

[Demo] NLP Dataset for Customer Service Automation

Company Type	Automotive manufacturers
Inquiry Category	Assistance with vehicle connectivity and apps
Inquiry Sub-Category	Connectivity concerns during firmware updates
Description	Customers may encounter connectivity issues or loss of functionality during firmware updates, necessitating support to ensure smooth updating process and restoration of connectivity features after the update is completed.
Data Size	5,106 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Automotive manufacturer" customer inquiry. (Purchased data will not be masked.)

What ____ should ____ is a loss ____ connectivity during a ____ update?
 ____ I ____ if I don't have an accurate ____ or ____ piece of Firmware.
 ____ are ____ how ____ manage lost functions and ____ firmware update.
 How should I ____ have ____ picture of performance ____ new firmware?
 ____ a procedure ____ device has malfunctioning connections ____ other ____ software upgrade.
 ____ case of ____ update, ____ know what steps ____ to stay connected.
 ____ should ____ with ____ of ____ afterUpgrading to ____ newer Firmware?
 What are ____ to ____ when ____ with device malfunction ____ connections ____ the ____?
 ____ a ____ update, I ____ to ____ what steps ____ be taken ____ stay ____
 What ____ a ____ or performance ____ after a firmware update?
 How ____ of function in a firmware ____?
 What are ____ take when faced ____ malfunction ____ a ____ Update?
 ____ device has ____ connections or other ____ in ____ a software upgrade, what ____ do?
 Do you have any ____ for handling connection ____?
 ____ react to the ____ connection after a ____?
 ____ are the procedures ____ follow ____ device has ____ a ____ upgrade?
 What are ____ correct procedures to follow ____ have ____ device ____ a ____?
 ____ would ____ lost ____ or connection after a firmware update?
 What ____ the proper procedures ____ when ____ and ____ an updated version of the ____?
 ____ I address ____ function/connection after ____ upgrade?
 ____ I ____ with ____ loss ____ connecting afterUpgrading to a ____?
