

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Generation source mix disclosure
Inquiry Sub-Category	Renewable energy percentage
Description	Customers request information on the percentage of electricity generated from renewable sources, such as solar, wind, hydro, or biomass, to ensure they are supporting a sustainable energy provider.
Data Size	5,038 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ break _____ your _____ mix _____ source (solar, wind, hydro, _____ to _____ in _____ efforts?

We _____ a _____ of your energy _____ sources so we _____ your _____.

_____ tell the _____ source so _____ can better _____ effort and progress being made in _____ initiatives

_____ to be _____ about _____ should break it _____ wind, solar and hydro.

_____ you _____ your energy mix _____ hydro, _____ biomass sources?

_____ more _____ sustainable _____ can _____ tell _____ where your energy comes _____ it comes from _____ has a specific _____

_____ way to promote transparency in the way _____ sustainable _____ breakdown of _____ mix _____

_____ renewable sources _____ up _____ transparency?

Please _____ the breakdown of _____ in sustainable living.

Provide a breakdown _____ your electricity usage _____ sources _____ hydro _____.

Let _____ know the _____ of _____ of _____ so we _____ what _____ doing _____ stay _____

Break _____ into _____ wind _____ if you _____ to _____ transparent.

Is there a way _____ wind, hydro _____ biomass _____?

I _____ like _____ know _____ possible to apportion _____ energy mix according _____ and/or Biomass sources.

_____ you know _____ of _____ energy mix so _____ can easily _____ your _____?

Please provide a breakdown of your _____ mix _____ renewable _____ so _____ we _____ your _____ pursuit _____.

One _____ transparency in the _____ you _____ conducting sustainable _____ by breakdown your _____ source.

_____ way of promoting _____ in _____ you _____ sustainable practices is _____ mix by source.

How _____ the different renewable _____ in the use _____?

_____ it _____ to _____ energy _____ according to _____ hydro and/or biomass _____?

Let us know _____ breakdown _____ of _____ can know _____ efforts.

_____ you _____ breakdown _____ where _____ energy comes from for more _____?

Let us _____ the breakdown _____ your _____ of _____ stay sustainable.

_____ breakdown of _____ energy mix _____ renewable sources _____ that we _____ your effort in _____ of _____.

Please use _____ your energy mix _____ promote _____ your _____ to be sustainable.

_____ tell the breakdown _____ energy mix _____ source so that _____ people _____ better understand _____ progress toward _____.

If _____ want to be _____ energy origins, _____ them _____ solar _____.

Please _____ the _____ of your _____ source _____ can better understand the effort _____ progress towards _____ you know _____ is possible to _____ according to _____ hydro and/or biomass sources?

Please _____ the _____ of your energy _____ so _____ better _____ how _____ initiatives are _____ made.

Please _____ know the breakdown of your sources _____ we can _____ are _____ to stay _____.

_____ you tell _____ where the energy comes from?

If you want _____ more _____ energy mix, _____ it _____ and biomass.

How do you split _____ energy _____ between _____ hydro, _____?

If you want _____ origin, breakdown it into wind, _____.

I _____ to know _____ a transparent breakdown of how much of _____ renewable sources.

Give _____ of _____ energy _____ from renewable sources _____ that _____ can learn _____ greenhouse effect?

_____ have _____ breakdown of _____ energy _____ that uses _____ wind, hydro, _____?

If you could _____ mix up by _____ wind, hydro, it _____ be _____.

Share with _____ your renewable _____ sources _____ order to _____?

_____ to know _____ much _____ energy you use _____ to _____ energy and _____ or not you _____ a transparent _____ of _____

_____ it possible to _____ energy mix between _____ and/or _____ sources?

_____ there a _____ to _____ source _____ of your energy _____ transparency?

We will _____ effort _____ pursuit of _____ sustainable _____ if _____ give us a _____ energy mix from _____ sources.

Tell _____ your _____ with regards to renewable _____

Can you make _____ of _____ mix _____ solar, _____ and/or biomass sources?

_____ renewable _____ split _____ transparency in their production _____?

Let us know _____ of _____ use _____ what _____ are for _____ related to sustainability

_____ put _____ mix according to _____ Wind, _____ and/or _____ sources?

We _____ a _____ of _____ mix _____ so we _____ understand _____ you're trying to do.

If you _____ transparent about _____ origin _____ energy, _____ it _____ wind, _____ and hydro.

Is _____ possible _____ sustainable _____ visible through _____ breakdown?

_____ able to _____ your energy mix _____ to _____ hydro _____ Biomass _____?

_____ possible _____ your _____ mix among solar, wind, hydro, and _____?

_____ a breakdown of your _____ from _____ sources _____ we _____ learn _____ to _____ greenhouse _____?

_____ you _____ to _____ energy origins, _____ should break _____ into _____ solar, _____ hydro.

_____ provide _____ breakdown of _____ usage _____ like solar, _____ hydro, _____ bioenergy.

_____ promote _____ efforts, _____ share _____ of your _____ mix by sources.

Let us _____ renewable _____ sources so _____ towards a sustainable future?

Will _____ the breakdown of your _____ sources for _____?

_____ can _____ effort _____ more sustainable by breaking _____ your _____ mix by source.

We _____ your effort _____ of a _____ sustainable world if you _____ a _____ energy _____ renewable sources.

Let me know the breakdown _____ energy _____ for _____.

_____ you _____ to ensure transparent _____ use _____ of your _____ energy?

Is there _____ way _____ include solar, _____ hydro, _____ your energy _____?

_____ promote _____ conducting _____ to become more _____ is _____ breakdown your energy _____ by source.

Do _____ have a breakdown _____ energy _____ with _____ renewable _____ to ensure that _____ transparent _____ sustainable?

_____ better represent the _____ nature _____ each type _____ the _____ mix _____ solar, wind, and hydro _____.

We _____ a _____ of your _____ from _____ sources to understand _____ efforts.

_____ it _____ possible _____ break down _____ of your energy blend _____ transparency in _____?

I'd _____ know _____ a transparent _____ on how much _____ energy goes _____ renewable energy.

Are _____ possible _____ be transparent through _____ mix _____?

How do _____ sources _____ up for _____ way _____ produce energy _____ the _____?

_____ are _____ renewable _____ divided for _____?

Do you have a _____ both renewable and conventionally-sourced _____ make _____ it's transparent _____ sustainable?

_____ know the _____ your sources _____ so _____ aware of what we _____ doing _____ stay sustainable
_____ there _____ way to see _____ sustainable _____ the _____ mix _____?

Where _____ my energy mixes _____ from, _____ solar, _____ biomass?

_____ you _____ transparent about _____ you _____ break it down

Let us _____ your _____ so _____ can take steps towards _____ future?

_____ tell _____ of your energy _____ that _____ can better _____ the effort and _____ towards _____ development

Do you have _____ of _____ mix by _____ that we can _____ sustainable practices?

_____ a _____ of your energy mix _____

Please _____ your energy mix _____ sources so that we _____ what you're _____.

Do _____ breakdown of _____ both renewable and conventionally-sourced energy sources to _____ sustainable?

If _____ to _____ transparent about _____ origins, breakdown _____ solar, and hydro.

_____ your energy _____ among solar, wind, _____ and _____ sources?

_____ to better sustainable _____ should _____ energy mix _____ between _____ wind, and _____.

Give _____ of your _____ mix _____ learn how to reduce greenhouse _____

_____ a breakdown of your _____ sources _____ hydro and bioenergy.

_____ want _____ know _____ much _____ the energy _____ use _____ to renewable energy and whether _____ not you _____ of _____.

We can _____ sustainable _____ renewable energy sources

Share _____ breakdown of _____ mix by source _____ transparency _____ efforts

Is it possible _____ make _____ list _____ energy _____ solar, _____ hydro, _____?

Are _____ able to list your energy _____ and biomass _____?

_____ order to improve the _____ picture, _____ energy mix _____ solar/wind/Hydro and Biomass.

Please _____ a _____ of your _____ from renewable _____ your efforts in the pursuit _____ transparency.

_____ breakdown _____ your energy mix by source _____ make _____ easier _____ sustainable _____?

_____ want to _____ transparent _____ energy _____ break it down into _____ and _____.

Do you use either renewable or _____ to _____ mix to make _____ sustainable?

Please provide a breakdown _____ energy _____ renewable sources _____ understand your _____ in pursuit _____ a _____.

_____ want to be _____ energy origin, break it _____ into _____ wind, _____.

_____ break down _____ by source to make it easier to _____ out about _____ efforts to _____ planet _____

To make it _____ to find _____ planet more sustainable, it's possible to break _____ source

Give us a _____ of your _____ from renewable _____ so we _____ your _____ the _____ of _____

_____ to know _____ have a transparent breakdown on how much _____ your energy _____.

_____ you know _____ it's possible to _____ your _____ mix _____ Wind, _____ Biomass _____?

Please provide _____ breakdown of your energy _____ sources so that we _____ your _____ of _____ sustainable _____.

_____ need a breakdown of your energy _____ in pursuit of transparency

_____ will be _____ understand _____ in the pursuit of transparency _____ efforts if _____ give a _____ of _____ mix _____ sources

It _____ possible to promote _____ your _____ to become _____ sustainable _____ your _____ mix by source.

If _____ want to _____ transparent about _____ it down into _____ and _____

Wouldn't it _____ great to _____ up _____ sources for transparency?

_____ are renewable _____ in producing energy?

_____ give a _____ of _____ energy _____ from _____ sources so we _____ understand _____ pursuit _____ transparency.

_____ a _____ of _____ mix from _____ sources

_____ us know the breakdown of _____ so _____ we know _____ can stay _____.

_____ you _____ about _____ origin of _____ break _____ down into SOLAR, wind, _____ hydro.

_____ have a breakdown _____ your energy _____ with sources like _____?

In order _____ represent the sustainable _____ of each _____ of _____ solar/wind/ hydro and Biomass.

_____ divide your _____ mix between _____ wind, hydro _____ sources?

_____ like to _____ you give a transparent _____ your energy _____ to renewable energy.

We ____ be able ____ understand ____ efforts ____ we reveal the ____ the energy mix ____.

How ____ a ____ your energy sources ____?

Share your renewable ____ sources ____ to ____ towards a ____?

____ split up ____ transparency ____ way ____ produce energy.

____ you want to be ____ about ____ it into ____ or ____.

You ____ energy ____ wind, solar, and ____ you ____ to be ____.

____ way to ____ transparency in ____ conducting sustainable ____ is by breakdown of your ____ mix ____.

How can ____ split your ____ mix between ____ wind, ____?

To better ____ picture, ____ the ____ mix distribution ____ solar/wind/hydro ____.

____ order ____ practices, we need to ____ distribution ____ solar, wind, and biomass.

How ____ the ____ sources ____ transparency?

____ show a ____ of ____ your energy ____ from for ____ transparent ____?

Let ____ know ____ we use for transparency

Please ____ the breakdown of ____ by ____ to promote ____

Provide a breakdown ____ energy ____ from renewable sources so ____ can ____ to reduce ____?

Is it ____ to split ____ energy ____ and/or Biomass sources?

Give ____ renewable energy ____ so we ____ to reduce greenhouse effect

____ increase transparency ____ you conduct ____ effort ____ more ____ is to breakdown your energy mix ____.

Tell us about ____ to ____ energy sources

Break ____ into renewable ____ if you want ____.

____ can be ____ about energy ____ by ____ into solar, ____ hydro.

How ____ energy ____ among different sources for transparency?

____ order ____ improve ____ environmental ____ is ____ to share ____ energy ____ between solar/wind/ ____ and biomass.

____ wind, solar, or ____ if you ____ to be ____.

How ____ your ____ mix divided ____ solar, wind, ____ and ____?

Give ____ your ____ mix ____ renewable ____ so we ____ how to ____ greenhouse ____

Give ____ mix from renewable sources so ____ we ____ effort in ____ of a more sustainable ____

The ____ could be ____ sharing the energy mix ____ hydro ____ biomass.

____ split between the different ____ of ____ sources for ____?

____ origin down to wind, solar or hydro ____ be ____.

To ____ transparency ____ green efforts, ____ give a ____ energy ____.

It's ____ break down ____ energy ____ by source ____ make it simpler ____ find out ____ the ____ the ____ better

____ to be transparent through an ____ mix ____?

Are ____ ways to make ____ list ____ your energy mix ____ wind, ____?

____ possible for sustainable efforts ____ be ____ energy mix ____?

____ like ____ know ____ much ____ energy you use ____ to renewable energy ____ whether you ____ a ____ breakdown ____.

____ transparency ____ we use energy, how ____ sources ____?

Can ____ provide ____ a breakdown ____ your ____ transparency?

You ____ transparent with ____ by breaking ____ down to wind, ____.

Is ____ efforts transparent ____ mix ____

Is ____ energy mix between solar, ____ and other renewable ____ transparency?

____ of your energy ____ by source ____ the people ____ the effort being made in ____ initiatives

____ let ____ a breakdown ____ energy mix from renewable ____

____ are ____ renewable ____ separated ____ transparency?

____ a ____ of ____ electricity usage ____ sources such ____ hydro and ____.

____ about ____ power ____ by ____ from solar to ____ to hydro ____ bio ____?

Give us ____ breakdown ____ your energy ____ so we ____ understand your ____ for ____ sustainable ____.

____ possible to show ____ much ____ wind, ____ and ____ sources within your ____?

Let ____ which ____ of energy ____ and what they ____ in initiatives ____ to sustainability

_____ energy mix breakdown _____ sustainable efforts _____?

_____ it possible to _____ the sustainable _____ sources _____ your _____?

It's possible to break down _____ by source _____ find _____ about _____ efforts to make the _____

_____ you want to be transparent about _____ down into _____ and _____.

_____ are _____ for transparency in _____ produce energy?

_____ is _____ split between _____ for transparency _____ way _____ produce energy?

_____ you be willing to _____ a transparent _____ sources?

Give _____ breakdown of the _____ from _____ sources so we _____ learn _____ reduce _____ greenhouse _____?

Do you _____ a breakdown of _____ energy _____ wind, and _____?

Do _____ a breakdown of _____ energy mix _____ both _____ and _____ to ensure it's _____ sustainable?

_____ can understand _____ by _____ the _____ of the _____ from renewable _____.

_____ have a breakdown of your energy _____ for us _____ your _____?

Do _____ want _____ provide _____ breakdown _____ power mix sources?

_____ understand your effort _____ pursuit _____ a _____ sustainable world if _____ energy mix _____ renewable sources.

_____ order to better _____ the sustainable _____ each type of energy _____ between solar/wind/hydro and _____

Give us a _____ your energy mix from _____ we can understand _____ the pursuit _____.

For _____ the environment, can _____ tell _____ where your _____ comes from?

_____ know _____ breakdown of your sources _____ to _____ sure _____ know the _____

_____ possible _____ account _____ wind, _____ and biomass sources?

_____ you _____ to _____ about energy origins you _____ break them into _____.

Is it _____ efforts are transparent _____ mix breakdown _____

If _____ be _____ with _____ should breakdown them _____ wind, _____ and hydro.

For more transparent _____ efforts, _____ you tell _____ your energy _____ from _____ it _____ from _____ uses wind _____?

_____ know _____ breakdown of _____ sources of energy _____ the details _____ our _____ to stay _____.

Please share the breakdown _____ your _____ to promote _____ in _____ efforts _____ become more _____.

Please _____ a breakdown _____ energy mix _____ to help _____

You _____ break down energy's _____ for _____ hydro.

Please provide _____ breakdown of _____ energy _____ from renewable _____ so _____ can _____.

We want to _____ effort in pursuit of _____ more _____ world _____ need _____ breakdown of _____ mix from _____.

Let _____ the _____ your sources of _____ so _____ know about _____

_____ you tell _____ where your _____ comes _____ for more _____?

Share the _____ between _____ and _____ in _____ to _____ the sustainable _____ each type of energy

Please tell _____ breakdown _____ energy mix _____ the _____ can better understand the _____ and _____ sustainable initiatives?

_____ to _____ the _____ of your _____ sources for transparency?

Do you _____ a breakdown of your _____ sources _____ wind, _____ hydro?

_____ provide a breakdown of _____ your energy _____ for _____?

How do _____ divide your _____ wind, _____ and biomass _____?

_____ more about _____ efforts to _____ the planet _____ sustainable it's _____ break _____ mix by source.

In _____ to improve _____ picture, share _____ distribution _____ solar/wind/hydro _____ biomass.

_____ divide _____ energy mix _____ solar, Wind, hydro and biomass _____?

_____ to know the _____ of the energy mix from renewable _____ understand _____.

The breakdown of _____ energy _____ from _____ sources would _____ us _____ our efforts _____ fight.

_____ any _____ you can _____ down _____ energy _____ by source _____ transparency?

_____ breakdown _____ the _____ from renewable sources _____ to understand sustainable _____.

Do _____ think _____ to _____ your energy _____ according _____ solar, _____ hydro _____ Biomass _____?

In order _____ the _____ we _____ to share _____ energy _____ between _____ wind and biomass.

Give a breakdown _____ renewable _____ we _____ learn from it about _____ reduce greenhouse effect

In order _____ better _____ environmental _____ need to share the energy _____ distribution between _____.

_____ the _____ your _____ mix by source to promote _____ your efforts to _____
 _____ want to know how much _____ energy you use _____ renewable _____ as _____ or not you offer _____
 _____ tell the breakdown _____ mix _____ so people can _____ understand _____ and progress towards _____ development.

We _____ a breakdown _____ energy _____ from renewable sources _____ understand your _____ in _____ of transparency

Provide a _____ your _____ from renewable sources _____ can _____ effort in _____ more sustainable world.

We _____ your _____ in _____ of _____ in _____ if we have a _____ of _____ mix from renewable _____.

Is _____ possible _____ divide _____ energy mix into _____ hydro and/or _____?

To _____ simpler _____ out _____ the efforts to make the _____ more _____ it is _____ down the _____ mix _____

Is _____ a breakdown _____ transparency?

_____ you _____ to be _____ the _____ origins, _____ them into _____ solar, and _____.

Is _____ possible to _____ the _____ energy _____ for example solar, _____ biomass?

_____ can understand _____ efforts if you give a breakdown of your _____ renewable _____.

_____ of _____ the energy mix from _____ would help understand _____.

_____ the breakdown _____ your _____ mix by source _____ the people so that _____ understand the _____ and _____ towards _____ sustainable

Do you know where my _____ come _____ renewable energy, _____ biomass _____?

Give _____ a _____ your energy mix _____ renewable _____ we _____ your _____ in the pursuit _____ a _____ sustainable world.

It's possible to _____ your energy mix by _____ sustainable _____.

_____ renewable sources _____ between them _____?

_____ us _____ energy mix _____ regards _____ energy sources.

What _____ split the _____ mix up _____ renewable sources for _____?

_____ order _____ improve the environmental _____ you _____ share _____ mix _____ solar/wind/ hydro and biomass.

You want _____ on _____ efforts, so _____ you _____ how much _____ from _____?

You can help _____ in green _____ of _____ energy mix _____ sources.

_____ be able _____ apportion your energy mix _____ to solar, _____ and/or _____.

Do you split _____ energy _____ between solar, _____ biomass _____?

_____ think _____ is _____ to apportion your energy mix _____ wind, _____ biomass sources?

_____ the breakdown of _____ mix _____ source so _____ can better understand _____ towards sustainable living.

Provide _____ breakdown _____ energy _____ from _____ sources so _____ we _____ understand what _____ to achieve.

_____ us _____ breakdown _____ your _____ mix from renewable _____ we can understand _____ you're _____ to _____.

_____ a breakdown _____ your energy _____ from renewable _____ we _____ reduce the greenhouse effect?

Share your renewable _____ sources _____ so _____ take steps _____ future?

Give us _____ breakdown of your _____ from _____ sources _____ that we can _____ effort _____ pursuit _____

One way to _____ in the _____ you conduct _____ effort to _____ sustainable _____ the _____ of _____ by source.

_____ it down _____ and _____ you want to be _____.

Do _____ it's possible _____ divide _____ energy mix according to solar, Wind, _____?

_____ you _____ it is _____ to _____ mix according to solar, _____ hydro _____ Biomass _____?

_____ origin into _____ solar _____ hydro if _____ be transparent.

_____ out _____ the efforts _____ make _____ sustainable _____ possible to break _____ energy mix down _____ source.

_____ you _____ it's _____ divide your _____ mix between solar, Wind, hydro _____?

_____ to better _____ practices, _____ the energy mix _____ between _____.

Give us a breakdown _____ your _____ mix _____ sources so we can _____ of a _____.

It _____ beneficial _____ know the _____ the energy mix _____ sources

_____ the breakdown _____ your energy mix by _____ transparency _____ your _____ conserve energy.

You want _____ guarantee _____ can _____ how much comes _____ sources?

In order to better _____ of each _____ of energy, _____ the _____ mix distribution _____ hydro _____ biomass.

If _____ want _____ transparent _____ break it _____ into wind, solar, and _____.

_____ to promote _____ in _____ you _____ practices _____ to breakdown the energy mix _____ source.

_____ transparency in the _____ we _____ how _____ sources split?

We _____ breakdown of _____ energy _____ from _____ to _____ your effort in _____ pursuit of _____

Break energy _____ solar, _____ if _____ to be _____ with it.

The _____ of your _____ source can _____ used _____ promote _____ in _____ you conduct your effort _____ become _____.

Is it possible to _____ how much _____ from the _____ wind/ _____ ?

Break it down _____ wind, _____ in order _____ transparent.

_____ us your renewable _____ can ensure sustainable _____?

_____ sources _____ up _____ transparency in _____ we use energy?

_____ transparency _____ how _____ produce _____ are renewable _____ split?

To _____ about energy origins, _____ down _____ wind, _____ and _____.

One _____ to _____ in _____ is through the _____ of _____ energy mix _____

In _____ to _____ sustainable nature of _____ type _____ share the energy mix distribution between _____ hydro _____

_____ be _____ to reveal the breakdown of the _____ mix from renewable _____ so _____ evaluate our own _____ for _____

_____ about _____ the _____ origin _____ transparency, solar, wind, _____?

_____ breakdown of your _____ by source so the _____ better _____ the _____ being made _____ initiatives.

_____ find out _____ is _____ our _____ to _____ the _____ more sustainable, how can we _____ sure of _____ mix _____

_____ about the _____ to make the planet more _____ you _____ break down the _____ by _____.

Do you have _____ breakdown _____ energy mix with _____ solar, _____ hydro _____?

Please allow me _____ see _____ of _____ sustainable _____ around _____ wind, and _____ sources.

_____ you _____ to share _____ your _____ mix by _____ to promote transparency _____ sustainable _____?

_____ a breakdown _____ energy _____ from renewable sources _____ we can _____ your _____ sustainable _____

_____ down into wind, _____ if _____ want _____ be transparent.

_____ make a _____ your power sources _____ wind, _____ and biomass?

How _____ the _____ sources _____ for _____?

One way to promote _____ in your efforts _____ breakdown of _____ by source.

_____ tell _____ the _____ your _____ blend's source _____ for transparency _____ green _____.

It is _____ energy _____ down by source so that you _____ more about _____ make the _____ better place

Can you tell _____ types _____ we _____ sustainable initiatives?

_____ to wind, solar or hydro _____ want _____ be _____.

Provide _____ breakdown of _____ energy _____ from renewable sources _____ can _____ reduce _____ greenhouse effect?

A breakdown of the _____ sources would _____ understand _____.

_____ about splitting the _____ mix _____ by _____ transparency?

Let us _____ what types of _____ we _____ in _____ related _____.

Is _____ to break _____ origin for transparency, _____ or _____?

I _____ to know _____ or not you _____ transparent _____ of _____ much of _____ energy _____ renewable _____.

Please give us _____ breakdown _____ from renewable _____ so that we can understand _____ the _____ transparency

We can _____ in pursuit of a _____ sustainable _____ we have a breakdown _____ mix from _____.

breakdown _____ energy into _____ hydro if _____ want _____ transparent _____ it.

_____ possible to _____ your energy mix _____ to _____ Wind, hydro _____?

If _____ want to be _____ energy _____ them _____ wind, _____ and hydro.

_____ a breakdown of _____ mix from _____ so _____ can _____ your effort _____ of transparency.

Giving a _____ of _____ mix from renewable _____ help _____.

_____ me know the _____ of _____ energy sources for _____?

Give a breakdown of your _____ mix _____ sources so we _____ how _____ reduce _____?

If _____ split _____ energy mix _____ by _____ sources, you _____ have _____.

Is _____ possible _____ create a list _____ that includes _____ wind, _____ and/or _____ sources?

Is it _____ your energy mix _____ and/or biomass sources?
 _____ energy _____ renewable sources so that _____ can learn about _____ to reduce _____ effect.

Do you _____ ability _____ apportion _____ mix according _____ solar, _____ biomass sources?
 _____ possible to _____ power sources _____ wind, hydro and biomass?
 _____ transparency when conducting your _____ become _____ sustainable is to breakdown _____ energy mix _____.

_____ order _____ improve the _____ picture, you need to _____ distribution between solar/wind/hydro _____.

_____ are _____ renewable _____ split _____ for the _____ of transparency?

The _____ picture can _____ improved _____ sharing _____ energy _____ distribution _____ and _____.

Let _____ breakdown of your sources _____ so _____ we know _____ are doing to _____

Let us _____ the breakdown _____ your _____ energy _____ we know _____ sustainable _____.

Can you let _____ of the _____ energy _____?

_____ the _____ of your _____ mix so _____ the _____ can better _____ the effort _____ in _____ initiatives?

_____ breakdown of _____ mix _____ renewable _____ us to understand sustainable _____

_____ you able _____ list _____ your energy mix including _____ hydro, and/or _____?

_____ is the _____ mix _____ among solar, _____ hydro, _____ biomass _____?

_____ the sources of renewable energy split _____?

_____ tell _____ the _____ of your _____ for transparency

_____ energy source down _____ wind, solar, and _____ want _____ be _____.

_____ breakdown _____ mix from renewable sources so _____ can _____ you're trying _____ do.

_____ renewable _____ for transparency in the use of _____?

_____ be transparent _____ origin by breaking _____ into wind, _____ and _____.

How are _____ split for _____ use?

Through the energy mix _____ sustainable _____?

It _____ possible _____ energy mix according _____ solar, Wind, _____ sources.

In _____ represent _____ sustainable _____ each type of energy, we should _____ the energy mix _____ hydro

One _____ to _____ transparency _____ way you conduct your effort _____ more _____ is _____ your _____ mix by source.

_____ you _____ transparent with energy origin, _____ down to wind, _____ or _____.

_____ you can _____ down _____ energy _____ by _____ for _____ transparency?

Can _____ make a list of your energy _____ wind, _____?

Can _____ tell _____ your energy _____ for example _____ wind, _____ and _____?

_____ breakdown of your energy _____ from _____ so _____ we _____ understand _____ effort _____ sustainable efforts

Please _____ a _____ energy mix from _____ sources _____ that we can _____ your _____ in pursuit _____

I'd like to _____ how much of _____ goes to _____ whether _____ not _____ offer _____ transparent _____ of

Please give a breakdown _____ mix from renewable _____ so we _____ learn _____ to _____?

_____ us know _____ breakdown _____ your _____ energy so _____ what we're doing _____ our _____ stay sustainable

You _____ be _____ by breaking it _____ into wind, _____ and _____.

_____ encourage _____ in your effort to _____ breakdown of your _____ mix by source.

You _____ to _____ your energy _____ from _____ solar, _____ hydro or biomass.

_____ tell _____ breakdown _____ your energy mix by _____ so people can better _____ towards _____ of sustainable _____

One way _____ promote _____ in _____ is _____ your energy _____ source.

If you _____ to be _____ energy sources, breakdown _____ wind, _____ and _____.

Are _____ willing _____ tell me if your energy _____ a solar, wind, hydro _____?

_____ can _____ achieved by sharing the _____ distribution between _____ Biomass.

How do renewable _____ in _____ way we produce _____?

Share _____ with us for _____ sake of a _____?

_____ there any ways to _____ list of _____ including solar, wind, hydro, _____?

Is it _____ sustainable efforts to _____ energy mix?

You _____ split _____ energy _____ source for transparency.

For transparency _____ way that _____ energy, _____ are renewable _____ split?

_____ you give _____ the source _____ energy blend for transparency _____?

Is _____ split between _____ sources for _____?

Let _____ know _____ breakdown _____ your sources of _____.

_____ breakdown _____ your energy _____ for transparency?

Please _____ people know _____ energy _____ by source so they can _____ understand _____ effort and _____ development

What _____ the split between the _____ transparency?

_____ a _____ of _____ energy mix from _____ sources so _____ can _____ reduce _____ effects?

Is it possible _____ your _____ mix between _____ wind, _____ sources?

_____ breakdown of _____ energy sources _____ that _____ know the _____ of sustainable _____.

_____ possible to break down _____ mix by _____ more about _____ to make _____ planet sustainable.

Let us _____ renewable _____ sources so _____ can _____ efforts?

_____ can _____ it down _____ SOLAR, _____ if you _____ to be _____.

Provide _____ breakdown _____ your energy mix from _____ to _____.

If _____ be transparent about _____ origins, breakdown _____ wind, solar, _____ hydro.

How _____ renewable sources separated for _____ comes to _____?

_____ us _____ renewable _____ sources so we _____ take _____ towards _____ sustainable _____

Break _____ up _____ solar, _____ if _____ want to _____ transparent.

_____ possible to _____ energy mix by source _____ find out more _____ efforts _____ make _____ more _____.

_____ breakdown of your _____ from _____ sources _____ can _____ your effort in _____ of _____ more sustainable _____.

I _____ if _____ transparent _____ of how much renewable _____ you use.

Through _____ energy mix breakdown, _____ efforts _____?

_____ to promote transparency in the way sustainable _____ conducted _____ to breakdown _____ energy _____.

I _____ like to see the _____ energy _____ your renewable _____ sources.

_____ give _____ breakdown _____ energy mix from renewable _____

Please _____ the _____ of your energy mix by _____ so people _____ and progress _____ sustainable initiatives?

_____ if _____ could _____ between _____ sources like solar _____ wind for transparency?

Please _____ a _____ of your _____ mix _____ renewable sources _____.

Does _____ energy mix include _____ such as _____ wind, _____?

Do you have a _____ of _____ made _____ solar, _____ orbiomass?

_____ a breakdown of _____ mix _____ renewable sources _____ that we can _____ reduce the _____ effect

_____ do renewable sources split _____ transparency _____ the _____ that _____ energy?

_____ it possible _____ show how _____ comes _____ hydro _____ your energy?

_____ to _____ me about _____ energy _____ from either _____ wind, hydro _____?

Please tell _____ your _____ that people can better understand _____ effort _____ in sustainable initiatives.

I want to know _____ much of _____ use _____ to _____ energy, as well _____ or _____ you _____ of

_____ of the energy _____ from renewable _____ would _____ us to _____ our _____ in the fight

Please _____ of the energy mix _____ renewable sources so we _____ reduce _____ effect

Let us _____ breakdown of the energy _____ from _____ so that _____ can _____ easily _____ efforts _____ the _____.

Let _____ know the breakdown _____ distribution _____ your renewable _____.

_____ tell _____ the source _____ of _____ blend _____ transparency _____ green initiatives?

Please let us know _____ energy mix _____ promote _____ in _____ efforts?

Please _____ a breakdown _____ energy mix _____ sources so we _____ you in _____ pursuit _____.

Please give _____ breakdown _____ your _____ renewable sources so _____ can understand _____ effort in _____ sustainable world.

Please _____ of _____ electricity usage from sources _____ as _____ wind, _____ bioenergy.

If _____ could split _____ energy _____ up by _____ sources, _____ transparent.

_____ possible to break down energy's _____ solar or _____?

_____ like to know _____ you _____ a transparent breakdown of _____ your _____ goes _____ renewable _____.
 Is _____ mix between solar, Wind, hydro _____ biomass sources?
 I would like to know the composition of _____ power _____ so _____ practices.
 _____ will _____ in _____ pursuit _____ a more _____ you _____ a breakdown of _____ energy mix from renewable _____.
 We can _____ your _____ more _____ world _____ you give us _____ of your _____ energy mix.
 Can you _____ a breakdown _____ comes _____ transparent sustainable efforts?
 _____ me know the breakdown of _____ sustainable _____ your solar, _____ hydro _____.
 _____ us a breakdown of _____ mix _____ sources so we can _____ you _____ doing.
 _____ way to _____ transparency _____ your efforts _____ more sustainable is _____ your energy mix _____.
 Is it possible _____ show how much _____ wind/Solar/ hydro _____ energy?
 Is it possible to split the energy _____ for transparency?
 Is _____ you can break down _____ energy _____ by source, _____?
 _____ know the breakdown of _____ sources of _____ so that _____ know what _____ stay _____.
 Let _____ know which _____ energy _____ use for _____
 _____ sources like solar, wind, hydro _____ breakdown _____ energy mix?
 _____ be transparent _____ of energy, _____ down _____ wind, solar _____ hydro.
 Is _____ list _____ your energy mix _____ solar, wind, _____ and/or biomass _____?
 renewable _____ for transparency _____ way that we _____
 Break it down to _____ hydro _____ want to _____ transparent _____ energy _____.
 How _____ split for transparency _____ sustainable _____?
 _____ order to improve the _____ to share _____ mix distribution between solar, _____ biomass.
 If _____ want to _____ transparent _____ break _____ down: SOLAR, wind _____.
 Will you give me _____ your _____ sources _____ sustainable _____?
 _____ renewable _____ for transparency in how _____ use _____?
 _____ of your sources of energy _____ understand _____ efforts.
 _____ breakdown of your _____ of energy to _____ we _____ facts about our sustainable _____.
 _____ in _____ way _____ you _____ energy, _____ are renewable sources split?
 Can you _____ a _____ your _____ that includes _____ hydro and biomass _____?
 Let _____ know the _____ of _____ can learn _____ about our efforts to stay _____.
 _____ is _____ to divide _____ energy _____ according to solar, Wind, hydro and/or _____ sources?
 _____ have _____ breakdown of your energy _____ by _____ that transparency _____?
 Does _____ know if you _____ down _____ mix by source _____?
 Break energy _____ wind, _____ solar if _____ want _____ be _____.
 Can _____ of your power _____ solar, _____ hydro and biomass?
 You _____ transparent _____ energy _____ by breaking it _____ wind, _____ hydro.
 _____ us _____ breakdown _____ your sources _____ so we _____ what _____ are doing in _____ efforts to _____
 Do you _____ of _____ mix _____ source so that we can _____ practices?
 Break energy _____ hydro if _____ want _____ be transparent about _____.
 _____ have a breakdown of your energy mix using _____ hydro, _____?
 Is _____ to _____ the _____ mix by _____ solar to _____ hydro to _____ fuels?
 _____ your energy _____ by source so that _____ people _____ better _____ the _____ and the _____ towards the goals
 _____ sustainable _____.
 I _____ to _____ if you offer a _____ breakdown of how _____ to _____ sources.
 For _____ in _____ you produce _____ renewable _____ split?
 _____ to _____ how _____ the _____ you use goes to _____ and whether or not _____ transparent _____ of it
 _____ transparency, _____ you split _____ energy mix _____ source like _____ wind, hydro and _____ sources?
 _____ about _____ breakdown of _____ sources such as _____ wind, hydro _____ the _____?
 _____ can _____ your effort _____ pursuing transparency _____ efforts if _____ us _____ breakdown of your energy _____ sources.
 _____ a way _____ energy _____ solar, wind, hydro and/or biomass sources?
 One _____ to promote transparency in the _____ are _____ to _____ more _____ a breakdown of your energy

mix _____

_____ hydro and other renewable sources _____ be _____ for transparency.

Do _____ have a _____ of _____ energy _____ as renewable energy?

_____ understand your effort in _____ pursuit of _____ in sustainable _____ of _____ energy mix from _____.

Tell the breakdown of _____ energy mix by source so _____ better _____ made _____ sustainable _____.

_____ think it's _____ to _____ energy _____ according to _____ hydro _____ Biomass sources?

If _____ want to _____ transparent about _____ them _____ solar, and hydro.

_____ the energy _____ breakdown, _____ be transparent?

_____ us know which types _____ energy _____ use _____ what they _____ in initiatives _____

_____ a _____ of _____ renewable sources so _____ we can learn _____ to reduce greenhouse _____

Please _____ about _____ energy mix, which _____ renewable _____

Is it _____ to split _____ energy mix _____ sources?

The origin _____ energy should be _____ transparency, solar _____.

_____ order to better sustainable practices, share the _____ between _____.

_____ you _____ breakdown of your _____ with sources such _____ wind, hydro, _____?

Do _____ use _____ such as solar, _____ or bio-mass _____ mix?

_____ energy's origin for _____ solar _____ wind

How _____ your _____ among solar, _____ hydro _____ biomass sources?

Do you _____ breakdown _____ energy mix _____ renewable _____ energy _____ to _____ it transparent and sustainable?

Please tell the breakdown of your energy _____ so the people _____ effort _____ sustainable _____

For more transparent sustainable _____ can _____ tell _____ where your _____ comes from and _____ comes _____ has _____

What _____ of renewable sources for _____ in the _____ produce _____?

_____ want to _____ about _____ mix you _____ either solar, wind, hydro _____.

Do you _____ can break _____ energy _____ by _____ for _____?

Please _____ see the _____ the _____ energy distribution _____ wind, and hydro _____.

_____ possible _____ list _____ your energy mix that _____ solar, wind, _____ and/or _____ sources?

_____ you give _____ a breakdown _____ energy _____ so I _____ see _____ you _____?

Is it _____ to _____ energy mix by _____ wind, hydro, _____?

Break _____ into renewable _____ want to be _____ it.

To guarantee _____ efforts, _____ you show _____ much _____ your energy _____ sources?

To _____ about _____ efforts to _____ the _____ it's _____ to break the energy _____ by source.

_____ have a _____ energy _____ both _____ and _____ sources to make it transparent and sustainable?

Shouldn't sustainable efforts be transparent _____?

_____ there _____ apportion your _____ mix _____ to _____ Wind, hydro and/or _____?

Tell us _____ sources such _____ Solar, wind, hydro, and biomass.

_____ to _____ during _____ effort to _____ more sustainable is to _____ energy mix _____ source.

Do you _____ a _____ so _____ we can better understand _____ practices?

One _____ transparency _____ your effort to _____ more _____ breakdown your energy mix _____ source.

Break it _____ and hydro if _____ wish to _____.

How do _____ up for transparency _____ how _____ energy?

_____ energy into _____ and _____ if you _____ to be _____.

When _____ comes to transparency _____ way that you _____ energy, _____ renewable _____?

To make _____ please give _____ of your _____ mix from _____.

_____ give a breakdown _____ renewable _____ of _____

Is it possible to _____ your _____ by solar, _____ and _____?

_____ possible to _____ how _____ comes from various wind/Solar/ _____ sources _____?

_____ solar, wind, _____ and other renewable _____ split up _____ transparency?

_____ split for _____ the way they produce your _____?

Can _____ us a _____ where your _____ from, for more _____?

_____ sources split up for transparency in _____?

How _____ for _____ in how we use _____?

_____ provide _____ of _____ hydro, and biomass _____ your _____ mix

One _____ to _____ in the way _____ your _____ become _____ sustainable _____ break _____ energy mix by source.

Share _____ distribution between renewable energy _____ order _____ better represent _____ nature of each _____ mix.

Tell _____ about your energy _____ hydro, _____ biomass?

_____ order _____ sustainable _____ share _____ energy mix _____ between solar/wind/Hydro _____ biomass.

Does _____ transparency through _____ mix breakdown?

_____ if _____ and other renewable sources _____ be _____ for transparency?

_____ us know _____ we use for transparency

You can _____ transparency in _____ giving a _____ of your _____.

_____ a _____ energy _____ share _____ by _____ solar, wind, and biomass?

Please _____ of your _____ mix by _____ order to promote _____ in _____?

Provide _____ breakdown _____ your electricity _____ from sources _____ hydro, _____ bioenergy.

_____ a breakdown of your _____ mix from renewable sources so we can _____ your _____

It _____ possible _____ break down _____ energy _____ by _____ order to _____ out more about _____ efforts _____ the _____ better place

_____ understand your _____ in the _____ transparency in _____ efforts if _____ get a _____ energy mix from _____ sources.

_____ it _____ solar, _____ hydro and/or _____ in your energy mix?

_____ of the _____ renewable sources _____ help us _____ sustainable efforts

If _____ to be transparent about energy origin, break _____

Will _____ be _____ to _____ your energy mix _____?

How _____ sources _____ for the _____ of _____?

Tell _____ of your _____ mix by source so _____ people _____ better _____ the _____ being _____ sustainable _____

If _____ to _____ about energy origin, _____ can _____ it down to _____ solar, _____.

_____ we can _____ by _____ your renewable energy _____?

_____ you want _____ transparent, break _____ down _____ wind, solar _____

One way _____ promote _____ in _____ you _____ conducting your effort to _____ your _____ mix by source.

_____ the _____ your energy _____ so people _____ the effort and progress towards sustainable living.

Do _____ have _____ to _____ your energy _____ wind, _____ and/or biomass sources?

_____ breakdown _____ mix _____ renewable sources so _____ know what you're trying to _____.

_____ into _____ of _____ you want to be transparent.

Give _____ your energy mix _____ sources _____ transparency.

_____ the pursuit of _____ in _____ please give _____ breakdown of _____ renewable sources

We want to _____ a _____ so we need a _____ of your _____ mix from _____ sources.

_____ way to promote transparency _____ the way you _____ sustainable _____ mix by source

One way to encourage _____ in _____ effort _____ become more _____ your _____ mix _____ source.

The _____ the _____ from _____ us to more _____ evaluate our efforts on _____ issue.

Can _____ list your energy mix _____ wind, _____ sources?

_____ way to _____ in _____ effort to _____ more sustainable is with _____ breakdown _____ your energy _____.

Break _____ down _____ wind, solar, _____ hydro _____ be more _____.

Provide _____ of _____ energy mix _____ sources _____ renewable _____ energy

Disclosure _____ the _____ of _____ energy mix from _____ allow _____ to understand _____.

_____ be _____ of our _____ by source _____ order to _____ what's going on in our _____ the environment

Is it _____ for _____ efforts _____ transparent by _____ breakdown?

_____ transparent _____ origins, _____ down into _____ solar, and hydro.

Do _____ have the _____ a list _____ your energy _____ including _____ hydro, _____ biomass sources?

_____ you _____ breakdown of _____ mix using solar, wind and _____?

Tell _____ about the energy _____ you _____ either _____ hydro _____?

_____ renewable _____ for _____ in the _____ that _____ produce energy?

_____ energy sources with us _____ that we can take _____ a _____?

How _____ sources split for transparency _____ the way we _____?

Please share the breakdown _____ energy mix _____ source to _____ in _____ to _____.

How are renewable _____ transparency _____ way they produce _____?

Do _____ know _____ it is possible to divide your _____ according _____ wind, hydro _____?

Please give a breakdown _____ your _____ from _____

_____ need _____ breakdown _____ mix _____ sources _____ we can understand your efforts in the pursuit _____.

Do _____ a breakdown of your _____ using _____ and conventionally-sourced sources _____ ensure _____ it's _____ and _____?

_____ it possible to _____ for solar, _____ and _____ energy mix?

_____ is possible to break _____ energy _____ by source to find _____ to make the planet _____.

Provide _____ of your _____ from renewable sources _____ we _____ understand _____ trying to achieve.

You _____ down energy's _____ solar or wind.

We _____ transparency in _____ efforts if you give _____ from renewable sources.

It's possible to _____ down the energy mix by _____ you _____ find out more _____ the efforts _____

Tell _____ about your _____ sources to ensure _____.

Is _____ to reveal _____ power mix _____ wind, hydropower, _____?

If you want _____ be _____ break _____ solar, wind and _____.

_____ the _____ of your energy mix by _____ understand _____ effort being made in _____ initiatives

_____ you have a breakdown of _____ mix using both _____ it is _____ and sustainable?

_____ possible to apportion your _____ according to _____ hydro _____ sources.

You _____ promote transparency in your _____ become more sustainable _____ breakdown _____ energy _____.

_____ you want _____ transparent about energy _____ break it _____ or hydro.

_____ it _____ or hydro in order _____ be more _____.

_____ you show _____ power _____ by source, from solar to _____ hydro _____?

When _____ comes _____ the way _____ produce energy, how _____ renewable _____ split?

One _____ promote transparency _____ effort to _____ more sustainable _____ breakdown of _____ mix by source.

_____ it possible _____ break _____ the _____ makeup _____ energy blend _____ green initiatives?

_____ you offer me _____ of _____ energy _____ for _____?

_____ give a breakdown of your _____ from renewable sources _____ that _____ can _____ pursuit of _____ sustainable _____.

Tell _____ of your energy _____ source _____ the people can better _____ being made _____ sustainable _____

_____ need _____ breakdown of your energy _____ renewable _____ so _____ know _____ to accomplish.

Is there _____ way _____ your energy _____ hydro and/or biomass sources?

Let _____ the _____ sustainable energy distribution

_____ way _____ promote transparency _____ your effort _____ more _____ to breakdown your energy _____ by _____

If _____ transparent _____ energy _____ you could break it down into _____.

Provide _____ breakdown _____ from _____ such as solar, wind, _____ and _____.

_____ about the _____ of energy, break _____ down _____ solar, _____ hydro.

_____ would be _____ reveal _____ breakdown of the energy _____ sources so _____ we can more easily _____ on the _____

_____ can _____ down energy's origin _____ transparency, _____ or _____.

A way _____ promote _____ in the way you conduct your effort _____ become _____ is _____ energy _____.

_____ an energy _____ breakdown _____ efforts be _____?

The _____ of the _____ mix _____ would be _____ understand _____ efforts.

_____ you know _____ to _____ your _____ solar, Wind, _____ and/or Biomass sources?

The breakdown _____ the energy mix from _____ sources _____ let _____.

_____ it _____ into SOLAR, wind, _____ want to _____ transparent.

In _____ promote _____ in sustainable _____ breakdown _____ your energy _____ by source!

_____ you give _____ a _____ sources for transparency?

Let me know _____ breakdown _____ the _____ distribution _____ your _____

Provide _____ your _____ mix from _____ so _____ understand your _____ the pursuit of a more _____ world.

Please _____ us _____ breakdown _____ from renewable sources

How _____ renewable sources _____ up _____?

_____ breakdown of _____ mix _____ to promote transparency _____ the _____ to be more sustainable.

_____ need to understand your _____ pursuit of _____ more _____ world _____ we _____ get _____ of your _____ mix from _____.

_____ you _____ power _____ by solar, wind, _____ and biomass?

_____ want to be transparent _____ energy origins, _____ into _____ and _____.

_____ can understand your _____ the pursuit _____ more sustainable _____ know _____ breakdown of _____ energy mix _____ sources.

_____ to _____ if you _____ a transparent _____ the amount _____ energy you _____.

_____ list of _____ sources be made using _____ and biomass?

Can you _____ makeup of your energy blend _____ in _____?

_____ way to promote _____ in the _____ conducting _____ become more sustainable is _____ energy mix _____ source

Break energy _____ wind, solar _____ hydro _____ you _____ to _____ it.

In _____ the sustainable nature of _____ of _____ mix, _____ share the energy mix distribution between _____ wind

_____ you _____ a list of your _____ mix _____ includes solar, wind, _____?

I want _____ if _____ is possible _____ apportion _____ according _____ solar, _____ hydro and/or _____ sources.

_____ want to guarantee _____ sustainable efforts, _____ can you show _____ much _____ from renewable _____?

Do _____ have a _____ of your energy _____ sources _____ wind, _____ and _____?

Do you have _____ of _____ mix using both renewable _____ to _____ transparent _____ sustainable?

_____ a _____ mix from _____ sources so _____ your effort in the pursuit of _____ sustainable world

Do _____ think _____ break _____ down for transparency, _____ or _____?

Do _____ if it's possible to apportion your _____ mix based _____ and/or _____?

Is _____ to show _____ from wind/Solar/ hydro sources _____ your _____?

Do _____ if _____ is possible _____ apportion _____ to solar, wind, hydro and/or biomass _____?

Break _____ into solar, _____ can be transparent.

Give _____ of _____ energy mix _____ renewable _____ help transparency _____ efforts.

_____ us _____ of your energy mix _____ sources _____ we can _____ your _____.

One _____ to _____ way you're conducting _____ effort to become more sustainable is _____ your energy _____.

Can _____ a _____ of your _____ wind, _____ and/or Biomass sources?

In _____ the _____ picture, we _____ the energy mix _____ solar/wind/hydro _____ biomass.

Let us _____ breakdown of _____ energy _____ that we are _____ of the _____ in our _____.

_____ the breakdown of your sources of energy _____ know the facts _____ sustainable _____.

Please _____ mix from renewable sources _____ that we _____ learn _____ to reduce greenhouse _____.

_____ know _____ breakdown of your sources _____ energy _____ we can _____ efforts.

_____ SOLAR, wind, _____ if you want to be _____ about energy _____.

_____ way _____ promote _____ in how you conduct sustainable _____ by breaking _____ energy _____.

Give a breakdown of _____ so _____ can understand _____ efforts in _____ pursuit _____ transparency

If you _____ transparent _____ energy _____ breakdown them into wind, _____ and _____.

_____ understand the effort _____ the progress _____ goals of _____ development, please tell the _____ energy mix _____

To _____ to _____ efforts _____ make _____ more sustainable, it is possible _____ the energy mix _____ by source

Do _____ know if it _____ possible _____ apportion your _____ mix according to _____ and/or _____?

_____ an _____ mix _____ is _____ for sustainable _____ to _____ transparent?

Do _____ a _____ of your energy _____ using _____ solar, wind?

_____ a _____ of your energy _____ us _____ understand sustainable practices?

_____ you give _____ breakdown of your _____ more _____?

Please tell the breakdown of your energy _____ by _____ so _____ the _____ better _____ the _____ the goals _____

_____ us details of _____ mix, _____ includes _____ such as Solar, _____ hydro, _____.
 _____ more transparent _____ you _____ me where the energy _____ from _____ where _____ comes from?
 _____ you _____ to make _____ list _____ your _____ including solar, _____ and/or biomass?
 _____ to _____ transparent about _____ origin, _____ it down: solar _____ wind
 Through _____ mix breakdown, _____ efforts _____ transparent?
 Break _____ energy into _____ wind, _____ hydro _____ to _____ transparent.
 _____ into solar, wind and _____ so that you _____.
 Give _____ your energy _____ from renewable sources _____ that we _____ your effort in pursuit _____.
 _____ wind, hydro and _____ can _____ up for transparency.
 _____ it _____ split your energy _____ to _____ wind, hydro _____ sources?
 Can _____ mix be _____ to wind to hydro to bio _____?
 Break _____ down to wind, _____ or _____ if you _____.
 _____ help with transparency in green _____ please _____ your _____ mix _____ sources.
 _____ make a list _____ including solar, wind, hydro, _____ Biomass?
 _____ the breakdown _____ energy mix by _____ so _____ people can better _____ how _____ are _____ made?
 _____ breakdown of your energy mix _____ sources _____ we _____ your _____ in _____ of a more sustainable _____
 For transparency, _____ sources _____?
 Give _____ your _____ which includes renewable energy
 Can _____ make _____ of power _____ using _____ wind, hydro _____?
 I would like _____ know about _____ of the _____ sources so _____ in sustainable _____.
 renewable _____ split _____ transparency _____ how _____ produce _____
 If _____ want _____ origin, _____ breakdown it _____ wind, solar, and hydro.
 _____ breakdown _____ your energy sources for transparency insustainability?
 Let _____ the _____ energy _____ we are aware of our efforts to stay _____.
 Can _____ of _____ include solar, wind, _____ biomass sources?
 _____ more _____ sustainable efforts, _____ you _____ me where your renewable _____?
 _____ know _____ energy sources to take _____ towards a sustainable _____?
 _____ you split your energy _____ solar, _____ bioMass sources?
 Break _____ solar, wind, _____ hydro if you want _____.
 Can _____ of your _____ sources _____ made _____ solar, _____ and biomass?
 A _____ from _____ allow us to understand sustainable efforts.
 _____ you want a _____ energy _____ by _____ solar, wind and biomass.
 _____ you give _____ breakdown _____ sources _____ energy _____ transparency?
 We _____ a _____ of your _____ mix from _____ sources to _____ your _____ in the _____.
 _____ is _____ about how renewable _____ are split _____.
 _____ give a _____ energy mix _____ renewable sources so that we can _____ in the _____ a more _____.
 Do you _____ possible _____ your _____ mix _____ solar, _____ hydro _____ biomass sources?
 Tell _____ energy mix by source _____ the people can better _____ efforts _____ made _____ initiatives.
 Please _____ breakdown of _____ energy mix from _____ we can understand your _____ in _____ more sustainable _____.
 Let us know the _____ of your _____ energy _____ know _____ facts _____.
 Will _____ my energy _____ is _____ by _____ solar, wind, hydro _____ source?
 We _____ more _____ evaluate our efforts _____ the _____ of the energy mix from renewable _____
 _____ split for _____ way that they _____ energy
 _____ us know the breakdown _____ of _____ that we _____ understand our efforts _____ stay _____.
 _____ are _____ split for _____?
 _____ can _____ the _____ mix _____ by renewable _____ for _____.
 One _____ to _____ transparency in _____ practices _____ breakdown energy mix _____.
 _____ to _____ me about your energy _____ either _____ wind, hydro, _____?
 _____ to know _____ you _____ breakdown of the _____ of _____ that goes to _____ sources.
 Please give _____ your _____ mix from _____ sources _____ we can understand your effort _____ pursuit _____

more sustainable ____.

How ____ renewable sources split ____ transparency in ____ they ____?

____ the breakdown ____ energy ____ by source ____ promote ____ in sustainable efforts.

____ renewable ____ split ____ when it comes ____ energy use?

____ provide a ____ your ____ sources such as ____ sources.

In order to ____ the ____ nature ____ each type of ____ mix, ____ should ____ the energy ____

Break it into ____ sources ____ want ____ about it.

Share ____ energy mix ____ to better ____ the sustainable ____ of each type ____ energy mix

____ a ____ your energy mix ____ so ____ can understand ____ effort in pursuit ____ transparency.

____ can understand ____ in pursuing a more sustainable world if ____ us ____ breakdown ____ from renewable ____.

____ know ____ the energy ____ use goes to renewable ____ and whether ____ give a transparent ____.

In ____ environmental picture ____ mix distribution between ____ hydro and biomass.

How ____ origins for ____ solar or wind?

Let us know the breakdown ____ sources ____ so ____ sustainable ____.

How are ____ split ____ transparency ____ it ____ to ____ energy?

Break ____ origin down ____ solar, ____ if you ____ to ____ transparent.

____ you ____ a ____ of your ____ to make ____ transparent and ____?

What is ____ of the ____ sources ____ transparency?

____ us know ____ your renewable energy ____ take ____ towards ____ sustainable future?

____ you ____ such as solar, wind, ____ and bio-mass ____ mix?

____ breakdown of ____ from renewable sources ____ can learn ____ to reduce ____ effect?

____ way to promote ____ in ____ way you ____ practices ____ the ____ of your ____ by source.

____ you would ____ be ____ about energy ____ it down into ____ hydro.

Do ____ have ____ breakdown of ____ a ____ renewable energy sources?

Do you think ____ break ____ your ____ source for ____?

Can you ____ me ____ makeup ____ transparency ____ initiatives?

Can ____ of your energy ____ solar, wind, ____ biomass sources?

Could we show ____ by source, from ____ to hydro ____ fuels?

____ breakdown of your ____ mix so ____ better understand ____ being made ____ sustainable initiatives.

Break it down into ____ solar or ____ be ____.

____ you ____ a breakdown of ____ energy mix ____ can easily understand ____?

Do ____ have ____ of ____ energy mix ____ solar, wind, ____ bio-mass?

Is it ____ to ____ a ____ of ____ including ____ hydro, and/or ____?

It ____ be ____ to know ____ breakdown ____ renewable sources to ____ sustainable efforts.

____ can understand ____ pursuit of a ____ if we have ____ breakdown of your ____ mix.

How do renewable sources ____ up ____ energy use?

____ want ____ be ____ the origin ____ energy, break ____ down ____ wind, ____ and hydro.

____ breakdown of your ____ mix from ____ can ____ you are trying to do.

How ____ breaking down ____ source for ____ wind, ____?

____ provide a breakdown ____ energy comes ____ in ____ to transparency?

Can you show how ____ of ____ energy ____ hydro sources?

Will ____ me ____ breakdown ____ your energy ____ for ____?

It is ____ break ____ the energy mix ____ so that you ____ find ____ more about ____ the ____ a better ____

How ____ mix ____ solar, wind, hydro, and/or bioMass ____?

Tell ____ renewable energy sources ____ we can take steps ____ future?

____ possible ____ your energy mix to solar, wind, ____ sources?

____ a ____ divide your ____ mix according ____ solar, Wind, hydro ____ biomass ____?

____ give a ____ of your ____ mix ____ so we ____ learn about ____ to ____ greenhouse effect?

Do ____ to divide ____ energy mix ____ to solar, Wind, ____ sources?

We want to understand your ____ in the ____ in sustainable efforts ____ have ____ of ____ mix ____

sources.

Make _____ we _____ the _____ sustainable efforts if _____ let us know _____ of _____ of _____.

_____ share your _____ sources _____ ensure sustainable efforts?

_____ it possible _____ how _____ from wind/solar/ hydro _____ within _____ energy?

If _____ understand _____ in _____ a _____ sustainable world, _____ give us a _____ of your energy _____ renewable sources.

_____ chance you can _____ down _____ by source _____ transparency?

_____ it _____ to _____ the power mix by _____ solar to _____ to _____ fuel?

One way _____ promote _____ in how _____ conduct _____ to _____ more _____ to breakdown the _____ by _____.

_____ know if it's _____ apportion your energy _____ according to _____ hydro _____ biomass _____?

_____ want _____ guarantee _____ on sustainable efforts, can _____ show _____ comes from the _____ wind/Solar/ hydro _____ within _____

To _____ breakdown them into wind, _____ and hydro.

Please tell the breakdown of _____ energy _____ by _____ people understand _____ and progress towards _____ of _____

Share _____ energy sources with _____ for _____?

If you _____ sustainable energy mix, _____ solar, _____ and biomass.

Give us a breakdown of _____ energy _____ from _____ so _____ understand _____ pursuit of _____

If you share your renewable _____ sources _____ us _____ towards a _____?

_____ to _____ transparency _____ your _____ become _____ is _____ breakdown your energy mix by source.

_____ hydro if you want to be transparent.

_____ the sake _____ transparency, _____ you _____ a breakdown of _____?

Do you _____ and conventionally-sourced energy sources to _____ make it _____ sustainable?

_____ of your _____ mix by source _____ make it _____?

I _____ like to know _____ of the _____ so that I know _____ transparency _____.

_____ sources _____ for transparency?

One way _____ in _____ sustainable practices is _____ breakdown _____ by source.

Can _____ give _____ a _____ your energy _____ for _____?

I _____ know _____ of _____ energy sources for transparency in _____.

_____ transparency _____ living will _____ give me the _____ of _____ energy _____?

We _____ of your energy _____ from renewable _____ that _____ your effort.

_____ it down to _____ or hydro _____ you _____ transparent.

_____ possible to provide _____ breakdown of where your _____ from _____ transparency sustainability _____?

_____ want _____ know whether you offer a _____ of how _____ the _____ use goes _____ energy.

Give _____ energy _____ renewable sources _____ that we _____ understand what you're trying _____ accomplish.

One _____ to increase transparency _____ breakdown your _____ by _____

We would _____ sustainable efforts if _____ revealed the _____ of the _____ from renewable _____.

Do _____ use renewable and _____ sources _____ your energy mix _____ sure it's transparent _____?

Please tell the _____ of your _____ that the people can _____ understand _____ being made _____ initiatives?

_____ want to _____ transparent _____ origins of energy, break it _____ into _____ hydro.

_____ way _____ transparency in sustainable practices _____ your energy _____ sources.

To make _____ to find out about the _____ the planet a _____ possible _____ down _____ by _____

_____ the energy mix from _____ would _____ ideal to _____ efforts.

_____ not _____ a transparent _____ of how much _____ energy you use goes _____ is _____ I _____ like to _____.

_____ you _____ of your energy sources for _____?

_____ energy into wind, _____ hydro _____ you want _____ be _____.

It's _____ break _____ the energy _____ in _____ to find out more _____ the _____ to make _____ planet _____ better _____

_____ know the _____ of _____ for transparency in green _____?

What _____ wind, _____ other renewable sources _____ for transparency?

_____ tell me the _____ makeup of _____ energy _____ for _____?

Can sustainable _____ energy mix breakdown?

____ order to ____ picture, ____ the energy mix distribution between ____ wind, _____.
 ____ breakdown of the source ____ your energy ____ transparent efforts?
 For ____ efforts, can you tell ____ energy ____ from and ____ it ____ from with ____ or ____?
 ____ understand ____ if ____ the breakdown ____ energy mix from renewable sources
 ____ make it easier ____ find out ____ efforts to ____ better, it's possible to ____ down the _____.
 Which renewable ____ in ____ we produce energy?
 I want ____ of ____ use goes to ____ energy, and whether ____ not you offer ____ of that ____
 ____ better represent the ____ nature of ____ type ____ the ____ distribution between solar, ____ and hydro.
 ____ breaking down ____ for transparency, ____ wind, and ____?
 I'd like ____ know ____ much ____ the ____ use goes ____ renewable energy, ____ whether ____ not ____ is ____ transparent
 ____ you ____ how ____ from various wind/solar/ ____ your energy?
 ____ energy's origin ____ transparency: Solar? ____?
 Is it ____ make a ____ of ____ power ____ renewable ____?
 Is it possible ____ ratio ____ sustainable sources ____ power ____?
 ____ possible ____ for ____ hydro and/or biomass sources?
 ____ renewable ____ split for transparency ____ they produce energy in ____?
 Share the ____ of ____ energy ____ by ____ promote ____
 ____ give ____ breakdown of ____ mix ____ renewable ____ so we ____ understand ____ effort in pursuing ____
 I ____ to ____ whether or ____ you have ____ transparent ____ of how much of ____ renewable ____.
 Do ____ have a breakdown of ____ energy ____ so that ____?
 ____ split your energy mix ____ solar, wind, ____ sources?
 ____ would like ____ how ____ your energy goes ____ renewable ____ whether or not ____ a transparent
 breakdown _____.
 How ____ your energy ____ between solar, wind, ____ and ____?
 ____ could split ____ energy mix between ____ and other ____ transparency.
 Can ____ your energy mix ____ solar, ____ hydro ____ biomass sources?
 Can you ____ a list ____ your power sources ____ and ____?
 ____ you ____ the ____ your ____ blend's makeup for ____ in ____ initiatives?
 ____ it possible ____ your ____ Wind, hydro and/or biomass sources?
 Do you think you could break ____ energy ____ transparency?
 In ____ better the environmental picture, we ____ to share the ____ mix _____.
 ____ sustainable energy ____ share it ____ wind, and biomass?
 ____ both renewable and conventionally-sourced energy ____ to breakdown your energy ____ it's ____?
 ____ we be ____ of ____ energy ____ source so ____ can ____ out ____ happening ____ our work ____ make the
 environment more
 Help transparency in ____ giving a breakdown ____ your energy _____.
 ____ your renewable energy ____ so that we ____ towards a ____
 Break ____ solar, ____ hydro if you want to ____ about ____.
 To ____ sustainable ____ can ____ show how ____ comes ____ renewable sources?
 Can you ____ if it is ____ to ____ your ____ mix according ____ solar, Wind, ____?
 ____ you use renewable ____ sources ____ breakdown ____ energy ____ so that it is transparent ____?
 Will ____ provide the ____ of ____ energy ____ transparency?
 How ____ energy ____ between solar, wind, ____ biomass sources?
 ____ would like ____ the ____ of your ____ for ____ sustainable practices.
 I want ____ know how ____ mix works to ____
 Is ____ possible ____ your energy ____ to ____ and/or Biomass sources?
 ____ out ____ the efforts to ____ the ____ sustainable, you can break down ____ mix _____.
 A ____ of the energy mix from ____ would ____ easily ____ our ____.
 Can ____ show how ____ different renewable ____ within ____ energy?
 Please ____ of your electricity usage from ____

____ it ____ that ____ be transparent ____ energy mix breakdown?
 ____ can understand your effort in ____ pursuit ____ transparency ____ you ____ your energy mix ____ renewable ____.
 ____ way to ____ transparency is ____ mix by source
 I ____ like to ____ where my ____ for ____ energy, ____ or a Biomass source.
 Can ____ of your ____ be made ____ solar, wind, hydro ____?
 ____ the ____ of transparency ____ sustainable ____ we need a ____ mix from ____ sources.
 ____ it ____ to transparency in ____ living, ____ are ____ sources ____?
 Please ____ breakdown ____ your ____ to encourage transparency ____ sustainable efforts?
 If ____ want to be transparent about energy ____ breakdown ____ into ____.
 ____ transparency ____ the fight for ____ environment, can you ____ the ____ of ____?
 I ____ to know ____ nature of your energy ____ transparency in ____.
 breakdown ____ energy into ____ solar ____ you want ____ transparent.
 How ____ divide your energy ____ among ____ hydro, and ____?
 How about splitting ____ energy ____ solar, ____ hydro and ____ renewable sources for ____?
 Is it possible ____ sustainable ____ can ____ through ____ breakdown?
 Give ____ your ____ mix from renewable sources so ____ can learn ____ to ____ greenhouse effect?
 ____ a breakdown of ____ electricity ____ wind, hydro, and bioenergy.
 If you ____ transparent ____ energy source, ____ it down into ____ and ____.
 ____ it into ____ sources if you ____ to ____.
 Can you ____ me ____ you have a breakdown ____ mix ____?
 The source makeup ____ blend could be broken down ____.
 ____ about a breakdown ____ sources of ____ transparency?
 ____ tell me ____ sources ____ sustainable energy mixture?
 In order ____ represent the ____ nature ____ each ____ mix, we should share ____ mix distribution ____ solar/wind/ ____
 Do ____ know ____ possible ____ divide your ____ mix ____ solar, Wind, ____ Biomass sources?
 Is it ____ your ____ mix according ____ wind, hydro and/or ____?
 Is ____ that sustainable ____ are more ____ through ____ breakdown?
 ____ promote ____ in sustainable ____ the breakdown ____ your ____ mix by ____?
 ____ energy ____ divided among ____ sources for transparency?
 ____ want ____ be ____ origins you should breakdown ____ into ____ solar, ____ hydro.
 One way ____ to become ____ is by ____ breakdown of your energy mix by ____.
 ____ be ____ to ____ more transparent about energy origin.
 ____ you tell me ____ of ____ of energy ____ transparency?
 Let ____ know the ____ of ____ sources ____ we ____ know what we're doing ____ sustainable
 Let ____ the ____ of your ____ so ____ can ____ sustainable efforts.
 In ____ to better ____ and progress being made in sustainable initiatives, ____ the ____ your ____ by ____
 ____ you ____ me ____ of your ____ sources ____ sustainable living?
 Are you ____ to apportion ____ energy ____ to solar, Wind, ____?
 ____ great ____ reveal ____ breakdown of ____ energy mix from renewable sources so ____ evaluate ____ efforts.
 ____ give a breakdown of ____ mix ____ renewable sources ____ can learn ____ reduce the ____?
 ____ need to ____ your efforts in the ____ sustainable ____ if ____ a breakdown ____ energy mix from renewable ____.
 ____ your ____ with ____ to renewable energy sources
 ____ you able to ____ a breakdown ____ your ____ sources ____?
 Is there a ____ mix between ____ hydro and biomass ____?
 ____ an ____ breakdown would sustainable efforts ____?
 Break ____ wind, ____ hydro if you want to ____ transparent ____.
 We would like to ____ effort ____ sustainable ____ if you give us a breakdown ____ your ____ from renewable ____

How _____ we _____ certain _____ our _____ by source in order _____ out _____ work to make _____ environment more sustainable

_____ into solar, wind, _____ hydro _____ want to _____ transparent.

_____ you tell _____ I _____ my _____ mix according to _____ Wind, hydro _____ biomass _____?

_____ show how much comes _____ renewable _____ within _____ energy?

Any _____ you can _____ by source _____ greater transparency?

_____ know the breakdown _____ your _____ energy _____ aware of the facts _____ sustainable efforts.

_____ your power _____ revealed by _____ wind, _____ or _____?

_____ effort _____ the pursuit _____ in _____ efforts, please give _____ breakdown of your energy _____ sources.

_____ you know if _____ possible to _____ mix based on _____ hydro _____ Biomass sources?

We _____ able _____ your _____ in _____ of a more _____ world _____ give us _____ breakdown of _____ from renewable sources

_____ possible to apportion _____ energy _____ according _____ solar, Wind, _____ sources.

_____ transparent through the _____ mix breakdown?

_____ tell the breakdown of _____ energy _____ so the people can _____ the _____ towards _____ living

If _____ your effort _____ pursuit of a more sustainable world, you _____ give _____ breakdown _____ renewable sources.

_____ it _____ for _____ to be _____ through _____ energy mix _____?

Do you have the ability _____ according _____ wind, hydro _____ sources?

Please _____ the _____ of your energy mix _____ that people _____ effort _____ towards _____ living.

Please _____ of your _____ mix by _____ to _____ transparency _____ your efforts _____ become _____?

_____ possible _____ break _____ by source _____ find _____ about the efforts to make the planet _____

_____ renewable sources _____ in sustainable living?

_____ sustainable _____ achieved by _____ distribution between solar/wind/ Hydro and Biomass.

Is _____ give _____ breakdown _____ energy sources, for _____ hydro, and biomass?

One _____ transparency _____ your effort to _____ sustainable _____ by _____ of _____ energy _____ by source

Are _____ ways to show _____ by source, _____ solar to _____ to bio _____?

Please _____ the _____ your energy mix _____ to _____ transparency _____ theSustainability _____

I _____ to know _____ much of _____ energy _____ renewable energy _____ or _____ you offer a _____ it.

_____ you _____ me if _____ powered _____ a _____ wind, hydro _____ bio-mass source?

_____ us _____ energy _____ use _____ what they _____ for transparency in _____ related _____

Can you make _____ of _____ energy _____ wind, hydro and _____?

We _____ a breakdown _____ energy _____ from _____ sources _____ we can understand you in _____ pursuit _____ world.

_____ transparency _____ give me a breakdown of _____ sources?

_____ details of _____ energy mix, which includes _____ sources _____ wind, _____ and _____.

It would _____ of _____ mix from renewable sources so _____ we _____ evaluate our own _____

_____ into _____ wind, _____ so you _____ be _____ about it.

_____ it possible _____ ratio of _____ sources _____ your power production?

If _____ transparent with your _____ origins, _____ them _____ wind, _____ and hydro.

_____ provide a breakdown of your _____ mix from renewable _____ so _____ your _____ efforts.

Tell me _____ energy _____ you made from _____ biomass?

_____ order _____ sustainable _____ you should share _____ energy _____ distribution _____ hydro and _____.

Is there a breakdown _____ wind, hydro, _____ bio-mass?

_____ your energy mix _____ to solar, Wind, hydro and/orbiomass _____?

Let _____ breakdown _____ your sources of energy _____ to _____ about _____ efforts.

_____ you _____ your effort _____ more _____ world, you _____ to give _____ breakdown of your _____ mix from _____ sources

To _____ environmental _____ we need to share the energy _____ solar/wind/hydro _____.

_____ tell me _____ possible _____ your energy mix according _____ solar, Wind, hydro and/or _____?

Share the breakdown of your _____ by source _____ promote _____ your _____.

_____ you _____ breakdown _____ your _____ using _____ such as solar?

How do you ____ up ____ among ____ sources for ____?

____ renewable sources ____ transparency in sustainable ____?
