

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Smartphone Manufacturers |
| Inquiry Category | User manual and user guide inquiries |
| Inquiry Sub-Category | Accessibility support |
| Description | Customers with inquiries related to accessibility features and settings, including assistive technologies, screen readers, or options for individuals with hearing, visual, or motor impairments. |
| Data Size | 5,007 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

____ it ____ external braille displays or other ____ via Bluetooth?
 I'm ____ if ____ link an external display or ____ to a ____ that's compatible ____.
 ____ a question about ____ braille ____ sensitive devices will ____ viaBluetooth.
 ____ it ____ possible ____ connect ____ displays ____ other touch-enabled ____ throughBluetooth.
 ____ is ____ as to ____ or ____ the braille ____ work ____ theBluetooth protocol.
 There's ____ suggestion ____ to whether it ____ to ____ braille display ____ other ____ inputs/output ____ viaBluetooth.
 I'm ____ it's ____ to ____ display ____ a touch ____ that hasBluetooth on it, using ____ device ____
 Is it possible ____ connect devices ____ as braille displays?
 ____ you know ____ possible ____ use ____ braille displays in ____?
 ____ you ____ if it's possible to hook ____ braille display ____ other ____ with a ____?
 Is there ____ to connect ____ or other ____ Devices viaBluetooth?
 ____ want to ____ if ____ is ____ to ____ braille display to ____ using ____ device that hasBluetooth on ____.
 ____ a ____ as to ____ not ____ braille ____ and ____ devices can ____ via ____.
 I'm ____ if ____ possible to ____ a device ____ on ____ link ____ braille display with ____ device.
 ____ to ____ if it ____ possible ____ attach ____ input/output devices ____.
 ____ a ____ that ____ displays and other ____ be connected viaBluetooth?
 I ____ if it's possible to ____ displays or other devices ____.
 I ____ like to know if ____ to link ____ external ____ braille input to ____.
 ____ don't know ____ useBluetooth ____ braille ____ or input devices.
 The question ____ to ____ the braille ____ or other ____ could ____ protocol.
 ____ displays ____ be used ____ wireless ____ but ____ it ____ for the display to ____ connected viaBluetooth?
 ____ know if ____ is possible ____ put the braille displays ____.
 ____ want ____ know if ____ possible to link an external display ____ braille ____ to ____.
 Is it ____ useBluetooth ____ braille displays ____ other systems?
 I'm wondering ____ am able ____ to ____ displays.
 ____ anyone know ____ is a ____ that touch-based ____ can be linked ____ with other ____ protocol?
 I am wondering ____ to connect braille ____ input ____
 I ____ know ____ it is ____ to use ____ braille ____ and ____ withBluetooth.

I wonder if it's possible to hook _____ braille displays _____ forms _____ with _____ technology.
 _____ possible to connect braille _____ input _____ devices viaBluetooth?
 There _____ a _____ on _____ or _____ the braille _____ connect _____ theBluetooth _____.
 _____ a _____ to useBluetooth _____ connect braille _____ and _____ devices?
 Can a display made _____ Braille _____ use the same wireless technology _____ with _____ devices?
 There are external _____ that _____ used for wireless _____ but _____ it _____ the _____ displays to _____?
 Is _____ put braille _____ in _____ ofBluetooth?
 There _____ a suggestion as _____ whether it is possible _____ connect _____ display _____ other _____
 _____ you use _____ technology to hook _____ a _____?
 The _____ whether or not _____ braille displays could be connected _____.
 _____ wondering _____ is possible _____ a braille _____ to a touch device _____ a _____ that hasBluetooth _____?
 _____ wondering _____ I can _____ to connect _____ and _____ andoutput _____.
 There is _____ suggestion that _____ to connect touch-enabled _____ with _____ throughBluetooth.
 _____ it possible _____ a _____ display _____ other sensory device _____ with _____ device?
 I _____ wondering _____ to connect _____ displays and touch _____ and _____ devices.
 _____ wondering _____ it's _____ to _____ a _____ display _____ a _____ using a device that _____.
 I'm wondering _____ it's _____ hook _____ both _____ displays and _____ of _____ equipment _____ the aid _____.
 I _____ is _____ to hook _____ display and other sensory _____ up _____ a _____ enabled device.
 Is _____ possible to connect _____ connection?
 Is it possible for some _____ Braille _____ be _____ viaBluetooth?
 There is _____ question _____ whether a _____ display or _____ touch _____ will _____
 _____ is possible that _____ braille displays _____.
 _____ to _____ if it's _____ hook up both braille _____ and _____ sensory equipment _____ the aid _____.
 Is it _____ to _____ and touch input andoutput _____?
 Can some _____ like the _____ be _____ viaBluetooth?
 It's _____ connection in the case of a _____
 Can braille displays _____?
 There _____ a _____ to _____ it is _____ connect external braille display or other _____.
 There is _____ suggestion _____ or not it _____ possible to _____ external braille display _____ other _____ equipment to _____
 I _____ if _____ link an external _____ braille input _____ a device that's _____.
 _____ a question about _____ or _____ braille displays _____ theBluetooth protocol.
 _____ is a suggestion as _____ or _____ it _____ possible _____ useBluetooth _____ connect external braille _____.
 The _____ is if a braille display _____ sensitive _____ connect _____.
 _____ question _____ a _____ display or _____ device will connect viaBluetooth.
 Is _____ possible _____ connect braille _____ input devices?
 It's _____ question _____ whether a _____ display or other _____ connect _____.
 _____ displays, _____ displays, be connected throughBluetooth?
 _____ is a question _____ braille _____ or _____ devices will connect viaBluetooth.
 _____ is a suggestion _____ to _____ is possible _____ external _____ or other _____ to the _____ world via _____
 technology
 _____ up _____ displays _____ other devices usingBluetooth _____ an _____?
 _____ possible to connect the braille displays and _____ the _____?
 There _____ a _____ whether a _____ or _____ touch _____ will connected viaBluetooth.
 There is a _____ as _____ whether _____ braille _____ or other devices _____.
 _____ are external _____ displays _____ be used _____ wireless _____ but _____ it _____ for _____ displays _____ be _____ viaBluetooth
 Is it possible _____ braille displays _____ to be _____ ofBluetooth?
 _____ it _____ for _____ braille _____ to _____ throughBluetooth?
 Is it _____ link external displays _____ braille _____?
 There is a _____ as to _____ it _____ possible _____ or inputs _____
 _____ is _____ to use aBluetooth _____ braille display

_____ is _____ or _____ the _____ other devices could connect using the Bluetooth _____.

It's possible _____ Bluetooth _____ with _____ braille display

_____ if it's possible to use Bluetooth _____ connect _____.

I want _____ it's _____ hook up both braille displays _____ other sensory _____ with _____ bluetooth.

_____ like _____ if _____ a _____ of attaching braille _____ devices through _____.

I _____ possible to attach braille input/output devices to _____.

_____ wonder if _____ possible _____ hook up _____ using _____.

There is _____ question regarding _____ a _____ or _____ can be connected _____.

_____ it possible _____ a Bluetooth _____ hooking _____ a braille _____?

_____ be able _____ as braille displays to _____ devices using Bluetooth.

I'm wondering _____ a _____ to link a _____ to _____ touch device _____ device _____ has Bluetooth on _____.

Is _____ possible to _____ equipment, such _____ displays, _____ a _____ connection?

_____ way to send _____ displays _____ other _____ via Bluetooth?

There is _____ possibility _____ displays _____ via Bluetooth.

Is _____ to _____ external _____ by Bluetooth.

Can _____ via Bluetooth _____ the braille _____?

_____ possible _____ external braille _____ and other touch operated devices _____ aid _____ Bluetooth?

_____ a _____ that _____ might _____ via Bluetooth.

_____ braille displays and _____ be _____ in _____ of Bluetooth?

Is _____ possible to _____ braille displays.

_____ possible for _____ displays or _____ to _____ Bluetooth?

I'd like _____ it's _____ attach _____ devices to Bluetooth.

_____ it's possible _____ link a braille display to a _____ using _____ device _____ on it.

Is it possible _____ connect _____ like _____ to your _____ through Bluetooth?

There _____ a suggestion _____ whether _____ not it _____ braille _____ with a bluetooth device.

_____ if it's possible to _____ a braille _____ outside _____ via Bluetooth.

_____ don't _____ if _____ connect braille _____ and touch/output devices.

_____ is a question _____ to whether the _____ or _____ devices _____ bluetooth protocol.

_____ there a way to _____ displays _____ devices using _____ of bluetooth?

There is _____ suggestion as to whether _____ possible to _____ displays with _____.

_____ the _____ of connecting accessible accessories such _____ braille _____ devices _____ Bluetooth?

Can you tell _____ is _____ link for _____ and tactile _____?

_____ am _____ in linking _____ devices to one another on _____ wireless _____

Can _____ possible _____ braille _____ and other forms of sensory equipment with the aid of _____?

Is there _____ can _____ for braille displays?

_____ possible _____ link _____ outputs and _____ via Bluetooth?

I'd like to know _____ possible to _____ external display or _____ to a _____ that's _____

I would like _____ it is _____ up both _____ equipment with the help of Bluetooth.

_____ displays be _____ with Bluetooth?

_____ it _____ the braille displays _____ a Bluetooth connection?

There _____ a suggestion as _____ whether or _____ it is _____ to _____ external _____ display _____ via Bluetooth.

Will _____ be _____ use _____ connect with the _____ displays?

_____ am unsure _____ I can _____ connect _____ and touch input _____ output _____.

_____ used _____ connect braille _____?

_____ possible _____ hook _____ displays to a Bluetooth?

_____ is _____ question regarding _____ a braille _____ or _____ other _____ sensitive _____ will _____.

There is a question _____ display _____ be _____ via Bluetooth.

_____ if it's possible to connect _____ display _____ input device to _____ via a wireless technology

I'm not _____ use Bluetooth to connect _____ or devices.

_____ the help of Bluetooth, _____ devices can be _____ to _____.

_____ it possible _____ up both braille displays _____ forms of _____ aid of Bluetooth?

_____ it _____ to hook _____ braille _____ and _____ devices using Bluetooth?

Is it possible to _____ displays and _____ devices _____ of Bluetooth?

_____ wireless _____ be _____ to hook up a braille _____ and _____ ?

_____ whether a braille _____ other touch _____ devices will connect via Bluetooth _____ .

_____ am _____ I _____ to connect _____ displays _____ touch input _____ output devices.

_____ if it was possible _____ attach braille _____ Bluetooth.

_____ anyone know _____ are _____ through Bluetooth?

_____ braille displays _____ linked via Bluetooth?

_____ am _____ it is possible to _____ an _____ display or braille input _____ is _____ .

We _____ see _____ we can _____ with braille displays _____ .

_____ it's _____ to attach _____ input/output devices to Bluetooth.

There is _____ as _____ if _____ is possible to _____ or other _____ devices via bluetooth

There are _____ used for _____ is it possible for the _____ be used via Bluetooth?

_____ is a _____ to _____ or _____ the _____ or other _____ can be _____ via Bluetooth.

_____ devices be attached to _____ displays with _____ ?

_____ don't know if _____ possible to link _____ or _____ a _____ that's _____ with Bluetooth.

It's possible to _____ Bluetooth.

Is _____ possible to _____ connecting braille displays?

Is it possible _____ to _____ used _____ braille _____ ?

_____ a _____ as to _____ the _____ or other devices can _____ through _____ .

_____ about external braille displays _____ with _____ help of a wireless _____ ?

What _____ displays, and _____ touch-operated _____ aid of Bluetooth?

Is _____ for _____ displays to be _____ in _____ is compatible with _____ ?

I _____ it is _____ to _____ external _____ braille _____ to a device _____ using Bluetooth.

Is there a _____ to _____ braille _____ of bluetooth?

_____ some _____ like the _____ displays, _____ connected _____ ?

_____ a suggestion _____ whether it _____ external braille _____ or other touch/ visual _____ via Bluetooth.

_____ arises as to whether _____ and other devices could _____ using _____ protocol

There _____ as _____ or not _____ braille _____ can connect via _____ .

There _____ a suggestion as _____ whether _____ possible _____ display or other _____ via Bluetooth.

I would _____ to _____ if it's _____ with external inputs _____ .

_____ possible _____ use Bluetooth for braille displays _____ tactile devices?

Does _____ know if _____ is _____ that _____ instruments _____ linked _____ using Bluetooth?

Is _____ external _____ or other input _____ can _____ connected via Bluetooth?

_____ a _____ that braille _____ will _____ through Bluetooth?

I don't know _____ it's possible _____ connect _____ display _____ input _____ to _____ outside _____ via _____ .

_____ wondering if it is _____ use Bluetooth _____ connect _____ displays.

_____ a _____ as to whether or not it's _____ to connect _____ braille _____ a Bluetooth _____ .

_____ to _____ like the _____ display to your device over Bluetooth?

It's possible _____ braille _____ work _____ .

_____ to hook up Braille _____ devices with Bluetooth?

I _____ like _____ are any braille _____ other tactile devices _____ in _____ of _____ .

Is _____ possible to connect _____ displays _____ Bluetooth _____ ?

External braille _____ and _____ touch-operated _____ the aid _____ wireless _____ system?

There is a suggestion _____ to _____ possible to _____ braille display _____ other touch/hear _____ .

_____ is _____ as to _____ not it _____ possible _____ a braille display _____ a Bluetooth device.

_____ possible to link a _____ touch device that has Bluetooth _____ ?

_____ I _____ use Bluetooth to _____ braille displays _____ input devices.

_____ using _____ for _____ braille displays?

_____ and other touch-operated devices with the _____ Bluetooth, _____?

_____ about whether _____ not a braille _____ or _____ touch sensitive devices _____ connect _____.

_____ wondering if _____ useBluetooth to _____ braille displays _____ input _____.

_____ it _____ for braille _____ to _____ connected _____?

I _____ like _____ know if it's possible _____ braille _____ or _____ to the outside _____ with the _____ braille/tactile devices can _____.

_____ a _____ technology likeBluetooth to _____ up the _____ displays?

Is there _____ way _____ put _____ braille displays _____ systems in _____?

_____ possible to _____ a braille _____ a touch device _____ aBluetooth _____ device.

_____ if it _____ possible _____ braille _____ and _____ sensory device up with a bluetooth _____ device?

_____ about external braille _____ and _____ touch-operated devices _____ communication _____?

There _____ a _____ is possible to connect external braille display _____ other _____ inputs/output devices _____.

There _____ a question relating _____ a _____ other touch _____ will _____ viaBluetooth.

_____ braille displays and _____ touch-operated devices _____ used with _____.

_____ if _____ is _____ to _____ display _____ other sensory device to a bluetooth enabled device.

_____ is _____ question _____ a _____ display or _____ sensitive devices can be _____.

_____ display _____ Braille _____ other material use _____ same wireless technology _____ can be _____ other _____ devices?

_____ there _____ way _____ braille _____ or other Tactile _____ devices throughBluetooth?

_____ is _____ to _____ braille displays and other _____ can use bluetooth.

I _____ interested in _____ external displays _____ braille _____ another on _____ wireless _____.

Is there a way _____ connect braille _____?

There is a _____ displays can _____ aBluetooth connection.

_____ it possible _____ link _____ and _____ withBluetooth?

_____ am wondering _____ is possible to link _____ display or braille input _____ device _____.

Is it _____ Braille displays and other _____ to _____?

I'm wondering if _____ link a braille display to _____ touch device _____ a _____ aBluetooth _____.

I've _____ about _____ of attaching _____ input/output devices through _____.

_____ wondering _____ it's _____ connect a braille _____ to _____ touch _____ using _____ that hasBluetooth.

_____ it possible _____ link braille _____?

_____ possible _____ useBluetooth to _____ braille displays.

Can you _____ if it _____ a _____ display up _____ a _____ enabled device?

Is it _____ andtactile devices through _____?

_____ inquired about _____ input/output _____ external _____ using Bluetooth.

_____ inquired about the possibility of _____ external displays _____ aBluetooth _____.

_____ is a question about _____ a _____ display _____ will be connected _____.

Is _____ to hook up _____ and other _____ devices _____?

I _____ wondering if _____ was possible to _____ external display or _____ to _____.

_____ you _____ it's _____ to hook up _____ and _____ sensory _____ to a bluetooth enabled _____?

_____ wondering if _____ is possible to _____ a braille _____ to _____ touch _____ using _____ device _____ on _____.

_____ curious if _____ link _____ touch device _____ braille display _____ a _____ that hasBluetooth _____ it.

We'd _____ to find _____ if _____ connect _____ braille displays _____ the use _____.

_____ know if _____ a chance that touch-based _____ can _____ up using theBluetooth wireless _____?

Is _____ for _____ to connect with _____ the technology calledBluetooth?

Is it _____ that theBluetooth _____ input/outputs for _____?

_____ displays, as _____ touch-operated devices with the aid _____ be _____.

Do you _____ it's _____ to _____ withBluetooth?

Can you _____ me _____ put the braille displays _____ ofBluetooth?

_____ are external _____ displays which can _____ used for wireless connections, _____ possible for _____ be _____?

_____ don't _____ have the ability _____ useBluetooth _____ connecting Braille _____.

We _____ see if it's possible _____ connect _____ braille _____ use _____ Bluetooth.

_____ if _____ likely that theBluetooth _____ input/outputs for braille?

There are _____ that _____ viaBluetooth.

_____ am _____ if _____ is possible _____ external displays _____ and _____ touch devices _____ communicate _____ via Bluetooth.

_____ you _____ display _____ other sensory _____ with the help _____ wireless devices?

_____ know _____ it's _____ to connect _____ braille display _____ other input/output _____ to the outside _____ the _____ is a _____ as _____ whether _____ is possible to connect a _____ display or other _____.

I'm _____ possible to useBluetooth _____ connect _____ and _____ devices.

Is _____ my _____ to useBluetooth _____ connect to external braille _____ other _____ that are _____ for _____ input? _____ if it's possible _____ attach braille devices through _____.

There _____ a possibility _____ possible to _____ braille _____ other touch-enabled _____ throughBluetooth.

I would like to know if braille _____ external _____ using _____.

Is _____ way to _____ a _____ and _____ sensory device to _____ device _____ has a _____ enabled _____?

_____ they _____ viaBluetooth _____ displays?

_____ a braille display _____ sensitive devices will _____ is a _____.

I'd _____ it's possible to attach the braille _____ Bluetooth.

Is _____ possible _____ braille displays _____ be sent via _____?

It's _____ question _____ whether a _____ other touch _____ device _____ connect _____

Is _____ way for the _____ displays _____ other systems _____?

I would _____ know _____ braille _____ external displays _____ throughBluetooth.

There is a suggestion _____ it is _____ to _____ external _____ display _____ a _____ viaBluetooth.

I am wondering if _____ can _____ to _____.

I'm wondering _____ is _____ link a touch device with _____ a _____ that hasBluetooth.

Are _____ displays _____ withBluetooth?

I would _____ to know _____ possible to _____ displays usingBluetooth.

_____ it _____ that _____ displays _____ input devices can be _____?

There _____ a _____ to _____ it _____ possible _____ display or other touch/hear inputs/output devices _____.

I am _____ if it is possible _____ braille displays.

There is _____ as to _____ it _____ possible _____ braille display to _____.

Is _____ send external _____ displays and _____ via Bluetooth?

Is it _____ hook _____ braille display _____ Bluetooth?

_____ don't know _____ it _____ to _____ an external _____ braille input to another _____.

_____ you _____ to _____ up _____ braille _____ and other forms _____ with the aid of wireless _____?

We'd like _____ see if we can _____ displays _____ ofBluetooth.

Can _____ braille _____ and touch _____ to the outside _____?

If _____ is _____ external _____ display or _____ touch/hear inputs/output _____ there _____ a suggestion.

I want to know _____ possible _____ the braille _____ ofBluetooth.

_____ you know _____ it's possible to hook _____ braille _____ and _____ sensory _____ with _____ device?

_____ if _____ is possible to attach braille _____ external _____ with _____ link.

_____ am not _____ if _____ can useBluetooth _____ braille _____ touch _____ andoutput devices.

_____ a _____ other materials use _____ wireless _____ that can _____ used with other sensory devices?

Is it _____ up a braille display _____?

_____ a question _____ to _____ display or other touch _____ will connect _____.

I would _____ to know _____ possible to _____ braille _____ through _____.

_____ is a suggestion _____ to _____ it _____ to _____ external braille _____ or other _____ viaBluetooth.

I wonder _____ it's possible _____ displays of _____ other touch devices _____ communicate with _____.

_____ is _____ suggestion _____ to whether _____ possible _____ connect external braille _____ or _____.

Is _____ possible for _____ link _____?

I _____ to know _____ is possible to _____ displays _____.

There are _____ displays that can _____ used for _____ is _____ possible _____ displays to _____ viaBluetooth?

Is it _____ to _____ a braille display _____?

Is it ____ for them ____ for ____ braille ____.

Is ____ possible to useBluetooth ____ like ____ displays?

____ there ____ chance that ____ braille displays ____ devices ____ connected via Bluetooth?

____ it possible ____ braille ____ external displays ____ throughBluetooth?

Are ____ any ____ to connect ____ braille ____ Tactile Input/Output ____ viaBluetooth?

____ it ____ to ____ up both ____ and other ____ of sensory ____ the aid of ____.

Can you tell ____ it is ____ links ____ for braille?

There ____ suggestion as to whether it's possible ____ connect external ____

With ____ help ofBluetooth, the ____ devices ____ connected.

____ anyone know ____ there ____ a ____ touch-based ____ be linked up ____ protocol?

____ am ____ if it ____ possible ____ outside braille ____ usingBluetooth.

____ is a ____ to ____ Devices withBluetooth.

I ____ external ____ and braille input/output devices on a ____

Can you ____ me if it ____ links ____ input/outputs ____ braille?

____ a suggestion ____ to whether ____ not it is ____ braille display or ____ device viaBluetooth.

____ there a ____ useBluetooth for ____ braille displays ____ other ____?

____ there a way ____ andtactile devices ____ Bluetooth?

____ to connect ____ braille displays ____ way that works ____?

I would ____ know ____ it's ____ to link an external display ____ input ____ device ____.

I'm ____ connect ____ or input devices usingBluetooth.

Is ____ to hook ____ display usingBluetooth?

Is ____ possible ____ link ____ byBluetooth?

I don't know ____ possible to link ____ external ____ input ____ a ____.

____ it possible ____ with outside braille ____?

____ would like ____ know if it ____ possible to ____ devices ____.

Is it possible ____ up ____ displays and ____?

____ a ____ to whether or ____ the braille displays ____ can connect through ____.

I ____ know ____ it's ____ to ____ up ____ braille displays ____ sensory ____ with ____ aid ofBluetooth.

I'm ____ if it's possible ____ or braille ____ a device that's ____ withBluetooth.

____ is ____ question about ____ or not ____ braille ____ could ____ using ____

____ there ____ way ____ link ____ using Bluetooth?

Can you ____ braille ____ and similar ____ using ____ technology?

____ connect ____ braille/tactile devices viaBluetooth?

Can ____ if it's possible to useBluetooth ____ displays?

We ____ like to ____ we ____ with ____ braille displays.

Can you ____ me ____ it's possible to hook a ____ and ____ device ____ that's ____ enabled?

____ you tell me ____ is ____ that theBluetooth ____ external ____ for braille?

How ____ connecting ____ braille ____ or ____ Input/Output ____ viaBluetooth?

____ it is possible to hook ____ both ____ displays ____ other forms ____ sensory ____ the help of ____.

____ like ____ know ____ it ____ possible ____ link an external ____ or a ____ input ____ device usingBluetooth.

Is ____ to hook ____ up with aBluetooth?

____ if there's ____ way to ____ braille ____ devices ____.

____ is a question about whether a ____ devices ____ connected viaBluetooth.

What about external ____ and ____ using ____ communication system?

There is ____ as ____ not ____ braille displays can ____ the ____ protocol

Is there a way ____ braille ____ to ____ Tactile ____ viaBluetooth?

____ to ____ up a braille display and ____ sensory device ____ device?

Is ____ a chance ____ braille ____ external ____ work throughBluetooth?

____ know ____ braille and other ____ are compatible with ____.

I ____ know ____ to ____ braille displays and touch ____ output devices.

_____ would like to _____ if _____ is a _____ braille input/output _____ Bluetooth.

_____ a way for _____ to _____ to external _____ a technology _____?

There is a _____ to _____ is possible _____ connect _____ braille _____ other _____ input/output devices _____.

I would like to _____ it's _____ to _____ braille display and other _____ device _____ enabled _____.

There is a question about _____ a _____ will be connected _____.

_____ possible _____ braille/tactile _____ with Bluetooth?

_____ it _____ to _____ braille/tactile _____ viaBluetooth?

_____ it _____ to connect the _____?

_____ they _____ link viaBluetooth _____ braille displays?

_____ suggestion as _____ whether it is _____ connect _____ external _____ display and other touch/visual _____.

Is _____ possible to _____ devices like braille _____.

I want to _____ if there's _____ of attaching _____ input/output _____.

Can _____ be connected _____ that's compatible withBluetooth?

It is possible _____ to _____ to a wireless _____

Is it _____ to connect external braille displays _____?

The _____ to _____ braille _____ and other devices could use _____ protocol.

I'm wondering _____ it's _____ to _____ touch _____ with _____ braille _____ using a _____ withBluetooth on _____.

I _____ to know if _____ chance _____ braille input/output devices _____.

Is _____ possible _____ braille _____ to be _____ a technology calledBluetooth?

_____ there a way _____ the bluetooth _____ to _____ devices?

Is it _____ and other _____ connect throughBluetooth?

We'd _____ see _____ connect with braille displays _____ the _____ ofBluetooth

_____ there _____ a _____ to connect _____ displays _____?

Is _____ way _____ put _____ displays in _____ ofBluetooth?

_____ know if external braille displays or _____ devices can _____ viaBluetooth.

There _____ a _____ a _____ or other touch sensitive _____ will connected _____.

Is it _____ external _____ be linked withBluetooth?

It's a _____ if _____ braille display _____ touch _____ devices _____ viaBluetooth.

_____ a _____ as _____ whether _____ not the _____ displays or other devices _____ the _____ protocol.

_____ it possible _____ other input devices can be _____ viaBluetooth?

Is it _____ device viaBluetooth?

How about the external _____ and _____ that are _____?

_____ asked if _____ possible _____ braille input/output _____ throughBluetooth.

_____ is a question regarding _____ braille _____ other _____ devices will _____ viaBluetooth

Can _____ technology _____ used _____ up _____ display _____ other sensory devices?

_____ is _____ suggestion as to whether or not _____ displays with theBluetooth protocol.

_____ like to _____ if there _____ of attaching _____ through bluetooth.

_____ is a _____ whether or not _____ braille displays and other _____ connect with _____.

_____ don't _____ if _____ with _____ displays with _____ use ofBluetooth.

I'm _____ to put _____ braille _____ and _____ systems in _____ ofBluetooth.

Is _____ way _____ use _____ for braille _____?

There _____ a _____ the braille _____ and other _____ connect using _____ protocol

_____ question _____ whether _____ braille _____ or other touch _____ devices will _____ viaBluetooth.

_____ it _____ up both _____ and other forms _____ sensory equipment _____ the _____ ofBluetooth?

Is it _____ to _____ displays _____ other forms of _____ with _____ aid of bluetooth

_____ it _____ to hook _____ braille _____ forms of sensory equipment with _____ help of _____?

Is _____ aBluetooth a _____ for _____ displays.

Is _____ a possibility _____ external _____ or other _____ can _____ viaBluetooth?

We'd _____ to _____ with the braille _____ with the _____ ofBluetooth.

_____ about whether a _____ display or _____ touch _____ devices can _____ viaBluetooth.

I wonder ____ it's possible to ____ braille ____ a device using Bluetooth.
 There's a ____ as to ____ connect external braille displays ____ with Bluetooth.
 Would ____ be possible ____ the braille ____ other ____ use of Bluetooth?
 Is it ____ to ____ a Bluetooth to ____ displays.
 Can they ____ with ____ displays?
 ____ input/output devices can be ____ displays ____ the assistance ____.
 ____ would ____ know ____ we can ____ with the use of Bluetooth.
 Can ____ use Bluetooth for ____ braille ____?
 ____ it possible ____ use Bluetooth ____ outside displays ____ braille ____?
 I'm ____ if it's ____ to connect ____ braille display ____ touch ____ device ____ on it.
 ____ want ____ know ____ displays are ____ to connect ____.
 ____ using Bluetooth an option for ____ other devices?
 A ____ whether or ____ braille displays can ____ the Bluetooth protocol
 Is ____ to hook ____ braille ____ and ____ devices with ____?
 I'm not ____ it's ____ link an external ____ or a ____ input ____ a device ____ bluetooth
 I don't know ____ can use Bluetooth ____ connect with ____ input ____.
 Is it possible ____ connect ____ displays and other ____ with ____ of Bluetooth?
 ____ was wondering if ____ be ____ to attach ____ through Bluetooth.
 We'd ____ see if ____ can ____ braille displays ____ use of Bluetooth.
 There ____ a ____ whether ____ possible to connect an external ____ with a Bluetooth ____.
 Can ____ tell ____ if the Bluetooth ____ with external ____?
 Is it ____ up ____ braille ____ and other ____ equipment with the ____ wireless ____?
 Does anyone know ____ a chance ____ link up ____ instruments using ____ wireless ____ protocol?
 Is ____ possible for braille displays ____ technology ____?
 We'd ____ to ____ it's possible to ____ with ____ displays ____ use ____.
 ____ me ____ it's ____ hook up a ____ display with a bluetooth ____?
 ____ for braille displays ____ with outside displays ____?
 ____ possible to ____ external ____ displays and other ____ devices ____ of Bluetooth?
 Is ____ to ____ external ____ by Bluetooth?
 I ____ sure if I ____ to ____ braille displays ____ touch ____ devices.
 ____ the ____ input/output ____ can ____ connected to external displays.
 ____ are external ____ that ____ used ____ wireless, but ____ it possible for the displays ____ via Bluetooth.
 ____ a question as to ____ or ____ the braille ____ can connect ____.
 I'm ____ if ____ is ____ to link a ____ with a braille ____ using a ____ has Bluetooth ____.
 I ____ to know if ____ that ____ links ____ external ____ braille.
 ____ it possible ____ method ____ Bluetooth ____ connect ____ displays to other ____?
 Is there ____ external ____ displays can ____ via Bluetooth?
 Is ____ for ____ use Bluetooth for ____ and braille ____?
 It ____ possible ____ may work ____.
 Is it ____ that ____ displays or other ____ be ____ Bluetooth?
 I wonder if ____ possible to ____ or ____ input to ____ device that ____ using Bluetooth.
 ____ you ____ can hook ____ braille ____ with a wireless technology?
 I would ____ to ____ a way to ____ devices through ____.
 I'm wondering ____ it's ____ link ____ external display ____ braille input to ____ that's ____ with ____.
 ____ it's ____ to ____ external ____ or braille input to a device ____.
 ____ is ____ not the ____ displays and other devices can connect ____.
 ____ for ____ use Bluetooth for braille displays.
 ____ it ____ both braille displays and other ____ of sensory ____ of a wireless communication?
 Is it ____ the braille ____ and other ____ to ____?
 ____ it possible to ____ hook up ____ and ____ devices?

I'd _____ to link _____ braille input/output _____ one _____ a wireless device.

In the _____ braille _____ may _____.

_____ a _____ as _____ whether it _____ possible to connect _____ with aBluetooth _____.

_____ it's possible _____ braille displays and other systems in _____ ofBluetooth.

_____ it _____ braille displays to connect _____?

_____ it possible _____ link _____ braille displays _____?

_____ a braille display _____ touch _____ will _____ viaBluetooth _____ a question.

I _____ if _____ would be possible _____ attach _____ input/output _____ with aBluetooth link.

_____ displays _____ other sensory devices _____ connected using _____ wireless _____?

Is it _____ for _____ displays to _____ a _____ compatible withBluetooth?

_____ bluetooth connect braille _____?

There _____ a _____ as _____ whether _____ not the _____ or _____ devices _____ using theBluetooth protocol.

Is it _____ to hook _____ the _____?

_____ is a question as _____ the _____ and other _____ can _____ via _____.

There is _____ to _____ it is possible to _____ external braille _____ other touch/visual _____.

I'm wondering _____ I _____ useBluetooth to _____.

There are _____ can be used _____ wireless connections, _____ is _____ possible _____ displays _____ be _____ viaBluetooth.

_____ know if _____ is _____ a braille display or other _____ the _____ world via Bluetooth.

_____ you tell me _____ possible to _____ braille displays _____ forms of sensory _____ the help of _____?

_____ external _____ can be used for wireless connections, but is _____ possible _____ be _____ usingBluetooth?

Is it possible _____ link _____?

There _____ braille _____ that can _____ for wireless _____ for _____ displays to be connected usingBluetooth?

_____ there a chance that _____ will _____ throughBluetooth _____ external _____?

_____ you know if _____ hook up both braille displays _____ forms _____ sensory _____ with the help _____?

_____ am not sure if I can useBluetooth to _____.

_____ know if it's possible to hook _____ a braille display _____ device _____ device _____ a bluetooth _____.

Is _____ for external braille _____ to link _____?

I'm _____ if it's _____ to _____ braille _____ to _____ touch device using _____ device _____.

Is _____ a way to _____ braille _____ viaBluetooth?

Is _____ possible _____ link a braille display _____ a _____ device _____ a _____ it?

Is _____ possible to _____ up _____ displays _____ forms _____ sensory _____ with the _____ of the wireless _____?

I'm wondering if _____ to _____ a _____ display with _____ touch _____ using a _____ withBluetooth _____.

I'm _____ if _____ possible to link _____ braille _____ to _____ device _____ on _____.

_____ question regarding whether or not _____ braille _____ touch _____ devices _____ connect viaBluetooth.

_____ sensitive displays and devices be _____ to _____?

_____ me _____ possible to useBluetooth to connect braille _____?

_____ if I _____ to connect to _____ displays.

Is it possible _____ items via aBluetooth connection?

Is _____ hook _____ braille displays _____ devices usingBluetooth?

There is a question as to _____ the _____ connect _____ theBluetooth _____.

_____ a _____ to whether the braille _____ or other devices _____ via _____.

I'm curious if _____ link _____ display or braille _____ a device _____.

Is it _____ to outside braille displays?

_____ is _____ question about whether a _____ display or _____ sensitive _____ viaBluetooth.

_____ that _____ displays _____ external _____ will connect viaBluetooth?

_____ a _____ about whether braille displays can be _____ a _____.

Does _____ know _____ there _____ that touch based instruments _____ be linked _____ the wireless _____?

_____ suggestion as _____ not it is _____ to _____ an external _____ display with _____ device.

____ it ____ that ____ displays or ____ devices can ____ connected viaBluetooth?
 There is a ____ as ____ it ____ connect touch-enabled devices ____ external ____ throughBluetooth.
 There ____ as to whether or ____ the braille ____ could work ____.
 There's a suggestion ____ it's possible ____ displays or ____ devices throughBluetooth.
 ____ question ____ or other touch ____ will be connected viaBluetooth.
 Do you know ____ is ____ to hook up ____ braille displays ____ other forms ____ sensory ____ the ____ ____?
 I am ____ is ____ to connect braille displays ____.
 ____ possible ____ braille/tactile devices ____ connected through Bluetooth?
 I'm curious if ____ to ____ the ____ in ____ ofBluetooth.
 ____ possible to link braille ____?
 ____ wondering ____ I ____ useBluetooth ____ braille displays and ____ input andoutput ____.
 Can you ____ technology ____ link ____ braille displays?
 It ____ possible to ____ external displays with ____ help ofBluetooth.
 ____ external ____ displays ____ other inputs that ____ viaBluetooth?
 ____ displays compatible ____ technology calledBluetooth?
 ____ there a way to ____ the ____ devices ____?
 ____ it possible ____ to braille ____?
 ____ wondered if it ____ possible to attach braille ____.
 Do you know if it ____ both ____ and other forms ____ sensory equipment ____ ofBluetooth?
 ____ is a question as to ____ or ____ the ____ displays and other ____.
 ____ wondering if it's ____ to attach braille input/output ____ external ____ aBluetooth ____.
 I would ____ know ____ is possible ____ connect a braille display ____ other input ____ via bluetooth.
 ____ you ____ if ____ possible ____ displays and ____ through the method ofBluetooth?
 ____ is ____ question ____ whether ____ or other devices could use ____.
 ____ question ____ as to ____ braille displays could ____ protocol.
 Can ____ tell ____ that theBluetooth links ____ and outputs for braille?
 I ____ possible to link ____ display ____ device using a device withBluetooth on ____.
 Is ____ displays ____ to ____ with external displays ____ a ____?
 ____ is a ____ as to whether or ____ possible ____ use theBluetooth ____ external ____ displays.
 ____ to ____ up ____ braille ____ and other sensory ____ with the ____ ofBluetooth?
 ____ a way to ____ the ____ displays ____?
 ____ is a question ____ not ____ braille ____ or other ____ could ____ theBluetooth ____.
 ____ whether or ____ the braille ____ and other devices can connect using ____.
 ____ whether I can ____ to connect braille ____ input ____.
 I'm ____ if ____ can useBluetooth ____ connect the ____ displays ____ input andoutput ____.
 I'd like to ____ if it's ____ devices ____ Bluetooth.
 ____ possible to connect ____ braille and tactile ____?
 ____ External ____ and braille ____ toOutput devices viaBluetooth?
 There is ____ suggestion as ____ it ____ connect external braille displays ____ touch-enabled devices ____.
 The same wireless ____ that ____ other sensory devices could ____ used ____ a ____ of Braille ____ materials.
 ____ it's possible to ____ a braille display ____ device using a device with ____.
 ____ would ____ know if ____ can ____ with the ____ displays with ____ use ____.
 Will braille displays ____?
 I want to know if ____ possible ____ up ____ braille ____ other ____ the aid ofBluetooth.
 ____ way ____ connect the braille/tactile devices ____ protocol?
 I ____ know if ____ braille displays or ____ be connected ____.
 I ____ wondering ____ it ____ possible to link a ____ display to ____ device ____ has ____ on it.
 Is it ____ connect external braille ____ other ____ Devices ____?
 Can ____ displays be ____ in ____ that's compatible ____?
 ____ it ____ to connect ____ and touch input and ____ usingBluetooth?

_____ not sure if it's _____ to _____ display _____ a touch device using _____ with _____ it.
 There is _____ question _____ to _____ or not _____ displays _____ connect using _____
 _____ anyone _____ if there is _____ chance _____ touch-based instruments can _____ via the wireless _____?
 _____ think it's possible to connect _____?
 _____ want to know if _____ to use _____ of Bluetooth _____ displays.
 Is _____ way _____ link _____ via Bluetooth?
 I would like to know if it is _____ link _____ to _____ touch _____ using _____ device _____.
 Can _____ like braille displays?
 Is _____ possible _____ use Bluetooth _____ hook _____ Braille displays _____ devices?
 _____ is a _____ as _____ not the braille _____ and _____ could _____ using the _____ protocol.
 Is there _____ connect _____ or _____ Tactile Input/Output _____ via bluetooth?
 _____ it possible to make a braille _____ and _____ compatible with _____?
 _____ wondering _____ it's _____ to _____ braille _____ a touch device _____ a device _____ has Bluetooth on _____
 _____ a braille _____ or other touch _____ device will be _____ via Bluetooth.
 _____ for braille _____ tactile devices to connect through _____?
 There _____ for _____ Tactile _____ to be connected _____.
 There is a suggestion _____ to whether or _____ it is _____ connect an _____ braille _____ touch/hear _____ devices
 _____ possible that external _____ can work _____.
 Is there _____ way _____ use Bluetooth _____ connect _____ displays?
 It's a question _____ whether _____ braille displays could connect _____.
 _____ it possible _____ to connect braille _____?
 Is _____ way to connect braille displays _____ method of Bluetooth?
 _____ it possible _____ up _____ braille displays and _____ sensory _____ with _____ aid of Bluetooth
 _____ to connect braille _____ with _____?
 _____ you _____ me _____ likely _____ the Bluetooth _____ with _____ input/outputs for braille?
 _____ way to _____ the _____ displays with the Bluetooth?
 Can external _____ other touch _____ devices be _____ outside through Bluetooth?
 Can _____ sensitive _____ and _____ the outside through Bluetooth?
 _____ be possible for braille displays _____.
 _____ braille displays _____ devices with _____ wireless communication system?
 I _____ like _____ know _____ possible to hook up _____ displays and _____ sensory equipment with _____ aid _____.
 _____ it is possible _____ hook up Braille displays _____.
 I'm wondering _____ any braille and other _____ can _____ in use _____.
 _____ if _____ use Bluetooth to _____ braille displays and touch inputs _____.
 I would _____ to _____ possible _____ attach braille _____ devices to external displays _____ a Bluetooth _____.
 There _____ a _____ as _____ or not the _____ or _____ connect _____ the bluetooth protocol.
 I _____ if it's possible _____ both braille _____ and other _____ equipment _____ the _____ of Bluetooth.
 I want _____ if _____ be _____ external displays using Bluetooth.
 I would like _____ if _____ an _____ or braille input to _____ device _____ using Bluetooth.
 _____ wondering _____ to _____ input/output devices _____ displays with a Bluetooth link.
 I would like to know if _____ a _____ braille input/output _____.
 _____ you tell me if it _____ the Bluetooth links _____ braille?
 _____ if _____ connect braille displays and _____ with Bluetooth.
 I _____ if _____ to connect the braille displays.
 _____ want to know _____ there is _____ chance _____ braille input/output _____.
 The _____ arises as to _____ not the braille _____ other devices _____ protocol.
 _____ like to know if _____ to _____ devices through Bluetooth.
 _____ it possible for _____ to be _____?
 _____ it _____ to _____ to _____ the braille displays?
 _____ a _____ made _____ Braille, for example, _____ the same _____ technology _____ can _____ used _____ devices?

I want _____ if it _____ possible to _____ input/output devices _____ external _____ aBluetooth _____.
 _____ it possible _____ external braille displays _____?
 _____ braille _____ other touch-operated _____ can be used _____ aid _____ bluetooth.
 _____ curious _____ possible to _____ an external display or _____ input to _____ device _____.
 _____ to know if it _____ link an _____ display _____ braille _____ to a device that _____.
 I wish _____ external _____ devices _____ another on a wireless device.
 _____ wondering _____ it's possible to link _____ to a _____ using a device _____ it.
 Is _____ and other _____ to be connected _____ Bluetooth?
 _____ want to know if _____ to hook a _____ other sensory device _____ to a _____.
 _____ is _____ suggestion _____ to _____ or not it is _____ external _____ to theBluetooth network.
 _____ there _____ way to useBluetooth for devices _____?
 There _____ a _____ as to _____ or not the _____ displays and _____ connect _____.
 Will _____ displays on _____ outside be _____ to _____ viaBluetooth?
 _____ you connect braille _____?
 _____ would _____ to _____ could _____ with _____ braille displays using _____ use ofBluetooth.
 _____ like to know _____ possible _____ attach braille _____ devices _____.
 There is a _____ whether _____ braille displays or _____ devices could connect _____.
 _____ it _____ for external _____ or other devices _____ connected _____?
 _____ possible for _____ displays, _____ Braille displays, _____ connected viaBluetooth?
 I'm wondering _____ it's _____ link a _____ to _____ device _____ a _____ that hasBluetooth
 _____ that _____ be used viaBluetooth.
 Is it _____ have _____ aBluetooth?
 _____ like to know _____ possible to connect _____ braille display or _____ device _____ outside _____ usingBluetooth.
 _____ a question as _____ or not the _____ using theBluetooth protocol
 I _____ in _____ displays and braille input/output _____ to _____ a _____ device.
 Is _____ possible _____ displays withBluetooth _____ a way _____ is _____ with _____?
 _____ there _____ way _____ up a _____ other sensory device with _____ bluetooth enabled _____?
 I _____ external displays _____ braille input/output devices to _____ a _____ device.
 _____ wondering if it _____ possible to attach _____ devices _____.
 _____ you _____ possible to _____ a Braille _____ usingBluetooth?
 There _____ to _____ it's _____ connect external braille _____ or other touch/hear inputs/output _____ viaBluetooth.
 _____ it possible _____ external braille displays _____ be _____?
 _____ think there _____ way to connect _____ accessories _____ braille displays _____ your _____ using Bluetooth?
 _____ know if _____ can _____ with braille _____ with _____ use ofBluetooth.
 Is _____ possible _____ use _____ andtactile _____?
 _____ possible _____ hook up a _____ display _____ aBluetooth?
 _____ there a _____ to connect the _____ displays _____?
 Can _____ displays _____ devices be connected _____?
 _____ is a _____ as _____ it _____ to connect _____ braille display _____ input/output devices via Bluetooth.
 It's _____ question _____ braille _____ or _____ touch sensitive devices will be _____
 There is _____ a braille _____ touch sensitive devices _____ have a _____ viaBluetooth.
 Is _____ possible to _____ up _____ displays and other _____?
 _____ it _____ for braille displays _____?
 Is _____ a _____ put _____ braille displays and _____ systems _____ use _____.
 I _____ about _____ attaching braille _____ devices _____ external _____ with aBluetooth link.
 Is _____ way to _____ displays and _____ and output _____ usingBluetooth?
 _____ possible _____ braille displays and other _____ to _____ through _____?
 _____ want to _____ possible to connect a _____ or other input device to the _____.
 _____ would like to _____ are any _____ and other _____ devices _____ can be _____.
 _____ it possible for _____ Braille _____ other _____ to connect _____?

There ____ a question as ____ the braille displays ____ ability to ____ bluetooth.

____ don't ____ if ____ to connect external braille ____ or ____ devices ____.

____ wondering if ____ could useBluetooth ____ connect ____ displays.

Do you know if it is possible ____ up ____ braille displays ____ forms ____ sensory ____ aid ____?

____ you think ____ external braille ____ being sent viaBluetooth?

____ not ____ if it's possible ____ link ____ to ____ device using a ____ withBluetooth ____ it.

____ displays ____ other touch-operated ____ can ____ used with the aid ____.

There is ____ about whether ____ the ____ displays ____ other ____ use theBluetooth ____.

I want to know ____ it is ____ braille ____ to ____ devices ____.

Can you ____ me ____ it is possible to ____ sensory device up with ____ device?

I'm not sure ____ it is possible to ____ to a ____ usingBluetooth.

____ you tell ____ if it's ____ to ____ both ____ and other ____ sensory ____ with the aid ____ Bluetooth?

____ want to ____ if ____ is ____ the braille ____ and other systems ____ use ____.

The ____ braille ____ to ____ displays with aBluetooth ____ has been asked ____.

Is ____ possible that braille ____ devices can ____ connected via ____?

____ wondering ____ possible to ____ a ____ display to a ____ device ____ device ____ has aBluetooth on ____

Is it ____ braille displays and ____ operated devices ____ help of ____?

____ braille ____ be connected ____ connection?

There is ____ question concerning ____ or other ____ devices ____ connect viaBluetooth.

It's possible ____ a ____ for a ____ display

Is ____ Bluetooth for connecting ____ displays?

How about ____ braille displays ____ other ____?

____ that the Tactile Devices ____ be connected ____.

Is ____ for ____ displays ____ other devices ____ be ____ viaBluetooth?

____ don't know if ____ possible ____ connect a braille ____ or other ____ the ____.

____ tell me if ____ possible to connect ____ other devices via ____?

Is it possible to ____ both ____ other ____ sensory equipment with ____ help ____?

There is ____ suggestion as ____ whether ____ not ____ to ____ a ____ display ____ a ____ one.

____ the ____ displays be connected in ____ compatible ____?

____ there ____ for braille ____ to ____ throughBluetooth?

I'd ____ if it is ____ to link a braille display to ____ touch ____ device ____ on ____.

____ to use a ____ connection ____ a ____ display

There is ____ suggestion as to whether it ____ connect ____ devices through bluetooth.

Do you think ____ possible ____ a ____ using aBluetooth?

____ to ____ if we can ____ with braille ____ using ____ use ____.

Can ____ devices ____ a ____ display and other ____ device?

____ am interested ____ external ____ braille input/output devices ____ a wireless device.

____ possible to hook ____ Braille ____ similar devices usingBluetooth.

____ it possible ____ displays ____ connected in ____ way compatible ____.

____ you ____ me ____ it's possible to hook ____ display ____ sensory device up ____ enabled device.

____ a way ____ connect to ____ braille ____ withBluetooth?

I'm ____ it's ____ to ____ a ____ display to ____ touch ____ a device ____ hasBluetooth.

Is ____ a way ____ connect ____ with ____ connection?

Is ____ even ____ for hooking up braille ____ and ____?

Is it ____ for External ____ viaBluetooth?

Can ____ technology used with ____ sensory ____ be used ____ display made ____ other materials?

There ____ a ____ as to ____ it ____ connect external braille ____ touch inputs/output ____ viaBluetooth.

Is it ____ to ____ external ____?

____ would ____ and braille inputs to ____ other on a ____ device.

It ____ possible to ____ aBluetooth connection ____ display and ____.

_____ wondering _____ can useBluetooth _____ connect braille displays and _____ input _____

I _____ it is _____ to _____ external _____ or _____ another device usingBluetooth.

I am wondering if _____ useBluetooth to _____ input _____ devices.

Does _____ have _____ a chance that _____ instruments _____ be linked up using _____ protocol?

_____ to whether it is _____ to _____ external braille _____ or _____ touch/visual device viaBluetooth

Is it _____ for braille displays and _____ ?

_____ there a way _____ connect _____ displays _____ devices _____ Bluetooth?

We would like _____ see if we _____ braille _____ the _____.

There is a _____ be connected usingBluetooth.

_____ was _____ if _____ braille _____ could _____ to the _____ displays _____ aBluetooth link.

_____ is _____ suggestion _____ to whether it _____ possible to _____ withBluetooth

_____ connect external braille displays or _____ Tactile _____ devices _____ ?

I've _____ if _____ braille input/output devices through _____ link.

_____ if it's possible to link an _____ display or _____ a device _____ usingBluetooth.

_____ suggestion _____ possible _____ connect external braille _____ or other _____ devices throughBluetooth.

It _____ a _____ about _____ a braille _____ devices will connect viaBluetooth.

_____ to use aBluetooth to _____ up _____ display?

_____ link external displays or braille input/output devices _____ ?

_____ chance for _____ braille displays _____ be _____ a wireless _____.

Can _____ connected in _____ way that's _____ withBluetooth?

_____ possible to _____ devices _____ as braille displays.

_____ possible _____ hook _____ a _____ display _____ aBluetooth.

Is _____ possible to use the _____ to _____ other devices?

_____ to connect external displays _____ a way that _____ with _____ ?

I _____ can useBluetooth _____ connect _____ displays and touch _____.

_____ external _____ and braille inputs to _____ on a wireless device

_____ external _____ displays and _____ with the aid of _____ ?

_____ a way to connect braille/tactile _____.

Is it _____ to _____ to _____ up braille _____ and _____ ?

_____ are External _____ displays _____ can be _____ connections, but is it possible for _____ be _____ ?

I'm curious _____ it's _____ a braille _____ a touch device _____ with _____ on it.

I'm unsure if I _____ connect braille _____ touch/output _____.

They _____ be able to _____ things _____ braille _____.

I'm wondering if I can _____ braille _____ other _____.

_____ a _____ to whether _____ braille display or other _____ device _____ viaBluetooth.

Is there a chance _____ other device _____ via Bluetooth?

_____ if _____ possible _____ link an external _____ braille input to a _____ that _____.

I _____ if _____ braille displays and _____ input andoutput _____ usingBluetooth.

_____ technology be used to _____ display _____ other sensory _____ ?

_____ a suggestion _____ whether or _____ it _____ possible _____ connect _____ displays with theBluetooth.

_____ want _____ if _____ useBluetooth to _____ to outside braille displays.

Do you know _____ put _____ other systems in use ofBluetooth?

_____ possible _____ connect braille displays _____ input and output _____ ?

Does _____ if _____ is a chance _____ touch-based instruments _____ be _____ through _____ Bluetooth _____ ?

_____ wonder if _____ displays or _____ input _____ be _____ viaBluetooth.

Is it _____ that _____ can _____ ?

There is _____ whether it is possible _____ braille _____ or other touch/visual equipment to the _____ through _____

I _____ like _____ know if it is _____ braille displays _____ other _____ Bluetooth.

_____ it _____ use _____ for connecting braille _____ ?

There _____ a suggestion as to _____ not _____ is _____ connect _____ braille display _____ inputs/output devices via

_____ it possible _____ braille _____ external displays _____ through Bluetooth?

_____ there a _____ to _____ braille _____ in _____ of Bluetooth?

_____ am _____ I _____ use Bluetooth to connect _____ displays and _____.

Is _____ possible _____ use Bluetooth _____ braille displays?

A _____ as _____ or not _____ possible to connect _____ braille _____ or _____ inputs _____

Is it _____ that a braille display _____ can _____ via _____?

_____ there a _____ external _____ displays by Bluetooth?

_____ a suggestion as _____ it's possible _____ connect _____ external braille _____ other touch/visual device _____.

Is there _____ braille/tactile devices _____?

Is it _____ use a Bluetooth _____ up _____ braille _____?

I _____ if it's _____ for an _____ display _____ braille input _____ be linked _____ device _____ compatible _____.

_____ to _____ it's possible to attach _____ inputs/output _____ through _____.

_____ you _____ it is _____ the _____ displays and other systems in _____?

I'd like _____ know if _____ possible _____ connect _____ display or _____ input/output device _____ the _____ via _____

_____ question pertaining _____ a _____ display or _____ sensitive _____ will connect via Bluetooth

Do you _____ is _____ to connect to _____ braille displays?

I would _____ to know _____ possible to _____ braille _____.

_____ the displays _____ the Braille _____ be _____?

Does _____ help connect _____?

_____ it possible _____ hook _____ displays using a Bluetooth?

_____ know if it is possible to _____ displays and other _____ the _____ Bluetooth.

Is _____ a _____ to connect _____ and _____ devices with the _____?

_____ am _____ it's _____ to link _____ braille input to _____ device that's compatible _____ bluetooth.

Can _____ tell me _____ it's _____ to _____ a _____ sensory device up with _____ device?

There is _____ suggestion _____ see if _____ is possible _____ connect _____ external braille _____.

_____ tell me if it _____ to _____ up _____ braille _____ and _____ sensory equipment with _____ of Bluetooth?

_____ to see if we can _____ to _____ braille _____.

_____ if it is possible _____ link a _____ a _____ device using _____ device _____ has Bluetooth _____ it.

_____ there a _____ to _____ braille/tactile _____ through _____?

Is there _____ way to _____ to connect _____.

Is _____ to hook up _____ using a _____ connection?

Is it possible _____ connect touch-enabled _____ as _____ braille _____ device _____?

I _____ know _____ it's _____ to _____ a braille _____ or _____ input/output device _____ the _____ via Bluetooth

Can they _____ for _____?

How about _____ wireless _____ to _____ up _____ displays?

Is _____ possible to _____ other _____ device _____ a device that has a _____ enabled _____?

I'm not sure whether _____ not _____ braille displays.

_____ for external _____ displays to be connected _____?

_____ of whether _____ not the _____ displays and _____ connect using _____ protocol _____.

I'm wondering _____ a _____ to a braille display, _____ a device that _____.

Is _____ to have braille/tactile _____?

_____ am _____ in the idea of attaching braille _____ devices _____ a Bluetooth _____.

_____ suggestion _____ to _____ possible _____ connect braille displays and other _____ devices through Bluetooth.

Is there a chance _____ external braille _____ devices can _____?

Is _____ possible to hook _____ braille displays and other _____ sensory _____ using _____ technology?

Is _____ possible _____ to _____ using Bluetooth?

Is _____ for _____ braille displays to be connected in _____ compatible _____?

There is _____ touch-based instruments _____ linked _____ using _____ protocol.

_____ it's possible to _____ device _____ on it to _____ a braille display to _____ touch _____

_____ to connect _____ other devices through the method _____?

_____ connection be _____ to connect _____?

Is there _____ way to _____ the _____ displays _____ systems _____ of _____?

There _____ question _____ to whether the _____ displays are capable _____ connecting _____.

_____ it's possible _____ up Braille displays using Bluetooth.

Is there _____ way to use Bluetooth _____ braille _____?

_____ sure _____ use Bluetooth to connect braille _____.

_____ you think _____ braille _____ using Bluetooth?

There _____ question of whether _____ braille _____ sensitive _____ will _____ connected via Bluetooth.

Is _____ a _____ that braille displays _____ displays _____ through Bluetooth?

There is a _____ about _____ display or _____ touch _____ device will _____.

_____ is _____ suggestion as to whether _____ possible to _____ external _____ displays _____ with Bluetooth.

I'm _____ it's possible to _____ a device _____ has a Bluetooth on it _____ to _____ device

_____ is _____ question as _____ whether _____ not _____ braille displays or _____ devices _____ the Bluetooth _____.

I don't know _____ can use bluetooth _____ or input _____.

Is it _____ to use a _____ connect _____ display and _____ device?

There are external _____ displays _____ can be used for _____ connections _____ is _____ connected via Bluetooth.

_____ displays connected _____ other _____ on _____ outside via Bluetooth?

Is _____ way to _____ displays and other _____ into _____ of Bluetooth?

Is it possible for _____ connected in a way _____?

There is a _____ as to _____ possible to _____ external braille _____ touch-enabled devices _____.

_____ want to _____ it is _____ hook a _____ and other sensory device up _____ device.

_____ whether or _____ the braille displays _____ connected using the Bluetooth protocol.

There _____ it is possible to connect external _____ displays or sensory _____.

I _____ know if _____ can _____ to connect _____ displays and _____.

I'd _____ to _____ it's possible _____ use _____ other _____ use of bluetooth.

I'm wondering if _____ link _____ display to _____ device _____ device that has Bluetooth _____ it?

I wonder if it's _____ an _____ display _____ to a _____ that's _____ with bluetooth.

There is a _____ regarding _____ or other _____ sensitive devices will _____ able _____ connect _____.

There is _____ question _____ displays are _____ to connect _____ the Bluetooth protocol.

We _____ see _____ we _____ connect with braille displays _____ use _____.

The braille input/output devices _____ linked _____ displays _____ the _____.

_____ there a way we _____ use Bluetooth _____?

_____ possible _____ connect a braille _____ an _____ using a _____ called Bluetooth?

_____ if it's possible to connect a _____ or other _____ to the _____ via bluetooth.

I _____ wondering if it _____ to put the braille _____.

_____ wondering _____ it's _____ to _____ a _____ display and other _____ device with a _____ enabled _____.

Can you _____ if _____ that _____ with _____ input/outputs for braille?

We would _____ to see _____ with _____ braille displays _____ use of _____.

Is _____ a _____ to connect accessible accessories _____ braille _____ your devices _____?

_____ it _____ that _____ displays and _____ connected via Bluetooth?

Is _____ possible to use Bluetooth to connect braille _____ and _____.

Is _____ a _____ braille displays _____ on external _____?

Is it possible to hook _____ both braille _____ other forms _____ equipment _____ aid _____ device?

Is there _____ to connect _____ displays?

_____ it possible _____ a braille _____ external display _____ a technology _____?

_____ know _____ there's _____ instruments can be _____ up using the Bluetooth wireless _____ protocol?

I wonder if _____ possible _____ up _____ displays and _____ of sensory _____ with _____ of bluetooth.

_____ wondering if it's possible _____ a _____ device with _____ braille display, using _____ device _____.

_____ you _____ if it is possible to hook _____ and other sensory _____ a bluetooth _____.

_____ a way to hook _____ both _____ other _____ of sensory equipment with _____ ofBluetooth?

_____ to hook _____ both braille displays _____ forms of _____ equipment with the aid of _____ ?

Is _____ possible _____ connect _____ displays _____.

I _____ like _____ with the braille input _____ usingBluetooth.

Is there _____ connect external _____ displays or _____ Input devices _____?

Does anyone know _____ there is _____ chance that _____ be _____ protocol?

Is it possible _____ to _____ up _____ similar devices?

Can _____ devices _____ to hook up _____ braille display _____?

Is it _____ to useBluetooth _____ displays?

There _____ external _____ wireless connections but _____ it _____ for the displays _____ be used viaBluetooth?

Is it possible for External _____ viaBluetooth?

_____ a _____ the _____ could connect using theBluetooth protocol.

_____ there a _____ connect _____ displays to _____ connection?

_____ to _____ it _____ possible to attach braille input/output devices _____ external _____ Bluetooth.

I want _____ if _____ a way _____ displays to connect _____.

You _____ braille displays viaBluetooth.

_____ possible that external _____ displays _____ other inputs are _____?

Is it _____ to put _____ displays _____ systems _____ ofBluetooth?

_____ displays, like the _____ connected viaBluetooth.

_____ like _____ know _____ a way to attach braille input/output _____.

Is _____ for _____ to connect _____?

_____ possible _____ use aBluetooth _____ to connect Braille _____?

_____ is _____ to useBluetooth to connect braille displays.

There _____ as to whether _____ not _____ possible _____ external braille _____ withBluetooth.

_____ possible to _____ braille displays _____?

_____ it possible _____ braille _____ to _____.

Is it possible to _____ as braille _____ devices?

Is it possible _____ braille _____.

_____ it _____ to _____ to _____ braille _____ other tactile devices.

_____ would like to _____ is possible _____ hook _____ a _____ display and other _____ device _____ a device with _____.

_____ if it's _____ a braille _____ to _____ touch device with _____ wireless _____.

_____ possible to _____ displays to outside displays?

_____ like _____ if it's possible to connect a _____ display or _____ the outside world _____.

Is _____ a way _____ connect _____ braille _____ other devices _____ the _____ bluetooth?

They _____ able to _____ for things _____ braille _____.

Is there _____ that touch-based _____ be _____ using _____ wireless communications _____?

Can a display, _____ display, _____ connected _____?

_____ it possible _____ link _____ displays _____?

Is _____ connect touch-based _____ like _____ over a wireless _____?

I _____ if I could _____ to _____ braille _____.

Can people use aBluetooth _____ connect _____?

There's _____ suggestion _____ to whether _____ display or _____ touch/hear inputs/output devices viaBluetooth _____ would _____ to _____ if we can connect with _____ use _____.

I _____ if _____ is _____ to link an external display or _____ device that's _____.

I'm _____ if _____ can _____ displays and _____ andoutput devices _____.

Can _____ displays be _____ through _____?

Is _____ possible for External _____ connected in _____ way _____ Bluetooth?

_____ can connect _____ devices _____.

_____ wonder _____ possible to _____ braille input/output _____ external _____ aBluetooth link.

I'm wondering _____ possible _____ link _____ a braille display, using _____ device that _____ on it.

The braille _____ devices can be _____ external displays _____.

Can _____ tell _____ it is _____ to hook up _____ braille displays and _____ of _____ with _____ Bluetooth?

It's a question _____ a _____ display or _____ can _____ connected viaBluetooth.

Can you _____ possible _____ hook a braille display _____ with a _____.

Do _____ think it _____ possible to _____ with _____ displays _____?

_____ is a question as to whether _____ the _____ or _____ devices _____ through _____ protocol.

Is _____ possible _____ andtactile devices _____ be _____ bluetooth?

Is _____ possible _____ a braille _____ and other sensory _____ a wireless _____?

I _____ like _____ know _____ external _____ or _____ devices _____ be connected _____ Bluetooth.

_____ wondering if _____ possible to link a _____ a _____ device using a _____ on _____

_____ is a question _____ braille _____ can be connected _____.

Is _____ braille displays _____ touch input _____ devices withBluetooth?

_____ the _____ compatible with a _____?

_____ could _____ used to _____ braille _____.

External _____ be _____ byBluetooth.

_____ wondering if it's possible to link _____ touch _____ with _____ display _____ device _____ hasBluetooth on _____.

I _____ to _____ it's _____ up both braille _____ and _____ forms of sensory _____ the aid _____.

Can _____ tell _____ if _____ possible _____ up both _____ displays _____ other forms _____ sensory equipment _____ help of _____?

Can _____ use _____ wireless technology _____ connect to _____ braille _____?

_____ connect _____ braille displays and _____ forms of _____ with _____ help of wireless technology?

_____ wondering _____ I _____ useBluetooth _____ connect _____ displays and touch/output _____

Is it _____ to _____ the braille displays _____ in _____?

_____ it possible _____ they _____ useBluetooth for _____ displays?

_____ such as _____ display, _____ connected _____ your device throughBluetooth?

_____ you think it's possible _____ connect _____ devices _____?

_____ a question as _____ whether or _____ braille _____ other devices _____ connect _____ bluetooth

_____ possible to useBluetooth _____ braille displays _____ touch _____ and _____ devices

_____ do I _____ braille/tactile devices _____?

Is there a _____ useBluetooth _____ braille devices?

Is _____ a way for external _____ to _____?

Can you tell _____ possible _____ hook a braille display _____ other sensory _____ a bluetooth _____

_____ want to know if _____ possible to _____ braille _____ and _____ device _____ that's bluetooth enabled.

There is _____ suggestion _____ to whether or not _____ connect _____ display or other _____ device _____

_____ not _____ if _____ is possible to _____ an external _____ or braille input to _____.

I _____ know _____ braille displays or _____ can _____ connected viaBluetooth.

Is it _____ braille displays _____ sensory devices _____?

Is there _____ braille displays _____ other _____ devices _____ be connected via _____?

We would _____ see if we _____ connect with _____ displays _____ the _____ of _____.

_____ trying _____ figure _____ if _____ can useBluetooth _____ braille displays.

_____ wonder _____ it's _____ to _____ braille displays _____ use ofBluetooth.

_____ want _____ know _____ it's possible _____ to _____ braille _____ the outside world.

Can _____ a _____ such asBluetooth to _____ a braille _____?

I would like _____ know if it is _____ to connect _____ braille _____ or _____ the _____.

There is _____ to _____ or not _____ displays or other devices could connect _____.

_____ want to see _____ we _____ with _____ displays _____ the use _____.

I am _____ is possible _____ link an external _____ input _____ another device _____.

There _____ a _____ about _____ a braille display _____ device can _____ viaBluetooth.

I _____ I _____ to connect _____ displays _____ touch inputs _____ outputs.

There is a _____ as to if it _____ possible _____ connect _____ braille _____.

I'm wondering ____ it is possible ____ a ____ display to a ____ device ____ device ____ aBluetooth ____ .

I'm ____ if ____ with a touch device using a device that ____ on ____ .

____ to ____ the method of ____ connect the braille ____ and other ____?

I'm wondering ____ possible to ____ to ____ device ____ a device ____ hasBluetooth on it

Can ____ connection be ____ braille ____?

With ____ wireless communication system, can external ____ and other ____?

____ would like to ____ possible ____ hook up a ____ display ____ other sensory device ____ bluetooth enabled ____.

I'd ____ if there ____ braille and other tactile devices ____ with ____.

____ it possible ____ useBluetooth ____ braille displays?

I am ____ I ____ useBluetooth ____ connect ____ displays and touch ____.

____ to link up a braille display ____?

____ to know ____ can ____ with braille ____ using the ____ ofBluetooth.

I ____ possible to link ____ external display ____ braille ____ to ____ that's ____

Is ____ to ____ Braille displays ____?

Is ____ that ____ and other devices ____ connected viaBluetooth?

Is ____ to ____ with the braille ____ usingBluetooth?

Is ____ to hook ____ both ____ and other ____ of sensory ____ using ____ aid ofBluetooth?

I ____ to ____ possible to ____ a ____ display to ____ outside world ____.

____ to connect braille/tactile devices ____?

There's a ____ whether ____ braille display ____ other ____ devices ____ connected viaBluetooth.

____ external ____ and other inputs that ____ sent via ____?

____ would like to ____ if ____ link an ____ or braille input ____ a device that's ____.

Is it ____ to ____ a ____ with ____ device usingBluetooth?

I ____ know ____ is ____ to ____ braille display to a ____ a ____ that hasBluetooth on ____.
