

[Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Privacy and data protection concerns
Inquiry Sub-Category	Data Breach Response
Description	Inquiries about the marketplace's protocol for detecting, investigating, and responding to data breaches, including notification procedures and remediation plans.
Data Size	6,626 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

_____ regularly _____ systems, databases, _____ networks _____ cybersecurity _____ potential threats?
 _____ check _____ and _____ for threats?
 Is there _____ database, _____ network audits done to _____ ?
 _____ you monitor _____ assess _____ security of your systems _____ shield _____ potential _____ ?
 Does _____ organization conduct _____ audits to _____ cyber _____ ?
 _____ systems, databases, _____ regularly _____ for _____ risks?
 Do you _____ regular _____ security _____ as a _____ ?
 Do you _____ in systematic _____ against _____ threats?
 _____ you have systems, _____ and _____ ?
 _____ and networks audited _____ ?
 _____ you use systematic _____ safeguard _____ cyber _____ ?
 _____ the _____ system, database, _____ network _____ ?
 Do you _____ security of _____ systems _____ they _____ from potential threats?
 _____ conduct security audits _____ check systems _____ ?
 Do _____ networks _____ often?
 _____ you constantly _____ and networks for cyber _____ ?
 Would it be _____ protocol to conduct ongoing audits _____ databases, _____ ?
 Do you think it _____ be _____ of _____ to _____ audits _____ systems,databases, _____ ?
 _____ you _____ audit _____ networks and systems on _____ ?
 Are _____ databases, and networks to make sure _____ secure?
 Is _____ of your _____ on systems,databases, _____ networks for proactive security _____ ?
 _____ you perform regular audits _____ against cyber _____ ?
 Do _____ database, _____ network _____ often?
 Do you _____ security _____ to _____ ?
 Do you _____ databases _____ ?
 _____ assessments _____ against cyber attacks?
 Do you audit _____ databases and _____ ?
 Do _____ happen _____ the systems, _____ networks?

_____ you audit _____ systems frequently _____ to _____ cyber _____?
 Do you conduct _____ of _____?
 Do _____ databases, and networks _____ cyber protection?
 Security audits _____ systems, databases and networks _____ measure.
 _____ many times do _____ your systems _____?
 Should _____ databases, and networks _____ regularly to _____ sure _____ safe from _____?
 _____ auditing done to _____ safe?
 _____ systems, databases, and networks need _____ a regular _____?
 _____ you checked _____ networks?
 _____ assessments done on a _____ to _____ cyber attacks?
 Do you conduct _____ audits of your _____ sure _____ from cyber _____?
 _____ it _____ systems, _____ and _____ be _____ to ensure _____ against potential threats?
 _____ you do _____ safeguard _____ cyberthreats?
 Do _____ sure your systems, databases, _____ networks _____?
 _____ you check _____ databases, _____?
 _____ you _____ reviews _____ safeguard _____ cyberattacks?
 _____ it _____ have _____ of systems, _____ and networks _____ address _____ threats?
 Do you _____ to help protect _____ cyber _____?
 Do _____ conduct regular _____ of your systems to _____?
 _____ you _____ cybersecurity audits?
 _____ often _____ you check _____ security of your _____?
 Do _____ check _____ networks _____ threats?
 Is it _____ regular _____ of _____ and _____ address potential security threats?
 Do _____ check _____ for _____ baddies?
 _____ audit _____ databases, and networks _____ threats?
 Do you _____ your _____ systems often _____ ahead _____ cyber _____?
 _____ audits _____ systems, databases, and _____?
 Is _____ an _____ done _____ systems, _____ and networks?
 _____ audit networks _____ potential threats?
 Are _____ done for _____?
 Do _____ audits of _____ take place?
 _____ audits the systems frequently to _____?
 Is it _____ in your protocol _____ systems, databases, _____ networks for proactive _____?
 _____ keep an _____ the _____ of your systems _____ them _____ possible threats?
 _____ routinely auditing your _____ cybersecurity _____?
 _____ cybersecurity audits _____ your networks _____ systems?
 Do you _____ out regular _____ on _____ systems, _____?
 _____ you _____ your _____ networks often?
 _____ there regular _____ on network _____?
 _____ precautionary measure against potential _____ are _____ audits performed _____ on _____ and _____?
 _____ audits _____ frequently _____ the _____ and networks?
 _____ it _____ included in your protocol _____ ongoing audits _____ and networks _____ proactive _____?
 Does _____ your approach _____ ahead _____ cyber _____ involve _____ checking systems?
 _____ monitor _____ assess _____ of your systems _____ order to _____ them?
 _____ part of _____ ongoing _____ on systems, databases, and _____ for proactive cybersecurity _____?
 Do _____ regularly _____ databases, _____ networks?
 Do _____ conduct regular audits on your _____ they _____ safe?
 Do _____ audit networks _____ them _____ cyber threats?
 _____ you _____ audits to _____ your systems are _____ cyber threats?
 _____ often do you _____ your _____ for potential _____?

_____ frequently on the systems,databases and networks?
_____ and assess the security _____ systems?
Are there _____ audits _____ across _____?
_____ you _____ systematic reviews _____ yourself against cyber _____?
_____ you check _____ systems, databases, _____ daily _____ cyber _____?
_____ regular audits on _____ networks _____ against cyber _____?
Do you _____ audits _____ make _____ your systems from cyber _____?
_____ there _____ regular audit on _____ and _____?
Do _____ conduct _____ audits _____ systems _____ precautionary measure?
How _____ you _____ systems, databases, _____ networks _____ proactive _____?
Do you _____ audits on your _____ and _____ make _____ are _____?
Are there _____ done _____?
_____ systematic reviews _____ safeguard _____ cyber threats?
_____ you doing _____ audits _____ cybersecurity _____?
_____ you _____ audits on _____ sure that they are protected against _____?
Are _____ keeping a close watch _____ and _____?
_____ frequently _____ safety checks on _____ infrastructure, _____ and operating systems?
_____ you make sure your systems, _____ of _____ threats?
_____ inspect systems _____ to _____ cyber _____?
Are regular _____ on _____ for _____?
_____ you _____ to detect cyberthreats?
_____ secure databases and _____?
Do you _____ regular _____ preventive measure?
_____ you _____ an eye _____ your _____ and networks _____ cyber _____?
Do you _____ audits _____ evaluate systems _____ potential _____?
_____ a regular _____ and network audit _____?
_____ be part of your protocol _____ ongoing audits on _____?
Do _____ to make _____ your _____ databases, and _____ are protected _____ threats?
_____ conduct regular _____ to ensure _____ safety of _____ systems, _____ networks?
Are _____ for _____ threats?
Should _____ networks _____ audited _____ to make sure they _____ of potential _____?
_____ you _____ your databases _____ systems?
_____ audits _____ databases, and networks as a _____ measure?
Do _____ conduct Cybersecurity _____ your networks _____?
Do _____ audit systems, databases _____?
_____ conducted on _____ and networks _____ make sure _____ in place?
_____ conduct regular security audits to assess _____?
_____ there _____ every _____ often _____ protect against cyber attacks?
Are _____ constantly checking _____ and _____?
How _____ the security of your _____?
_____ continuously _____ and assess _____ of your systems?
Is _____ system, _____ and network _____ done _____ threats?
Do _____ do systematic _____ from cyber threats?
_____ you _____ threats to your _____?
Does _____ audits _____ for _____ threats?
Is _____ regular _____ systems, _____ networks?
Do _____ and networks _____ a regular _____?
Audit _____ cyber threats?
_____ and assessing _____ of your systems _____ to keep them _____?
_____ an _____ the databases and _____?

_____ checking _____ systems _____ stay safe?
 _____ do you _____ systems for security _____?
 Do you audit _____ to _____ cyber _____ a _____?
 Do you audits _____ and _____?
 _____ there _____ system, database, and _____?
 _____ regular _____ on systems, databases and _____ to _____ sure precautions _____ in _____?
 _____ there _____ done for _____ and networks?
 _____ check for _____ threats _____ your _____?
 Is there _____ routine _____ of _____?
 _____ conduct proactive _____ across _____ systems and networks?
 _____ many _____ per year do _____ check _____ systems, _____ networks?
 _____ a _____ against potential threats, _____ security _____ frequently?
 Do _____ happen often _____ against _____?
 _____ check your systems _____ cyber _____?
 _____ you conduct regular audits of your _____ make _____?
 _____ for regular audits _____ databases, and _____ to _____ against potential _____?
 Do you _____ security _____ frequently?
 _____ you _____ databases, and _____?
 _____ you frequent _____ of _____ systems, _____ and _____?
 Do you _____ assess _____ of your _____ to _____ them against _____?
 Do _____ conduct _____ make sure _____ systems, databases, _____ networks _____ protected against cyber _____?
 Do you _____ your _____ and networks _____ from cyber threats?
 _____ you _____ preventative _____ audits across _____?
 _____ regular audits _____ cybersecurity measures?
 Do _____ conduct _____ audits to _____ your _____ free of cyber threats?
 Do _____ the systems _____ cyber _____?
 _____ guys _____ your systems, _____ and networks?
 _____ you do _____ audits _____ your systems to _____ sure _____ are _____ against _____?
 Can _____ that _____ audits of systems, _____ are conducted?
 _____ systems, _____ networks often for proactive cybersecurity?
 Do you _____ systems, _____ networks _____?
 Do you audit _____ sure _____ cyber threats?
 Are you checking your systems _____ cyber _____?
 Do you _____ systematic reviews to _____?
 Do systems, databases _____ checks?
 _____ you _____ your systems, databases, _____ networks?
 _____ you audits systems, _____ and networks _____?
 _____ audit systems _____ cyber threats?
 _____ systems, databases, and networks?
 Do _____ security checks?
 Do security audits _____ place on _____ and _____?
 _____ it _____ part _____ to perform _____ on systems, databases, and networks?
 How _____ do you check _____ systems _____?
 Do _____ conduct _____ of _____ databases, _____ networks?
 Can regular system, _____ audits be done _____ off _____?
 _____ regular _____ the systems, databases and _____?
 _____ part _____ your _____ to _____ ongoing audits on systems, _____ and _____ cybersecurity _____ against potential threats?
 Do _____ audit _____ systems to make _____ of cyber _____?
 Do systems, databases, _____?
 _____ you _____ security audits _____ systems _____ threats?

Do _____ the _____ of your _____ order _____ protect them against _____ threats?

Do _____ conduct systematic _____ prevent _____?

Is _____ performed to guard _____?

Does _____ of _____ regularly checking systems, _____ and networks?

Do you _____ audit _____ and _____?

_____ network auditing _____ be _____.

Do _____ check for _____?

Do regular _____ and _____ happen?

_____ there security _____ done _____ networks?

Do you _____ networks _____ to detect _____ threats?

_____ you conduct regular _____ detect _____?

_____ have _____ to safeguard against cyber _____?

Do you audit _____ databases, _____ often _____?

Do you _____ frequent _____ measures?

_____ frequent audits _____ preventative measures?

How _____ system audits _____ to protect _____?

_____ networks frequently _____ prevent _____ threats?

_____ it _____ the _____ perform _____ audits on _____ and networks?

Do _____ conduct _____ make sure your _____ are protected against _____?

_____ systems, secure _____ networks from _____?

_____ you _____ assess _____ security of _____ systems to make _____ attacked?

Do _____ on _____ and networks _____?

Do you keep _____ on the security _____ in _____ to protect _____?

Is there regular _____ on _____ and _____ they are safe?

_____ you have systematic _____ protect _____ cyber _____?

Would an _____ of systems,databases, and _____ your protocol?

_____ do _____ check out _____ security _____ your systems?

_____ it _____ of your _____ perform ongoing _____ systems, databases, _____ for proactive cybersecurity measures?

Are _____ to safeguard against _____ threats?

_____ you periodically _____ systems for _____?

_____ regular _____ conducted _____ systems, databases, and networks to _____?

_____ regularly inspect _____ and networks?

Do you do _____ safeguard _____ threats?

_____ frequently to protect yourself from cyber _____?

Are you auditing _____ databases, _____ networks as _____?

_____ check the _____ for _____ baddies?

Do you _____ the _____ networks _____ have?

_____ systems, _____ and networks _____ audited _____ for _____ cybersecurity?

_____ do _____ check _____ databases and _____?

Do _____ systems often?

Is _____ included _____ your _____ to _____ audits _____ systems,databases, _____ networks _____ proactive cybersecurity _____ potential threats?

How often do you _____ the _____ databases?

How often do you _____ your _____ vulnerabilities?

Do _____ audits systems, _____ for proactive _____?

_____ for _____ to security regularly?

Do _____ audit systems, databases, and networks _____?

Would it _____ part of your protocol to perform _____?

_____ databases and networks _____ proactive cybersecurity?

There should _____ regular _____ of _____ and networks.

_____ you _____ and assess the _____ your systems to _____ them from _____ threats?

_____ your systems, databases, _____ frequently?
 _____ there a _____ assessment _____ to protect _____ attacks?
 _____ conducting regular audits on _____ systems, _____ networks?
 Have _____ your _____ databases, _____ frequently?
 Would _____ audits _____ networks be part _____ your protocol?
 Do _____ think _____ be _____ your _____ to _____ audits on _____ and networks?
 _____ there _____ checks _____ the _____ and networks?
 Do you monitor _____ of your _____ to _____ them from _____?
 _____ the system _____ check _____ security _____?
 Would _____ part of _____ to perform ongoing audits on systems,databases, _____ for _____?
 Do you monitor _____ the security _____ your _____ to _____ they are _____ threats?
 Are there _____ and systems?
 _____ you do regular cybersecurity _____ on your _____ networks as _____?
 Are _____ systems, databases, _____ often?
 _____ regular _____ to _____ sure the _____ are safe?
 Do _____ audit _____ systems to detect _____?
 Do you _____ systems _____ avoid _____?
 Do _____ try _____ cyberthreats?
 Can you _____ the _____ databases, _____ networks are _____ regular basis?
 _____ you _____ and networks?
 _____ on systems, databases, _____ networks to make sure _____ are _____ place _____?
 _____ you _____ audits _____ systems as _____ precautionary measure?
 _____ your systems and _____?
 How frequently _____ you _____ safety _____ on _____ infrastructure?
 Are you regularly checking _____ databases, _____ to _____?
 Do you _____ security _____ your systems, _____ protect them from potential _____?
 _____ are system audits _____ ensure _____?
 _____ you check _____ systems _____?
 _____ conduct _____ to safeguard _____ cyberthreats?
 Does _____ systems, databases, _____ networks _____?
 Is it possible _____ systems, _____ and _____ make sure _____ are _____?
 _____ it possible to _____ audits _____ and _____ to _____ measures _____ in place?
 Do _____ frequently _____ cybersecurity?
 _____ regular audits on _____ databases, _____ networks to guard _____ potential _____?
 _____ systems, databases, and _____ regularly?
 Do you _____ monitor and _____ the _____ in order to shield _____ potential _____?
 _____ possible to _____ audits _____ databases, and networks to _____ potential _____ threats?
 Do _____ monitor _____ assess the _____ to keep them free of _____ threats?
 _____ you conduct regular cybersecurity _____ sure your _____ are _____?
 Is _____ checks _____ systems, _____ and networks?
 Do _____ out _____ and networks?
 _____ audit systems often _____ make _____ don't _____ cyber threats?
 _____ you _____ auditing _____ systems, _____ networks?
 Do _____ inspect _____ systems often?
 _____ your _____ databases, _____ checked _____ threats?
 Does it happen _____ attacks?
 _____ audit systems to _____ against _____?
 Do _____ conduct _____ audits _____ identify _____ threats?
 _____ audits _____ make sure your networks _____ free _____ cyber threats?
 Are you _____ reviews to _____ cyber _____?

Do you check _____ systems, _____?
 _____ regular _____ carried out _____ protect against _____?
 _____ a _____ your protocol _____ perform _____ audits _____ systems,databases, and networks against _____?
 _____ check _____ security of your systems _____ databases?
 Do system _____ periodically _____ for _____?
 Can you _____ your systems, databases and _____ audited _____?
 _____ you regularly checking systems, _____ ahead _____ cyber threats?
 Do you _____ systems _____ to _____ ahead of cyber _____?
 _____ an audit of _____ and _____?
 _____ you _____ an _____ on the security _____ your _____ and _____ sure _____ from threats?
 _____ security _____ frequent _____ the _____ networks?
 Is _____ included _____ protocol to _____ ongoing audits _____ networks?
 _____ you _____ your networks _____ sure they _____ free of potential threats?
 _____ often do _____ conduct safety checks _____ your _____?
 Is it _____ your _____ perform _____ on systems,databases and _____?
 _____ part _____ to staying _____ cyber threats include _____ checks _____ systems, databases, and networks?
 Are security _____ performed frequently to _____?
 Are _____ regular _____ audits _____ your systems, _____ networks _____ a _____ measure?
 Do _____ check _____ databases, and networks _____ stay _____ cyber threats?
 _____ databases, and networks _____?
 _____ you _____ regular _____ systems, databases, and _____?
 _____ there _____ routine _____ conducted _____ the systems, databases, and _____ are up to date?
 Do _____ security _____?
 Do _____ check _____ databases and _____ to _____ of _____ threats?
 Do you _____ cyber threats?
 _____ your systems, _____ and _____ to _____ audited?
 Do you carry out _____ against _____ threats?
 Do you _____ eye on your _____ databases _____?
 _____ you _____ regular audits _____ look _____ for _____ threats?
 Do _____ regular _____ your systems?
 Do _____ audits _____ your systems, _____ a precautionary measure?
 _____ check _____ frequently for potential cybersecurity _____?
 Are _____ regular audits _____ on _____ databases, _____ networks _____ are protected?
 Is it part of the _____ to _____ audits on _____ for _____?
 Is it possible _____ conduct routine _____ systems, _____ to _____ are safe?
 Would it _____ a _____ of your protocol to perform _____ systems,databases, _____ networks _____ cybersecurity _____?
 Do you _____ your networks _____ systems often?
 Are you _____ safeguard from _____?
 Do _____ audit _____ or _____?
 Do _____ regular _____ systems and databases?
 _____ this part _____ approach to _____ of _____ include regularly _____ systems, databases, and _____?
 Is it _____ to _____ regular audits of systems, _____ and _____?
 Are you _____ databases _____ stay _____ of cyber threats?
 _____ frequently do _____ audit the _____ your systems, _____ networks?
 _____ you _____ on _____ to make sure you don't _____ attacked?
 Do regular _____ systems, _____ happen for cyber _____?
 _____ audits _____ performed on _____ a precautionary measure against _____ threats
 _____ audits to _____ sure that _____ systems and databases are _____ cyber _____?
 Is _____ a _____ systems _____ databases?
 _____ regular _____ databases, and networks _____ against cyber threats?

Do _____ and _____ the security _____ your _____ in _____ to keep _____ out _____ way?
 _____ you _____ your _____ daily to _____?

_____ are _____ on the _____ frequently as a _____ measure _____ potential _____
 _____ cybersecurity audits _____ across your _____?

Is it part _____ your protocol to _____ networks?
 _____ to cyber threats?

Do you _____ on _____ for cyber _____?

Are regular _____ audits carried _____ stay safe?

Do _____ protect against cyberthreats?

Are _____ audits for _____?

Do _____ always check your _____ networks _____ safe?
 _____ you _____ systems _____ potential threats to cybersecurity?
 _____ you conduct regular audits to _____ systems and _____ are _____ cyber _____?

Do _____ audit _____ systems for _____?
 _____ databases _____ networks audited _____?

Do _____ audits occur _____ databases _____?
 _____ you _____ audits _____ networks _____ systems to _____ sure they are _____ potential threats?
 _____ there _____ performed on _____ and networks?

Do you _____ regular audits _____ ensure _____ against _____?

Do _____ regular audits _____ your network is _____ against _____ threats?
 _____ there a _____ check _____ and networks?
 _____ it _____ to _____ audits of _____ and networks to _____ potential _____?
 _____ you _____ systematic reviews _____ ensure _____?
 _____ on systems, databases, _____ networks?
 _____ audits occur across _____ systems?

Is _____ routine _____ on the system _____?

Does _____ and _____ get audited _____?
 _____ do regular _____ to check for potential _____?
 _____ regular audits _____ safeguard against _____ threats.
 _____ you _____ systems _____ cyber baddies?
 _____ audit systems to _____ from cyber _____?
 _____ that your _____ are secure?

Do you _____ audits _____ security?
 _____ you checking _____ networks and _____?

Do you have _____ and _____?

Do you conduct _____ security?

How _____ do _____ safety _____ in _____ network infrastructure, database _____ and _____?

Do _____ check systems, _____ frequently?

Do you _____ to _____ cyber threats?
 _____ you constantly checking _____ systems _____?

Is _____ regular audits _____ systems, databases, and _____?

Do _____ and assess _____ security _____ your systems along with _____ measures _____?

Do you _____ systems, _____ and _____ from _____ threats?

Do you _____ audit _____ and _____?
 _____ you check _____ databases, _____ frequently to stay ahead _____?
 _____ you conduct _____ audits _____ threats?

Are _____ proactive _____ your networks?

Is it _____ of your protocol _____ ongoing _____ on systems,databases, _____ proactive _____?
 _____ you check _____ and networks _____ to _____ of cyber _____?

Do you conduct regular _____ networks are safe _____ threats?

____ often ____ you check ____ systems, ____ networks?
 ____ you ____ audits ____ your ____ to ____ sure ____ protect ____ against cyber threats?
 ____ and secure ____ cyberattacks?
 Do ____ systems, ____ networks regularly?
 ____ systems ____ guard ____ threats?
 ____ frequently are ____ to ensure ____ security of ____ system?
 Are ____ your systems ____ stay ahead ____ cyber ____?
 Do regular ____ an ____ cyber ____?
 Is ____ periodic ____ checks ____ systems and ____?
 ____ audits ____ usually done on ____ systems,databases, ____ as a ____.
 Do ____ systems, ____ networks?
 Can ____ audits to ____ potential ____ threats?
 Do you keep an ____ your systems ____ are free of ____?
 Is ____ on systems, databases and ____?
 Do ____ databases, ____ networks ____ audits?
 Is ____ regular ____ to ____ systems?
 Do ____ systems, ____ and ____ audits performed?
 Are regular assessments ____ cyber ____?
 Do you ____ audit systems, ____?
 Do ____ regular cyber ____ audits ____ your ____ databases, ____ networks?
 ____ you ____ a close eye on ____ networks?
 Do ____ checks on ____ databases ____?
 Do ____ audits ____ and networks ensure proactive ____ threats?
 How ____ you ____ systems, databases, and ____?
 ____ you ____ it ____ to audit ____ databases, ____ networks regularly?
 ____ you conduct cyber ____ networks?
 ____ keep an eye ____ your ____ to ____ sure ____ protected from ____ threats?
 ____ conduct regular audits ____ your systems, databases ____ networks are ____?
 ____ done on systems, databases ____ networks?
 ____ we have a regular ____ systems, databases ____?
 Do regular audits on ____ against cyber ____?
 ____ frequently are ____ audits ____ protect ____ threats?
 ____ to be a periodic ____ systems, databases, ____.
 Are you ____ your ____ networks ____ regular basis?
 Is routine audits ____ on ____ databases, ____ sure cybersecurity measures ____ place?
 Do ____ regular ____ make sure ____ systems, ____ and networks ____ of ____ threats?
 Audit systems ____ threats?
 Do regular ____ on systems, databases ____ against ____?
 ____ check ____ networks, databases, and ____?
 ____ you ____ your ____ and ____ are regularly audited?
 Do ____ network ____ systems ____?
 Do ____ conduct ____ security?
 ____ you ____ your ____ frequently to ____?
 ____ make sure you ____ regular audits ____ systems, databases, ____?
 ____ your ____ to staying ahead ____ cyber threats ____ periodically ____ systems, ____ and networks?
 Is ____ cyber ____ checks ____ systems, ____ and networks?
 Security audits ____ on ____ systems,databases, and ____ as ____ precautionary ____.
 Are ____ monitoring and ____ sure they are not in danger?
 ____ you regularly check ____ systems, ____ ahead of cyber threats?
 Are you constantly checking ____ networks ____ stay ____?

_____ auditing _____ to secure the _____?

Is it possible _____ databases, and _____?

_____ you _____ regular _____ to make sure your databases _____ protected _____ cyber _____?

_____ audits be _____ databases, and _____ to make _____ they are free _____ potential _____?

Do _____ frequently happen _____ the _____ networks?

_____ databases, and networks _____ with cyber protection?

_____ it possible _____ regular _____ of _____ databases, _____ to _____ potential threats?

Do _____ do _____ protect _____ cyber risks?

Do you _____ proactive _____ networks?

Are _____ system, _____ network _____ done?

Do you audit _____ threats?

Do _____ conduct systematic _____ cyberattacks?

Do _____ cybersecurity audits _____ your systems _____ a _____?

_____ there _____ databases, and _____ to _____ sure they _____ protected from cyberattacks?

Are regular _____ on _____?

_____ audit systems often _____ for _____ threats?

Is it _____ to conduct _____ systems, _____ and networks _____ make _____ are _____ place?

Do _____ do regular _____ your _____ databases are protected _____ cyber threats?

Do regular _____ and _____ help _____ against threats?

_____ you audit _____ systems _____ risks?

Is it something _____ regularly to stay _____?

Are you checking _____ systems frequently _____ date _____ threats?

_____ there a _____ review of _____?

Do _____ check _____ security threats?

Are _____ done _____ systems, databases and _____?

_____ take place to _____ against _____ threats?

_____ audits done on _____ to protect against _____?

_____ security audits to check _____ for _____ threats?

_____ guys check _____ databases, and networks _____?

How frequently _____ checks happen _____ infrastructure?

Do you _____ regular _____ audits performed _____?

Do you _____ checks _____ regular _____?

Do you _____ your systems?

I want _____ if there is _____ review _____ systems, databases _____.

Do _____ systems _____ networks?

Is it _____ ensure regular audits of _____ networks _____ threats?

Are _____ checks performed _____ and _____?

Are _____ auditing your _____ cybersecurity _____?

_____ regular _____ of systems, _____ networks?

_____ you _____ audits _____ your networks and systems are protected _____ cyber _____?

_____ audit _____ for potential _____ threats?

_____ on _____ databases, and networks mean cyber _____?

_____ do _____ networks for potential cyber risks?

_____ perform _____ of systems, _____ networks?

Are you checking _____ and _____ for _____?

Do you conduct _____ you from _____?

Is _____ systems, databases _____ audited on _____ regular _____?

_____ you guys check _____ your _____ and networks _____?

Do _____ inspect your _____ and _____ threats?

Are you _____ your _____ databases, _____?

_____ systems, databases, and _____ for proactive _____?

_____ your systems, _____ and _____?

_____ check systems, databases, and _____?

Are you _____ your _____ systems?

How frequently _____ system audits _____ to _____ sure _____?

_____ frequently _____ you _____ safety _____ in _____ network infrastructure?

_____ you _____ audit _____ databases, _____ networks _____ proactive cybersecurity?

Do _____ audits of _____ networks and systems?

Are _____ performed _____ to guard against _____?

_____ for _____ threats in your systems?

Are there cybersecurity audits _____?

_____ it _____ part _____ to perform ongoing _____ systems, databases and networks?

_____ you _____ regular security _____ systems?

Are _____ audits _____ protect _____ threats?

_____ databases, and _____ frequently to _____ against potential threats?

_____ regular system, database, and _____ done _____ threats?

_____ part of _____ protocol _____ perform _____ audits on _____ and networks for proactive _____?

_____ you keep _____ eye on the _____ of _____ systems _____ protect them _____?

_____ system, _____ and networks _____ regularly?

_____ checks for _____ and _____ occur?

Do _____ conduct _____ reviews _____ cyber threats?

_____ you _____ for _____ cybersecurity?

Do _____ systems for cyber _____ frequently?

Do _____ systematic _____ to _____ cyber Threats?

_____ check your networks _____ cyber threats?

How frequently _____ and databases?

How _____ system audits _____ protect against _____?

_____ regular audits of _____ systems and networks?

_____ you run _____ audits?

_____ it _____ systems, _____ and networks _____ be _____ make _____ they _____ free of potential threats?

Should _____ database, _____ audits _____ conducted?

Does _____ checking _____ and networks?

Is _____ on system components?

Is _____ possible to _____ regular audits _____ systems, _____ potential threats?

Are _____ for systems, databases, _____?

_____ you make sure _____ systems, _____ and _____ are audited _____ threats?

_____ should be _____ reviews _____ networks and _____ risks.

_____ you keep your systems, databases, _____ networks _____ with _____ cybersecurity _____?

_____ you do regular _____ to _____ for _____?

_____ is _____ need for a _____ review _____ systems, _____ networks.

Is it _____ to _____ audits of _____ and networks to _____?

Do _____ audits take _____ networks?

Are _____ auditing _____ databases _____?

Are _____ on systems and _____?

_____ conduct _____ reviews in _____ to safeguard _____ cyberthreats?

_____ regularly conduct systematic reviews to _____ threats?

_____ you _____ your systems, databases, _____?

Do you conduct _____ to _____ potential threats?

_____ audits to make sure _____ networks _____ protected from cyber threats?

Is it possible to _____ systems, _____?

____ it ____ to perform regular ____ on ____ and networks ____ make ____ safe?
 Do ____ check your ____ threats?
 ____ possible to ____ networks to ____ sure they are free ____ potential ____?
 Do you think it would be ____ of ____ ongoing audits ____ and ____?
 Is it ____ and ____ to be audited as a ____?
 ____ it ____ part ____ your protocol ____ perform ____ on systems,databases and ____?
 Do ____ systems, database, and ____?
 ____ a precautionary ____ are security ____ frequently performed ____ networks?
 Is regular ____ done ____ systems ____?
 Is the systems, ____ and ____?
 Do ____ regular audits ____ protect ____?
 ____ databases ____ networks ____ cyber ____.
 Do you conduct ____ audits of your ____ databases ____ make ____ they ____?
 Do you ____ regular audits on ____ systems to ____ you are ____?
 Do ____ audits to ____ cyber threats?
 Do ____ regular audits on ____ sure ____ are protected from cyber ____?
 ____ it be ____ protocol ____ do ongoing audits ____ systems,databases ____ networks?
 ____ you perform ____ checks?
 Are ____ checks ____ performed ____ protection?
 ____ you ____ your systems, databases, and ____?
 ____ it part of ____ ongoing audits ____ and ____ to keep ____ safe?
 ____ regular audits on your systems, ____ networks ____ a ____ potential threats?
 Is ____ audits frequently ____ the ____ and ____?
 Can ____ make ____ that ____ networks ____ regularly audited?
 ____ you audit ____ security of your ____ systems?
 ____ want ____ know ____ there ____ of systems, databases, and networks.
 Do you ____ to ____ cyber threats?
 ____ assessments ____ regularly ____ against ____ attacks?
 ____ you conduct ____ across your ____ and ____?
 ____ systems, databases, ____ networks ____?
 ____ should ____ regular audits ____ systems, ____ networks.
 ____ check the systems for ____?
 ____ check ____ systems ____ baddies regularly?
 ____ you regularly checking ____ systems, ____?
 ____ regular audits done on ____ cyber threats?
 Do you ____ systems, ____ databases?
 ____ do ____ inspect ____ systems and ____?
 Do system audits ____ security ____?
 ____ you ____ regular ____ on systems, databases and ____ cyber ____?
 ____ do ____ check ____ networks ____ databases?
 ____ keep ____ eye on your ____ systems for ____ threats?
 ____ you make ____ the systems, ____ and ____ regular ____?
 Is ____ periodic ____ networks?
 Do you ____ the ____ of ____?
 Do ____ systematic reviews ____ against ____?
 Do ____ systems, ____ and networks regularly ____?
 Do you conduct ____ check systems ____ threats?
 ____ regular audits ____ systems, databases and networks?
 ____ there an assessment done ____ regular ____ against ____ attacks?
 ____ make ____ that your ____ and networks are ____ against cyber ____?

Do _____ check _____ systems?

_____ you _____ databases _____ networks _____ make sure they are free of _____?

_____ you keep _____ the security _____ your systems to _____ potential threats?

Are _____ performed _____ and databases?

_____ there _____ audit _____ on systems, databases, _____?

_____ periodically check your systems, databases, and _____ stay _____ of _____?

Does your systems, _____ networks need _____ audited _____?

_____ you audit _____ to keep _____ free _____ threats?

_____ you do audits _____?

Audit _____ from cyber threats?

How often do you check _____ and _____?

_____ regular system, database, _____ network audits _____ to fend _____?

Do _____ perform _____ databases, and _____?

Do _____ systems often _____ keep _____ cyber threats?

_____ check _____ networks, systems _____ databases?

_____ it _____ to _____ audits of _____ databases, _____ detect potential cyberattacks?

_____ systems, _____ databases and _____?

_____ checking _____ databases and networks _____ cyber _____?

Do _____ assess the security _____ systems for any _____?

_____ should be conducted on _____ and networks _____ are _____ place.

Does regular _____ databases, _____ happen?

_____ you _____ the _____ and _____?

Are _____ systems done _____ protection?

Did _____ systems, databases, _____ for _____?

_____ systems, databases, and networks have _____?

Do _____ do _____ audit?

How _____ do _____ safety _____ your _____ infrastructure, database services _____ operating _____?

Do _____ an eye _____ security _____ your _____ precautions to protect them?

Do _____ databases, _____ get audited _____?

Is _____ to keep your platform _____ of cybersecurity _____?

_____ you monitor and _____ the security _____ in _____ to protect _____ threats?

_____ you _____ regular security _____ protect _____ and network?

Is _____ of _____ protocol to _____ ongoing _____ on _____ databases, _____ for proactive cybersecurity measures?

_____ a regular check _____ systems, databases, _____ networks?

_____ there _____ checks _____ networks _____ systems _____ cyber protection?

_____ do regular audits _____ systems, _____ networks _____ protect against _____ threats?

_____ you _____ audit _____ databases, and _____?

_____ security audits _____ frequently _____ the _____ and _____?

Are _____ regular _____ audits _____ infrastructure?

_____ you regularly audit _____ systems?

_____ regular audits for _____?

_____ system audits _____ threats?

_____ audit _____ systems to make sure they _____ of _____?

Have _____ systems _____ to prevent _____?

Are regular _____ done _____ networks?

_____ do _____ and networks get checked?

_____ regularly audit systems _____?

Is _____ a periodic look _____ databases, and _____?

_____ do _____ security _____ your systems?

_____ it necessary _____ systems, _____ and _____ to _____ to make _____ are safe?

Do _____ your _____ threat?

Do you often _____ to _____ cyber threats?

Are _____ proactive cybersecurity _____ your networks _____ systems?

Is regular _____ systems from _____?

_____ you _____ your _____ and networks for _____ threats?

_____ you _____ yer systems _____?

Are _____ periodic security _____?

Are there _____ performed on _____?

_____ there an _____ the systems, databases, and _____ sure _____ are protected?

Is _____ done _____ protect against _____?

Do _____ audit _____ to _____ cyber threats?

Do any _____ checks on _____ databases, _____?

Are regular _____ the systems, _____ networks?

_____ you checking _____ networks _____ daily?

Can you _____ systems, _____ and networks _____ regularly audited _____ potential _____ threats?

Are _____ systems, databases, _____ audited?

Are _____ regular _____ checks done _____?

_____ conduct _____ security _____ to _____ the systems?

_____ audits on your _____ and databases?

_____ the systems, databases, _____ networks?

_____ you _____ your _____ and networks for _____?

_____ you check _____ for _____ baddies _____?

_____ you conduct security _____ potential _____?

_____ regular system, _____ and network _____ be _____?

Do you use _____ security audits to _____?

How often _____ you inspect _____ security _____ your _____?

Do you _____ your systems _____ stay safe?

Do _____ networks?

Have _____ checks _____ for _____ protection?

Are _____ the systems, databases, and networks?

_____ your protocol to perform _____ audits on systems, _____ and _____ for proactive _____ security _____?

_____ and network audits carried out _____ threats?

Is there _____ of _____ networks and _____?

_____ you _____ your _____ databases _____ systems for cyber _____?

Do regular audits _____ protect _____?

Is _____ regular _____ performed _____ and networks to _____ against _____ threats?

Do _____ audit _____ to make _____ they are _____?

_____ you _____ databases, _____ and systems?

Is _____ cyber protection _____?

How _____ do _____ your _____ for cyber _____?

_____ you audit _____ to protect _____ from _____ threats?

Do _____ check your _____ cyber threats?

_____ you _____ systematic reviews _____ from _____?

Is _____ auditing _____ to _____?

Is it _____ to be _____ networks to ensure proactive _____ are in place?

Do _____ check _____ systems _____ frequently?

_____ carried _____ fend off threats?

_____ systems, secure databases _____.

Do you _____ regular _____ assess the _____?

_____ there _____ audits performed _____ your _____?

How _____ you check _____ systems _____?

Do you conduct _____ audits to _____ sure your systems, _____ from _____?

_____ there regular audits of _____ and networks _____ cybersecurity _____?

Is regular _____ done _____ databases and _____ to _____ free of potential _____?

Is _____ checks _____ systems, _____ and networks?

_____ you conduct regular _____ to _____ protected from _____ threats?

Do _____ keep an eye on _____ security of your systems, _____ to _____?

Do security _____ place _____ and _____?

_____ network _____ carry _____ to fend _____?

As a precautionary _____ are _____ frequently on _____ systems,databases, _____.

_____ regularly _____ systems _____ cyber threats?

Do _____ make _____ your networks are _____ cyber _____?

Are _____ checking your _____ safe from cyber _____?

Do _____ databases, and networks?

Are you _____ networks _____ systems _____?

Audit _____ databases, _____ often _____ prevent cyber _____.

Have you _____ systems, _____ and _____?

Do _____ the _____ for _____ baddies?

_____ you _____ an eye on _____ and protect them _____?

Is _____ possible _____ conduct _____ on _____ and _____ to protect against potential _____?

_____ conduct _____ reviews in order to _____ cyber _____?

Do _____ systems on a _____ basis _____ cyber _____?

_____ frequently are system audits _____ to _____ possible _____?

_____ there an _____ done _____ protect against _____ regularly?

Do you _____ your _____ and networks _____ for _____?

Do _____ check _____ threats?

Do _____ the _____ your _____ to keep them _____ of potential threats?

Do you _____ a _____ eye _____ the _____ systems _____ them _____ potential threats?

_____ check _____ the systems for _____ often?

_____ possible to ensure regular _____ databases, and networks _____ potential _____ threats?

_____ it possible _____ systems, _____ to _____ regularly to _____ sure _____ are _____ of potential threats?

Do _____ networks for cybersecurity?

Should systems, _____ and _____ be _____ for _____ protection?

_____ databases and _____ audited _____?

_____ check _____ systems, databases, _____ networks on _____ regular _____?

_____ make sure _____ databases, _____ networks are protected from _____?

_____ there regular _____ the _____ databases and _____?

Do _____ check your _____ stay _____?

_____ possible _____ regular _____ of systems, _____ and networks to address _____?

_____ regular audits _____ on systems, databases, _____ to make sure _____ threats?

Do _____ do a _____ of audits _____ threats?

Is it possible for systems, _____ and _____ be _____ they are _____?

Are _____ done _____ protect _____ cyber _____?

Is continuous _____ for _____ dangers?

How often _____ you _____ for potential _____ risks?

_____ regular checks _____ protection?

Did _____ the systems, _____ and _____?

Do regular _____ networks occur?

Do you _____ that _____ are _____ from cyberattacks?

Do _____ networks and systems _____?

Are _____ regularly checking _____ systems _____?

Are there _____ the _____ databases, and networks?

_____ conduct regular _____ for cyber _____?

Do _____ on systems, _____ to safeguard _____ cyber threats?

Audits, secure databases, _____ from _____?

Is there _____ of networks, databases, _____?

How _____ check your _____ cybersecurity risks?

Is _____ a _____ system components?

Do _____ sure _____ systems, databases _____ networks are protected _____?

_____ you monitor the _____ to keep them _____ harms way?

_____ there a _____ of _____ systems and _____?

Is there _____ security audit on _____?

_____ it _____ of the _____ perform _____ audits _____ systems,databases, _____ networks for _____ cyberattacks?

Do you _____ out _____ systems _____ cyber _____?

_____ a _____ of systems, databases, _____ networks?

Do _____ checks on the systems, _____?

Do _____ conduct _____ of _____ and _____?

Do you conduct _____ on _____ networks _____ a _____ measure?

_____ conducted on systems, _____ and networks to make _____ preventative _____ place?

_____ system, _____ and network audits _____?

_____ check your _____ and _____ threats?

_____ often do _____ the security _____ your networks _____?

_____ you monitor _____ of your _____ any potential threats?

_____ regular _____ done for _____ databases, _____ networks _____ they are safe?

Are _____ system, _____ and _____ audits _____?

Are regular _____ done _____ databases?

Is the _____ to _____ off _____?

_____ regular audits to protect against _____?

Would _____ in _____ to _____ ongoing audits _____ and networks _____ proactive _____ measures?

Do _____ to _____ for cyber threats?

Do _____ checks _____ systems, _____ and networks _____ protection?

Do _____ audit systems _____ safe from cyber _____?

Can _____ sure that the systems, _____ audited _____ address potential threats?

_____ you make _____ that _____ databases, and _____ audited regularly to _____ potential _____?

_____ done _____ systems, _____ and _____ for cyber protection?

_____ audit _____ detect cyber threats?

_____ you conducting cyber _____ your _____?

How _____ your _____ and systems?

_____ you _____ checking _____ systems, and _____?

_____ you _____ of your systems, databases, _____ networks as _____ precautionary _____?

Do you _____ regular _____ make sure _____ and _____ are free _____ threats?

How _____ do _____ your systems, _____ networks?

_____ frequent _____ checks on networks _____?

_____ have safety checks on _____ network infrastructure?

_____ there a frequent review _____ networks?

Do _____ reg'larly protect _____ systems, _____ from _____ threats?

_____ regular audits _____ proactive _____ measures?

_____ Auditor systems, _____ networks?

_____ there _____ system, database, _____ audits _____?

Do _____ monitor _____ assess _____ security of your _____ be _____?

Do ____ check ____ for cyber ____?

____ conduct ____ audits ____ your ____ to protect them ____ threats?

____ systems,databases, and networks ____ of your protocol?

Is there ____ periodic check ____ systems, ____ and ____?

Do ____ need to ____ networks frequently?

____ audits ____ databases, ____ networks to protect against cyber ____?

____ you ____ cybersecurity ____ across ____ systems?

Do you ____ sure ____ your systems, databases and ____ cyber ____?

____ you check your ____ baddies?

____ regular auditing ____ to secure ____ online dangers?

Does ____ database, ____ audits need ____ be done?

Do ____ keep an eye on ____ your systems, as ____ them ____ threats?

Is ____ a ____ security audit ____?

Do ____ your ____ systems regularly?

____ do ____ check your systems ____?

How ____ do safety ____ happen ____ your ____?

____ and ____ networks ____ cyber ____?

____ part ____ protocol to perform ongoing audits on systems, ____ for ____ measures?

Is ____ regular ____ audit ____ components?

____ you ____ audit your ____ networks ____ a ____ basis?

____ there ____ assessments to protect ____?

Do ____ make ____ check the systems ____ cyber ____?

____ systems, networks ____ databases frequently?

Do ____ check ____ networks for ____?

____ often are system ____ to ____ cybersecurity?

Do you monitor ____ security ____ with necessary measures ____ from potential ____?

Do ____ audits ____ databases, ____ networks ____?

____ you conduct regular ____ preventative measure ____ threats?

____ you audit ____ often?

____ audits check out ____ threats?

Are there ____ systems, databases, ____ networks ____ potential ____?

Do ____ an ____ security of your systems ____ them?

____ there regular ____ done on ____ and ____ to ____ proactive ____?

Do ____ threats regularly?

____ it ____ systems, ____ and ____ to be ____ to make ____ they ____ protected against ____?

Do ____ databases and ____ regularly?

Do ____ conduct proactive security ____?

____ you ____ for cyber risks?

Do ____ systems, ____ a lot?

____ on ____ databases, and networks to make ____ are ____ place?

Are there ____ checks ____?

Are ____ regular audits ____ on ____ networks to ____ they ____ from cyberattacks?

____ you ____ system ____ to make ____ cyber risks?

Do ____ guys ____ networks and ____?

____ your ____ and ____ for threats?

____ regularly ____ systems, ____ and networks ____ approach to ____ ahead of cyber ____?

____ your systems, ____ networks ____ for cyber threats?

____ regular audits on ____ systems, ____ safeguard against ____ threats?

____ security ____ as a ____ measure?

____ you audit the ____ your ____ a ____?

Do _____ your _____ databases, and _____?

Do _____ audits to _____ your systems, databases, _____ networks _____ protected _____ cyber _____?

_____ audits to prevent _____ threats?

_____ audits keep an _____ cyber threats?

Is _____ regular _____ and _____ used?

_____ often do you _____ your network _____ potential _____?

_____ you check _____ networks and _____?

Do _____ periodically _____ the _____ your _____?

Is _____ ongoing _____ of systems, _____ and _____?

_____ auditing done _____ make _____ that _____ are safe?

Do _____ check _____ databases, and _____ stay _____ from cyber threats?

_____ assessments done frequently _____ against cyber _____?

Is _____ scheduled review of _____ and networks?

_____ assessments _____ protect against cyber attacks?

_____ regular _____ protect the systems from online _____?

_____ you perform _____ on _____ databases _____ networks?

_____ there _____ systems and networks?

Do _____ databases _____ networks _____ get _____?

Do _____ check _____ databases, _____ networks?

_____ there _____ networks and systems?

_____ you conduct regular _____ your systems, _____ networks to _____ potential _____?

Are _____ the _____ databases, and _____?

_____ done _____ networks frequently?

Do you regularly _____ your _____ databases, and _____?

_____ regular auditing _____ to safeguard _____ dangers?

Are you _____ checking your _____ databases _____ safe?

Do you _____ your _____ networks _____ cyber threats?

_____ audit _____ frequently _____ guard against _____ threats?

_____ you _____ regular _____ on _____ systems?

_____ you _____ regular audits on _____ and _____ as a precautionary _____?

_____ often _____ you check your _____ potential _____ threats?

_____ you make sure that _____ systems, _____ and _____ regularly?

Do _____ to detect _____ threats?

Are systems, _____ and _____?

_____ conduct regular audits _____ the systems, databases, _____?

Do regular _____ and _____ audits _____?

Is _____ audits done _____ networks _____?

_____ you _____ audit on _____ components?

_____ you check your systems, databases, _____ a _____?

_____ you audits your _____ databases _____?

_____ systematic _____ to protect against _____?

How _____ audits _____ of your network?

_____ a _____ review of network _____?

Are your _____ regularly audited?

_____ you _____ the systems for _____ more _____?

_____ audits done _____ your _____ and _____?

_____ auditing to secure _____?

_____ you _____ and _____ security _____ systems in order _____ protect _____ from _____ threats?

_____ a _____ conducted on _____ and _____ to _____ sure _____ are in place?

How _____ you check your _____ systems?

Is there a _____ to protect _____?

Do _____ conduct proactive _____ your _____?

_____ routine audits _____ on systems, databases, and _____ make _____ are _____?

_____ systems, _____ and _____ get checked _____?

_____ systems, _____ and _____ often for proactive cybersecurity?

Is _____ assessment _____ regularly to protect against _____.

Would _____ part _____ your protocol to _____ audits on _____ networks?

Does the _____ for potential _____?

Can you _____ me how _____ systems, databases, _____ networks?

How _____ do _____ the _____ of your information _____?

Do you _____ your _____ for _____?

_____ regular _____ of systems, databases, _____ networks _____ against cyber _____?

_____ you _____ frequently _____ prevent _____ threats?

_____ you _____ check systems _____?

_____ you _____ regular audits to _____ for _____?

How _____ do you _____ databases _____ networks?

_____ systematic reviews _____ safeguard _____ cyberthreats?

_____ there periodic security _____ on _____ systems?

Do you audit _____ systems, _____?

_____ often _____ audits the _____ of _____ databases?

_____ it _____ your protocol _____ ongoing _____ on _____ databases, and networks for proactive _____?

_____ check your systems, databases _____?

Do _____ your _____ databases, _____ networks frequently _____ safe?

_____ you _____ eye on _____ of _____ and protect them against _____ threats?

_____ are conducted on systems, _____ and networks _____ sure _____ protected _____.

_____ you check _____ on your _____?

_____ to perform _____ audits _____ and _____ to _____ them from potential threats?

Is regular _____ systems, _____ and _____ to _____ cyber threats?

How _____ you _____ for vulnerabilities?

Do audits occur on systems, _____ and _____ against _____?

_____ you _____ reviews to _____ against _____?

_____ audit _____ systems _____ potential threats?

Is there _____ to protect against cyber _____?

_____ checks on systems, _____ and _____ happen?

_____ systems, databases, and networks _____ to _____ safe?

_____ many times _____ occur within your network infrastructure?

Do _____ conduct regular audits _____ networks to _____ sure they are _____?

_____ your systems, _____ and networks _____ stay safe?

_____ you _____ network and systems?

_____ you _____ cyber audits _____ your _____?

_____ your _____ databases, and _____ stay safe from cyber threats?

_____ part of your protocol _____ conduct ongoing audits _____ databases, _____ networks?

_____ it _____ databases, and _____ to be audited to _____ proactive _____ measures are in _____?

Is _____ in your _____ to perform _____ audits _____ systems, _____ and networks for _____ threats?

Do _____ audit your _____ to make _____ they are _____?

_____ sure that _____ regular audits _____ systems, _____ and networks?

Should _____ checks on _____ databases, _____ networks _____?

Do _____ keep an eye on _____ and _____?

Are you _____ reviews _____ against _____ threats?

_____ audit your systems, _____ and networks _____ a _____ against _____ threats?

Do ____ check ____ systems ____ ?
____ you audit systems to ____ sure there ____ cyber ____ ?
____ you ____ and networks often?
If so, ____ systems, databases, and ____ ?
____ have audits for ____ databases ____ ?
____ your systems, databases and ____ ?
Do ____ databases, ____ their ____ audited?
Do you conduct ____ for possible threats?
Do you audits ____ ?
____ systems, databases, ____ networks ____ tackle ____ ?
Do you conduct ____ your systems, ____ networks?
Security audits ____ are a precautionary measure against ____ .
____ frequently are system ____ protect ____ cyberattacks?
Do ____ do ____ on your ____ databases and ____ ?
____ on systems, ____ and ____ to make ____ they are protected ____ cyber ____ ?
Does ____ part ____ your ____ ahead of cyber ____ checking systems?
____ there regular audits ____ systems, databases, ____ networks ____ threats?
____ you ____ audits for ____ ?
Are systems, ____ audited ____ ?
____ do you ____ audits within your ____ infrastructure?
Do you audit ____ networks to ____ safe ____ threats?
Is ____ audits ____ the ____ and networks?
Are you ____ systems for ____ through ____ security ____ ?
Do you ____ audits on your ____ to ____ they ____ ?
Do ____ periodically conduct security ____ for potential ____ ?
____ audits systems ____ detect ____ threats?
____ systematic reviews to ____ cyber threats?
Do ____ systems, databases, and ____ stay ____ of ____ threats?
Are ____ audits conducted on systems, databases, ____ networks ____ cybersecurity measures ____ ?
Is there regular audits done on ____ ?
Can ____ make ____ that ____ of the ____ and networks are ____ ?
____ systems, ____ and ____ have their ____ regularly?
Do regular system, ____ network audits ____ be ____ ?
Is ____ of ____ to ____ on systems,databases and networks?
____ doing ____ system, database, and ____ ?
____ there regular ____ network ____ going on?
Do you ____ audit ____ and ____ ?
____ networks ____ from cyber ____ .
____ monitoring ____ the ____ your systems ____ order to ____ from potential threats?
Is ____ possible ____ databases, and networks ____ protect them against ____ threats?
____ audits ____ networks help safeguard against cyber threats?
____ you check yer ____ on ____ ?
Do ____ audits ____ sure ____ are protected against cyber threats?
Is there ____ security check ____ the ____ ?
____ and networks consistently get ____ ?
Are you ____ your systems ____ to ____ them from ____ threats?
____ do you ____ your ____ and networks?
Do ____ audit networks, ____ and ____ ?
____ systems, ____ and ____ get ____ audited?
Are you checking ____ systems ____ networks ____ stay ____ ?

_____ do you _____ security of your _____ and _____?

Do _____ regular audits _____ sure you are _____ cyber _____?

_____ audit _____ regularly _____ prevent cyber _____?

_____ systems to _____ they are free _____ cyber _____?

_____ audits performed on _____ and _____ to make sure _____ are _____?

_____ this part of _____ approach include _____ systems, _____ networks?

Do you monitor _____ security _____ your _____ in _____ them _____ threats?

Do _____ monitor and _____ of _____ so _____ can _____ them from threats?

Are regular _____ required to fend off _____?

_____ regular _____ checks _____ networks?

_____ make _____ that the systems, databases, _____ are regularly _____?

_____ inspect _____ systems, _____ and networks?

_____ you _____ networks and systems _____ cyber _____?

_____ many times _____ do _____ check your systems, _____ and _____?

_____ you _____ networks _____ to prevent _____?

_____ it necessary to conduct routine audits _____ sure _____ are safe?

Do you _____ protect from _____ threats?

_____ it _____ for audits to be _____ systems, _____ networks to _____ preventative measures _____ place?

_____ routine _____ conducted on systems, _____ to _____ they are protected?

_____ conduct _____ on your _____ and _____ as a precautionary measure?

_____ conduct systematic _____ guard _____ cyberthreats?

_____ your networks for _____?
