

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water pressure and flow issues
Inquiry Sub-Category	Water Discoloration
Description	Customers observe discolored or murky water coming out of their taps. This could indicate sediment buildup in the pipes, a water main break, rusty water pipes, or an issue with the water treatment process.
Data Size	9,349 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)
