

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Power outage reports and updates
Inquiry Sub-Category	Outage safety
Description	Customers seeking guidance on how to stay safe during a power outage and mitigate risks.
Data Size	8,624 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ should _____ if someone _____ electricity-dependent medical _____ particularly _____ light of potential _____?

How to handle _____ the _____ of _____ power _____.

What should the people _____ use _____ devices _____ if _____ a _____?

_____ dependence on electric _____ steps _____ loss electric?

_____ reliant on electricity-driven medical _____ do _____ the power goes _____?

There _____ needed _____ cuts for _____ machines.

_____ medical _____ users _____ for power interruptions?

In case of power _____ how _____ continuity of care be _____?

There _____ precautionary measures needed _____ health _____.

_____ are _____ to be taken to safeguard _____ who _____ on _____.

What _____ on medically needed _____ to consider when there are disruptions _____?

If _____ equipment _____ electricity and there's a _____ cut, _____ do?

_____ do if my _____ is in _____ of electricity?

_____ users _____ health machines _____ for the _____ of power _____?

_____ person reliant on _____ the event of a power shortage?

In case _____ power _____ electronic healthcare tools, _____ care _____ of care?

The _____ dependent _____ precautions during power _____.

_____ someone with _____ healthcare devices _____ service disruptions, _____ advise the necessary _____.

What should users of _____ dependent _____ do _____ there _____ shortage?

Should _____ medical device _____ power _____?

How to handle _____ devices?

_____ deal with the loss of _____ medical _____?

What precautions _____ of someone _____ on medically _____ utilities _____ by _____?

There are precautions needed in _____ health _____.

_____ precautions must _____ taken _____ someone reliant on _____ equipment?

How do _____ with electrical _____ devices _____ can _____ off?

_____ there are _____ interruptions, _____ device users prepare?

_____ should users _____ electricity-dependency _____ for _____ power cuts?

_____ I do if my _____ power?

_____ should be taken _____ dependent _____ electricity for their medical _____?

_____ should _____ with _____ medical devices do _____ failure?

What _____ machinery do to prepare for _____ failures?

Any recommendations regarding _____ hitting people _____?

_____ be taken into account by _____ depend on _____ therapeutic _____ in the event of _____?

Next _____ loss _____ and someone _____ on electric _____?

What _____ done if someone _____ on electricity-dependency _____?

Someone depend _____ electric medical _____ next _____ loss _____?

When _____ electricity for _____ what should _____ into _____?

_____ advice for _____ using _____ powered _____?

What _____ need _____ can't _____ because of a power _____?

What _____ power _____ out, and someone _____ health _____?

_____ step _____ electric? Someone rely _____ medical gear.

_____ use _____ devices in the event of a _____?

When _____ with _____ possibility of a blackout, _____ electronic health apparatus?

_____ should users of electricity- _____ health _____ prepare _____ potential _____?

What _____ be _____ relies on electricity _____ their life-saving equipment?

_____ there _____ for individuals _____ powered medical equipment?

_____ cuts hitting _____ using electrical- _____ aids?

_____ sure _____ to _____ if _____ medical _____ needs electricity.

_____ about the use of _____ for medical _____?

What if _____ and someone needs medical _____.

What _____ must be _____ account _____ patients who _____ electronical-based therapeutic machines _____ event of _____ failures?

_____ should users of health machinery _____ for _____ possibility of _____?

How _____ someone _____ depends _____ electric-powered healthcare _____ with _____ failures?

_____ medical equipment _____ is _____ electricity and must _____ secured.

What's _____ game _____ have health _____ that depends _____ electricity?

Important _____ by anticipated _____ cut, who _____ electrical _____ healthcare tools?

_____ person _____ a life-saving device, _____ should be _____ in the event of _____ power _____?

contingency _____ who _____ on power for _____ during _____ disruptions

What actions should _____ when _____ depends on electric _____?

How to _____ with medical _____ the event of _____.

How should people _____ on electricity _____ medical _____ for the _____ power cut?

When _____ juice _____ what _____ the solution for people _____ on _____?

Ensuring access _____ power cuts _____ those requiring electricity- _____ medical _____.

How _____ keep power _____ there _____ a _____ on medical _____.

_____ how _____ for people with _____ medical equipment?

_____ equipment could experience _____.

If you _____ how to _____ with _____ shortages?

How _____ someone _____ depends on electric _____ healthcare _____ potential grid _____?

_____ should _____ use medical devices if _____ is a _____?

_____ the power goes out, _____ game plan _____ health _____?

_____ an _____ on _____ medical tools do in the event of _____?

_____ device users make _____ they _____ power?

_____ faced _____ the _____ of a blackout, _____ you _____ guidance _____ electronic _____ equipment?

_____ actions _____ be taken _____ a _____ if _____ person depends on _____ apparatus?

_____ should people with _____ devices _____ potential _____?

_____ the grid _____ blacked out, _____ should I _____ electricity-hungry _____ gadgets?

There _____ needed for _____ dependent _____ power interruptions.

People _____ medical devices _____ aware of _____ failures.

_____ you _____ with _____ using _____ electrical devices?

Should chronic _____ be _____ power reductions?

What action _____ if someone relies on electricity _____?

____ can I do if ____ power goes ____ and ____ electricity?
 ____ on electric ____ gear
 ____ using electrical ____ gadgets should know ____ to ____.
 ____ are some ____ that should ____ taken ____ for ____ equipment.
 ____ deal ____ power ____ medical devices?
 ____ steps should ____ taken for ____ who ____ on ____ their medical ____?
 ____ possible power failure, how ____ ensure ____ to life-sustaining ____ healthcare ____?
 Do ____ know what a ____ with ____ electric ____ do ____ goes out?
 How should ____ of ____ dependent ____ machinery ____ potential power ____?
 How ____ health machinery be ____?
 ____ to keep ____ devices ____ the ____?
 ____ be done about ____ on ____ medical equipment?
 ____ dependent ____ medical equipment, ____ protocols ____ be ____ when the power ____?
 In the ____ of grid failures, ____ instructions should be ____ account ____ who ____ on electronical-based ____ and ____
 ____ should I do with ____ health gadgets when ____?
 Can ____ device users prepare ____?
 ____ any suggestions ____ electric-powered medical equipment?
 What ____ should be taken ____ a person ____ a power ____?
 I ____ know what ____ if ____ need ____ a power problem.
 Suggestions ____ electricity ____ during power ____?
 What ____ be taken ____ someone who ____ powered healthcare ____?
 ____ must ____ rely on medically necessary utilities ____ consider ____ are disruptions ____ total darkness?
 ____ if I ____ use medicine ____ case of ____ failure?
 ____ face ____ equipment is addressing ____ dilemma experienced by individuals.
 ____ should be taken when using ____ for ____?
 When dependent ____ electric health ____ will ____ be ____ with power ____?
 Precautions ____ taken ____ electrical health ____.
 ____ can ____ to help ____ electric medical things?
 What ____ taken ____ electricity to power ____ equipment?
 Should someone dependent ____ apparatus deal ____ grid ____?
 Medical ____ prepare for ____ interruptions.
 What can ____ help ____ electrical healthcare gadgets?
 ____ need to be taken for ____ during ____.
 ____ on medical ____ that relies ____ what ____ be done?
 ____ should ____ with ____ medical ____ do when the ____ goes ____?
 What ____ need ____ by someone ____ depends on electrical powered ____?
 When ____ on ____ aids, ____ to cope with ____ occasional power ____?
 Should ____ rely ____ medical devices ____ there is a ____ of a ____?
 ____ electricity ____ tools may ____ power.
 How ____ make sure ____ have constant ____ to ____ instruments during ____ power ____?
 ____ depend on electric ____ healthcare apparatus ____ grid failures?
 ____ medical devices be ____ if ____ is ____ for a power ____?
 Are ____ specific ____ taken ____ those reliant ____ electrical ____ when ____ power ____ out?
 ____ potential ____ cuts, what ____ must ____ by ____ dependent on ____ healthcare devices?
 ____ the juice goes ____ what ____ for people ____ rely ____ electric-dependant ____?
 What ____ do ____ there's a power ____ and ____ medical equipment ____?
 ____ any specific ____ by ____ reliant ____ medical appliances during ____ power loss?
 How ____ we make sure ____ of ____ in ____ of ____ healthcare tools?
 ____ should be taken if ____ is dependent on ____ source ____ life-saving ____?
 ____ must someone who ____ on ____ necessary utilities ____ when ____ are ____ total ____?

____ steps ____ someone with ____ tools take if ____ power ____?

What ____ must ____ upon ____ necessary ____ to consider ____ there ____ disruptions?

What's ____ solution ____ people ____ on ____ when the ____ goes off?

Is ____ for individuals ____ electrical ____?

What do ____ do ____ medicare ____ devices?

____ deal with ____ with ____ medicare devices?

____ a set ____ that should ____ followed by ____ who rely ____ electrical ____?

____ chronic ____ users have a ____ for power ____?

____ steps to safeguard ____ using ____ in ____ a power cut.

When dependent ____ health aids, can ____ with ____ power ____?

How should users ____ health ____ for ____ power failures?

What ____ be taken for people ____ use electricity ____ their ____ a ____?

____ be ____ for people who rely on ____ for ____?

____ you ____ any ____ on using electric-powered ____?

____ should ____ with medical ____ during the ____?

Is there ____ for power ____ dependent ____?

What if ____ need ____ use ____ due ____ power issue?

I want ____ know ____ there are ____ for someone ____ electricity _____.

____ deal ____ of electric medical devices?

____ what ____ happen to the person ____ electricity health tools?

Next steps frequent ____ electric? Someone ____ medical _____.

____ measures for ____ with electricity dependent ____ the event ____ a power _____.

____ a way for ____ reliant ____ electrical medical ____ a ____ to ____ followed?

When ____ health ____ how ____ you ____ with power outs?

In ____ power failures ____ reliance ____ tools, what are ____ steps ____ ensure ____ of ____?

____ precautions that ____ to ____ taken ____ power disruptions ____ machines.

____ should be done when ____ person ____ on ____ life-saving ____?

____ it a problem if ____ medicine products but ____?

____ chronic ____ prepared ____ power problems?

____ to deal with electric ____ devices ____ go ____?

I would ____ know ____ are any ____ with medical gear dependent on _____.

____ steps should a person ____ event of a power failure?

How should users ____ dependent health ____ prepare ____ of power ____?

In case ____ power failures and use of ____ taken ____ continuity of care?

How to ____ power ____ if ____ reliant ____ medical ____?

____ power cuts ____ using ____ medical aids?

What ____ to ____ done when using ____ for ____?

____ someone ____ electricity- dependent medical ____ what actions ____ taken?

____ use ____ during a power ____?

What instructions should ____ by ____ who ____ on electronical-based therapeutic machines ____ the ____ of ____ failures?

____ can ____ do ____ my medical ____ power?

Handling medical ____ power failures.

____ needed when ____ is power ____ for health _____.

____ needing ____ tools ____ lose power.

If ____ electric ____ devices ____ interruptions please advise the ____ precautionary steps.

____ cuts ____ using electrical- medical aids?

How ____ power ____ affect ____ electrical medical ____?

Do ____ know how ____ people ____ medical things?

____ should ____ use medical devices ____ the ____ a power ____?

_____ juice goes off, what do _____ people _____ rely _____ meds?
 _____ depend specifically on _____ run healthcare _____ there is _____ ?
 _____ electric _____ gear, the _____ steps _____ loss electric?
 How _____ one _____ sure _____ have constant access to electric _____ instruments _____ ?
 What should be done _____ electricity _____ power _____ ?
 The impending _____ a _____ barrier, who _____ on _____ run _____ tools?
 _____ there _____ plan _____ for _____ who rely _____ electrical medical _____ loss of power supply?
 How _____ one _____ sure _____ have _____ electric _____ instruments during a possible _____ ?
 When the _____ your solution for _____ who rely _____ electric-dependency _____ ?
 How _____ take care _____ gear _____ power _____ ?
 How should _____ that _____ have constant _____ to _____ healthcare instruments during a _____ ?
 How should one make _____ to life-saving _____ instruments?
 _____ powered healthcare devices should _____ precautions during _____ cuts.
 _____ for individuals who rely _____ electric _____ medical equipment?
 What _____ if there's _____ power _____ for my _____ equipment?
 _____ the event _____ a grid _____ be followed by _____ rely on therapeutic machines _____ ?
 _____ make _____ they have constant access _____ during a possible power cut?
 _____ should _____ taken _____ electricity _____ medical equipment.
 _____ power cuts, _____ someone _____ medical _____ do?
 If someone _____ life-sustaining _____ healthcare _____ faces _____ service _____ advise _____ necessary _____ steps.
 _____ who relies _____ equipment deal with possible _____ failures?
 What _____ for people _____ electricity for their medical _____ ?
 When _____ medical _____ should one do _____ electricity _____ ?
 What precautions must _____ upon medically _____ utilities _____ are disruptions such _____ darkness?
 _____ should one make _____ that _____ have _____ access to their _____ ?
 _____ plans _____ reliant on power _____ equipment _____ electrical disruptions are _____ .
 When dependent on _____ equipment, _____ should one _____ ?
 _____ how to use _____ medical equipment in _____ event _____ a _____ ?
 _____ should someone with _____ do _____ is _____ electricity?
 Is _____ specific _____ to _____ by those _____ on electrical medical _____ ?
 _____ can we help people _____ electric _____ power goes _____ ?
 _____ depend solely on electrical _____ healthcare _____ danger of being _____ ?
 _____ should _____ make _____ constant access to electric healthcare _____ case of _____ power _____ ?
 I _____ what to do _____ need medicine but _____ is _____ .
 Contingency _____ for those _____ medical equipment _____ .
 _____ an action plan _____ depend _____ electric medical equipment.
 In the event _____ a _____ failure, _____ taken into account _____ patients who _____ electronic _____ tools?
 When _____ on electric _____ are you able _____ power _____ ?
 Should _____ use electricity- _____ medical _____ there _____ potential power _____ ?
 How _____ manage power _____ there _____ medical _____ ?
 _____ should _____ they _____ access to _____ healthcare instruments during a _____ failure?
 How _____ depends on electric _____ equipment _____ with grid _____ ?
 How can someone _____ an electric-powered healthcare _____ grid _____ ?
 _____ be _____ when using electricity for _____ ?
 _____ power _____ what precautions _____ be _____ by someone dependent _____ powered healthcare _____ ?
 _____ someone _____ on medically necessary utilities _____ regarding _____ as _____ darkness?
 _____ in _____ face of _____ failures is addressing _____ dilemma experienced by _____ reliant on _____ .
 _____ with medical devices deal _____ of _____ power failure?
 What _____ someone _____ devices do _____ is out?
 What steps _____ take to keep _____ powered _____ ?

What _____ game plan for _____ health equipment _____ out?

There _____ precautions _____ health machines.

_____ need _____ be taken by a _____ on electrical _____ healthcare _____?

_____ power cuts and medical _____.

Specific recommendations _____ power _____ hitting people using _____?

_____ can be done _____ help _____ using _____ gadgets.

How to _____ the _____ if it _____ dependent _____ medical _____.

_____ if the _____ go out _____ need _____ help?

_____ power failures _____ on _____ healthcare tools, what should we do to _____ care?

_____ there any specific _____ that _____ be _____ on electrical medical _____ during a power _____?

If _____ is _____ what _____ the recommended measures _____ medical gear?

Proactive _____ of electricity dependent _____ machinery should _____ cuts.

How _____ with _____ medical devices _____ go out?

How _____ one monitor _____ dependency _____ ensure constant _____ electric healthcare instruments _____ potential _____?

_____ steps should _____ taken if _____ person relies _____ electricity _____?

_____ need _____ be _____ power cuts _____ health machines.

_____ happens when the _____ a patient _____ equipment?

_____ can _____ deal with power cuts _____?

What precautions _____ by _____ relies on electrical _____ healthcare devices?

If _____ cause power outages, _____ them?

_____ my medical _____ electricity, _____ should I _____?

_____ one _____ sure they have constant _____ to electric _____?

If _____ on _____ devices, how _____ deal with _____?

_____ make _____ they _____ constant access to electric _____ possible power out?

_____ dependent on electric health _____ cope _____ power outs?

In case _____ failures _____ electronic healthcare _____ how _____ continuity _____ be ensured?

_____ there _____ a power _____ are there any _____ for _____ with _____?

Ensuring access _____ and medical _____ during _____ cuts.

How should _____ of _____ health machinery be _____ potential _____?

_____ can _____ electric-powered healthcare _____ used to deal _____ a _____?

_____ I need medicine _____ it because _____ a _____ cut?

Is _____ those reliant on electrical medical _____ an _____ loss of _____ to be _____?

When the juice _____ what is _____ who _____ on _____ meds?

What happens _____ power goes out, _____ on _____?

_____ steps are _____ who rely on _____ for _____ medical _____ a _____ failure?

There are precautions that need _____ for _____ health _____.

How can people _____ medical _____?

_____ make sure _____ have constant access to _____ sustaining _____ instruments?

_____ need for _____ electrical- dependent health machines.

Do you know what I _____ electricity?

What _____ people _____ do during a power _____?

Is there any recommended _____ for _____ with electricity dependent _____ if _____?

_____ have any recommended _____ for _____ with _____ dependent _____ gear?

_____ electric, someone rely _____ medical gear?

_____ a person _____ on _____ medical _____ do to prepare for _____?

Should _____ medical device _____ power _____?

_____ game plan _____ equipment goes out?

_____ chronic medical device _____ power _____?

_____ can _____ person _____ on electric-powered healthcare _____ deal _____ failures?

How _____ deal with _____ devices

What precautions must _____ take regarding _____ such as total _____?

Contingency plans for _____ power _____ during electrical disruptions.

To _____ for medical _____ should be _____?

The expected power _____ poses _____ depend on _____ run _____ tools?

Is there _____ advice _____ relying _____ electric _____ equipment?

What should _____ medical _____ do during _____?

What should _____ person _____ equipment do _____ a _____?

Specific recommendations _____ power _____ hitting people _____?

How _____ healthcare equipment deal with _____ grid failures?

What if _____ for _____ and _____ need medical help?

Preserving quality _____ in the _____ power _____ addressing _____ individuals reliant on _____ equipment.

Could you _____ for individuals with _____?

_____ medical equipment _____ power _____

_____ do _____ the medical _____ needs electricity and _____ goes out?

Is _____ any specific _____ to be taken _____ electrical _____ appliances?

_____ device _____ make _____ they have _____ power?

_____ specific measures to be taken _____ those reliant on _____ appliances _____ a _____?

Will _____ medical device users _____?

There _____ steps _____ make _____ continuity of _____ of power failures _____ tools.

Are _____ measures _____ by _____ who rely on _____ appliances?

_____ relating _____ power _____ hitting _____ using electrical-medical _____?

How can someone _____ on electric powered _____ with _____?

When the juice goes off, _____ you _____ to _____ on electric _____ meds?

If someone relies on medical _____ what should _____?

_____ manage power outages _____ you rely on medical _____?

Preparing _____ power interruptions _____?

_____ the _____ needing _____ health tools _____?

If someone relies on _____ that _____ reliant _____ should be _____?

_____ chronic medical device _____ themselves _____ interruptions?

_____ the _____ goes off, what's _____ people _____ rely on _____ meds?

_____ someone relies on _____ for their medical _____ what _____?

Suggestions _____ cuts _____ individuals _____ medical aids?

_____ on electric _____ is _____ to cope _____ power failures?

_____ depends on electricity for _____ what _____ be _____?

What _____ a person _____ tools take _____ of a power failure?

Preserving _____ in _____ of power failures _____ dilemmas experienced _____ individuals _____ on electricity-operated _____.

If there _____ to _____ power shortages?

When juice _____ off, what is _____ solution for _____ meds?

_____ power _____ out and people need medical _____?

What is the _____ plan _____ health _____ is _____?

What _____ there _____ a _____ power cut for someone _____ healthcare devices?

_____ rely _____ electricity-powered lifesavers _____ when the _____ goes out?

_____ regarding power _____ people _____ electrical-medical _____?

_____ a person _____ only electricity-driven _____ tools _____ in _____ event _____ a _____ failure?

Should _____ device users prepare _____?

_____ is the _____ people to use _____ their medical devices _____ power _____?

_____ handle medical gear that _____ on _____ during _____ power _____?

_____ precautions must _____ by someone _____ electrical _____ healthcare _____ during power _____?

Medical _____ power failures.

Is there _____ recommended _____ with _____ dependent _____ gear when _____ is _____ failure?

When _____ out, _____ do _____ help people with _____ equipment?

What _____ with _____ electricity-driven medical _____ in _____ of _____ power cut?

How can _____ help people _____ medical equipment _____ cut?

_____ medical _____ need to know _____ deal with potential _____ failures.

_____ users _____ electricity- dependent health _____ for potential _____ failures?

During power interruptions, _____ be taken _____ machines?

_____ you _____ people reliant on electrical _____ devices?

If _____ electric healthcare _____ faces _____ service _____ advise the _____ precautions.

_____ should _____ use medical _____ in the event _____ cut?

_____ someone has electric healthcare _____ please _____ necessary _____.

When _____ medical equipment, what _____ followed _____ disruptions?

If _____ use electrified _____ products, _____ I do?

What _____ individuals who _____ life-saving _____ a power outage?

What _____ medical devices do if _____ power failure?

What _____ goes _____ the person needs _____ health _____?

In case _____ failure and _____ on _____ healthcare _____ what should _____?

_____ someone reliant _____ tools do if the power _____?

_____ you _____ them _____ use _____ apparatus _____ there is a _____ a power failure?

_____ interruptions for machines?

_____ happens _____ power _____ patient _____ equipment?

_____ I do if _____ medical equipment _____?

How _____ with electric medical _____ be _____ during a _____?

What _____ be taken _____ a person _____ dependent on _____ for _____?

In _____ failures and reliance _____ should we do to ensure _____ of _____?

_____ should people _____ to keep _____ medical devices powered _____ of a _____?

_____ deal with medical gear when _____ are _____?

_____ an individual _____ on _____ do if the _____ goes out?

_____ on electricity _____ equipment, _____ can be done?

Is there _____ for _____ rely _____ electric powered medical _____?

_____ are the _____ measures for _____ with _____ medical gear _____ the event _____ power _____?

_____ there _____ for power outage _____ healthcare?

When the power _____ how do _____ medical things?

_____ to deal with loss _____ devices?

_____ power cuts, _____ precautions _____ be _____ for _____ on electrical powered _____ devices?

There are tips _____ electricity _____ a _____ outage.

Is _____ any _____ for individuals _____ medical _____?

_____ people _____ on _____ equipment in the _____ of _____ failure.

If _____ a _____ on medical _____ manage power outages?

_____ we _____ that we have constant _____ to _____ a possible power failure?

_____ plans for _____ dependent on _____ medical _____ be increased.

What should a _____ medical devices _____ during _____?

_____ for electricity _____ in _____ event of a _____ failure.

If _____ uses _____ medical _____ should be _____?

What _____ done during _____ health machines?

_____ the precautions taken by _____ electrical-powered _____ devices?

_____ want to _____ if _____ are _____ plans for power _____ and _____.

_____ be taken into _____ by _____ dependent on _____ healthcare devices.

What should _____ with _____ devices do _____ a _____ outage?

_____ power _____ what _____ be _____ for health _____?

_____ can _____ with _____ medical things _____ helped when _____ power _____?

If my _____ needs _____ what _____ I _____ do?
 Is there any _____ be _____ use electrical medical appliances?
 Is there any _____ taken by _____ on _____ medical appliances _____ loss?
 _____ any _____ individuals who depend _____ electric-powered _____ equipment?
 _____ regarding power _____ electrical medical aids?
 _____ someone relies on _____ dependent _____ equipment, what should _____ to _____?
 How _____ people with _____ helped?
 _____ required during power _____ machines?
 _____ or reliance _____ electronic healthcare _____ should there be steps _____ ensure continuity _____ care?
 _____ with the _____ of _____ can you give _____ for those _____ electronic _____ equipment?
 _____ people _____ on electricity for their _____ what _____ be _____?
 _____ should users _____ prepare for power _____?
 In _____ event of _____ what _____ be taken into _____ who rely heavily _____ therapeutic machines and _____?
 There _____ that should _____ taken for _____ rely _____ their medical equipment.
 Is _____ a _____ for those reliant _____ a power _____ be followed?
 Someone _____ dependent _____ electricity-driven medical _____ are power _____.
 What do I _____ health equipment when _____ down?
 _____ to deal _____ power _____ of electric- powered _____.
 What _____ do if the _____ out for _____ medical _____?
 _____ people do _____ their _____ devices _____ there is a _____ a _____ failure?
 Is _____ possible to cope _____ dependent on _____?
 _____ dependent _____ electric _____ equipment deal with grid _____?
 _____ should people _____ medical devices _____ a power cut?
 _____ able _____ cope _____ cuts when you rely _____ electric _____ aids?
 _____ should _____ about _____ to power medical equipment?
 In the _____ a power _____ should _____ taken to ensure continuity _____?
 _____ electricity for medical _____ be done?
 There _____ someone with _____ dependent _____ gear _____ the _____ goes out.
 _____ device _____ prepare for the _____ of _____ interruptions?
 How _____ you deal _____ devices that _____ out?
 _____ people how to use _____ apparatus if there _____ a _____ a _____ failure?
 How _____ users of _____ dependent health equipment _____ potential _____?
 How should one make _____ access to _____ healthcare _____?
 _____ plans for _____ on power-reliant medical _____ during _____ disruptions.
 There _____ precautions _____ electrical- dependent _____.
 If _____ relies on _____ medical _____ should _____ done?
 Can _____ reliant _____ healthcare _____ deal with grid _____?
 How do _____ people _____ medicare _____?
 Is there _____ taken by those reliant _____ medical _____?
 How should _____ use _____ are powered _____ electricity?
 Should chronic _____ device _____ for _____ power _____?
 Specific _____ on power _____ using _____ aids?
 _____ someone _____ electricity-dependent _____ what should be done _____ the event of _____?
 _____ the event _____ grid failures, _____ instructions must _____ taken _____ with electronical-based _____ and tools?
 What should _____ person _____ devices _____ when the _____ is out?
 If _____ relies _____ medical equipment, _____ be done?
 How _____ make _____ they _____ constant _____ instruments during a possible power _____?
 _____ medical device _____ be _____ power _____?
 How do _____ with medicare patients _____ are _____?
 _____ should people use _____ there _____ an interruption?

Does anyone have any specific _____ in _____ for _____ reliant _____ electrical _____ during _____ ?

_____ actions _____ those _____ electrical _____ gadgets?

_____ there are power _____ how _____ people with _____ medical _____?

What can people _____ to keep _____ in the event _____ power _____?

Proactive _____ dependent _____ machinery should _____ prepared for potential _____.

What actions should be _____ in _____ situation _____ depends _____ for life-saving _____?

_____ someone reliant _____ electric powered _____ with grid failures?

_____ there any _____ measures to be _____ reliant _____ medical appliances _____ a power _____?

_____ use electric-powered _____ a possible power failure?

When the _____ what's _____ solution for people _____ use _____?

_____ there _____ can be taken by _____ reliant _____ electrical _____ appliances?

_____ there _____ specific _____ be _____ by those _____ rely _____ medical appliances?

Should _____ rely _____ electric-powered healthcare apparatus _____ deal _____ failures?

When there are _____ cuts, how _____ electric _____ get _____?

_____ medical _____ how to manage power issues?

Which _____ recommended _____ who _____ on electricity for _____ devices?

What _____ the _____ handle electricity- dependent medical _____?

There are _____ electricity _____ during _____ failures.

When _____ on _____ health _____ you have to _____ power _____?

I _____ to know if _____ any plans _____ power _____ reliant _____.

_____ game _____ if my _____ equipment needs electricity?

_____ I _____ if the _____ goes out _____ medical equipment?

_____ regarding power _____ hitting people _____?

_____ if the power _____ out during patient _____?

How can _____ healthcare _____ be used _____ with _____ failures?

_____ the steps _____ taken _____ ensure continuity of _____ in _____ power _____?

_____ event _____ a _____ failure, what instructions must _____ into _____ by _____ that rely _____ therapeutic machines and _____

_____ power _____ out and someone _____ tools?

How can we _____ care in _____ power failure?

Suggestions _____ cuts _____ medical aids?

How _____ use electricity _____ their _____ a chance of a _____ failure?

_____ there a way _____ with electricity _____ medical _____?

_____ there _____ plan for _____ reliant _____?

What _____ do to keep _____ powered _____ event of _____ power failure?

Should medical _____ prepare _____ power _____?

_____ to _____ the power _____ on medical devices?

When _____ juice _____ what's _____ solution _____ people _____ dependent meds?

There _____ regarding power _____ individuals using electrical _____.

Are _____ any plans _____ failures and _____?

_____ for people with electric _____ when there _____ power _____?

Recommendations _____ hitting _____ electrical-medical aids.

_____ of a _____ failure, what instructions must be _____ account _____ who rely _____ machines _____ tools?

What can _____ life-saving devices _____ during _____ power _____?

_____ plans _____ those with _____ equipment

How _____ the _____ of electricity _____ medical _____ be _____?

Should _____ users _____ devices prepare for _____?

_____ need _____ outages and reliant _____.

What precautions _____ someone rely _____ medically necessary _____ to _____ when _____?

_____ there is _____ dependency on medical _____ how _____ power _____?

During _____ power _____ what _____ be _____ by someone dependent on _____ healthcare _____?

____ do ____ deal with ____ using electrical ____ power cuts?
 How ____ of health ____ prepare for ____ possibility of ____?
 ____ I ____ if the power goes off ____ medical ____?
 How should ____ monitor dependency ____ constant ____ instruments during a potential ____?
 How ____ handle ____ equipment ____ on electricity?
 When ____ is blacked out, what do ____ my ____?
 There ____ needed for health ____ when ____ is ____.
 What should ____ medical ____ when there's no ____?
 ____ way to cope ____ power cuts when ____ health ____?
 ____ a ____ recommendation ____ power cuts ____ individuals using ____ aids?
 Someone ____ medical ____ next ____ frequent ____ electric?
 ____ for medical equipment, what should ____?
 How should ____ of ____ prepare ____ possible ____ cuts?
 ____ with ____ failures with electric ____ devices.
 What should ____ do ____ they ____ electricity-driven ____ tools?
 ____ to vital services during ____ cuts for ____ electricity ____ machinery
 Is ____ powerouts and reliant ____?
 What ____ a person with ____ medical ____ do in ____ of ____?
 ____ can I ____ if ____ power goes ____ medical ____ not working?
 ____ with the possibility of a ____ to ____ using ____ health apparatus?
 ____ is ____ game plan if my ____ on electricity?
 If someone ____ life-saving ____ devices ____ service disruptions ____ the ____ precautions.
 ____ to ____ medical equipment ____ power cut?
 ____ the juice ____ off, ____ people ____ electric dependent meds?
 ____ with medical ____ do when electricity is ____?
 ____ precautions must be taken ____ relies on ____ devices?
 ____ you ____ for ____ using electronic health ____ possibility of a power failure?
 How should one ensure ____ instruments ____ possible ____ cuts?
 ____ when ____ goes ____ patient need equipment ____?
 What ____ medical ____ do when ____ is a ____ failure?
 When using power ____ what ____ done?
 What ____ if there is a ____ of power ____ off ____ devices?
 How can ____ with ____ devices?
 Next ____ loss electric, someone ____ on electric ____.
 How do ____ with ____ devices?
 ____ a ____ failure, what instructions ____ be taken into ____ patients ____ rely ____ therapeutic machines and ____?
 If ____ on medical devices, how ____ it?
 ____ needing ____ health ____ may lose ____.
 ____ should someone ____ a ____ device do ____ a ____?
 What ____ power ____ using ____ aids?
 How should ____ of ____ prepare for potential ____?
 ____ keep medical ____ out of ____ power cuts?
 ____ you ____ them how to use electrical ____ devices ____ case ____?
 ____ is ____ best ____ of ____ for ____ who ____ electricity for ____ medical equipment?
 What steps should ____ with only ____ take ____ there ____ cut?
 When reliant ____ electric ____ you ____?
 ____ to cope ____ health ____ when there is a ____ cut?
 There are ____ electrical-dependent health ____.
 Should people ____ equipment during ____ power failures?
 ____ power goes out, what happens ____ the ____ health ____?

____ can people ____ electricity-powered life-saving devices ____ a ____?

Recommendations ____ power ____ using electrical- medical ____?

There ____ someone with ____ medical gear in ____ event ____ power failure.

____ there ____ advice on how ____ equipment during a power ____?

____ the grid ____ blacked out, ____ I ____ my health ____?

____ the ____ grid failures, ____ instructions must ____ taken into account by ____ rely on ____ and ____?

____ with ____ medical ____ should have ____ plans.

What should ____ do if ____ electricity ____ out ____ their ____?

____ to ensure ____ of care ____ the ____ of ____ power failure?

If ____ electric healthcare ____ service ____ please ____ the necessary precautions.

What ____ I ____ if ____ medical ____ and the ____ goes off?

____ was ____ if there were any ____ for ____ gear dependent ____ electricity.

____ want to know ____ for ____ outages ____ healthcare.

____ should ____ rely solely on ____ the event of a power ____?

What ____ health equipment ____ on electricity?

____ device ____ be ____ for ____ shortages?

Is ____ advice ____ using electric-powered medical equipment during ____?

____ regarding power ____ individuals using ____ aids?

If ____ relies ____ dependent ____ what steps ____ they take?

What ____ electricity-driven medical tools ____ if the ____ out?

I am ____ if there are ____ outages ____ reliant _____.

How do ____ deal with ____ medicare ____ in case of ____?

There ____ steps that should ____ if someone ____ medical equipment ____ dependent _____.

What ____ my health gadgets when ____ grid ____ dark?

____ should medical device ____ power cuts?

____ regarding power cuts ____ using electrical-medical ____?

Specific suggestions about ____ cuts hitting ____?

____ with ____ electric ____ faces service ____ please advise the necessary _____.

____ deal with ____ have ____ using electrical devices?

There are ____ for ____ with ____ medical _____.

What if power ____ someone ____ medical ____?

For someone ____ electrical powered ____ precautions must be ____?

____ you deal ____ people ____ medicare ____ if there ____ a power ____?

If someone with ____ devices ____ service interruption, please ____ precautions.

____ any ____ those using electric-power ____ equipment?

If ____ with life- sustaining ____ devices ____ advise the necessary ____ steps.

If ____ with life-sustaining electric ____ devices ____ service ____ necessary precautions.

____ medical devices if there are power ____?

What ____ we do ____ people ____ electric medical ____?

____ users of health ____ make sure they ____ power failures?

How can ____ they ____ constant access ____ electric healthcare instruments?

Is ____ for someone with medical ____ on ____ in the ____ of ____ power ____?

What happens if ____ goes ____ need ____ equipment?

When ____ juice ____ off, what's the ____ solution for ____ electric dependent ____?

Is ____ users prepared for ____?

____ precautions ____ be taken ____ reliant on ____ powered ____ devices?

____ measures for ____ with ____ medical gear.

What ____ people ____ the power ____ out for their ____?

In case ____ dependence on ____ tools, ____ continuity of ____ be ensured?

Do ____ have ____ recommendations for power ____ hitting ____ medical ____?

Do you have _____ advice _____ medical equipment?

_____ should you deal _____ devices?

_____ should users of _____ prepare for _____ power disruptions?

_____ there any _____ downtime and reliant _____?

When _____ goes _____ your _____ for people who rely _____ electric-dependence _____?

If I _____ a _____ failure, _____ should _____ with _____ that are _____?

People _____ electric-powered _____ equipment during _____ possible _____ failure?

_____ precautions _____ taken _____ reliant _____ healthcare devices _____ power cuts?

_____ can _____ people with _____ things be _____?

What _____ the _____ for a _____ need medical help?

_____ needs _____ dependent medical equipment, _____ be done?

How to _____ with _____ medical _____.

Can _____ give _____ those _____ electronic _____ when _____ the _____ of a power failure?

_____ to deal with _____ devices?

When _____ on _____ what _____ be done _____ a power failure?

Could _____ guidance _____ people _____ electrical medical devices?

_____ are things _____ need to _____ power disruptions for _____.

What are _____ taken _____ dependent _____ electrical powered _____ devices?

_____ you _____ any advice _____ people relying on _____?

_____ should _____ ensure _____ access _____ life-sustaining electric healthcare _____ possible _____ failure?

People _____ use electricity- dependent _____ should _____ potential _____ cuts.

In _____ outages, are there any recommended measures _____ someone _____ electricity- _____?

_____ relies _____ medical equipment _____ is powered _____ electricity, what should _____?

_____ needing electricity _____ tools might _____.

_____ poses _____ crucial barrier for _____ on _____ run healthcare tools?

_____ measures must _____ taken _____ someone _____ electrical _____ healthcare devices?

Is _____ powerouts _____ reliant healthcare?

How _____ handle _____ failures with electric _____.

Measures should _____ taken when _____ power medical _____.

What precautions _____ by someone dependent _____ devices _____ power cuts?

_____ actions should be _____ during a _____ failure if a _____ an _____?

How can _____ who uses _____ powered _____ deal _____ failures?

_____ case of power failures, _____ ensure continuity of _____?

What _____ medical devices do when the _____ off?

There _____ to be taken _____ interruptions _____ health machines.

What precautions _____ reliant _____ necessary utilities _____ when _____ are disruptions such _____?

What actions _____ be taken _____ person _____ on electricity _____ their _____?

_____ on electricity for _____ devices when there _____ chance _____ power failure?

_____ about _____ cuts _____ individuals _____ aids?

Should _____ device users _____ power _____?

_____ there a _____ to _____ power outages if medical _____?

If _____ with life-saving _____ faces service interruptions, _____ advise _____ steps.

_____ do _____ rely on _____ their _____ devices do?

What _____ about people _____ medicare devices?

_____ if _____ power _____ out, _____ people needing medical _____?

When _____ is _____ on electricity, _____ should _____ followed?

In _____ grid failure, _____ instructions _____ to _____ taken _____ account _____ patients who _____ on therapeutic machines and _____?

_____ goes out and the person _____ in _____ electricity health _____?

In case _____ interruptions _____ health _____?

The anticipated _____ cut _____ a critical _____ depend _____ on _____ healthcare _____?

_____ case of power failures _____ reliance _____ electronic healthcare _____ should be _____ to _____ continuity _____ ?

If power goes _____ what _____ a _____ tools?

_____ when _____ goes off, _____ your solution _____ people who _____ on _____ dependent _____ ?

_____ to manage power _____ if you _____ medical _____ .

If _____ with _____ electric _____ devices _____ interruptions, please advice _____ precautionary _____ .

_____ should _____ of _____ health _____ prepare for _____ cuts?

If a _____ relies on electricity _____ equipment, _____ should _____ ?

If someone _____ for _____ equipment, _____ should be taken?

_____ plan to be _____ by those who rely on _____ medical _____ a _____ loss?

Next steps frequent loss _____ rely on _____ .

When using electricity for _____ taken _____ of?

_____ we ensure continuity _____ care _____ the _____ of power failures _____ healthcare _____ ?

_____ do you _____ gear in the _____ of _____ failure?

If _____ with life- _____ devices _____ service interruptions, please _____ necessary _____ steps.

If someone _____ electricity _____ their healthcare, _____ should _____ ?

What should a _____ devices do _____ there is _____ ?

_____ deal with power _____ devices?

_____ power cuts _____ people _____ electrical-medical _____ .

_____ the possibility _____ a _____ can _____ give guidance to those _____ health equipment?

Should _____ devices _____ for power disruptions?

_____ precautions _____ be taken _____ dependent on electrical _____ healthcare devices.

How to _____ electrical powered medical devices _____ ?

When _____ electric health aids, how do you _____ ?

_____ should _____ of health machinery be _____ if _____ power _____ ?

_____ should _____ of health machinery _____ power _____ ?

In the _____ a _____ failure, _____ instructions should _____ into _____ who rely on therapeutic _____ ?

_____ there _____ on using electric-powered medical equipment _____ outage?

Suggestions _____ prevent power _____ hitting _____ using _____ aids?

_____ there any advice _____ rely _____ medical equipment.

Are there any _____ taken by _____ reliant on _____ ?

_____ chronic medical device users _____ ?

How should _____ access to life-sustaining electric _____ power failure?

What _____ a person _____ electricity-driven _____ tools _____ in _____ of _____ power _____ ?

I _____ to _____ if there _____ any plans _____ and _____ healthcare.

How _____ ensure constant _____ to _____ electric _____ during _____ power failure?

If _____ need _____ but have a _____ what _____ I _____ ?

_____ should _____ use _____ devices when _____ a chance _____ failure?

Do you know _____ protocols _____ followed when _____ is _____ ?

_____ I need medicine but _____ use _____ due _____ power failure, what _____ ?

What should _____ person with medical _____ do _____ ?

Do you _____ ensure continuity of _____ case _____ power failures?

Is there a specific procedure _____ for those reliant _____ electrical medical _____ unforeseen _____ ?

How _____ be given _____ people _____ electric _____ equipment?

_____ chronic medical _____ users _____ power _____ ?

Should _____ device users prepare _____ ?

_____ precautions must be _____ by _____ dependent _____ electrical- _____ healthcare _____ ?

What should _____ with _____ tools _____ there's a power _____ ?

_____ plans _____ people _____ on power for medical _____

_____ losses with medical devices?

When you rely on _____ health _____ able _____ cope _____ cuts?

When the juice ____ off, what's ____ for ____ rely on ____?

____ a procedure ____ someone with electricity ____ gear?

What ____ a ____ a ____ device ____ during a power ____?

Do ____ medical ____ have ____ plan for power ____?

____ are the ____ someone dependent ____ electrical powered ____ devices ____ power ____?

____ any specific ____ to be ____ reliant on ____ appliances when the power ____ out?

Should ____ rely on ____ for their ____ a chance ____ a power ____?

Can you tell ____ are recommended ____ for their medical equipment?

Is ____ for ____ reliant on electrical medical ____ when the ____ is ____?

____ to deal ____ power disruptions ____?

____ specific recommendations for ____ cuts ____ individuals using ____ aids.

____ you give guidance for people ____ medical ____ for ____?

Will ____ dependent ____ powered healthcare ____ be able ____ deal with ____?

____ there any ____ for ____ on ____ medical equipment.

____ there ____ power ____ how ____ people ____ medical equipment get ____?

If ____ with ____ electric ____ device faces ____ disruptions please advise ____.

____ on what to ____ hitting people using ____ aids?

____ someone ____ medical equipment dependent ____ should be ____?

What ____ a ____ with medical ____ do ____ there ____ cut?

____ are ____ that ____ be taken ____ who rely on ____ medical equipment.

____ can we make sure continuity of care ____ of ____?

____ know what ____ if I need medicine ____ is ____ outage.

____ failures and ____ on ____ tools, how should continuity ____ be ensured?

What ____ I ____ my medical ____ needs ____ there is ____ power ____?

When ____ power cuts, ____ can people ____ electric ____ be ____?

Is ____ any specific ____ taken ____ those ____ on ____ medical ____ a power ____?

____ someone ____ on ____ healthcare ____ deal with potential grid ____?

____ electricity for medical equipment, ____ measures should ____?

____ the ____ grid failures, what instructions ____ be taken ____ account by patients ____ rely ____ upon ____ and ____

How ____ of ____ a potential power cut?

Can one make ____ that they have ____ electric ____ possible power ____?

____ handle ____ power ____ for those using ____ electrical devices?

____ dependent on ____ powered ____ devices ____ take ____.

____ must be taken ____ using electricity ____?

Ensuring access ____ vital services during ____ for ____ medical ____.

I don't know ____ if ____ needs power.

____ be done ____ electricity for ____ equipment?

____ medical device users ____ fluctuations?

What ____ I do ____ goes out?

What ____ goes ____ person needs electricity ____ tools?

What ____ need to ____ when using ____ medical ____?

____ users of health ____ be prepared ____ of ____ cuts?

____ someone ____ a life-sustaining electric healthcare device ____ service interruptions, ____ measures.

____ can be ____ about ____ healthcare ____?

____ actions ____ be taken if someone relies on ____ electricity?

____ case of ____ or ____ electronic healthcare tools, what ____ taken ____ ensure ____ of care?

____ advice ____ using ____ medical equipment?

How to manage power losses ____.

____ can someone ____ on an ____ apparatus deal ____ grid ____?

How ____ handle ____ using ____ medicare ____?

_____ should users _____ electricity dependent health _____ for potential _____?

Take precautions when _____ for _____.

What _____ power _____ off and _____ need _____ help.

In _____ event of _____ grid _____ what _____ be _____ by patients who _____ on electronical-based _____ machines _____ tools

Someone dependent _____ medical apparatus _____ dealing _____ power cuts.

Person _____ would be _____ power.

_____ there _____ a power _____ what _____ be _____ with electricity dependent medical _____?

_____ are _____ need _____ be _____ people relying on electric medical _____.

_____ power _____ individuals using electrical-medical _____ are needed.

_____ to _____ power failures _____ devices?

In _____ event of a grid _____ instructions _____ be taken into account _____ upon _____ therapeutic _____ tools

What _____ electricity _____ and people _____ medical _____?

_____ any advice _____ individuals reliant on electric-powered _____?

_____ use medical _____ a potential power failure?

How _____ care _____ medical gear _____ event _____ power failure?

In _____ event _____ what _____ must _____ by patients _____ rely on _____ therapeutic machines and tools?

How to _____ problems _____ medical _____ are involved?

_____ who use medical devices _____ power _____?

_____ must _____ rely _____ medically _____ utilities to take _____ there _____ disruptions _____ as total _____?

It _____ necessary _____ precautions _____ dependent health machines.

What _____ on _____ utilities _____ in the event of disruptions _____ as _____ darkness?

Next _____ electric, someone _____ on electric medical _____?

In _____ of _____ what _____ taken into account by _____ who _____ on therapeutic machines _____ tools?

_____ should continuity of care _____ in case _____?

How _____ medical equipment during _____?

_____ do you deal with _____ if _____ are _____ cuts?

In _____ event of _____ instructions must _____ taken _____ by _____ who use electronical-based _____ and tools?

What can electricity-powered life-saving devices _____ power _____?

Is _____ for people reliant on _____ medical _____?

_____ to _____ the _____ medical _____ running?

What can _____ electric medical equipment when _____ power _____ out?

_____ cuts hitting _____ using _____ aids?

How should _____ equipment _____ for potential _____?

_____ be measures taken when _____ electricity _____ medical _____.

Person _____ tools _____ power _____ out.

_____ on electricity for their _____ equipment, what should _____?

_____ with a medical _____ if there is _____ power _____?

_____ do _____ deal _____ potential power _____ for _____ using _____ devices?

If someone _____ equipment, _____ should be _____?

How _____ maintain constant _____ healthcare _____ during a possible power _____?

_____ you depend on electric health _____ are _____ able to _____?

_____ instructions _____ be taken _____ account by _____ who _____ on therapeutic machines _____ when _____ fails?

_____ instructions _____ taken _____ account by patients _____ rely _____ therapeutic _____ and tools _____ the _____ grid failures?

_____ to _____ with power outages if _____ are _____.

I _____ do if _____ need _____ but _____ a power failure.

_____ medical equipment, what protocols should be _____ electricity _____ out?

What can _____ if _____ medical equipment _____ electricity and _____ goes _____?

If someone relies _____ electricity _____ their _____ steps _____ taken?

What should _____ if a _____ on _____ for _____ equipment?

_____ you _____ medicare devices if _____ are power _____?

_____ depend on medically _____ to consider when there _____ such as total darkness?

_____ should users _____ be prepared for power _____?

_____ regarding power cuts _____ electrical medical _____?

_____ to _____ gear safe _____ power failure?

Someone _____ devices must _____ precautions during _____ cuts.

Dealing _____ power _____ as a person reliant _____.

How _____ health _____ prepare for potential _____?

When the grid _____ out, _____ do I _____ my _____?

Ensuring _____ services for those _____ dependent _____ machinery during _____ power _____.

How do you handle electrical medicare _____ if _____?

_____ to deal _____ during power _____.

If someone has _____ electric healthcare _____ sure _____ precautions.

How _____ you deal with _____ devices if _____ power _____?

_____ how _____ use _____ equipment _____ a potential power failure?

Should _____ for their medical _____ a chance _____ a power cut?

How should _____ medical devices _____ the _____ power outage?

Could _____ offer guidance _____ people _____ medical devices?

What precautions _____ someone dependent _____ medically _____ utilities consider _____ is _____ disruption _____ total _____?

_____ if _____ is _____ power problem and _____ products?

How _____ with _____ using _____ electrical devices for power _____?

_____ precautions should be _____ by _____ dependent on _____ healthcare?

_____ care _____ dependent _____ during a power failure?

A person who _____ tools _____ power.

In _____ grid failure, _____ instructions _____ be taken _____ for patients who rely on _____ machines and _____

_____ plan to deal with _____ outages and _____?

Will there be _____ to make sure _____ of _____ power _____?

_____ should one _____ sure that _____ constant access _____ instruments?

If there _____ a _____ outage, _____ any recommended measures for _____?

_____ use _____ run healthcare tools _____ of _____ cut off?

When using electricity _____ medical _____ be _____?

_____ are precautions necessary _____ health _____.

_____ do _____ people who use medicare _____ power cuts?

What steps _____ taken _____ people to use _____ for _____?

What should _____ medical devices _____ during _____ power _____?

_____ disruptions, _____ there be precautions for _____?

_____ should _____ done in _____ event of a _____ for patients _____ use electronical-based therapeutic _____?

How to _____ safe in _____ event of _____ power _____?

_____ I need _____ can't use _____ due to _____ should I do?

When _____ on electricity _____ medical equipment, _____ be _____?

How should _____ there is a _____ failure?

_____ power _____ if medical _____ are involved?

What _____ the precautions taken _____ electricity _____ medical _____?

_____ the _____ is _____ on _____ is the game plan?

How _____ manage _____ failures _____ you depend _____ devices.

How should _____ done _____ electricity for medical _____?

_____ if _____ in _____ help have a _____ failure?

_____ someone relies on electricity for medical _____ be _____?

Is _____ power outages _____ rely on medical devices?

When dependent _____ health aids, _____ you cope _____ power _____?

What _____ with electricity-dependency _____ devices _____?

Recommendations about _____ cuts hitting individuals _____?

_____ should be _____ for a person _____ electricity dependent _____ gear in _____?

What _____ person _____ electricity-driven _____ tools _____ in case _____ a _____ failure?

What steps _____ person with electricity-driven _____?

If _____ electric healthcare devices is _____ please _____ the necessary precautions.

_____ there be _____ continuity _____ care _____ the event of power _____?

_____ you _____ guidance _____ using electrical medical _____?

Could _____ give _____ to _____ electrical medical _____?

_____ goes out, and people _____ medical _____?

_____ if I need _____ can't _____ it due _____ power _____?

If someone relies _____ medical equipment, _____ done?

_____ someone _____ electricity-driven _____ tools take _____ there is an _____ power failure?

_____ steps frequent _____ electric, someone _____ electric medical _____.

_____ someone _____ on _____ apparatus _____ with possible grid failures?

_____ do people _____ electricity for their medical devices do _____?

_____ any advice _____ with electricity dependent medical _____?

_____ done _____ ensure _____ is used _____ medical equipment?

You _____ the grid, _____ with my health gadgets?

Is _____ a _____ for people _____ depend _____ electric _____?

Steps to ensure _____ of care in _____?

_____ someone with _____ medical tools take if _____ is _____ power _____?

_____ you _____ for _____ using _____ health apparatus when _____ with _____ possibility _____ a _____ failure?

_____ be done _____ the _____ relies on electricity- _____ equipment?

_____ on _____ gear, _____ steps lose electric?

Measure should _____ taken _____ medical equipment.

What if power _____ out and _____ are in _____?

_____ a person needing electricity _____ might _____ power.

_____ to _____ medical _____ a power failure?

_____ precautions must _____ taken by someone _____ healthcare devices?

How to _____ with _____ being out of _____?

_____ the grid _____ out _____ do with my _____ gadgets?

_____ case _____ what instructions should _____ taken _____ account _____ patients _____ rely _____ electronical-based therapeutic machines and _____?

_____ there any _____ precautions _____ reliant _____ electrical medical appliances?

If _____ relies _____ medical equipment _____ dependent _____ electricity, _____ we do?

_____ do to protect their _____ devices if _____ of a _____ failure?

_____ the grid is black _____ I do with _____ electricity-hungry _____?

_____ to _____ can do if _____ equipment needs electricity.

_____ healthcare _____ what _____ they do?

If someone uses _____ medical _____ what should _____?

How _____ deal _____ those who are using _____?

Suggestions _____ hitting individuals _____ aids?

_____ should _____ sure they have constant _____ to healthcare instruments _____ possible _____?

_____ juice _____ off, what's your _____ for _____ relying _____ electric-dependant _____?

What precautions _____ someone _____ necessary utilities _____ when there _____ disruptions such _____?

Who depend _____ healthcare _____ is _____ of being cut _____?

How to _____ electricity dependent _____ power cut?

What _____ people _____ medical _____ when _____ a potential _____ failure?

_____ are the _____ need _____ be taken _____ patients _____ is a _____ power failure?

What _____ are recommended _____ on electricity for _____ devices.

When _____ is _____ do I do with _____ medical _____?

If someone _____ disruptions, _____ sure to take precautionary steps.

_____ with _____ healthcare _____ service interruptions, _____ advise _____ necessary precautionary steps

When dependent _____ equipment, what protocols _____ follow _____ failures?

What precautions _____ by someone using electrical _____ during a _____?

What if _____ power goes _____ and _____ are _____ help?

_____ I have _____ equipment _____ electricity, what _____ the game _____?

_____ should _____ ensure constant access _____ instruments when _____ is a possible _____?

_____ can _____ dependent _____ electric- _____ healthcare apparatus _____ potential grid _____?

Is _____ a _____ recommendation about _____ cuts _____ electrical-medical aids?

When using _____ to _____ should be done?

_____ person _____ powered _____ devices must _____ precautions _____ power cuts.

_____ want _____ know _____ there are any recommended _____ for _____ with _____ that is _____ electricity.

Proactive users of _____ machinery _____ be _____ potential power _____.

Is there a way to _____ power _____ electric _____.

_____ should _____ electricity- _____ medical devices do _____ there is a _____?

_____ needs to be _____ machines.

Precautions _____ power interruption _____ machines?

_____ were precautions _____ dependent _____ machines.

_____ step _____ loss _____ someone _____ on electric _____ gear?

Is _____ advice _____ those _____ rely _____ electric- powered medical _____?

_____ any _____ for _____ with medical gear dependent _____?

What _____ someone _____ do _____ the _____ of a power failure?

_____ should a _____ reliant _____ medical _____ do _____ the event of _____ power _____?

_____ should _____ ensure constant _____ to electric _____ during _____ power _____?

What _____ who rely _____ medical devices _____ if the power _____ out?

_____ are power cuts, _____ help for _____ medical items?

_____ handle medical _____ during power _____?

_____ to _____ medical _____ don't go down?

_____ you _____ using medicare _____ during power cuts?

Tips _____ during power cuts?

There _____ needed _____ dependent health _____.

_____ is _____ solution _____ people _____ electric-dependant meds _____ the juice _____ off?

_____ frequent _____ electric, someone rely on _____ gear?

If medical _____ electricity, what should be _____?

What should people do _____ medical _____ up?

_____ there any advice for _____ electric-powered _____ a power _____?

_____ to _____ done _____ using electricity _____ medical equipment?

_____ case _____ what should we _____ to make _____ of care?

_____ tell me _____ should be taken _____ using _____ medical equipment?

What is _____ game _____ my _____ equipment _____ not powered _____?

_____ would _____ plan _____ if my _____ equipment _____ dependent on _____?

When reliant _____ electric _____ aids, _____ do _____ occasional power cut?

Will _____ dependent on electric _____ apparatus be able _____ grid _____?

_____ electricity _____ used _____ medical equipment, _____ be done?

_____ you _____ how _____ handle medical _____ during _____ power _____?

When _____ power goes out, what do _____ do _____?

The _____ cut _____ a barrier _____ depend _____ electrical _____ healthcare tools.

What can individuals _____ electricity-powered _____ when the _____ goes _____?

The _____ dependent _____ electrical _____ healthcare _____ must take _____.

_____ do you deal with potential _____ for _____ devices?

_____ should someone _____ a medical device _____ when the _____ ?
 How do _____ with _____ powered medical _____ that _____ ?
 _____ those _____ gadgets be helped?
 _____ people use medical _____ there's a potential _____ ?
 What instructions should _____ given to _____ rely on _____ therapeutic _____ the event of _____ ?
 When _____ power _____ out, _____ should _____ medical _____ be helped?
 _____ medical _____ users need _____ prepare for _____ interruption?
 A person needing _____ tools _____ have _____ .
 What if power _____ out _____ someone _____ electricity _____ .
 What should _____ equipment do _____ power failure?
 _____ device _____ should prepare _____ shortages.
 _____ should someone do _____ dependent _____ electricity for medical _____ ?
 Do you _____ any _____ hitting individuals using electrical-medical _____ ?
 How _____ an electric-powered _____ with possible grid _____ ?
 There are _____ that _____ taken by patients if there _____ of _____ cut.
 _____ electricity- dependent health _____ be _____ for potential disruptions?
 _____ to _____ failures with _____ devices?
 _____ medical _____ plan _____ power cuts?
 If _____ goes out, _____ person _____ health tools?
 Any advice for people _____ rely _____ medical _____ ?
 _____ someone _____ healthcare devices _____ interruptions, _____ advise the necessary precautions.
 What _____ be taken _____ people _____ rely _____ electrical _____ devices?
 When reliant _____ aids, are _____ with power shortages?
 How to _____ in _____ of a power _____ ?
 Are there _____ taken _____ those _____ medical appliances _____ an unforeseen _____ loss?
 Medical _____ users _____ for power _____ .
 _____ chronic _____ of _____ devices _____ prepared _____ power failures?
 _____ steps frequent loss _____ someone rely on _____ ?
 _____ if I _____ medicine _____ use _____ a power issue?
 What should _____ done _____ someone _____ medical equipment?
 _____ are _____ power _____ medical equipment.
 _____ must somebody depend on medically necessary utilities to _____ when _____ are _____ ?
 _____ be handled amid potential _____ .
 _____ case of power _____ electronic _____ are the _____ continuity of care?
 What _____ must someone rely on _____ to _____ during disruptions _____ total _____ ?
 Is _____ any advice for _____ who _____ electric-power _____ ?
 _____ someone relies on electricity- _____ medical equipment, _____ done _____ protect _____ ?
 How should one _____ access _____ electric _____ instruments _____ failure?
 Should _____ medical device users make _____ enough _____ ?
 _____ anyone rely _____ medical equipment _____ a _____ failure?
 What _____ to _____ they _____ access to electricity for _____ equipment?
 _____ the _____ goes _____ help _____ with electric medical things _____ ?
 If I _____ a power failure, _____ medicine products?
 _____ dependent on medical _____ protocols should _____ electricity disruptions?
 I _____ know what _____ I _____ medicine but there _____ a _____ failure.
 What _____ on _____ necessary utilities _____ consider when _____ total darkness occur?
 _____ to _____ in the event of a _____ ?
 How _____ keep _____ on _____ rely on _____ devices.
 _____ deal _____ power cuts and _____ machines.
 When _____ goes _____ what _____ you _____ for people with electric _____ ?

_____ do we help people _____?

_____ I face a power failure, what _____ I _____ electric?

Is there _____ that should be _____ by those reliant _____ appliances during _____ failure?
_____ be done when _____ medical equipment.

_____ instructions should be _____ account by patients _____ rely _____ and _____ in _____ event _____ grid failure?

What should _____ a _____ relies _____ electricity-dependent medical _____?

_____ to _____ health apparatus when facing _____ possibility _____ a power failure?

_____ with medical gear _____ a power _____?

How to _____ medical gear _____?

_____ the juice goes _____ the _____ with _____ dependent meds?

When _____ comes to _____ healthcare _____ what precautions _____ taken?

What _____ power goes _____ and people need _____?

_____ a _____ idea for _____ medical device _____ to be _____ for _____?

_____ are _____ electricity dependent patients _____ the _____ is _____.

How to _____ gear when _____ power failure?

When dependent _____ health aids, are _____ to _____ with _____?

Is _____ any plan for _____ and _____?

_____ can we do _____ people _____ electric medical _____?

_____ a _____ with a _____ device do _____ the _____ off?
