

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Electrical safety guidelines and precautions
Inquiry Sub-Category	Electrical safety during storms and power outages
Description	Customers inquire about precautions to take during thunderstorms, power outages, and other severe weather conditions, including guidance on using backup generators safely, staying away from downed power lines, and protecting electrical equipment from power surges or lightning strikes.
Data Size	6,700 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Is ____ recommended to disconnect ____ before ____ weather events to ____ or electrical hazards ____ and ____?
____ solar ____ be ____ before the incident because of ____?
____ it wise for me to switch ____ panels ____ weather ____?
Does ____ solar ____ before ____ help?
Is ____ necessary to switch ____ home solar ____ impending harsh ____?
Is ____ a ____ have solar panels disconnected prior ____ power ____?
Should ____ solar panels ____ unplugged before ____ order ____ against ____ and potential electrical dangers?
Is ____ pre-storms ____ protect ____ damage and electrical hazard?
Is it a ____ take the solar ____ out ____?
Should ____ panels be turned ____ in bad ____ they ____ damaged?
Solar ____ be ____ bad weather strikes.
____ it a good idea ____ take ____ solar ____ before ____?
____ my photovoltaic ____ be ____ before ____ violent ____ event?
____ it best to ____ storms?
____ solar ____ connections before storms ____ damage and ____ problems?
____ you think it's ____ good ____ setup during ____ to minimize the risk ____ harm?
Should solar ____ disconnected ____ events, as ____ precautionary ____ against potential ____ power problems?
____ disconnecting solar ____ precautionary measure?
____ removal ____ rooftop solar ____ storms?
Is ____ idea to stop solar panels ____.
____ you ____ panels should ____ before storms?
Do ____ that I should take the solar ____ the ____?
____ better for solar panels ____ be ____ storms?
____ to ____ solar panels for safety reasons?
____ good to ____ off ____ rooftop solar contraptions before tornadoes?
____ panels be unplugged to ____ damage?
Should ____ solar systems ____ switched off ____ the ____ harsh ____?
____ solar ____ be disconnected ahead of bad ____?

Should the ____ of ____ panel systems be ____ before ____ ____ ?

____ there a ____ to remove solar ____ weather ____ them ____ damage?

____ solar ____ unplugged prior to ____ in ____ to ____ harm and electrical ____ ?

Is ____ recommended ____ solar panels ____ before ____ happen?

Should ____ removal ____ solar ____ ahead of storms?

Does ____ sense ____ the ____ panel ____ unplugged before bad weather ____ ?

____ panels ____ severe weather events?

____ solar panels be unplugged ____ storm-related ____ and potential ____ pitfalls?

The ____ panels ____ be unplugged ____ .

____ it a ____ idea ____ remove ____ solar ____ heavy storms?

Should rooftop solar ____ to heavy storms ____ ?

____ our solar ____ be ____ in the event of ____ or ____ ?

____ start, ____ a good practice ____ disconnected ____ system.

____ of severe weather events, ____ remove solar ____ ?

Before ____ weather strikes, ____ should ____ down ____ .

Is ____ idea to disconnected ____ before ____ to ____ damage?

____ be ____ in anticipation of ____ damages or ____ hazard?

Is ____ wise to ____ off the ____ tornadoes?

Do ____ panels need ____ be ____ prior ____ weather?

____ you recommend that ____ off ____ solar ____ if ____ gets bad?

Is it important to ____ panels ____ to ____ ?

____ panels ____ disconnected during ____ weather events, as a ____ measure ____ potential harm ____ ____ ?

It's ____ ahead of severe storms.

____ solar recommended ahead of ____ ?

The solar ____ should ____ unplugged before ____ weather ____ .

____ solar panels be disconnected before ____ storm to ____ system?

____ sense to take off ____ contraptions before ____ and such?

Is ____ consensus to ____ before a storm?

Is ____ solar panels ____ the storms?

Is ____ idea to ____ off ____ panels ____ the ____ gets bad?

It was ____ disconnected ____ ahead of storms ____ .

Should ____ panels be unplugged ____ storms ____ prevent ____ harm and ____ hazards?

Is it ____ switch off ____ panels before disasters ____ ?

Do ____ think ____ should ____ disconnected before ____ weather ____ ?

It's important ____ switch off ____ sun-powered ____ hit.

____ panels be disconnected prior ____ storms to protect ____ ?

Is it a ____ idea to ____ panels before storms ____ ?

____ I ____ solar ____ storms ____ them from damage?

Is ____ idea ____ cut off solar panels ____ power ____ ?

____ it a ____ idea to ____ the ____ before ____ prevent damage?

Can you ____ is a ____ idea to switch ____ the solar ____ before ____ weather ____ ?

____ think ____ panels should ____ turned off in the ____ of ____ ?

____ disconnected before severe ____ events ____ prevent damage.

____ it ____ idea to remove ____ prior to storms ____ shortages?

____ it a ____ idea to ____ panels ____ before ____ storm?

Do ____ recommend ____ photovoltaic setup ____ violent weather ____ for safety ____ ?

____ panels be ____ in the event ____ a storm ____ electrical ____ ?

____ it make sense ____ cut off ____ storms?

____ consider disabling ____ solar ____ storms?

Is ____ recommended ____ solar panels ____ disconnected before severe ____ to ____ ?

Should _____ turn off my solar _____ case _____ so _____ don't _____ damaged?

_____ be _____ to remove _____ solar _____ in case of _____?

_____ is a _____ panels _____ be _____ to prevent storm damage.

_____ make sense to shut _____ the solar panel _____ hits?

_____ it a _____ solar panels _____ storms and power _____?

Do _____ it's smart to _____ rooftop solar contraptions _____ something _____?

Should _____ panels _____ disconnected to protect _____ from _____?

_____ solar panels be _____ before _____ incident _____ worsening problems?

_____ solar panels _____ to _____ disconnected before _____?

_____ it a good idea _____ switch _____ solar panels _____?

_____ solar panels should _____ unplugged _____ the _____.

_____ untangle solar _____ before the _____?

Is it recommended _____ shut _____ solar _____ to _____ incidents?

In _____ of _____ are homeowners _____ remove _____ panels?

_____ panels _____ disconnected prior _____ to protect against damage _____ electrical _____?

Is _____ to stop _____ before a storm _____ power outage?

_____ it a good _____ solar panels in _____ of _____ damages?

Is _____ a _____ turn off _____ before storms.

_____ think it's wise to _____ panels _____ bad weather?

_____ a _____ idea _____ solar panels _____ storm or power loss?

_____ wise to turn _____ my _____ prior to rough _____?

I _____ to _____ units before rough weather is a _____ idea.

_____ a good _____ for _____ to switch off _____ solar _____ bad weather _____?

_____ solar _____ in _____ weather to prevent problems?

The solars _____ be disconnected _____.

_____ the _____ on them _____ devices prior to _____?

_____ should pull _____ on the sun-powered devices _____ the _____ weather _____.

Is it _____ for _____ to _____ disconnected _____ prevent storm _____?

Does it _____ protect against damage _____ are _____ before _____?

_____ think it makes _____ to _____ off _____ panels _____ bad _____ arrives?

_____ solar panel _____ be disconnected _____ to _____ weather.

_____ the photovoltaic system be _____ as _____ precautionary _____?

Better untangle _____ a storm _____?

_____ prior to the storm.

Do _____ I _____ to remove _____ solar _____ the weather _____ bad?

Should _____ off the residential _____ before _____ storm?

_____ it a good idea to _____ before storms or _____?

_____ panels be disconnected to _____ during extreme _____?

Should _____ panels _____ prior _____ events?

Is it worthwhile _____ connections _____ a storm?

Do I need _____ take _____ solar _____ off _____?

Should _____ solar panel system _____ unplugged _____ weather _____?

_____ our _____ be disconnected _____ case of _____ or electrical _____?

_____ be untangled _____ the storms hit?

_____ solar panels be disconnected _____?

Is it possible _____ photovoltaic system _____ of strong storms?

_____ bad weather strikes, it's _____ solar panels.

It is better _____ untangle solar _____ before _____.

Is _____ a good _____ solar _____ be _____ before storms _____ prevent _____?

Ahead of _____ it a _____ idea to _____ solar?

Does it make _____ me to _____ off _____ before _____ arrives?
 _____ extreme _____ panels be _____ a precautionary _____ against potential harm or _____ issues?
 _____ solar _____ be disconnected prior _____ severe _____ to _____ against _____ damage?
 _____ be _____ to a _____ to protect against electrical risks?

Before storms start, _____ good _____ shut _____ the photovoltaic _____.
 _____ a _____ on whether or _____ panels _____ disconnected prior to _____?
 Is _____ that homeowners unplugged their _____ case _____ storms?
 _____ solar panels _____ turned off _____ so that they _____ get damaged?
 Is it _____ good _____ to _____ disconnected before _____ prevent damage?
 _____ it make sense for _____ the solar _____ before bad _____?
 Is _____ to switch _____ panels off before storms _____?
 _____ help _____ have solar panel connections _____ to _____?
 I'm wondering if _____ a good _____ to turn _____ my _____ panels _____.
 _____ untangle the solar _____ storm _____?

Do you _____ good _____ solar energy setup during _____ in order to _____ harm?
 Is _____ good _____ to remove solar panels before _____?
 The _____ course of action _____ disconnected _____ storms.
 Before _____ it's a good idea _____ PV _____.
 _____ the _____ panels be _____ in _____ event of _____ electrical problems?
 _____ good idea to take down _____ before _____ storm?
 _____ my photovoltaic _____ unhooked prior to _____ for safety _____?
 Does removing _____ connections _____ protect _____ electrical _____?
 Areremoval of rooftop _____ recommended _____?
 Should _____ panels _____ to protect _____?
 _____ idea to take out _____ panels before _____ to prevent _____?
 Should _____ be disconnected prior _____ to _____ against damage?
 _____ storms _____ is recommended to shut _____ the _____.
 I _____ idea to switch off my solar _____ before _____.

Can _____ me if _____ necessary to _____ solar _____ because _____ impending _____ weather?
 _____ it a _____ to power _____ panels _____ storms?
 _____ it _____ to remove solar panels _____ storms _____?
 Should the _____ disconnected _____ storms?
 _____ need to _____ panels before storms _____ damage?
 Is _____ removal _____ solar _____ of storms?
 _____ there _____ on when _____ panels should be _____ weather?
 Is it _____ in the _____ of impending harsh weather?
 _____ solar panels be _____ to _____?
 _____ you _____ it's smart _____ take the _____ contraptions off before _____?
 Should _____ systems _____ disconnected prior to _____?
 Solar _____ be _____ for damage _____.
 Before _____ start, it is recommended to _____.
 _____ it be a _____ my photovoltaic setup before _____ occurrences?
 Is _____ consensus to remove solar _____ before _____?
 Do _____ think it's a _____ idea _____ solar _____ before _____ or _____?
 Should solar panels _____ preventative _____?
 _____ disconnected _____ prevent storm _____ and electrical hazard during _____ events?
 Do you _____ should get _____ panels _____ the weather hits?
 Should _____ prior _____ storms to protect against damage _____ the _____?
 _____ be necessary _____ off _____ solar systems _____ impending _____ weather?
 Should _____ the solar _____ a _____?

Should the solar _____ be unplugged prior _____ bad weather, _____ and _____?

_____ it a _____ disconnected _____ solar _____ in _____ of storm-related damages?

_____ it _____ idea to _____ off my _____ in advance _____ storms?

_____ we _____ off _____ photovoltaic _____ in case _____ storm?

_____ weather _____ it's _____ to unhook _____ panels.

_____ the _____ be _____ before a _____ in order _____ prevent _____ harm and potential electrical _____?

Should _____ prior to _____ weather _____ against potential damage to the _____?

Solar panels _____ be disconnected _____ to protect _____ potential _____.

_____ good idea to _____ solar _____ prior _____ a storm?

_____ good idea to have our _____ before a storm?

_____ recommended that solar panels be _____ a _____ prevent _____?

Is _____ that _____ should be _____ before _____ severe storm?

Is it a good idea to _____ down _____ panel _____?

In order _____ storm-related _____ and _____ electrical _____ should _____ panels _____ unplugged before _____?

Before storms start, disconnection _____ system _____.

_____ plug on them _____ devices _____ landfall of severe _____ systems, right?

_____ that I _____ the solar _____ off before the _____ bad?

Is there a _____ that _____ disconnected _____ to protect against damage?

Is _____ idea to _____ panels before storms happen?

_____ my _____ be turned off _____ the event of _____ weather, _____ don't _____ electrical risks?

_____ bad weather strikes _____.

_____ the _____ panels before the storms _____?

_____ be _____ to _____ have the solar panels on in _____ of _____?

_____ sense to _____ panels _____ case of storm-related damages?

Would it be a _____ to _____ setup before _____ violent _____?

_____ I turn _____ sun-powered units before _____ what _____ recommend?

Solar panels can _____ a storm _____ damage _____.

_____ solar _____ to be disconnected _____ of severe _____?

Is _____ recommended before severe storms?

Do _____ panels _____ be _____ before storms _____ power _____?

Is _____ a way to prevent _____ electrical risks?

Do _____ recommend turning off my _____ in case _____?

_____ to protect _____ dangers by removing solar _____ connections?

Is _____ good _____ to shut off solar panels before _____?

Should _____ turn _____ residential photovoltaic system to _____ against _____?

_____ it _____ to _____ those _____ solar contraptions before tornadoes _____?

_____ you _____ if it's _____ to _____ solar systems _____ protection?

_____ there a _____ solar _____ before storms _____ protect _____ from damage?

_____ it _____ idea to _____ down my _____ panels _____ storms _____?

Should the _____ unplugged ahead of storms _____ prevent _____ and potential _____?

_____ be necessary to switch off home solar systems _____ going _____?

Can _____ systems be disconnected prior _____?

Is it a _____ idea _____ solar _____ system before _____ weather _____?

Does _____ solar panel _____ help _____ against _____?

_____ it a good idea for solar _____ disconnected prior _____ power _____?

Should solar _____ be disconnected prior _____ against _____ damage or electrical _____?

Better _____ solar panels before _____?

Is it _____ solar panels _____ storms?

_____ course of action would _____ to _____ ahead of _____.

_____ of _____ weather, _____ I turn _____ my _____ panels so _____ damaged or cause electrical _____?

____ solar ____ be ____ before bad weather ____.
 ____ severe weather, ____ solar ____ disconnected?
 ____ make sense to put the ____ system ____ of ____ before ____ weather ____?
 ____ to remove solar ____ damaging weather?
 Should homeowners ____ their solar ____ storms?
 ____ untangle the ____ to ____ storms?
 ____ removal ____ rooftop solar ____ prior ____ storms?
 ____ solar panels ____ disconnected ____ severe ____?
 ____ solar ____ unplugged ____ storms ____ order to prevent ____ and ____ electrical hazards?
 ____ it ____ shut ____ solar panel systems ____ severe weather ____?
 ____ solar ____ be switched ____ before bad weather ____?
 ____ start, it's best ____ the photovoltaic ____.
 Is ____ wise to switch ____ solar ____ weather?
 Do ____ to switch off the ____ before bad weather ____?
 Is it a good idea ____ down solar panel ____?
 ____ start, it's a good practice ____ photovoltaic ____.
 ____ panels ____ to prevent ____ damage?
 Is ____ normal ____ panels ____ before severe ____ protect against damage?
 Would ____ wise for ____ switch off ____ before bad weather ____?
 ____ beneficial ____ remove solar panel ____ before the ____?
 It's ____ good idea ____ solar ____ before bad ____ strikes.
 ____ panels be ____ to ____ weather ____ in ____ to prevent storm-related ____ and potential electrical ____?
 ____ to ____ solar panels ____ storms ____.
 disconnection ____ solars prior ____ will ensure ____.
 ____ it important to remove ____ panels ____ severe ____?
 Before ____ disconnected ____ system.
 ____ it ____ that solar ____ disconnected ____ to storms ____ damage?
 ____ I ____ solar ____ before bad weather occurs?
 ____ storms start, ____ recommended to ____ the solar ____.
 ____ switch off those ____ gadgets before any ____?
 ____ panel ____ is recommended prior ____ severe weather ____
 ____ our photovoltaic system ____ in case ____ storm?
 Is it ____ there is a ____ that ____ panels should be ____?
 ____ if it is ____ good ____ to ____ my solar ____ before ____.
 ____ solar ____ off when the ____ is ____ so they ____ damaged ____ cause electrical risks?
 Should my solar ____ turned off ____ bad weather so they ____?
 ____ panels ____ turned off in ____ case ____ weather, so they don't get damaged or ____?
 ____ you know if it's ____ good idea ____ remove solar panels ____?
 ____ should solar ____ be disconnected ____ damage prevention?
 Would professionals ____ photovoltaic setup in ____ of ____ occurrences?
 ____ wise ____ remove ____ panels before bad ____.
 Should I ____ my ____ setup ____ of violent ____ reasons?
 ____ solar panels ____ disconnected to ____?
 ____ storm ____ sure safety ____ solars.
 ____ be disconnected before a storm ____ protect against ____ to ____ electrical ____?
 Is ____ good idea ____ down the ____ system prior ____ weather?
 ____ it wise ____ solar ____ system before bad ____ occurs?
 ____ the solar panels be ____ to ____ to a ____?
 Should solar panels ____ disconnected ____?
 ____ there a ____ to prevent ____ electrical risks ____ detach the ____ panels?

Does ____ help to ____ panel ____ a storm?

Is the removal ____ panel ____ recommended ____ to ____?

____ it recommended ____ solar panels be disconnected ____?

____ it ____ prevent damage by removing ____ panel ____ storms?

Do ____ need ____ remove ____ if there is a ____?

____ the ____ solar panels?

Is ____ a consensus on ____ before storms to protect ____ damage ____?

Before storms ____ a good practice ____ system.

Should ____ switch ____ the solar panels ____ arrives?

Should it ____ possible to switch ____ home ____ impending harsh ____ for ____?

The ____ panels ____ be ____ before ____ hit?

____ need ____ be disconnected to ____ storm damage.

Solars ____ disconnected ____ the storm to ____ safety.

Should the solar panels be ____ to ____ events in order ____ electrical dangers?

Should the ____ unplugged before bad weather ____?

Is ____ necessary ____ solar ____ before ____?

____ it necessary ____ be unplugged before storms?

Should solar panels ____ in the ____ or electrical ____?

____ solar ____ be ____ to severe ____?

____ think it ____ be wise ____ switch ____ the ____ bad weather arrives?

____ a recommended ____ of action is to ____ solar ____.

Does ____ help ____ storms to protect against damage?

____ weather ____ would ____ to remove solar panels.

____ solar ____ be ____ order ____ prevent storm-related harm?

Is it wise ____ solar panels before ____ bad ____?

Is it ____ to temporarily remove your ____ to ____ with ____ storms?

The recommended course ____ would be ____ panels ____ storms.

____ panels can ____ prevention before storms.

Is it a good idea to ____ solar ____ damage ____ the ____?

____ of ____ are ____ encouraged ____ remove their solar ____?

____ reckon ____ important to switch ____ those sun-powered ____ a ____ tempest?

____ recommended before storms?

____ weather ____ is ____ to shut ____ solar panels.

____ panels ____ unplugged before a ____ so ____ to prevent storm-related ____ and ____ dangers?

Is it OK ____ homeowners ____ remove ____ case ____ storms?

____ solar panel systems be ____ severe ____?

Is it ____ take off ____ solar ____ something ____ happens?

____ solar panels ____ of severe ____?

Should ____ prior to a storm to ____ against ____ electrical system?

____ I turn ____ units ____ rough weather?

Should ____ prior ____ storms ____ to ____ against damage to the panels?

Does ____ electrical hazard ____ solar panel connections are removed ____?

Better ____ panels before ____ storms ____?

____ be disconnected to ____ and electrical hazards?

Is ____ of ____ recommended ____ storms?

Do you ____ I ____ panels ____ before ____ weather gets bad?

____ a consensus on ____ panels ____ be disconnected before ____?

Should solar ____ be ____ prior to ____ safety ____?

____ solar ____ disconnected to prevent storm ____?

____ would be ____ to untangle solar ____ before ____.

____ it ____ for my ____ to ____ off my solar ____ storm?
 ____ you ____ it's ____ idea to ____ off the solar panels ____ arrives?
 Is it a ____ me to switch ____ panels ____ hit?
 ____ solar ____ disconnected prior to ____ to protect themselves ____ electrical ____?
 ____ for ____ to take ____ the solar panels ____ bad ____ arrives?
 ____ that solar panels ____ before storms to protect ____ damage?
 Does it ____ remove solar panel connections ____?
 Does it ____ to shut ____ the solar panel system ____?
 ____ remove solar panels ahead ____ bad weather?
 Does the ____ solar ____ connections ____ protect ____ storm ____?
 Should ____ have ____ solar panels disconnected ____ of storm-related ____ or ____?
 ____ plug ____ powered devices prior ____ the severe weather ____ right?
 ____ severe ____ should solar ____ systems be unplugged?
 Is it a ____ idea to ____ before a storm to ____?
 Is it advisable to turn ____ panels ____?
 Should ____ panels ____ a storm ____ protect them?
 ____ order ____ harm and ____ electrical ____ would ____ be safer to ____ the solar panels?
 ____ best ____ remove solar ____ before ____ storm?
 Is it ____ good ____ solar panels out in case ____?
 Solar ____ be ____ the storms.
 Should solar panels be ____ and ____ hazard?
 ____ it a ____ off ____ photovoltaic ____ as a precautionary measure?
 ____ the plug on their ____ devices ____ to ____ systems ____ be ____.
 In order to prevent ____ harm ____ hazard, the solar ____ unplugged before ____.
 ____ we ____ against damaging ____ from a ____ off ____ photovoltaic system?
 Is it ____ good ____ to ____ off ____ sun ____ bad weather?
 Is ____ recommended ____ remove ____ solar panels ____ a ____?
 Do you think it's a ____ idea ____ my ____ energy ____ storms ____ to ____ harm?
 Should we ____ system ____ protect ourselves from a ____?
 Should ____ solar ____ removed ____ storms?
 Before storms, ____ it a ____ idea to ____?
 Should solar panels ____ the ____?
 Is ____ detach ____ solar ____ severe weather is ____ to prevent ____ harm?
 ____ the plug ____ to the severe weather ____ is ____ you should ____.
 ____ panel ____ be ____ before a ____?
 Should ____ panels be ____ severe weather events in ____ prevent storm-related ____ and ____ hazards?
 ____ solar panels ____ disconnected before ____ weather ____ damage?
 Should ____ be turned ____ case ____ bad weather, ____ they ____ cause ____ problems?
 ____ me if ____ is ____ to switch off ____ solar ____ because of ____ weather?
 ____ you ____ I ____ the ____ panels before ____ weather gets worse?
 Do ____ a ____ idea to ____ my ____ energy setup during ____ make ____ there's no harm?
 Is it ____ idea to ____ panels in ____ of bad ____ so they ____ get ____ or ____ electrical ____
 ____ to remove solar ____ before severe weather ____ protect ____ from damage?
 ____ you think solar panels ____ off ____ the ____ bad?
 In order ____ prevent ____ harm and ____ be ____ to remove the ____ panels?
 ____ good ____ for ____ to unplugged their ____ in case of ____?
 ____ good idea to switch ____ my solar panels ____ storms ____ power ____?
 ____ it wise ____ solar ____ before bad weather arrives?
 Before a storm, should ____ panels ____ to ____?
 Should ____ be ____ a ____ weather event ____ order to prevent ____ harm and potential ____?

_____ panels _____ be disconnected to _____ storms.

_____ is _____ to _____ solar _____ before severe weather?

Should the solar panel system _____ before _____ weather arrives, _____ electrical _____?

Is _____ idea to turn _____ sun-power _____ before _____ weather?

_____ the plug _____ to _____ arrival of severe weather systems, _____?

_____ safety demand the removal _____ panels in _____?

Is it worthwhile _____ remove _____ prior _____ storms?

_____ important to _____ out _____ panels _____ severe weather?

Do _____ think my _____ be turned _____ case of _____ weather, so they _____ get _____?

Should the solar _____ to _____ storm damage _____ electrical _____?

_____ panels be _____ before _____ weather to protect against _____ the _____?

_____ solar panels _____ off to _____ storm _____?

Should _____ system _____ unplugged _____ bad _____ occurs, _____ storm _____ and potential electrical dangers?

_____ the _____ of rooftop solar _____ before _____?

_____ solar panels should be disconnected _____ storms _____.

Better untangle _____ before _____?

I am _____ my _____ panels _____ be _____ storms.

Is _____ good _____ to _____ the solar _____ a storm?

Should _____ panels be _____ in _____ weather _____ issues?

Should _____ panels be _____ during _____ weather _____ preventative measure _____ or power issues?

Should _____ solar panels be _____ in order _____ harm?

Do _____ it's _____ remove my solar energy setup _____ as a way to minimize _____?

_____ home _____ be _____ off in _____ to protect _____ harsh _____?

_____ removal of _____ help safeguard _____ storm damage?

_____ it beneficial _____ the solar _____ before _____ weather?

_____ think it's _____ good idea to _____ my _____ energy _____ during storms _____ to minimize _____?

_____ it be a _____ our _____ panels _____ case of storms?

_____ a _____ solar panels before a storm?

Is it _____ to _____ solar _____ before _____ for safety _____?

_____ solar _____ disconnected before severe _____ order _____ protect against _____ damage?

The _____ be disconnected _____ damage before storms.

_____ panels should _____ disconnected before _____ to prevent _____.

_____ to remove _____ panels in the _____ of a storm?

_____ a good idea to _____ my _____ before storms _____?

_____ you think I have to _____ the weather _____?

_____ experts advise _____ turn off _____ powered _____ rough weather?

Do _____ be _____ before a storm for _____ reasons?

Is _____ solar panels before a _____?

_____ it normal for _____ panels _____ be disconnected _____ severe _____ to _____ electrical _____?

Before storm _____ safety by _____.

_____ solar panels be _____ there _____ no storm _____?

Should solar _____ be disconnected _____ to _____ damage?

Do _____ recommend turning _____ my sun _____ units prior _____?

Should _____ to prevent storm _____.

_____ storms start, it _____ to disconnected _____ system.

_____ you mean _____ to _____ the solar _____ the _____ hits?

_____ our _____ be disconnected _____ case of a storm-related _____ damages?

_____ commence, _____ recommended to _____ the photovoltaic system.

_____ recommended that _____ solar system be _____ before _____.

Does _____ sense to _____ solar panels _____ to bad _____?

_____ panels _____ disconnected in _____ event of _____ warnings?

Should _____ be _____ in _____ storm related damages or electrical _____?

_____ I _____ my _____ panels _____ storms and power failures _____?

Should we _____ panels as a preventative _____?

_____ you _____ that _____ array should _____ disabled before _____ climate _____?

Is it a _____ idea to switch off _____ bad _____?

_____ take precautions _____ impacts from a _____ and turn _____ our residential _____?

_____ photovoltaic system in case of a _____ storm?

_____ important _____ solar _____ in advance of storms?

_____ solar _____ disconnected before bad weather occurs?

Does _____ solar _____ connections _____ protect _____ damage _____ electrical hazard?

Is it _____ disconnected before _____ weather incidents happen?

It's _____ to _____ solars prior _____.

Is it _____ panels be _____ before severe _____?

Is _____ possible _____ prevent _____ electrical _____ by _____ panel connections?

Solars _____ be _____ storm damage _____.

_____ panels _____ disconnected _____ case _____ storms?

_____ the solar _____ be _____ in order _____ prevent storm-related harm _____?

Was it necessary _____ switch off _____ impending harsh _____ conditions?

_____ it make sense _____ disconnected solar panels _____?

_____ it _____ good idea to _____ solar _____ a storm?

_____ course of action _____ be disconnected _____ storms.

Is _____ a _____ to _____ panels before storms _____ protect _____ damage?

_____ storms, _____ solar panels be _____ to _____ danger?

_____ the _____ panels _____ turned _____ case of _____ they _____ get _____ or cause electrical risks?

_____ my _____ panels _____ out _____ the storms?

_____ solar panels be _____ prior _____ storms for _____?

Should solar panels _____ that _____ doesn't occur?

_____ it _____ idea _____ my solar panels turned _____ before storms _____?

Do you _____ it's _____ idea to keep _____ solar _____ setup _____ of _____ way _____ extreme _____?

_____ solar _____ be turned _____ weather, _____ they _____ get _____ or cause electrical _____?

_____ be _____ to have _____ solar panels _____ case of _____ storm _____ electrical _____?

_____ can be _____ before bad _____.

Do solar panel systems _____ prior _____ bad _____?

_____ panels be unplugged _____ the _____ of a _____?

Should _____ panels be disconnected _____ to _____ damage and power failures?

_____ recommended _____ rid of _____ before a storm?

_____ should _____ panels be disconnected?

If _____ are _____ are _____ to remove their _____?

Is _____ necessary _____ have solar _____ before _____?

_____ panels should _____ storms.

_____ homeowners unplugged _____ solar panels in _____?

Is _____ beneficial _____ remove solar _____ the _____ weather?

_____ panels be _____ for _____ conditions?

Should solar _____ be disconnected _____ that they don't _____?

Do _____ it _____ take off those rooftop _____ before tornadoes?

_____ panels _____ a _____ a recommended _____ of action.

Do _____ consider _____ solar array _____ a climate _____?

_____ it necessary _____ remove _____ prior to _____?

Is _____ a _____ to take away _____ panels _____?

It is _____ solar panels _____ severe _____ for protection.

Should _____ panels _____ prior to _____ weather events?

_____ solar _____ unplugged prior to _____ in order to prevent _____ and _____ hazards?

_____ panels be unplugged _____?

Should our _____ panels be disconnected _____ anticipation _____ dangers?

_____ rooftop _____ be _____ before heavy _____ outages?

Does _____ solar panel _____ before a _____ help _____ damage and _____?

It's _____ to _____ those sun-powered _____ prior to _____ hit?

_____ solar panels be disconnected _____ reasons?

Do you _____ it's _____ to _____ our solar _____ of storm-related _____?

_____ it _____ to remove solar panels _____?

_____ be removed _____ or power failures for safety _____?

_____ solar panels _____ be disconnected _____ a storm _____ safety _____?

Should my _____ be turned _____ weather?

_____ plug on the _____ devices prior _____ landfall of _____?

Before the _____ start, it is _____ to _____ photovoltaic _____.

Should solar panels _____ disconnected before severe _____ protect _____?

_____ systems be _____ off _____ against harsh weather conditions?

Should _____ for severe weather?

Should the solar panels be unplugged _____ of storms in _____ protect against _____?

_____ it best _____ solar panels ahead _____ for _____?

_____ our _____ be _____ in case of storm-related _____?

Is it _____ remove _____ connections _____ storms?

Should solar panels be _____ storm _____ they _____ damage?

Does it _____ sense to take _____ solar _____ system _____ hits?

_____ a good _____ take my _____ panels off _____ storm?

Solar panels _____ before storms _____ beneficial _____?

_____ wonder _____ panels _____ be _____ storms _____ stop damage and danger.

_____ storms _____ power outages _____ it a _____ to switch off _____ panels?

Pullin' _____ plug _____ the _____ prior _____ the _____ weather systems, right?

The solar panels _____ severe weather _____.

Should _____ panels be disconnected prior to _____ protect _____?

Before _____ start, it's _____ practice _____ shut off _____ system.

Better _____ solar _____ before the _____?

_____ it _____ idea to have solar panels _____ power failures?

_____ solar panels _____ disconnected _____ to severe _____ to _____ potential _____ and _____ outages?

_____ it a good _____ to _____ panel _____ before bad weather _____?

Do _____ think _____ solar panels _____ disconnected _____ avoid _____?

_____ solar _____ disconnected in _____ of _____ or power _____?

_____ recommended _____ disconnected prior _____ severe weather events _____ prevent damage?

_____ severe weather is predicted, are _____ any _____ I _____ like _____ panels?

In case _____ bad weather, _____ my _____ panels be _____ off so _____ don't _____ risks?

Should solar panels be _____ dangers?

_____ be a _____ to _____ the plug on the sun-powered _____ prior _____ severe _____.

_____ solar _____ be disconnected _____ of the _____ warnings?

_____ solars are _____ prior to storm _____.

_____ it a _____ away _____ solar panels before storms _____ power _____?

"It's crucial to _____ sun-powered gadgets _____ any _____ hit? _____

_____ residential photovoltaic system be _____ as a _____ against _____?

Should the _____ panels _____ severe weather _____?

Do you think _____ should _____ solar _____ before _____?

_____ should be disconnected pre-storm _____.

_____ need to _____ my _____ out before storms?

_____ the _____ on _____ sun-powered devices _____ severe weather _____ hit.

_____ solar _____ be _____ prior to _____ weather to _____ electrical _____?

_____ it a _____ idea _____ remove solar _____ storms _____ don't _____ damage?

_____ it's _____ for me _____ switch off the _____ before bad _____?

_____ removal of rooftop _____ storm?

_____ it _____ to remove solar panels before severe weather _____?

_____ recommended to _____ down solar _____ systems _____ severe weather?

Is the recommended _____ panel systems _____ measure?

_____ solar _____ be disconnected _____ weather?

_____ make _____ solar _____ connections before the storms?

Do _____ solar _____ should be disconnected _____ prevent _____ damage?

Should _____ be removed _____ storms?

_____ solar _____ turned off _____ a _____ power outage?

Is _____ to _____ those rooftop _____ contraptions _____ tornadoes?

Do you _____ idea to disconnected _____ panels _____ of _____?

Is detaching the solar _____ prevent _____ or electrical _____?

Is _____ good _____ to shut down _____ panels _____ out?

It's a good _____ the _____ units prior _____ weather.

_____ to remove _____ panel before severe _____?

Should the solar _____ system _____ unplugged _____ weather happens, _____ storm damage _____?

_____ need to be disconnected _____ to severe _____.

Should solar _____ be _____ in _____ of bad weather, so _____ don't get _____ electrical _____?

_____ turning off my sun-powered units _____ rough _____ a good _____?

_____ it _____ protect against _____ hazard _____ removing _____ panel _____ to storms?

_____ make sense _____ the solar _____ system before _____ weather arrives?

Do you _____ panels in _____ of bad _____ so _____ don't get _____?

Solar _____ disconnected _____ severe weather _____ beneficial.

Is _____ a _____ idea _____ stop _____ panels from being _____ storms?

Should solar panels be _____ in _____?

_____ I'm _____ the solar panels before _____ weather hits?

_____ solar _____ be disconnected prior _____ weather to protect _____ the _____?

_____ recommended _____ of _____ is to _____ before the storms.

_____ it better _____ to remove _____ in _____ of storms?

_____ solar _____ be disconnected _____ to _____ to _____ damage.

_____ homeowners need _____ their _____ in _____ event of storms?

_____ a wise _____ solar _____ before bad _____ strikes.

Is _____ shutting off the _____ panels before _____ storm?

_____ think it's _____ good idea to _____ my _____ during storms to avoid potential _____?

_____ it _____ to _____ systems prior to severe weather _____?

_____ think _____ solar array before _____ climate events?

_____ it _____ off my _____ panels before a storm strikes?

Should _____ solar _____ be _____ bad weather to _____ storm _____?

Do _____ mean I have _____ panels before the _____ bad?

Should _____ photovoltaic setup _____ case _____ violent weather _____?

_____ storms start, it's _____ good practice _____ photovoltaic _____.

_____ the solar _____ system _____ before bad _____ strikes, considering _____ damage _____ dangers?

_____ panels before severe _____ help?

Should _____ be _____ prior _____ prevent damage _____ the panels?
 _____ you think _____ be turned off _____ weather so _____ get damaged?
 _____ be necessary _____ off home _____ systems to protect them _____?
 Shouldn't _____ in case _____ storms?
 Is _____ a good idea _____ stop _____ panels _____ power outages?
 Before _____ commence, _____ is recommended _____ disconnected _____ system.
 _____ advisable to _____ solar _____ systems _____ to _____ weather?
 _____ if the solar _____ unplugged before storms.
 The solar _____ prior to the _____.
 _____ suggested _____ solar panels _____ disconnected _____ damage prevention.
 _____ solar panels be _____ storms for protection against _____?
 _____ solar panels before the _____?
 _____ a good idea to turn off my _____ bad _____?
 The solar panels should be _____ comes.
 Is _____ a _____ on shutting _____ solar _____ before _____ protect _____ damage?
 Should solar panel systems be _____ severe _____?
 Do _____ to be detached _____ bad weather to _____?
 _____ advisable to _____ panels before _____ and power _____?
 Should _____ be _____ of storm damage _____ risks?
 Should solar _____ prior to severe _____ purposes?
 Is _____ or _____ to _____ solar _____ a storm?
 _____ advisable _____ disconnected solar _____ to _____ storm damage?
 It's _____ switch _____ those _____ gadgets _____ the _____ hit?
 _____ should be _____ to protect them _____ storm _____.
 Is _____ solar panels _____ storms _____ stop damage?
 _____ solar _____ disconnected _____ damaging weather?
 Is it _____ to turn off _____ solar _____ a _____ or power _____?
 _____ storms begin, _____ to disconnected the _____.
 _____ there _____ consensus _____ remove _____ panels _____ weather to protect _____ and _____ risks?
 _____ solar panels be _____ in _____ storm-related damages _____ electrical _____?
 Is it necessary to remove _____ ahead _____?
 _____ my _____ removed _____ a storm?
 _____ solars _____ disconnected prior _____ the _____.
 _____ idea to _____ off _____ solar panels _____ the storms start?
 _____ a _____ idea _____ solar _____ before _____ or power outages?
 _____ wise _____ take off those rooftop _____ contraptions _____ tornadoes _____?
 Should it be _____ to _____ off _____ when the _____ going to _____?
