

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Damaged infrastructure reporting
Inquiry Sub-Category	Emergency Hazard Reporting
Description	Customers report hazardous conditions, such as fallen power lines, sparking equipment, or gas leaks, enabling Electricity Suppliers to respond quickly and ensure public safety.
Data Size	8,941 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ Electricity Suppliers _____ to reported hazards _____ fallen _____ lines _____ from equipment?
_____ fallen power lines _____ equipment sparks _____ what's _____ for electricity _____?
What speed _____ suppliers _____ safety risks?
Are energy providers quick to _____ including _____ and equipment?
_____ you _____ us know how _____ Providers respond to safety concerns _____ fallen _____?
How quickly _____ line problems?
Does _____ power _____ handle _____ quickly?
Will _____ equipment sparks _____ rapidly?
_____ rapidly do electric _____ concerns?
Will _____ promptly _____ reported _____?
_____ do _____ respond to fallen _____ and equipment _____?
Electricity providers will _____ situations.
_____ there _____ power lines _____ equipment sparks, _____ response _____ for electricity _____?
_____ responsiveness _____ Electricity Suppliers _____ things _____ line damage.
_____ power suppliers _____ hazardous situations?
Is _____ for _____ to get _____ downed lines _____?
Estimate the _____ of Electricity Suppliers _____ hazard _____ power _____.
How _____ can _____ respond to _____?
_____ what speed _____ Electricity _____ react _____ safety _____?
_____ fast _____ the _____ companies _____ to _____?
Will Electricity _____ fix fallen _____?
_____ quickly _____ deal with falling _____?
_____ to respond quickly _____ such as falling power cables?
_____ electricity _____ to safety warnings?
_____ power companies _____ to emergencies?
Electricity _____ to dangerous _____ power line damage.
What _____ the _____ time from Electricity _____ fallen _____?
When _____ are _____ like fallen cables or equipment producing _____ quickly _____?
_____ reports of _____ lines be _____ fast?

_____ electricity suppliers swift _____ to threats _____ or _____ power lines?
 _____ reports _____ power _____ be dealt _____ quickly?
 _____ does it _____ providers _____ respond to _____ lines and equipment _____?
 _____ speed _____ handling reported _____ line _____ questionable.
 _____ utilities respond _____ to reports _____?
 _____ Suppliers will respond _____ reported _____ as fallen _____ lines.
 How _____ will _____ providers respond to _____?
 Will electrical _____ such as _____ wires?
 Is _____ swift _____ their response _____?
 How soon _____ electricity suppliers _____?
 _____ possible to show how _____ the Electric _____ respond to _____ concerns _____ fallen _____ spark-emitting _____?
 _____ quickly will _____ falling lines?
 _____ will electricity suppliers fix _____ power _____ flashy gear _____?
 _____ count on _____ in the _____ of power _____ damage?
 _____ you _____ me how _____ Electric _____ regarding fallen lines or spark-emitting _____?
 _____ electrical suppliers act _____ fallen wires _____?
 _____ do _____ respond when _____ is a _____ line?
 Are _____ respond to _____ incidents such _____ falling power _____?
 What _____ the response _____ as _____ power _____ and equipment sparks?
 What is _____ time _____ fallen _____ lines or equipment _____ from _____?
 _____ such as fallen _____ lines _____ equipment _____ is the _____ time for electricity suppliers?
 What _____ response time _____ Suppliers _____ a fallen power line.
 When there _____ risks like fallen cables _____ producing _____ soon _____ companies _____?
 Are energy providers _____ to respond to dangerous _____?
 When should electricity providers _____ to reports _____ or _____?
 Electricity _____ to _____ quickly _____ line damage or _____ equipment.
 Will electrical suppliers _____ quickly _____?
 _____ are _____ like fallen _____ that creates sparks, _____ soon _____ utility companies _____?
 How _____ will _____ to power _____ falling?
 How _____ will Electricity _____ power lines _____ problems?
 _____ will Electricity _____ fix _____ power lines and _____?
 _____ risks _____ fallen _____ soon do the _____ companies act?
 The speed _____ which _____ are handled by _____?
 _____ quickly to threats like _____ equipment _____ power lines.
 _____ do _____ respond _____ downed _____ lines and sparking _____?
 _____ tell me how _____ will fix _____ lines _____ equipment?
 _____ companies respond _____ rapidly?
 _____ expect a reaction _____ electricity providers _____ report a fallen _____?
 Are _____ utilities responsive _____?
 _____ reports _____ fallen power _____ be _____ quickly?
 _____ should electric _____ respond _____ power _____ equipment sparks?
 Electricity providers will _____ to _____ like _____ damage.
 How _____ will the Electricity Suppliers fix _____?
 When reports _____ lines or _____ is the _____ for Electricity Suppliers?
 When can I _____ from Electricity _____ regarding potential _____ such _____ fallen _____?
 _____ speed _____ suppliers handle _____ issues?
 Do power _____ situations _____?
 _____ providers respond _____ emergencies including _____ cables and equipment?
 Are electricity suppliers quick _____ with _____?
 _____ can I get _____ response _____ Suppliers about potential dangers, _____ power _____?

_____ there are _____ like fallen _____ or equipment _____ utility companies _____?

_____ should _____ a response from _____ providers if _____ report fallen _____?

_____ fast should _____ expect a _____ our _____ when _____ are _____ situations?

_____ energy _____ prepared _____ situations such _____ falling _____ cables?

_____ you quick _____ dangers _____ fallen electrical cables?

I _____ fast you'll _____ like power lines or _____.

When can _____ a reply _____ Electricity Suppliers _____ dangers such as _____ power _____ equipment _____?

_____ fast do _____ take _____ of _____?

_____ the _____ the fallen _____ lines _____ dealt _____ quickly?

_____ quickly _____ the _____ suppliers deal with _____ of _____?

_____ providers _____ quickly to power _____ or equipment _____

_____ of _____ Suppliers _____ Hazards like _____ line damage _____ sparks.

_____ there are _____ or equipment sparking, _____ swift action?

What _____ the _____ from Electricity Suppliers _____ lines _____ equipment sparks?

_____ there _____ hazardous _____ involving _____ cables, how _____ should _____ a response from _____ electricity _____?

_____ electrical _____ respond _____ to _____?

Electric Suppliers have _____ to fallen _____.

_____ power _____ sparks _____ equipment _____ be reported to _____ Suppliers.

_____ do _____ reported _____ such as _____ lines or equipment sparks?

How _____ suppliers act _____ safety _____?

Do you _____ to fallen _____ and equipment _____?

_____ electricity _____ should _____ power lines _____ equipment sparks?

_____ suppliers address _____ line _____?

When _____ such as _____ or _____ sparks occur, what is _____ time for electricity _____?

How _____ Electric Suppliers address risks like _____ or _____?

_____ the _____ about fallen power lines _____.

Can we _____ quickly to _____ downed wires _____ sparks?

_____ response _____ of electricity _____ reports of danger?

Electricity _____ have been reported _____ respond _____ lines.

_____ time when _____ report downed power lines and _____?

When _____ reported hazard _____ as fallen power _____ or equipment _____ what _____ the _____ Suppliers?

If power _____ damage _____ is _____ I count on swift _____?

How soon can _____ Electricity Suppliers about _____ dangers, _____ as _____ lines?

How does _____ to _____ conditions like downed _____ lines or _____?

_____ quickly _____ suppliers _____ safety issues like _____ lines?

_____ me how _____ Electric Providers _____ to _____ concerns _____ lines _____ machines?

_____ electrical _____ handle potentially dangerous cases?

_____ should one expect _____ response _____ providers _____ they _____ equipment _____?

To hazard like _____ damage or sparks, _____ an _____ on _____ responsiveness _____.

How _____ respond _____ power lines?

How soon will I _____ a _____ power lines?

Can power _____ situations?

_____ reports of _____ lines _____ be handled _____?

_____ utilities _____ response to danger?

_____ Electricity Suppliers _____ when there is a downed _____?

What _____ the _____ time to reported _____ as _____ lines?

Are _____ suppliers good _____ to _____ like sparking _____?

_____ time can _____ falling lines?

_____ or sparks _____ reported to Suppliers.

_____ power _____ can _____ to disasters?

_____ will utilities _____ with _____ lines?

How _____ does _____ company _____ hazardous situations?

_____ electricity suppliers _____ when _____ are notified _____ accidents?

_____ quickly _____ electrical providers address _____?

_____ the _____ power lines _____ reported quickly?

How _____ do _____ suppliers _____ reports about safety _____?

_____ soon can we get _____ risks _____ falling _____?

_____ time to fallen _____ lines?

_____ electricity _____ quickly to threats _____ equipment?

_____ quickly do utility _____ respond to fallen _____ sparks?

_____ soon can _____ suppliers respond _____?

_____ companies quick _____ to _____ situations like falling _____ cables _____ equipment?

_____ will you react _____ reported dangers _____ downed power _____ machinery?

How _____ immediate _____ in relation to downed power _____ or sparking _____?

_____ soon will _____ Suppliers fix problems _____ lines?

_____ can I expect a _____ Suppliers regarding potential _____ as fallen power _____ equipment _____?

_____ Suppliers will respond _____ to _____ power _____ sparks _____ equipment.

Will _____ suppliers _____ fallen wires?

_____ should _____ providers _____ falling _____ lines or equipment _____?

What is _____ power lines _____ equipment _____ from Electricity suppliers?

Do _____ respond _____ concerns?

Do _____ to _____ lines quickly?

Do you _____ Electric _____ downed wires?

Is _____ responsive to threats _____?

How fast will _____ with _____?

_____ quickly _____ suppliers act _____ safety _____?

How quickly would _____ like _____ transmission cords or flames?

Will _____ respond _____ to _____ issues _____ wires and equipment _____?

_____ need to fix _____ quickly.

Will _____ respond _____ to _____?

_____ electric _____ quickly to _____?

_____ electric _____ swiftly _____ danger?

Do you respond _____ fall _____ or equipment _____?

_____ soon will electricity suppliers respond _____ lines _____ sparks?

Do electrical providers _____ dangerous _____?

How quickly will _____ to power _____ or _____ equipment?

_____ react quickly to fallen _____.

I would _____ to _____ how _____ Electric _____ respond _____ concerns involving fallen _____ spark- _____ machines.

How _____ do electrical _____ cases _____ dangers?

Should electrical providers _____?

_____ are _____ like fallen _____ or equipment producing _____ how _____ companies respond?

_____ possible for electrical _____ to _____ address dangerous _____?

How quickly will _____ dangerous _____ as power line _____?

When _____ I get a _____ from Electricity _____ regarding _____ equipment _____?

How _____ electrical _____ would respond _____ cases _____ dangers.

Electricity suppliers _____ respond _____ fallen _____ equipment fires.

Electricity Suppliers _____ to downed power _____ equipment _____.

_____ soon _____ I know _____ you _____ to _____ like _____ power _____ or sparking machinery?

When _____ respond to _____ of _____?

Inquire _____ of Electricity Suppliers to power _____.

_____ the response time _____ is an _____ hazard _____ as _____ power _____?
 How _____ would _____ suppliers _____ incidents _____ potential _____?
 _____ electricity suppliers _____ to _____?
 What is _____ fallen power _____ or _____ from equipment?
 _____ is _____ time _____ providers if there _____ downed power _____?
 Power _____ issues _____ can _____ reported to _____.
 _____ speed at _____ they _____ power _____ issues?
 _____ want to _____ how fast _____ dangerous messes _____ lines or _____.
 What _____ response time _____ Electricity _____ there _____ accidents?
 Will reports _____ power lines _____ with quickly?
 _____ quickly do electric _____ with reports _____ safety _____?
 _____ power _____ quick _____ handling _____ situations?
 How quickly would _____ suppliers _____ case _____ potential _____?
 When it's time for _____ to _____ to _____ power lines _____?
 _____ electric provider _____ quickly _____ a _____?
 When _____ accidents _____ cables, how quickly _____ expect an _____ response?
 _____ fast _____ an _____ supplier respond _____ there _____ hazardous situation?
 Can electrical _____ downed _____ quickly?
 How _____ do _____ respond _____ reports _____ safety problems?
 When _____ are risky _____ how soon _____ companies respond?
 _____ quickly can you respond _____ equipment sparks _____?
 Estimate _____ Electricity _____ to accidents like power _____.
 _____ act quickly on _____?
 _____ time _____ power lines or _____?
 _____ timeframe _____ Electricity _____ to address reported _____ like downed power _____?
 _____ suppliers should react _____ threats like _____.
 _____ electricity _____ respond quickly _____ dangers?
 Are energy providers _____ respond to _____ falling _____ cables and _____?
 _____ want _____ know _____ Electric Suppliers address fallen _____ or _____.
 _____ how quickly the _____ suppliers address _____ wires?
 _____ should _____ be a _____ from _____ providers when _____ power lines?
 What is the response _____ for _____ if equipment _____ power _____?
 Can _____ providers get _____?
 How _____ will electricity _____ be _____ to dangerous _____?
 Are _____ handle reported _____ situations?
 Electricity Suppliers _____ respond to _____ or _____ sparks.
 How _____ do _____ deal _____ falling _____ or sparks?
 _____ is the response time to _____ such _____?
 _____ handle reported power _____ problems?
 _____ respond quickly to dangerous _____ power cables.
 _____ providers _____ quickly _____ like falling _____ cables and _____ sparking incidents?
 Is swift _____ possible _____ are risks _____ power line damage _____?
 _____ do power _____ to _____ sparks _____ fallen lines?
 Will _____ respond _____ to _____ wires?
 _____ cables _____ falling or _____ creating sparks, how soon do _____?
 _____ quickly do _____ suppliers address problems _____?
 Falling _____ cables and _____ providers quick to respond?
 Electricity _____ quickly _____ reported safety risks _____ fallen power _____.
 _____ electric _____ promptly to reported _____?
 When _____ expect a _____ Suppliers regarding _____ such as _____ power lines?

The ____ times ____ power lines ____ sparks?
 ____ power ____ to respond ____ of hazardous situations?
 How fast ____ in handling ____ issues?
 ____ respond quickly to reported ____?
 How quickly will electricity providers ____?
 Will ____ promptly to reported ____?
 Estimate the ____ of ____ Suppliers ____ like ____ line ____.
 ____ way for Electric Providers to ____ safety concerns ____ or ____ machines?
 Electricity ____ to ____ risks ____ fallen power lines.
 ____ electric ____ to danger ____?
 ____ are ____ as downed power ____ or equipment ____.
 How ____ do ____ respond ____ there ____ fallen ____ lines?
 ____ soon can ____ expect ____ to ____ dangers like downed ____ cables?
 ____ electrical suppliers act quickly ____ like ____?
 How ____ will they ____ issues?
 Will ____ able ____ respond quickly ____ danger?
 Are ____ to respond ____ fallen ____ quickly?
 ____ quickly will ____ with ____ lines?
 Electricity Suppliers ____ to reported ____ like fallen ____.
 ____ will ____ see ____ response ____ regarding downed power cables ____ sparking ____?
 ____ will ____ respond ____ electrical dangers?
 Are you quick ____ dangers, ____ as fallen ____?
 Will ____ reports ____ fallen power ____ be ____?
 ____ suppliers fix ____ issues ____?
 ____ the ____ suppliers act ____ on fallen ____ sparks?
 How fast ____ you deal with ____ sparks?
 ____ it ____ to ____ how ____ Electric ____ to ____ concerns involving fallen lines ____?
 ____ quick to tackle ____ including ____ electrical ____?
 Electricity ____ for downed power lines ____ sparking ____.
 ____ response time to dangers ____ fallen ____ equipment ____?
 There are reported dangers ____ fallen ____ lines ____.
 Are there any ____ that ____ wires ____ equipment ____ quickly?
 ____ electric utilities ____ to ____ dangers?
 Does electricity ____ quickly ____ sparking equipment or ____ lines?
 When ____ a ____ hazard such ____ fallen power lines, ____ the ____ time ____ Electricity ____?
 ____ are ____ situations such as ____ how soon do ____ act?
 ____ does ____ assist ____ dangerous conditions ____ downed ____ lines or ____ equipment?
 ____ are hazardous situations involving ____ cables ____ machinery, how fast ____ an electricity ____?
 ____ there ____ of ____ power ____ or ____ sparks, ____ response time for electricity ____?
 When reported ____ such as fallen power ____ response ____ for ____ Suppliers?
 As per ____ the response time ____ when ____ are fallen power lines ____ equipment ____?
 Will ____ on ____ wires?
 When ____ sparks ____ lines ____ what ____ response time of ____ Suppliers?
 ____ quickly ____ you respond ____ equipment sparks ____ power ____?
 ____ soon can ____ react to ____?
 ____ fast ____ utility ____ deal with ____?
 ____ will ____ suppliers ____ to ____ as downed power ____?
 ____ act ____ when ____ are visible dangers?
 ____ quickly do ____ suppliers address ____ lines ____?
 What is ____ time ____ Electricity Suppliers ____ a report ____ fallen power ____?

_____ can _____ companies respond to _____?

_____ there are _____ fallen _____ or _____ that _____ sparks, _____ do utility companies _____ action?

Will energy _____ situations including falling _____ cables?

Do _____ respond quickly _____?

What is the average time when _____ address _____ such _____ power lines _____?

How _____ work when _____ is a _____ line or _____?

_____ I _____ a reply _____ Suppliers _____ dangers such as _____ lines?

_____ electrical _____ take _____ on _____ wires?

What is the _____ reports of fallen power _____?

_____ responsiveness for _____ like live _____ and spark _____?

_____ tell _____ quickly you can fix _____ like power _____ equipment?

How _____ will power _____ issues _____ solved _____?

_____ do electric suppliers _____ reports?

_____ does electricity suppliers _____ to _____ conditions, _____ downed _____?

Are energy _____ respond to _____?

How quickly _____ suppliers address _____?

What _____ time _____ electric utilities _____ reported dangers?

_____ suppliers respond to reports _____ safety issues?

Can you _____ me _____ quickly the electric _____?

What is the response _____ of _____ lines _____ sparks from _____?

Electricity Suppliers must respond _____ power _____ equipment _____.

_____ fast _____ electrical providers _____ lines?

How _____ do _____ safety problems?

How _____ react to fallen _____?

How _____ will you fix dangerous _____ power _____ equipment _____?

I don't _____ Suppliers _____ fallen wires or _____ sparks.

_____ fast _____ the power _____ respond to _____?

_____ quickly _____ electric _____ react to _____?

How soon _____ I expect _____ response _____ fallen _____ lines?

When _____ I _____ a reply _____ dangers _____ fallen _____ lines and _____?

_____ Suppliers _____ to reported safety risks _____ lines.

Are _____ dangers _____ fallen _____ or _____ by Electric Suppliers?

Are electrical _____ immediately address _____?

_____ to deal _____ dangers such as _____ electrical _____?

Falling _____ cables and _____ incidents _____ prompt _____ to _____ quickly.

_____ fast do you _____ lines that _____?

_____ react _____ to _____ safety risks such _____ power lines.

Will reports of _____ power _____?

When _____ a _____ from electricity _____ report a fallen _____ line?

Are _____ prepared for threats _____ power _____?

How _____ Electricity _____ with _____ conditions _____ downed power _____ or _____ equipment?

_____ you respond _____ dangers _____ downed power cables _____ sparking machinery?

When _____ are hazardous situations _____ cables, _____ fast _____ a _____ from the electricity _____?

_____ the _____ providers _____ to dangerous situations?

Can _____ respond _____ to reported risks _____?

_____ you _____ how _____ address falling wires?

_____ you respond quickly to fallen _____ gizmos?

Electricity Suppliers _____ expected to respond _____ reported _____ power _____ equipment sparks.

How soon _____ electric _____ lines?

What _____ response time _____ electricity _____ there _____ a fallen power _____ or _____?

_____ the _____ time _____ fallen power lines and equipment _____?
 _____ the response _____ such _____ downed power lines and equipment _____?
 How quickly _____ electric _____ act _____ of _____ defects?
 Electricity _____ will respond _____ dangers _____ as _____ lines.
 Will electricity _____ see a hazard?
 _____ energy providers _____ to _____ to dangerous incidents _____ falling _____?
 When it is _____ for _____ to _____ lines _____ equipment sparks?
 How quickly can I expect a response _____ you _____ cables or _____ machinery?
 Can we _____ a _____ reaction _____ utilities regarding _____?
 What will be _____ from Electricity Suppliers _____ fallen power _____?
 How do _____ to downed _____ or _____ equipment?
 _____ electrical _____ act quickly _____ wires?
 _____ companies _____ to _____ electrical sparks?
 I want _____ know how _____ dangerous messes _____ and equipment.
 When _____ sparks _____ what _____ the response _____ suppliers?
 Will _____ suppliers act _____ wires?
 _____ electrical _____ act _____ like _____ wires quickly?
 _____ notification, _____ quickly would electrical suppliers handle _____ potential dangers _____ cords?
 _____ quickly _____ power _____ risks _____ addressed?
 _____ to _____ with electrical cables falling?
 Time _____ respond _____ power lines or equipment _____?
 _____ providers _____ to respond to dangerous situations _____ falling _____ and _____?
 Will electrical suppliers act _____ or _____ wires?
 _____ suppliers handle reported hazardous _____?
 The _____ which power line _____ are _____ by _____?
 Immediate assistance _____ Suppliers works _____ lines and sparking _____.
 _____ soon _____ respond to reported _____ as downed power cables, _____?
 How fast _____ Suppliers _____ reported safety _____ fallen _____ lines?
 _____ is the _____ time to _____ like _____ lines _____ equipment sparks?
 _____ does Electricity Suppliers _____ to dangerous _____ as _____ power _____?
 How _____ Electric Providers _____ safety concerns _____ fallen _____ machines?
 How _____ the utility companies _____?
 _____ you know how _____ Suppliers _____ like fallen wires _____ sparks?
 How _____ can electric suppliers respond _____ incidents _____?
 _____ you respond _____ downed _____ sparks fast?
 _____ will respond to _____ power _____
 What _____ the _____ Electricity Suppliers _____ there _____ a fallen power _____ sparks?
 Are _____ quick to _____ to _____?
 _____ providers deal with _____ lines _____?
 Do _____ companies respond _____ danger _____?
 What is the _____ time _____ dangers, _____ as downed _____?
 _____ quickly _____ line problems be _____?
 How fast _____ power suppliers _____?
 _____ can I expect to _____ contacted _____ downed power _____ or sparking _____?
 _____ electrical suppliers _____ quickly _____ or sparks?
 _____ can respond quickly _____ fallen _____ lines or _____.
 How soon _____ suppliers deal with fallen _____?
 _____ quick _____ companies _____ to danger?
 When will _____ reported _____ hazards?
 _____ companies respond _____ problems _____?

_____ you _____ me how quickly _____ Providers respond _____ safety _____ involving fallen _____ ?
 _____ fast do _____ to accidents like _____ lines?
 _____ to _____ how quickly _____ Providers respond _____ involving fallen lines.
 _____ quickly _____ power _____ deal with _____ ?
 _____ reported _____ fallen power _____ equipment sparks _____ response _____ for Electricity Suppliers?
 _____ power suppliers _____ equipment sparks or _____ lines?
 _____ energy _____ respond quickly to _____ falling power _____ equipment?
 Will electrical suppliers _____ issues of _____ ?
 _____ will _____ respond _____ sparks _____ loose wires?
 _____ is _____ response time _____ dangers that _____ downed _____ and _____ sparks?
 Will electrical suppliers _____ to reports of _____ ?
 What is the response _____ for _____ Suppliers in case _____ power _____ ?
 What is the response _____ from _____ is _____ lines?
 _____ electrical _____ quickly _____ fallen _____ ?
 Do electric _____ quickly to _____ ?
 When _____ is _____ risk like fallen cables, _____ companies _____ ?
 _____ quickly will _____ line issues?
 How fast are _____ suppliers _____ handling _____ power _____ ?
 How quickly _____ utility _____ resolve _____ ?
 _____ are _____ cables and machinery, _____ fast _____ supplier respond?
 _____ the _____ power lines _____ taken _____ of fast?
 How fast does Electric _____ concerns _____ fallen lines _____ machines?
 Are electric _____ quick _____ to _____ ?
 _____ the response _____ for electricity suppliers _____ of fallen _____ or equipment _____ ?
 How _____ will _____ able to _____ you _____ dangers like downed power cables?
 Power _____ issues _____ ?
 _____ electrical suppliers act _____ on _____ or _____ ?
 When _____ when there is a fallen power line?
 Can electrical _____ to _____ lines?
 _____ energy _____ in getting _____ dangerous _____ ?
 _____ is _____ response _____ electricity _____ if there is a _____ as _____ power _____ equipment sparks?
 _____ providers _____ emergencies like falling power _____ and equipment?
 _____ time _____ Electricity Suppliers if _____ is a falling power _____ ?
 Electric _____ respond quickly to _____ involving _____ and spark-emitting _____ .
 _____ address _____ problems quickly?
 _____ quickly _____ utility _____ repair fallen lines?
 How _____ the _____ companies respond _____ fallen _____ ?
 _____ utilities deal with fallen _____ ?
 When _____ hazard occurs such as fallen power _____ equipment _____ the _____ Suppliers?
 _____ electrical _____ address fallen _____ and _____ sparking?
 Does electric utilities _____ quickly _____ ?
 _____ soon are _____ suppliers _____ to fix fallen _____ ?
 _____ react _____ risks, like fallen power _____ .
 _____ providers _____ to respond when faced _____ situations?
 Are power _____ hazardous _____ ?
 How _____ deal _____ lines that fall?
 _____ electricity _____ respond to downed _____ and equipment _____ ?
 Will _____ lines be handled _____ ?
 _____ fast _____ electricity _____ act after learning _____ hazard?
 The speed in _____ power _____ issues _____ are handled _____ .

What _____ providers _____ power lines _____ or equipment _____ sparking?

What _____ the response _____ Electricity Suppliers _____ of _____ lines?

I want a _____ Suppliers about _____ fallen _____ lines and equipment _____.

When there _____ situations involving _____ cables and sparking _____ expect an electricity _____ response?

Will electrical _____ to _____ like _____?

_____ is _____ response _____ to reported _____ hazards _____ as fallen _____?

_____ reports of fallen _____ lines _____ sparks, what is the _____ time _____ Electricity _____?

How _____ will _____ address _____?

When _____ electric _____ to _____ lines?

_____ suppliers _____ handling _____ power _____ issues or sparks?

_____ address safety issues?

_____ electrical companies _____ able _____ quickly address _____?

_____ power _____ quick _____ dealing with _____ hazardous _____?

Are _____ quick to _____ to _____ like _____ and equipment?

_____ there is a _____ of _____ cables _____ producing sparks, _____ soon _____ companies _____?

_____ reports _____ sparks be processed _____?

How quickly _____ suppliers _____ upon safety _____ involving _____?

_____ quickly do Electricity Suppliers deal _____ reported _____ lines?

How _____ respond to fallen _____?

_____ soon will _____ line dangers?

_____ Electricity Suppliers respond _____ danger such _____ power _____?

_____ utility _____ with _____ lines quicker?

How _____ do _____ providers respond _____ power _____?

What speed _____ providers _____ situations?

_____ do electric _____ act _____ safety _____?

How _____ power _____ to hazardous situations?

_____ soon _____ suppliers respond _____ situations?

When there are fallen power _____ equipment sparks, _____?

_____ quick _____ to dangerous situations?

How _____ power _____ address _____ lines?

_____ expect an immediate _____ electric utilities _____ fallen _____?

How quickly _____ providers respond _____?

_____ reports about _____ sparks be _____?

_____ quick to _____ situations, such _____ falling power cables?

_____ electricity suppliers quick _____ respond _____ falling power _____ or _____?

Estimate _____ responsiveness of electricity _____ dangers like _____ sparks.

How does _____ dangerous conditions, _____ power lines?

_____ soon _____ utility companies address _____?

How quickly _____ power _____?

What _____ the _____ for _____ power _____ and _____ sparks?

Do _____ suppliers quickly _____ reported _____?

_____ soon _____ we expect _____ to address _____?

_____ a _____ like _____ snapping _____ sparks flying, do you _____ to _____ quickly?

Are _____ utilities _____ to _____ of _____?

How fast _____ electricity _____ danger?

What is _____ time to reported _____ sparks and _____?

What is the _____ for incidents of _____?

_____ as fallen _____ or _____ occur, what _____ the response time _____ Electricity Suppliers?

_____ I expect swift _____ if there _____ line damage _____ reported?

Can _____ respond _____ downed _____ equipment _____?

How quickly can _____ a response _____ Suppliers regarding _____ power _____ sparks?
 _____ electrical _____ reports _____ fallen wires and equipment _____?
 _____ do _____ quickly _____ reported dangers?
 Is it _____ electrical _____ quickly address downed _____?
 _____ Electric Suppliers react to _____?
 _____ can I expect _____ response from you _____ power _____ machinery?
 Want to know _____ Electricity _____ fix _____ fallen _____ lines.
 Will electrical suppliers _____ respond _____?
 Is _____ for _____ quickly address downed lines?
 How long before _____ react _____ fallen _____ sparks?
 Is it possible _____ quickly address _____ lines?
 _____ will suppliers _____ power line _____?
 _____ electric _____ react to _____ reports?
 Is swift action _____ are _____ damage _____ sparking equipment?
 How soon _____ fix _____ accidents?
 Electricity Suppliers _____ quickly _____ safety risks _____ and spark- _____ devices.
 _____ the power _____ in handling _____?
 Do _____ quickly _____ dangerous situations, like _____ power _____ and _____?
 When _____ Electricity _____ dangers like _____ power lines?
 _____ electrical _____ act _____ on fallen _____?
 _____ electrical suppliers _____ of fallen _____?
 Will electricity _____ to _____?
 _____ fast _____ the _____ respond _____ emergencies?
 When _____ utility _____ to _____ electrical problems?
 _____ is the _____ time _____ reported _____ problems?
 _____ providers _____ reported _____ such as _____ power _____ and equipment _____.
 _____ electrical suppliers _____ quickly to issues _____ wires _____ sparking?
 Will Electricity Suppliers _____ quickly _____ lines or _____?
 _____ for _____ like live wires _____ spark release?
 _____ can the power _____ respond to _____?
 Electricity providers _____ react to _____ power lines _____ when _____ reported.
 How _____ power _____ accidents?
 What is the _____ downed _____ line is _____?
 Are _____ responding _____ reported dangers?
 When equipment sparks _____ as a result of _____ what _____ time _____ Electricity _____?
 _____ providers will react _____ to _____ damage _____ sparking _____.
 Do _____ providers _____ accidents caused _____ power cables _____ equipment?
 _____ is the _____ time _____ of fallen _____ lines?
 _____ providers _____ to dangerous situations _____ falling power cables?
 Are _____ providers swift _____ dangerous _____?
 How _____ will utility _____ with _____?
 Is _____ possible for me _____ count _____ action _____ is _____ damage?
 How _____ do power _____ to _____ or fallen _____?
 _____ Suppliers should _____ of downed power _____ sparks.
 _____ Suppliers can respond _____ downed _____ lines _____ equipment sparks.
 How quickly do you people _____ care _____?
 Will reports _____ equipment _____ handled _____?
 _____ is _____ time _____ dangers such _____ fallen power _____ equipment sparks?
 What can _____ tell _____ about _____ Electric Providers _____ concerns involving _____ or spark-emitting machines?
 _____ will you respond _____ downed power cables _____ machinery?

What is the _____ reported _____ as _____ power lines?

_____ Suppliers are _____ to _____ to _____ hazard _____ power lines.

_____ is _____ response time from Electricity _____ if there _____ a _____ such as _____?

Reports _____ or _____ power lines will _____ with quickly.

_____ are _____ involving _____ cables _____ sparking machinery, _____ fast _____ the electricity supplier _____?

Do you _____ fast _____ fallen _____ or equipment _____?

Reports of _____ wires _____ to by utility companies.

_____ respond to fallen _____ lines _____?

_____ responsiveness of Electricity Suppliers to _____ as power line _____.

Should _____ Suppliers respond to _____?

How _____ I expect _____ response from you _____ downed power _____?

What _____ time _____ for _____ Suppliers to _____ reported _____ downed power lines?

_____ hazard _____ fallen _____ lines occur, what is _____ response _____ for _____ Suppliers?

_____ fast the _____ providers _____ to _____ situations?

_____ will power _____ be fixed _____ the suppliers?

_____ fast you respond _____ fallen power _____ equipment _____?

Are _____ quick to _____ to _____?

_____ falling power lines _____ equipment sparks are _____ what _____ for _____ Suppliers?

_____ soon _____ fix fallen power lines and _____?

When power _____ reported to have _____ what is _____ response _____?

_____ a _____ response _____ electric _____ regarding fallen sparks _____ hazardous sing _____?

Electricity Suppliers _____ with downed _____ lines _____ sparking equipment _____.

How _____ will _____ Electricity _____ respond _____ reported _____ issues?

Do you know _____ to fallen wires?

Electricity _____ provide _____ power lines _____ sparking equipment.

_____ the _____ time for _____ there is _____ report of fallen power _____ or equipment _____?

_____ quickly will the _____ Suppliers respond to _____?

_____ threats of _____ equipment or fallen _____.

_____ time _____ it _____ for electricity _____ to _____ downed _____ lines?

_____ suppliers _____ quickly _____ fall wires or _____?

_____ possible that _____ can address downed lines _____?

Electricity _____ can respond quickly _____ dangerous situations _____.

_____ suppliers _____ swiftly to _____?

_____ electric _____ quick _____ to reported _____?

_____ notification, _____ quickly would _____ suppliers deal with _____?

How _____ electricity _____ able to respond _____ dangerous _____?

_____ it possible to _____ Electric Providers respond _____ lines or spark-emitting machines?

_____ reports of fallen _____ lines be _____ quickly?

When cables are _____ equipment _____ sparks, how soon _____ utility _____?

_____ speed in handling _____ line _____?

What _____ response _____ Electricity _____ when a fallen power line _____?

_____ can power _____ with _____ sparks?

_____ suppliers address _____ line problems?

_____ is the response _____ from _____ Suppliers when _____ an _____?

_____ a _____ from _____ regarding potential dangers such as fallen _____ lines?

_____ should I _____ a response _____ Electricity Suppliers regarding _____ power _____ or _____?

How _____ expect _____ electricity _____ when there _____ hazardous situations?

What is _____ time for fallen power _____ sparks from _____?

Can you tell _____ how _____ like power _____ or _____?

_____ quickly will _____ providers _____ the aid of _____?

_____ providers _____ to address _____ lines?
 _____ can Electric Suppliers _____ lines or sparks?
 _____ suppliers _____ on safety reports?
 _____ Electricity Suppliers work _____ conditions _____ downed power lines _____ equipment?
 _____ electricity _____ respond _____ accidents such as fallen _____?
 I want _____ know _____ quickly _____ fallen wires _____ equipment _____.
 _____ quick to deal _____ situations?
 _____ electricity _____ respond _____ to safety _____?
 _____ the electrical _____ quickly _____ the _____?
 What _____ the _____ time for fallen power _____?
 _____ the _____ Electricity _____ disasters like power _____ damage _____ sparks.
 Do you _____ fast Electric Providers respond _____ lines?
 The response _____ power lines _____?
 How _____ respond _____ power lines?
 _____ is _____ time for reported power _____ falling _____ from _____?
 What _____ the response _____ from Electricity _____ for _____ lines?
 Can _____ downed lines?
 Can _____ fast you'll fix _____ messes like _____ lines _____?
 When fallen cables or equipment _____ soon do _____?
 Electricity Suppliers _____ quickly _____ fallen power _____ and _____ from _____.
 _____ energy companies _____ quickly to _____ situations including _____ and _____?
 _____ quickly _____ electrical suppliers deal _____ of _____ dangers?
 _____ can Electricity Suppliers _____ problems _____ fallen power _____?
 How soon _____ the power _____?
 _____ to downed wires or equipment _____?
 How _____ can _____ companies _____ to a _____?
 How quickly _____ electricity suppliers act when _____?
 How fast do electric suppliers _____ reports _____?
 How soon _____ expect _____ response from Electricity _____ power lines?
 Is _____ suppliers quick _____ handle _____?
 _____ they _____ to fallen lines?
 _____ sparks and _____ power _____ be reported _____?
 _____ power suppliers deal with _____?
 Are _____ suppliers _____ react _____ threats like sparking _____?
 _____ reports _____ sparks _____ acted _____ quickly?
 _____ Suppliers react _____ fallen _____ quickly?
 How _____ power suppliers address _____?
 _____ suppliers _____ immediate _____ on fallen _____?
 _____ quickly should utility _____ fallen _____?
 _____ do you deal with _____?
 _____ a power line damage _____ reported, _____ I count _____ action?
 How soon _____ a _____ from _____ suppliers regarding _____ lines?
 Will electrical _____ address _____ such _____ falling wires?
 I _____ to know _____ wires or equipment sparks.
 _____ do Electricity Suppliers react _____ reported _____ risks _____ as _____ power _____?
 _____ energy _____ reacting _____ dangerous situations?
 How soon _____ a _____ from you _____ the _____ like _____ power cables?
 _____ quickly does the _____ act _____ safety _____?
 _____ soon _____ the Electricity Suppliers _____ fallen _____ lines?
 When will I _____ reply _____ Electricity _____ about potential _____ such _____ power _____?

When power _____ or _____ occur, _____ response time for Electricity Suppliers?
 _____ you _____ to deal with dangers _____ electrical _____?

When should _____ react to equipment _____ power _____?
 _____ fast do _____ incidents _____ fallen power lines?

How _____ can _____ to deal with reported _____ power _____ or _____ machinery?
 Electricity providers _____ react _____ damage _____.
