

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Backflow prevention and testing queries
Inquiry Sub-Category	Backflow testing schedule
Description	Customers seek information on the frequency and timing of mandatory backflow testing to ensure that their water systems remain protected from potential backflow contamination.
Data Size	7,044 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

____ there set timeframes ____ our ____ checks ____ plumbing ____ reverse flow prevention ____?
 Are ____ any fixed ____ for ____ assessments regarding ____?
 ____ follow specific deadlines ____ it ____ carrying out annual evaluations concerning the ____ systems' ____
 ____ prevent backflow?
 Can we ____ deadlines ____ if ____ stop the ____ of ____ flows?
 ____ there a ____ for completing ____ annual assessments of ____ ability ____ prevent ____?
 ____ you ____ if deadlines exist for ____ annual ____ and evaluations of our plumbing system's ____?
 ____ set timelines for ____ the plumbing system's backward flux ____ capabilities?
 ____ you ____ deadlines for ____ tests on ____ plumbing system's ability ____ flows?
 Any ____ time ____ for carrying out ____ plumbing systems' ____ prevent ____?
 ____ there ____ the yearly plumbing reverse flow ____?
 ____ flow prevention ____ plumbing ____ need to be ____ yearly.
 ____ is the time ____ conduct ____ reverse flow in our ____?
 ____ a set timetable ____ evaluations of backward ____ prevention capabilities ____ our ____?
 The ____ system's ____ flow prevention capabilities ____ examined ____.
 ____ there a schedule for ____ reverse flow prevention ____ of ____?
 ____ you ____ any ____ assessing ____ prevention in ____ plumbing system?
 Can there be ____ exams ____ our ____ system's reverse ____ prevention capabilities?
 ____ we ____ time ____ when ____ comes to ____ yearly inspections ____ the reverse flow prevention ____ our ____
 systems?
 Is ____ possible ____ the yearly ____ of ____ to ____ backflow in ____ timely manner?
 Is ____ an ____ for ____ assessment ____ prevention in ____ plumbing systems?
 When will we ____ the ____ our ____ reverse flow prevention ____?
 ____ there ____ set date by ____ to ____ mandatory yearly inspections ____ our Plumbing ____?
 Is there ____ fixed time frame for ____ ability to prevent ____.
 Do we ____ our yearly ____ the ____ within our plumbing network?
 The ____ of our ____ system ____ to ____ assessed annually.
 When do ____ make ____ our ____ systems are up to date?
 ____ it possible to ____ designated ____ annual ____ on the ____ prevention efficiency in ____ plumbing ____?

_____ a specific time limit for _____ assessments on _____ to prevent _____?

Is _____ a _____ when _____ finish _____ yearly inspections of _____ systems?

When _____ to fulfilling _____ mandatory annual inspections _____ in our _____ we follow specific time limits?

_____ a _____ time _____ for _____ reverse flow inspections?

Are _____ for _____ yearly plumbing reverse _____ tests?

Any schedules for _____ the reverse _____ plumbing system?

Is there _____ time limit for yearly _____?

Is there _____ for _____ plumbing system's capacity _____ prevent backflows?

Are _____ fixed _____ constraints for examining _____ reverse flow _____?

Is _____ set time period for the _____ system's _____ flux _____ capabilities?

_____ possible _____ inspections of the Plumbing systems on set _____?

Is _____ for _____ to complete _____ assessments of the reverse _____ prevention _____ network?

When _____ finish _____ obligatory _____ of our _____ systems' _____ flow _____ efficacy?

When _____ comes to fulfilling _____ mandatory _____ inspections _____ the reverse _____ in _____ are we _____ to _____ time limits?

_____ there a mandated _____ for completing the yearly _____ flow prevention _____?

_____ there _____ specific time _____ the yearly _____ of water _____ flow _____?

_____ there _____ deadline for _____ our mandatory _____ assessments _____ flow _____?

Any _____ for _____ completion of _____ yearly checks _____ our _____ setup's _____ at preventing _____ potential _____.

_____ that our plumbing setup effectively _____ flow, are there _____ for _____ the annual _____?

Is it mandatory for _____ reverse _____ prevention _____ take _____?

For _____ completion of required yearly _____ our plumbing _____ any potential backflows, any defined _____

Can _____ tell _____ a _____ time frame for yearly _____?

_____ there _____ specific _____ period to complete annual _____ plumbing's anti-backflow _____?

_____ anti-reverse flow capability requires _____.

_____ any schedules exist for _____ prevention abilities of _____ plumbing _____?

What is _____ specific time _____ on reverse flow _____ pipes?

_____ effectively _____ reversals _____ water flow, _____ set deadlines for completing the annual exams?

_____ a requirement _____ on our plumbing's _____ in _____ flow prevention.

Do _____ time frame to finish _____ on _____ obstruction?

_____ you _____ for _____ out _____ plumbing systems' ability to prevent backflow?

Is there a fixed _____ for _____ the _____ assessments of _____ back flow?

_____ it _____ our _____ inspections of _____ reverse flow _____ our plumbing systems, do we stick _____ limits?

_____ there any defined _____ for _____ reversal _____ in _____ plumbing _____?

_____ we _____ deadlines _____ we check the _____ for _____?

_____ a specific _____ completing our _____ of the reverse _____ prevention capabilities?

_____ carrying _____ annual evaluations concerning _____ capacity _____ plumbing systems' _____ to _____ backflow, should _____ adhere _____ specific deadlines?

_____ to fulfilling _____ yearly inspections _____ prevention abilities _____ plumbing _____ do we follow a specific time limit?

Is _____ period for _____ evaluations _____ backward flux prevention capabilities in _____ plumbing _____?

_____ yearly testing on the _____ system's _____ is _____.

Any set time frame _____ carrying _____ regular _____ of our _____ backflow?

Is there _____ time _____ the _____ of _____ flux prevention?

_____ comes to fulfilling _____ mandatory _____ flow _____ abilities in our _____ systems, do _____ follow _____ time limits?

Do you _____ a fixed _____ to complete _____ reverse _____?

Any defined _____ for ensuring _____ required _____ checks regarding _____ plumbing _____ efficiency _____ preventing any potential _____

Can _____ tell _____ what the _____ the _____ flow prevention tests?

_____ there a _____ for yearly reverse _____ ?
_____ a set time frame for _____ inspections?
There _____ time limits for completing _____ mandatory _____ our plumbing's _____ to _____ .
Time frames _____ check?
_____ an annual assessment of _____ backflow that must be _____ .
We need to complete _____ checks _____ reverse flow _____ .
Do you have _____ set _____ finish _____ on reverse-flow _____ ?
_____ you provide _____ time to _____ the _____ flow _____ ?
There is _____ for the _____ testing _____ system reverse _____ preventers.
Is _____ any time _____ yearly _____ flow _____ checks?
Is it compulsory for us to _____ yearly assessments _____ reverse _____ plumbing network?
_____ set time _____ the annual evaluations _____ backward flux _____ the plumbing _____ ?
_____ set _____ by which we _____ to _____ our _____ inspections _____ Plumbing systems?
There may be _____ restrictions on _____ checks of _____ our _____ .
Should _____ abide by specific _____ when it _____ to _____ out _____ of _____ capacity to _____ backflow?
_____ you have _____ testing our _____ systems' ability to prevent _____ ?
Do you _____ for conducting _____ tests _____ ability _____ system to _____ reverse flows?
Is _____ deadline for yearly testing of _____ preventers?
_____ yearly checks _____ pumping _____ come with _____ deadlines?
Is _____ for _____ reverse flow prevention _____ in our _____ systems?
_____ we _____ the timelines _____ annual _____ regarding the _____ plumbing system's mechanism _____ backflow occurrences?
_____ in _____ the yearly assessments of reverse _____ prevention _____ plumbing systems?
_____ tell me the exact _____ our _____ flow prevention _____ ?
How long will _____ the _____ evaluations _____ our _____ anti- backflow capabilities?
_____ provide _____ with _____ deadlines _____ yearly _____ reverse flow prevention tests?
To ensure completion _____ required yearly checks _____ our plumbing _____ at _____ any defined timeframes _____
_____ a _____ for _____ testing of _____ reverse flow preventers?
Is there _____ for _____ checks _____ plumbing reverse _____ ?
Are _____ place _____ completing _____ reversibility checks?
_____ much time do _____ have _____ complete _____ annual assessments to _____ from _____ it _____ ?
_____ to conduct _____ inspections on our _____ systems _____ prevent _____ flow.
_____ timeframes set _____ of required yearly checks regarding our plumbing _____ efficiency _____ potential returning
_____ have _____ annual _____ on _____ plumbing system's reverse flow _____ .
Fixed periods _____ annual assessments _____ prevention _____ plumbing?
Are there deadlines for yearly _____ of _____ ?
Can there _____ intervals for _____ yearly checks _____ reverse flow prevention?
Is _____ possible to _____ for _____ annual investigations _____ reverse _____ in our _____ system?
We have _____ perform _____ on _____ systems _____ prevent _____ flows.
_____ have _____ time set to finish _____ reverse-flow blockage?
Do you have specific _____ the plumbing system's ability _____ ?
_____ official _____ for the _____ reverse flow prevention _____ ?
_____ a _____ timetable for _____ to complete _____ assessments?
_____ a _____ time frame for yearly _____ reviews?
_____ deadlines _____ plumbing _____ flow _____ checks.
Can _____ me how long _____ finish _____ on reverse-flow blockade?
_____ there _____ schedules for _____ yearly assessments _____ flow _____ in our _____ ?
_____ time limits _____ it comes _____ fulfilling _____ mandatory _____ the reverse flow _____ in our plumbing systems?
_____ have deadlines in place _____ yearly _____ on these _____ ?

_____ much time is _____ for _____ out our _____ verifications _____ reverse-return _____ blockage _____ ?

_____ defined periods _____ reversal prevention _____ plumbing systems?

Can _____ provide _____ for the _____ flow _____ ?

Do we _____ for _____ annual _____ on _____ plumbing's _____ features?

When _____ we _____ to do _____ on our plumbing _____ prevention _____ ?

_____ there deadlines for _____ tests on our _____ system's ability _____ ?

_____ there a specific _____ for completing _____ of the reverse flow _____ capabilities _____ plumbing _____ ?

When do we _____ check _____ flow prevention _____ yearly?

Is it compulsory _____ yearly plumbing _____ flow prevention _____ ?

Are there _____ regular _____ of our _____ systems' ability _____ backflow?

Should _____ timelines for _____ annual _____ on _____ flow _____ efficiency in _____ plumbing system?

Is the official _____ our _____ reverse _____ tests?

Is there a timescale for completing the _____ of _____ ?

Is _____ a _____ frame for _____ yearly _____ plumbing's _____ prevent backflow?

Is _____ fixed time to complete the _____ ?

Do you know _____ time frame _____ reverse-flow blockage?

_____ timeframes set _____ of required yearly checks regarding our _____ setup's efficiency _____ any _____ returning _____

_____ there _____ set schedule _____ the reverse flow _____ abilities of _____ ?

How _____ will it take to _____ the _____ our plumbing systems' _____ .

_____ timelines for ensuring completion _____ required _____ checks regarding our plumbing setup's _____ any _____ backflows _____ the _____

_____ there _____ frame for _____ the _____ of our plumbing's _____ prevent backflow?

There _____ requirement for _____ on _____ plumbing's ability _____ backflow.

_____ there a _____ frame to fulfill _____ of the _____ flow _____ ?

Is _____ a _____ time period for the _____ flux prevention _____ plumbing _____ ?

_____ have to _____ our _____ the reverse flow prevention capabilities _____ plumbing _____ .

Is there _____ defined _____ examining _____ prevention _____ plumbing systems?

When _____ need to check the _____ flow prevention _____ ?

Is _____ time _____ completing the annual _____ plumbing's ability _____ backflow.

Should _____ specific _____ out _____ of _____ plumbing systems' _____ to prevent backflow?

Can _____ if there are _____ the annual _____ and _____ of the _____ system _____ preventing _____ ?

Is _____ a fixed time _____ completing required _____ examinations of our plumbing _____ ?

Is _____ official deadlines _____ our _____ plumbing _____ prevention tests?

When should _____ the yearly _____ reverse flow _____ ?

Any set _____ for evaluating the _____ of our _____ ?

_____ there _____ annual plumbing reverse _____ prevention checks?

_____ me the deadlines for _____ annual _____ reverse flow _____ ?

When do _____ checks on _____ plumbing reverse _____ prevention _____ be _____ ?

Is _____ to complete _____ annual assessments _____ plumbing's ability _____ prevent _____ within a _____ period _____ ?

Should we follow specific _____ for carrying _____ the _____ of plumbing _____ to _____ ?

_____ there _____ time _____ for _____ the assessments of _____ reverse _____ capabilities?

_____ official deadlines for our yearly _____ prevention _____ ?

_____ finish the _____ assessments of plumbing systems?

What deadlines _____ completing annual reversibility _____ on _____ systems?

The yearly _____ system's capacity to _____ an obligation.

Do _____ our reverse _____ prevention abilities evaluated _____ year?

There _____ yearly checks on _____ plumbing's _____ .

To ensure _____ required _____ checks _____ plumbing _____ efficiency at _____ potential backflows, a set of _____

How are _____ for _____ yearly _____ reverse _____ prevention _____ ?

Shouldn't we _____ for _____ annual _____ prevention in our plumbing system?

Do ____ have ____ for ____ evaluations ____ plumbing system's backward ____ prevention capabilities?
 ____ there ____ for completing required yearly exams ____ plumbing system's ____ prevention ____?
 ____ yearly plumbing ____ checking?

Is it possible ____ designate timelines ____ on the reverse ____ efficiency ____ the ____ system?
 ____ there ____ for examining our plumbing system's ____ capabilities?
 ____ anyone ____ takes ____ out annual verifications regarding reverse-return pipe ____ prevention ____?

Do you ____ time limit to ____ vital ____ on ____?
 Do ____ exist for ____ checks on our ____?
 ____ set timelines ____ carrying ____ systems' ability to prevent backflow?

What ____ the deadlines ____ of ____ plumbing ____ ability to prevent backflow?
 The plumbing ____ reverse flow ____ to be ____.
 ____ must ____ our plumbing ____ for reverse flow ____ but ____ specific ____ limits?
 ____ a ____ for completing the annual ____ our ____ to prevent back ____?

Timeframes for ____ check ____ our ____?
 ____ we able to set timelines for ____ of ____ in ____ system?

Do ____ follow ____ time ____ when it ____ fulfilling ____ mandatory annual ____ flow prevention abilities ____
 our ____ systems?

____ our yearly ____ reverse flow ____ checks ____ to be ____?

Is there a ____ limit ____ checks on ____ plumbing ____ backflows?
 ____ comes to fulfilling ____ the reverse ____ prevention ____ in our ____ we adhere to ____ time
 limits?

____ idea ____ have designated timelines allocated ____ perform annual investigations on ____?
 ____ there ____ check ____ plumbing ____ capacity to prevent backflows?
 ____ it comes ____ fulfilling our mandatory ____ inspections ____ flow prevention abilities in ____ plumbing systems, ____
 ____ time ____?

____ have ____ frames for ____ yearly ____ of ____ capabilities in ____ plumbing system?

Are ____ certain ____ by which we ____ to ____ Plumbing systems?

Do we follow ____ time limits ____ it comes ____ flow ____ checks?
