

[Demo] NLP Dataset for Customer Service Automation

Company Type	Payroll Outsourcing Companies
Inquiry Category	Employee time and attendance management
Inquiry Sub-Category	System Access and Security
Description	Inquiries about user access rights, password resets, and system security measures, ensuring data confidentiality and preventing unauthorized access.
Data Size	5,066 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Payroll Outsourcing Company" customer inquiry. (Purchased data will not be masked.)

_____ encrypted at _____ industry-standard encryption algorithms when utilizing your service?

_____ use your _____ we use industry-standard encryption _____ all _____ information?

When we use your _____ industry-standard encryption _____ information?

_____ we _____ should _____ use _____ of _____ storage for our personal information?

_____ going to protect my _____ details _____ industry-standard _____?

When _____ use _____ will you _____ protect my details?

_____ would like _____ know if you make _____ info _____ encryption techniques.

_____ protect your personal details?

Will your _____ stored _____ using the industry standard _____?

Do you comply _____ standards _____ your _____ information?

When we use _____ are your _____ details secured _____?

_____ your service's stored personal details _____ industry _____?

Do you use industry-standard _____ store _____?

Should we use industry-standard _____ for _____ storage _____ your _____ when _____?

_____ of your _____ secured according to _____ industry _____?

Will the personalization _____ secured _____ to the _____ standards?

When using your service, _____ personal details _____ industry-standard _____?

_____ you tell me _____ you'll _____ standard _____ codes to protect _____ system?

Will personal _____ with your service be _____?

_____ we _____ for all the storage of your private information?

_____ your _____ data _____ secured using _____ methods when _____ it?

_____ you _____ kept secure when we use your _____?

When utilizing _____ all stored _____ details _____ with industry-standard _____?

_____ you going _____ industry standard _____ to protect my _____ use your _____?

_____ we _____ your service should we _____ industry-standard _____ data?

Should _____ industry-standard Encryption for personal _____ use your _____?

_____ stored in _____ service protected with _____ encryption?

Do you _____ personal information is securely _____ when _____ your _____?

_____ use _____ encryption _____ protect _____ personal information?

Do ____ use ____ for your ____ of ____ information?
____ you use industry-standard encryption ____ personal ____?
Is all ____ put ____ the protection ____ cryptography?
When we ____ should ____ encryption for ____ our data?
Does ____ industry ____ at rest?
Will your storage of personal ____ industry-standard ____?
Do ____ industry-standard Encryption ____ details?
____ a ____ idea to use industry-standard ____ we ____ your ____?
____ guarantee that all personal ____ is securely ____ we use ____?
Will you ____ that ____ industry-standard?
Should ____ use an industry-standard ____ of ____ our ____ when using ____?
____ we ____ your ____ you use industry-standard ____ for personal ____?
____ going ____ use industry-standard ____ protect my information ____ use ____ service?
____ personal ____ your service be ____ using industry-standard methods?
Do ____ use ____ encryption for ____ information ____ you ____ your ____?
____ confirm that you ____ encryption for ____ personal ____?
____ you use industry-standard ____ service ____ used?
____ you use ____ when storing our ____?
Do you ____ industry-standard encryption ____ services?
____ you ____ information is ____ stored ____ we use ____ services?
____ you ____ industry-standard encryption techniques for stored ____?
____ your ____ do you use ____ encrypting?
When ____ service, ____ stored ____ will be guarded ____ algorithms.
____ make ____ to use industry-standard encryption ____ provide my ____?
When using ____ service, ____ your personal ____ be ____ using ____?
When ____ your service, do ____ industry-standard ____ personal data?
Can you ____ if your ____ uses ____ for ____ data?
When ____ service, stored personal data ____ guarded ____ standardEncryption.
____ service, should we use industry-standard encryption for ____ our ____?
____ your service's ____ industry-standard encryption?
Do ____ guarantee ____ personal information ____ locked ____ we use ____ services?
____ it ____ to ____ my ____ information on ____ standard encryption codes?
____ data ____ be ____ using industry-standardEncryption ____ when utilized.
____ use industry-standard ____ on your ____?
____ service's stored data ____ by ____ methods?
____ you use industry-standard encryption ____ our ____ information?
When ____ your service, ____ details be ____ using industry-standard ____?
If you ____ your ____ with ____ service, are they ____?
Are ____ secure individuals' ____ sensitive ____ established ciphers?
Are ____ going ____ use ____ techniques to ____ my ____ information ____ your service?
Do you ____ for ____ information?
____ you ____ industry-standard encryption ____ data?
____ your service use ____ your personal details?
____ applied to ____ when you ____ it?
____ you ____ encryption ____ approved by the ____ protect ____ user ____?
Is encryption applied to ____ you ____ it?
____ use ____ service, are all ____ the personal ____ stored in ____?
Will ____ stored personal ____ be secured by the ____?
____ we use ____ should we use industry-standard security for ____?
Is the personal ____ your ____ protected ____ encryption?

I want to _____ you _____ techniques for _____ info.
 Do you _____ a _____ protects my stored _____ with _____?
 _____ your personal _____ securely stored with _____?
 I _____ like to know _____ will provide your _____ techniques.
 If _____ your _____ should _____ industry-standard encryption for personal _____?
 Will the service's personal information _____ industry _____?
 _____ we use industry-standard encryption _____ information _____ service?
 _____ encryption to protect your _____ information?
 _____ the _____ in your _____ with industry-standard encryption?
 When _____ will your _____ be _____ using industry _____ methods?
 _____ you _____ when protecting your _____ details?
 _____ your service _____ industry-standard encryption to _____ user _____ rest?
 _____ use industry-standard encryption _____ all _____ information _____ we _____ yourservice?
 _____ use your _____ we _____ industry-standard encryption for _____ data?
 _____ your _____ should we _____ industry-standard encryption _____ everything?
 Is it safe to _____ my _____ information _____ system _____ Encryption _____?
 _____ your _____ using industry-standard encryption _____ user _____ at rest?
 _____ we _____ your _____ are _____ your stored _____ details _____?
 _____ the storage of _____ information when using yourservice?
 Is _____ that all personal information is _____ with _____?
 _____ service _____ industry-standard _____ methods when storing your _____?
 _____ an industry-standard form _____ secure storage for personal _____ your _____?
 _____ you _____ us _____ all personal _____ is locked _____ an industry _____?
 _____ your service's _____ personal details _____ standard techniques?
 _____ the service's stored _____ be secured _____ industry _____ methods?
 _____ use _____ should we use industry-standard _____ storage of _____ details?
 Is _____ industry-standard encryption _____ protecting user data?
 Can _____ your service uses industry-standard _____ protect _____ data?
 _____ using _____ we use _____ industry-standard form _____ for our data?
 _____ is a _____ whether the _____ of personal information _____.
 Will _____ personal information be _____ industry standard _____ when _____ it?
 Will you _____ methods _____ the _____?
 _____ service use _____ protect your data?
 Do _____ use industry-standard _____ personal _____?
 _____ we use _____ should _____ use an _____ of _____ storage for _____ information?
 When _____ the service, all stored _____ using industry-standardEncryption
 If we use _____ service, should we _____ industry-standard _____ personal _____?
 _____ trust _____ to use industry-standard _____ to protect my _____?
 When _____ use _____ industry-standard form of secure storage?
 _____ going to use industry-standard _____ my _____ details?
 _____ using your service, are the _____?
 _____ you _____ to use industry-standard encryption _____ data?
 _____ you assure _____ all personal _____ down using industry _____?
 Do _____ apply _____ for storing personal _____ at _____ under _____?
 Personal _____ using your _____ should _____ industry-standard encryption.
 IsEncryption _____ to all _____ personal _____ when _____ service?
 Do you _____ encryption when you _____?
 Is _____ you _____ established encryptions for securing _____ stored _____?
 _____ I _____ that you'll use standard _____ codes _____ data?
 Is _____ to _____ stored data _____ utilizing _____ service?

____ service's personal info ____ secured by ____ ?
 ____ will ____ with an industry standardEncryption algorithm.
 ____ confirm that you apply industry-accepted ____ personal information ____
 ____ be secured ____ standard methods?
 ____ tell ____ you'll use standard ____ codes ____ storing ____ information?
 ____ we use ____ service, ____ you ____ encryption ____ personal information?
 Will ____ service's data ____ secured ____ industry ____ ?
 When we ____ your ____ are all ____ your ____ ?
 ____ it ____ that your service will ____ industry-standard ____ for ____ data ____ ?
 We want to ____ you ____ industry-accepted ____ for storing personal ____ .
 ____ guarantee that ____ personal information ____ stored securely when ____ services?
 Do ____ encryption to ____ data?
 Are you going ____ methods ____ protect ____ with your service?
 ____ you know ____ your ____ industry-approved techniques ____ secure your personal ____ ?
 Can ____ be certain ____ you'll ____ codes ____ storing ____ information?
 ____ that ____ use standard ____ codes to ____ data ____ it's on your ____ ?
 ____ be protected using ____ industry's ____ adopted ciphers?
 ____ sure ____ you will use ____ encryption ____ when storing ____ information?
 Is ____ for ____ service ____ use encryption on ____ stored ____ ?
 ____ we ____ encryption ____ our personal details ____ your service?
 ____ want ____ know ____ your ____ will use industry-standard encryption for ____ rest.
 ____ be used ____ the storage of personal details ____ use ____ ?
 Do ____ all personal information is ____ stored ____ your ____ ?
 Do you ____ an ____ standard ____ encryption ____ you ____ information?
 Is ____ data secured ____ industry-standard ____ ?
 Will your service use ____ to ____ personal ____ ?
 Does ____ all ____ information is ____ unreadable via an ____ cipher?
 ____ make sure to ____ techniques for my ____ ?
 When ____ your ____ your stored ____ details ____ secured ____ encryption?
 ____ know if you ____ sure to ____ data with ____ methods.
 Will ____ service's ____ details be ____ standards?
 When ____ use ____ should we use industry-standard ____ for ____ ?
 When using ____ service, ____ encryption ____ to ____ of ____ data?
 When ____ your ____ use industry-standard ____ for all ____ details?
 Do you ____ industry-standard ____ the ____ personal ____ ?
 ____ would like to ____ you apply industry-accepted encryption ____ at ____ ?
 ____ your ____ locked up ____ to the industry ____ ?
 ____ personal details secured using industry standard ____ ?
 ____ you ____ to make sure ____ my information ____ protected ____ techniques?
 When we use ____ should we ____ security ____ details?
 When ____ the ____ stored ____ data ____ be ____ using industry-standardEncryption ____ .
 When using ____ are your ____ ?
 Is it possible that ____ will ____ when it's on your system?
 ____ you ____ algorithms ____ protect my personal data?
 Do ____ information is secured using ____ standard?
 ____ applied to all stored personal ____ use ____ service?
 Is the stored ____ secured ____ ?
 ____ service's personal ____ be ____ using ____ standard methods?
 ____ to use industry-standard ____ we use your ____ ?
 ____ going to ____ industry-standard code ____ protect my ____ ?

_____ we _____ encryption _____ all of _____ personal _____ using your service?
 Do you _____ industry-standard _____ to _____ personal information _____?
 _____ industry-standard encrypting when protecting _____?
 Will you _____ industry-standard _____ protect the _____?
 _____ personal _____ be _____ using industry standardEncryption Algorithms.
 Please confirm _____ you _____ encryption for storing _____ information _____.
 _____ we use your _____ do _____ use _____ to _____ your _____ information?
 _____ personal _____ be secured using _____?
 _____ at _____ company meet industry standards?
 _____ is protected with industry-standard encryption techniques?
 When _____ use _____ we use _____ standard _____ the storage of _____ details?
 Do _____ guarantee _____ is locked down using the required _____ when _____?
 Will _____ service's _____ secured _____ standard security methods?
 _____ are _____ personal details stored in a _____ manner?
 _____ to all _____ personal data when _____ your _____?
 Do _____ an industry- _____ of encryption when _____ information?
 Is _____ to use industry-standard _____ protect my personal _____?
 When _____ use _____ should _____ use industry-standard _____ your _____?
 _____ my data _____ safe by _____ industry-standard encryption techniques?
 _____ your _____ stored _____ details secured _____ industry-standard methods?
 When we _____ your service, _____ stored _____ details _____ using standard _____?

 Is it true _____ legit _____ scheme to _____ our private stuff?
 Is _____ stored with _____ service protected _____ encryption?
 _____ your service's personal _____ be secured _____ the _____?
 Do _____ industry-standard _____ techniques _____ protect your _____ information?
 Can _____ that your _____ will use _____ encryption for _____?
 When we _____ your _____ use industry-standard _____ our personal _____?
 _____ we use _____ should we _____ an industry-standard _____ of secure _____ for _____?
 When using _____ we use _____ encryption _____ information?
 _____ you _____ information is _____ down using _____ standard?
 Let us _____ if _____ encryption for storing _____ rest under _____ services?
 I want _____ you will _____ industry-standard encryption techniques _____ service.
 Do you _____ us that _____ personal information _____ locked _____ the _____?
 _____ would _____ to know _____ you use _____ encryption techniques _____ my _____.
 _____ your service use _____ encryption _____ stored _____ information?
 _____ data will _____ guarded _____ industry-standardEncryption algorithm when _____ the service.
 _____ use _____ we use industry-standard _____ for personal information?
 _____ use _____ personal data when using your _____?
 Do _____ make sure _____ data _____ protected with industry-standard _____?
 Is personal data secured _____ encryption _____ your _____?
 _____ you _____ encryption _____ all _____ data when _____ service?
 Will _____ information _____ kept safe _____ standards?
 _____ need _____ if you _____ industry-accepted _____ personal information at rest.
 When we _____ service, do _____ encryption _____ stored data?
 When _____ service, _____ be protected using _____ standard methods?
 _____ service, _____ industry-standard security for all our data?
 Is it _____ to use industry-standard _____ when _____.
 _____ use your _____ should _____ industry-standard encryption for _____ private _____?
 Is your _____ going _____ methods to protect _____ personal _____?
 When you _____ service, _____ information be protected _____ industry-standard _____?
 _____ you going _____ industry-standard encryption techniques _____ protect _____?
 Will the _____ data be locked _____ to _____?
 Will my _____ information _____ service?
 Are your service's stored _____ details _____ using _____?
 _____ yourservice, _____ use an industry-standard form _____ secure storage for _____?
 I want to _____ if _____ industry-standard encryption _____ when _____ your _____.
 I want to _____ my service _____ encryption _____ user data.
 If _____ use your service, _____ we use _____ form of _____ information?
 _____ guarantee that personal information _____ securely _____ down when _____ use _____?
 _____ should we use _____ encryption for _____ information?
 When _____ services, do _____ information is securely locked down?
 Do _____ encryption _____ of _____ meet industry standards?

Do you _____ that _____ backed up with _____ encryption?

When we use _____ we _____ industry-standard secure _____ our _____?

Will your _____ ciphers _____ protect _____ details?

_____ you _____ industry-standard Algorithms to _____ your _____ at _____?

I _____ if you will _____ when you provide _____ service.

When using your _____ the _____ protected with _____ encryption?

Will your service _____ stored _____ data?

_____ I _____ sure _____ your _____ uses _____ encryption _____ user data?

_____ we _____ your _____ should we use _____?

Please _____ apply industry-accepted _____ for storing personal information _____.

_____ to _____ stored data when _____ use it?

Are _____ to _____ individuals' stored _____ established encryptions?

_____ service, are the _____ details secured _____ encryption?

_____ using the _____ data will _____ using industry standardEncryption.

Do _____ to protect _____ information when we _____ services?

Does your service _____ rest?

Will _____ service _____ of your _____ in a secure _____?

_____ use yourservice, should _____ industry-standard _____ all of your _____ information?

Will your service's _____ be _____ by _____ industry standard _____?

Can _____ tell me if _____ use _____ to protect _____?

_____ you _____ us _____ personal _____ is locked down using industry-standards _____ we _____?

_____ it _____ you'll use _____ encryption codes _____ storing my _____?

_____ you guarantee personal information is _____ when we _____?

Does _____ use _____ encryption _____ personal information?

Will your _____ details _____ using _____ standard methods?

_____ your personal _____ be _____ in _____ secure _____?

_____ use industry _____ the secure _____ of user information?

When we use your service, should _____ information?

_____ we _____ services, _____ use an industry-standard cipher?

Do _____ use _____ personal information when _____ your service?

Is _____ going _____ industry _____ to protect my _____ details?

When _____ should _____ an industry-standard form _____ secure _____ for personal _____?

_____ us that all personal information is backed _____?

_____ you _____ personal information _____ stored _____ we use _____ services?

Please confirm _____ industry-accepted _____ storing _____ in _____ services before we sign?
