

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Car heater not working properly
Inquiry Sub-Category	Temperature control issues
Description	Customers find that they are unable to properly control the temperature of the air coming from their car's heater. This could be caused by a faulty temperature control valve, blend door actuator, or a malfunctioning thermostat.
Data Size	6,557 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

What ____ some ____ signs ____ indicate ____ malfunctioning ____ affecting proper ____ ____ vehicle's heater?
____ are some signs ____ impaired thermostat is interfering with ____ ____ of ____ vehicle's ____ ?
