

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|--|
| Company Type | Water and Wastewater Utility Companies |
| Inquiry Category | Meter reading and usage questions |
| Inquiry Sub-Category | High water bill |
| Description | Customers seeking clarification or dispute resolution regarding unexpectedly high charges on their water bills, including questions about meter accuracy, billing accuracy, or water consumption patterns. |
| Data Size | 5,082 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

Do ____ plumbing fixtures ever cause ____ use ____ visible ____ (such ____ being ____ ?

Is it ____ that ____ causes ____ usage ____ if ____ no leaks?

Should ____ plumbing fixture lead ____ excessive use ____ there ____ ?

Does busted piping ____ in ____ use ____ signs?

____ fixture ____ can ____ excessive ____ no visible drips.

____ there ____ problem with ____ that causes excessive ____ even ____ not obvious ____ ?

____ plumbing cause excessive ____ there ____ any visible signs?

____ hidden plumbing flaws cause ____ ?

Despite the absence of ____ piping result ____ excessive ____ ?

____ a faulty ____ fixture ____ despite ____ having visible signs?

When ____ obvious ____ of a malfunctioning ____ is there a ____ use?

Despite ____ drips ____ flawed ____ excessive use.

____ faulty plumbing ____ cause excessive ____ even ____ is ____ sign?

____ broken plumbing result in high ____ even ____ visible ____ ?

Do faulty ____ units ____ excessive use ____ there not ____ ?

Does faulty ____ fixture lead to excessive ____ no ____ drips?

Is it ____ broken ____ high ____ if no leaks ____ present?

Do faulty plumbing ____ lead to ____ there ____ no ____ ?

____ there a ____ faulty ____ that ____ excessive use even if there aren't ____ the ____ ?

Will ____ excessive use ____ lacking drips?

Is ____ a ____ faulty ____ that is causing ____ use even ____ there ____ visible ____ the problem?

Is it ____ that ____ to ____ even ____ no leaks exist?

Is there a ____ plumbing that causes ____ despite ____ shown?

Is there ____ plumbing fixtures ____ excessive use even ____ aren't obvious ____ ?

Does broken plumbing ____ usage ____ there aren't ____ ?

____ elements contribute ____ higher utilization ____ we don't see ____ ?

____ it ____ plumbing elements could contribute ____ utilization when there ____ no ____ ?

Can faulty plumbing ____ excessive usage ____ ?

Is there ____ problem ____ plumbing ____ causes ____ use ____ when there are ____ ____ ?

____ there a ____ plumbing ____ excessive use ____ when there ____ obvious ____ of the problem?

____ busted piping ____ excessive ____ if there is ____ obvious ____ of ____ drips?

____ excessive ____ with no visible ____ caused ____ plumbing ____ ?

____ it possible for ____ plumbing ____ usage with ____ dripping?

Is it ____ to cause ____ with ____ obvious signs of ____ ?

Does broken ____ results ____ usage, ____ if there ____ leaks?

____ units that ____ see the ____ of ____ may ____ use.

Is ____ faulty plumbing elements ____ don't ____ any leaks?

____ it ____ that broken pipes ____ higher consumption without obvious ____ ?

____ problem with faulty plumbing that leads to ____ if ____ is no ____ ?

Is ____ faulty ____ causing ____ use despite no visible signs?

____ do malfunctioning pipes lead to ____ ?

When there ____ visible ____ plumbing ____ is there ____ faulty plumbing fixture causing excessive ____ .

Do ____ plumbing ____ excessive use despite ____ signs?

____ there a ____ of ____ plumbing fixture ____ excessive use ____ there ____ problem?

Despite ____ drips, ____ can result ____ excessive ____ .

Does ____ cause excessive use even ____ there ____ signs?

____ faulty ____ excessive ____ despite no visible ____ ?

Is malfunctioning pipes ____ usage when ____ is ____ ?

Does malfunctioning ____ to excessive use when ____ no ____ signs ____ ?

____ busted ____ result ____ when ____ no obvious sign?

____ leaks, could faulty ____ elements increase utilization?

Does ____ to ____ lack of obvious ____ like drips or leaks?

Do faulty ____ use despite ____ seeing any ____ ?

Is ____ problem of ____ causing excessive ____ even ____ there ____ no visible signs ____ it?

____ a ____ faulty ____ that causes ____ use even if ____ a sign?

Is ____ a ____ faulty plumbing ____ causes ____ if there ____ no ____ signs of the ____ ?

____ there isn't any signs of drips, ____ faulty ____ lead ____ ?

If there ____ no drips or other ____ signs, ____ water ____ ?

____ are no ____ or other ____ signs, do ____ fixtures ____ greater water ____ ?

____ faulty ____ that causes ____ use after ____ visible signs of a ____ ?

____ faulty plumbing ____ excessive use ____ there is ____ ?

____ plumbing ____ cause excessive use ____ of a leak?

Is ____ problem ____ plumbing fixture causing excessive use ____ there ____ visible signs ____ problem?

____ it possible that ____ plumbing ____ cause ____ apparent drips?

Is ____ true that broken ____ can lead ____ use ____ leaks?

Is ____ possible for ____ pipes ____ higher consumption ____ obvious ____ leaking?

Is ____ a ____ of ____ plumbing ____ excessive ____ though ____ are ____ visible signs?

____ aren't ____ signs ____ do plumbing ____ function cause excessive use?

Even ____ no drips or other ____ does ____ fixture cause ____ use?

____ a ____ that ____ plumbing can cause excessive ____ with ____ drips?

Is it ____ for ____ usage with no dripping?

Is ____ a problem of faulty ____ leads to ____ despite ____ ?

____ broken plumbing ____ in ____ use even ____ there ____ visible ____ ?

Is ____ faulty plumbing Fixtures causing excessive use ____ signs?

Does ____ cause ____ use even if ____ are no ____ ?

When we don't ____ leaks, could ____ to more ____ ?

____ there a problem ____ causes excessive use ____ no visible signs?

____ faulty ____ cause spikes in ____ use ____ visible ____ ?

____ it ____ malfunctioning ____ cause ____ water use even though ____ no ____ signs?
 ____ malfunctioning plumbing fixture ____ regardless ____ signs that they ____?
 ____ problem of faulty ____ causing excessive use ____ not ____?
 ____ if nothing's ____ faucets and ____ cause higher ____?
 ____ lack of ____ can flawed ____ result ____ excessive ____?
 ____ malfunctioning plumbing ____ to ____ use ____ is no ____ signs of the ____?
 ____ plumbing lead ____ excessive ____ if there are ____ signs ____ problem?
 Does ____ piping cause excessive use ____ being ____ leaks or ____?
 ____ cause ____ use with no ____ drips?
 ____ a ____ faulty ____ excessive use even if there is no ____?
 ____ malfunctioning ____ lead ____ even ____ no ____ signs of the problem?
 Is ____ plumbing Fixtures causing ____ no obvious signs of a ____?
 Do faulty ____ fixtures cause excessive ____ no ____ signs?
 Do ____ units cause excessive ____ when ____ see the ____ of ____?
 Is ____ faulty plumbing ____ increase ____ apparent drips?
 ____ malfunctioning ____ fixture ____ use even if ____ are present?
 Even ____ no drips ____ other visible ____ malfunctioning ____ always cause more ____?
 ____ it ____ that broken pipes result ____ consumption ____ obvious ____ of ____?
 Does ____ plumbing ____ cause ____ despite not seeing a ____?
 ____ fixture ____ excessive use ____ of signs ____ are malfunctioning?
 Plumbing issues ____ are not visible may ____.
 ____ it ____ that broken plumbing ____ to ____ usage ____ a leak?
 ____ a faulty plumbing fixture lead to ____ use ____ signs ____?
 ____ faulty plumbing fixtures causing excessive use ____ if ____ any visible ____?
 ____ plumbing ____ to high usage ____ no ____?
 Do ____ plumbing units ____ excessive use ____ leak ____ not ____?
 Is ____ by ____ pipes even when nothing's ____?
 Does ____ plumbing ____ even though there aren't any ____ a ____?
 Do ____ fixtures cause ____ use ____ showing signs ____ wear?
 ____ malfunctioning ____ cause more water ____ no drips or ____ signs?
 ____ broken ____ usage if there are no ____ leaks?
 ____ possible that ____ can lead to excessive ____ with ____?
 ____ piping result in excessive use ____ there's no ____?
 Is ____ a problem ____ faulty ____ causes ____ even if ____ not ____?
 ____ lead ____ increased ____ without apparent drips.
 ____ there ____ of faulty plumbing ____ excessive use ____ there ____ obvious sign?
 ____ busted piping lead to excessive ____ if ____ no ____?
 Do ____ to higher ____ when there isn't ____?
 ____ the absence of drips ____ other ____ signs, ____ malfunctioning ____ cause ____?
 ____ no obvious signs of ____ does busted ____ result ____ excessive use?
 Although ____ no ____ does broken ____ result in high ____?
 ____ plumbing ____ cause ____ use even ____ there is ____ leak?
 ____ result in excessive use ____ if ____ no signs?
 Is ____ due to broken ____ even if ____ visible ____?
 Is it ____ for ____ pipes to result ____ consumption ____ the ____ leakage?
 Is there a ____ of ____ plumbing ____ causing ____ if there are no ____ signs ____?
 ____ it possible ____ flawed plumbing ____ lead ____ usage ____ no ____?
 We ____ see ____ but ____ faulty ____ raise usage?
 Can faulty ____ to ____ without apparent ____?
 ____ faulty ____ excessive use ____ if they ____ see ____ of a leak?

Is there _____ of _____ causing excessive use when _____ visible signs?

Does _____ plumbing _____ not having any signs _____ a _____?

_____ no visible signs of a _____ a _____ faulty plumbing _____ excessive _____?

Does busted _____ lead _____ use even _____ no obvious _____?

_____ there _____ fixture that causes excessive use even _____ no _____?

Is _____ a _____ faulty plumbing fixture _____ excessive _____ even without _____ of _____?

_____ a faulty plumbing fixture _____ usage _____ signs?

Does malfunctioning plumbing cause _____ use _____ signs _____ the problem?

_____ many signs _____ plumbing devices that don't function _____ use.

_____ plumbing _____ use _____ if there is no _____ sign?

_____ there a problem _____ causing excessive _____ despite not _____ any _____?

_____ faulty plumbing _____ to excessive _____ no _____?

Does malfunctioning plumbing cause _____ there not _____ signs _____ a _____?

Is _____ true that _____ can _____ high _____ even if there is _____?

While there are no drips _____ cause more _____ use?

_____ plumbing _____ that _____ function _____ excessive use _____ though _____ a _____ visible sign

Without seeing _____ leaks, can flawed plumbing _____ use _____?

_____ faulty plumbing units cause _____ use even _____?

Is there _____ problem _____ plumbing _____ that _____ excessive use _____ no obvious signs of _____ problem?

Does malfunctioning _____ excessive _____ no visible signs _____ a _____?

Do faulty _____ units cause _____ when _____ leak?

Is it _____ a faulty _____ fixture causes _____ use even if _____ of _____ problem?

Is _____ of faulty plumbing _____ excessive use, _____ visible _____ of _____ problem?

_____ plumbing _____ use without _____ drips?

_____ a _____ of faulty plumbing _____ excessive use even when there _____?

_____ faulty _____ lead to excessive _____ not seeing the _____ a _____?

Do faulty plumbing units cause _____ seeing _____ unit?

_____ faulty plumbing _____ use _____ there is _____ visible signs?

Does _____ lead _____ excessive _____ despite the lack _____ signs?

_____ piping cause _____ even if there's _____ obvious _____?

_____ there are _____ visible signs, _____ malfunctioning fixture cause greater _____ use?

Does malfunctioning plumbing lead to excessive _____ no _____?

_____ a faulty _____ fixture _____ excessive _____ even if _____ are no _____?

_____ plumbing result in _____ when there _____ no _____ leaks?

Does malfunctioning _____ lead to excessive _____ none of _____ of _____?

Does _____ plumbing _____ excessive use even _____ don't see _____?

_____ plumbing devices _____ function _____ use _____ there aren't any _____ signs

Does malfunctioning _____ to excessive use _____ are _____ signs _____ problem?

_____ faulty plumbing _____ increased _____ drips?

faulty plumbing can _____ with _____ drips

Is _____ a problem _____ faulty plumbing fixture _____ causes _____ use _____ when _____ no _____ plumbing work?

Does _____ plumbing result _____ high _____ despite _____ visible _____?

I _____ know _____ cause _____ use despite not seeing _____ leak.

_____ though _____ are no _____ other _____ does _____ malfunctioning fixture cause more _____?

Do _____ plumbing units _____ excessive use, even _____ of _____ leak?

_____ result in excessive _____ even _____ isn't any _____ signs?

Does _____ use _____ busted _____ even _____ there are no _____?

_____ it possible _____ faulty _____ can increase _____ without _____?

_____ plumbing devices that don't _____ cause _____ use _____ though there _____?

_____ excessive _____ despite there being _____ visible signs of the _____?

_____ excessive use _____ faulty _____ not seeing a leak?
 _____ plumbing elements contribute _____ higher _____ if _____ don't _____ leaks?
 _____ a _____ plumbing _____ causing excessive _____ despite no _____ signs?
 _____ there _____ faulty _____ excessive use even when no visible signs _____?
 Do malfunctioning _____ lead _____ usage _____ there _____ leak?
 Is it true _____ broken plumbing can _____ usage _____ no _____?
 _____ piping _____ excessive use _____ no obvious signs of leaks _____?
 _____ it possible _____ broken _____ to result _____ higher _____ obvious _____?
 _____ busted piping cause excessive _____ despite not _____ like drips _____?
 Do _____ fixture lead _____ use _____ there is no _____?
 Do plumbing _____ don't _____ cause _____ even though there _____ a _____.
 Is there _____ problem of _____ causing excessive _____ even when there _____ sign of _____?
 _____ devices that _____ function cause _____ use _____ there _____ visible signs
 Can plumbing _____ in _____ usage _____ leaks?
 _____ malfunctioning _____ lead _____ usage when nothing is leaking?
 Is there _____ problem _____ faulty _____ excessive use _____ when there _____ no _____ signs _____ the plumbing _____?
 Is there a problem _____ excessive use _____ no _____ signs _____ problem?
 _____ it _____ that _____ pipes can _____ higher consumption _____ signs of _____?
 Is there _____ of _____ plumbing fixtures _____ even _____ there are _____ signs of the _____?
 Can a _____ fixture _____ excessive _____ without _____ drips?
 _____ plumbing fixtures cause excessive use _____ though _____ aren't _____?
 _____ a _____ of faulty plumbing that causes _____ use _____ not _____?
 _____ issues can _____ use
 _____ the absence of _____ or other visible signs, _____ use?
 _____ faulty _____ fixture lead to _____ use _____ no _____?
 _____ problem of faulty plumbing that _____ excessive _____ even if there's _____?
 _____ faulty _____ excessive _____ they don't see the signs _____ a leak?
 _____ plumbing _____ excessive use if _____ are no _____?
 _____ problem _____ plumbing with excessive _____ if there are no _____ signs _____ the work?
 _____ true that _____ lead _____ high usage _____ are no leaks?
 _____ faulty _____ cause excessive _____ when there _____ any _____?
 _____ faulty _____ fixture cause _____ use even _____ there _____ no _____ signs?
 _____ that don't function _____ excessive use _____ there aren't _____ signs _____?
 _____ broken _____ lead to _____ if _____ aren't visible leaks?
 _____ malfunctioning plumbing despite _____ visible signs of _____ problem?
 Does _____ plumbing causes _____ use even if _____ visible _____?
 _____ hidden _____ in high usage?
 _____ faulty _____ cause excessive use _____ visible drips?
 Do _____ excessive use if no signs of _____?
 Do _____ fixture defects _____ high usage _____ no _____?
 _____ malfunctioning _____ to excessive _____ visible _____ of the problem?
 _____ it _____ higher consumption without obvious signs of leaking?
 Is there _____ problem _____ faulty plumbing _____ even _____ there _____ not obvious signs?
 Despite _____ can a _____ fixture _____ use?
 _____ problem of faulty _____ fixtures that cause excessive _____ showing _____ signs?
 _____ can cause excessive _____ with _____ drips.
 Do busted _____ result _____ excessive _____ fact _____ are no _____ signs?
 Is _____ that broken pipes will cause higher _____ signs _____?
 _____ a _____ plumbing fixture cause _____ use _____ if _____ are _____ signs?
 _____ we _____ do faulty plumbing _____ contribute _____ higher utilization?

Do ____ plumbing ____ cause excessive use if ____ ____ ____?

Is it possible ____ defects to lead ____ increased ____?

Do ____ plumbing ____ cause ____ use ____ though ____ signs are ____?

____ piping result in ____ despite ____ lack of ____ signs?

When ____ no ____ of drips, do ____ plumbing ____ excessive ____?

Is ____ a ____ faulty ____ fixture causing excessive ____ there ____ no visible signs ____ a ____?

Can a ____ plumbing ____ use with no ____?

Despite the ____ of drips ____ visible signs, do ____ greater use ____?

____ there ____ problem ____ faulty plumbing fixtures causing ____ use when there ____ of ____ problem?

____ result in ____ use ____ there are no obvious ____?

____ a problem of faulty ____ excessive use ____ there are ____ signs?

Is ____ high usage, even if ____ is no leaks?

Is there ____ faulty plumbing ____ that causes ____ not showing ____?

____ malfunctioning plumbing lead ____ excessive ____ signs of ____?

____ devices that ____ function cause ____ if ____ no obvious sign of ____?

Is ____ possible ____ broken ____ higher consumption with ____ obvious signs of ____?

Is there a problem ____ plumbing that ____ signs?

Is ____ malfunctioning plumbing fixture cause excessive use even ____?

Is ____ a ____ malfunctioning plumbing ____ excessive ____ despite no obvious signs ____?

Does busted piping ____ to ____ use even ____ signs?

Despite ____ drips ____ in excessive use.

Can a faulty plumbing ____ there ____ visible signs?

Can faulty ____ cause ____ without ____?

Do ____ that don't function ____ even though there ____ clue

Even ____ leaking, ____ faucet ____ pipes ____ to higher usage?

____ we ____ see ____ elements contribute to more utilization?

____ malfunctioning ____ to lead to excessive ____ with no ____?

____ it possible for bad ____ with ____ evident dripping?

____ flawed ____ result in ____ use despite ____ of ____?

____ it ____ broken pipes to result in ____ without obvious ____.

____ there ____ problem ____ plumbing that causes ____ not obvious?

____ a malfunctioning ____ fixture cause excessive use ____ if ____ no ____?

____ malfunctioning plumbing ____ use with no ____?

Do faulty ____ cause excessive ____ due ____ not ____ of a ____?

____ plumbing devices that don't ____ cause excessive ____ though ____ of a malfunction?

____ lead ____ excessive ____ despite no visible problem?

When ____ don't ____ leaks, could ____ add to higher ____?

____ result ____ excessive use ____ if no obvious signs ____?

Does malfunctioning plumbing ____ to ____ use ____ obvious?

Is ____ fixtures to ____ excessive use despite no visible ____?

Plumbing devices ____ don't ____ use even though there are no ____.

Does malfunctioning plumbing lead ____ use ____ though there ____?

When there ____ no visible ____ broken ____ result ____ high ____?

Plumbing ____ that ____ cause ____ use, ____ there isn't ____ signs of malfunction.

Do faulty ____ cause excessive ____ of ____ signs?

Is it true that ____ to ____ use even ____ aren't any ____?

Is ____ problem of faulty plumbing ____ use despite no visible ____?

Does broken plumbing ____ if ____ are no leaks?

Is ____ that broken plumbing ____ usage ____ there ____ any leaking?

____ excessive use, even though no ____ signs are ____?

Is there _____ plumbing that _____ excessive use even _____ there _____ no signs of _____?

_____ plumbing fixtures _____ excessive use _____ if _____ are no _____?

_____ of drips or other _____ malfunctioning fixture can cause _____ use.

Do _____ function cause excessive use if there _____?

Can _____ plumbing _____ high use _____?

Is it _____ pipes to _____ in _____ without _____ obvious _____ of leaking?

_____ malfunctioning _____ fixture _____ excessive _____ of visible signs _____ malfunctioning?

_____ plumbing leads _____ without visible signs?

_____ there a problem _____ plumbing that causes excessive use even _____ signs _____ the _____?

_____ malfunctioning plumbing _____ usage without leaks?

Even _____ there _____ no _____ or other visible _____ fixtures cause _____ water _____?

Is _____ use despite not showing _____?

_____ though _____ are no _____ obvious signs, do malfunctioning _____ more water _____?

_____ faulty _____ excessive use even though _____ are present?

Is _____ with faulty plumbing that causes excessive _____ even _____ no _____?

_____ possible that _____ plumbing _____ lead _____ usage and _____ dripping?

Do faulty _____ excessive _____ when _____ is no _____ drips?

_____ plumbing result _____ even if there aren't visible _____?

Do _____ plumbing _____ excessive use _____ if _____ is _____ visible _____?

Is there a _____ plumbing _____ excessive _____ without any _____ signs?

_____ a faulty _____ fixture cause excessive use _____ there _____?

Is _____ problem of faulty plumbing _____ causing excessive _____ despite _____.

_____ faulty _____ spikes in water _____ without _____ leaks?

When we _____ leaks, _____ faulty plumbing _____ a higher utilization?

Do plumbing devices _____ don't work _____ use _____ aren't obvious _____ malfunction?

_____ plumbing _____ increased usage _____ any _____ signs?

_____ possible that _____ elements contribute to higher _____ we _____ see _____ leaks?

Is there a _____ with plumbing _____ even if there _____ no _____?

_____ plumbing can result in high usage, even _____ are no _____?

Even _____ there _____ leaks, _____ plumbing elements contribute to _____?

_____ it _____ that leaky _____ causes increased _____ any visible _____?

_____ defects _____ cause increased _____ drips.

_____ busted piping _____ use _____ there isn't _____ signs?

_____ that broken plumbing _____ to _____ usage _____ if _____ are no leaks?

Is there _____ problem _____ faulty plumbing that causes _____ when there is _____ the _____?

_____ malfunctioning fixtures cause _____ despite _____ having drips _____ other visible _____?

_____ plumbing _____ cause excessive use _____ no _____ signs?

_____ faulty plumbing units _____ use _____ never seeing _____?

_____ plumbing issues _____ high _____ leaks?

Is _____ problem _____ faulty _____ fixture that causes excessive _____ are _____ obvious signs of the _____?

When _____ of _____ do faulty plumbing fixtures lead _____ excessive _____?

Is _____ plumbing _____ are _____ excessive _____ with no drips?

Do faulty _____ fixture lead to _____ no drips?

Despite _____ or _____ visible _____ do malfunctioning fixtures _____ a higher _____ use?

_____ there a problem of _____ fixture _____ excessive use _____ when _____ sign?

Is it _____ for _____ to cause excessive use _____ if _____ visible sign?

_____ faulty plumbing units _____ excessive _____ though _____ leak?

_____ broken plumbing _____ to high _____ are no _____?

_____ malfunctioning plumbing _____ lead _____ without drips?

Did busted _____ result _____ excessive use _____ absence _____ obvious _____?

_____ there _____ with plumbing _____ causes excessive use despite _____ ?
 Does leaky _____ cause _____ usage _____ any _____ ?
 _____ malfunctioning plumbing fixture _____ use, _____ of _____ signs _____ are malfunctioning?
 Is there a problem _____ with excessive _____ even if there _____ signs _____ work?
 _____ to excessive use if there _____ no drips?
 Is there a problem _____ faulty _____ fixture _____ excessive _____ there is _____ visible sign _____ ?
 Is _____ a problem _____ faulty plumbing fixtures _____ excessive _____ no signs?
 _____ faulty _____ fixture _____ excessive _____ despite no visible _____ ?
 Does _____ more water use if _____ are _____ drips or _____ ?
 If there are _____ is _____ true _____ plumbing can _____ high _____ ?
 _____ plumbing _____ don't function cause _____ use even _____ isn't a _____ sign?
 Can _____ fixture _____ in excessive use despite _____ ?
 _____ malfunctioning plumbing _____ to _____ when _____ no visible signs _____ problem?
 _____ flawed fixtures _____ in _____ despite lack _____ drips?
 Could _____ plumbing elements _____ utilization even _____ we _____ leaks?
 _____ problem _____ plumbing that _____ excessive _____ even without visible signs?
 _____ plumbing lead to increased _____ without _____ visible _____ ?
 Is _____ broken pipes _____ cause higher _____ without _____ indicators _____ leaking?
 Is _____ a problem of _____ that's _____ use despite not _____ ?
 _____ a _____ plumbing _____ causing excessive use despite not _____ any signs?
 Is there a _____ with _____ that leads to _____ are _____ obvious _____ ?
 _____ there a problem _____ plumbing that _____ there is no _____ sign?
 _____ faulty plumbing units cause _____ use _____ see _____ leak?
 _____ there a _____ faulty _____ causing _____ even when _____ obvious signs are _____ ?
 _____ faulty plumbing _____ excessive use when _____ aren't _____ signs?
 Despite lacking _____ can _____ fixture _____ in _____ .
 _____ devices that _____ function can cause _____ there _____ any _____ signs.
 _____ there _____ problem of _____ plumbing fixture _____ use _____ there are _____ signs?
 Is it _____ that broken plumbing _____ usage if _____ is _____ ?
 Even _____ there are _____ leaks, could _____ plumbing _____ to higher _____ ?
 _____ plumbing devices that don't _____ excessive use _____ with _____ malfunction?
 Is _____ a problem _____ fixtures that cause _____ use, _____ no _____ signs _____ problem?
 _____ the problem _____ plumbing _____ causing excessive _____ to _____ visible signs?
 _____ fixture _____ in _____ usage without drip signals?
 _____ plumbing _____ lead to _____ if _____ are no drips?
 _____ problematic plumbing _____ high _____ leaks?
 Is it possible _____ plumbing _____ use _____ apparent drips?
 Does malfunctioning _____ lead to excessive _____ though there _____ a _____ ?
 _____ there _____ faulty plumbing _____ even when there are _____ signs?
 Is _____ a _____ of _____ causing excessive use _____ there _____ not _____ signs?
 _____ result in excessive use _____ the _____ of obvious _____ ?
 _____ we do _____ leaks, _____ faulty plumbing _____ contribute to _____ utilization?
 Do _____ fixture _____ use if there _____ no _____ of drips?
 _____ it _____ plumbing can cause increased use _____ apparent _____ ?
 Is there _____ problem _____ that causes _____ even _____ there are no _____ signs of _____ work?
 Can defects cause _____ without _____ ?
 Do _____ plumbing _____ cause excessive _____ visible signs?
 _____ result in _____ though there are _____ obvious signs?
 _____ malfunctioning plumbing a sign _____ excessive _____ despite _____ of _____ problem?
 _____ there a problem of _____ plumbing _____ use _____ there are _____ signs?

Is there _____ faulty _____ excessive use even _____ there are no _____ signs _____ the _____?

Is there _____ of faulty _____ that _____ use without _____ signs of _____?

Is _____ a problem of faulty _____ even when _____ obvious _____ of it?

_____ plumbing units _____ even when there isn't a _____?

If there _____ visible leaks, _____ broken _____ higher usage?

_____ it _____ plumbing _____ cause _____ use even if _____ are no _____ signs?

_____ there a problem of faulty plumbing fixture _____ excessive use even _____ signs _____?

_____ isn't a _____ do plumbing devices that don't function _____?

_____ plumbing _____ that _____ cause excessive use even if _____ obvious _____?

_____ malfunctioning plumbing lead to _____ there never _____ any _____?

Is it possible for broken _____ in _____ use without _____?

Is _____ broken pipes _____ higher consumption with _____ obvious signs _____ leakage?

Did _____ plumbing _____ cause _____ despite not _____ a _____?

Is there _____ faulty _____ fixtures causing excessive _____ not _____ signs?

Is _____ faulty plumbing fixture causing excessive _____ not _____?

Is _____ of _____ plumbing _____ excessive use when _____ is no _____?

_____ malfunctioning plumbing lead _____ excessive use _____ no symptoms _____?

_____ faulty plumbing fixtures _____ excessive _____ when there are _____?

Is there a _____ faulty _____ fixture causing excessive _____ even _____ there aren't _____ plumbing _____?

_____ there aren't any _____ leaks, _____ broken _____ result _____ high _____?

Even though there are _____ can flawed _____ use?

_____ faulty _____ fixture lead to _____ use _____ there is _____?

_____ plumbing devices _____ don't work cause excessive _____ though there _____?

Do _____ function _____ excessive _____ though there isn't _____ signs _____ a problem?

Is there _____ faulty plumbing fixtures causing _____ are no _____ signs _____ the problem?

Does _____ plumbing fixture _____ use _____ there _____ no _____ signs?

_____ plumbing fixture _____ to excessive _____ no drips?

_____ fixtures cause _____ use to go up even _____ or _____ signs?

Do _____ cause _____ use if there _____ drips _____ visible signs?

Is there a problem _____ plumbing _____ excessive _____ despite no _____?

Plumbing _____ that are _____ cause _____ not _____ a leak.

_____ plumbing _____ lead to _____ with no drips?

Problems with plumbing _____ cause _____ with _____ visible _____.

Does _____ cause more water _____ if _____ is _____ drips or other _____?

_____ plumbing _____ cause excessive _____ if there are _____ signs?

_____ it _____ broken _____ cause higher consumption without _____ of leaking?

_____ it _____ that faulty plumbing can cause excessive _____?

Does _____ result _____ high _____ even _____ there are _____ leaks?

_____ plumbing lead to excessive use _____ if _____ are _____ visible _____ problem?

Do _____ piping _____ in excessive use _____ no _____ signs?

Does busted piping result in _____ of _____ signs?

Does busted piping _____ excessive use _____ there aren't _____?

There _____ no _____ or _____ do malfunctioning fixtures _____ more water _____?

_____ there are _____ visible _____ does _____ plumbing _____ in _____ use?

Does busted piping _____ there are no obvious _____?

_____ there a _____ of _____ plumbing _____ causes excessive use _____ there _____ visible _____?

Does broken _____ in high usage if _____ visible _____?

Does _____ plumbing _____ despite no sign of _____ problem?

Do busted piping result _____ excessive _____ there _____?

Is _____ problem of _____ that leads _____ despite no visible _____?

____ it true ____ plumbing ____ high ____ even if ____ aren't leaks?
 ____ plumbing ____ cause excessive use ____ if ____ signs are ____?
 Does ____ plumbing ____ if there aren't leaks?
 ____ possible ____ faulty plumbing ____ excessive use with no ____?
 Is there a problem ____ faulty plumbing that ____ there are ____ obvious signs of ____?
 ____ broken ____ result ____ even though ____ are ____ obvious signs?
 ____ it ____ broken plumbing ____ to high usage, ____ if there ____?
 ____ there a faulty ____ fixture ____ even ____ there ____ no visible signs?
 ____ broken ____ high use if ____ visible leaks?
 Do ____ devices ____ function ____ excessive use ____ though there ____ any ____?
 ____ fixture lead to ____ use when there ____ drips?
 ____ there ____ problem ____ faulty plumbing fixture ____ use even ____ obvious signs ____?
 ____ it ____ that faulty ____ will cause excessive ____ drips?
 ____ plumbing ____ to ____ without apparent drips?
 ____ malfunctioning ____ cause more ____ without ____?
 Is there a ____ of faulty plumbing ____ even ____ no ____ signs ____?
 Do faulty plumbing ____ use ____ no signs of ____?
 ____ cause ____ use even though there are ____ visible ____?
 ____ don't see ____ leaks, could ____ elements ____ to higher ____?
 ____ faulty ____ fixtures ____ use despite ____ being visible?
 Is ____ of ____ plumbing fixture that causes ____ even if no ____ are ____?
 ____ see leaks, ____ plumbing ____ contribute to higher utilization?
 ____ a problem ____ causing excessive use, despite no ____ of a ____?
 Does malfunctioning ____ lead to ____ even though there ____ no ____ sign ____?
 Even ____ are no ____ that ____ plumbing can lead to high ____?
 Is ____ a ____ plumbing that causes excessive ____ even if ____ are ____ obvious ____ of ____?
 ____ flawed ____ result in ____ use ____ having ____ drips?
 Can ____ lead to ____ usage ____ visible ____?
 Does malfunctioning plumbing lead ____ use ____ there ____ being ____ signs ____ the ____?
 Even ____ any drips or ____ visible signs, ____ malfunctioning ____ more water ____?
 Does malfunctioning plumbing ____ to excessive ____ even ____ no ____ the ____?
 Does broken plumbing ____ high ____ are ____ visible ____?
 Does ____ lead to excessive use, despite ____ having ____ problem?
 Is there ____ plumbing ____ causes ____ use even ____ there ____ visible ____?
 Can ____ fixtures ____ in excessive use ____ they ____?
 ____ if ____ is ____ leaks, ____ still contribute to higher utilization?
 Is there a problem of ____ plumbing that ____ excessive ____ even ____ there ____ the ____?
 Do broken piping ____ in excessive ____ despite ____ lack ____?
 ____ if ____ don't see ____ could faulty plumbing elements ____ use?
 Does ____ lead ____ despite no signs of ____ problem?
 ____ are no leaks, ____ faulty plumbing ____ contribute ____ higher ____?
 ____ high usage even if ____ is no ____?
 ____ fixture ____ excessive use ____ there were no drips?
 ____ devices that aren't working ____ excessive ____ even ____ there aren't obvious ____?
 ____ plumbing ____ don't ____ cause excessive ____ there isn't ____ of malfunction?
 Even though ____ obvious ____ of ____ do plumbing devices ____ cause ____ use?
 Do ____ plumbing units ____ when ____ a leak?
 Do plumbing ____ don't function ____ excessive ____ if there ____ obvious ____ malfunctioning?
 ____ a ____ with faulty plumbing ____ causing excessive ____ despite no ____?
 Do ____ fixture lead to excessive use ____?

Is _____ possible _____ malfunctioning _____ to increase _____ apparent _____?

Does _____ plumbing _____ cause excessive _____ when _____ don't _____ a _____?

_____ it _____ for faulty plumbing _____ cause excessive _____ with no _____?

_____ there _____ problem _____ faulty plumbing fixtures causing _____ there is _____ sign _____ the work?

Can _____ fixture _____ use even if _____ no visible sign?

_____ that _____ in higher consumption without obvious _____ of leaking?

_____ malfunctioning _____ fixtures cause _____ use even _____ are no _____?

Do plumbing _____ defects result _____ drips?

_____ plumbing result in high _____ even when _____ leaks?

_____ there a _____ faulty _____ fixture causing _____ use, despite _____ visible _____?

_____ no drips or _____ visible _____ malfunctioning fixtures _____ more _____ use?

Is _____ a _____ of faulty plumbing _____ excessive use despite _____?

Is there a problem _____ causing excessive use _____ obvious?

_____ faulty plumbing _____ use despite not _____ obvious?

Does _____ lead to _____ if _____ is no _____ of _____ problem?

_____ malfunctioning plumbing lead to _____ use _____ are _____ of the _____?

_____ malfunctioning fixtures _____ if there are no drips _____ signs?

_____ use caused by plumbing _____ that _____ function even though _____ signs _____?

When there is _____ visible signs _____ work, _____ a problem _____ fixture causing excessive _____?

Even though there's _____ drips _____ visible _____ do _____ more _____ use?

_____ faulty _____ to excessive use with no _____?

_____ it possible for _____ plumbing _____ excessive usage _____ no _____?

_____ a problem _____ plumbing causing _____ use despite _____ signs?

_____ there a problem of _____ plumbing _____ causing excessive _____ if _____?

Do faulty _____ units _____ excessive use _____ the _____ of a _____?

Do _____ plumbing _____ cause _____ use when _____ isn't _____ visible _____?

_____ other visible signs, do malfunctioning fixtures still _____ more _____ use?

Does _____ cause excessive _____ no visible sign _____ problem?

_____ faulty plumbing _____ excessive use even _____ no _____ signs?

_____ a _____ of _____ that causes excessive _____ when there _____ no sign of _____?

Does _____ plumbing _____ to high _____ with no _____?

Do faulty _____ cause _____ despite _____ a leak?

Is there _____ problem _____ causes _____ use _____ when there aren't visible signs _____ the _____?

_____ cause _____ use despite _____ no visible signs?

Do _____ plumbing _____ lead to excessive _____ there _____ drips?

Does faulty plumbing _____ use despite _____?

Is there a problem _____ faulty plumbing that _____ when _____ visible _____ of the _____ work?

Is there a _____ faulty _____ excessive use _____ if _____ is _____?

_____ though _____ not a lot of _____ signs _____ that don't function _____ use.

Can _____ fixtures _____ in _____ use, despite _____?

Do _____ lead to excessive _____ there aren't _____ of _____?

Does a faulty plumbing _____ use _____ not _____?

_____ bad _____ high _____ without leaking?

Is there _____ of faulty _____ fixture causing _____ if not _____?

_____ flawed _____ excessive _____ despite _____ drips?

Do _____ devices that _____ function cause _____ even though _____ aren't _____ malfunction?

Do plumbing devices _____ function _____ excessive _____ because _____ isn't _____.

_____ there _____ problem with _____ excessive use _____ no visible signs?

_____ fixture _____ to excessive _____ when no _____ of drips _____?

_____ there a problem with _____ that _____ is no visible sign?

Is there a problem of ____ plumbing that ____ use ____ no ____?
