being tested for _____?

When is _____ water _____ to _____ that _____ free of bacteria, _____ contaminants?

What Frequency of testing _____ supply _____ harmful _____ chemicals _____ is _____?

_____ check the water for _____ toxins?

When water testing _____ or harmful _____ usually?

_____ for pollutants, bacteria, and _____

Do _____ know the _____ of _____ supply for _____ effects _____ chemicals

_____ often _____ checked _____ make sure they aren't _____ with harmful chemicals _____ harm _____ environment?

_____ frequently _____ checked to make sure _____ with chemicals that can _____?

The water _____ for _____ often _____ not, chemicals.

_____ the Frequency of testing for harmful _____ chemicals _____?

_____ there _____ water test for _____?

Do _____ water frequently _____ sure _____ aren't any hazardous _____?

Often, _____ is screened _____ and _____.

_____ have water samples _____ make sure _____ are no _____?

Do _____ for hazardous chemicals?

Is the _____ pollution and chemicals _____?

_____ to check for _____ and chemicals.

_____ am _____ if _____ is regular _____ done to detect bacteria, _____.

How often _____ to _____ they _____ any chemicals that are harmful?

When is water _____ it's free _____ and _____?

_____ the water _____ for _____ pollution _____ chemicals?

Do authorities _____ chemical _____ waters?

I wonder _____ is _____ tested _____ and pollutants.

There _____ tests _____ chemicals, _____ and bacteria.

I wonder if _____ regular _____ detect bacteria _____ pollutants.

_____ it _____ is _____ for chemicals, _____ or pollutants, _____ than just being tested for _____?

_____ they regularly _____ the drinking _____ for _____?

Water tests are _____ to _____ out _____ often _____ chemicals.

_____ am curious about _____ often you _____ the water _____.

How _____ have water samples been _____ to make _____ are _____ filled _____?

_____ wonder if there's testing _____ detect water's bugs _____.
 Do you _____ how often the _____ effects _____ chemicals and bacteria?
 How _____ the water _____ pollutants?
 _____ water _____ tested _____ chemicals, germs _____ of just being _____ water, _____ it usually?
 Are _____ regular _____ for _____ and _____?
 Are there a _____ the water _____ for harmful effects _____?
 _____ are _____ tests that check _____ harmful bacteria _____ pollutants _____ the _____.
 bacteria _____ screened _____ often _____ the water
 _____ anyone _____ Frequency _____ testing the water for _____ of chemicals _____?
 Is water _____ and _____ frequently?
 _____ testing _____ chemicals, pollutants and bacteria _____ be _____ a weekly or _____.
 _____ wonder if _____ done to _____ and _____ in _____ water.
 _____ it _____ when the _____ for _____ germs or pollutants, rather _____ just _____ tested _____?
 When _____ water _____ tested _____ chemicals, bacteria, or _____?
 _____ wonder _____ there are _____ done _____ pollutants in _____ water.
 _____ if _____ are regular _____ to detect bacteria, _____ in the _____.
 _____ a process in _____ to figure _____ water _____ drink _____ germs _____ substances in it?
 Does water have _____ tested to _____ it is _____ toxins _____?
 Do _____ drinking water for _____ toxins regularly?
 _____ a regular _____ figure out _____ water _____ has germs or chemicals in _____?
 I _____ if _____ regular testing to _____ pollutants _____ water.
 _____ tests _____ be used _____ more often than not chemicals.
 _____ frequently the water for _____ and bacteria is _____?
 _____ the water _____ chemicals, bacteria, _____ harmful _____?
 I wonder if testing _____ done _____ and _____ our _____.
 I _____ are _____ regularly _____ detect bacteria _____ in the water.
 Is it _____ when the _____ is _____ for _____ or _____ not just _____?
 _____ often _____ the water for harmful _____?
 _____ it _____ when the water is _____ germs _____ rather than _____ being _____ for other _____?
 _____ frequent are we to check the _____?
 _____ you know the Frequency _____ testing the _____ for _____ chemicals?
 I wonder _____ testing _____ done _____ pollutants in _____ water.
 How _____ times _____ you _____ the _____ hazardous chemicals?
 Do _____ a _____ Frequency of testing _____ supply for _____ chemicals?
 A regular _____ of _____ water _____ or germs could _____ a _____ if _____ is safe.
 The _____ is _____ tested for chemicals, _____ pollutants _____ just being evaluated _____.
 _____ it _____ water tests _____ about chemicals, bacteria, _____ pollutants?
 Do you _____ the water often _____ make _____ isn't _____ harmful _____?
 Do _____ water _____ make certain it doesn't _____ harmful _____?
 _____ you test _____ frequently to _____ free of chemicals?
 Do _____ how _____ samples are checked _____ make sure _____ with harmful _____?
 _____ does we check _____ water for _____?
 How often _____ tested for _____?
 How _____ have water _____ checked _____ make sure _____ filled _____ chemicals.
 _____ water tested frequently _____ pollution _____ chemicals?
 Do _____ occasionally test _____ water for _____?
 When is _____ to make sure that _____ and _____?
